PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL DEPARTMENT.

## NOTIFICATION.

*The 21st August 1885.*—Whereas a notification was published at page 486, Part I of the *Calcutta Gazette* of the 27th May 1885, declaring the intention of the Lieutenant-Governor to extend the provisions of Part IX of the Bengal Municipal Act, III (B.C.) of 1884, to the portion of the South Suburban Municipality situated within the boundaries specified below, and whereas no objection has been raised to the proposal within one month from the date of the publication of the notification within the above municipality, it is hereby notified for general information that, in the exercise of the powers conferred on the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the said municipality made at a meeting, the Lieutenant-Governor directs that Part IX of the Act be extended to the portion of the municipality referred to, with effect from the 1st October 1885.

### *Boundaries.*

*North.*—The Tollygunge Bridge road.

*South.*—The northern extremity of Burrabagan.

*East.*—The Russapugla road.

*West.*—The east bank of Tolly's Nullah.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

[Second Publication.]

## NOTIFICATION.

*The 22nd August 1885.*—It is hereby notified for general information that in the exercise of the powers conferred on him by section 86 of the Bengal Municipal Act, III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Julpigoree Municipality, made at a meeting, the Lieutenant-Governor intends to sanction the levy by the Commissioners, under section 131 and section 143 of the Act, of a tax on carriages, horses, and other animals, mentioned in the fifth schedule of the Act, at half the rates mentioned in the said schedule, and of a fee at Rs. 3 per annum on the registration of carts kept or habitually used within the municipality, unless good reasons are shown to the contrary within one month from the date of publication of this notification within the municipality.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 22nd August 1885.*—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Baboo Shyama Charun Das to be a Commissioner of the Midnapore Municipality, *vice* Dr. J. L. Phillips, resigned.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 22nd August 1885.*—It is hereby notified that, under section 22, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to re-appoint Colonel R. O. Money to be a Commissioner of the Durbhunga Municipality.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 22nd August 1885.*—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Baboo Fatick Chunder Mozumdar to be a Commissioner of the Coomercolly Municipality, in the Nuddia district, *vice* Baboo Guru Govindo Pattadar, resigned.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 25th August 1885.*—It is hereby notified that, under section 27 of Act III (B.C.) of 1884, the Lieutenant Governor is pleased to appoint Baboo Koilash Chunder Banerjee to be a Commissioner of the South Barrackpore Municipality, *vice* Baboo Amrito Lal Roy Chowdhuri, resigned.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 25th August 1885.*—It is hereby notified for general information that in exercise of the powers conferred on him by section 86 of the Bengal Municipal Act, III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Mozufferpore Municipality, made at a meeting, the Lieutenant-Governor intends to sanction the levy by the Commissioners, under section 131 of the Act, of a tax on carriages, horses, and other animals mentioned in the fifth schedule of the Act, and of a fee on the registration of carts kept or habitually used within, or let on hire within or without, the municipality at the rates not exceeding those specified in section 143 of the Act, unless good reasons are shown to the contrary within one month from the date of publication of this notification within the municipality.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 31st August 1885.*—It is hereby notified for general information that in the exercise of the power conferred on him by section 6, clause c of the Bengal Ferries Act, I (B.C.) of 1885, the Lieutenant-Governor is pleased to establish a public ferry over the river Hooghly at Nainan, in the district of the 24-Pergunnahs.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 25th August 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Bankoora Municipality for a public purpose, viz. for a burial and burning ground at Rajgram, in mouzah Damalya, within the Bankoora Municipality, in the district of Bankoora, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 beegahs and 8 chittacks of standard measurement is required. The land is bounded on the north by the river Dalkesvar; on the south by the cultivated land of Madhab Chatterjee and Sridhar Nandi; on the east by the cultivated land of Nafar Nandi; and on the west by the waste land of Bharat Dana.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

**NOTICE** is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the district of Nuddea, will be put up to sale at the Nuddea Collectorate on Monday, the 28th of September 1885, corresponding with 18th Ashvin 1292.

The purchasers will be subject to the following conditions of sale—

*Conditions of Sale.*

**1st.**—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

**2nd.**—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

**3rd.**—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

**4th.**—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of the sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

## Calcutta Port Trust.

## GUARANTEED DEBENTURE LOAN, 1885.

*The Calcutta Port Improvement Act, V of 1870 (B.C.), and the amending Acts, and the Act to enable the Commissioners for making Improvements in the Port of Calcutta to construct Docks at Kidderpore, Act II (B.C.) of 1885. Issue of seventy-five lakhs of Rupees, 4½ per cent. debentures, having a currency of not less than forty years. Interest guaranteed by the Secretary of State for India in Council until such time as the loan is repaid.*

**TENDERS** are invited for a loan of seventy-five lakhs of rupees at 4½ per cent. interest upon debentures to be issued under the provisions of Act II (B.C.) of 1885 to provide for the construction, equipment, maintenance, and management of the docks at Kidderpore, such loan having been sanctioned by His Honor the Lieutenant-Governor of Bengal with the previous sanction of the Governor-General in Council by notification published in the *Calcutta Gazette* of the 22nd July 1885, Part I, page 717, the payment of interest thereon being secured by the guarantee of the Secretary of State for India in Council until such time as the loan is repaid.

The debentures will be for sums of Rs. 100 each, or multiples of Rs. 100, as may be desired, made payable to order, and carrying interest at the rate of 4½ per cent. per annum, payable half-yearly on the 1st day of January and 1st day of July at the office of the Port Commissioners upon presentation of the debentures. Twenty-five per cent. of the amount tendered for to be paid on 1st October, 25 per cent. on 1st November, and the balance on 1st December 1885, into the Bank of Bengal. Any allotment may, however, be paid in full at the option of the tenderer upon receipt of letter of allotment, and interest will run on such payments from the date of the Bank's receipts. The Bank of Bengal's receipts for the payments should be forwarded to the Port Commissioners, who, upon the receipt of the acknowledgment for the final instalment, will issue the debentures for the amount allotted in such sums as the holders of the receipts may desire. Arrangements will be made, if required, to encase debentures issued under this loan for payment of interest in England by drafts on India.

Tenders in the prescribed form should be filled up and forwarded in sealed covers superscribed "Tender for Port Trust Dock Loan, 1885," to the Secretary to the Port Commissioners before noon of Wednesday, the sixteenth day of September 1885, accompanied by either Government Promissory Notes equal in value to, or a receipt from the Bank of Bengal for, 2 per cent. upon the amount of each debenture applied for.

The deposit of 2 per cent. will be returned if an allotment is not made, and it will be forfeited if an allotment after being made is not fully taken up.

In case a less number of debentures is allotted than is applied for, the excess of the deposit will be applied in or towards payment of the balance due upon such number as may be allotted.

The tenders will be opened in the presence of the Port Commissioners. The minimum rate at which tenders will be accepted will be recorded under the signature of the Chairman and before the tenders are opened, but will not be made public unless some tender is rejected only because it is below the recorded minimum.

Forms of tender can be obtained on application to the Secretary to the Port Commissioners, and the form of debenture can be seen at the office of the Secretary. A separate tender must be made for each rate.

R. A. DONNITHORNE, Secretary.

Port Commissioners' Office, dated 23rd July 1885.  
(416-5)

## Partnership.

**THE** interest, responsibility, and connection of Baboo Bemalacharan Biswas, who was a manager of my miscellaneous shop at No. 151, Old China Bazar Street, which had hitherto been carried on in his name, ceased on the 30th July 1885. The public are hereby informed that all assets and liabilities of the above shop will henceforth be received and met by me, and further I shall not be responsible for any money or goods paid to or taken from him on my account.

GOPAL CHANDRA ATTA, Proprietor.

**WANTED** one Overseer on a salary Rs. 35 and horse allowance of Rs. 15, and a Draftsman on Rs. 25. The candidates for the post of Overseer should possess the qualification of an Overseer of the Public Works Department, and those for the post of the Draftsman should possess a fair knowledge of English and good knowledge of drawing. Applications with copies of testimonials will be received by the undersigned before the 25th of September. Candidates are requested to apply in their own handwriting and with specimens of drawing and printing.

N. G. BANERJEE, Dist. Engr. of Bankoora.

(532-3)

**NIL KANTH SAHAY**, B.L., intends to be enrolled as a Vakil of the Calcutta High Court.

(474-4)

## In the goods of Rajah Hurrish Chunder Chowdry, deceased.

**THE** public are hereby informed that letters of administration to the estate of the deceased above named were, on the 22nd August instant, granted to Coomar Upendro Chunder Chowdry, the adopted son of the said deceased. All persons having claims against or indebted to the said estate are requested to make known the same, and pay their debts to the said Coomar Upendro Chunder Chowdry.

BHOOBAN MOHAN DAS, Attorney-at-Law,  
High Court, Calcutta.

26th August 1885.

(521-1)

**IN** pursuance of section 42, Act XXVIII of 1866, notice is hereby given that all persons having claims against the estate of James Inglis, late of Dilkoosha tea estate, Cachar, tea-planter, who died on the 18th day of February 1885, should send in their claims to the undersigned on or before the 1st December 1885, after which date no claims will be admitted, and the assets of the estate will be distributed.

ALFRED SPICER,

Pathecherra Tea Estate, Udabund, Cachar,  
one of the executors of the abovenamed deceased.  
25th August 1885.

(533-3)

(541—1)

In the matter of JOHNBRYMULL BUNSEEDHUR and SREE LALL, insolvents.

On Wednesday, the 22nd day of July last, it was ordered, that subject to payment to John Cameron Macgregor, Esq., the Official Assignee of this court, and the assignee of the estate and effects of the said insolvent, of his usual commission and all costs and charges lawfully due, the adjudication of the said insolvent be revoked, and the vesting order made thereon be discharged, provided always that all acts or things done by the said assignee or other person acting under his authority prior to this order shall be good and valid and shall not be annulled or in any wise affected thereby, and upon payment of his commission and all costs, charges, and expenses lawfully incurred by him as aforesaid, the said assignee do deliver over to the said insolvent upon his receipt all the estate and effects, moneys, goods, books, and papers now remaining in the hands of the said assignee belonging to the estate of the said insolvent.

Nundogopal Newgie, Attorney.

(542—1)

Chief Clerk's office, the 31st day of August 1885.

Berhampore, the 31st August 1885.

#### Notice

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e. from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,

Meteorological Reporter to the Govt. of Bengal.  
Meteorological Office, Bengal, the 3rd July 1883.

## INDIAN LAW REPORTS.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, by the Calcutta Central Press Company, "Limited," 5-1, Council House Street, at the following rates, payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	Rs. 15	Rs. 10	Rs. 6
„ three issues	„ 40	„ 25	„ 14
„ six „	„ 70	„ 40	„ 25
„ twelve „	„ 110	„ 70	„ 45

At these rates the advertisers will have the option of changing their advertisements in each issue.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

## The Indian Law Reports,

*Published under Authority.*

**T**HE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

Without postage. With postage.

For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
„ each of the Madras, Bombay, and Allahabad Series ...	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (inclusive of postage in India) .....	.....	„ 2 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India) ...	.....	„ 1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

„ Thacker & Co., Bombay.

„ Higginbotham & Co., Madras.

The Government Central Book Depot, Bombay.

„ Curator of Government Books, North-Western Provinces and Oudh.

Superintendent of Government Printing Bengal.

Orders and subscriptions for 1885 should be at once remitted.

## RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE BURDWAN DIVISION FOR THE YEAR 1884-85.

### GENERAL DEPARTMENT—MISCELLANEOUS.

*Calcutta, the 29th August 1885.*

#### RESOLUTION.

READ—

The General Administration Report of the Burdwan Division for 1884-85.

Mr. Beames was Commissioner of Burdwan throughout the year except for a short period, during which Mr. Wilson acted for him. The report is submitted by Mr. Lewis, who took charge of the division after the close of the year.

2. *Annual tours.*—Owing to the prevalence of scarcity in some parts of the division, the transfer of the Commissioner's office from Chinsurah to Burdwan, and the necessity for that officer's attendance at certain public ceremonies, the Lieutenant-Governor sanctioned a departure from the ordinary rules regulating the duration of his cold-weather tour. In spite of these special interruptions, all the district offices but one were inspected, and those sub-divisions were visited where the Commissioner's presence was most urgently required. The tours of the district officers came up to the proscribed standard everywhere except in Howrah, where the Magistrate was detained at head-quarters by municipal business. In Tumlook, Kulna and Serampore the sub-divisional officers were out in camp for less than the regular period,

but in each case the deviation from rule is satisfactorily explained. Mr. Warde-Jones, in charge of Rampore Hât, appears to have done useful work among the Sonthals in the west of his sub-division, and to have given special attention to the improvement of village sanitation.

3. *Weather and crops ; public health.*—In Burdwan, Bankoora and Beerbhoom the rainfall of the year was deficient in quantity and unevenly distributed over the district area. A cessation of the rains in July prevented sowing and retarded transplantation, while the maturing crop suffered from insufficient rain in August and September. Thus in those parts where the rainfall was least plentiful a large area of land remained uncultivated, and the area actually tilled yielded a comparatively scanty return. Artificial irrigation was freely resorted to from tanks and from the Eden Canal in Burdwan ; but the former source of supply is said to have deteriorated, owing to the tanks having silted up through the neglect of their proprietors, and to the rainfall of the last two years having been insufficient to fill them properly. A large area of country is said to have been saved from failure by the Eden Canal ; this canal was not constructed with a view to irrigation, but to ensure a supply of good drinking water to the villages along its course. Under the exceptional circumstances of the year, permission was given to make use of the water for purposes of irrigation as far as this could be arranged for. In Midnapore, Hooghly and Howrah the crops were generally good, and the high prices which prevailed enabled the cultivators to dispose of their surplus to the best advantage. In the Metropolitan districts of Hooghly and Howrah, the cultivation of valuable staples, such as sugarcane and potatoe, is reported to be increasing.

Throughout the division the public health was generally good. The unusual dryness of the year seems to have led to a decrease in fever, while on the other hand the number of deaths from cholera rose owing to the deficient supply of good drinking water. In this respect the town of Burdwan derived substantial benefit from the new water-works. In the interior of the division the common practice of using the same tank for bathing, washing and drinking forms a standing obstacle to sanitary improvements. Here the evil is too widespread to be reached by any action of Government, and it can only be hoped that the village agencies to be organized under the Local Self-Government Act will direct their efforts towards the gradual introduction of improved methods of rural sanitation. During the past year vaccination made substantial progress in Midnapore, and the system is said to be generally popular in all districts of the division.

4. *Material condition of the people ; emigration ; price of food and labour.*—In the three northern districts of the division, the partial failure of the rice crop following upon previous bad harvests pressed severely upon the resources of the lower classes. Day-labourers suffered from want of work, and the poorer cultivators found difficulty in obtaining advances to enable them to cultivate their fields ; hence large numbers of both classes quitted their homes in search of work, leaving their families to be supported by Government relief or private charity. For the most part these were temporary emigrants, seeking employment on agricultural labour in neighbouring districts or on the earthwork of the Bengal-Nagpore Railway ; but in addition to this local emigration, there seems to have been an increase in the number of emigrants to the tea districts of Assam. Thus it is reported that 1,651 persons were registered for Assam in Burdwan, and that 8,122 persons left the district as free emigrants. Many of these, however, were natives of Chota Nagpore and Behar, and there are no means of ascertaining precisely the extent to which the regular population of the Burdwan district were induced by scarcity to enter into engagements to labour in Assam.

The average price of rice for the division rose from Rs. 2 per maund in 1883-84 to Rs. 2-7 per maund in the year under report, the highest average being Rs. 2-10-6 in Burdwan. That the rise was not greater seems to be due to the existence of considerable stocks of grain, and to the fact that distress was confined to a limited area readily accessible by rail. Wages are said to have fallen in the northern districts, and this has no doubt taken place in the case of unskilled labour ; but the statement made in the report as to the former rates seems to be incorrect. Nowhere in Western Bengal, so far as the Lieutenant-Governor is aware, do the wages of unskilled labour run as high as four annas a day.

5. *Manufactures and mines.*—The manufacture of mulberry silk continues to decline, owing, it is believed, to the competition of China and Italy. Tusser silk on the other hand has been more in demand, and last year's outturn in Beerbhoom was valued at Rs. 96,030 against Rs. 46,675 in 1883-84. Country-made cotton cloth, though more durable than Manchester stuffs and preferred to the latter by the higher classes of natives, is said to be gradually giving place to the cheaper though less substantial cloth imported from England; and many weavers have been driven to abandon their hereditary calling and take to other work. Certain qualities of country cloth, however, still hold their own in the market, and the Magistrate of the district estimates that in the Howrah *hāt*, the chief mart for the cotton goods of Hooghly, Howrah, Midnapore and parts of Nuddea, the sales of country-made cloth amount to 18 lakhs of rupees a year.

Of the ten jute mills in the division, all but one show a depreciation in the value of outturn, and one concern was closed early in the year. The export of indigo from Midnapore declined. Shell-lac was produced more largely than in the previous year, but the business is said to have been unremunerative, owing to a rise in the price of the raw material and a fall in that of shell-lac.

The sales of iron from the Government iron works near Burrakar rose from 122,000 to 498,000 tons. Iron ore and coal are plentiful in the neighbourhood of the works and a permanent supply of limestone has now been secured at a reasonable rate of royalty to the owner of the soil. Messrs. Burn and Co.'s pottery works at Raneegunge continue to prosper. They employ 700 men a day, and the value of their last year's outturn is estimated at Rs. 2,15,000.

The coal trade appears to have suffered from the depression of trade in general, and the exports from Raneegunge fell from 796,937 in 1883-84 to 635,921 in the past year. Regarding the working of some of the smaller mines, the Sub-Divisional Officer of Raneegunge remarks—

"My attention has recently been called to a custom prevailing in some workings in the hands of natives. The owners, on payment of a certain sum, allow the carters to cut the coal as much as they can carry away in one cart. These men are not necessarily skilled men, and in the absence of supervision it is not extraordinary that there was a fall, resulting in the death of two men."

6. *Trade and commerce.*—In Burdwan and Beerbhoom there was a marked falling off in the export of rice owing to the scanty harvest and to the fact that stocks were held by the local dealers in anticipation of a further rise of prices. In Bankura the export trade in rice ceased altogether, and in Midnapore, though the crop was abundant, exports declined owing to the closing of the Hidgellee canal for repairs at a time when trade is most active. The import of salt into Beerbhoom shows a considerable rise, but a large portion of the demand came from the Sonthal Pergunnahs. In Hooghly the operations of trade were normal during the year. The opening of the Tarkessur Railway, however, is likely to produce a great development of trade in the subdivisions of Serampore and Jehanabad. The following statement shows the traffic of the canals for the last three years:—

YEAR.	EXPORT.		IMPORT.	
	Quantity.	Value.	Quantity.	Value.
		Rs.		Rs.
1882-83	3,717,836	91,99,173	1,605,419	58,19,821
1883-84	4,479,993	1,12,98,874	1,765,014	1,02,96,931
1884-85	3,864,412	84,80,174	1,733,117	1,02,79,673

7. *State of public feeling.*—In the parts of the division near Calcutta, the discussions preceding the passing of the Bengal Tenancy Act are said to have been watched with intelligent interest, but in the remoter districts the majority of the population were hardly aware that any such discussions were going on. The elections for the municipality caused much local excitement in Howrah, and every vacancy on the Committee was keenly contested. Elsewhere the

popular activity on these occasions seems to have depended more upon the vigour which individual candidates displayed in canvassing than upon the interest taken in the election proceedings by the people themselves. With the Local Self-Government Bill, the case seems to have been different. This measure will affect the details of rural life throughout the country, and it is not surprising that the educated men, who are to be found in most villages of Bengal Proper, should have shown a natural and healthy interest in its provisions. This interest, indeed, is so keen as to threaten with a special danger the prospects of working the Act successfully. While town life tends on the whole towards stagnation, village life in Bengal is kept in constant activity by the existence of rival parties or factions by which all questions affecting the community are vigorously debated. These groups will of necessity play an important part in the administration of the new Act, and the Lieutenant-Governor takes this opportunity of expressing the hope that, in exercising the privileges now conferred upon them, they will show such discretion and moderation as to attain the practical objects which the measure has in view.

Three newspapers were published in the division during the past year. The *Shadurani* ceased to exist, and the *Medini*, after being discontinued for a time, reappeared under the name of the *Nava Medini*. All of these publications are described as well-conducted journals, and it is particularly remarked that the *Nava Medini* is free from the petty scurrilities and personal attacks upon individuals for which its predecessor was conspicuous.

8. *Crime*.—The number of cognizable cases reported shows an increase of 2 per cent., chiefly under the head of offences against property, which is attributed to the failure of crops and the high prices of food-grains. There were 32 dacoities against 26 in the previous year, the number in Bankura rising from 1 to 12. Most of these, however, were crimes of a petty character, traceable more or less to the prevalent scarcity, and not committed by professional criminals. The entire freedom of the Hooghly district, formerly noted for dacoities, from this class of crime, is attributed to the organization of an effective system of patrol out of the proceeds of the resumed police tenures. The percentage of convictions to persons brought to trial shows no material variation. The regular police are said to have worked well. The remarks of the Commissioner as to the strength of the force being proportionately less in the densely populated districts of Howrah and Hooghly, where bad characters are said to abound, and the railway enables professional criminals to work with less risk of detection, will be considered in the Judicial Department. Regarding the working of the rural police opinions seem to differ, and it may be inferred that, in the Burdwan Division as elsewhere, the efficiency of this body of men depends upon the degree of skill with which it is organized, and the attention with which the working of the organization is watched. On the whole the Lieutenant-Governor has no doubt that whether paid in land or in cash, the force is capable of being utilized in a more systematic manner and with greater effect than is the case at present, and he hopes to be able to undertake legislation on the subject shortly. In the meantime it is satisfactory to find that, in the Burdwan Division, the chowkidars appointed under Act VI of 1870 attended regularly at police stations, and that a considerable number of them obtained rewards for good service during the year.

9. *Civil Justice*.—The following statement gives the statistics of civil litigation in the division for the last two years:—

	1883.	1884.
I.—Suits for money or moveables	25,281	31,613
II.—Rent suits	28,679	31,042
III.—Title and other suits	6,458	5,941

The partial failure of crop in parts of the division is referred to in explanation of the general decrease of civil suits in Beerbhoom, and of the increase of suits for money and moveables in Burdwan, Bankura and Hooghly. On this point the Judge of Burdwan remarks—

“It is quite possible that the distress may have operated in both the ways indicated above. If the term of limitation was near its expiry, creditors would have felt constrained to bring suits into court on the chance even of ultimately receiving the amount decreed

to them at some future period, whilst in other cases, where delay was of no consequence, creditors would possibly have consented to postpone their demands until their debtors were in a better position to pay them."

The amounts realized in execution of decrees were everywhere greatly in excess of the results of the previous year. Proceedings, however, are said to be very costly both to decree-holders and judgment-debtors.

10. *Land Revenue*.—The revenue demand of the division was Rs. 81,64,598 from 13,613 estates. Including an arrear demand of Rs. 4,35,893, the total for realization during the year amounted to Rs. 86,00,491. The percentage of total collections on this demand was Rs. 85-8, leaving the heavy balance of Rs. 11,82,590 outstanding at the close of the year. Of this sum, however, Rs. 8,00,000 were due from the Burdwan Estate and have since been paid, while Rs. 1,70,766 were outstanding in the estates of Jellamoota and Majnamoota in Midnapore. The land revenue operations of the division will be noticed in greater detail in reviewing the Board's Land Revenue Report. The Midnapore survey was nearly completed during the year, and arrangements were made for completing the Bankura ghatwali survey on a cheaper and more expeditious system than that hitherto in force. Land registration is still incomplete in the districts of Hooghly and Midnapore. The Revenue Sale Law appears to have been worked with discretion during the year, and out of 1,029 estates which defaulted, only 209 were actually sold. The correction of errors in the classification and measurement of lands in Jellamoota and Majnamoota made good progress, and an attempt is now being made to effect a compromise with those raiyats who appealed to the High Court to contest the validity of the rates.

*Excise and Stamps ; License-tax*.—Excise revenue fell off in all districts of the division except Midnapore, the decrease being most marked in the districts of Bankura and Burdwan, where there was a partial failure of the rice crop, and under the heads of country spirits and pachwai, which are consumed most largely by the classes who felt the scarcity most. The total collections on account of excise revenue amounted to Rs. 10,28,844, or Rs. 33,484 less than in the previous year.

The gross collections from the sale of all descriptions of stamps, except postal and telegraph stamps, rose from Rs. 14,86,560 to Rs. 15,33,939 during the year. The sales of non-judicial stamps increased throughout the division, while the demand for court-fee stamps fell off in Burdwan, Bankura and Beerbhoom. For both of these variations the failure of crop in the northern districts is said to have been the cause. On the one hand it is said the straitened circumstances of the cultivating classes compelled them to part with their property, and thus raised the demand for non-judicial stamps, while on the other enforced abstinence from litigation reduced the sales of court-fee stamps. Regarding court-fee stamps the Commissioner remarks—

"The change introduced in July 1883 in the description of court-fee stamps has caused great difficulty in distinguishing a court-fee of one denomination from that of another. The inconvenience arising from the uniformity and identity of colour is intensified by the absence of any figures in the vernacular languages of India expressing the values of the stamps. It would, I consider, be an improvement if the stamp bore on its face the impress of its value decipherable by those who do not know English."

12. *Railways public works and communications*.—Work was commenced on the Bengal-Nagpore Railway in October 1884, and pushed on with great vigour until the end of March 1885, when operations were suspended in consequence of financial difficulties and the necessity of developing communications on the north-west frontier of India. The earthwork on this railway was especially relied upon by this Government as a means of providing remunerative labour for persons suffering from the failure of crops in the adjoining districts, and at the time when the works were stopped, a large number of persons were so employed. Thus the stoppage of works has seriously interfered with the scheme for relief operations, partly by throwing upon their own resources the persons already collected on the railway, and partly because no arrangements had been made to provide relief works on a large scale in the distressed districts, as it was intended to send all able-bodied labourers to the railway works. The Tarkessur Railway was opened in January 1885, and at

once obtained a large passenger traffic. Regarding the goods traffic of the line, the Collector of Hooghly remarks—

“It was hoped that this railway would to a large extent relieve the district roads from Baidyabati westwards of a large amount of country cart traffic, which cuts them up to a ruinous extent, and thus let free a certain sum for expenditure on feeder roads for the same railway. As yet, however, this result has not been attained, as the distances from the several stations of the railway to the great mart at Seorapholi are too short to make it worth while for carts to load and unload.”

The project for extending the line to Jehanabad and Ghattal has not yet got beyond the stage of mere discussion: but it is in contemplation to commence collecting statistics of the existing traffic, which will throw considerable light upon the probable earnings of the extended line. Two short branch lines were opened to the East Indian Railway near Barrakar and Sitarampur. No serious accidents occurred during the year on the East Indian Railway, and the management of the line is favourably reported on.

Among public works, the Burdwan water-works, which were opened by the Lieutenant-Governor in November 1884, have been much appreciated by the people of Burdwan in a year of unusual drought. The Eden Canal also proved serviceable both as supplying drinking water and for the purpose of irrigation.

Nearly four lakhs and a half was spent upon district roads during the year, and half a lakh on village roads. The Commissioner does not state what progress was made in Hooghly, where some mismanagement of the resources at the disposal of the District Committee formed the subject of remarks in the Resolution on last year's report. In the other districts of the division, road work seems to have been successfully administered during the year. In Bankura Rs. 6,510 were spent in village roads in order to give employment to labourers in the area affected by scarcity.

13. *Education.*—The statistics of education in each district of the Burdwan Division during the past year are shown in the following statement:—

DISTRICTS.	Area in square miles.	Estimated population.	Number of schools.	Number of students on the rolls.	Average number of square miles to each school.	Number of schools to each thousand of population.	Number of pupils to each thousand of the population.
Burdwan ...	2,697	1,391,823	1,716	60,497	1'67	1'23	36'28
Bankura ...	2,621	1,041,752	1,093	36,261	1'61	1'55	33'84
Beerbhoom ...	1,756	794,428	763	20,208	2'23	'99	25'43
Midnapore ...	5,082	2,615,665	4,300	82,541	1'19	1'69	32'82
Hooghly ...	1,223	1,015,005	1,715	44,303	'71	1'68	43'04
Howrah ...	478	635,381	848	28,322	'64	1'15	44'31
Total ...	13,855	7,393,954	10,032	261,172	1'27	1'46	35'04

In every district except Midnapore the number of schools, and of students attending them, rose during the year. In Midnapore the falling off was chiefly in lower primary schools, and was due partly to the promotion to the conversion of some of these into schools of a higher class, and partly to the enforcement of the rule under which pathsalas not kept open for six months of the preceding year are prohibited from competing in the examinations. Beerbhoom and Bankura show a considerable development of primary education, which is the more remarkable as following on a scanty harvest and the prevalence of unusual poverty among the cultivating classes. In certain distressed thanas of Burdwan the pathsalas are said to have lost pupils, but even here the number of schools did not decline, as the teachers remained at their posts even though their incomes had been reduced. The industrial school for teaching carpentry and tinsmith work, established in Midnapore last year under the auspices of the Maisadal zemindars, seems to promise well. It has 68 pupils on its rolls, including a pleader of the Judge's Court, who has recently joined the school. Female education is reported to have made good progress during the year, but the figures furnished by the Commissioner to illustrate this progress are so confused and unintelligible that the Lieutenant-Governor must defer noticing the question in detail until he comes to review the report of the Director of Public Instruction. It is satisfactory to observe that the *Hitakari Sabha* of Utterpara has not relaxed its praiseworthy efforts to promote female education.

14. *Committees.*—In most districts of the division the members of the Road Cess and Municipal Committees appear to have taken great interest in their duties, and to have administered the departments entrusted to them with care and ability. The elective system is said to have infused new vigour into municipal administration, and the district officers are generally of opinion that it is likely to be successful. As might perhaps be expected, the Municipal Commissioners of Howrah are most conspicuous for taking an active and intelligent part in the business of the populous town under their charge, and the thanks of the Lieutenant-Governor are especially due to those among them who, having heavy professional duties of their own, nevertheless devote much time and energy to municipal affairs.

15. *Conduct of Zemindars.*—With a single exception, regarding which special enquiry is being made, the zemindars of the Burdwan Division conducted themselves creditably throughout a year which called for special forbearance and benevolence on the part of landed proprietors. From some of the landholders liberal contributions were received in aid of the relief operations conducted by the Government, while others altogether stopped the collection of rents from their tenants. The Lieutenant-Governor desires that a special expression of his thanks may be conveyed to the gentlemen who have thus recognized the responsibilities of their position, and have come forward to help in a matter where their assistance was peculiarly appropriate and effectual.

16. *Character of Officers.*—The Commissioner's remarks on this subject will be considered in the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

*Officiating Secretary to the Government of Bengal.*

---

## RESOLUTION ON THE REPORT OF THE SUPERINTENDENT OF EMIGRATION ON INLAND EMIGRATION FOR THE YEAR 1884.

### GENERAL DEPARTMENT--INLAND EMIGRATION.

*Calcutta, the 29th August 1885.*

#### RESOLUTION.

READ—

The Report on Inland Emigration for the year 1884.

The Report is submitted by Dr. Grant, who was in charge of the Department throughout the year. In addition to the report for the year, the Superintendent of Emigration has submitted a special report called for by the Secretary of State on the working of Act I of 1882 during the three years from 1882 to 1884. This special report is now under the consideration of the Lieutenant-Governor, and will form the subject of a separate communication to the Government of India, in which the working of the Inland Emigration Act will be thoroughly reviewed and proposals for its amendment discussed. The present Resolution, therefore, will deal only with the history of Inland Emigration from these Provinces during 1884, as described in Dr. Grant's annual report.

2. The following administrative changes, some of which had been long under discussion, were carried out in the course of the year:—

(1) With the sanction of the Government of India, the separate administration of the Labour Transport Fund was introduced in Bengal and Assam from the 1st April 1884. The surplus balance of the Fund at the end of 1883-84, viz. Rs. 47,100-2-3, was divided between Assam and Bengal in the proportion of three-fourths (Rs. 35,325-1-8) to the former, and one fourth (Rs. 11,775-0-7) to the latter Province. It was further arranged that any actual deficit in the accounts of the Bengal Fund, the receipts of which are now comparatively small, should be made good by the Assam Administration.

(2) A further reduction of clerks in the Emigration offices at Goalundo and Calcutta has effected a saving of Rs. 440 a year in addition to the annual saving of Rs. 1,080 effected by reduction of establishment in 1883.

(3) In consequence of the mortality which occurred among emigrants on the railway journey to Assam, arrangements were sanctioned in April 1884 for their medical inspection at Magra on the right bank of the Hooghly river opposite Kancharapara. Later in the year provision was made by the Northern Bengal State Railway to enable emigrants to halt at Jaipur Hat (half-way between Sara and Kaunia) for meals and for medical inspection. These arrangements seem to have worked well; but it remains to be seen whether the opportunities afforded for rest and refreshment during a long and exhausting journey are frequent enough to prevent outbreaks of disease.

3. Some correspondence took place with the Chief Commissioner of Assam regarding the boat journey of emigrants going to Cachar and Sylhet. The Chief Commissioner urged the establishment of a river police at Goalundo to control the traffic of boats carrying sardari and free emigrants, and suggested that native boats should not be allowed to carry emigrants at all unless provided with water tanks filled with pure water at Goalundo. After some discussion it was found by this Government to be impracticable, in the existing state of the law, to control the movements of free and sardari emigrants embarked by boat in numbers under twenty. To amend the law, on the other hand, would involve undertaking to supervise and regulate the conditions of all passenger traffic on the rivers of Eastern Bengal. The Government of India concurred in this view, and observed that the only efficient check upon excessive mortality during the boat journey of emigrants to the Surma valley seemed likely to be found in the establishment of speedy communication, such as the daily steamers plying on the Brahmaputra have supplied for the Brahmaputra valley districts, and in sanitary conservancy of the Sylhet and Cachar rivers. A definite scheme for a subsidized steamer service to Sylhet and Cachar, which would reduce the duration of the journey from three weeks to about four days, is now under consideration.

4. Emigration operations during 1884 were characterized by a further development of free or unregistered emigration, by a very large increase in the

number of emigrants recruited by certificated garden sardars and by a decrease in the operations of licensed contractors and recruiters.

Information regarding emigration from Bengal to the tea districts of Assam is obtained—

(1) From the monthly returns sent to the Superintendent of Emigration by registering officers in Bengal. On these returns the Superintendent's annual report is based.

(2) From the record kept under the orders of the Assam administration at Dhubri, through which place all emigrants going to the Assam valley districts must pass.

Of free or unregistered emigrants the only statistics are those recorded at Dhubri, the estimates of Bengal district officers on the subject being for the most part little more than conjecture. No accurate information is available regarding the numbers of free emigrants who proceed to Cachar and Sylhet.

5. The results of registered recruiting carried on by the two agencies provided by the Act, viz. (a) by licensed contractors and their recruiters, and (b) by certificated garden sardars, may be stated as follows:—

(a) 211 licensed recruiters working under 6 contractors registered in the recruiting districts 7,081 emigrants and dependants, of whom 4,777 were intended for transmission *via* Calcutta to Assam, Cachar, and Sylhet, and 2,304 were intended for transmission *via* Goalundo (without passing through Calcutta) to Cachar and Sylhet only.

(b) 3,183 garden sardars certificated under the Act, of whom 3,063 were under the control of 33 local agents, registered 24,205\* emigrants and dependants for transmission to the tea districts, of whom 13,970\* were registered to proceed direct *via* Dhubri, and 10,235 were registered to proceed *via* Calcutta, Goalundo, and Kushtea.

The two agencies authorized by the law, therefore, collected in all 31,286 emigrants for transmission to the tea districts. Each licensed recruiter on an average registered 33.56 emigrants, and each garden sardar registered 7.60 emigrants. Some explanation of the difference between the average numbers of emigrants recruited by garden sardars and by licensed recruiters was attempted in paragraph 5 of the Resolution on the report for 1883. To those remarks it may be added that a garden sardar having collected a single batch of emigrants conducts them himself to the tea districts, whereas a recruiter generally obtains several batches of emigrants during the year, and, without leaving his recruiting ground, forwards them to the contractor under whom he works for despatch to Assam from the depot. Thus a recruiter's operations are practically continuous, and are not interrupted by a long journey to a distant tea garden in Assam. Besides the 31,286 emigrants recruited and registered by the two licensed agencies abovenamed, it appears from the Resolution by the Chief Commissioner of Assam on the Report on Immigration *via* Dhubri in 1884, that 12,199 free or unregistered emigrants reached Dhubri during the year, of whom 7,863 labourers with 3,916 dependants entered into local contracts under section 111 of Act I of 1882, and then went on to the tea gardens of the Assam Valley districts, and the remaining 4,200 proceeded to the tea gardens without contract under the Act. In 1883 10,096 free or unregistered emigrants reached Dhubri, of whom 7,026 with 2,363 dependants executed local contracts at Dhubri, and 707 continued their journey without having contracted under the Act.

6. In comparing the results of the operations of licensed recruiters and certificated sardars, Dr. Grant gives the following table showing the statistics of each class of emigrants registered during the last four years, exclusive of sardari emigrants registered to proceed direct *via* Dhubri:—

YEAR.		Contractors' registered emigrants.	Sardars' registered emigrants.	Total.	Percentage of sardars' to contractors' emigrants.
1881	...	6,415	2,379	8,794	37.0
1882	...	7,995	2,907	10,902	36.3
1883	...	9,875	5,291	15,167	54.69
1884	...	7,081	10,235	17,316	69.18

Registration by licensed contractors of emigrants to proceed to Assam *via* Dhubri without passing through the depôts at Calcutta or Goalundo has entirely

ceased during the last two years, and the number of emigrants registered by contractors to proceed through the depôts declined greatly in 1884 in comparison with 1882 and 1883.

The business of recruiting labour for the gardens of the Assam Valley districts has in fact been in great part transferred to agents having their head-quarters at Dhubri, who import emigrants free or unregistered as far as Dhubri, and there cause them to execute local contracts under section 111 of the Act. The working of this system will be considered by the Lieutenant-Governor in reporting to the Government of India on the working of Act I of 1882 during the last three years. The steady increase in the number of coolies registered by garden sardars is satisfactory as testifying to the efficacy of the provision made in Act I of 1882 for the encouragement of this method of recruiting emigrants.

7. Only one recruiter's license was cancelled during the year for misconduct, and no garden sardar's certificate was cancelled. Thirty-three persons held licenses as local agents for the supervision of garden sardars, each having on an average 92 garden sardars under him. This system seems to work well and is believed to be acceptable to many of the firms most largely interested in tea cultivation. The operations of registered contractors were on the whole satisfactorily conducted. One case is noticed in which two Bengali women were induced by an unlicensed recruiter to emigrate to Sylhet, on the understanding that they would be employed as maidservants and not required to do field work. These women, though specially warned by the Superintendent of Emigration not to rely upon any assurances that might have been given to them privately, made no complaint until they reached Sylhet. The contractor concerned was required to redeem the women's contracts and send them back to their homes, and was warned that his license would not be renewed unless his depôt was more carefully supervised in future. A criminal prosecution instituted against the unlicensed recruiter broke down for want of evidence. Abuses of this kind are, it is believed, far from uncommon; but it is obvious that credulity, such as is reported here, must frustrate all administrative precautions, and that the only safeguard is the spread of intelligence among the emigrating classes, and a fuller knowledge of the conditions of coolie life in Assam. Further information should be furnished with regard to the circumstances under which the Superintendent of Emigration called upon Baboo A. T. Mookerjee to establish a cooly depôt at Calcutta, in order that better control over his business might be exercised by the Emigration authorities.

8. On the subject of free or unregistered emigration the Lieutenant-Governor reserves his remarks for the report which is about to be submitted to the Government of India.

9. In paragraph 11 of the Resolution on the report for 1883, Dr. Grant was asked to continue the attempt to ascertain the districts in which emigrants actually reside as distinguished from the districts in which they are registered. The figures furnished by him in illustration of this point are, however, incomplete, and do not suggest any very definite conclusion. Indeed, the migratory habits of many of the lower castes render the enquiry into their districts of residence a matter of minor importance. In his report on the working of Act I of 1882 during the last three years, Dr. Grant has enumerated the principal recruiting fields in these

It is observed that this figure does not agree with the total (24,951) for these three years as stated in Dr. Grant's Annual Reports.

provinces for contractors and garden sardars. Within this period 20,799\* emigrants were registered by contractors, and 43,119 emigrants were registered by garden sardars in Bengal districts. The garden sardars recruited chiefly in Chota Nagpore, in the Sonthal Pergunnahs, and in the districts of South Behar; but they took emigrants also from Midnapore, Bankoora, and Burdwan, and a few from other districts. The contractors registered more than 43 per cent. of their emigrants in the 24-Pergunnahs and Burdwan. They also collected many emigrants in the Sonthal Pergunnahs, and, like the garden sardars, they got the rest of their emigrants chiefly in the districts of South Behar, in Chota Nagpore, in Midnapore, and in Bankoora, and a sprinkling from elsewhere. Contractor's labourers were accompanied by 21·2 per cent. of dependants, while in the case of sardari labourers the percentage of dependants rose to 66·04 owing, it is stated, to the stronger influence exercised by garden sardars in inducing families to emigrate.

10. Of the 5,001 contractors' emigrants registered during the year, and remaining in the mofussil depôts at the close of 1883, there arrived in the Calcutta depôts 4,740 persons. This reduction of numbers is thus accounted for:—

At Mofussil depôts—detained 3, discharged 150, deserted 43, died none: total 196 or 4·10 per cent.

On journey to Calcutta—deserted 64, died 2: total 66 or 1·37 per cent.

The deductions amounted in all therefore to 262 or 5·48 per cent. as against 7·61 per cent. of deductions up to arrival in the Calcutta depôts for the year 1883. The improvement is satisfactory.

11. Of 2,304 emigrants registered for transmission direct *via* Goalundo to Cachar and Sylhet, 2,268 arrived at Goalundo (including one born on the journey), and 37 have to be deducted for casualties in the journey, of whom it is stated that 10 were left behind, 24 deserted, and 3 died. The percentage of deduction, which is only 1·6, is very small as compared with that for 1883, in which year 13·09 per cent. of the emigrants registered for Goalundo direct were recorded to have deserted.

12. Dr. Grant gives the following particulars of the stay of the 4,740 emigrants who arrived in the contractors' depôts in Calcutta in 1884, to which number have to be added 343 persons remaining in the depôts from 1883. Of the total number of 5,083, 47 were rejected, 444 were discharged, 349 deserted and 31 died; 4,022 were forwarded to Goalundo and 190 were remaining in the depôts at the end of the year. The year was an unhealthy one in the depôts, and both cholera and small-pox prevailed to some extent, the former disease causing 11 deaths; 17 persons were attacked by small-pox, but no death occurred from this disease—a result which Dr. Grant attributes to the system of segregation which was followed, and to the fact that all emigrants were vaccinated on admission into the depôts. The percentage of sick persons admitted into the depôt hospitals was 6·3 per cent. of the total admissions into the depôts as against 5·2 in 1883, and the percentage of mortality was 6·5 per mille of the total admissions into the depôts in 1884 as against 1·2 per mille in the preceding year. Dr. Grant remarks that the medical inspections of the depôts have been thorough and useful, and that the depôt hospitals have never been in a higher state of efficiency.

13. Altogether 6,359 persons were accommodated in the Goalundo depôts during the year, viz. 4,022 despatched from the Calcutta depôts (who all arrived safely at Goalundo), 2,268 persons who reached Goalundo direct from the recruiting districts, six children born at Goalundo, and 63 persons remaining in the Goalundo depôts from 1883. Of these 6,359 persons 6,238 actually embarked by steamer and country boats for the labour districts, leaving 121 who are accounted for in the following manner:—46 deserted, 63 died, 4 were released from engagements, 3 were rejected, and 5 remained in depôts at the end of the year. The Embarkation Agent, Dr. Richards, writes: "The greater loss was due mainly to the very great increase in the mortality from cholera which was prevalent during the year under review," and this, he adds "notwithstanding constant attention to sanitary and conservancy arrangements. The water used is invariably filtered, and so far as appearances and taste are concerned is perfectly pure."

14. Of the emigrants actually despatched from Goalundo 2,890 including 427 sardari emigrants embarked in steamers for Assam, and the remainder embarked in country boat for Cachar (1,156), and Sylhet (2,589). The average length of the voyage from Goalundo to Dibrugarh of the steamers which conveyed emigrants during the year was 15 days and 18 hours; on nine of 40 trips cholera occurred on the steamers, causing 13 deaths among the Goalundo emigrants, and there were 11 deaths on the voyages from other causes. It therefore appears that 2,866 of the emigrants who embarked by steamer from Goalundo arrived in the tea districts. Of the 3,775 contractors' emigrants who embarked by boat for Sylhet and Cachar, 36 deserted and 43 died on the journey; 36 of the 43 deaths were caused by cholera. The mortality from cholera on the boat journey, which has always characterized emigration to the Surma Valley, has formed the subject of correspondence to which allusion has been made above.

in Dullunda, where 11 cases were treated against 6 in the previous year. Fever was unusually prevalent in the Dacca Asylum, where the number of cases treated increased from 16 in 1883 to 72 in 1884. The adjoining jail and outside population are said to have suffered equally, while Dr. Crombie, the Superintendent, does not remember to have known such an unhealthy season before. Cholera appeared only in the Dacca Asylum, where three cases were reported, of which two ended in death.

7. Cases of injury and accident, three of which proved fatal, occurred at Dullunda, Patna, and Berhampore. At Dullunda a lunatic struck another over the head, causing a fracture of the skull and a rupture of the brain. In Patna a patient tried to swallow a large piece of bread; it stuck in his throat and caused almost instant death. In the same asylum a patient tried to escape; he fell off a wall and broke his rib. At Berhampore the work sheds were blown down during a violent storm, resulting in the death of one patient and the injury of seven others. The other cases reported are few in number, and are of comparatively trifling importance.

8. The number of deaths in 1884 was 87 against 52 in 1883. The increase in the mortality was principally occasioned by diarrhoea, dysentery, debility, and phthisis, and it was confined to Dullunda, Dacca, and Patna. The total number of deaths from all causes was at Dullunda 18, Dacca 29, Patna 28, Cuttack 3, and Berhampore 9. Speaking of the general mortality in all the asylums during the year, the Inspector-General writes—"It is not a high mortality; and could we but eliminate those deaths which rightfully belong to 1883, the rate would be an average one. The healthy year 1883 possibly prolonged the lives of the phthisical, the debilitated, and senile, lives which depend in a great degree, some altogether, upon meteorological conditions." As in the previous year, the small number of cases of zymotic diseases reflects great credit on the officers responsible for the sanitary condition of the institutions.

9. The following table shows the receipts and expenditure in each asylum during 1884:—

1	2	3	4	5	6	7	8	9	10	11	12	13
	Daily average strength.	Total expenditure.	Realized from friends of patients.	Actual profit from manufacture department.	Average cost of each patient as per column 3.	Average cost of each patient, deducting columns 1 and 5.	AVERAGE COST OF EACH PATIENT IN RELATION TO—

\* Loss.

The gross expenditure rose from Rs. 82,835 in 1883 to Rs. 91,695 in the year under review. Of the increase which amounted to Rs. 8,860, Rs. 3,679 occurred under ordinary, and Rs. 5,181 under extraordinary expenditure. The principal part of the increase was under building charges, which rose from Rs. 7,016 in 1883 to Rs. 12,011 in 1884. The total cost per patient was Rs. 99-9 against Rs. 94-4-4 in the previous year, and the net cost of each inmate, after deducting the amount realized from friends of patients, and the net profit from manufactures, was Rs. 94-2 against Rs. 86-13-8. The amount received from friends of patients rose from Rs. 969 in 1883 to Rs. 1,803 in 1884. The total expenditure on account of establishment amounted to Rs. 38,446 against Rs. 37,427 in the previous year. Much, however, of the increase was apparent only, and due to the circumstance that a lay overseer was appointed at Dacca in the place of the Supernumerary Assistant Surgeon who was paid by the Medical Department.

10. The money outlay on account of diet was Rs. 21,187 against Rs. 20,294 in 1883, the increase being due to the difference in the number

of patients treated and to comparative dearness of food. The average cost of diet per head was, as usual, highest at Dullunda, where it amounted to Rs. 45-15-4, and lowest at Cuttack, where it was Rs. 20-12-7. The average cost of a lunatic's daily food was one anna six pies against one anna and three pies in 1883. The charge for clothing fell from Rs. 2,836 in 1883 to Rs. 2,579 in 1884.

11. The amount expended on raw materials for manufacture was Rs. 26,543; the value of raw materials, manufactured goods, and plant and machinery on 1st January 1884 was Rs. 61,523. The total debit thus stood at Rs. 88,066. On the other hand, the amount paid into the treasury was Rs. 15,967; manufactured goods to the value of Rs. 14,214 were consumed in the asylums, and the estimated value of the stores in stock when the year closed was Rs. 61,308, making a total credit of Rs. 91,489. The excess of credit over debit therefore amounted to Rs. 3,423, but after adjusting certain items shown in Statement XI appended to the report, the net profit on manufactures stood at Rs. 3,207 against Rs. 5,547 in the previous year. This decrease is attributed to the abolition of the castor-oil industry at Dullunda, the diminution in the sale of products at Patna, the employment of a smaller number of lunatics, and the cessation of work for three months at Berhampore, and to the wear and tear of tools and plant, and the purchase of raw materials at a higher rate at Cuttack. As explained in previous years, the net profit of a year is no proper measure of success, the articles consumed in the asylums being charged at cost price, profit being allowed on outside sales only.

12. The number of patients at the beginning of the year in the Bhowanipore European Asylum, which is not considered in the foregoing paragraphs, was 29, viz. 15 males and 14 females. During the year 25 persons were admitted, of whom 19 were males and six females. Of the 54 patients under treatment, three were discharged cured, three were made over to the Military authorities, 11 were sent to Europe under the Merchant Shipping Act or otherwise, four were transferred to the care of friends, and two died. Of the two deaths, one was due to decay in a hard drinker, while the other resulted from acute mania in a woman. Thirty-one persons remained in the asylum at the close of the year, of whom 14 were Europeans, 14 East Indians, and 3 Armenians. The female ward was as usual overcrowded, and admission had to be refused to several applicants. The total expenditure amounted to Rs. 19,804 against Rs. 19,860 in 1883. The total amount contributed by the friends of paying patients was Rs. 14,414, and the average net cost of each lunatic to the State was Rs. 186.

13. The report is full and satisfactory, and shows that the different asylums have been well managed by the officials, and efficiently supervised by the superior officers. The management of the asylums also reflects credit on the head of the Medical Department.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

*Offg. Secretary to the Government of Bengal.*

ANNUAL REPORT ON THE CIVIL LITIGATION OF GOVERNMENT  
DURING THE YEAR 1884-85.

## JUDICIAL.

*Darjeeling, the 25th August 1885.*

## RESOLUTION.

## READ—

The Annual Report on the Civil Litigation of Government during the year 1884-85.

## Read also—

The Reports for the two preceding years, and the orders of Government thereon.

There were two appeals pending in the Privy Council at the close of the year 1883-84, to both of which Government was a party as representing minors under the Court of Wards. In one of these cases a compromise was effected and the appeal withdrawn. The second appeal was still pending at the close of the year under review. No fresh appeal was filed during the year: but Government became a party to an appeal already pending as representing a minor who was adopted by the respondent in the case, and whose estate came under the Court of Wards.

2. The following statement shows the chief statistical data of the Civil litigation to which, during the last three years, Government was a party:—

## CASES

*Before the High Court.*

		1882-83.	1883-84.	1884-85.
Appeals	Decided in favour of Government	15	17	24
	Ditto against Government	4	1	1
	Compromised, remanded or withdrawn	4	4	4
	Total	23	22	29

*Before the Lower Courts.*

Appeals	Decided in favour of Government	597	96	111
	Ditto against Government	325	3	8
	Compromised, remanded or withdrawn	11	5	8
	Total	923	104	127
Original cases	Decided in favour of Government	274	274	313
	Ditto against Government	102	33	139
	Compromised, remanded or withdrawn	45	23	90
	Total	421	330	542
Total	Decided in favour of Government	876	387	448
	Ditto against Government	431	37	148
	Compromised, remanded or withdrawn	60	32	102
	Total	1,367	456	698

3. The percentage of cases decided in favour of Government declined from 91.27 to 75.17. It is explained that the decrease was owing to decisions being given adverse to Government in some 104 land acquisition cases in the districts of the 24-Pergunnahs, Patna, Dacca and Khulna, the Judge slightly increasing the amount of compensation offered by the Collector to the claimants. The litigation, though greater than in the preceding year, was little more than half that of 1882-83.

4. The single case decided against Government in the High Court was of importance, a Full Bench ruling that, where the notification for sale by the Collector of an estate or share of an estate under Act XI of 1859 has not been affixed in the way prescribed, 30 clear days before the date appointed for the sale, the Collector ceases to have any jurisdiction to put up the property for sale. It would seem therefore that it is irrelevant whether the defaulter has sustained any material injury or not; that the defaulter need not sue within one year as the law directs; and that the presumption arising from a grant of a sale certificate under section 8, Act VII of 1867, is not to be drawn. Apparently the words Act VII of 1867 should be Act VII (B.O.) of

1868. A copy of the remarks on this case contained in the report will, with this correction, be sent to the Board of Revenue, for consideration.

5. In the lower Appellate Courts the percentage of cases decided against Government rose from 3·03 to 6·72. In original cases also the result was worse than in 1883, the percentage having risen from 10·75 to 30·75. The total value of the cases in which decisions were given adverse to Government increased from Rs. 93,773 to Rs. 6,19,974. Of this amount, Rs. 33,000 composed the value of the suit in the High Court, Rs. 2,193 the value of suits in zillah appeals, and the balance that of original suits. In original suits decided adversely to Government, the value of suits to obtain possession of land, estates, or other property, or for the recovery of rents or debt bonds, was Rs. 3,23,521; of land acquisition suits, Rs. 1,88,907; and of suits for the reversal of revenue sales on the pleas of informality, non-liability, &c., Rs. 1,01,304. The unusually unfavourable results were therefore not due merely to the reason assigned in the report, namely, the adverse decisions in the land acquisition cases. From the cases briefly summarised in the report, it is obvious that a good deal of laxity exists in the proceedings of revenue officers in sales for arrears of land revenue. The subject will be dealt with in the Revenue Department of this office.

6. The result of the litigation in which the Court of Wards was interested during the year 1884-85, compared with that of the two preceding years, was as follows:—

	1882-83.	1883-84.	1884-85.
Decided in favour of Wards ...	1,633	763	700
Ditto ditto against do. ...	127	99	321
Compromised, remanded or withdrawn ...	229	70	56
Percentage in favour of Court of Wards ...	92½	88½	86½

The decrease, which is but small, is ascribed to the smaller number decided in favour of the Court of Wards in the districts of Lohardugga and Midnapore, but the cause of this again has not been explained, because none of the cases decided in these two districts were reported to the Legal Remembrancer.

7. The amount of decrees in favour of Government under realization during the year was Rs. 6,42,647 against Rs. 7,02,705 in 1883-84. The amount realized decreased from Rs. 61,862 to Rs. 20,407, and the percentage of recovery from 8·30 to 3·17 per cent. In the previous year, however, Rs. 50,000 was realized from the Canning Municipality. In the year under review nothing was realized on this account, and the municipal estates having been purchased by Government, nothing further will be realized. Out of the amount shown under realization, therefore, Rs. 5,81,280, representing the balance due from the Canning Municipality, will for the future be omitted. The chief outstanding balances were in Maldah Rs. 8,993, in Midnapore Rs. 4,716, in Bancoora Rs. 4,679, and in Chittagong Rs. 2 092.

8. In Wards' decrees the amount under realization decreased from Rs. 6,93,908 to Rs. 5,72,757, the amount realized during the year from Rs. 1,44,266 to Rs. 1,02,253, and the percentage of recovery from 20·79 to 17·85. The reduction in the outstanding balance was not due to better realizations, but to the release of certain estates from the Court of Wards, and to the omission of the Narail Ejnali estate decrees. The heaviest balances were in Rajshahye Rs. 82,403, in Durbhunga Rs. 50,107, in Lohardugga Rs. 35,360, in Jessore Rs. 28,672, in Hooghly Rs. 26,076, and in Midnapore Rs. 25,326. The Superintendent and Remembrancer of Legal Affairs observes that, generally speaking, the cause of the small percentage of realization was, he fears, an entire want of interest on the part of local officers joined to the inherent difficulty of the task among a people whose seizable property is small and easily concealed or placed beyond the reach of attachment. He was asked to state if any alterations in the rules of 1879, relating to execution of decrees in which Government is a party, is desirable, and his opinion has been received by the Lieutenant-Governor since the submission of the report. He observes—

“I am unable to suggest any improvement in the rules for execution of Government decrees which would be likely to lead to an increased collection. The small collections are not due to any deficiency in the mode of procedure, but to the inherent impossibility of

realizing (1) from persons who have no property or (2) from those who have every facility for concealing it, in the conditions generally prevailing as to the tenure of property in this country. The joint family system and prevalence of *benamée* transactions offer almost insuperable obstacles to the realization of their decrees even by private persons; and Government labours under the additional difficulty of the absence of personal interest and personal knowledge in its officers."

The difficulties in the way of realization pointed out, though great, are not, the Lieutenant-Governor believes, sufficient to account for the heaviness of the arrears. Decrees can be executed against the person as well as the property of defaulters, and a Manager of a Ward's or Government estate should at least be not less familiar with the details of the estate under him than a private proprietor. It is to be feared that the want of personal interest on the part of Collectors and Managers is really if not the main, at least one cause of the unsatisfactory results of the realizations which is remarked upon year after year. The matter is no doubt a difficult one to deal with; for a Collector, and to a less extent a Manager of a Ward's Estate, is dependent on the information he receives from his subordinates. Still it may be possible to devise some means of improving the present unsatisfactory state of things, and the Board will be asked again to consider the subject.

ORDER—Ordered that a copy of this Resolution be forwarded to the Superintendent and Remembrancer of Legal Affairs, for information.

Ordered that extract paragraphs 4 and 8 from this Resolution be forwarded to the Board of Revenue, for consideration of the remarks made in paragraph 8 of the Report on the effect of the ruling of the High Court in the case referred to.

Ordered that extract paragraph 5 from this Resolution, and extract paragraphs 9 to 41 of the Report, be forwarded to the Revenue Department of this office for the issue of such orders as may be necessary, with reference to the laxity which exists in the proceedings of Revenue officers in sales for arrears of land revenue.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

*Chief Secretary to the Government of Bengal.*

## REPORT ON THE STATE OF THE SALT MARKET FOR THE FIRST QUARTER OF 1885-86.

No. 534B, dated Calcutta, the 15th August 1885.

From—C. A. SAMUELLS, Esq., Officiating Secretary to the Board of Revenue, L.P.,  
To—The Secretary to the Government of Bengal, in the Revenue Department.

I AM directed to submit the following report on the state of the salt market for the first quarter of 1885-86, comprising the months of April, May, and June 1885.

SALT.  
MR. REYNOLDS.

2. The quantity of salt of every description cleared during the quarter under review amounted to 21,29,421 maunds 14 seers 9 chittacks, against 26,05,445 maunds 19 seers 11 chittacks in the previous quarter and 24,78,324 maunds 18 seers 7 chittacks in the corresponding quarter of the previous year; and the net amount of duty levied thereon was Rs. 41,03,558-8, against Rs. 49,22,187-8 in the previous quarter and Rs. 47,90,905-8 in the corresponding quarter of the previous year.

3. The quantity of excise salt sold in the districts of Cuttack, Pooree, Balasore, and 24-Pergunnahs during the quarter under review from the stock of the different seasons' manufacture, and the quantities which remained in store at the close of the quarter, are shewn in table I.

COLONIAL AND INDIAN EXHIBITION TO BE HELD IN LONDON  
IN 1886.

*The 29th August 1885.*—The following papers are published for general information.

H. H. RISLEY,  
*Offg. Secy. to the Govt. of Bengal.*

*Extract from the Proceedings of the Government of India, Revenue and Agricultural Department (Museums and Exhibitions),—Circular No. 28E.c. dated Simla, the 12th August 1885.*

RESOLUTION.

READ the following :—

Statistics and Commerce Despatch No. 49, dated London, the 14th May 1885, from Her Majesty's Secretary of State for India.

1 forward 225 copies of the official report of a meeting of the Royal Commissioners for the Colonial and Indian Exhibition of 1886, held at Marlborough House on the 30th March, sent to me by Sir Philip Cunliffe-Owen, Secretary to the Commission, for distribution to intending private exhibitors in India.

2. You may perhaps consider it advisable to publish the report in the Official Gazettes for general information.

*Proceedings of the first Meeting of the Royal Commission, for the Colonial and Indian Exhibition, held at Marlborough House, Monday, the 30th March 1885.*

THE Royal Commission appointed by Her Majesty the Queen for the purpose of organizing the above Exhibition met for the first time on Monday, the 30th March, at Marlborough House, under the presidency of His Royal Highness the Prince of Wales. The following members of the Commission were present :—Field Marshal Commanding-in-Chief His Royal Highness the Duke of Cambridge, the Marquis of Salisbury, the Marquis of Normandy, the Marquis of Lorne, the Marquis of Hamilton, the Earl of Derby, the Earl of Dalhousie, the Earl of Cadogan, the Earl of Kimberley, the Earl of Lytton, Viscount Bury, Field-Marshal Lord Strathnairn, the Hon'ble Edward Stanhope, M.P., the Right Hon'ble Sir Stafford Henry Northcote, M.P., the Right Hon'ble William Edward Forster, M.P., the Right Hon'ble Sir Michael Edward Hicks-Beach M.P., the Right Hon'ble Anthony John Mundella, M.P., the Right Hon'ble Sir Louis Mallet, the Right Hon'ble the Lord Mayor of London, Sir Henry Thurstan Holland, M.P., Sir Daniel Cooper, Sir John Rose, Field-Marshal Sir Patrick Grant, General Sir Frederick Paul Haines, Major-General Sir Henry Creswicke Rawlinson, Lieutenant-General Sir Charles Henry Brownlow, General Sir Edwin Beaumont Johnson, Lieutenant-General Sir Henry Dominick Daly, Lieutenant-General Sir Samuel James Browne, Sir Robert George Wyndham Herbert, Major-General Sir Frederick Richard Pollock, Lieutenant-General Sir Harry Burnett Lumsden, Sir Barrow Helbert Ellis, Lieutenant-General Sir D. Macnaghten Probyn, Surgeon-General Sir Joseph Fayrer, Sir Joseph Dalton Hooker, Colonel Sir Owen Tudor Burne, Major-General Sir A. Clarke, General Sir Edward Selby Smyth, Sir Arthur Blyth (Agent-General for South Australia), Sir Charles Tupper (High Commissioner for the Dominion of Canada), Sir Francis Dillon Bell (Agent-General for New Zealand), Sir Saul Samuel (Agent-General for New South Wales), Sir William Charles Sergeant (Crown Agent for the Colonies), Sir Charles Hutton Gregory, Sir John Coode, Sir George Christopher Molesworth Birdwood, Colonel Henry Yule, Lieutenant-General Charles John Foster, Mr. John Arthur Godley, Mr. Horace George Walpole, Lieutenant-General Richard Strachey, Colonel James Michael, Colonel Arthur Edward Augustus Ellis, Mr. Charles Mills (Agent-General for the Cape of Good Hope), Mr. Arthur Hodgson, Captain Montagu Frederick Ommanney (Crown Agent for the Colonies) Mr. Robert Murray Smith (Agent-General for Victoria), Mr. James Francis Garrick (Agent-General for Queensland), the President of the Royal Agricultural Society, the President of the Institution of Civil Engineers, Mr. Henry Coppinger Beeton, Mr. Edward Birkbeck, M.P., Mr. Bertram Wodehouse Currie, Mr. William George Pedder, and Sir Phillip Cunliffe-Owen, Secretary.

HIS ROYAL HIGHNESS in opening the proceedings, said :—

MY LORDS AND GENTLEMEN.—In addressing you for the first time, I would remind you that the objects for which Her Majesty has been pleased to appoint this Commission are, briefly to organise and carry out an Exhibition by which the reproductive resources of our Colonies and of the Indian Empire may be brought before the people of Great Britain, and by which also the distant portions of Her Majesty's Dominions may be enabled to compare the advance made by each other in trade, manufactures, and general material progress.

This project, to the realization of which I have looked forward for some years, is essentially one of a National and Imperial character, differing in this respect from former Exhibitions, in which the elements of trade rivalry and profit largely predominated.

No such opportunity of becoming practically acquainted with the economic condition of our Colonies and the Indian Empire has ever been afforded in this country. The attractive display in the Indian and Colonial Courts at the Paris Exhibition of 1878 could only be witnessed by a comparatively small number of the population of these Islands, millions of whom may be expected to view and profit by the evidence which the Exhibition of 1886 will afford of the marvellous progress made by their fellow-countrymen beyond the seas.

I also trust that this gathering may serve even a higher purpose, and be the means not only of giving a stimulus to commercial interests and intercourse, but of strengthening that Bond of Union between Her Majesty's subjects in all parts of the Empire, the growth and manifestation of which are most sincerely appreciated by us all.

Whilst Her Majesty's Government have given their hearty approval to the objects for which the Commission has been appointed, they have not so far found it desirable to make any definite grant towards it. The Commission have therefore to rely entirely upon the public support of the great purposes which the Exhibition is intended to promote; and on the attractive form which it will be the endeavour of all concerned to give to it.

I cannot doubt but that, under such conditions, should no untoward events occur, the project will be more than self-sustaining.

At the same time, it has been thought prudent not to dispense with the usual provision of a Guarantee Fund, though I trust no circumstances may arise rendering it necessary to make any call on the Guarantors. To this Fund the Indian and Colonial Governments have made liberal contributions, amounting to £51,000.

I have also to announce with much gratification that the most cordial and generous response has already been made by Corporations, Firms and individuals in the United Kingdom to an invitation to participate in this guarantee. Although no formal or public appeal has yet been made, and the number invited to contribute to it has so far been limited, the list of subscribers not only embraces those whose interests may be supposed to be specially affected by the Exhibition, but comprehends every class of the community. Though but recently commenced, these further subscriptions already amount to £77,600, making a total Guarantee Fund of £128,600 to the present date.

I feel sure that you will unite with me in the expression of cordial thanks to those who have so promptly and liberally come forward to our assistance. It is a gratifying proof of the interest which exists among all classes at Home and in the outlying countries of the Empire, and of the desire felt by them to embrace every occasion to promote the common advancement and prosperity of the United Kingdom and its Colonies and Dependencies.

Considering the inconvenience which would have resulted to the Members of the Commission had they been summoned to meet at an earlier date, and in view of the immediate assembling of the various Colonial Legislatures, whose co-operation had to be obtained, I deemed it necessary, in order that full time might be given for the preparation of contributions, to take certain preliminary steps, which I trust will meet with your approval.

I have accordingly to announce that arrangements have been made by which the buildings and grounds at South Kensington, where the Fisheries and Health Exhibitions were recently held, have been placed at the disposal of this Commission on fair terms, and the buildings can be made available for our purposes at a moderate outlay.

I therefore caused plan of these grounds and buildings to be prepared, showing the space which the Commission could assign to India and the various Colonies, and the arrangements which were deemed most convenient. These were communicated to the Government of India, to the High Commissioner for the Dominion of Canada, to the various Agents-General of the Colonies, and, through the Colonial Office, to the Crown and other Colonies, and have met with their approval. Similar communications have been made through the Secretary of State for the Colonies direct to the various Governments, and to the Secretary of State for India, with like results.

In the despatch which contained this information, I also stated that it was considered advisable that, in place of any awards being granted by juries, as has been the case in previous Exhibitions, Commemorative Medals only should be given to each exhibitor. The object in suggesting this change was that as some colonies, from their age and circumstances, were more advanced than others, those in their infancy should not be placed at an undue disadvantage in an Exhibition from which all thoughts of trade rivalry should be excluded.

I am pleased to say that answers have been received which show that the suggestions made on this and other matters have been favourably accepted; and to inform you that the project of holding the Exhibition has been everywhere received with the utmost cordiality.

I trust that these preliminary arrangements may meet with your approval.

I have also to submit, for your consideration, the general method of administration which I recommend should be adopted.

As President of the Royal Commission, it is my intention personally to take the same active part in the work as I did at the Paris Exhibition of 1878.

The details of the executive duties will devolve on Sir Philip Cunliffe-Owen, whose ability and experience have so often been tested with satisfactory results, and who has also been entrusted by the Indian Government and certain of our Colonies with executive duties on their behalf.

I have also thought it desirable to nominate a Finance Committee for the purpose of controlling and regulating the expenditure of the Commission and guarding the interests of the guarantors. This Committee, it is proposed, shall consist of the following members of the Commission, who have kindly placed their services at my disposal: viz. Sir John Rose, Bart. (Chairman), Sir George C. M. Birdwood, Mr. Edward Birkbeck, Sir Barrow Helbert Ellis; Sir William Charles Sargeant.

I will ask you to confirm the appointment of these gentlemen.

As arrangements advance, it may be necessary for me to recur in matters of special importance to your counsel and aid.

While no effort will be spared to render the Exhibition worthy of the primary objects it is intended to promote, as well as to insure its attractiveness to the community, the guarantors may be assured that, subject to the attainment of these ends, no needless outlay will take place; but that, on the contrary, the expenditure will be kept within proper and legitimate limits. As an earnest of this endeavour, I have directed full and detailed estimates of the different heads of proposed expenditure—guided by the experience of former Exhibitions—to be prepared for submission, first, to the Finance Committee, and subsequently for my own approval.

Though it is impossible to foresee what eventualities may arise, I trust no obstacles may occur to prevent this Exhibition from being not only self-sustaining, but as successful, financially, as those of late years have been.

It has been suggested that advantage should be taken of the great numbers who will doubtless visit England during the Exhibition from the Colonies and from India, to procure for them special facilities for visiting the great manufacturing centres and chief places of interest in Great Britain, not only as an expression of welcome, but that they and we may profit by a comparison of their own with the more matured commercial systems of the Mother-Country, and that by bringing manufacturers, producers and consumers together, an impetus may be given to the general extension of industry and trade.

Negotiations are in progress to effect this object, which I hope may result, not only in mutual advantage, but in proving to our fellow subjects that they are as welcome elsewhere in Great Britain as I am sure they will be in the Metropolis.

In conclusion, let me express the hope that this great undertaking, and the many occasions for friendly intercourse with our fellow subjects from India and the Colonies which it will afford, may convey to them the assurance that, while we are deeply moved by the spirit of patriotism they have lately shown in desiring to bear their share in the graver trials of the country, we, on our part, wish to participate in every effort to further and develop their material interests, interests which we feel to be inseparably bound up with the prosperity of the Empire. We must remember that, as regards the Colonies, they are the legitimate and natural homes in future of the more adventurous and energetic portion of the population of these Islands. Their progress and their power of providing all that makes life comfortable and attractive, cannot, therefore, but be a matter of serious concern to us all. And, as regards India, the increasing knowledge of that vast Empire, and the rapid and easy means of communication to all parts of it which now exist, render its remarkable and varied products, and its social and political condition, a source of yearly increasing interest and importance to us.

For the attainment of the purposes I have indicated, I am sure I may rely on your friendly co-operation and assistance in your several localities, and within the sphere of your individual influence. Although it has been impossible, from the pressure of their duties elsewhere, for some members of the Commission to be present at this meeting, I am gratified by the assurance from them that we may none the less rely on their practical and earnest assistance on every occasion in furthering the work which has been entrusted to us, and achieving the important ends which I trust may flow from its successful accomplishment.

It only remains for me to express my cordial thanks to you for your kindness in attending here to-day, and my confidence that I shall continue to receive the same measure of support which it has been my good fortune to obtain from many of you on former occasions.

Sir Philip Cunliffe-Owen then read the correspondence relating to the appointment of the Commission and the participation of the various Colonies, all of which were most willing to take advantage of this opportunity of displaying their resources and progress, and gaining a larger knowledge respecting their sister Colonies.

A preliminary list of guarantors was also read, the amount of the Guarantee Fund being already £128,600.

THE EARL OF DERBY said:—I have been asked to move a resolution, and I do it with great pleasure, but also very briefly, because argument is superfluous where, I presume, we are all of one mind, and it would be a mere waste of time to relate the circumstances with which you are no doubt familiar which should induce you to accept this resolution. There was a time, a few years ago, when it was said Exhibitions were played out, and that it would be well, for a time at least, to discontinue them. I do

not know whether that feeling was ever justified by the facts; it may have represented a passing phase of opinion in London, but it is not the case now. We have had recent experience, and we have seen that, whatever the ostensible objects of the Exhibition, whether appliances of health, fisheries, forestry, or whatever the subject may be, the interest that is felt in these Exhibitions is unabated and ever-increasing. The numbers frequenting them seem to increase every year, and if they are well conducted, there can be no doubt they will be a financial success. If this be true, generally, it is still more likely to be true in the case of the Exhibition which is to be held next year. I think we must all see and feel that there never was a time in the history of the country when so deep and general an interest was taken in the affairs of the Colonies; and I think also we all feel that, living as we do in a small and overcrowded Island, it is both our duty and our interest to do all in our power to bring before the minds of our fellow countrymen those vast countries beyond the sea, in which those who have comparatively small opportunities of making a successful career in this country may have a better chance in another state of society. After the correspondence which has been read, it will not be necessary for me to recapitulate the details of what has passed, especially as His Royal Highness has been kind enough to state what is most important on that point. I will only say that to me, and those with whom I have acted departmentally, and I think I may say the Agents of the Colonies, it has been a source of pride and satisfaction to be able to help according to the measure of our power in promoting the wishes of His Royal Highness. I think, although the matter is not completed, and therefore it is undesirable to enter into details, that our colonial fellow subjects, both as regards governments and communities, have responded to the appeal made to them in that liberal and patriotic manner we have every reason to expect. You have heard the list of guarantors read; it is, I believe, an ample one for all purposes, and no doubt can be increased if necessary; and, looking at the increased interest in colonial affairs, and the way the Colonies have taken the matter up, I think there is no doubt that this Exhibition will be a great success. The purpose of the resolution I have to propose is that the Royal Commission may endorse the steps taken by His Royal Highness; and I think I may say that no passage in His Royal Highness's address has given so much satisfaction as that in which he gives us an assurance that he will take the same position in this Exhibition as in that of 1878.

THE EARL OF KIMBERLEY seconded the resolution, and said:—As regards India, I have this Exhibition much at heart. There is, perhaps, nothing more desirable for India than that its products and industries should be well known in this country, although we have much more to learn from than to teach them. Their beautiful manufactures which they have produced for so many ages have proved that there is a knowledge of many branches of art which it would be a thousand pities should be diminished under our rule. I have often been struck with the calamity of the introduction of our taste into Eastern arts and manufactures; for their taste is far better than ours, although we have no doubt engineering knowledge and skill and the command of capital; and I cannot conceive of any advantage greater than that the two countries should be brought together. The Government of India will itself undertake the collection and management to a great extent of what is to be sent into this country. You will see from the immense size of our Indian Empire, and the position of the Government there, that it is much better this should be taken in hand by the Government. It is a great satisfaction to me to concur entirely with the proposals made by His Royal Highness, and with my noble friend, that this Exhibition will be a remarkable success.

The following is the resolution, which was carried unanimously: "That this Commission entirely approves of the arrangements made by His Royal Highness the Prince of Wales, the Executive President, and now reported by him in detail: and they desire to convey their cordial thanks to His Royal Highness for the interest he has shown in the undertaking, and their appreciation of the judicious steps taken by him to insure its success. The Commission further desire to express their cordial appreciation of the liberal and gratifying contributions already made to the Guarantee Fund, and their warm thanks to the subscribers."

THE PRINCE OF WALES:—I feel very grateful to Lord Derby for the kind way in which he has moved this resolution, and to Lord Kimberley also for the kind expressions that have fallen from him, and for the hearty and unanimous approval of this Commission, which I look upon as a vote of confidence in myself. I may say that to the utmost of my power and endeavour I will do all I can to further the Exhibition, and I feel sure that I shall have the hearty support and concurrence of the distinguished gentlemen of whom I see so many around me. I thank you again for having listened to the address I read to you, and only hope that no untoward event may occur between now and next year to prevent this resulting in perhaps the finest Exhibition that has ever been held.

The meeting then terminated.

## COLONIAL AND INDIAN EXHIBITION.

(LONDON, 1886.)

## PRELIMINARY LIST OF GUARANTORS.

By order,

C. S. BAYLEY,

Under-Secretary to the Govt. of India.

## Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 29th August 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.</b>			
<i>Western Districts.</i>			
Burdwan Div.	1 Burdwan, Aug. 29 '85	8.40	Rain every day with occasional sunshine. Some damage is caused to <i>aus</i> crop by floods. Price of rice 10 to 14½ seers per rupee. Health generally good.
	Culna ...	10.42	
	Cutwa ...	7.20	
	Rancegunge ...	7.75	Weather—warm with occasional sun and showers. Crops on the ground promise well, but some injury to low land paddy is apprehended from the excessive downpour during the week. Considerable damage to sugarcane is reported from the sub-division of Bishenpore. Public health good.
	2 Bankoora, " 29 "	14.54	
	Bishenpur ...	11.74	Sufficient rain in all parts of the district. Transplanting nearly finished. Prices have somewhat risen. Cholera has abated.
	3 Baerbhoom, " 29 "	5.88	
	Rampore Haut ...	7.30	Weather—very wet and stormy. Disastrous floods in the Ghatul and Sudder sub-divisions; nearly seventeen inches of rain in Tumlook. Crops much damaged.
	Midnapore, " 29 "	17.33	
	4 Hooghly, " 29 "	7.53	Excessive rain threatens to cause considerable injury to crops, especially in Jehanabad sub-division. Many houses injured by the heavy rain. Health fair.
	Serampore ...	11.16	
	Jehanabad ...	18.54	Weather—chiefly rainy. Much damage has been done to the crops, especially in the south and west, by the floods. The extent of damage cannot be ascertained till the floods subside.
	5 Howrah, " 29 "	6.91	
	Ooloberiah ...	11.03	
<i>Central Districts.</i>			
Presidency Div.	6 24-Pergha, Aug. 29 '85	10.37	Heavy downpour of rain in all parts of the district. Prospects of ripe <i>aus</i> have become gloomy by reason of the heavy fall of rain. <i>Amun</i> on low lands has also suffered from the accumulation of water. Public health good except for usual fever.
	7 Nuddea, " 29 "	4.37	Weather—hot and cloudy with occasional rain. Harvesting of <i>aus</i> paddy in progress. Paddy on chur lands has been submerged. Rivers are rising day by day, and have damaged the crops in some parts of the district, but on the whole the reports are not so bad as were expected.
	Kushtea ...	3.41	
	Moherpur ...	3.23	
	Chudanga ...	2.10	Heavy rain (10.6) in Satkhira sub-division; in other sub-divisions moderate rain; some sunshine at close of the week. <i>Aus</i> crop ripening; cutting delayed by rain, causing rise in price. Cultivation of <i>amun</i> continues. Fever reported in Bagerhat, otherwise public health fair.
	8 Khoolua, " 29 "	2.25	
	9 Jessore, " 29 "	2.22	Weather—rainy. Recent heavy rain and rise of rivers have caused some damage to rice crop. If weather becomes favourable, prospects of crops will continue good. Cases of fever here and there.
	Jhenida ...	2.28	
	Magoora ...	2.56	
	Narail ...	2.71	Weather—cool, with heavy rain almost daily. The prospects of the <i>aus</i> crop are now very unfavourable, as very large areas where it was growing have been submerged by the floods before the crop was ripe. The floods have done unusually great damage owing to a breach in the Bhagiruthi embankment at Lolitakuri. The <i>amun</i> crop is now doing fairly well. Public health good. Common rice is selling at from 10 to 12 seers per rupee.
	Bongong ...	14.18	
	10 Moorsheebad, " 29 "	7.36	
	Lalbagh ...	8.91	Rain in all parts of the district except in Kaliagunge. State and prospects of sugarcane good. <i>Bhadai</i> and jute are being harvest-d. Cultivation of <i>amun</i> going on very well. Rice is selling at from 12 to 20 seers per rupee.
	Kandli ...	4.90	
	Jungipore ...	6.02	Weather—hot and rainy. Harvesting of <i>aus</i> paddy, jute, &c., going on with expectation of fair outturn. Fever rather prevalent. Cholera dying out in Nowgong, reported as confined to one village. The disease is also reported from thana Tannore.
	11 Dinagore, Aug. 28 '85	1.78	
Rajshahi Div.	12 Rajshahi, " 29 "	5.42	Weather—clear and very hot by day. Harvesting of <i>aus</i> paddy almost brought to a close; transplanting of <i>amun</i> continues. Prospects of <i>amun</i> and other crops on the whole good. More rain is wanted in the Kurigram sub-division where the prospects of <i>amun</i> crops are not promising. Fever and bowel-complaints prevalent.
	Nattore ...	7.85	
	Nowgong ...	1.38	Rainfall singularly scanty, and weather very hot. A few slight earth tremors, but no quakes. Prospects of crops continue favourable. It is wanted to some extent. Public health fair.
	13 Rungpore, " 29 "	0.96	
	Nilphamari ...	0.22	Weather—hot and rainy in the early part of the week. A very heavy crop of <i>aus</i> being harvested where not injured by floods; an excellent promise of <i>amun</i> ; jute crop good, but rather late. Public health good.
	Quibanda ...	1.20	
	Kurigram ...	0.93	A break in the rains. The harvest of rice, maize, millets, and jute in progress is very satisfactory, and prospects are most favourable.
	14 Bogra, " 29 "	0.49	
	15 Pubna, " 29 "	2.04	Weather—cloudy at times with light rain. Prospects of crops continue satisfactory. Harvesting of <i>aus</i> nearly over. Transplanting of late rice continues. Cholera still prevails in thana Mynagore, and cattle-disease in the Alipur and Falacotta tehsils. Price of rice unchanged.
	Serajgunge ...	1.90	
	16 Darjeeling, " 29 "	6.32	
	17 Julpigoree, " 29 "	1.00	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.—<i>consolid.</i></b>			
<i>Eastern Districts.</i>			
Dacca Division.	18 Dacca, Aug. 29 '85	2.39	Weather—seasonable. Harvesting of <i>aus</i> paddy and jute continues. <i>Amun</i> paddy thriving. Prospects of crops and public health good.
	Manickgunge	2.42	
	Munshigunge	4.63	
	Naraingunge	3.85	Weather—cloudy with occasional heavy showers. <i>Amun</i> , jute and sugarcane crops promise well. Public health good.
	19 Farreepore, „ 29	0.34	
	Goalundo	6.55	
	Madaripore	9.47	Weather—seasonable with incessant rain. <i>Aus</i> paddy has been nearly harvested. Transplanting of <i>amun</i> is nearly over. Public health generally good.
	20 Backergunge, Aug. 27	7.13	
	21 Mymensingh, „ 28	1.47	
	Jamulpur	1.50	Weather—seasonable. State of crops and public health generally good. Harvesting of jute and <i>aus</i> crops continue.
Chittagong Divn.	Kishoregunge	1.35	
	Attia	4.15	
	Netrokona	1.95	Weather—seasonable. Prospects of crops fair. Transplanting still continues. Prices rising. Cholera continues. Public health good.
	22 Chittagong, Sep. 1 '85	1.52	
	23 Noakholly, „ 28	10.58	
	Fenny	9.22	A most incessant rain for the first six days of the week; the last day was quite clear. Ab. at three-fourths of the <i>aus</i> crop has been reaped. Transplanting of <i>amun</i> continues. Prospects good. Public health good.
	24 Tipperah „ 27	5.58	
	Chandpore	11.52	
	25 Chittagong Hill, „ 25	6.25	Weather—cloudy and cold during the early part of the week. Hot and close the last two days. Prospects of crops promising. Fever shows indications of abating; public health otherwise very good.
	Tracts.		
BEHAR.	Hill Tipperah, „ 26	4.51	
	26 Patna, Aug. 29 '85	0.92	Weather—days cloudy and rainy throughout the week; nights clear. Rain in moderate quantity every day has much improved paddy crops in <i>joons</i> and plains. Early <i>joon</i> paddy is ripening in some parts of the district. Cotton and sugarcane doing well. Fever in all parts.
	27 Gya, „ 29	11.05	
	28 Shahabad, „ 29	4.41	
	Buxar	9.17	Weather—rainy. Transplanting of <i>amun</i> paddy continues. Sugarcane doing well. Reaping of <i>joon</i> crops commenced; a fair outturn expected. Public health good.
	Bhabhna	4.62	
	Sasaram	3.67	
PATNA DIVN.	29 Darbhanga, „ 29	2.13	Weather—hot and cloudy. Transplanting of paddy is in progress, but more rain is wanted. <i>Murwa</i> and <i>makai</i> are coming into ear. Cholera still reported from Barh and Behar sub-divisions.
	Tajpur	2.92	
	Madhubani	0.71	
	30 Mozufferpore, „ 29	1.64	Weather—cloudy. <i>Murwa</i> and <i>makai</i> nearly ready. <i>Bhadoi</i> crops injured by excessive rain. Transplanting nearly completed. Cholera reported from some stations. Prices stationary.
	Hajipur	2.26	
	Sitamarhi	3.60	
	31 Saran, „ 29	5.05	Weather—seasonable. Prospects of <i>bhadoi</i> excellent except in dearah lands in the tract between Arrah and the Son where inundation and in Sasaram where incessant rain have destroyed the crop to a considerable extent. Transplanting of paddy in progress. Fever and cattle-disease reported from Sasaram. Cholera abating.
	Sewan	1.27	
	Gopalgunge	1.34	
BAGULTEEN DIVN.	32 Champaran „ 29	2.91	Weather—occasionally cloudy and close. Prospects of <i>bhadoi</i> crops very favourable. Transplanting of paddy seedlings still going on, but more rain wanted in places. Prices continue almost stationary. A few isolated cases of cholera reported from Madhubani; otherwise public health generally good.
	Bettiah	3.22	
	33 Monghyr, Aug. 29 '85	1.94	
	Begusarai	5.13	Weather—cloudy and showery. Maize in ear, and <i>shama</i> , <i>ksui</i> and <i>murwa</i> being harvested. Floods have done considerable damage both to <i>bhadoi</i> and <i>aghani</i> crops; otherwise prospects good. Sporadic cholera severe in the district; it has nearly disappeared from Mozufferpore town.
	Jamai	7.79	
	34 Bhagulpore, „ 29	0.93	
	Muddehporeah	2.20	Weather—rainy with intervals of sunshine. Sufficient rain all over the district; state and prospects of crops continue good. <i>Murwa</i> , <i>makai</i> , <i>shama</i> , and <i>ksui</i> coming into ear. Cholera more or less severe reported from headquarters and sub-divisions; it is, however, abating in the town of Chupra.
	Soopole	1.76	
	Banka	6.62	
	35 Purneah „ 29	2.33	Weather—fair and cloudy alternately. Prospects of crops continue favourable. <i>Makai</i> coming in to ear. Transplanting of paddy seedlings going on. Prices stationary. Cholera still reported from Motibani and Bettiah towns and the interior.
	Kissengunge	1.15	
	Arrareah	1.58	
	36 Maldah „ 29	6.83	Weather—cloudy with occasional heavy showers. <i>Bhadoi</i> crop on dearahs and low lands adjacent to the Ganges has been more or less destroyed. Prospects of <i>aghani</i> crop good. Transplanting nearly completed. Prices show a tendency to rise. Cholera still prevalent.
	Chanchal	2.02	
	Gazole	5.49	
	Shibgunge	6.55	Weather—showery at Sudder. <i>Murwa</i> and <i>bhadoi</i> harvest has begun in the north; outturn very good. More rain wanted in the north for transplanting. <i>Janera</i> somewhat damaged by excessive rain in Banka where some fine weather is required. Prospects of winter rice good. Cholera still very bad in Banka.
	37 Sonthal Pergah „ 29	5.63	
	Deoghur	6.18	
	Godda	3.77	<i>Bhadoi</i> excellent. Rain required for <i>aghani</i> . Health fair. Cholera passive. Ganges in high flood.
	Rajnehal	5.78	
	Jamtara	6.88	
	Pakour	5.61	Weather—fair with occasional showers. <i>Bhadoi</i> paddy in low land in the dearah tracts has been nearly lost. Prospects of <i>haimanta</i> paddy good. Coarse rice selling at 12 seers per rupee at English Bazar.
			Heavy rain daily till the 27th, since then the weather has moderated and there has been some sunshine. The continued heavy rain has somewhat injured low-lying <i>dhan</i> lands; on higher lands the crop is splendid. A large area of rice land has been inundated in Rajnehal, and the crops nearly, if not altogether, destroyed. The <i>janera</i> crop is considerably shorter than last year. Cholera still very prevalent in Pakour and Deoghur.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
Orissa Divn	38 Cuttack, ... ..	...	Report not received.
	39 Pooree, " 27 "	1.24	Weather—seasonable. Puddling, transplanting and weeding of <i>sarad</i> paddy going on. <i>Beali</i> or early rice is in ear, and other miscellaneous crops are thriving. Common rice is selling at an average of 17 seers 13 chittacks per rupee in the Sudder sub-division, and 17 seers 15 chittacks in the Khoorda sub-division. Cases of cholera reported from the interior. Public health is generally good.
	Khoorda " ...	2.36	
	40 Balasore " 28 "	4.01	Weather—cloudy and rainy. Prospects of rice crop continue favourable. Rivers rose considerably during the week, but no injury to crops reported. Public health good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh, Aug. 28 '85	3.38	Weather—seasonable. Incessant and heavy rain everywhere; a break is now required. <i>Bhadai</i> has been injured in places owing to excessive rain. Transplanting of rice approaching completion and crops promise well. Cholera still very prevalent in several thanas. Small-pox and fever also reported from a few villages.
42	Lohardugga, " 29 "	5.16	Very heavy rain during the early part of the week; rivers in full flood and communication with many parts of the district cut off in consequence. 28th and 29th were fine days, but sky still cloudy and threatening. <i>Bhadai</i> crop has been damaged a little, but on the whole prospects are fair. Cholera still prevails in Ranchee and Mandar, otherwise public health good.
43	Singbhoon, " 28 "	7.75	Weather—very wet throughout the week. There has been very heavy rain during the week, but to-day (28th) it has cleared up. Bright weather wanted for the ripening of <i>bhadai</i> crops. Up to date all crops are reported to be doing excellently. Prices easy and general health good.
44	Manbhoon, " 29 "	9.12	Weather—wet. Fine weather now required for all crops after the heavy rain of the week. <i>Bhadai</i> somewhat damaged by excessive rain. Prices falling. Public health fair.
	Govindpore " ...	5.67

The total fall of rain from 23rd to 29th August 1885 ... 9.63  
The average fall of the corresponding period for 24 years, S. G.'s Office ... 2.71  
The total fall from 1st January to 29th August 1885 ... 52.45  
The average fall of the corresponding period for 24 years, S. G.'s Office ... 47.86

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the New Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, p passing temporary showers, d drizzling rain, t thunder, ● continued rain.

ALEXANDER PEDLER.

METEOROLOGICAL OFFICE, INDIA:  
Calcutta, the 31st August 1885.

For Meteorological Reporter to the Government of India.

\* Means for six days.

† Means for five days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same time of day of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 100. The normal means of the rainfall are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisions of the district (i.e., the total rainfall at the sub-divisional stations in the district during the returns divided by the number of stations. A rain-

for the week ending Friday, the 28th of August 1885.

period for the past ten years. The variations are *negatives* when the mean for the week is less than the corresponding normal mean, and *positives* when greater, by 10. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District" observations for the period in question during the past 12 years. The means of the "district" are the numerical averages of the rainfall return received from all the stations on which at least one hundredth of an inch fell.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, the 31st August 1885.

# SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 28TH OF AUGUST 1885.

The present week has been an exceedingly important one from a meteorological point of view, for it has brought excessively heavy rain to South West Bengal, Chutia Nagpur, East Bengal and South Behar, while it has also brought good general rain to North Behar; the only districts which have received comparatively very small falls being Orissa and North Bengal. At the close of the previous week there was a small barometric depression in North Bengal, the centre of which on the Friday was not far from Maldah. It was, however, a feeble one, and it disappeared during that day, and with a very rapid fall of the barometer which took place on Saturday, the 22nd, in South-East Bengal, a new barometric depression was formed in this district with its centre near Dacca. The fall in this district was very rapid, and at Jessore, Chittagong and Comilla the decrease exceeded a tenth of an inch. There was on this day a very decided convergence of the winds towards the area of low pressure in East Bengal, and with the heavy rainfall which occurred in this district at the same time, the small cyclonic storm became decidedly more intense, and commenced to move in a westerly direction, giving particularly heavy rain in its path. At the same time, at the westerly stations of the Province, westerly winds were blowing, and at the northern stations easterly winds were reported, so that a considerable amount of interaction was taking place, which caused heavy rainfall. On this day then the eastern and southern districts of the Province were receiving heavy rainfall due to the depression which was forming in South-East Bengal, and the northern and western districts were receiving heavy rain due to the interaction of winds above noted. The depression moved in a westerly direction, and on Sunday, the 23rd, its centre was between Jessore and Calcutta, and it was giving on this day exceptionally heavy rain to the districts through which it was passing. On the Monday the small storm had advanced into the south of Chutia Nagpur, and its centre was apparently almost due south of Hazaribagh, though it was apparent that the storm was becoming more feeble, and on Sunday, the 25th, it had moved to the north-east corner of Chutia Nagpur, and it was then extremely feeble and was evidently rapidly breaking up. The formation and advance of this storm were of course the main features in the meteorology of the first four days of the week. Round the small storm there was the usual well marked cyclonic circulation of winds, and with the advance of the storm into the interior, strong south-easterly and easterly winds set in over the Province. The storm was only of small intensity with regard to the wind velocities which accompanied it, but with regard to the rainfall it brought, it was of considerable importance, particularly during the first two days of its existence, as will be seen from the following record of rainfall of stations affected by it. Thus on the 22nd, Jehanabad in the Hooghly district received 12.5 inches of rain, Chittagong 4.58 inches, Goalundo 5.5 inches, and Furrcepdore 4.15 inches. On the 23rd, Bongong (in the Jessore district) reported 10.31 inches, Raipur (Bankoora district) 7.57 inches, Anda (Bankoora district) 7.34 inches, Khatra (Bankoora district) 7.1 inches, Bankoorah 10.33 inches, Mohesreka (Howrah district) 6.39 inches, Calcutta 7.84 inches, Midnapur 8.64 inches, and Tumlook (Midnapur district) 8.15 inches.

As has been before stated, the small storm had ceased to have any marked effect on the meteorology of the Province on the 25th instant, and on the following day pressure was falling in East and North Bengal, while in other districts it was rising. There appeared on this day to be a distinct tendency to again form a low pressure area in South Bengal, for in South-West Bengal pressure was 0.05" below the normal, and at Calcutta the defect was 0.06", while in other districts pressure was nearly normal, and at Cuttack it was even above normal. On this day, too, with the complete disappearance of the first depression from Behar, a westerly wind current set in at the western stations, producing decided interaction with the easterly and south-easterly winds previously blowing, and heavy rain was again reported from the western stations in Behar, Chutia Nagpur and in South-West Bengal. The tendency to the formation of a barometric depression in South Bengal became much more marked on the 27th, and a small and feeble depression was distinctly formed over the Sunderbans to the south-east of Calcutta, which was attended by the usual cyclonic circulation of winds. On Friday, the 28th, the depression had rather increased in area, though it had not intensified to any material extent, and it was moving in a northerly or north-westerly direction, the lowest pressure being reported from Calcutta, and the depression being apparently only a short distance to the south-east of this station. This storm also, during its formation and advance, brought up light to moderate rain to the southern districts. From this short summary of the meteorological conditions of the week, it will be seen that throughout the week heavy rainfall has been brought to East and South-West Bengal, and also to South Behar and Chutia Nagpur. Also that North Behar and North Bengal have to a certain extent been out of the sphere of action of the causes producing increased rainfall, while in the case of Orissa the moist winds were actually drawn a way from this district for the greater part of the week, owing to the indraught towards the two depressions above described, and thus Orissa has received comparatively a very small rainfall.

The variations of pressure during the week have been rather large, and they have necessarily to a great extent followed the formation and movement of the two depressions previously described. For the previous week pressure had been about 0.03" in defect on the average of the whole Province, the defect having been fairly evenly distributed. On the 22nd there was a rapid fall of pressure in South-East Bengal owing to the formation of the depression near Dacca, and at this station pressure on this day was no less than 0.16" below the normal, while in the western districts of the Province, as in Orissa, the defect

was only 0.01". With the westerly movement and development of the storm, on the 23rd at Jessore pressure was no less than 0.23" in defect, and at Calcutta it was 0.22", while in Chutia Nagpur the defect was less than 0.01". The effect of the depression was still marked on the 24th, and pressure over the whole Province was in defect by 0.13", but this was followed on the 25th by a rapid increase of pressure in the southern districts, where in many instances the rise was more than a tenth of an inch, but still pressure was below the normal. On the 26th pressure again fell at the southern stations, owing to the formation of the second area of low pressure, and on the 27th and 28th, notwithstanding that pressure was rising rapidly in the northern and western districts, it continued to fall in South Bengal, and thus the depression became rather deeper. The average defect for the whole Province for the week has been nearly 0.08", and, as may be expected, the defect has been largest in South-West Bengal, where at Calcutta it was 0.12", at Berhampore 0.1", and at Jessore the defect has been 0.11".

Temperature during the previous week was very distinctly in defect of the normal, and with the heavy rainfall which has prevailed during the present week, this defect has been rather increased, and the average temperature over the whole Province is 2° below the normal. At many stations during certain days of the week temperature has been comparatively very low, and thus on the 28th at Gya and Hazaribagh it was no less than 6° below the normal.

Winds have, as may be expected, been decidedly abnormal in most districts throughout the week. The prevailing features have of course been a well marked cyclonic circulation, at first round the depression which formed near Dacca, and then travelled to the north of Calcutta, thence into the south of Chutia Nagpur, and from this into the north-east corner of that Province, and with its advance the circulation of winds was also transferred, and in its rear rather strong south-easterly winds set in over the Province. With the disappearance of the depression, and with the formation of the second depression in South Bengal, a fresh cyclonic circulation of winds was set up, all the districts except perhaps a few stations in North Bengal and part of Behar being thus affected, and this distribution of winds continued till the close of the week.

The distribution of rainfall has already been very briefly noticed, and its extraordinary heaviness during the week will be seen by comparing the actual falls in each meteorological division with the normal falls. South-West Bengal has received an average rainfall of 8.84 inches against the normal fall of 2.19 inches, or more than four times the normal amount. Chutia Nagpur has received 5.83 inches instead of the normal fall of 2.54 inches, and has thus received not quite twice its usual amount. East Bengal reports 4.42 inches against the normal 2.74 inches, again nearly twice the usual quantity. South Behar has received 5.05 inches, while the normal quantity is 2.15 inches, again rather less than twice the normal amount. In North Behar the average rainfall has been 2.31 inches against 2.20 inches, which is a little more than normal, and the other two districts, North Bengal and Orissa, have received falls below normal; North Bengal reporting 2.04 inches against the normal 3.48 inches, and thus receiving only 58 per cent. of the normal, while Orissa received 2.06 inches, instead of the normal 2.16 inches, which is 95 per cent. of the normal. The number of rainy days in the various districts has also been exceedingly large, and even in those districts where the rainfall has been in defect, the number of rainy days in the week has been distinctly in excess. For the whole Province the average number of rainy days for the week has been 5.3 as against the normal number of 3.8 days.

During the week there have been some exceptionally heavy falls, particularly in connection with the first depression on the 22nd, 23rd, and 24th. Some of the heaviest rainfalls have been given under the meteorological summary for the week, and it will not be necessary therefore to repeat them. Although the numbers given above represent very well the exceptionally heavy rainfall over the large meteorological districts, yet they scarcely represent in some cases the full intensity of the falls. These may best be seen by taking up the smaller districts, and here prominent among the excess falls in the South-West Bengal division stands Midnapore, which district has received 15.77 inches against the normal amount of 2.67 inches. The district round Calcutta, including 24-Pergunnahs, Howrah and Hooghly has received an average of 11.47 inches against the normal 1.97 inches. The district of Bankoora reports an average of 11.79 inches against the normal 2.13 inches, and Berhampore district 7.48 inches against the normal 2.25 inches. In South Behar the district of Gya reports 7.56 inches against the normal 2.32 inches, and the Sonthal Pergunnahs 6.01 inches against 2.16 inches. In North Bengal, which on the whole has received a decidedly defective fall, the district of Rajshahye reports 6.40 inches against 2.36 inches, and is thus largely in excess, while on the other hand the Rungpore district has only received 0.84 inch against the normal 3.18 inches. With the excessively heavy falls just mentioned, it is of course no wonder that floods are being reported from various districts.

The excessively heavy rainfall for the week may be seen in another way by quoting the stations receiving exceptionally large amounts. Thus the following stations have received more than 15 inches of rain during the week:—In South-West Bengal, Midnapore, and Jehanabad, and in East Bengal, Cox's Bazar. The following stations have received between 15 and 12 inches of rain during the week:—In South-West Bengal, Ghatal, Tamlook, Bhagwanpore, Canning Town, Calcutta, Baraset, Bankoora, Khatra, Anda, and Bongoug. The following stations have also received falls of between 8 and 12 inches during the week:—In South-West Bengal, Saugor Island, Devog, Heria, Garbeta, Barrackpore, Bagm-Dum, Busseerhat, Howrah, Mohesreka, Serampore, Culna, Burdwan, Bishnupore, Maliara, Kotalpore, Gungajalhati, Raipore, Sonamukhi, Satkhira, Lalbagh, and Azimgunge. In East Bengal Chittagong received 9.87 inches. In South Behar, Gya received 11.05 inches, and in Chutia Nagpur, Silli, Barhi, Baharagura, Purulia, and Jhalda received amounts above 8 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 28th of August 1885:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.						RAINFALL.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 15th May 1885.

The mean temperature of the seven days ... 80.1  
The extreme variation of temperature ... 13.2  
The maximum temperature ... 89.2

The mean relative humidity ... 93

The total fall of rain from 23rd to 29th August 1885 ... 10.34

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

METEOROLOGICAL OFFICE, INDIA;  
Calcutta, the 31st August 1885.

ALEXANDER PEDLER,  
For Meteorological Reporter to the Govt. of India.

## MEMORANDA.

THE returns of the principal Municipalities in Bengal presented, during the week ending 15th August 1885, the birth and death-rates of 27·5 and 48·1 per 1,000 of population, respectively, as opposed to 23·8 and 45·6 per 1,000, respectively, during the preceding week ending 8th August, indicating a considerable advance in the registration of both events.

2. The Municipalities which exhibit the highest results in birth and death registration are—

Births.				Deaths.			
			Ratio per mille.				Ratio per mille.
Bhagulpore	...	...	57·9	Chupra	...	...	153·3
Gya	...	...	46·5	Gya	...	...	100·4
Patna	...	...	44·5	Monghyr	...	...	97·6
Comillah	...	...	42·4	Bhagulpore	...	...	66·1
Chittagong	...	...	35·2	Patna	...	...	65·2
Durbhanga	...	...	33·1	Mozufferpore	...	...	58·4
Monghyr	...	...	31·6	Arrah	...	...	40·7
				Suburbs of Calcutta	...	...	38·3
				Puri	...	...	37·8
				Burdwan	...	...	36·6
				Durbhanga	...	...	35·4
				Chittagong	...	...	32·8

3. The following table denotes that, as compared with the outcome of the preceding week, there was a considerable enhancement of mortality from cholera with a sensible diminution in that from fever, and that the casualties from the rest of the death-causes, excepting injury, exhibit only fractional variations:—

				Ratio per mille during the weeks ending—	
				15th August 1885.	8th August 1885.
Cholera	...	...	...	13·4	10·6
Small-pox	...	...	...	·8	·2
Fever	...	...	...	14·1	16·0
Bowel-complaints	...	...	...	7·6	7·2
Injury	...	...	...	·4	·4
Other causes	...	...	...	11·8	11·2

4. Excluding injury, the mortality from which was not noticeably severe anywhere, the rest of the death-causes proved conspicuously fatal to life in the following Municipalities:—

Cholera.	Small-pox.	Fever.	Bowel-complaints.	Other causes.
Ratio per mille.	Ratio per mille.	Ratio per mille.	Ratio per mille.	Ratio per mille.
Chupra ... 108·4	Durbhanga ... 11·8	Gya ... 26·6	Patna ... 16·4	Gya ... 26·0
Monghyr ... 64·2	Chupra ... 4·9	Bhagulpore ... 26·2	Gya ... 13·7	Chupra ... 24·4
Gya ... 34·1		Arrah ... 22·7	Hughli ... 13·4	Bhagulpore ... 16·3
Mozufferpore ... 21·9		Burdwan ... 21·4	Monghyr ... 11·7	Kishnaghur ... 15·1
Puri ... 14·7				Patna ... 14·0
Arrah ... 14·3				Monghyr ... 13·6
Bhagulpore ... 13·6				Suburbs of Calcutta ... 13·2
Patna ... 13·3				Puri ... 12·6
Scrapore ... 9·8				Howrah ... 11·8

It will be seen that cholera continued to prevail with added severity in the Chupra Municipality in comparison with its incidence during the preceding week.

5. With regard to mortality referable to *Sex*, *Class* and *Age*, the rates stand as follows:—

According to Sex.		According to Class.		According to Age.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.
Males ...	47·1	Christians ...	43·4	Under 1 year	475·0
Females ...	49·4	Hindus ...	49·8	1 and under 5 years	85·8
Ratio of male deaths to every 100 female deaths	108	Mahomedans ...	44·8	5 " 10 "	39·7
				10 " 15 "	25·3
				15 " 20 "	31·3
				20 " 30 "	27·0
				30 " 40 "	28·7
				40 " 50 "	32·4
				50 " 60 "	39·9
				60 years and upwards	72·4

The 31st August 1885.

R. LIDDERDALE, M.D., Deputy Surgeon-General,  
Sanitary Commissioner for Bengal.

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending 15th August 1885.

1		3		5		7		9		11		13	
DISTRICTS.		NAMES OF MUNICIPALITIES.		POPULATION.		BIRTHS.		MORTALITY ACCORDING TO—		Sex.			

\* A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this census of the community taken in February 1881, was not reliable owing to a mistake in the number of the natives remaining as before, as it was not necessary to ascertain them. The figures consequently been calculated on the revised population under all heads in the above table, except 477, the revised number which has been inserted in the census of the Europeans above stated in the census of the Darjiling Municipality.

[illegible]

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,

**R. LIDDERDALE, M.D., Deputy Surgeon-General,  
Secretary Commissioner for Bengal.**

## PART I.

### Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

#### ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 3256A.

**GENERAL.**—*The 3rd September 1885.*—Mr. E. M. Lewis, Superintendent of Government Printing, Bengal, is allowed leave from the 27th August to the 12th October 1885, both days inclusive, under section 72, chapter V of the Civil Leave Code.

Mr. W. Ross, Deputy Superintendent of the Presidency Jail Press, is appointed to act as Superintendent of Government Printing, Bengal, during the absence, on leave, of Mr. E. M. Lewis, or until further orders, in addition to his own duties.

*The 7th September 1885.*—The services of the following Deputy Magistrates and Deputy Collectors are placed at the disposal of this Government in the Financial Department for employment on excise work in the districts mentioned against their names:—

Baboo Nobin Chuander Das ... ..	Monghyr.
„ Ram Anugrah Narain Singh ... ..	Sarun.
„ Sant Prosad ... ..	Gya.

Baboo Chunder Coomar Datt, Deputy Magistrate and Deputy Collector, Manickgunge, Dacca, is transferred to Kungpore, and is appointed to have charge of the Gyebanda sub-division of that district.

Baboo Saroda Prosad Sircar, Deputy Magistrate and Deputy Collector, Satkhira, Khulna, on leave, is transferred to Dacca, and is appointed to have charge of the Manickgunge sub-division of that district.

Baboo Bhairub Nath Palit, Deputy Magistrate and Deputy Collector, Pubna, is allowed leave for three months, under section 128, chapter X of the Civil Leave Code, with effect from such date as he may be relieved.

Baboo Jagat Chundra Bose, Officiating Deputy Magistrate and Deputy Collector, is posted to the sudder station of the district of Pubna.

Mr. A. E. Staley, Assistant Magistrate and Collector, is appointed to act in the first grade of Joint-Magistrates and Deputy Collectors with effect from the date on which he was relieved of his appointment as Officiating Under-Secretary to the Government of Bengal.

Mr. A. E. Staley, Officiating Joint-Magistrate and Deputy Collector, is appointed to act as Deputy Commissioner of Julpigoree, during the absence, on leave, of Mr. G. J. B. T. Dalton, or until further orders.

This cancels the order of the 11th August 1885, appointing Mr. R. M. Waller to act as Deputy Commissioner of Julpigoree.

**POLICE.**—*The 3rd September 1885.*—Mr. P. A. Sandilands, Officiating District Superintendent of Police, Tipperah, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code, from such date as he may avail himself of it.

Mr C. S. Murray, Assistant Superintendent of Police, 24-Pergunnahs, is appointed to act as District Superintendent of Police, Tipperah, during the absence, on leave, of Mr. P. A. Sandilands, or until further orders.

Mr. C. C. Plowden, Officiating Assistant Superintendent of Police, Nuddea, is transferred to the district of the 24-Pergunnahs, *vice* Mr. C. S. Murray.

**REGISTRATION.**—*The 4th September 1885.*—In supersession of the order of the 2nd June last, published in the *Calcutta Gazette* of the 10th idem, Syed Tofail Ahmed is appointed to be Rural Sub-Registrar of Kalarua, in the district of Khulna.

Baboo Rajchunder Gupta, Rural Sub-Registrar of Kalarua, in the district of Khulna, is appointed to be Rural Sub-Registrar of Paikgacha in that district.

Moulvie Alaul Huq, Rural Sub-Registrar of Paikgacha, in the district of Khulna, is appointed to be Rural Sub-Registrar of Dumuria in that district.

**EDUCATION.**—*The 3rd September 1885.*—Baboo Haran Chandra Maitra is confirmed as Head Master of the Moorshedabad Nawab's High School, with effect from the 1st April last, *vice* Baboo Nanda Lal Das, transferred.

*The 4th September 1885.*—Dr C. A. Martin, Inspector of Schools, Eastern Circle, reported his departure from India, on furlough, on the 18th August 1885.

Mr. A. S. Phillips, officiating in class I of the Subordinate Educational Service, is confirmed in that class, with effect from the 1st May 1885, *vice* Baboo Radhika Prasanna Mookerjee.

Baboo Hara Gobinda Sen, Professor, Rajshahye College, acted in class I of the Subordinate Educational Service from the 29th December 1884 to the 7th February 1885, inclusive, *vice* Baboo Radhika Prasanna Mookerjee.

Moulvie Abul Khair Muhammad Siddiq, officiating in class II of the Subordinate Educational Service, is confirmed in that class, with effect from the 1st May 1885, *vice* Mr. A. S. Phillips.

Moulvie Abdul Hai, officiating in class II of the Subordinate Educational Service, is confirmed in that class, with effect from the 1st May 1885, *vice* Baboo Raj Krishna Banerjee, retired.

Baboo Nilmani Gangooly, Head Master of the Berhampore Collegiate School, acted in class II of the Subordinate Educational Service from the 29th December 1884 to the 7th February 1885, inclusive, *vice* Baboo Hara Gobinda Sen.

Baboo Iswar Chandra Bose, Head Master, Dacca Collegiate School, is promoted to class III of the Subordinate Educational Service, with effect from the 1st May 1885, *vice* Moulvie Abdul Hai.

Baboo Jagat Bindhu Bhadra, Head Master, Jessore Zillah School, is promoted to class IV of the Subordinate Educational Service, with effect from the 1st May 1885, *vice* Baboo Iswar Chandra Bose.

F. B. PEACOCK,  
*Chief Secy. to the Govt. of Bengal.*

#### FOREST DEPARTMENT.

*The 4th September 1885.*—Mr. E. E. Wylly, Sub-Assistant Conservator of Forests, second grade, in charge of the Khoorda sub-division of the Orissa Forest Division, is promoted to the first grade of Sub-Assistant Conservators with effect from the 16th July 1885.

H. H. RISLEY,  
*Offg. Secy. to the Govt. of Bengal.*

#### NOTIFICATION.

##### BENGAL TENANCY ACT.

*The 4th September 1885.*—In exercise of the powers vested in him by section 1 (2) of the Bengal Tenancy Act, and with the sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to declare that the Act shall come into force on the 1st November 1885.

H. H. RISLEY,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

## BENGAL TENANCY ACT.

*The 4th September 1885.*—The following draft rules, under the provisions of Act VIII of 1885, are published for general information, in conformity with section 190 of the Act, and it is hereby notified that the draft will be taken into consideration by the Government of Bengal on the 15th of October 1885. Any objection or suggestion which may be made by any person with respect to the draft should be submitted to the Secretary to the Government of Bengal, in the Revenue Department, at Darjeeling, before the date specified above.

H. II. RISLEY,

*Offg. Secy. to the Govt. of Bengal.*

*Rules under the Bengal Tenancy Act.*

*Section 107.* 1. In all proceedings for survey and record of rights under Chapter X of the Tenancy Act, other than proceedings for settlement of rents and proceedings under section 106, the procedure for the time being prescribed by the Board of Revenue for the guidance of revenue officers engaged in the conduct of surveys and records of right shall be followed where no other mode of procedure is prescribed by rules made by the local Government for conduct of surveys and records of right under that Chapter.

2. In proceedings for the settlement of rents under Chapter X if the landlord applies for a settlement of a fair rent, he shall be considered as plaintiff and the tenant as defendant, and the proceeding shall be dealt with as a suit under the Code of Civil Procedure. If the tenant applies for a fair rent, he shall be considered as plaintiff and the landlord as defendant, and the proceeding shall be dealt with as a suit under the Code of Civil Procedure.

3. When it appears that the tenant is holding land in excess of or less than that for which he is paying rent, and neither the landlord nor tenant applies for settlement of a fair rent, the revenue officer shall call upon the landlord and tenant to attend at his office on a date to be specified in the notice for the purpose of having a fair rent settled. Should the parties fail to attend, or should either of them deny that the existing rent is fair and equitable, the revenue officer shall notify to the landlord and tenants, in the form hereunto annexed, his intention to settle fair rents at a future date, which shall not be less than fifteen days after the date of such notification, and he shall call upon them to appear before him on the date specified and on any subsequent dates to which the proceedings may be adjourned, and to state any objection they may have to urge against the existing rent being recorded as the fair and equitable rent. Such notice shall be given to the tenants by proclamation and beat of drum in the village in which the land is situated, and shall also be suspended in some conspicuous place in the village, and it shall be given to the landlord by service if practicable on himself or his naib, gomashta or agent, in the village, and (if such service be not practicable) by proclamation and beat of drum in the village and by suspension of the notice in the place at which rents are usually paid.

4. If neither the landlord nor tenant attend on the date specified in the notice, the existing rent shall be recorded as the fair rent.

5. If the landlord attend and claim an enhancement on the existing rent, he shall be considered as plaintiff and the tenant as defendant, and the proceeding shall be dealt with as a suit under the Code of Civil Procedure.

6. If the tenant attend and claim a reduction, he shall be considered as plaintiff and the landlord as defendant, and the proceeding shall be dealt with as a suit under the Code of Civil Procedure.

7. Where the estate or tenure belongs to or is managed by the Government or the Court of Wards, the procedure laid down in the preceding rules for the settlement of fair rents and for proceedings under section 106

shall be followed, the "Collector of the District" or "Manager of the estate or tenure," respectively, as the case may be, being regarded as the landlord.

8. Any number of tenants occupying land under the same landlord, in the same village or estate, may make a joint application for the settlement of fair rents. Such application may, in the discretion of the Revenue officer, be dealt with as a civil suit in which the applicants are joined as plaintiffs and the landlord is defendant, provided that if it appear to the Revenue officer that any question between any of the parties so joined and the defendant cannot be conveniently so jointly heard, he may order that such question be separately heard and decided, or may make such other order as may be necessary and expedient for the joint or separate disposal thereof.

9. In proceedings for the settlement of rents under this chapter, when an enhancement of rents is claimed solely on the ground specified in sections 30 (b), of a rise in prices during the currency of the present rent, any number of tenants occupying land in the same village or estate, whose existing rents are alleged to have been current for the same period, may be joined as defendants in the same proceeding. If it appear to the Revenue officer at any time during the proceeding that the rent or rate of rent of any such tenant, or of any number of them, was not current during the same period as the rents of the other tenants so joined as defendants, he may, at his discretion, order that the name of any such tenant or tenants be struck off, and that the settlement of their rents be made the subject of separate proceedings.

10. In proceedings under section 106, when a dispute arises before the final publication of the record regarding the correction of an entry (not being an entry of rents settled under Chapter X) or as to the propriety of any omission, notice of the objection shall be served on all persons whose interests may, in the opinion of the Revenue officer, be affected by the proposed correction or omission, and they shall be called upon to attend at such time and place as the Revenue officer may fix for the disposal of the objection. If any person attends and disputes the propriety of the proposed correction or omission, the proceeding shall be dealt with as a suit between the parties under the Code of Civil Procedure, in which the objector shall be plaintiff and the other parties defendants. If no person attends to dispute the objection, the proposed correction may be made or omission supplied, or the person who made the objection may, if the Revenue officer thinks fit, be called upon to produce proof in support of his objection, which may in that case be heard and decided as a civil suit *ex parte*.

*Form of Notice to Tenants under Rule 3.*

NOTICE to                      tenants                      of

Whereas it appears that you hold land in excess of (or less than) that for which you are paying rent, you are hereby informed that I shall on                      proceed to settle fair and equitable rents at                      , and you are hereby required to attend at the said time and place, and to state if you have any objection to the existing rent being recorded as the fair and equitable rent.

*Revenue officer.*

*Form of Notice to Landlord under Rule 10.*

To A B landlord of

Whereas it appears that the tenants whose names are given below hold land under you in excess of (or less than) that for which they pay rent, you are hereby informed that I shall on                      proceed to settle fair and equitable rents for the said ryots, and you are hereby required to attend before me at                      on                      , and state any objections you may have to urge against the existing rent being recorded as the fair and equitable rent.

*Revenue officer.*

*Section 189.* 1. Revenue officers and officers of the Survey Department engaged on a survey being made under the provisions of Chapter X of the Bengal Tenancy Act, and their assistants, servants, agents, and workmen empowered by the Revenue officer, may do all acts necessary to be done to effect the survey and record of rights under Chapter X of the Act.

2. Deputy Superintendents of the Survey Department, or other officers acting as Deputy Superintendents engaged in making a survey and record of rights under Chapter X, shall be vested with all the powers which may be exercised by Superintendents of Survey under the Survey Act V (B.C.) of 1875. Revenue officers engaged in proceedings under Chapter X shall be vested with all the powers which may be exercised by a Civil Court in the trial of suits, and with the powers mentioned in clauses (b) and (c) of section 189 in addition to any other powers with which they may be vested under the Act and the rules made under it.

3. The Revenue officer may order all persons whose presence is, in his opinion, necessary for any of the purposes of Chapter X to attend at any specified time and place, and to produce any written document in their possession or power, and all such persons shall be legally bound to obey such order.

4. Where no other mode of service of notice is prescribed under the Tenancy Act, or any other Act, under which the proceedings are being taken, Revenue officers shall cause notice to be served in the same manner as a summons under the Code of Civil Procedure, if the notice is addressed to only one person, and if it is addressed to a number of persons occupying or owning land in the same village, the notice shall be served by proclamation and beat of drum in the village, and also by suspending it in the entchery or some conspicuous place in the village.

5. All orders of Revenue officers under this chapter, not being decisions appealable to the special Judge, shall be appealable to the Board of Revenue, or to such authority or officer subordinate to it, as the Board of Revenue may direct by general or special order.

#### PROCEDURE FOR CADASTRAL SURVEY AND RECORD OF RIGHTS.

6. The following several processes shall be comprised in the cadastral survey and record of rights:—

- I.—Demarcation of boundaries.
- II.—Measurement.
- III.—Testing of measurement.
- IV.—Record of rents and rights.
- V.—Determination of fair rents on application, and in certain cases without application of parties.
- VI.—Supply to parties concerned of copies of entries relating to their holdings.

#### DEMARCATON OF BOUNDARIES BEFORE CADASTRAL SURVEY.

7. The demarcation of village boundaries shall be carried out by a Deputy Collector or Sub-Deputy Collector in accordance with the rules prescribed from time to time by the Board of Revenue for the demarcation of village boundaries, and he shall record his decision on all disputes.

8. Boundary pillars of a permanent nature shall be erected—

- (a) at every point where the boundaries of three or more villages meet;
- (b) on boundaries which have been the subject of dispute;
- (c) wherever the Revenue officer considers it necessary to define by pillars the boundaries of estates or tenures.

9. A plan and estimate of such pillars shall be submitted for the sanction of the Board of Revenue.

16. Khatians or abstracts of every rayat's and sub-rayat's holding, and so far as may be of the tenure of every tenure-holder and undertenure-holder, shall be prepared in the form annexed (II), or such similar form as the Board of Revenue may from time to time prescribe.

17. The Board of Revenue shall give such instructions as they may deem necessary for the guidance of Revenue and Survey Officers in preparing the khatians, and such instructions shall be read with, and form part of, these rules.

Form of Khatians.

FORM OF KHATIAN II.

*Khatian of A. B., son of C. D., of mouzah* , *pergunnah* , *metah* , *district* , *the property of*

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16		
Name of landlord.	Serial number of cultivator.	Name of cultivator with parent's name, caste, residence.	Name of sub-tenant with parentage and residence, and number of sub-tenant's khatian.	Number.	Boundaries.	REST-PAYING AREA IN— Highest according to which measurement was made of square yards.			PRESENT RENT. According to zemindar's ryot.			Fair rent fixed by Revenue officer (if any).			Class of holding and length of possession.	Mode in which rent has been fixed, i.e., whether by contract order of the court or otherwise.	REMARKS.
						Total area in local highes.			Rent.			Total.					
						Total.			Caste.			Total.					
						Not cultivated.			Caste.			Total.					
						Cultivated.			Rent.			Total.					
						Total.			Caste.			Total.					

NOTE.—(1) The heading of columns 10 and 11 will for khatians of sub-rayats be changed to "according to ryot" and "according to sub-rayat."  
 (2) For rayat and sub-rayat will be substituted tenure-holder and undertenure-holder in case of tenure-holders' khatians.  
 (3) In column 16 must be stated if the rent is gradually increasing, the time at which and the steps by which it increases; also the special conditions and incidents of the tenancy, if any.  
 (4) If the landlord, whose name is entered in column (1), is not the proprietor, the names, character, and extent of interest of all tenure-holders and undertenure-holders intermediate between the landlord and proprietor should be shown in the khatians if it appears that their names have been registered under the Land Registration Act, and also if it does not so appear, provided all the proprietors and claimants of proprietary rights make joint application for such entry.

18. The record of right shall consist of and be contained in—

1.—The khewat.

11.—The jumlabundi, khatians or abstracts of rayats holdings.

The khewat shall contain—

(a). A record of the character and extent of proprietary interests as entered in the Collector's register under the Land Registration Act VII (B.C.) of 1876.

(b). A record of the particulars specified in section 102 regarding tenures of tenure-holders and under-tenure-holders.

(c). A memorandum of the customs of the village or estate stating—

(1)—The kists in which rent is payable, and how they have been fixed.

(2)—The opinion of the Revenue officer regarding the existence or otherwise of any custom by which occupancy rights are transferable.

(3)—The opinion of the Revenue officer regarding the existence or otherwise of a custom by which occupancy rights may be acquired by sub-rayats.

19. The khewat will be prepared in the following manner:—

(a). An extract from the Collector's Land Revenue Registers A, B, C, D, containing the names, extent, and character of the interests of proprietors of all revenue paying and revenue-free lands comprised within the mouzah shall be obtained by the Revenue officer from the Collector.

(b). If the Revenue officer finds that the proprietary interests existing in the village are in accordance with the entries regarding extent and character of proprietary interests as given in the Collector's registers, he shall have the entries copied into the khewat, which will form the record of proprietary and proprietary-mortgagees' interests for the purposes of the record of rights under the Tenancy Act. The extracts from the Collector's Land Revenue registers will also show the names and proprietary interests of managers and mortgagees of all revenue-free property within the village.

(c). If the khewat, as copied out from the Collector's registers, is admitted by the proprietors to be correct as regards the entries relating to proprietary rights, their signatures should be taken opposite such entries, which should be also signed by the Revenue officer.

(d). If any of the proprietors, their assignees or mortgagees, deny the accuracy of the khewat as copied from the Collector's registers, the Revenue officer shall refer him to the Collector of the district, and should inform him that no person is bound to pay him rent, unless and until his name, the character and extent of his interest, has been duly registered under the Land Registration Act.

(e). In any proceeding under Chapter X, the Revenue officer may at his discretion refuse to recognize any person who is bound to have his name and interest registered under the Land Registration Act, as proprietor, proprietor's assignee, mortgagee or manager, save on the application of all the proprietors and claimants of proprietary interests, unless and until it appear that his name has been registered under the Land Registration Act.

(f). The record of the rights of tenure-holders and under-tenure-holders shall be prepared in the same way as the record of rayats' rights, or in such other manner as the Board of Revenue may direct.

20. If it is found as a fact in the course of proceedings under Chapter X that any land is held revenue-free, the owner may ordinarily be allowed to continue so to hold

Claims to hold land revenue free.

it, notwithstanding anything contained in the rules for disposal of claims to hold land revenue-free contained in section VII, Chapter V, of the Rules of the Board of Revenue.

#### RECORD OF RIGHTS OF RAYATS AND UNDER-RAYATS.

Record of rayat's rights how to be made. The record of rayats' and under-rayats' rights shall be prepared in the manner hereinafter described:—

21. The Survey officers, as soon as possible after the completion of the field measurements of each village, shall make over to the Revenue officer—

- (1) Two copies of the map.
- (2) The ameen's khasrah.
- (3) The dispute lists.
- (4) Two copies of jumma-bundee slips arranged according to the terij.
- (5) The terij.

22. On receipt of these papers, the Revenue officer shall depute one of his subordinates to the village with a copy of the map and khatians, with instructions to explain the entries to all parties concerned. He shall fix and notify a period after which applications for settlement of fair rents will not be received, and shall notify his intention to come to some place at or near the village on a date not less than fifteen days from the date of notice for the purpose of framing the record of rights and settling rents, and he shall call on all persons interested to attend at his office on a date and at a place to be specified in such notice, and on any other dates to which the proceedings may be adjourned.

23. After not less than fifteen days have elapsed from the date of such notification, the Revenue officer shall proceed to a place at or near the village. He will there cause the rayats, sub-rayats, and landlords or their authorized agents to assemble.

24. The entries recorded by the ameen in each rayat's khatian at the time of measurement shall then be read out to the rayat in presence of the landlord or his agent.

25. If the correctness of the entries recorded by the ameen be disputed, the Revenue officer shall settle the dispute by local enquiry or otherwise. Provided that if the correctness of the measurement is called in question and a fresh measurement demanded, the revenue officer may require the costs of the remeasurement to be deposited. If the remeasurement show the original measurement to have been inaccurate, the amount deposited shall be refunded to the objector.

26. The Revenue officer shall then summarily ascertain and record in column 12 of the khatian the amount of each rayat's present rent.

27. The Revenue officer shall next ascertain from the rayats which (if any) of them claim the right to hold at fixed rates, and if the right claimed is disputed by the landlord of the rayats concerned or by the proprietor of the village, he shall call on the claimants for proof of such right. He will explain what that right is, as defined in section 4, clause (a) of the Tenancy Act, and the manner in which it is to be proved as described in section 50.

28. The revenue officer shall then obtain from the landlord or his agent a statement showing the names of the rayats alleged by him to be non-occupancy rayats, and if the rayats so named do not admit the allegation, he should call upon him to prove that they are not occupancy tenants. All rayats, except those proved or admitted to be rayats at fixed rates, or non-occupancy rayats, will be entered as occupancy tenants in column 14 of the khatian.

**DETERMINATION OF PROPRIETOR'S PRIVATE LANDS,—NIJ-JOTE,  
SIR, OR ZERAT.**

29. Only land which is zerat, sir, nij-jote or kamat as defined in section 120 of the Tenancy Act will be entered as sir. Land which, though cultivated by the proprietor, is yet not zerat, sir, or nij-jote within the meaning of the law will be entered thus—"Cultivated by the proprietor, but not sir." The length of time during which land of the latter kind has been so cultivated will also be entered in column 14 of the khatian. Separate khatians should be prepared for sir properly so-called, and khudkasht land cultivated by the proprietor, but not sir.

**RECORD OF RENTS PAYABLE.**

30. The record of rents payable will be contained in the khatians. The existing rents summarily ascertained by the Revenue officer under rule 26 shall be recorded as the rents payable, except in proceedings for settlement of fair rents and proceedings for decision of disputes under section 106. When in such latter proceedings it is necessary to ascertain the existing rent, it shall be ascertained by evidence as in a suit under the Code of Civil Procedure.

31. Abwabs which are not recoverable by law will not be recorded with, or form part of, the existing rent. Cesses which are authorised by law will be recorded in column 12 (b).

32. If it appear that the tenant is holding land in excess of or less than that for which he is paying rent, or if either party applies to have a fair rent fixed, the Revenue officer must settle a fair rent; and the rent so settled shall be recorded in column 13 of the khatian as the rent payable.

33. In settling fair rents the existing rent being presumed under section 104 (clause 3) to be fair till the contrary is proved, if the landlord claims an enhancement, he will have to prove the grounds of and amount of enhancement claimable in accordance with the law; and if a ryot claims a reduction, he will similarly have to prove the grounds of reduction. Such cases shall be dealt with as civil suits in accordance with the rules prescribed under section 107 of the Tenancy Act.

34. If neither party claims an enhancement or reduction, but it is necessary for the Revenue officer to settle a fair rent, he shall also proceed according to the rules prescribed under section 107 of the Act.

35. When the record of rights and rents has been prepared in the manner described in these rules, the Revenue officer shall cause a draft of it to be posted in the village cutcherry, if there be one, and if not in some conspicuous place in the village, for one month, and shall receive and consider any objections which may be made to any entry therein during this period.

36. When all applications for settling a fair rent, and all disputes under section 106 have been decided by the Revenue officer, he shall finally frame the record and cause it to be published, by having it posted in the village cutcherry, or in some conspicuous places in the village, for 15 days, and he shall then complete the records.

**SUPPLY OF COPIES TO PARTIES INTERESTED.**

37. The Revenue officer having completed the record, shall cause copies of it to be made, one of which will be made over to the village patwari, if there be a patwari, one to the Collector or Sub-divisional Officer, and one to the local Munsif.

38. A copy shall be given to every rayat and under-rayat, of the khatian relating to his holding under the signature and seal of the Revenue officer on payment of the cost of copying, which will be regulated according to the number of fields shown in the rayat's khaerah, by rules to be prescribed by the Board of Revenue in that behalf.

39. Certified copies of the khasrah and khatian and maps shall also be given to the landlord on payment of the cost of copying.

#### VILLAGE REPORTS.

40. A final report for each village will be written in English, and will show briefly—

Number of ryots of each class.

- (a). The area and classification of the village lands according (a) to survey and settlement; (b) to previous jumlabandee, if known.
- (b). Rental according to settlement, and according to previous jumlabandee, with explanation of increase or decrease, amount of Government revenue, and comparison of rent with revenue.
- (c). Rates of rent prevailing with history of past enhancements.
- (d). Description of kharchas and abwabs existing at time of survey which have not been recorded as not being lawfully payable, and of cesses recorded as lawfully payable with authority for each of the latter.
- (e). Proximity to markets.
- (f). Facilities for irrigation.
- (g). Village customs, especially with reference to transferability or otherwise of occupancy rights.
- (h). Customs as to payment of village officials.
- (i). Arrangements made for maintenance of records.

These reports shall not form part of the record and need not be published with it.

41. A final report for the whole area under survey will be submitted on the completion of the work, and will contain—

- I.—General description of the tract.
- II.—Fiscal history of it.
- III.—Statistical results.
- IV.—Comparison of condition of tract as regards rentals before and after survey.
- V.—Financial results, including approximate division of expenses under the heads—
  - (a)—Survey.
  - (b)—Record of rights.
  - (c)—Preparation and distribution of records.

42. All disputed entries in the records shall be shown in red ink and undisputed entries in black ink.

[First Publication.]

#### NOTIFICATION.

*The 4th September 1885.*—The Lieutenant-Governor sanctions the addition of the following rule to the rules for the award of middle and primary scholarships, published in the Resolutions, dated the 7th January 1882 and 29th July 1882:—

“No candidate will be eligible for a middle or upper primary scholarship who has not read for one year, reckoning back from the date of the examination, in the school from which he presents himself for examination.”

C. H. TAWNEY, *Offg. Director of Public Instruction.*

CALCUTTA, the 20th August 1885.

## HIGH COURT NOTICES.

Issued by authority of the High Court of Judicature at Fort William in Bengal.

### CIVIL.

Rule No. 14, dated the 3rd July 1885.

1. At page 232, Civil Rules and Orders, after Rule (3) of the Rules under clause 1, section 20 of the Court Fees Act, VII of 1870, insert the following:—

(b). In cases in which the process is to be served in the jurisdiction of another Court, the proper fee chargeable under Rule (1) read with Rule (6) shall be levied, in the manner above directed, on the application for the transmission of the process to that Court, and a note shall be made on the process stating that this has been done. A Court which receives from another Court, whether in the same province or not, a process bearing a certificate that the proper fee has been levied, shall cause it to be served without further charge.

2. At pages 232, 233, Civil Rules and orders, for Rules (6) and (7) of the same rules, substitute the following:—

(6) (a). In the case of processes to be served in districts\* where, during a portion of the year, travelling except by boat is

impracticable, the Court executing the process shall defray all charges on account of boat-hire or ferry toll. But in consideration of this the fees leviable in respect of such processes under Articles 1, 2, and 5, Parts I, II, III, and IV under Article 4, Part I, and under Articles 4, (c) and 7, Parts II, III, and IV of Rule (1), shall be increased by 25 per cent.

(b). The extra charge of 25 per cent. prescribed by clause (a) of this rule shall be leviable in the case of processes to be served only in such portions of the abovenamed districts as are set forth in column 2 of the following table, and only during the periods mentioned in column 3:—

(6). In districts where, during a portion of the year, travelling except by boat is impracticable, boat-hire may, when it has to be incurred, be charged in addition to the fees payable under Rule (1) above. The rates at which such boat-hire is to be charged shall be the same as those fixed with regard to the criminal processes under Rule VII of the rules under clause 2, section 20, Act VII of 1870, and shall be sufficient only to cover, on the whole, the actual cost of hiring boats or of such boat establishment as it may be necessary to maintain for the purpose of serving processes of these classes.

* Backergunge.	Pubna.
Dacca.	Rajshahye.
Furzedpore.	Rangpore.
Jessore.	Tipperah.
Mymensingh.	Sylhet.
Nonkhally.	

*List of districts in which extra charges are to be made on account of service of process by boat.*

Names of District Judgeships.	Within what limits an extra charge is to be made on account of boat-hire.	For what period.
Backergunge	Within the limits of Gola Chipa, Shareepkaty, Perozepore, Matubaria, Bowphul, Mirzagunge, Mehdigunj and outpost of Rajpore.	Throughout the year.
	Within the limits of the rest of the district, with the exception of the limits of Bundon, Nalchiti, Jhalakati, and 27 villages in the Sudder Station jurisdiction, where boat-hire is not needed.	From 15th June to 15th November.
Dacca	Within the limits of the district, except as regards the towns Dacca and Naraingunge, and the villages Mirpore, Toonghee, and Joydebpore	From 15th May to 15th November.
Furreedpore	Within the limits of the whole district	From 1st June to 30th November.
Jessore	Within the limits of the sub-divisions of Koolna and Bagirhat.	Throughout the year.
	Within the limits of the sub-divisions of Magurah, Jhenklah, and Narail.	From 15th June to 15th November.
Mymensingh	Within the limits of the Sudder, Sherepore, Netrokona, and Ghosegong Munsifs.	From 15th June to 30th September.
	Within the limits of the rest of the district	From 15th May to 31st October.
Noakholly	Within the limits of the whole district	From 15th June to 15th November.
Pubna and Bogra	Ditto ditto	From 15th June to 31st October.
	Within the limits of the Nattore Munsifi	From 1st June to 30th November.
Rajshahye	Ditto Shibgunge Munsifi	From 1st July to 30th September.
	Ditto of the rest of the district	From 1st June to 31st October.
Rungpore	Throughout the Kurigram and Gaibandha Munsifs and in Thana Kaliganj.	From 1st June to 31st October.
Tipperah	Within the limits of the whole district	From 1st June to 31st October.
Sylhet	Ditto ditto	From 1st June to 30th November.

(c). The responsibility of introducing the most economical system of boat-service in each of the abovenamed districts will rest with the District Judge. A close and effective control must be exercised over any special boat establishment that may be entertained for the purposes of this Rule.

(7). When, in order to the service of any process, the peon has to cross a ferry, then the amount, if any, legally exigible as toll shall be levied in cash before the delivery of the process to the peon from the person at whose instance the process is issued before.

(7). In such districts or parts of districts as are not for the time being subject to Rule (6), when, in order to the service of any process, the peon has to cross a ferry, then the amount, if any, legally exigible as toll shall be levied by the Court in cash from the person at whose instance the process is issued before delivery of the process to the peon; except in the case of processes issued by a Court situate in any other Presidency or provinces, in which case no fee at all shall be levied in this respect from the party. The Court executing such process shall advance the necessary fee from its permanent advance.

NOTE.—The 'permanent advance' mentioned in this Rule is the special permanent advance sanctioned by the Local Government for the purposes of these Rules.

3. Circular Orders No. 2 of 6th January 1880 and No. 6 of 21st July 1884, and the Rules circulated therewith, are hereby cancelled.

## CRIMINAL.

Compared and found correct.

The 188 . Record-keeper.

(b). Exhibits admitted as evidence on the trial should be separately arranged in the order in which they were received by the Court, and an index prepared accordingly.

(b). Columns 1 to 7 will be filled in as the trial proceeds. In column 8 the Record-keeper will enter the number of years for which each paper on the record is to be preserved, according to the rules for the destruction of records.\*

\* Rule 7, Chapter V. Documents admitted as evidence on the trial, i.e., exhibits, will be separately arranged in the order in which they were received by the Court, and a separate index, in the above form, will be prepared for them.

(c). Whenever documents used in evidence are withdrawn, either before or after judgment, a note of the number of the document withdrawn shall be made in column 9 of the Index, which shall state whether a copy has or has not been substituted.

2. Circular Order No. 3 of 21st June 1879, and so much of Rule 13 of 4th December 1882 as is reproduced on pages 144-45, Criminal Rules and Orders, are cancelled.

High Court.—Original Side.

## NOTIFICATION.

Calcutta, the 4th September 1885.

THE Hon'ble the Chief Justice of the High Court of Judicature at Fort William in Bengal has appointed James Williamson of No. 180, West Regent Street, Glasgow, Scotland, Solicitor, a Commissioner within all parts of Scotland for the purpose of taking, under the law in force in British India, the acknowledgments of married women of deeds to be executed by them in respect of property in British India.

By order,

R. BELCHAMBERS, Registrar.

## NOTIFICATION.

THE undermentioned Mukhtear, having withdrawn the security deposited by him under the rules of this Court, has ceased to be a Mukhtear of the High Court on its Appellate side. His certificate has been recalled and his name removed from the roll.

Name.	No. in list.	No. in Register.
Koylash Nath Roy	86	130 of 1888.

By order of the High Court,

C. A. WILKINS, Registrar.

FORT WILLIAM, the 2nd September 1885.

## SMALL CAUSE COURT NOTICE.

NOTICE is hereby given, under section 14, Act XI of 1865, that, subject to the orders of Government, the Judge of the Courts of Small Causes at Kishnaghur, Ranaghat, and Bongong will hold his sittings in the months of October and November next on the dates mentioned below :—

## October 1885.

1st and 4th, 5th, 6th	...	...	At Kishnaghur.
2nd and 3rd	...	...	At Ranaghat.

## November 1885.

9th to 19th	...	...	At Kishnaghur.
20th to 25th	...	...	At Ranaghat.
26th to 30th	...	...	At Bongong.

For all subsequent months the previous notification shall prevail.

RAJ CHUNDER SANYAL, Offg. Judge.

KISHNAGHUR SMALL CAUSE COURT, the 3rd September 1885.

## TREASURY NOTICE.

DEPUTY COLLECTOR MR. A. H. WARDE JONES has been placed in charge of the Arrah Treasury, and is authorized to draw bills on other treasuries.

F. M. HALIDAY, Commissioner.

## NOTIFICATION OF THE BOARD OF REVENUE.

No. 860B.

NOTICE is hereby given that the Tenth Sale of Opium, the provision of 1883-84, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 5th October 1885, at 11 A.M., and will comprise 4,166 chests, viz :—

			Chests.
Opium manufactured at the Patna Factory	...	2,000	
Do. do. at the Ghazipore Factory	...	2,166	
Total	...	4,166	

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1884, and published in the *Government and Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 10th and 27th October 1885 respectively—that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 10th October 1885, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 27th October 1885.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipore Factories will be brought to sale in the present year about the dates specified below. The Board of Revenue,

however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

DATE.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazipore Factory, about chests.	Total, about chests.
On or about Tuesday, 3rd November 1885...	2,000	2,166	4,166
Ditto Thursday, 3rd December ,, ...	2,000	2,166	4,166
Total ...	4,000	4,332	8,332

By order of the Board of Revenue, L.P.,

C. A. SAMUELLS, *Offg. Secretary.*

BOARD OF REVENUE, L.P., CALCUTTA, the 31st August 1885.

### Notice.

#### DOORGA POOJA HOLIDAYS.

DURING the Doorga Pooja Holidays, the Custom House will be open from 10-30 A.M. to 4 P.M. on—

Tuesday	...	...	...	October 13th.
Monday	...	...	...	Do. 19th.
Tuesday	...	...	...	Do. 20th.
Wednesday	...	...	...	Do. 21st.

The Custom House will be closed on—

Wednesday	...	...	...	Do. 14th.
Thursday	...	...	...	Do. 15th.
Friday	...	...	...	Do. 16th.
Saturday	...	...	...	Do. 17th.

## PART I A.

### Orders and Notifications by the Government of India, &c.

[Reprinted from the Gazette of India.]

The following orders, issued by the Government of India in the Home Department, are republished for general information.

F. B. PEACOCK,  
Chief Secy. to the Govt. of Bengal.

#### NOTIFICATIONS.—PUBLIC.

Simla, the 14th August 1885.

No. 1437.—Under section 18, sub-section (2), of the Indian Explosives Act, 1884, the Governor-General in Council is pleased to prescribe that drafts of proposed rules under the Act shall be published—

- (a) when the authority making the rules is a Local Government, in three consecutive issues of the local official Gazette in English and in such other language or languages as the Local Government may direct; and
- (b) when the authority making the rules is the Governor-General in Council, in three consecutive issues of the *Gazette of India* in English and in three consecutive issues of the local official Gazette (if any) of every Local Government in British India in English and in such other language or languages as the Local Government may direct.

No. 1438.—In accordance with the provisions of section 18, sub-section (1), of the Indian Explosives Act, No. 17 of 1884, and with the directions contained in Home Department Notification No. 1437 of this date, the Governor-General in Council is pleased to publish for general information the following draft of rules for the transport and importation of explosives which His Excellency in Council proposes to make under the Act.

The draft will be taken into consideration on the expiry of three months from the date of this notification.

#### Draft.

#### DRAFT RULES UNDER THE EXPLOSIVES ACT, 1884.

##### PRELIMINARY.

1. For the purposes of these rules, explosives shall be classified as follows, namely:—

Class 1	...	...	...	...	Gunpowder.
Class 2	...	...	...	...	Nitrate-mixture.
Class 3	...	...	...	...	Nitro-compound.
Class 4	...	...	...	...	Chlorate-mixture.
Class 5	...	...	...	...	Fulminate.
Class 6	...	...	...	...	Ammunition.
Class 7	...	...	...	...	Firework.

And when an explosive falls within the description of more than one class, it shall be deemed to belong exclusively to the latest of the classes within the description of which it falls.

**CLASS 1.—Gunpowder Class.**

The term "gunpowder" means exclusively gunpowder ordinarily so called.

**CLASS 2.—Nitrate-mixture Class.**

The term "nitrate-mixture" means any preparation, other than gunpowder ordinarily so called, formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

The nitrate-mixture class comprises such explosives as—

Pyrolithe,  
Pudrolithe,  
Poudre saxifragine,

and any preparation coming within the above definition.

**CLASS 3.—Nitro-compound Class.**

The term "nitro-compound" means any chemical compound possessed of explosive properties, or capable of combining with metals to form an explosive compound, which is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid) or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

The nitro-compound class has two divisions.

Division 1 comprises such explosives as—

Nitro-glycerine,  
Dynamite,  
Lithofracteur,  
Dualine,  
Glyoxiline,  
Methylic nitrate,

and any chemical compound or mechanically mixed preparation which consists either wholly or partly of nitro-glycerine or of some other liquid nitro-compound.

Division 2 comprises such explosives as—

Gun-cotton, ordinarily so called,  
Gun-paper,  
Xyloidine,  
Gun sawdust,  
Nitrated gun-cotton,  
Cotton gunpowder,  
Schultz's powder,  
Nitro-mannite,  
Picrates,  
Picric powder,

and any nitro-compound as before defined, which is not comprised in the first division.

**CLASS 4.—Chlorate-mixture Class.**

The term "chlorate-mixture" means any explosive containing a chlorate.

The chlorate-mixture class has two divisions.

Division 1 comprises such explosives as—

Horsley's blasting powder,  
Brain's blasting powder,

and any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound.

Division 2 comprises such explosives as—

Horsley's original blasting powder,  
Erhardt's powder,  
Reverley's powder,  
Hochstadter's blasting charges,  
Reichen's blasting charges,  
Teutonite,  
Chlorated gun-cotton,

and any chlorate-mixture, as before defined, which is not comprised in the first division.

**CLASS 5.—Fulminate Class.**

The term "fulminate" means any chemical compound or mechanical mixture, whether included in the foregoing classes or not, which, from its great susceptibility to detonation, is suitable for employment in percussion caps or any other appliances for developing

detonation, or which from its extreme sensibility to explosion, and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

This class consists of two divisions.

Division 1 comprises such compounds as the fulminates of silver and of mercury, and preparations of these substances, such as are used in percussion caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with a sulphurate, with or without carbonaceous matter.

Division 2 comprises such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

#### CLASS 6.—*Ammunition Class.*

The term "ammunition" means an explosive of any of the foregoing classes when enclosed in any case or contrivance, or otherwise adapted or prepared so as to form a cartridge or charge for small arms, cannon, or any other weapon, or for blasting, or to form any safety or other fuze for blasting or for shells, or to form any tube for firing explosives, or to form a percussion cap, a detonator, a fog signal, a shell, a torpedo, a war rocket, or other contrivance other than a firework.

The term "percussion cap" does not include a detonator.

The term "detonator" means a capsule or case which is of such strength and construction, and contains an explosive of the fulminate-explosive class, in such quantity that the explosion of one capsule or case will communicate the explosion to other like capsules or cases.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction and contains an explosive in such quantity that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small arms of which the case can be extracted from the small arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges.

The ammunition class has three divisions.

Division 1 comprises exclusively—

- Safety cartridges.
- Safety fuzes for blasting.
- Railway fog signals.
- Percussion caps.

Division 2 comprises any ammunition as before defined which does not contain its own means of ignition and is not included in division 1, such as—

- Cartridges for small arms, which are not safety cartridges,
- Cartridges and charges for cannon, shells, mines, blasting, or other like purposes,
- Shells and torpedoes containing any explosive,
- Fuzes for blasting, which are not safety fuzes,
- Fuzes for shells,
- Tubes for firing explosives,
- War rockets,

which do not contain their own means of ignition.

Division 3 comprises any ammunition as before defined which contains its own means of ignition and is not included in division 1, such as—

- Detonators,
- Cartridges for small arms, which are not safety cartridges,
- Fuzes for blasting, which are not safety fuzes,
- Fuzes for shells,
- Tubes for firing explosives,

which do contain their own means of ignition.

By ammunition containing its own means of ignition is meant ammunition having an arrangement, whether attached to it or forming part of it, which is adapted to explode or fire the same by friction or percussion.

#### CLASS 7.—*Firework Class.*

The term "firework" comprises firework composition and manufactured fireworks.

*Division 1.*—The term "firework composition" means any chemical compound or mechanically mixed preparation of an explosive or inflammable nature which is used for the purpose of making manufactured fireworks, and is not included in the former classes of explosives, and also any coloured fire composition.

*Division 2.*—The term "manufactured firework" means any explosive of the foregoing classes and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, serpent, rocket (other than a war rocket), maroon, star, lance, wheel, Chinese fire, Roman candle, or other article adapted for the production of pyrotechnic effects or pyrotechnic signals.

## TRANSPORT.

(a) *Packing.*

2. The following general rules shall be observed with respect to the packing of explosives for conveyance :—

I.—An explosive, not being an explosive of the 5th (fulminate) class or of the 2nd and 3rd divisions of the 6th (ammunition) class or of the 1st division of the 7th (firework) class, shall, if not exceeding 5lb in quantity, be contained in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosive from escaping.

II.—In every other case the explosive shall be contained in a double package. The inner package shall be a substantial case, bag, canister, or other receptacle, made and closed so as to prevent the explosive from escaping, and the outer package shall be a box, barrel, or case of wood or metal or other solid material, and shall be of such strength, construction, and character that will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow the explosive to escape: Provided as follows :—

- (a) If the explosive is explosive of the 1st or gunpowder class or is explosive of the 2nd (nitrate-mixture) class or is gun-cotton or other explosive of the 2nd division of the 3rd (nitro-compound) class, the quantity of explosive in any one outer package shall not, in the case of explosive of the first two classes, exceed 100lb, and in the case of the last, 50lb; and if the explosive be gun-cotton, it shall be carried thoroughly saturated with water.
- (b) If the explosive belongs to the 1st division of the 3rd (nitro-compound) class or to the 4th (chlorate-mixture) class, the inner package shall be without any metal in its construction, and the inner or outer package or both shall be thoroughly water-proof. No one of the inner packages shall contain more than 10lb, and the aggregate quantity of the explosive in any one outer package shall not exceed 50lb.
- (c) If the explosive belongs to the 5th (fulminate) class, it shall be packed in such manner as the Governor-General in Council may specially direct.
- (d) If the explosive belongs to the 1st division of the 6th (ammunition) class or is any explosive of the 2nd division, an outer package shall not be required, but it may be contained in quantity not exceeding 100lb in a single package, which shall be a box, barrel or case not less than  $\frac{3}{4}$ ths of an inch in thickness, of such strength, construction, and character as will not be broken or accidentally opened or become defective or insecure whilst being conveyed, and will not allow the explosive to escape.
- (e) If the explosive belongs to the 3rd division of the 6th (ammunition) class, it shall be packed in a double package. The inner package shall not contain more than 2lb of such explosive, and no more than 50lb shall be contained in the outer package.
- (f) If the explosive belongs to the 1st division of the 7th (firework) class, it shall be contained in a double package. The inner package shall be a substantial canister, case, or other receptacle hermetically closed, and containing no more than 1lb of explosive, and no more than 20lb shall be contained in the outer package; and
- (g) If the explosive belongs to the 2nd division of the 7th (firework) class, it shall be contained in a box, barrel, or case of wood, metal, or other solid material, and of such strength, construction, and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow any explosive to escape, and the quantity of explosive in any one package shall not exceed 100lb.

III.—Whatever be the amount of the explosive, and to whatever class or division of a class it belong, the following conditions shall be observed :—

- (a) The interior of every package, whether single or double, shall be kept free from grit and otherwise clean;
- (b) every package, whether single or double, when actually used for the packing of explosive, shall not be used for the packing of any other explosive of the same or any other class or for any other purpose;
- (c) there shall not be any iron or steel in the construction of any such single package or inner or outer package unless the same is effectually covered with tin zinc, or other suitable material;
- (d) on the outermost package there shall be affixed, in conspicuous characters, by means of a brand or securely attached label or mark, the word "explosive," followed by the name of the explosive or other description of the contents, and the name and address of the owners or sender; and
- (e) the amount of explosive in any single package, or, if there is a double package, in any one outer package, shall not exceed the amount specified in the foregoing rules, except with the consent of, and under conditions to be approved by, an officer appointed by the Local Government in this behalf.

3. If any person commits a breach of any of the foregoing rules relating to the packing of explosive for conveyance, he shall be punished with fine which may extend to Rs. 1,000.

*(b) Mode of conveyance.*

4. The following general rules shall be observed with respect to the conveyance of explosives:—

I.—No explosive shall be conveyed from place to place unless packed in the manner provided for in the foregoing rules.

II.—There shall not be conveyed in any carriage or vessel, which is being used for the conveyance of an explosive, any explosive of a different class and division, of whatsoever nature, which contains its own means of ignition, unless it be sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

III.—No explosive shall be loaded or unloaded except between sunrise and sunset.

IV.—Whilst the explosive is being loaded on, or unloaded out of, any carriage or vessel, no fire or artificial light, nor any article which is liable to cause or communicate fire or explosion (such as charcoal, lucifer matches, articles for striking a light, petroleum to which the Petroleum Act or any Act repealing or amending the same applies, or any spirit or oil or substance that gives forth an inflammable vapour at a temperature below 100° Fahrenheit) shall be, or shall be allowed to be, brought, had, or used dangerously near to such carriage, ship, or boat, and no smoking shall be allowed in, on, or dangerously near to the same: Provided that when the use of a light for the purpose of such loading or unloading is unavoidable, a lamp of such construction, position, or character as not to cause any danger from fire or explosion may be used; and no person while handling any explosive (except gunpowder, explosive of division 1, class 6, or explosive of class 7, if packed in accordance with the packing rules) shall wear boots or shoes with iron or steel nails, heels, or tips.

V.—In loading or unloading any explosive, the casks and packages containing the same shall be passed from hand to hand and not rolled upon the ground; they shall not be thrown or dropped down, but shall be carefully deposited and stowed.

VI.—The explosive shall not be conveyed except in the interior of a carriage so enclosed on all sides with wood or metal, or in the hold of a ship or boat having a close deck, so closed as effectually to protect the explosive against accident by fire from without. If the explosive cannot be so secured, it shall be completely covered with painted cloth, tarpaulin, or other suitable material so as to effectually protect it against communication of fire.

VII.—There shall not be any iron or steel in the interior of the portion of the carriage or vessel with which the case containing the explosive is in contact, unless the same be effectually covered with leather, wood, cloth or other suitable material.

VIII.—In the stowing of explosive, due precautions shall be taken by means of a partition or otherwise, and by careful stowing to secure such explosive from being brought into contact with, or endangered by, any other article, or substance conveyed in such carriage or vessel which is liable to cause fire or explosion; and if the explosive is dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

IX.—The amount of explosive conveyed in any one carriage or vessel at any one time shall not exceed 2,000lb unless the carriage be so enclosed on all sides with wood or metal, or the vessel have a close deck so closed as effectually to protect the explosive against accident by fire from without, in which case the amount of explosive conveyed shall not exceed the following:—

In any one carriage on a railway	...	...	...	10 tons.
In any one other carriage	...	...	...	2 "
In any one vessel	...	...	...	20 "

NOTE.—This rule must in the case of dynamite conveyed by railway be read subject to paragraph XII of rule 6.

X.—Nothing in the foregoing rules (except rule I) shall apply to any explosive of the 1st division of the 6th (ammunition) class, provided all due precautions are taken for the prevention of accidents.

5. The following rules shall be observed with respect to the conveyance of explosives otherwise than by public railway:—

I.—No explosive shall be conveyed in a carriage or boat whilst carrying or plying for public passengers, unless the quantity be less than 5lb, and notice has been given beforehand to the person in charge of such carriage or boat: Provided that there shall not be conveyed in any such carriage or boat any explosive of the 5th (fulminate) class or any explosive of the 3rd division of the 6th (ammunition) class, or of the 1st division of the 3rd (nitro-compound) class.

II.—With respect to the conveyance by carriage or vessel of explosive of the 5th (fulminate) class, or of the 3rd division of the 6th (ammunition) class, or of the 1st division of the 7th (firework) class, or of larger quantities than 5lb of any other explosive, the following regulations shall be observed:—

- (1) The person in charge of the carriage or vessel shall not drive or conduct the same in a dangerous or reckless manner, and shall take all due precautions to avoid fire and explosion, and no person shall do any act or thing in relation to the explosive which tends to cause fire or explosion, and is not reasonably necessary for the conveyance of the explosive or for work immediately

connected with such conveyance; and a person who is intoxicated shall not have charge of any carriage or vessel conveying explosive, and shall not be permitted to be in, or on, or attending the same.

- (2) A person shall not forward to any warehouse-man or carrier a consignment of explosive, unless he has given notice to such warehouse-man or carrier beforehand, stating the name and quantity of the explosive proposed to be conveyed, and the name and address of the proposed consignee, and has had an intimation that the warehouse-man or carrier is prepared to receive the consignment; and a warehouse-man or carrier shall not make such an intimation, nor receive such consignment, unless he is prepared to receive it, and forthwith to despatch the same or to deposit it in a magazine or at a place at which a person is licensed to possess the same.
- (3) The carriage or vessel conveying the explosive shall be in charge of, and constantly attended by, some competent person; or by a sufficient number of competent persons, and such persons shall not, if the amount of explosive conveyed exceed 100lb, stop or delay for a longer time than may be reasonably necessary, or stop unnecessarily at any place where such stopping would be attended with special public danger.

6. The following rules shall be observed with respect to the conveyance of explosive by public railway:—

I.—No person shall send for carriage upon any railway any consignment of an explosive unless he has given to a railway servant 48 hours' previous notice in writing of his intention to send such consignment, and stating the true name, description, quantity, and mode of packing of the explosive proposed to be conveyed, and his own name and address, and also the name and address of the proposed consignee, and unless he has had an intimation in writing from an authorized officer of the railway that such consignment will be received.

II.—No explosive which a Railway Administration shall, by any notice or regulation for the time being in force, notify that they will not receive, shall be brought, sent, or forwarded to, or upon, any Railway of the said Railway Administration.

III.—Consignments of explosives shall be sent to the forwarding station, and shall be received by the Railway servants, only at such times between sunrise and sunset, as the Railway Administration may appoint; and every package containing any explosive proposed to be conveyed on any railway shall, immediately on arrival at the station, be delivered to, and be received by the Railway servants authorised to receive dangerous goods, and by no other person whatsoever.

IV.—An explosive must be removed by the consignee from the receiving station during the twelve hours of daylight after arrival; if this condition is not strictly complied with, the Railway Administration may return the consignment to the consignor at his risk and expense. And such packages shall in the meanwhile be kept as far away from the station buildings as possible, in the wagon they were conveyed in, or, if unloaded, shall be completely covered with tarpaulins or other suitable material, and if necessary, shall be protected by a police guard.

V.—The Railway Administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations. And in case any package, which the Railway Administration suspect, shall be upon any Railway, they may open, or require to be opened, any such package, to ascertain the fact, at the risk and expense of the consignor, and may return the explosive contained in the package to the consignor at his risk and expense, keeping the packages pending such return in the manner prescribed in the preceding rule.

VI.—No explosive shall be conveyed by passenger train except of the kinds and in the manner hereinafter specified in this rule:—

- (a) Safety cartridges and percussion caps and safety-fuze (for blasting), also fog-signals for railway use, may be conveyed by passenger train, in ordinary wagons or carriages.
- (b) Sporting gunpowder or non-safety cartridges packed in double cases as before provided, so long as the gunpowder is contained in one-pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the Railway Administration. But no outer case shall contain more than 25lb of gunpowder, and the total consignment of gunpowder or non-safety cartridges by one train shall not exceed 80lb.

VII.—Not more than five carriages containing explosives shall be loaded or unloaded at any railway station, or be conveyed by any one train at any one time; and the quantity of explosive to be contained in any one carriage shall not exceed two-thirds of the normal load, unless the carriage shall be specially built and approved of by the Government of India for the conveyance of explosives. But nothing in this clause shall be held to apply to separate consignments of small arms ammunition.

VIII.—There shall not be conveyed in the same carriage with any explosive any lucifer or other matches, fuzes, pipelights, acids, naphtha, paraffine, petroleum to which the Petroleum Act or any Act repealing or amending the same applies, or any other volatile spirit or substance liable to give off an inflammable vapour, or liable to spontaneous ignition, or to cause or to communicate fire or explosion.

IX.—The consignor shall attach to the consignment note a certificate signed by an officer authorized by the Government in this behalf that the explosive, if it is gun-cotton, dynamite, or blasting gelatine, is of the standard purity, and has undergone no deterioration since its manufacture; and further in the case of dynamite, that the cartridges have been examined and show no signs of exuded nitro-glycerine. The consignor shall also certify that the cartridges have been packed in this country in accordance with the packing rules.

X.—In the case of dynamite the outer package shall be marked with the date on which the dynamite was packed, and be secured with a leaden seal in token of the inspection having been made.

XI.—The certificate referred to in rule IX shall be valid for six months after date, if the examination has been made after the 15th October, but it shall not be compulsory for any Railway Administration to receive dynamite for conveyance from 1st April to 15th October (both inclusive).

XII.—Packages containing dynamite shall be stowed in one layer only, and secured so as to prevent movement during transit. The gross load in any one wagon shall not exceed 3 tons.

XIII.—No explosive belonging to the 5th (fulminating) class or to class VI, division 3, shall be carried in the same train with dynamite, or with any other explosive belonging to class II, division 1.

XIV.—Wagons used for the carriage of explosives shall be examined to see that they are spark-proof, and have been cleaned out before they are loaded. Haircloth, hides or other suitable material shall be spread on the floor of the wagon and between each layer of packages except when the packages are covered with gunny or felt, or contain small arms ammunition, packed in tin-lined service-pattern boxes.

XV.—Wagons containing explosives shall be loaded and unloaded on sidings distant as far as possible from the station buildings.

XVI.—More than three layers of packages containing explosives shall never be packed one above another, except in the case of small arms ammunition packed in tin-lined service-pattern boxes, when such a restriction is unnecessary. The loading and unloading of explosives when once begun shall be diligently proceeded with during daylight until the same is completed.

XVII.—When the train is being marshalled, wagons loaded with explosives may be shunted by a locomotive, provided that they are separated from the engine by not less than three wagons containing no explosives nor easily inflammable substance; this precaution is not necessary with wagons specially constructed and approved of by Government for the carriage of explosive. The speed of these movements will be restricted to five miles an hour; they will be superintended by a duly authorised officer, who will be held responsible for the observance of these orders. Flying shunts are strictly prohibited.

XVIII.—Wagons containing explosives shall be placed at the end of the train away from the locomotive, and shall be close coupled to one another, as well as to the adjoining wagons, and must be preceded and followed by three wagons not loaded with explosive or other traffic of an inflammable nature.

XIX.—If the wagons employed in the transport of explosive, as well as those immediately adjoining them, are provided with brakes, they shall on no account be worked.

XX.—Wagons must in every case be locked when loaded with explosives.

XXI.—All operations connected with the transhipment of explosives at junction stations shall take place during daylight.

7. If any person commits a breach of any of the foregoing rules relating to the mode of conveyance of explosives, he shall be punished with a fine which may extend to Rs. 1,000.

#### IMPORTATION.

8. An explosive shall not be imported by sea into British India, except under, and in accordance with, the conditions of a license to import the explosive granted under these rules:

Provided that any explosive other than an explosive specified in rule 11 may, previous to the grant of an importation license, if certified to be of British manufacture, be landed in accordance with such regulations as the Local Government may prescribe in this behalf, and be stored in a place set apart by the Local Government for this purpose. The Governor-General in Council may extend this privilege to any such explosive not of British manufacture regarding which he is satisfied that it has been manufactured under adequate official supervision.

Before any explosive is landed under the proviso to this rule, the consignee shall give to the Chief Customs Officer of the port such undertaking with or without security, as the said officer thinks sufficient, to obey, in the event of the explosive failing to satisfy the prescribed tests, such directions as to its disposal as the Local Government may see fit to prescribe.

9. If any person imports an explosive in contravention of rule 8, he shall be punished with fine which may extend to three thousand rupees.

10. An explosive shall not be imported by sea except at the ports of Calcutta, Madras, Bombay, Rangoon, Calicut, Kurrachee, and Aden.

11. If the explosive is gunpowder or an explosive of the 1st division of the 6th (ammunition) class or an explosive of the 7th (firework) class, the license to import the

same may be granted at the ports of Calcutta, Madras, and Bombay by the Commissioner of Police, and at the Ports of Rangoon, Calicut, Kurrachee, and Aden by the District Magistrate.

12. The fee payable in respect of each such license shall be Rs. 10.

13. Licenses for the importation by sea of any explosive other than those specified in rule 11 shall be granted by the Local Government or by some officer specially authorised by the Local Government in this behalf.

14. No license for the importation of any explosive of the description referred to in rule 13 shall be granted unless samples of the explosive taken as hereinafter provided are certified by the Chemical Examiner, or some other Officer appointed by the Local Government in this behalf, to pass the test which may from time to time be prescribed for such explosive by the Government of India.

15. On the arrival in any port at which importation of explosives is lawful of a ship having on board an explosive other than an explosive of the description referred to in rule 11, such officer as the Chief Customs Officer authorises in this behalf shall, as soon as may be, proceed on board and obtain samples of the explosive.

The master of the ship shall give to the said officer, without charge, such samples as he may require. The said officer shall affix to each such sample the name of the ship and of the consignee and such other distinguishing marks as he may think necessary, and shall forward the same to the Chemical Examiner or officer as aforesaid for report.

The Chemical Examiner or officer as aforesaid, after testing the said samples, shall without delay forward to the licensing authority, through the Chief Customs Officer, a report under his signature certifying whether the explosive has satisfied the prescribed test.

16. The period for which a license to import an explosive, granted under rule 13, shall continue in force shall not exceed such period as may seem necessary to the authority granting the license.

17. The fee payable on a license granted under rule 13 shall be Rs. 10.

18. Every license granted under rules 11 and 13 shall be in Form A in the schedule hereto annexed, and shall be subject to the conditions therein prescribed, and also to such additional conditions with respect to the time and place of unloading, landing, delivery, and conveyance of the explosive, and such other conditions as may in each case be thought by the licensing officer to be necessary for the public safety or in the interests of the State.

19. If any person commits a breach of any condition subject to which a license under rules 11 and 13 is granted, he shall be punished with fine which may extend to three thousand rupees.

#### GENERAL.

20. Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions subject to which it is granted.

21. If a person licensed to import an explosive dies or becomes bankrupt, or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the Act or the rules made thereunder for acting under the license during such reasonable time as may be necessary to allow him to make an application to the authority granting the license for a new license in his own name during the currency of the unexpired portion of the original license. Such new license shall be granted on the payment of one rupee.

22. The fees leviable under these rules shall be taken in the shape of "impressed stamps." Ordinarily the applications for licenses or renewals of licenses shall if not otherwise provided, be written on "impressed stamps" of value equal to the amount of fee leviable in respect of such licenses or renewals, the licenses themselves being issued on plain paper. But when the licenses themselves are written or printed on impressed stamps, the application may be on plain paper. When an application for a license is written on an impressed stamp, and the license is refused, the value of the stamp will on application be refunded to the applicant.

23. When a license granted in accordance with these rules is lost, or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of 8 annas.

24. Any person holding a license, or acting under a license granted in accordance with these rules, shall be bound to produce the same, when called upon to do so by any Magistrate or by any police officer in charge of a police station, or by any police officer of higher rank.

25. All Magistrates or other authorities acting under these rules will perform their duties subject to the control of their executive superiors and of the Local Government.

26. Any authority empowered to grant a license under the foregoing rule may, if he thinks fit, direct by an order written on the license that it shall have the effect of a like license under the Indian Arms Act, 1878.

27. Any persons lawfully entitled under the Indian Arms Act, 1878, or the rules made thereunder, to possess any explosive coming under the head of ammunition as defined in that Act may possess, or import without license under these rules, any such explosive in reasonable quantities for his own private use: but when an explosive is so imported, the Collector of Customs or any other officer empowered by the Local Government in this behalf by name or by virtue of his office may at any time detain such explosive until he receives the orders of the Local Government thereon.

WEDNESDAY, SEPTEMBER 9, 1885.

## PART IB.

### ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

#### MUNICIPAL AND LOCAL.

##### NOTIFICATION.

*The 26th August 1885.*—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the local Government by section 351, Act III (B. C.) of 1884, and on the recommendation of the Commissioners of the Chittagong Municipality, made at a meeting, to confirm the following bye-laws which have been framed by the said Commissioners under section 350 of the said Act, unless good reasons be shown to the contrary within one month from the date of the publication of this notification.

##### BYE-LAWS.

###### *For regulating the conduct of persons employed by the Commissioners.*

1. All persons employed by the Commissioners, whose services may no longer be required, shall be liable to discharge after receipt of previous notice, or pay in advance for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

###### *For regulating the disposal of offensive matter, rubbish, and dead animals.*

2. The Commissioners may from time to time appoint places for the deposit of the refuse carcasses of animals, and order them to be closed, and any person who shall deposit, or cause to be deposited, the refuse carcass of any animal, in any place other than that which may have been appointed by the Commissioners, or in any place which they may have ordered to be closed, shall be liable to a fine not exceeding Rs. 50.

3. Every person within whose premises any animals may die shall, within two hours after its death, or if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcasses, or report its death to the Conservancy Overseer of the division within which such premises may be situated, and in such latter case shall pay the said Overseer the expense of removing the carcass at such rate as the Commissioners may determine, and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No Overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement shall be a fine not exceeding Rs. 10.

4. All dust, ashes, rubbish, and sweeping of any house, the removal of which is undertaken by the Municipal Commissioners, shall be deposited by the owner or occupier of the said house on the side of the road between the hours of 5 and 8 A.M.

The penalty for infringement shall be a fine not exceeding Rs. 10.

###### *For regulating traffic in the streets.*

5. No person shall drive any vehicle of any description at any time between one hour after sunset and one hour before sunrise without a sufficient light, except when there may be sufficient moonlight to render such light unnecessary.

Penalty for infringement not to exceed Rs. 5.

6. No person shall leave any cart or carriage on any public road, except when loading or unloading, or when otherwise engaged in traffic.

Penalty for infringement shall be a fine not exceeding Rs. 20; penalty for continued infringement after notice shall be a fine not exceeding Rs. 10 daily.

*For regulation and management of pricies.*

7. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners at meeting may from time to time direct.

Penalty for infringement shall be a fine not exceeding Rs. 20.

*Disposal of the dead.*

8. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement shall be a fine not exceeding Rs. 10.

9. No person shall bury, or cause to be buried, in any burial ground any corpse in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement shall be a fine not exceeding Rs. 20.

10. No person shall build or dig, or cause to be built or dug, any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement shall be a fine not exceeding Rs. 20.

11. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement shall be a fine not exceeding Rs. 20.

12. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement shall be a fine not exceeding Rs. 20.

13. Every person who shall bring or convey, or cause to be brought or conveyed, any corpse, or part thereof, to any burning ground, shall burn, or cause the same to be burnt, within six hours after its arrival at the said burning ground.

Penalty for infringement shall be a fine not exceeding Rs. 20.

14. No person when burning, or causing to be burnt, any corpse, or part of a corpse, in any burning ground shall permit the same, or any part thereof, to remain without being completely reduced to ashes, or shall permit the clothes or other articles connected with the burning of such corpse to remain at or near such burning ground, unless the same be completely reduced to ashes.

Penalty for infringement shall be a fine not exceeding Rs. 20.

15. No person shall remove or sell any clothes or other articles appertaining to a corpse which may have been left at any burial ground or burning ghat.

Penalty for infringement shall be a fine not exceeding Rs. 50.

16. No one shall carry a corpse, or part of a corpse, through any highway, unless it be decently covered and totally concealed from view.

Penalty for infringement shall be a fine not exceeding Rs. 10.

17. No person, while conveying any corpse, or part of a corpse, shall, except for the purpose of ordinary relief, deposit it on or near any public highway.

Penalty for infringement shall be a fine not exceeding Rs. 10.

*Markets.*

18. No owner, occupier, or farmer of any market for the sale of butcher's meat poultry, fish or vegetables or of any slaughter-house within the limits of the municipality shall keep, or allow the same to be kept, in a filthy or unclean state.

Penalty for infringement shall be a fine not exceeding Rs. 20, and a daily fine of Rs. 5 till properly kept.

19. Every owner, occupier, or farmer of any market or of any slaughter-house within the limits of the municipality shall remove, or cause to be removed, once in every twenty-four hours, any filth, putrefying, or noxious matter that may have accumulated within such period.

Penalty for infringement shall be a fine not exceeding Rs. 20, and a daily fine of Rs. 5 until the work is done.

20. No resident, owner, occupier, or farmer of any market within the limits of the municipality, or any portion thereof, shall in any way obstruct, or allow to be obstructed, any of the lanes, walks, gangways, or other thoroughfares, within such market or bazar, by exposing for sale or accumulating, or allowing to be exposed for sale or accumulated, in any such lane, walk, gangway, or thoroughfare, any package or packages or any other materials whatever.

Penalty for infringement shall be a fine not exceeding Rs. 10, and a daily fine of Rs. 2.

21. No person shall erect any house or hut with inflammable materials within such limits as may be fixed by the Municipal Commissioners at a meeting, except with their sanction and subject to any conditions they may wish to impose.

Penalty shall be a fine not exceeding Rs. 20, and a daily fine of Rs. 2 till such house or hut is pulled down or the orders of the Commissioners carried out.

*General bye-laws.*

22. No person shall construct, or place over, or by the side of, any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Commissioners, and in such manner as they shall direct.

Penalty for infringement shall be a fine not exceeding Rs. 10; penalty for continued infringement after notice Rs. 3 daily.

23. No person shall make a shop over any public drain, or in any way occupy any culvert, bridge, or platform, which may have been placed over any public drain.

Penalty for infringement shall be a fine not exceeding Rs. 20.

24. No person shall prepare any channel, or convey water by any channel, across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement shall be a fine not exceeding Rs. 10; penalty for continued infringement after notice Rs. 2 daily.

25. No person shall steep in any river, khal, tank, or ditch, within municipal limits, any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement shall be a fine not exceeding Rs. 5. Penalty for continued infringement after notice Rs. 2 daily.

26. No person shall, without the written permission of the Commissioners, set up any obstruction in any *nulla* or watercourse; and the Commissioners may order the removal of any such obstruction on grounds of public health or convenience.

Penalty for infringement shall be a fine not exceeding Rs. 10. Penalty for continued infringement after notice Rs. 4 daily.

27. The owner or occupier of any part of the bank of any *nulla* or watercourse shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any other servants duly authorized, to have access to such *nulla* or watercourse for any purpose of public conservancy.

Penalty for infringement not exceeding Rs. 10; penalty for continued infringement after notice Rs. 5 daily.

28. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway or into any place whence such animal can escape into any highway.

Penalty for infringement not exceeding Rs. 20.

29. No person shall picket animals or collect carts or form any encampment upon any public ground without the permission of the Commissioners.

Penalty for infringement not exceeding Rs. 10.

30. No person shall tether or picket any animals in any road, or by the side of any drain.

Penalty for infringement shall be a fine not exceeding Rs. 20.

31. No person shall cut soda or grass, or remove earth or grass, from the margin of any public road, or from any public drain.

Penalty for infringement shall be a fine not exceeding Rs. 20.

32. No person shall remove from, or deposit earth or any other substance in, or make any alteration whatever in, any public drain without the permission of the Commissioners.

Penalty for infringement shall be a fine not exceeding Rs. 20.

33. The Commissioners may give notice in writing to the owner of any trees or shrubs overhanging any tank and liable to foul the water thereof to cut or trim the same in such a manner as that they should not overhang the tank.

Whoever fails to comply with such requisition shall be liable to a fine which shall not exceed Rs. 10, and to a daily fine which shall not exceed Rs. 2 until such requisition be complied with.

34. No person shall allow any pigs to be at large, or keep them otherwise than in closed styes.

Penalty for infringement shall be a fine not exceeding Rs. 20.

35. No person shall perform any office of nature in any place outside private premises other than such as may have been appointed by the Commissioners; provided that such places have been set apart by the Commissioners.

Penalty for infringement shall be a fine not exceeding Rs. 10.

36. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water, which shall be so placed that the water discharged therefrom injuriously affects, or tends to injuriously affect, any public road or drain.

Penalty for infringement shall be a fine not exceeding Rs. 5.

37. No person shall wash or cleanse, or cause to be washed or cleansed, in any public street, lane, or thoroughfare or in, upon, or by the side of any tank, well, or other waterworks belonging to the Commissioners and provided by them for the domestic use of the inhabitants of the town, any vehicle, cart, dog, carriage, horse, or other animal.

Penalty for infringement shall be a fine not exceeding Rs. 5.

38. No person shall wash or cleanse, or caused to be washed or cleansed, in any public street, lane, or thoroughfare or in, upon, or by the side of any tank, well, or waterworks

belonging to the Commissioners, and provided by them for the domestic use of the inhabitants of the town, any wool, cloth, or wearing apparel, or any utensil for cooking or other purposes, or leather or skins of any animal, or any foul or offensive thing.

Penalty for infringement shall be a fine not exceeding Rs. 5.

39. No person suffering from any contagious disease shall bathe in any bathing place belonging to Commissioners.

Penalty for infringement shall be a fine not exceeding Rs. 10.

40. No person shall burn or let off any crackers or fireworks within the municipal limits, except with the previous sanction, or under the conditions imposed by, the Municipal Commissioners.

Penalty for infringement shall be a fine not exceeding Rs. 20.

**NOTICE** is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the district of Nuddea, will be put up to sale at the Nuddea Collectorate on Monday, the 28th of September 1885, corresponding with 13th Ashvin 1292.

The purchasers will be subject to the following conditions of sale—

*Conditions of Sale.*

**1st.**—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

**2nd.**—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

**3rd.**—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

**4th.**—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of the sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

Collector's office, district of Nuddea, the 24th July 1885

J. A. HOPKINS, Collector.

**NOTICE** is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the sub-division of Dinapore, in the district of Patna, will be put up to sale at the office of the Deputy Collector of Dinapore at 12 o'clock noon, on the 26th October 1885, corresponding with 8rd Kartik 1293 Fushli.

The purchasers will be subject to the following conditions of sale—

*Conditions of Sale.*

**1st.**—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

**2nd.**—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

**3rd.**—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

**4th.**—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertisement as in the case of original sale.

(530—1)

G. H. SIMMONS, Traffic Manager.

## Notice.

## Oudh Forest Department.

## BAHRAMGHAT DEPOT.

## ON THE OUDH AND ROHILKHAND RAILWAY.

**FROM** this date the prices of *sāl* beams and scantlings supplied from this depot will be as follows:—

**BEAMS.**—21 feet length, at Rs. 2-10 per cubic foot.

22	"	"	2-12	"
23	"	"	2-14	"
24	"	"	3	"

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

**SCANTLINGS.**—From 12 to 20 feet, at Rs. 2-8 per c. ft.  
Under 12 and over 7, at " 2-4 "  
Under 7 feet at " 2 "

The above prices are for ordinary building purposes. For *Planking, Sleepers, &c.*, special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

*Second and Third Class Timber* will be sold and price fixed by agreement.

*Auction Sales* will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge. By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,

Sub-Assistant Conservator of Forests,  
Bahramghat Division.

Bahramghat, the 1st April 1883.

## Government Cinchona Febrifuge.

**THIS** preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the following rates:—per four ounce tin, Rs. 4 *ans.* 8; per eight ounce tin, Rs. 8 *ans.* 8; per pound tin, Rs. 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, at the undernoted rates:—per four ounce tin, Rs. 5 *ans.* 8; per eight ounce tin, Rs. 10 *ans.* 8; per pound tin, Rs. 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

## Crystalline Cinchona Febrifuge.

**A** NEW and improved preparation made at the Government Factory from *Red Cinchona Bark*. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

## Notice.

**THE** Public are hereby informed that the well-known, Kartick Barani Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Augrahyā 1292 B.S., and continue up to the 3rd January 1886. Trade men dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

## Calcutta Port Trust.

## GUARANTEED DEBENTURE LOAN, 1885.

*The Calcutta Port Improvement Act, V of 1870 (B.C.), and the amending Acts, and the Act to enable the Commissioners for making Improvements in the Port of Calcutta to construct Docks at Kidderpore, Act II (B.C.) of 1885. Issue of seventy-five lakhs of Rupees, 4½ per cent. debentures, having a currency of not less than forty years. Interest guaranteed by the Secretary of State for India in Council until such time as the loan is repaid.*

**TENDERS** are invited for a loan of seventy-five lakhs of rupees at 4½ per cent. interest upon debentures to be issued under the provisions of Act II (B.C.) of 1885 to provide for the construction, equipment, maintenance, and management of the docks at Kidderpore, such loan having been sanctioned by His Honor the Lieutenant-Governor of Bengal with the previous sanction of the Governor-General in Council by notification published in the *Calcutta Gazette* of the 22nd July 1885, Part I, page 717, the payment of interest thereon being secured by the guarantee of the Secretary of State for India in Council until such time as the loan is repaid.

The debentures will be for sums of Rs. 100 each, or multiples of Rs. 100, as may be desired, made payable to order, and carrying interest at the rate of 4½ per cent. per annum, payable half-yearly on the 1st day of January and 1st day of July at the office of the Port Commissioners upon presentation of the debentures. Twenty-five per cent. of the amount tendered for to be paid on 1st October, 25 per cent. on 1st November, and the balance on 1st December 1885, into the Bank of Bengal. Any allotment may, however, be paid in full at the option of the tenderer upon receipt of letter of allotment, and interest will run on such payments from the date of the Bank's receipts. The Bank of Bengal's receipts for the payments should be forwarded to the Port Commissioners, who, upon the receipt of the acknowledgment for the final instalment, will issue the debentures for the amount allotted in such sums as the holders of the receipts may desire. Arrangements will be made, if required, to encase debentures issued under this loan for payment of interest in England by drafts on India.

Tenders in the prescribed form should be filled up and forwarded in sealed covers superscribed "Tender for Port Trust Dock Loan, 1885," to the Secretary to the Port Commissioners before noon of Wednesday, the sixteenth day of September 1885, accompanied by either Government Promissory Notes equal in value to, or a receipt from the Bank of Bengal for, 2 per cent. upon the amount of each debenture applied for.

The deposit of 2 per cent. will be returned if an allotment is not made, and it will be forfeited if an allotment after being made is not fully taken up.

In case a less number of debentures is allotted than is applied for, the excess of the deposit will be applied in or towards payment of the balance due upon such number as may be allotted.

The tenders will be opened in the presence of the Port Commissioners. The minimum rate at which tenders will be accepted will be recorded under the signature of the Chairman and before the tenders are opened, but will not be made public unless some tender is rejected only because it is below the recorded minimum.

Forms of tender can be obtained on application to the Secretary to the Port Commissioners, and the form of debenture can be seen at the office of the Secretary. A separate tender must be made for each rate.

R. A. DONNITHORNE, Secretary.

Port Commissioners' Office, dated 23rd July 1885.  
(4JC-5)

## Chittagong Road Cess.

## NOTICE.

## Citation under Section 69, Act V of 1881.

IN THE COURT OF THE DISTRICT JUDGE OF RAJSHAHYE AT RAMPUR BEAULEAH.

MISCELLANEOUS CASE No. 117 OF 1885.

Rahimun Nissa Bibi ... .. Applicant.

Application for letters of administration as in int stacy of the estate of Syedani Hayatun Nissa Bibi, late of Kabihatti, station Chahat, district Rajshahye.

WHEREAS the applicant has applied for letters of administration as in intestacy of the estate of the abovesaid deceased, the 28th September 1885 is fixed for hearing the same, and this citation is hereby issued calling upon all persons claiming to have any interest in the estate of the deceased to come and see the proceedings on that date.

P. N. MUKHERJEE, Subordinate Judge,  
in charge of the Judge's office.

The 31st August 1885.

(516-1)

## Notification.

PURSUANT to a decree and order of the Calcutta High Court, dated respectively the 14th of August 1883 and the 26th of April last, made in suit No. 14 of 1883, between Charles Frederick Adames and Moonshee Neesamutollah and Shnik Khodabux, the Registrar of said High Court will put for sale in his sale-room, at the Court-house, on Saturday, the 12th day of September next, at the hour of 12 o'clock at noon, the undermentioned property—

All that upper-roomed brick-built messuage, dwelling-house, hereditaments, and premises, situated at and being No. 22, Antony Bagan Lane, together with the land on which the same is erected, containing by estimation 4 cottahs 8 chittacks and 33 square feet, and bounded on the north by Antony Bagan Lane; on the east by the land and buildings of Kurreembux and others; on the south by the pucca buildings belonging to the said Kurreembux and others; and on the west by the land of Dookhoo Mistry.

The abstract of title and conditions of sale may be seen at the office of the Registrar of the High Court or at the office of Mr. E. B. Goodall, attorney for the plaintiff, at No. 5, Old Post Office Street, on any day before the sale, and will be produced at the sale.

The house has been built with the best materials at a very large outlay: it is comparatively new.

R. BELCHAMBERS, Registrar.

E. B. Goodall, Plaintiff's Attorney

Calcutta, High Court, Original Jurisdiction. (498-1)

WE have authorized Mr. Edward Lawrence Hamilton to sign our firm from this date.

HOARE, MILLER & Co.,

1st September 1885.

(535-1)

## Notification.

TO be peremptorily sold, pursuant to an order of the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction made in suits Nos. 175 and 306 of 1884, in the first of which Hurrydoss Neogy is the plaintiff and Bhubunmohun Neogy is the defendant, and in the second of which Sreemutty Unnopurna Dossee is the plaintiff and Bhubunmohun Neogy and others are defendants, and dated 30th March 1885, by the Receiver appointed in the first of the above mentioned suits in the Registrar's sale-room at the said house, on Saturday, the 12th of September instant, at the hour of twelve o'clock noon, the undermentioned properties or a sufficient portion thereof, in such lots as the said Receiver may think proper for the satisfaction of the decree in suit No. 19 of 1883.

1. All that parcel of land situate at Chitpore, thana Chitpore, in the zillah of Twenty-four-Pergunnahs, sub-district Barranagore, being part of the holding No. 187-189 in Dehee Panchannogam, Khosbag Chitpore, division 1, sub-division V, measuring about two bigahs one cottah and eight chittacks, and bounded on the north by the premises of the Newab of Chitpore; on the south the ejmaltee passage leading to the river Hooghly; on the west by the tenanted land of Unnopurna Dossee; and on the east by the lane leading to the Chitpore Newab's dwelling-house.

2. All that undivided one-fourth share in all that zemindary called Girdo Monkurum, pergunnah Bozargo Omedpore, registered in the Collector's towjee as formerly No. 1675 and at present No. 1673, situate in the district of Bakhurgunge, sub-district of Putwakhally and Shahebgunge, and thana Khulseekhallee, Mirzagunge, Anguria and Goolshakhallee, paying to Government an annual revenue of Rs. 14,761-6-4, and which zemindary consists of four Dhees, namely Dhee Girdo Kristokally, comprising seven mouzahs; Dhee Girdo Monkurum, comprising nine mouzahs; Dhee Joar Soakally, comprising five mouzahs; and Dhee Awooleapore, containing seven mouzahs, together with all putnees, hawalahs, talooks, and churs appurtenant thereto.

3. All that undivided one-fourth share in all that zemindary chur Monkurum registered in the Collector's towjee as No. 4699, or 1593, situate in pergunnah Bozargo Omedpore aforesaid, sub-district Putwakhally, thana Mirzagunge, paying to Government an annual revenue of Rs. 608-4.

4. All that like undivided one-fourth share in all that zemindary chur Awooleapore registered in the Collector's towjee as No. 1406, or 9, situate in pergunnah Bozargo Omedpore aforesaid, sub-district Gazenkhallee, thana Goolshakhallee, paying to Government an annual revenue of Rs. 196-12-2.

5. All that undivided one-fourth share in all that zemindary chur Monkurum, registered in the Collector's towjee as No. 5189, situate at pergunnah Bozargo Omedpore aforesaid, sub-district Putwakhally, thana Mirzagunge, paying to the Government an annual revenue of Rs. 25-4.

6. All that undivided one-fourth share in all that talook Dhulki-sore Thapalbattee, registered in Collector's towjee as No. 12, situate in pergunnah Bozargo Omedpore aforesaid, sub-district Shahebgunge, thana Angore, paying to Government an annual revenue of Rs. 6-14-6, together with the brick-built bassabattee and land lately purchased, situate in the sudder station of zillah Bakhurgunge, thana and registration district of Bakhurgunge.

The abstract of title and conditions of sale may be seen on any day before the sale at the office of the said Receiver, or at the office of Mr. N. C. Bose, the attorney for the plaintiff, in the first abovementioned suits at No. 8, Old Post Office Street, and at the office of Baboo Ukhoj Chunder Dutt, mortgagee's attorney, at No. 6, Hastings Street, and will be produced at the sale.

R. BELCHAMBERS, Receiver.

N. C. Bose, Attorney for Hurrydoss Neogy. (555-1)

## Notification.

**T**O be peremptorily sold, by the Registrar of the Calcutta High Court in his sale-room in the Court-house on Saturday, the 19th of September 1885, at the hour of 12 o'clock at noon, pursuant to a decree and order of the said Court made in suit No. 314 of 1884 (between Kherodo Gopaul Mitter and Mohendro Nauth Mullick), and dated respectively the 8th of September 1884 and 9th of July last, the following properties of the defendant—

**Lot 1.**—An undivided half anna share in the premises No. 84, Lower Chitpore Road, containing by estimation 1 biggah, a little more or less, bounded on the west by the Chitpore Road; on the east by the tenanted land belonging to Rajah Radha Kant Deb; on the north by the tenanted land and premises belonging to Rajah Radha Kant Deb; and on the south partly by the family dwelling-house and premises No. 82, belonging to Khetter Mohun Mullick and partly by the tenanted three storied house and premises No. 83.

**Lot 2.**—An undivided one anna share in the three-storied tenanted house Nos. 13, 14, 15, 16, 17, Burrabazar, Khongraputty, containing by estimation five cottahs, be the same a little more or less, bounded on the north by the tenanted upper-roomed house and premises belonging to the estate of Hollo Dhur Mullick, deceased; on the south by the tenanted upper-roomed house and premises belonging to Nundo Shaw; on the east by the tenanted house and premises belonging to Nundo Lal Byjenath; and on the west by the said Khongraputty Street.

**Lot 3.**—An undivided one anna share in the tenanted land No. 37, Free School Street, Chowringhi, in the town of Calcutta, containing by estimation nine cottahs and seven chittacks, more or less, bounded on the north by the house and premises formerly belonging to Barham Barker; on the south by a lane leading to Kyd Street; on the west by the tenanted house and premises of Mr. Bennett; and on the east by Free School Street.

The abstract of title and conditions of sale may be seen at the office of the said Registrar, and the title-deeds at the office of Messrs. Ghose and Ghose, the plaintiff's attorneys, at No. 12, Old Post Office Street, in Calcutta, on any day before the sale, and will be produced at the said sale.

R. BELCHAMBERS, Registrar.

Ghose and Ghose, Plaintiff's Attorneys.  
Calcutta, High Court, the 10th August 1885.

(476—1)

**I**N pursuance of section 77 of Act V of 1881, notice is hereby given that all parties having claims against the estate of the late Bridget Newhouse, who died on the 10th May 1885 at Salamarpore in the district of Jessore, and probate of whose will was granted on the 21st July by the Jessore Court, should send in particulars of the same to the undersigned within one month from this date, after which no claims will be admitted.

ELIZABETH C. NEWHOUSE, executrix.  
ALEXANDER H. NEWHOUSE, executor.

Salamarpore, Kotchandpore P. O., the 1885.

(525—4)

## Caution.

**T**HE public are hereby cautioned against purchasing, selling, pledging, paying dividends, or in any way dealing with No. 3751 to No. 3800 (50) fifty shares of "Camperdown Pressing Company, Limited," as those shares have been bought and paid for by our client Nistarny Bonnerjee, who is the wife of Baboo Gopaul Chunder Bonnerjee, of Messrs. C. H. Baily & Co., of No. 10, Haro Street, Calcutta. The said shares were obtained from our client by Mr. J. B. Kally.

MOOKERJEE, DEB, AND PALIT, Attorneys-at-Law.

5, Old Post Office Street, Calcutta, the 8th September 1885.

(555—1)

## Bengal Tea Company, Limited.

**T**HE Fiftieth Half-yearly General Meeting of Shareholders will be held at the registered office of the Company, No. 4, Clive Row, at noon, on Friday, the 25th instant, for the purpose of passing the Managing Agents' report and the accounts to 30th June last, and electing an auditor.

JARDINE, SKINNER & Co., Managing Agents.  
Calcutta, the 8th September 1885.

(554—1)

## Notice.

DESSAI AND PARBUTIA TEA COMPANY, LIMITED.

**T**HE Half-yearly Ordinary General Meeting of Shareholders will be held at the registered office of the Company, No. 100, Clive Street, on Thursday, the 17th day of September, at 4 P.M.

By order,

GEO. HENDERSON & Co., Secretaries.

Calcutta, 2nd September 1885. (549—1)

## India General Steam Navigation Company, "Limited."

**N**OTICE is hereby given that an Extraordinary General Meeting of Shareholders of the above Company will be held at the registered office of the Company, No. 4, Fairlie Place, Calcutta, on Wednesday the 16th day of September 1885, at 3 o'clock in the afternoon, to confirm the following resolutions passed at the Extraordinary General Meeting of Shareholders held on Monday, the 24th day of August 1885—

## RESOLUTIONS.

**1st.**—"That the Directors be, and they are hereby, authorized to increase the capital of the Company to rupees seventy lakhs by the creation of new shares to the amount of rupees fifteen lakhs, such new shares to be of such respective amounts, and to be issued in such manner and at such times as the Directors in their discretion shall think expedient."

**2nd.**—"That the Directors be, and they are hereby, authorized to issue debentures of the Company to the extent of five lakhs of rupees, such debentures to be issued in such amounts, at such times, and in such manner, and to bear interest at such rate, and to be repayable at such time, and to be chargeable and to be charged upon all or any of the property of the Company, real or personal, as the Directors in their discretion shall think expedient."

By order of the Directors,

J. GILLMAN, Offg. Secretary.

Calcutta, the 27th August 1885. (534—2)

## INSOLVENT NOTICES.

*In the Court for the Relief of Insolvent Debtors at Calcutta.*

**I**n the matter of THAN SING BOYD and NIMCHUND NAHATTA, insolvents.

On Monday, the 24th day of August instant, it was ordered that the matters of the petition of the said insolvents be heard on Wednesday, the 25th day of November next, and that the said insolvents do then attend to be examined before the said court.

C. D. Linton, Attorney. (536—3)

**I**n the matter of BRINDABUN CHUNDER SETT, lately carrying on business as sugar and ghee merchant at No. 90, Chiniputty, Burra Bazar, in the town of Calcutta, under the name, firm, and style of Isser Chunder Sett, Sastre Churn Sett, and Brindabun Chunder Sett, an insolvent.

On Monday, the 13th day of July last, it was, on the petition of Moolchand, Nemchand, and others, creditors of the said insolvent, adjudged that the said Brindabun Chunder Sett hath committed an act of insolvency under the provisions of the Act, XI Vic. Chap. XXI, and by another order of the same date the estate and effects of the said insolvent were vested in the Official Assignee.

H. C. Chick, Attorney. (539—2)

Chief Clerk's office, the 31st day of August 1885.

**I**n the matter of COOVERJEE BAMANJEE of No. 44, Ezra Street, in Dumtollie, in the town of Calcutta, lately trading there as merchant, under the style and firm of Nawrojee Nusservanjee and Company, an insolvent.

Notice that the petition of the said insolvent, seeking the benefit of the Act, XI Vic. Chap. XXI, was filed in the office of the Chief Clerk of the said court, the 2nd day of September instant, and by an order of the same date the estate and effects of the said insolvent were vested in the Official Assignee.

C. F. Pittar, Attorney.

(557—1)

In the matter of **COOVERJEE BAMANJEE**, an insolvent.

On Wednesday, the 2nd day of September instant, it was ordered that the matters of the petition of the said insolvent be heard on Wednesday, the 25th day of November next, and that the said insolvent do then attend to be examined before the said court.

C. F. Pittar, Attorney.

(558—2)

In the matter of **JOHN ANDREWS**, an insolvent.

Notice that an application for an *ad interim* protection order has been this day made by the said insolvent and that such application will be heard and disposed of by the Acting Commissioner of the Insolvent Court on Thursday, the 17th day of September instant, at the hour of one o'clock in the afternoon.

“Any creditor of the said insolvent desirous of opposing such application must appear before the said court at the time and place aforesaid.”

J. H. Wheeler, Attorney.

(559—1)

Chief Clerk's office, the 8th day of September 1885.

### Notice

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e. from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,

Meteorological Reporter to the Govt. of Bengal.

Meteorological Office, Bengal, the 3rd July 1883.

### Notes on Forestry,

By C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

The above are also to be obtained at the same prices at Messrs. Thacker, Spink & Co., No. 5, Government Place.

JOHN ELIOT, M.A., Meteorological Reporter  
to the Govt. of Bengal.

CALCUTTA, the 26th August 1875.

## INDIAN LAW REPORTS.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, by the Calcutta Central Press Company, "Limited," 5-1, Council House Street, at the following rates, payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	Rs. 15	Rs. 10	Rs. 6
" three issues	" 40	" 25	" 14
" six "	" 70	" 40	" 25
" twelve "	" 110	" 70	" 45

At these rates the advertisers will have the option of changing their advertisements in each issue.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

## The Indian Law Reports,

*Published under Authority.*

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

Without postage. With postage.

For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
" each of the Madras, Bombay, and Allahabad Series ...	" 6 0	" 7 0
" a part of the Calcutta Series purchased separately (inclusive of postage in India) .....	.....	" 2 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India) ...	.....	" 1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

" Thacker & Co., Bombay.

" Higginbotham & Co., Madras.

The Government Central Book Depot, Bombay.

" Curator of Government Books, North-Western Provinces and Oudh.

" Superintendent of Government Printing Bengal.

Orders and subscriptions for 1885 should be at once remitted.

## Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 5th September 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
Western Districts.			
BURDWAN DIV.	1 Burdwan, Sept. 5 '85	4.70	Weather—seasonable. Prospects of crops good, except where there has been inundation. Price of rice 10½ to 14 seers per rupee. Health good.
	Culna ..	4.52	
	Cutwa ..	2.94	
	Raneegunge ..	2.58	Weather—cloudy and rainy with a few intervals of sunshine. Incessant heavy rain all over the district. Some injury to paddy in low lands. A break or fine weather for some time is now required for all crops. Early paddy is being reaped in places with fair outturn. Health good.
	2 Bankoora, " 5 "	2.69	
	Bishenpur ..	5.62	Weather—very rainy. Prospects of the rice crop much improved by heavy rain. Transplanting well advanced. Prices have risen considerably. Cholera in a virulent form still prevails.
	3 Beerbhoom, " 5 "	5.55	
	Rampore Haut ..	9.51	Weather—fairly seasonable. (Floods are going down, but much damage has been caused in almost every part of the district. Fever begins to be prevalent.) Rain has somewhat diminished; weather seasonable now. Prospects of <i>amun</i> crop at present unfavourable owing to high floods, particularly in Jehanabad sub-division. Fever prevalent.
	4 Midnapore, " 5 "	1.82	
	5 Hooghly, " 5 "	1.83	Weather—cloudy and showery. (Nearly three-fourths of the rice crop in the district is said to have been destroyed by the floods.) The rest is in good order. Particulars cannot yet be got. Every effort is being made to drain off flood-water. Health good.
Serampore ..	2.32		
Jehanabad ..	4.15		
Howrah, " 5 "	2.44		
Oolecheriah ..	2.62		
Central Districts.			
PRESIDENCY DIV.	6 24-Pergha, Sept. 5 '85	4.23	Weather—seasonable. (Standing <i>aus</i> crops suffering greatly from accumulation of rain water. Prospects of <i>amun</i> paddy on low lands very uncertain. Public health good.
	7 Nuddea, " 5 "	1.78	
	Kushtea ..	3.20	Weather—hot and cloudy with occasional rain. Harvesting of <i>aus</i> paddy continues. Paddy on low lands has been damaged in consequence of the height of the rivers, but on the whole the reports are not so bad as were expected.
	Meherpur ..	2.15	
	Chudanga ..	3.93	
	Ranaghat ..	4.55	
	8 Khoolna, " 5 "	3.88	Moderate rain with cloudy sky. <i>Aus</i> paddy being harvested; outturn reported very good in Bagerhat. Transplanting of <i>amun</i> paddy continues. (Coarse rice at Sakkhira Rs. 4.1 per maund.) Public health fair.
	9 Jessore, " 5 "	3.81	
	Jhenida ..	3.66	Weather—cloudy and rainy. Prospects of <i>aus</i> crop, more than half of which has been reaped, continue good, though the rain has not yet ceased to injure it in some degree. <i>Amun</i> prospects continue favourable. Much fever everywhere.
	Magoora ..	1.15	
	Narail ..	0.95	
	10 Moonsheeabad, " 5 "	3.29	
	Lalbagh ..	2.51	Weather—seasonable. Prospects of the <i>amun</i> rice on <i>rark</i> lands good; but the high floods have done great damage to the <i>aus</i> crop, most of which has been destroyed. <i>Amun</i> in Sudder has also suffered from the same cause. Common rice is selling at from 10 to 11½ seers per rupee. Public health fair, but fever prevalent in places.
	Kandi ..	2.98	
	11 Dinagepore, Sept. 4 '85	8.26	Heavy rain throughout the district. Crops are doing excellently, though in places the harvesting of the <i>bhadoi</i> is slightly retarded by the incessant rain. Rice is selling at 16 seers per rupee on the average.
	12 Rajshahye, " 5 "	2.07	
	Nattore ..	3.05	Weather—showery. Cutting of <i>aus</i> paddy and jute continues. Prospects of standing crops generally fair, though in parts floods have done some damage. Fever prevalent.
Nowgong ..	1.82		
13 Rungpore, " 5 "	6.56	Weather—hot, but the latter part of the week rainy. Harvesting of <i>aus</i> almost over. Transplanting of <i>amun</i> still going on; other crops doing well. Long continued want of rain is the general complaint in the Kurigram sub-division, where the transplanting of <i>amun</i> paddy is very backward. Fever and bowel-complaints very prevalent.	
Kurigram ..	0.16		
Gaibanda ..	1.83		
Nilphamari ..	5.82		
14 Bogra, " 5 "	1.13	Weather—showery and chilly after a lull of eight days. A shock of earthquake occurred at 6.45 A.M. on 3rd instant, and a severe shock this morning (5th) at about 11.30 A.M. Prospects of crops continue favourable. <i>Aus</i> is being reaped. Public health fair.	
15 Pubna, " 5 "	7.60		
Serajgunge ..	2.86	Weather—cloudy and rainy. Prospects of <i>amun</i> and jute very good. Rivers still rising. A shock of earthquake on the 5th at 11.43 A.M.	
16 Darjeeling, " 5 "	8.13		
17 Julpigoree, " "	4.43	Weather—again wet. The harvest in progress is satisfactory as are all prospects. Weather—cool and cloudy, frequent rain; very heavy rain in Roda. <i>Bhadoi</i> paddy has been cut, and is a full crop. <i>Haimanti</i> paddy is still being transplanted and is doing well. Price of rice has fallen to 20 seers per rupee in many places. Public health fair.	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.—concd</b>			
<i>Eastern Districts.</i>			
Dacca Division.	18 Dacca, Sept. 5 '85	.....	Weather—cloudy. Harvesting of <i>aus</i> paddy nearly completed, and that of jute going on. Outturn good. <i>Shail</i> and <i>roachia</i> paddy being sown. Prospects of crops and public health generally good.
	Manickgunge	0.34	
	Manshigunge	1.43	
	Naraingunge	2.49	
	19 Furreedpore, " 5	3.01	Incessant rain with a good deal of wind. Rice crop good. Jute being steeped. Health fair.
	Goalundo	1.40	
	Madaripore	0.25	
	20 Backergunge, " 3	2.16	Weather—seasonable. Transplanting of <i>amun</i> crop is nearly over. Continual rain has caused slight damage to the harvested <i>aus</i> paddy. Public health generally good.
	21 Mymensingh, " 4	2.26	Weather—cool. Strong gusts of wind with sharp showers. A shock of earthquake on the morning of 3rd instant. <i>Aus</i> rice being reaped, and jute cut and steeped. Transplanting of <i>amun</i> rice continues. Prospects good.
	Jamalpur	0.67	
CHITTAGONG DIV.	Kishoregunge	0.48	
	Attua	0.55	
	Netrokona	1.89	
	22 Chittagong, Sep. 8 '85	11.60	Heavy rain throughout the week. Prospects generally fair. Outturn of <i>aus</i> eight annas. Transplanting of <i>amun</i> still continues. Prices steady. Cholera and cattle-disease continue.
	23 Nonkholly, " 4	6.49	Heavy showers on 29th and 30th ultimo have caused some damage to <i>amun</i> seedlings. Weather since generally clear. <i>Aus</i> crop has been mostly gathered; outturn very good, but part of it will be lost if rainy weather continues. Public health good.
	Fenny	2.49	
	24 Tipperah, " 3	5.19	Weather—stormy with heavy rain and brief intervals of sunshine. Weather all that can be desired for late rice, which has now been transplanted and looks remarkably well. Health of the people generally good, the heavy rainfall having been decidedly beneficial.
	Chundpore	4.70	
	25 Chittagong Hill, " 1	1.96	Weather—cloudy throughout the week; excessive heat at noon. Paddy crops in <i>jooms</i> and plains greatly improved by rain, and their prospects reported good. Steeping of early <i>joom</i> paddy crops commenced in many places. Prospects of sugarcane and cotton good. Fever still continues.
	Tracts.		
BEHAH.	Hill Tipperah, " 2	1.58	Weather—rainy. <i>Amun</i> paddy still being transplanted. <i>Joom</i> crops being reaped. Sugarcane doing well. Public health good.
	26 Patna, Sept. 5 '85	1.20	Weather—cloudy and showery ( <i>Bhadai</i> crops in low and denah lands greatly damaged by the recent high flood.) Prospects of paddy crop good. Transplanting of rice seedlings in progress. Cholera less prevalent.
	27 Gya, " 5	4.20	Weather—cloudy. <i>Bhadai</i> being harvested. Transplanting of paddy still going on in Nawada sub-division. Cholera and fever still reported from some places. Prices almost stationary, but rather lower.
	28 Shuhabad, " 5	5.13	Weather—rainy and cloudy. Harvesting of <i>bhadai</i> crops in progress (Continuous rain has done some injury to <i>bhadai</i> , and a break would benefit the <i>aghani</i> crop. Fever and cattle-disease reported from Sasseram.) Cholera abating.
	Buxar	3.97	
	Sasseram	3.81	
	Bhabhua	2.58	
	29 Durbhanga, " 5	6.20	Weather—cloudy and rainy. Sufficient rain this week to admit of transplanting operations being brought to a close. A break in the weather is now necessary to enable the cultivators to cut their <i>bhadai</i> crops which have already ripened. Prices almost stationary. Public health generally good.
	Tajpur	11.57	
	Madhubani	3.25	
PATNA DIV.	30 Mozufferpore, " 5	4.14	Weather—continues very cloudy and rainy, almost without intermission. Rainfall in Sitamurhee exceptionally heavy. Crop prospects generally good; but considerable damage caused by rain and flood in low lands. Harvesting of early millets continues. Cholera less in Sudler and Hajipur sub-divisions; but severe in Sitamurhee sub-division, from which 510 deaths during the week reported.
	Hajipur	1.98	
	Sitamarhi	14.85	
	31 Sarun, " 5	3.63	Weather—cloudy with several heavy showers. Heavy rain everywhere, and a break is now required as the <i>bhadai</i> crops have been somewhat injured in places owing to excessive rain. Prospects of paddy continue good. Cholera abating.
	Sewan	2.68	
	Gopalgunge	2.64	
	32 Champaran, " 5	9.06	Weather—rainy. Sunshine is needed. Prospects of crops continue good. Transplanting of <i>aghani</i> rice is being vigorously carried on. Prices have fallen slightly. Cholera has abated in Motihari, but still prevails in Bettiah and in the interior.
	33 Moughyr, Sept. 5 '85	8.76	Heavy and continuous rain for the last three or four days. (The continued rain has caused some damage to the <i>bhadai</i> on high lands. Much has suffered from the inundation of the Ganges.) Prospects of the <i>aghani</i> are good. Cholera abated. Prices steady.
	Begusarai	1.38	
	Jamui	1.97	
BANGALORE DIV.	34 Bhagulpore, " 5	6.87	Weather—wet. Prospects of rice crop in north much improved by rain. Prices in that part of the district have fallen, and <i>murwa</i> is selling at 60 seers per rupee. In south heavy rain and floods continue to do harm to <i>bhadai</i> . Cholera still bad in Banka.
	Banka	2.41	
	Soanole	3.92	
	Muddepoornah	4.61	
	35 Purneah, " 5	6.31	Weather—wet. <i>Bhadai</i> good. Rain almost too late for <i>aghani</i> transplanting. Health fair. Ganges still very high.
	Kissengunge	2.81	
	Arrareah	5.98	
	36 Maldah, " 5	3.59	Weather—cloudy and rainy; continued rainfall doing harm to the standing crops and retarding progress of transplanting of winter rice in Ozole. Rivers still rising. Coarse rice is selling at 12 seers per rupee at Englishbazar.
	Chanchal	5.19	
	Gazole	5.67	
BANGALORE DIV.	Shilganzo	5.65	
	37 Sonthal Pergah, " 5	7.65	Rain day and night, with short breaks now and then. (Heavy and continuous rain has damaged Indian-corn almost everywhere. Low-lying paddy lands have also suffered) but high land paddy doing very well. A large area of paddy destroyed by floods in Rajmehal. (Cholera still very bad in Deoghur and Pakour.)
	Deoghur	7.77	
	Godda	1.30	
	Rajmehal	7.39	
	Jamtara	3.82	
	Pakour	9.46	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
ORISSA DIST.	38 Cuttack, Sept. 4 '85	0.57	Weather—cloudy. A heavy shower on the 3rd. More rain wanted for the crops. Rainfall 19 inches in short. <i>Beali</i> being reaped with fair outturn. <i>Sarad</i> being transplanted and weeded. Price of rice very high. Common rice 10 to 11 Cuttack seers per rupee in the town. Public health generally good.
	39 Pooree, Khoorda " 3 "	1.11 1.53	Weather—hot with occasional showers. Puddling, transplanting, and weeding of <i>sarad</i> paddy going on, but puddling work is retarded for want of sufficient rain in the Chilka tracts. <i>Beali</i> or early rice is ripening. Miscellaneous crops doing well. Common rice is selling at an average of 17 seers 15 chittacks per rupee in the Sudder sub-division, and 17 seers 8 chittacks in the Khoorda sub-division. Cases of cholera are still reported from the interior of the district.
	40 Balasore " 4 "	3.14	Weather—cloudy with occasional showers. <i>Beali</i> ripening, and in some places being cut. Weeding and transplanting of <i>sarad</i> crop going on well. Crops promise remarkably well. Public health generally good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh, Sept. 4 '85	3.76	Weather—seasonable. Abundant rain everywhere. A break now is much needed. Extensive injury to <i>bhadai</i> from excessive rain reported from several thanas. Transplanting completed, and rice crops everywhere promise well. Cholera still very prevalent in several thanas, and cases of small-pox, fever, and cattle-disease also reported from several villages.
42	Lohardugga, " 5 "	2.53	Weather—wet and squally. Short breaks during the early part of the week, which did good, but it is now again as wet and windy as it could be. Slight damage may have been done by excessive rain to <i>murwa</i> and <i>makai</i> , but on the whole crop prospects very fair. Prices show a tendency to fall. Cholera and fever still very prevalent.
43	Singhbhoom, " 4 "	3.11	Weather—still very wet. (The continued wet weather has done some little damage to <i>til</i> and <i>gundli</i> ,) but other crops are reported to be doing well. Prices easy. Fever and cattle-disease reported from Sernikela and Kalkavore stations.
44	Manbhoom, Govindpore " 5 "	3.56 1.31	Weather—wet and stormy. Prospects of all crops good, but rather too much rain has fallen lately and some fine weather required. Public health good. Prices falling.

Published for general information.

\* Means for five days.

† Means for six days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the year. The amount of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 100. The normal means are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisions from the district (i.e., the total rainfall at the sub-divisional stations in the district sending in returns divided by the number of stations. A rainy

for the past ten years. The variations are negative when the mean for the week is less than the corresponding normal mean, and positive when greater. 10. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District" observations are given for the period in question during the past 12 years. The means of the "district" are the numerical averages of the rainfall return received in one or more at least hundredth of an inch fell.

## Statement of Rainfall in Bengal for the week ending Friday (6 p.m.), the 4th September 1885—concluded.

Meteorological division.	District.	Station.	RAINFALL.							TOTAL.		Total rain- fall since 1st of August.	Average total rain- fall from 1st of August	Total rain- fall since 15th May 1885.	Average rainfall from 15th May to date.	
			Saturday, 29th August.	Sunday, 30th August.	Monday, 31st August.	Tuesday, 1st September.	Wednesday, 2nd September.	Thursday, 3rd September.	Friday, 4th September.	Number of rainy days.	Rainfall of week.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, the 7th September 1885.

## SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 4TH OF SEPTEMBER 1885.

The week has again been one of rather heavy rainfall in almost all districts, and except in East Bengal, all districts have received falls very decidedly in excess of the normal, though the excess during this week has not been so large as during the previous week. Behar is the district which has received the largest excess falls, and next in order stand North Bengal, Chutia Nagpore and South-West Bengal, Orissa and, as before stated, East Bengal has received a fall somewhat below the normal.

On the last day of the previous week a small barometric depression, which had formed on the 26th and 27th of August, was over South Bengal, the centre being apparently not far to the south-east of Calcutta. On the first day of the present week, that is on the 29th of August, pressure generally increased over the Province by small amounts, while the area of low pressure in South Bengal scarcely altered its position, nor did it appear to increase in intensity to any material extent. On this day rainfall was general over South-West Bengal, and over a large part of East Bengal and Orissa, but in other districts rainfall was light and local. The depression, however, then commenced to move in a northerly direction, pressure falling rapidly in its advance, and on Sunday, the 30th instant, the centre of the small storm was to the north of Krishnagore. It continued its advance in a north-westerly direction, and on the 31st it was over the central parts of South Behar, the centre being apparently between Gya and Bhagulpore. The small storm was accompanied by the usual cyclonic circulation of winds, and it was sufficiently influential to affect the wind system of the whole Province, and with its northward advance rather strong southerly monsoon winds were brought up, which gave moderate to heavy rain to all districts. A tendency to cyclonic circulation of winds having thus been set up round the central parts of the Province, this has continued to exist throughout the remainder of the week, though the depression itself became very shallow and almost disappeared, but only to revive on the Friday, when there was again a tendency for the depression to become more marked. At the same time, on the 2nd, there was rather a rapid fall of pressure at the stations in South-West and East Bengal and Orissa, and this having continued on the 3rd, a distinct area of low pressure was formed in South Bengal, the lowest pressure being reported from Burrisal. The falling pressure continued on the 4th, and the depression in South Bengal deepened; while at the same time pressure became distinctly low over the eastern parts of South Behar and the southern parts of North Bengal, and thus on this day the weather conditions of the Province were affected by two distinct barometric depressions, and were therefore decidedly disturbed. With the persistence of the depression over Behar and parts of North Bengal, and with the formation and passage of the depression through South and Central Bengal, it will be readily understood that rainfall has been abundant, particularly during the second half of the week in the central and northern districts, and especially in Behar and North Bengal and Chutia Nagpur; while in East Bengal on the other hand, though receiving fairly general rain, the showers have not been so heavy, and thus the rainfall has been in comparative defect in this district.

The average pressure for the previous week was nearly 0.08" in defect, but with the tendency to the reproduction of the areas of low pressure in South Bengal, which has been so persistent a feature in the meteorology of the past few weeks, the pressure in South Bengal was about 0.12" in defect. The tendency of the changes during the present week has been to decrease this defect by small amounts, and thus, while the average defect over the whole Province has been equal to 0.053", in South and Central Bengal the defect was about 0.07". The pressure changes from day to day have been mainly dependent on the formation and movements of the two depressions above discussed. Thus on the 29th pressure in South-West Bengal was in defect by about 0.07", while Behar, Chutia Nagpur and Orissa showed pressures slightly above the normal. On the following day, with the northward advance of the depression, pressure became low at Jessore and other stations to the north of it, and the defect increased to about 0.12" below the normal, Orissa and Behar still showing pressures above the normal. On the 31st, when the depression had reached Behar, pressure at Gya was 0.08" below the normal, while the average defect over the whole Province was not much more than half this. With the commencement of the formation of the second depression, the largest defect from the normal again appeared at the southern stations, and on the 3rd the defect at Chittagong was 0.12", and on the 4th, at the south-eastern stations generally, the defect was 0.14". It was noticeable that at the close of the week a distinct but rather broad band of low pressure stretched from the southern stations in East Bengal in a north-westerly direction to the north of the Province, the southern and northern stations of the low pressure band being Burrisal and Purneah.

With the continued heavy rainfall during the week, temperature has been low again at most stations; the average temperature of the whole Province has been about 1° below the normal, and it is naturally those districts in which the rainfall has been heaviest where the temperature has been lowest. Thus in Orissa and East Bengal, where rainfall has been comparatively light, temperature has been practically normal, but in Behar, where rainfall has been heavy, temperature averages about 2° below the normal. On some days of the week, particularly towards its close, when rainfall was heavy and continuous in this district, the defects from the normal were very considerable, and on the 3rd temperature in Behar was about 4° below the normal, and on the 4th the defect at Gya was no less than 7°, while at Hazaribagh it was nearly 5°.

Rainfall, as has before been stated, has been heaviest in the central and northern districts. Thus taking up the meteorological districts, South Behar has received an average fall of 4.43 inches, the normal fall for the same period being 2.01 inches, it has therefore received a fall 120 per cent in excess of the normal. North Behar reports an average fall for the week of 5.27 inches as compared with 2.82 inches, which is the normal amount for the week, and the actual has therefore been 83 per cent. in excess of the normal. In North Bengal the average fall has been no less than 5.22 inches against the normal fall of 3.69 inches, and the excess fall has therefore equalled 42 per cent. In South-West Bengal the average fall for the week has been 3.35 inches against the normal of 2.40 inches, and it has thus received an excess fall of 40 per cent., and Orissa reports an average rainfall of 2.60 inches against the normal amount of 2.15 inches, and thus the actual has been in excess of the normal by 22 per cent. Chutia Nagpur has received an average fall of 3.20 inches against the normal 2.24 inches, and is thus 43 per cent. in excess. The only division which has been in defect was East Bengal, which has received 3.65 inches instead of the normal for the week of 3.67 inches, and the defect is therefore 1 per cent. of the normal. The number of rainy days during the week has also been in excess of the normal even in the district where the fall has been deficient, and for the whole Province the average number of rainy days during the week has been 4.9 against the normal number of 3.9 days.

As has before been stated, the division in which the heaviest cumulative rainfall has occurred has been Behar, but the percentage of excess above stated does not fully represent the excess in some of the smaller districts, where in some cases the falls have been considerably more than three times the normal. Thus the district of Mozufferpore received an average of 7.47 inches of rain against the normal amount of 2.25 inches, the district of Durbhanga also received 7.86 inches of rain against the normal of 2.75 inches, the Sahabad district received 4.19 inches against the normal 1.88 inches, and the Sonthal Pergunnahs district received 5.41 inches against the normal 2.27 inches. At isolated stations again very heavy rain in some cases has been received: thus in South-West Bengal Devog in the Midnapore district reported 8.96 inches of rain in the week, and Rampore Hât in the Beerbhoom district 8.08 inches. In North Bengal Pubna reported 7.60 inches, Panchbibi (Bogra district) 6.87 inches, Chanchal (Maldah district) 6.44 inches, Dinagepore 9.83 inches, Kungpore 6.18 inches, and Bagdogra (Rangpore district) 9.69 inches. In Cooch Behar district Mickligunge reported 13.81 inches, Matarhanga 10.05 inches, Cooch Behar 9.54 inches and Dinhatta 8.22 inches, and in the Darjeeling district Buxa 10.09 inches and Darjeeling 8.13 inches. In North Behar Purneah reported 6.31 inches, Motiari (Purneah district) 14.04 inches, Tajpur (Durbhanga district) 12.22 inches, Bahera (Durbhanga district) 12.23 inches, Durbhanga 6.20 inches, Sitamarhi (Mozufferpore district) 15.44 inches and Motihari 9.06 inches. In South Behar Monghyr reported 8.76 inches, Gogri (Monghyr district) 8.95 inches, Bhagulpore 6.23 inches, Rajmehal 7.17 inches, and Pakour (Sonthal Pergunnahs) 8.21 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 4th of September 1885:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.							RAINFALL.											
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of August.		Since 15th. May 1885.

N. 26, NE. 33, E. 77, SE. 102, S. 162, SW. 169, W. 127, NW. 25, Calm 23.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of former years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.6 higher; and, finally, the thermometer, which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards, is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

**Results of the Meteorological Observations taken at the Alipore Observatory from  
30th August to 5th September 1885.**

The mean pressure of the seven days

The average pressure of the corresponding period for 24 years, S. G.'s Office

The total number of hours of bright sunshine ...

The maximum possible number of hours of sunshine ...

The mean temperature of the seven days ...

The average temperature of the corresponding period for 24 years, S. G.'s Office ...

The extreme variation of temperature ...

The maximum temperature ...

The highest velocity of the wind in one hour ...

The highest pressure of wind on one square foot ...

The mean relative humidity ...

The average relative humidity of the corresponding period for 24 years, S. G.'s Office ...

The total fall of rain from 30th August to 5th September 1885 ...

The average fall of the corresponding period for 24 years, S. G.'s Office ...

The total fall from 1st January to 5th September 1885 ...

The average fall of the corresponding period for 24 years, S. G.'s Office ...

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph

thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 84 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, p passing temporary showers, d drizzling rain, t thunder.

Mozufferpore	...	...	34·1	Puri	...	...	54·6
Burdwan	...	...	32·0	Burdwan	...	...	50·4
				Purneah	...	...	41·5
				Mozufferpore	...	...	40·1
				Chittagong	...	...	39·9
				Serampore	...	...	39·3
				Suburbs of Calcutta	...	...	37·4

3. The principal diseases, specified in the table appended to this Memoranda, furnished the death-rates indicated below:—

				Ratio per mille during the weeks ending—	
				22nd August 1885.	15th August 1885.
Cholera	...	...	...	10·1	13·4
Small-pox	...	...	...	4	8
Fever	...	...	...	16·1	14·1
Bowel-complaints	...	...	...	8·0	7·6
Injury	...	...	...	7	4
Other causes	...	...	...	11·0	11·8

The above figures denote that, in comparison with the preceding week, the severity of cholera had, on the whole, declined considerably, and that of fever had increased noticeably.

4. Referring to the death-causes above indicated, while injury was not noticeably severe anywhere, and small-pox proved conspicuously fatal only in the Durbhanga town, viz. at the rate of 5·5 per 1,000 of its population, the rest of them caused the highest mortality in the following Municipalities:—

Cholera.		Fever.		Bowel-complaints.		Other causes.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.		Ratio per mille.
Chupra	95·7	Bhagulpore	37·1	Patna	17·2	Puri	33·6
Monghyr	29·8	Burdwan	32·0	Serampore	16·7	Gya	26·0
Arrah	22·7	Gya	30·7	Gya	15·7	Bhagulpore	23·5
Gya	17·1	Purneah	24·3	Chupra	13·7	Patna	15·9
Mozufferpore	11·6	Patna	21·1			Serampore	13·7
Purneah	13·8					Arrah	13·1
Patna	11·4					Chupra	12·7
Bhagulpore	9·9						
Puri	8·4						

It will be noticed that the mortality from cholera still prevails with much severity in Chupra, in reference to its incidence during the preceding week.

5. Under the heads of *Sex*, *Class* and *Age*, the mortality of the week under notice stands as follows:—

According to Sex.		According to Class.		According to Age.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.
Males	46·7	Christians	17·4	Under 1 year	440·7
Females	46·1	Hindus	49·7	1 and under 5 years	87·2
Ratio of male deaths to every 100 female deaths	114	Mahomedans	39·8	5 " 10 "	38·1
		Other classes...	36·4	10 " 15 "	29·4
				15 " 20 "	25·1
				20 " 30 "	24·9
				30 " 40 "	26·2
				40 " 50 "	30·2
				50 " 60 "	38·8
				60 years and upwards	78·2

R. LIDDERDALE, M.D., Deputy Surgeon-General,  
Sanitary Commissioner for Bengal.

The 7th September 1885.

Statement showing the Results of the Registration of Births and Deaths in the principal Municipalities in Bengal during the week ending 22nd August 1885.

## GENERAL REMARKS AND EXPLANATIONS.

The total weight lifted during the month under review stands at 13,403.59 tons against 13,470.12 tons for the corresponding month last year. The decrease of 66.53 tons in the month's working is mainly due to a falling off in food-grain and railway materials.

### INCREASES.

Ginger	...	...	...	...	Tons	63.08
Due to a good crop and fair demand for export.	...	...	...	...	...	...
Jute	...	...	...	...	Tons	106.45
Despatches of new crop commenced.	...	...	...	...	...	...
Miscellaneous	...	...	...	...	Tons	625.95
The traffic under this head comprises so many different commodities, all subject to trade fluctuations, that it is difficult to give any definite explanation of an increase or decrease.	...	...	...	...	...	...
Piece-goods	...	...	...	...	Tons	234.97
Large despatches of piece-goods have been sent forward to meet the expected increased demands during the approaching Durga Poojah.	...	...	...	...	...	...
Salt	...	...	...	...	Tons	460.10
The decrease in this traffic during the last two months accounts for this increase.	...	...	...	...	...	...
Tea	...	...	...	...	Tons	87.43
There has been an increasing demand for all sorts, and the prices offered more favourable.	...	...	...	...	...	...
Tobacco	...	...	...	...	Tons	682.05
There has been an increased demand of this article for export to Burma.	...	...	...	...	...	...

### DECREASES.

Alc	...	...	...	...	Tons	11.12
The fluctuations of this traffic are difficult to follow, depending as they do on the demand by soldiers at Darjeeling. The falling off probably will be met by a corresponding increase later on.	...	...	...	...	...	...
Food-grain	...	...	...	...	Tons	1,114.71
The traffic chiefly consists of rice and paddy, and the decrease is due to the partial failure of crops throughout the districts served by this railway.	...	...	...	...	...	...
Gunny-bags	...	...	...	...	Tons	69.51
The Calcutta market is dull, and the decrease is consequent on rice exports falling off.	...	...	...	...	...	...
Railway material	...	...	...	...	Tons	962.02
This is due to less coal being carried for the Locomotive Department, and no stores and machinery coming forward for the Assam-Bihar Railway.	...	...	...	...	...	...
Sugar	...	...	...	...	Tons	6.36
There has been a steady increase in this traffic during the year owing to cheap prices, and this solitary instance of decrease is apparently due to the markets being well stocked.	...	...	...	...	...	...
Seed	...	...	...	...	Tons	165.84
The Calcutta market for all descriptions of seeds is dull.	...	...	...	...	...	...

C. J. KENE, Traffic Superintendent.

TRAFFIC SUPERINTENDENT'S OFFICE, Saidpur, the 22nd August 1885.

### Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

#### ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 3260A.

**GENERAL.**—*The 5th September 1885.*—Baboo Kali Nath Bose, Deputy Magistrate and Deputy Collector, Mymensingh, is appointed to perform the functions of a Collector under Act VII (B.C.) of 1880 in that district.

*The 7th September 1885.*—Baboo Probhat Chunder Chatterjee, Officiating Deputy Magistrate and Deputy Collector, Cuttack, is promoted temporarily to the 7th grade of the Subordinate Executive Service, with effect from the first instant.

Baboo Umesh Chandra Batabyal, Deputy Magistrate and Deputy Collector, Manbhoom, is appointed to perform the functions of a Collector under Act VII (B.C.) of 1880 in that district.

*The 8th September 1885.*—Mr. H. Holmwood, Officiating Joint-Magistrate and Deputy Collector, Patna, acted as Magistrate and Collector of Gya from the afternoon of the 14th to the afternoon of the 22nd August 1885.

Mr. A. W. R. Cadell, Assistant Magistrate and Collector, Barh, Patna, is allowed leave for one month and one day, under section 72, chapter V of the Civil Leave Code, with effect from the date on which he availed himself of the leave.

*The 9th September 1885.*—Baboo Dwarka Nath Roy, Deputy Magistrate and Deputy Collector, Patuakhally, Backergunge, is allowed leave for two months and five days, under section 72, chapter V of the Civil Leave Code, with effect from such date as he may be relieved.

Baboo Ganendra Nath Pal, temporary Deputy Magistrate and Deputy Collector, Backergunge, is appointed to have charge of the Patuakhally sub-division of that district, during the absence, on leave, of Baboo Dwarka Nath Roy, or until further orders.

*The 10th September 1885.*—Baboo Dina Nath Mookerjee, Deputy Magistrate and Deputy Collector, Rungpore, is allowed leave for one month, under section 72, Chapter V of the Civil Leave Code, with effect from such date as he avails himself of it.

*The 11th September 1885.*—Baboo Hurri Chaitanya Ghose, Officiating Second Inspector of Registration Offices, was employed as a Deputy Magistrate and Deputy Collector in Jessore from the forenoon of the 27th June to the afternoon of the 6th July 1885.

Baboo Kalipada Chuckerbutty, temporary Sub-Deputy Collector, Chittagong, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code, with effect from such date as he may avail himself of it.

Baboo Mukunda Deb Mookerjee, temporary Deputy Magistrate and Deputy Collector, Arrareah, Purneah, is allowed leave for six months, under section 16, chapter II of the Civil Leave Code, in extension of the leave granted to him under the order of the 4th May 1885.

Baboo Bhugwan Chunder Sen, Deputy Magistrate and Deputy Collector, on special duty, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code, with effect from such date as he may avail himself of it.

Baboo Mohinee Mohun Chuckerbutty, Deputy Magistrate and Deputy Collector, Tumlook, Midnapore, is transferred to Cuttack, and is posted to the sudder station of that district.

Baboo Juggobundhoo Bhattacharjee, Deputy Magistrate and Deputy Collector, Midnapore, is appointed to have charge of the Tumlook Sub-Division of that district.

*The 12th September 1885.*—Baboo Gogan Chandra Banerjee, Sub-Deputy Collector, Palamow, Lohardugga, is allowed leave for one month and fifteen days, under section 72, Chapter V of the Civil Leave Code, with effect from such date as he may be relieved.

Baboo Boloram Moitra is appointed to act as Sub-Deputy Collector, Palamow, Lohardugga, during the absence, on leave, of Baboo Gogan Chandra Banerjee, or until further orders.

The late Baboo Nobin Krishna Banerjee, Deputy Magistrate and Deputy Collector, who was employed as General Manager of Wards' Estates in Moorshedabad, was on leave on medical certificate from the 21st March to the 8th July 1885, in extension of the leave previously granted to him.

**POLICE.**—*The 11th September 1885.*—Baboo Gopal Hurry Mullick, Assistant Superintendent of Police, in charge of the District Police, Singbhoom, was on privilege leave from the 5th to the 21st July 1885.

**ECCLESIASTICAL.**—*The 10th September 1885.*—The Reverend T. M. M. Griffiths, Officiating Chaplain of Cuttack, is allowed leave for two months, under section 122, chapter IX of the Civil Leave Code, with effect from the date on which he may avail himself of it.

**EDUCATION.**—*The 8th September 1885.*—Baboo Bepin Behari Gupta, Temporary Assistant Professor, Presidency College, is confirmed in that appointment.

**OPIMUM.**—*The 7th September 1885.*—In modification of the order of the 2nd June last, Mr. H. J. Lloyd, Sub-Deputy Opium Agent, Etawah, Mainpuri, is allowed leave for one month, under section 72, chapter V of the Civil Leave Code, with effect from the 19th idem.

*The 8th September 1885.*—Mr. T. E. D. Innes, Assistant Sub-Deputy Opium Agent, Benares Agency, reported his departure from India, on furlough, on the 20th August 1885.

*The 11th September 1885.*—Mr. C. Meares, Probationary Assistant Sub-Deputy Opium Agent, Benares Agency, is appointed *sub pro tem.* to be an Assistant Sub-Deputy Opium Agent of the fourth grade, with effect from the 24th June 1885.

Mr. R. W. Blair, Assistant Sub-Deputy Opium Agent, Benares Agency, is allowed furlough for one year, under section 128, chapter X of the Civil Leave Code, with effect from the 12th August 1885.

**EMIGRATION.**—*The 11th September 1885.*—In modification of the orders of the 9th July 1885, Surgeon-Major J. F. P. McConnell, Officiating Professor of Materia Medica and Clinical Medicine, Medical College, Calcutta, is appointed to act, until further orders, as Medical Inspector of Emigrants (Inland Emigration).

Surgeon-Major H. B. Purves, Civil Surgeon of the 24-Pergunnahs, is appointed to act, until further orders, as Medical Inspector of Emigrants (Colonial Emigration), with effect from the 6th July 1885.

**MEDICAL.**—*The 28th August 1885.*—Surgeon-Major D. O'C. Raye, Officiating Professor of Surgery, Medical College, Calcutta, and first Surgeon to the College Hospital, is allowed leave for eighteen days, under section 72, chapter V of the Civil Leave Code, with effect from the 26th October next.

*The 11th September 1885.*—The services of Surgeon G. F. A. Harris, Second Resident Surgeon, Presidency General Hospital, are placed temporarily at the disposal of the Government of India in the Home Department.

**VACCINATION.**—*The 11th September 1885.*—Assistant Surgeon Asutosh Law, in charge of the Patna City Dispensary, is appointed to act as Deputy Superintendent of Vaccination, Metropolitan Circle, during the absence, on deputation, of Assistant Surgeon Kasi Chunder Dutt, or until further orders.

The following notification is republished from the *Assam Gazette* :—

J. WARE EDGAR,  
Offg. Secy. to the Govt. of Bengal.

#### NOTIFICATION.

*The 6th September 1885.*—It is hereby notified, under section 4 of Act VII of 1878 (the Indian Forest Act), that it is proposed to constitute the following areas in the Darjeeling district, situated above the Hill Cart Road, a short distance below the Sonada bazar within the boundaries described below, reserved forests under the provisions of the said Act :—

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Darjeeling ...	Hill Territory	Rinchintong-dhara north.	<i>North-West.</i> —A feeder of the Pachimjhora. <i>North-East and South-East.</i> —A demarcated line from a point on the feeder of the Pachimjhora above mentioned, first in a south-easterly and then in a south-westerly direction till it meets the boundary of the Hill Cart Road location. <i>South-West.</i> —A demarcated line running in a north-westerly direction along the boundary of the Hill Cart Road location, till it meets the feeder of the Pachimjhora which forms the north-west boundary.
Darjeeling ...	Hill Territory	Rinchintong-dhara south.	<i>West and North.</i> —A demarcated line running approximately in a north-easterly direction up the Rinchintong spur, then in an easterly direction to the Runumjhora. <i>East and South.</i> —The Runumjhora to the boundary of the Hill Cart Road location, then that boundary to a point on the Rinchintong spur.

The Lieutenant-Governor is pleased to appoint the Deputy Commissioner of Darjeeling to be the Forest Settlement Officer under the provisions of Chapter II of Act VII of 1878, for the purpose of enquiring into and determining the boundaries to be finally laid down and the existence, nature, and extent of any rights alleged to exist in favour of any person or persons in or over any land comprised within such boundaries, or in or over any forest produce to be found therein, and to deal with the same as by law provided.

H. H. RISLEY,  
Offg. Secy. to the Govt. of Bengal.

## [Second Publication.]

## NOTIFICATION.

*The 4th September 1885.*—The Lieutenant-Governor sanctions the addition of the following rule to the rules for the award of middle and primary scholarships, published in the Resolutions, dated the 7th January 1882 and 29th July 1882 :—

“No candidate will be eligible for a middle or upper primary scholarship who has not read for one year, reckoning back from the date of the examination, in the school from which he presents himself for examination.”

H. H. RISLEY,  
*Offg. Secy. to the Govt. of Bengal.*

## [Second Publication.]

## NOTIFICATION.

*The 8th September 1885.*—The following Notice to Mariners is published for general information.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

## NOTICE TO MARINERS—(No. 51.)

## INDIA—WEST COAST.

## BOMBAY PRESIDENCY.

*Re-exhibition of light from the Vengurla rocks.*

WITH reference to Notice to Mariners, No. 48, dated the 21st August 1885, on the exhibition of the Vengurla or Vingorla Port light, telegraphic information has been received from the Director of the Indian Marine, Bombay, that a light is now—and has been from the 1st September—shown from the summit of the Outer or Westernmost of the Vengurla rocks or Burnt Islands in lieu of that destroyed in the cyclone of June 1885.

Position of the Outer rock—Latitude  $15^{\circ} 53' N.$ , longitude  $73^{\circ} 27' E.$

*Note.*—Further notice relative to the new light will be given in due course.

By direction of the Government of Bengal,

EATON W. PETLEY, R.N.,  
*Offg. Port Officer of Calcutta.*

PORT OFFICE, Calcutta, the 7th September 1885.

## [Second Publication.]

## NOTIFICATION.

*The 8th September 1885.*—The following Notice to Mariners is published for general information.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

## NOTICE TO MARINERS.—(No. 52.)

## INDIAN OCEAN.

## CEYLON—WEST COAST.

## COLOMBO HARBOUR.

*Red light on break-water*

WITH reference to Notice to Mariners, No. 4, issued from this Department on the 19th February 1885, it is further notified by the Superintendent, Marine Survey of India, that owing to the incompleteness of the Break-water Works it has become necessary to exhibit the red light on the pier head, Colombo Harbour, and it will be continued to be shown as the works progress.

The light is distant 7 cables from the root of the Break-water with the following bearings :—

Colombo principal light (on Clock Tower at centre of Fort)	S $\frac{3}{4}$ W.
St. Thomas' Cathedral	... .. E $\frac{1}{4}$ N.
Dutch Church	... .. S E $\frac{1}{4}$ E.

*The Bearings are Magnetic.*

By direction of the Government of Bengal,

EATON W. PETLEY, R.N.,  
*Offg. Port Officer of Calcutta.*

PORT OFFICE, Calcutta, the 7th September 1885.

[Third Publication.]

## NOTIFICATION.

*The 31st August 1885.*—The following Notice to Mariners is published for general information.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS—(No. 50).

BAY OF BENGAL—CHITTAGONG COAST.

SOUTH PATCHES.

*Additional information concerning the breaking adrift of the Automatic Sound buoy.*

With reference to Notice to Mariners, No. 41, issued from this department on the 8th July 1885, the following additional information has been received:—

The Master of the British Steam Ship *Secundra* has reported that on the morning of the 21st August 1885, whilst on a passage from Bombay to Calcutta, he sighted the South Patches buoy adrift in latitude  $18^{\circ} 45' N$ , longitude  $87^{\circ} 40' E$ .

NOTE—This buoy is drifting fast to the westward, and vessels coasting down should keep a careful look out for the buoy.

By direction of the Government of Bengal,

EATON W. PETLEY, R.N.,  
*Offg. Port Officer of Calcutta.*

PORT OFFICE, Calcutta, the 27th August 1885.

## PART I A.

### Orders and Notifications by the Government of India, &c.

[Reprinted from the Gazette of India.]

The following order, issued by the Government of India, Legislative Department, is republished for general information.

F. B. PEACOCK,

Chief Secy. to the Govt. of Bengal.

#### NOTIFICATION.

Simla, the 11th September 1885.

No. 16.—The following Statutes are published for general information :—

#### THE EAST INDIA UNCLAIMED STOCK ACT, 1885.

##### ARRANGEMENT OF SECTIONS.

##### SECTION.

1. Short title.
2. Interpretation.

##### *Unclaimed Stock, &c., and Dividends.*

3. Unclaimed moneys arising from redemption of stock.
4. Unclaimed stock.
5. List of names from which stock transferred.
6. Mode of transfer.
7. Subsequent dividends on stock transferred.
8. Retransfer and payment to person showing title.
9. Three months' notice before retransfer or payment.
10. Advertisements before retransfer or payment.
11. Application to Court to rescind order.
12. Bank not responsible to second claimant. Order in favour of second claimant showing title.
13. Payment of unclaimed dividends to Secretary of State.
14. Investigation as to unclaimed stock or dividends.
15. Unclaimed stock in stock certificates and unclaimed coupons.
16. Indemnity to banks.

##### *Unclaimed East Indian Railway Annuity and Unclaimed Railway Debentures.*

17. Retransfer to Secretary of State of unclaimed East Indian Railway annuity.
18. Unclaimed railway debentures.
19. Claims by parties entitled.
20. Indemnity to railway companies.

##### *Miscellaneous.*

21. Exemption from stamp duty.
22. Deputy Government directors.
23. Issue of railway debentures to order or bearer.
24. Returns to Secretary of State.
25. Amendment of East Indian Railway (Redemption of Annuities) Act, 1881.

## 48 &amp; 49 VICT., c. 25.

*An Act for making provision for the transfer to the Secretary of State in Council of India of unclaimed India Stock and Dividends; and for amending the East Indian Railway Company Purchase Act, 1879, and the East Indian Railway (Redemption of Annuities) Act, 1881; and for other purposes.*

[16th July 1885.]

Be it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

Short title.

1. This Act may be cited as the East India Unclaimed Stock Act, 1885.

Interpretation.

2. In this Act, unless the context otherwise requires—

“Secretary of State” means the Secretary of State in Council of India.

“India stock” means and includes India five per cent stock, India four per cent. stock, India three-and-a-half per cent. stock, India three per cent. stock, East India four per cent. transfer loan, and any India stock from time to time raised in the United Kingdom and transferable at the Bank of England or Bank of Ireland.

“High Court” means Her Majesty's High Court of Justice in England, or, as the case may be, Her Majesty's High Court of Justice in Ireland.

“Bank of England” means the Governor and Company of the Bank of England, and includes their successors.

“Bank of Ireland” means the Governor and Company of the Bank of Ireland, and includes their successors.

“Government Director” includes any *ex-officio* or other director appointed by the Secretary of State.

“Indian Railway Company” means any railway company constructing or working railways in India.

“Person” includes a body of persons corporate or unincorporate.

*Unclaimed Stock, &c., and Dividends.*

3. (1) All principal sums of money which have become or may hereafter become payable to any holder of India stock, by reason of its redemption, and which have not been or shall not have been claimed for ten years or more, shall be paid to the Secretary of State; and all principal sums of money which have so become or may hereafter so become payable to any holder of India stock whereon dividend has not been or shall not have been claimed for ten years or more shall be paid to the Secretary of State.

(2) All such principal sums so paid may be applied by the Secretary of State as part of the revenues of India or otherwise as he may think fit, subject to the claims of the parties entitled thereto.

(3) For the purposes of this Act relating to the application of dividends and the claims of parties entitled, and consequent proceedings, such principal sums of money shall be deemed to be included in the term “stock,” and payment thereof in the term “transfer,” and repayment thereof in the term “retransfer.”

4. (1) All India stock whereon dividend has not or shall not have been claimed for ten years or more (except where payment of dividend has been restrained by a Court of Justice) shall be transferred in the books of the Bank of England, or (as the case may be) of the Bank of Ireland, to an account to be intituled “The Secretary of State in Council of India Unclaimed Stock Account,” to be held by the Secretary of State subject to the claims of the parties entitled thereto. The Bank of England, or (as the case may be) the Bank of Ireland, shall, during the six months next previous to such transfer, give notice in writing to the stockholder, at his registered address, of the impending transfer to the Secretary of State.

Unclaimed stock.

(2) In the event of any stock being redeemed while held by the Secretary of State under the foregoing enactment, the principal sums of money representing such stock shall, for the purposes of this Act relating to the application of dividends and the claims of parties entitled and consequent proceedings, be deemed to be included in the term “stock,” and repayment thereof in the term “retransfer.”

5. Immediately after every such transfer the name of the person in whose name the stock stood immediately before the transfer, the residence and description of such person, the amount transferred, and the date of transfer, shall be entered in a list to be kept for the purpose by the bank in whose books the stock stands.

List of names from which stock transferred.

A duplicate of such list shall be kept at the India office.

6. Every such transfer shall be made and signed by the Accountant-General or Deputy or Assistant Accountant-General or Secretary or Deputy or Assistant Secretary of the bank in whose books the stock stands at the time of transfer, and shall be as effectual to all intents as if signed by the person in whose name the stock was then standing.

Mode of transfer.

7. Where stock is transferred under this Act all dividends accruing thereon after the transfer shall be paid to the Secretary of State, and applied by him as part of the revenues of India, subject to the claims of the parties entitled thereto.

Subsequent dividends on stock transferred.

8. The Governor or Deputy Governor of the Bank of England or of Ireland may direct the Accountant-General or Deputy or Assistant Accountant-General or Secretary or Deputy or Assistant Secretary of that Bank to retransfer any stock transferred under this Act to any person showing his right thereto to the satisfaction of the Governor or Deputy Governor, and to pay the dividends due thereon, as if the same had not been transferred or paid to the Secretary of State.

Retransfer and payment to person showing title.

But in case the Governor or Deputy Governor is not satisfied of the right of any person claiming to be entitled to any such stock or dividends, the claimant may, by petition in a summary way, state and verify his claim in the Chancery Division of the High Court.

The petition shall be served on the Secretary of State, or on one of his Under-Secretaries, or on his Assistant Under-Secretary, at the India Office, and the court shall make such order thereon (either for retransfer of the stock to which the petition relates and payment of the dividends accrued thereon or otherwise), and touching the costs of the application, as to the court seems just.

All costs and expenses incurred by or on behalf of the Secretary of State in resisting or appearing on any such petition, if not ordered by the court to be paid out of the stock and dividends thereby claimed shall be paid by the Secretary of State out of the revenues of India.

Where any re-transfer or payment is made to any such claimant either with or without the authority of the Court, the Bank of England or of Ireland (as the case requires) shall give notice thereof to the Secretary of State, within three days after making the same.

9. Stock exceeding the sum of twenty pounds shall not be re-transferred from the Secretary of State under this Act, nor shall dividends exceeding twenty pounds in the whole be paid to a claimant under this Act, until three months after application made for the same, nor until public notice has been given thereof as in this Act provided.

Three months' notice before re-transfer or payment.

10. The Bank of England or of Ireland shall require the applicant to give such public notice as they think fit by advertisements, in the case of either Bank in one or more newspapers circulating in London and elsewhere, and in the case of the Bank of Ireland also in one or more newspapers circulating in Dublin and elsewhere in Ireland.

Advertisements before re-transfer or payment.

Every such notice shall state the name, residence, and description of the person in whose name the stock stood when transferred to the Secretary of State, the amount thereof, the name of the claimant, and the time at which the re-transfer thereof and payment of dividends will be made if no other claimant sooner appears and makes out his claim.

Where any such re-transfer or payment is ordered by the High Court the notice shall also state the purport of the order.

11. At any time before re-transfer of stock or payment of dividend as aforesaid to a claimant any person may apply to the Chancery Division of the High Court, by motion or petition, to rescind or vary any order made for re-transfer or payment thereof.

Application to Court to rescind order.

12. Where any stock or dividends having been re-transferred or paid as aforesaid to a claimant by either Bank is or are afterwards claimed by another person, the Bank and their officers shall not be responsible for the same to such other claimant, but he may have recourse against the person to whom the re-transfer or payment was made. Provided that if in any case a new claimant establishes his title to any stock or dividends re-transferred or paid to a former claimant, and is unable to obtain transfer or payment thereof from the former claimant, the Court shall, on application by petition by the new claimant, verified as the Court requires, order the Secretary of State to transfer to him such sum in stock, and to pay to him such sum in money for dividend, as the Court thinks just.

Bank not responsible to second claimant.

Order in favour of second claimant showing title.

Such transfer shall be made from stock transferred to the Secretary of State under this Act; and such money for dividend shall be paid out of the revenues of India.

13. Where any dividend accrued due on any sum of stock is not claimed for ten years or more, the dividend so unclaimed, and all dividends subsequently accrued due in respect of the same sum of stock and unclaimed, shall be paid to the Secretary of State.

Payment of unclaimed dividends to Secretary of State.

All such dividends shall be dealt with in like manner, as nearly as may be, as stock transferred to the Secretary of State under the foregoing provisions of this Act or the dividends accruing thereon after the transfer, as the case may require; and the foregoing provisions of this Act shall accordingly have effect in relation thereto, and to the application and payment of and claims to the same, as if the foregoing provisions of this Act were repeated and in terms made applicable thereto respectively.

Investigation as to unclaimed stock or dividends.

14. The Secretary of State may from time to time

empower the Bank of England or of Ireland to investigate the circumstances of any stock or dividends remaining unclaimed with a view to ascertain the owners thereof.

Unclaimed stock in stock certificates and unclaimed coupons.

15. All stock described in a stock certificate in respect of which no coupon is presented for payment for ten years or more shall be dealt with in like manner, as nearly as may be, as stock whereon dividend has not or shall not have been claimed for ten years or more.

Sums due and unclaimed on coupons shall be dealt with in like manner, as nearly as may be, as unclaimed dividends due in respect of stock.

16. The Banks of England and Ireland and their respective governors, deputy governors, and officers are hereby indemnified in respect of every transfer or re-transfer of stock or payment of dividends under this Act, and shall not be in any manner responsible to any person having or claiming any interest therein.

Indemnity to Banks.

#### *Unclaimed East Indian Railway Annuity and Unclaimed Railway Debentures.*

17. Whereas it is provided by section ten of the East Indian Railway Company Purchase Act, 1879 (in this section called the Purchase Act), that the annuity created by that Act (in this section referred to as the annuity) shall from time to time be paid by the Secretary of State to the East Indian Railway Company (in this section referred to as the Company), and shall be received and held by them for the purpose of distribution by them amongst the several persons entitled from time to time thereto under that Act, and shall not nor shall any part thereof at any time be paid or applied by the Company otherwise than for the purpose of such distribution:

And whereas at the time of the purchase of the East Indian Railway under the said Act the capital of the Company included a sum of twenty-three thousand eight hundred and eighty pounds capital stock in respect of which no person was registered in the books of the Company as the proprietor thereof, and the annuities representing the same now remain unpaid:

And whereas no distribution can at present be made of such unclaimed annuities, and it is expedient to authorise the Secretary of State to suspend payment of a portion of the annuity equal in amount to such unclaimed annuities:

And whereas it is also expedient to provide for the repayment by the Company to the Secretary of State of any annuities other than the said unclaimed annuities representing the said unclaimed capital stock already received by the Company which may remain in the hands of the Company unclaimed for ten years, and further to authorise the Secretary of State to suspend payment of a portion of the annuity equal in amount to such annuities so remaining unclaimed.

And whereas by section eighteen of the Purchase Act the Board of Directors of the Company were directed to divide the annuitants into two classes to be called respectively Class A and Class B, and provision was made by section twenty-three of the said Act for the creation of a sinking fund attached to annuities of Class B derived from the investment of certain deductions to be made from annuities of that class as thereby provided, and it is expedient that so much of the accumulations of the said sinking fund as may be attributable to unclaimed annuities should be repaid to the Secretary of State when the sinking fund shall be distributed according to the provisions of section twenty-five of the said Act:

And whereas it is expedient that the Purchase Act should be amended: It is hereby enacted as follows:—

- (1) Nothing in this section contained shall alter or affect the liability of the Company under the Purchase Act with regard to the moneys before the passing of this Act received by them in respect of the said unclaimed annuities representing the said sum of twenty-three thousand eight hundred and eighty pounds unclaimed capital stock of the Company.
- (2) The Secretary of State may henceforth suspend payment to the Company of a portion of the annuity equal in amount to the said unclaimed annuities representing the said sum of twenty-three thousand eight hundred and eighty pounds.
- (3) If and whenever any annuities (other than annuities before the passing of this Act paid by the Secretary of State to the Company in respect of the said unclaimed capital stock of the Company) shall have remained or shall remain after payment by the Secretary of State to the Company in the hands of the Company unclaimed for a period of ten years, such annuities shall be repaid to the Secretary of State by the Company less any sum by the Purchase Act authorised to be deducted by the Board of Directors of the Company in respect of the said sinking fund attached to annuities of the said Class B and in respect of expenses in relation to annuities of either class.

- (4) The Secretary of State may, after any such repayment, suspend payment to the Company of a portion of the annuity equal in amount to the annuities which have so remained unclaimed for such period of ten years: Provided that if there be comprised in any such unclaimed annuities any annuities of the said Class B, the Secretary of State shall, at the times and in the manner by the Purchase Act prescribed for payment of the annuity pay to the Company so much of such unclaimed annuities as represents the deduction by the Purchase Act authorised to be made by the said Board of Directors in respect of the said sinking fund attached to annuities of the said Class B.
- (5) Notwithstanding anything in this section contained, the Secretary of State shall continue to pay to the Company in respect of any annuities, the payment of which has been suspended, any sums which by the Purchase Act the Board of Directors of the Company are authorised to deduct from the annuities payable to the annuitants of both classes in respect of the expenses of the payment and management of the annuity.
- (6) The Board of Directors of the Company, when the time for division of the moneys representing the accumulations of the said sinking fund shall arrive, shall pay to the Secretary of State such part of such accumulations as may be represented by any annuities of the said Class B at that time unclaimed.
- (7) The Secretary of State shall hold any moneys representing unclaimed annuities at any time repaid to him by the Company and any moneys paid to him by the Board of Directors on the eventual division of the said sinking fund, and any annuities his obligation to pay which is under this Act at any time suspended, subject to the claim of any person who may at any time, in manner by this Act provided, establish his claim thereto, and subject to such claims the Secretary of State may apply such moneys as part of the revenues of India, or otherwise as he may think fit.
- (8) The Secretary of State shall be bound to indemnify the Company against all claims in respect of any moneys representing unclaimed annuities at any time repaid to him by the Company, and of any moneys paid to him by the Board of Directors of the Company, on the eventual division of the said sinking fund, and of any annuities his obligation to pay which is under this Act at any time suspended; and the remedy of any person claiming to be entitled to any such moneys or annuities shall be against the Secretary of State in manner by this Act provided, and not against the Company.
- (9) If and whenever any person claiming to be entitled to any moneys representing unclaimed annuities at any time repaid to the Secretary of State by the Company, or to any moneys paid to the Secretary of State by the Board of Directors of the Company on the eventual division of the said sinking fund, or to any unclaimed annuities the payment of which has under any provision of this Act been suspended, establishes his right thereto respectively to the satisfaction of the Secretary of State, the Secretary of State shall forthwith, free of all expense to the claimant, pay to such person the moneys to which he has so established his claim, and shall, if the claim be in respect of unclaimed annuities, give notice in writing to the Board of Directors of the Company that such claim has been so established, and thereupon the said Board shall enter the name of such claimant in the proper register of annuitants, and the obligation of the Secretary of State to pay to the Company the portion of the annuity representing the unclaimed annuities in question shall revive. But in case the Secretary of State is not satisfied of the right of any person claiming to be entitled to any such moneys or unclaimed annuities, as the case may be, the claimant may, by petition in a summary way, state and verify his claim in the Chancery Division of Her Majesty's High Court of Justice, and the Court shall make such order thereon declaring the claimant entitled or not entitled to any such moneys or unclaimed annuities as the case may require, and touching the costs of the application as to the Court seems just, and upon any such order of the Court in favour of any claimant he shall be entitled to the same rights in respect of the moneys or unclaimed annuities claimed by him as if he had established his right thereto to the satisfaction of the Secretary of State as in this sub-section before mentioned. All costs and expenses incurred by or on behalf of the Secretary of State in resisting or appearing on any such petition, if not ordered by the Court to be paid out of any moneys claimed or otherwise, shall be paid by the Secretary of State out of the revenues of India.
- (10) The Secretary of State shall require the applicant to give such public notice as the Secretary of State thinks fit by advertisement in one or more newspapers circulating in London and elsewhere, and such notice shall contain such particulars as the case requires and as the Secretary of State directs.

- (11). At any time before repayment of any moneys to any claimant or the entry of his name in either register of annuitants, any person may apply to the said Division of the Court, by motion or petition, to rescind or vary any order made for payment or entry. If in any case a new claimant establishes his right to any moneys repaid to the former claimant, or to any annuities in respect of which any former claimant has been entered in either register of annuitants as the holder thereof, and such new claimant is unable to obtain repayment of such moneys from the former claimant, or to procure the entry of his name in the proper register as the holder of any such annuities, the said Division of the Court shall, on application by petition by the new claimant, verified as the Court requires, order the Secretary of State to pay to such new claimant the sum of money to which he has established his claim, or to purchase for him annuities of the class to which he has established his claim, or (if such new claimant consent) to give him the current value of such annuities in India stock. All moneys which the Court may order the Secretary of State to pay to or on behalf of any such new claimant shall be paid out of the revenues of India.

18. All sums of money already paid or which shall hereafter be paid by the Secretary of State to any Indian railway company for the discharge of any debentures, either before or after the passing of this Act, issued or authorised to be issued under his guarantee, in respect of which no claim has or shall have been made for one year or more after such payment by any party thereto entitled, shall (whether any person is or is not registered as entitled thereto) be repaid to the Secretary of State.

The said sums so repaid to the Secretary of State may be applied by him as part of the revenues of India or otherwise as the Secretary of State may think fit, subject to the claims of the parties entitled thereto.

19. Where any person claims to be entitled to any sum repaid to the Secretary of State under the last preceding section, the Secretary of State may, on such person showing his right thereto to the satisfaction of the Secretary of State, pay such sum to such person; but in case the Secretary of State is not satisfied of the right of such person, then the person claiming to be entitled to any sum repaid to the Secretary of State may state and verify his claim by petition in the Chancery Division of the High Court in England in a summary way in manner provided by this Act with respect to petitions for stock or dividends; and the provisions of this Act with regard to such petitions and the proceedings consequent thereon shall, with any necessary modifications, apply to claims under this section.

20. Where any sum is retained by or repaid to the Secretary of State in respect of unclaimed annuity or unclaimed debentures as by this Act provided, the respective railway companies shall be and hereby are indemnified in respect thereof, and shall not be in any manner responsible to any person having or claiming any interest therein.

#### Miscellaneous.

21. No stamp duty shall be paid or chargeable in respect of the transfer of any stock or annuity to or from the Secretary of State pursuant to the provisions of this Act.

22. Whereas provision has been made for the appointment of a Government director by the Secretary of State on the Boards of certain Indian railway companies; and in some cases the Secretary of State is empowered to appoint a person to represent the Government director at Board meetings and otherwise; and it is expedient that in all cases the Secretary of State should have such power: It is hereby enacted as follows:

It shall be lawful for the Secretary of State, in the case of any Indian railway company, where under his contract with that company he has the power to appoint a Government director but not a person to represent him, from time to time to appoint a person to represent the Government director in his absence at the Board of any such Indian railway company, and any deputy so appointed shall have and may exercise (subject to any regulations of the Secretary of State) all or any of the powers of the Government director.

23. (1) Notwithstanding any provision in any Act of Parliament or deed of settlement or other instrument founding or regulating a company to the contrary, it shall be lawful for any Indian railway company, from time to time, with the sanction of the Secretary of State, and subject to such regulations and conditions as he may think fit to impose,—

- (a) to issue debenture bonds payable to bearer, which shall be negotiable by delivery;
- (b) to issue debenture bonds payable to order, which shall be negotiable by endorsement of the holder;
- (c) to issue debenture bonds payable in rupee currency;
- (d) to make provision for the exchange of debenture bonds on the application of the holder for debenture bonds of any other form or kind issued by the company.

(2) This section does not confer any additional or further borrowing powers on any Indian railway company, but applies only to the mode of exercise of borrowing powers conferred independently of this Act.

(3) Trustees (unless expressly authorised by the terms of their trust to hold securities payable to bearer) may not hold debenture bonds payable to bearer issued under this section.

24. For all or any of the purposes of this Act the Secretary of State may require any railway company to which this Act applies to furnish such returns and give such information as he may think expedient.

Returns to Secretary of State

44 and 45 Vict., c. 53.

42 and 43 Vict., c. cxxi.

Amendment of 44 and 45 Vict., c. 53.

25. Whereas provision has been made by the East Indian Railway Redemption of Annuities Act, 1881 (in this section referred to as the Redemption Act), for the redemption by the Secretary of State of annuities comprised in the annuity created by the East Indian Railway Company Purchase Act, 1879 (in this section referred to as the Purchase Act); and whereas the provisions of the Redemption Act are inapplicable to such of the said annuities as are annuities of the said Class B in section seventeen of this Act referred to, and it is expedient to make provision applicable to the redemption of such annuities, and also for the redemption of annuities of a similar character which have been or may be created for the purchase of Indian Railways:

And whereas under certain contracts made with divers Indian railway companies before the passing of the Redemption Act, the Secretary of State is enabled on terms therein specified to purchase their undertakings either for a capital sum or by means of the creation and grant of an annuity; and whereas the power to create such annuities constitutes a liability contingently chargeable, though not actually charged, on the revenues of India at the date of the passing of the said Act; and whereas it is expedient that the provisions of the Redemption Act should apply to such annuities as and when created: It is hereby enacted as follows:

(1) When the Secretary of State redeems any annuities of the said Class B, he shall be liable in respect of his holding from time to time to contribute rateably\* with other annuitants to the sinking fund attached to annuities of the said Class B; and in other respects he shall be liable to, and shall have the benefit of, the provisions of sections forty-nine and fifty of the Purchase Act, and on the distribution of the sinking fund attached to annuities of the said Class B, he shall be entitled to receive such share of the sum then distributed as may be attributable to any annuities so redeemed; and any sums which he may contribute to the sinking fund created by the Purchase Act which may be attributable to any annuities redeemed by him shall (by reason of his contribution to the sinking fund) be deemed to have been invested in accordance with the provisions of section two of the Redemption Act, notwithstanding that they have not been set aside and invested in manner directed by section fifty-one of the Purchase Act; and the provisions of the foregoing enactment shall, with any necessary modifications, apply to any annuities similar to the annuities of the said Class B under the Purchase Act which have been or may be created for the purchase of any Indian railway.

(2) Section two of the Redemption Act shall be construed and have effect as if the words "now charged or contingently chargeable" were substituted therein for the words "now charged," so as to apply to any annuity which the Secretary of State has created or may create under any of the contracts above referred to.

### THE EAST INDIA LOAN (£10,000,000) ACT, 1885.

#### ARRANGEMENT OF SECTIONS.

48 &amp; 49 VICT., c. 28.

*An Act to enable the Secretary of State in Council of India to raise Money in the United Kingdom for the service of the Government of India.*

[22nd July 1885.]

WHEREAS the exigencies of the public service in India require that the Secretary of State in Council of India should be enabled to raise money in the United Kingdom on the credit of the revenues of India:

Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords, Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. It shall be lawful for the Secretary of State in Council of India, at any time or times after the passing of this Act, to raise in the United Kingdom, for the service of the Government of India, any sum or sums of money not exceeding in the whole ten millions of pounds sterling, such sum or sums to be raised by the creation and issue of bonds, debentures, or capital stock bearing interest, or partly by one of such modes, and partly by another or others.

Power to the Secretary of State in Council of India to raise any sum not exceeding 10,000,000*l.*

2. All bonds issued under the authority of this Act may be issued under the hands of two members of the Council of India, and countersigned by the Secretary of State for India, or one of his Under-Secretaries, or his Assistant Under-Secretary, and shall be for such respective amounts payable after such notice, and at such rate or rates of interest, as the said Secretary of State in Council may think fit.

As to issue of bonds.

3. All debentures issued under the authority of this Act may be issued under the hands of two members of the Council, and countersigned as aforesaid, for such respective amounts, and at such rate or rates of interest, as the Secretary of State in Council may think fit, and shall be issued at or for such prices and on such terms as may be determined by the Secretary of State in Council.

As to issue of debentures.

4. All debentures issued under the authority of this Act shall be paid off at par at a time or times to be mentioned in such debentures respectively; and the interest on all such debentures shall be paid half-yearly on such days as shall be mentioned therein; and the principal moneys and interest secured by such debentures shall be payable either at the treasury of the Secretary of State in Council in London or at the Bank of England.

As to payment of principal and interest on debentures.

5. All or any number of the debentures issued under the authority of this Act, and all right to and in respect of the principal and interest moneys secured thereby, shall be transferable by the delivery of such debentures; and the coupons for interest annexed to any debenture issued under the authority of this Act shall also pass by delivery.

Debentures and coupons for interest transferable by delivery.

6. Any capital stock created under the authority of this Act shall bear such a rate of interest as the Secretary of State in Council may think fit; and such capital stock may be issued on such terms as may be determined by the Secretary of State in Council; and any such capital stock may bear interest during such period, and be paid off at par at such time as the Secretary of State in Council may prescribe previously to the issue of such capital stock.

Capital stock may be created and issued.

7. In case of the creation and issue of any such capital stock there shall be kept, either at the office of the Secretary of State in Council in London or at the Bank of England, books wherein entries shall be made of the said capital stock, and wherein all assignments or transfers of the same, or any part thereof, shall be entered and registered, and shall be signed, by the parties making such assignments or transfers, or, if such parties be absent, by his, her, or their attorney or attorneys thereunto lawfully authorised by writing under his, her, or their hands and seals, to be attested by two or more credible witnesses; and the person or persons to whom such transfer or transfers shall be made may respectively under-write his, her, or their acceptance thereof; and no other mode of assigning or transferring the said capital stock or any part thereof, or any interest therein, shall be good and available in law, and no stamp duties whatsoever shall be charged on the said transfers or any of them.

Transfer books of such capital stock to be kept.

Amount charged on revenues of India not to exceed 10,000,000*l.*

8. The whole amount of the principal moneys to be charged on the revenues of India under this Act shall not exceed ten millions.

9. Upon or for the repayment of any principal money secured under the authority of this Act, the Secretary of State in Council may at any time borrow or raise, by all or any of the modes aforesaid, all or any part of the amount of principal money repaid or to be repaid, and so from time to time as all or any part of any principal money under this Act may require to be repaid, but the amount to be charged upon the revenues of India shall not in any case exceed the principal moneys required to be repaid.

\* Power to raise money for payment of principal money.

10. All bonds and debentures to be issued under this Act, and the principal moneys and interest thereby secured, and all capital stock to be issued under this Act, and the interest thereon, shall be charged on and payable out of the revenues of India, in like manner as other liabilities incurred on account of the Government of India.

11. The provisions contained in section four of the Act of the session holden in the fifth and sixth years of King William the Fourth, chapter sixty-four, with respect to the composition and agreement for the payment by the East India Company of an annual sum in lieu of stamp duties on their bonds, and the exemption of their bonds from stamp duties, shall be applicable with respect to the bonds and debentures to be issued under the authority of this Act, as if such provisions were here repeated and re-enacted with reference thereto.

12. All provisions now in force in any wise relating to the offence of forging or altering, or offering, uttering, disposing off, or putting off, knowing the same to be forged or altered, any East India bond, with intent to defraud, shall extend and be applicable to and in respect of any debenture or bond issued under the authority of this Act.

13. This Act shall not prejudice or affect any power of raising or borrowing money vested in the said Secretary of State in Council at the time of passing thereof.

14. Any capital stock created under this Act shall be deemed to be East India stock, within the Act of the twenty-second and twenty-third Victoria, chapter thirty-five, section thirty-two, unless and until Parliament shall otherwise provide; and any capital stock created under this Act shall be deemed to be and shall mean India stock within the Act of the twenty-sixth and twenty-seventh Victoria, chapter seventy-three, anything in the said last-mentioned Act to the contrary notwithstanding.

## ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

### MUNICIPAL AND LOCAL:

#### NOTIFICATION.

*The 3rd September 1885.*—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers vested in the Local Government by section 11 of the Bengal Municipal Act III (B.C.) of 1884, to sanction the union of the village of Mahomedpore with the Municipality of Barh in the district of Patna, unless good reasons are shown to the contrary within one month from the date of the publication of this notification. The boundaries of the said village of Mahomedpore are as follow:—

- North.*—River Ganges.
- South.*—Barh Municipality.
- West.*—Arable land of Nowada.
- East.*—Dhibar.

The boundaries of the Barh Municipality, after the union with it of the village of Mahomedpore, shall be as follow:—

- North.*—The Ganges.
- South.*—The road from Barh to Pundarakh; the Koila Ghât Road; the Chameli Bagh Road; the Barh and Bakhtiarpore Road and village Langarpore.
- East.*—Village Dhibar.
- West.*—The Ganges.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

#### NOTIFICATION.

*The 4th September 1885.*—It is hereby notified for general information that an election will be held under section 27, Act III (B.C.) of 1884, on the 31st October next, in Wards Nos. III and IV of the Sakhira Municipality in the district of Khoolna, for the purpose of filling up the vacancies in the place of the following gentlemen who have resigned:—

Baboo Purna Chundra Roy. | Baloo Upendra Nath Mookerjee.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

#### NOTIFICATION.

*The 4th September 1885.*—It is hereby notified for general information that an election will be held, under section 27, Act III (B.C.) of 1884, on the 31st October next, in Ward No. IV of the Baduria Municipality, in the district of the 24-Pergunnahs, for filling up the vacancy caused by Baboo Trailako Nath Nag Chowdhury, who has ceased to be a Commissioner.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 5th September 1885*—Whereas a notification was published at page 485, Part I of the *Calcutta Gazette* of the 27th May 1885, declaring the Lieutenant-Governor's intention to extend the provisions of Act IV (B.C.) of 1865 (an Act for the prohibition of the practice of inoculation) to the sub-division of Beguserai, in the district of Monghyr, and whereas no objection has been raised to the proposed measure, the Lieutenant-Governor, in the exercise of the powers conferred on him by section 3 of the said Act, directs the extension of the provisions of the Act to the said sub-division with effect from the 1st October next.

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 8th September 1885*.—It is hereby notified for general information that in exercise of the powers conferred on him by section 86 of the Bengal Municipal Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Saheb-gunge Municipality made at a meeting, the Lieutenant-Governor intends to sanction the levy by the Commissioners, under section 131 of the Act, of a tax on carriages, horses and other animals mentioned in the fifth schedule of the Act, and under section 143 of the Act, of a fee, not exceeding Rs. 4 per annum, on the registration, under section 142, of all carts kept or habitually used within the Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 8th September 1885*.—It is hereby notified for general information that an election will be held under section 27, Act III (B.C.) of 1884, on the 31st October next, in ward IV of the Joynagore Municipality, in the district of the 24-Pergunnahs, for the purpose of filling up the vacancy caused by the resignation of Baboo Hem Chundra Banerjee.

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 8th September 1885*.—It is hereby notified that, under section 27 of Act III (B.C.) of 1884, the Lieutenant-Governor has been pleased to appoint Baboo Umesh Chundra Ghose to be a Commissioner of the Rajpore Municipality in the district of the 24-Pergunnahs *vice* Baboo Nobin Chund Ghose (senior), deceased.

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 8th September 1885*.—It is hereby notified for general information that, in the exercise of the powers conferred on him by section 351 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the Rampore Beaulah Municipality, made at a meeting, the Lieutenant-Governor is pleased to confirm the following additional bye-laws framed by the Commissioners of the said Municipality under section 350 of Act III (B.C.) of 1884.

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

## BYE-LAWS.

19a. Within the area of the Municipality of Beaulah, bounded on the north by the Rancebazar road, on the south by the river Pudma, on the east by drain No. 1, and on the west by the Pathanpara road, the external roofs of huts or other buildings which may be hereafter erected, or the roof of which may be hereafter renewed or thoroughly repaired, shall not be made of grass or leaves, mats or other inflammable materials.

Any person infringing this bye-law shall be liable to a penalty not exceeding Rs. 20, and a daily fine not exceeding Rs. 5 for continued infringement.

19b. Within the limits of the Beaulah Municipality, the external roofs of existing huts, walls or other buildings, when such roofs are made of grass, leaves or other inflammable materials, shall be kept plastered with mud from the 1st February to 31st of May.

Penalty for infringement not exceeding Rs. 20, and Rs. 2 per day for continued infringement.

32a. Any corpse, or part of a corpse, brought for cremation into any of the burning-ghats within the limits of the Municipality shall, so far as may be possible in a manner consistent with the religious tenets of the deceased, be completely burnt to ashes.

Penalty for infringement a sum not exceeding Rs. 10.

## NOTIFICATION.

*The 8th September 1885.*—It is hereby notified for general information that, in the exercise of the powers vested in the Local Government by section 85, Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Sahebgunge Municipality, in the district of the Sonthal Pergunnahs, made at a meeting, the Lieutenant-Governor intends to sanction the imposition by the Commissioners, under section 85(b) of the Act, of a rate on the annual value of holdings situated within the Municipality, in lieu of, the tax upon persons, at present levied, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

J. WARE EDGAR,  
Offg. Secy. to the Govt. of Bengal.

## NOTIFICATION.

*The 8th September 1885.*—It is hereby notified that under clause b, section 6, of Act I (B.C.) of 1885, the Lieutenant-Governor is pleased to declare the undermentioned ferries, in the district of Mymensingh, to be public ferries.

**NOTICE** is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the district of Nuddea, will be put up to sale at the Nuddea Collectorate on Monday, the 28th of September 1885, corresponding with 13th Ashvin 1292.

The purchasers will be subject to the following conditions of sale—

*Conditions of Sale.*

**1st.**—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

**2nd.**—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

**3rd.**—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

**4th.**—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of the sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

## Crystalline Cinchona Febrifuge.

**A** NEW and improved preparation made at the Government Factory from Med Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists\* at Rs. 32 per pound. Postage twelve annas extra.

### Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the following rates:—per four ounce tin, Rs. 4 ans. 8; per eight ounce tin, Rs. 8 ans. 8; per pound tin, Rs. 16 ans. 8. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, at the undernoted rates:—per four ounce tin, Rs. 5 ans. 8; per eight ounce tin, Rs. 10 ans. 8; per pound tin, Rs. 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

### Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Augrahyān 1292 B.S., and continue up to the 3rd January 1886. Tradesmen dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

IN pursuance of section 42, Act XXVIII of 1866, notice is hereby given that all persons having claims against the estate of James Inglis, late of Dilkoosha tea estate, Cachar, tea-planter, who died on the 18th day of February 1885, should send in their claims to the undersigned on or before the 1st December 1885, after which date no claims will be admitted, and the assets of the estate will be distributed.

ALFRED SPICER,

Pathacherra Tea Estate, Udarbund, Cachar,  
one of the executors of the abovenamed deceased.  
25th August 1885. (533—3)

IN pursuance of section 77 of Act V of 1881, notice is hereby given that all parties having claims against the estate of the late Bridget Newhouse, who died on the 10th May 1885 at Salamarpore in the district of Jessore, and probate of whose will was granted on the 21st July by the Jessore Court, should send in particulars of the same to the undersigned within one month from this date, after which no claims will be admitted.

ELIZABETH C. NEWHOUSE, executrix.

ALEXANDER H. NEWHOUSE, executor.

Salamarpore, Kotechandpore P. O., the  
1885. (525—4)

WANTED one Overseer on a salary Rs. 35 and horse allowance of Rs. 15, and a Draftsman on Rs. 25. The candidates for the post of Overseer should possess the qualification of an Overseer of the Public Works Department, and those for the post of the Draftsman should possess a fair knowledge of English and good knowledge of drawing. Applications with copies of testimonials will be received by the undersigned before the 25th of September. Candidates are requested to apply in their own handwriting and with specimens of drawing and printing.

N. G. BANERJEE, Dist. Engr. of Bankoora.  
(532—3)

### Wanted

A DRAFTSMAN for the office of the District Engineer, Chittagong. He must be able to make out plans for land surveys and buildings, also to assist the office in fairing out letters and checking calculations of estimates. Pay Rs. 40 per month. (347—2)

N. G. CHOWDRY, C.E.,  
District Engineer, Chittagong.

### Calcutta Port Trust.

#### GUARANTEED DEBENTURE LOAN, 1885.

*The Calcutta Port Improvement Act, V of 1870 (B.C.), and the amending Acts, and the Act to enable the Commissioners for making Improvements in the Port of Calcutta to construct Docks at Kidderpore, Act II (B.C.) of 1885. Issue of seventy-five lakhs of Rupees, 4½ per cent. debentures, having a currency of not less than forty years. Interest guaranteed by the Secretary of State for India in Council until such time as the loan is repaid.*

TENDERS are invited for a loan of seventy-five lakhs of rupees at 4½ per cent. interest upon debentures to be issued under the provisions of Act II (B.C.) of 1885 to provide for the construction, equipment, maintenance, and management of the docks at Kidderpore, such loan having been sanctioned by His Honor the Lieutenant-Governor of Bengal with the previous sanction of the Governor-General in Council by notification published in the *Calcutta Gazette* of the 22nd July 1885, Part I, page 717, the payment of interest thereon being secured by the guarantee of the Secretary of State for India in Council until such time as the loan is repaid.

The debentures will be for sums of Rs. 100 each, or multiples of Rs. 100, as may be desired, made payable to order, and carrying interest at the rate of 4½ per cent. per annum, payable half-yearly, on the 1st day of January and 1st day of July at the office of the Port Commissioners upon presentation of the debentures. Twenty-five per cent. of the amount tendered for to be paid on 1st October, 25 per cent. on 1st November, and the balance on 1st December 1885, into the Bank of Bengal. Any allotment may, however, be paid in full at the option of the tenderer upon receipt of letter of allotment, and interest will run on such payments from the date of the Bank's receipts. The Bank of Bengal's receipts for the payments should be forwarded to the Port Commissioners, who, upon the receipt of the acknowledgment for the final instalment, will issue the debentures for the amount allotted in such sums as the holders of the receipts may desire. Arrangements will be made, if required, to encase debentures issued under this loan for payment of interest in England by drafts on India.

Tenders in the prescribed form should be filled up and forwarded in sealed covers superscribed "Tender for Port Trust Dock Loan, 1885," to the Secretary to the Port Commissioners before noon of Wednesday, the sixteenth day of September 1885, accompanied by either Government Promissory Notes equal in value to, or a receipt from the Bank of Bengal for, 2 per cent. upon the amount of each debenture applied for.

The deposit of 2 per cent. will be returned if an allotment is not made, and it will be forfeited if an allotment after being made is not fully taken up.

In case a less number of debentures is allotted than is applied for, the excess of the deposit will be applied in or towards payment of the balance due upon such number as may be allotted.

The tenders will be opened in the presence of the Port Commissioners. The minimum rate at which tenders will be accepted will be recorded under the signature of the Chairman and before the tenders are opened, but will not be made public unless some tender is rejected only because it is below the recorded minimum.

Forms of tender can be obtained on application to the Secretary to the Port Commissioners, and the form of debenture can be seen at the office of the Secretary. A separate tender must be made for each rate.

R. A. DONNITHORNE, Secretary.

Port Commissioners' Office, dated 23rd July 1885.  
(416—5)

### For Sale.

Lohardugga.  
Ranchi, the 24th August 1885. (526—4)

## Debenture Loan.

## RUPEES 2,82,000 BEARING INTEREST AT 6 PER CENT. PER ANNUM.

UNDER section 209 of (Madras) Act I of 1884, the Governor in Council of Fort St. George has given sanction, in Government Order, Financial Department, dated 3rd September 1885, No. 458M, for a Debenture Loan of Rs. 2,82,000 on the security of the rates and taxes levied under the said Act. The Municipal Commissioners are, therefore, prepared to receive tenders for this loan, which will be expended in carrying out the drainage project in Black Town.

2. Debentures will be issued for the said amount, bearing interest at the rate of 6 per cent. per annum, payable half-yearly on the 15th April and 15th October of each year, and having a currency of thirty years.

3. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs. 100, or some multiple of Rs. 100.

4. Tenders for the whole or any part of the above-named sum of Rs. 2,82,000 will be received by the President of the Municipal Commission up to noon on October 1st, 1885.

5. Each tender should be in the form hereto annexed and enclosed in a sealed cover, superscribed "Tender for Municipal Loan, 1885," and sent to the Municipal Office addressed to "The President, Municipal Commission, Madras."

6. The tenders will be opened by the President at the Municipal Office at noon on the 1st October 1885, a minimum rate, below which no tenders will be accepted, having first been fixed by the President.

7. Parties tendering must pay direct to the President or into the Bank of Madras to the credit of the Municipal Fund a sum equivalent to two per cent. of the amount tendered. If the deposit be paid into the Bank of Madras the Bank's receipt must be forwarded with the tender.

8. If the tender be accepted the deposit will be taken in part payment, but it will be forfeited if, after the acceptance of the tender, the allotment is not fully paid up on or before the 15th October 1885.

9. Debentures will be issued as soon as possible after receipt of the amount of allotment.

10. The deposit on tenders which may not be accepted will be returned on application.

11. In the case of two or more tenders at the same rate (not being below the minimum), a *pro rata* allotment will, if necessary, be made.

12. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

13. In order to avoid mistakes, a separate tender must be made at each rate tendered, and a separate deposit, must accompany each tender.

14. The annual income from the rates and taxes, which will form the security for the loan, amounts to Rs. 7,90,000. Loans which have already been raised on the same security are as follow:—

	Annually.	
	Rs.	
Water Works Loan of 1869, Rs. 14,30,000, interest at 4 per cent., payable to Government.	57,200	Repayable in 50 years by a sinking fund at 2 per cent.
Market Loan of 1879, Rs. 20,000, interest at 6 per cent., payable to debenture-holders	1,200	Repayable in 30 years by a sinking fund at 2 per cent. with compound interest.
Water Works Loan of 1882, Rs. 2,50,000, interest at 5 per cent., payable to debenture-holders.	12,500	Ditto ditto.
Drainage Loan of 1882, Rs. 1,00,000, interest at 5 per cent., payable to debenture-holders.	5,000	Ditto ditto.
Drainage Loan of 1883, Rs. 3,00,000, interest at 5 per cent., payable to debenture-holders.	15,000	Ditto ditto.
Drainage Loan of 1885, Rs. 18,000, interest at 5 per cent., payable to debenture-holders.	900	Ditto ditto.
Total	91,800	

Municipal Office, Madras,  
3rd September 1885.

G. T. MACKENZIE,  
President.

## FORM OF TENDER.

I hereby tender for Rs. \_\_\_\_\_ of the loan advertised in the notification of the President of the Madras Municipality, dated 3rd September 1885, and agree to pay the same, subject to the conditions notified, at the rate of Rs. \_\_\_\_\_ for every Rs. 100 allotted to me. I enclose (a cheque, currency notes, or the bankers' receipt for) Rs. \_\_\_\_\_, being 2 per cent. on the amount of my tender, and engage, if my offer be accepted, to pay to the account of the Municipal Fund in the Bank of Madras the sum allotted to me on or before the 15th October 1885.

\_\_\_\_\_, Signature.  
\_\_\_\_\_, Address.

## FORM OF DEBENTURE.

MADRAS MUNICIPAL SIX PER CENT. LOAN OF 1885.  
The Municipal Commissioners for the City of Madras.

No.

By virtue of the City of Madras Municipal Act, I of 1884, we, the Municipal Commissioners for the City of Madras, incorporated under the said Act, in consideration of the sum of Rs. \_\_\_\_\_ paid to us by \_\_\_\_\_, promise to pay to the said \_\_\_\_\_, or order, the sum of ( \_\_\_\_\_ ) thirty years after the date hereof, together with interest on ( \_\_\_\_\_ ) at the rate of six per centum per annum, payable half-yearly on the 15th day of October and on the 15th day of April.

For the Municipal Commissioners for the City of Madras.

\_\_\_\_\_, President.  
\_\_\_\_\_, Commissioner.  
\_\_\_\_\_, Commissioner.

N.B.—This Debenture is transferable by endorsement, which must be made in the following form:—

I, A.B., of \_\_\_\_\_, do hereby transfer to C.D., of \_\_\_\_\_, the Debenture Bond issued by the Municipal Commissioners for the City of Madras to the amount of Rs. \_\_\_\_\_ and standing in my name, to hold unto the said C.D., his executors, administrators, representatives, or assigns, subject to the conditions on which I hold the same at the time of the execution thereof.

Dated the \_\_\_\_\_ day of \_\_\_\_\_

No transfer will be effectual until the endorsement has been registered in the office of the Commissioners. (560—3)

**Notice under section 7, Regulation V of 1799.**

IN THE COURT OF THE DISTRICT JUDGE OF SYLHET, THE 3RD SEPTEMBER 1885.

In the matter of ROBERT BAILLIE of Kajinicherra, Sylhet, deceased.

WHEREAS the aforesaid Robert Baillie of Kajinicherra, in the district of Sylhet, died on the 30th August last, and it is not known whether he left a will, or whether he has heirs, notice is hereby given that any person claiming to be heir of the said deceased, or entitled to receive charge of his effects, do attend at this court on or before the 3rd October next, to establish his claim.

(565-1) J. POSFORD, Offg. Dist. Judge.

**In the High Court of Judicature at Fort William in Bengal.**

ORDINARY ORIGINAL CIVIL JURISDICTION.

In the matter of the Indian Companies Act, 1882, and in the matter of the Hooghly River and Coasting Steam Navigation Company, "Limited."

NOTICE is hereby given that a list of the persons admitted to be creditors of the abovenamed Company may be inspected at the office of Arthur Louis Bonnaud, the liquidator of the said Company, situate at No. 106, New China Bazar, Calcutta, on any day during business hours. Any person who claims to be a creditor of the said Company, and who is not entered on the said list, and claims to be so entered, must, on or before the 9th day of October 1885, send in his name and address, and the particulars of his claim to the said liquidator, or in default thereof, he will be excluded from the benefit of any distribution of the assets of the said Company.

Dated this 10th day of September 1885.

By order,

R. BELCHAMBERS Registrar.

Sanderson & Co., Attorneys for the Liquidator.

(567-1)

**Notification.**

TO be peremptorily sold by the Registrar of the Calcutta High Court in his sale room in the Court-house on Saturday, the 19th of September 1885, at the hour of 12 o'clock at noon, pursuant to a decree and order of the said Court made in suit No. 512 of 1884 between Kally Doss Seal and Nobin Chunder Doss, and dated respectively the 8th day of January 1885 and 10th day of August 1885 the following property:—

All that brick built messuage or dwelling-house, together with the piece of land whereon the same is erected, containing by estimation 4 cotahs 14 chittacks and 14 square feet, be the same a little more or less; annual rent payable to the Collector is rupee one annas six and pie one, situate at and being holding No. 482 in block VII, southern division, and premises No. 5, Muddon Dutt's Lane, in the town of Calcutta, and bounded on the south by the tenanted land of Tariney Churn Bannerjee; on the north by the tenanted house of Bhobhun Mohun Bural; on the east by the dwelling-house of Bhurnt Chunder Doss; and on the west by the said Muddon Dutt's Lane.

The abstract of title and conditions of sale may be seen at the office of the said Registrar and at the office of Messrs. Ghose and Ghose, attorneys for plaintiff, at No. 12, Old Post Office Street, in Calcutta, on any day before the sale, and will be produced at the said sale.

R. BELCHAMBERS, Registrar.

Ghose and Ghose, Plaintiff's Attorneys.  
Calcutta, High Court, Original Jurisdiction, the 15th August 1885. (571-1)

**Tukvar Company, "Limited."**

NOTICE is hereby given that the Ordinary Half-yearly General Meeting of Shareholders of this Company will be held at the registered office, No. 4, Mangoe Lane, on Wednesday, the 23rd instant, at 12 o'clock noon, for the purpose of receiving the Directors' report, passing the accounts for the half-year ended 30th June 1885, and transacting such other business as may be brought before the meeting.

By order of the Board,

WILLIAMSON, MITGOR & Co., Secretaries.  
Calcutta, 11th September 1885. (566-2)

**Goosery Jute Mills Company, "Limited."**

NOTICE is hereby given that at a duly convened Extraordinary General Meeting of Shareholders of said Company, held at the registered office, No. 6, New China Bazar, Calcutta, on Monday, 7th September 1885, at 4 o'clock, the following extraordinary resolutions were carried unanimously:—

1.—"That it has been proved to the satisfaction of the Company that the Company cannot, by reason of its liabilities, continue its business, and that it is advisable to wind-up the same, and that the same be wound-up accordingly."

2.—"That James Webster be, and hereby is, appointed liquidator of the Company upon such remuneration as may be hereafter determined, and the said liquidator shall have and exercise all the powers given by the general clauses of section 144 of the Indian Companies Act, 1882."

By order of the Directors,

JAMES WEBSTER, Secretary.

Calcutta, the 7th September 1885.

(561-1)

**India General Steam Navigation Company, "Limited."**

NOTICE is hereby given that the Ordinary Half-yearly General Meeting of Shareholders of the above Company will be held at the registered office of the Company, No. 4, Fairlie Place, Calcutta, on Thursday, the 24th day of September 1885, at noon.

By order of the Directors,

J. GILLMAN, Offg. Secy.

Calcutta, the 9th September 1885.

(564-2)

**India General Steam Navigation Company, "Limited."**

NOTICE is hereby given that an Extraordinary General Meeting of Shareholders of the above Company will be held at the registered office of the Company, No. 4, Fairlie Place, Calcutta, on Wednesday, the 16th day of September 1885, at 3 o'clock in the afternoon, to confirm the following resolutions passed at the Extraordinary General Meeting of Shareholders held on Monday, the 24th day of August 1885:—

**RESOLUTIONS.**

1st.—"That the Directors be, and they are hereby, authorized to increase the capital of the Company to rupees seventy lakhs by the creation of new shares to the amount of rupees fifteen lakhs, such new shares to be of such respective amounts, and to be issued in such manner and at such times as the Directors in their discretion shall think expedient."

2nd.—"That the Directors be, and they are hereby, authorized to issue debentures of the Company to the extent of five lakhs of rupees, such debentures to be issued in such amounts, at such times, and in such manner, and to bear interest at such rate, and to be repayable at such time, and to be chargeable and to be charged upon all or any of the property of the Company, real or personal, as the Directors in their discretion shall think expedient."

By order of the Directors,

J. GILLMAN, Offg. Secretary.

Calcutta, the 27th August 1885.

P. B. ROBERTS, C.E., Executive Engineer.  
 Nudda Rivers Division.

Berhampore, the 11th September 1885.

## Notice

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Stern Signal Service. The report giving 10 A.M. observations of the day is distributed by post in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e. from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,

Meteorological Reporter to the Govt. of Bengal.  
 Meteorological Office, Bengal, the 3rd July 1883.

## Notes on Forestry,

By C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

## INDIAN LAW REPORTS.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, by the Calcutta Central Press Company, "Limited," 5-1, Council House Street, at the following rates, payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	Rs. 15	Rs. 10	Rs. 6
„ three issues	„ 40	„ 25	„ 14
„ six „	„ 70	„ 40	„ 25
„ twelve „	„ 110	„ 70	„ 45

At these rates the advertisers will have the option of changing their advertisements in each issue.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1881:—

## The Indian Law Reports,

*Published under Authority.*

**T**HE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

Without postage. With postage.

For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
„ each of the Madras, Bombay, and Allahabad Series ...	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (inclusive of postage in India) .....	.....	„ 2 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India) ...	.....	„ 1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

„ Thacker & Co., Bombay.

„ Higginbotham & Co., Madras.

The Government Central Book Depôt, Bombay.

„ Curator of Government Books, North-Western Provinces and Oudh.

„ Superintendent of Government Printing Bengal.

Orders and subscriptions for 1885 should be at once remitted.

### ADMINISTRATION OF THE STATE OF HILL TIPPERAH.

#### POLITICAL.

*Dated Darjeeling, the 8th September 1885.*

#### RESOLUTION.

#### READ—

The Administration Report of the Political Agency of Hill Tipperah for the year 1884-85.

#### Read also—

The Report for 1883-84 and the Resolution recorded thereon.

The Assistant Political Agent has submitted a full and intelligent report on the general administration of the State of Hill Tipperah through the Political Agent and the Commissioner of the Division, who have each made their own remarks upon it. So far as the condition of the people is concerned, the past year was prosperous. The public health was good, crops were plentiful, and prices high. The outturn of the cotton crop, one of the principal products of the country, was above the average; but as nearly a third of it was left in the hands of the growers, the crop was not as remunerative as it might have been. The reason of this is stated to be the expansion of the jute trade, which is now exclusively carried on in the adjoining districts into which formerly cotton used to be largely imported. As pointed out by the local authorities, this displacement of cotton seems to point to the necessity of a

reduction in the high export duty—Rs. 2 per maund—levied in the Maharaja's territories. This has been suggested to the Durbar, and is now under consideration. The rainfall was decidedly short, being nearly 10 inches less than that of 1883-84, and more than 13 inches below that of 1882-83. As, however, the rainfall is only registered at the agency at Agurtolla, its general sufficiency can only be judged by the quality of the crops and the health of the people. The former, as has been above observed, were good, while the latter, with the exception of an outbreak of cholera at Agurtolla in October, which caused a few deaths, is stated to have been satisfactory throughout the year. The material condition of the people is also said to be improving, though the inhabitants of the plains are decidedly better off than the hill people. The latter, however, might easily, with their fertile and extensive lands, become more prosperous than they are; but their indolence and want of thrift is at present an effectual bar to any rapid advance in this direction. In the Resolution on the Administration Report for the year 1883-84, the Lieutenant-Governor expressed some surprise that immigration into Hill Tipperah was not, even in the absence of any direct encouragement from the State, greater than it is. It now appears that the colony of Mughls, who, as noticed in previous reports, have established themselves in Hill Tipperah, and are now living contentedly in their new settlements, have, during the past year, been followed by a considerable number of their own class and by some Chukmas—in all some 300 families—from the Chittagong Hill Tracts. Owing to its present financial difficulties, the State can do little to encourage immigration, beyond conferring upon settlers the right of holding their lands rent-free for a certain number of years. If more substantial assistance could be given, it is stated that large settlements might be established in various parts of the State where there are tracts of fertile land now lying waste for want of people to cultivate them. From the neighbouring districts, except the Chittagong Hill Tracts, immigration cannot be expected, as the people are too well off to care to leave their own homes; but settlers, in considerable numbers, might be obtained from the less prosperous districts of Bengal and Behar, if some little money could be advanced to help them over the first year or two after their arrival. It is much to be regretted that in the present financial condition of the State any scheme of this kind is absolutely impracticable.

2. The trade of the State is gradually, if not rapidly, developing. During the past year the total value of the export trade is estimated at Rs. 6,26,000 against Rs. 5,83,000 in the previous year, and this notwithstanding that the transactions, both in elephants and cotton, were smaller than usual. In cotton about 1,000 maunds less than during the previous year were exported, while, although 114 elephants were put up to auction, only a few found purchasers.

3. The caste movement, of which frequent mention has been made in previous reports, appears to be dying a natural death. The Maharaja is beginning to see that it cannot in the end succeed, and that all the influential people of the State are opposed to it. Still the movement has not been entirely given up, for, without compromising himself, the Maharaja is unable altogether to recede from the point to which he had advanced. The Lieutenant-Governor regrets to observe that, notwithstanding what was said last year about the unnecessary multiplication of offices as representing a serious drain on the resources of the State, the Durbar have thought it necessary to revive the office of Minister-Associate, which was abolished in 1882-83. The duties attaching to this office were chiefly in connection with the correspondence between the State and the Agency. Since its abolition those duties have devolved upon the Dewan, and this arrangement has, it is stated, answered all practical purposes. During the year under report, Baboo Shumbhu Chundra Mookerjee, the former Minister-Associate, has been re-appointed and placed in charge of the Military, Education, Judicial and Political Departments. Such an appointment, under existing circumstances, seems altogether superfluous; the more so, as the Baboo, instead of, as formerly, residing in Agurtolla, where he might have been of some use, has been permitted to live in Calcutta, where, it is plain, he can take no personal share in the management of the departments of which he has been put in charge, but must confine himself to advising on such points as are placed

before him for opinion. The Lieutenant-Governor must express the opinion that such an appointment can, from its very nature, be of little, if any, use, and that, in the present financial condition of the State, it is one that certainly ought not to have been made.

4. The Revenue administration of the State continues in its former unsatisfactory condition. The expenses are said to exceed the receipts by more than a lakh of rupees. The commencement of these financial difficulties was no doubt the heavy and protracted litigation with Kumar Navadvip Chundra Deb, which commenced 11 years ago, and was only finally terminated in 1883. Other circumstances have, however, combined to increase the debts which were then incurred. Of these, the principal have been the caste movement above referred to; *secondly*, the Maharaja's journey to Pindrabun in 1882-83; and *thirdly*, the marriage of two of the Maharaja's children during the past year. The debts of the State are now believed to be over 11 lakhs of rupees. On about half of this sum no interest is paid, as it represents arrears of salaries and allowances due to officers of the State, pensioners, and others, and amounts due to shop-keepers for supplies to the Maharaja and his family. On the remaining half interest, amounting in the aggregate to more than Rs. 80,000, has to be paid. The revenue from all sources during the past year stood at Rs. 2,38,724 against Rs. 2,33,831 in the previous year. There was an increase of Rs. 15,141 under 9 heads, and a decrease of Rs. 10,248 under 10 heads, leaving a total net increase of Rs. 4,893 as compared with the revenue of 1883-84. The only noticeable increases were Rs. 8,105 under the head of tax on forest produce, Rs. 3,191 on the tax on forest produce floated down the Fenny, and Rs. 1,557 from land revenue from the plain lands. On the other hand, the tax on cotton and oil-seeds fell off by Rs. 6,701; while the royalty on elephants caught was less by Rs. 1,416 than during the previous year.

5. There has been no improvement in the management of the Maharaja's estates in British territory, but during the year under review Mr. Sandys has been appointed manager in succession to Mr. Larminie. As remarked by the Commissioner, the figures given regarding the collections from these fine properties are very confusing. The Assistant Political Agent puts them down (*vide* paragraph 49 of his report) at Rs. 5,50,000; the Political Agent in Part III of his letter to the Maharajah appended to the report estimates them at Rs. 4,50,000. The former states the net profits to be Rs. 2,20,000; while the latter mentions Rs. 1,70,500 as the probable amount. But whichever set of figures is correct, it seems certain that, with proper management, a very much larger return should be obtained. At present the condition of these estates is generally unsatisfactory. It was stated last year that some of the Maharaja's creditors held farms in them, the value of which more than covered the interest due on their debts. This year it has been reported that the Maharaja has commenced to give putnis, thus debarring his successors from the possibility of sharing in any increase in the value of the property which may take place in the future. This appears to be a most ruinous step. As the Commissioner remarks: "If it were possible that he (the Maharaja) should obtain fair prices for the putnis now being given, there might be some reason for their grant, but I unhesitatingly assert that fair prices cannot be got for putnis in an estate managed as that of the Maharaja has been for years. Rents are badly collected and in arrear. There has been no proper settlement with the ryots, and under such circumstances good prices cannot be got."

6. In the reports now submitted, the Commissioner and Magistrate have made certain suggestions as to the measures which are, in their opinion, necessary to prevent the ruin which is impending over the Maharaja.

In the present review of the administration of Hill Tipperah for the past year, the Lieutenant-Governor will refrain from expressing any opinion on the proposals submitted by these officers; but having regard to the peculiar position occupied by the Maharaja as Zemindar and Chief of Hill Tipperah, it is impossible for the Government of Bengal to view with indifference the state of affairs brought under its notice. Unless the Maharaja, the personal amiability of whose character is borne testimony to by the Commissioner, is prepared himself to undertake the necessary reforms in his affairs, some more direct interference on the part of Government can hardly be avoided.

The recent appointment of Mr. Sandys as Manager of the zemindari property may, the Lieutenant-Governor trusts, be taken as showing that the Maharaja is convinced of the necessity of some improvement in the management of his estates in British territory; but the Lieutenant-Governor would point out that, if any lasting good is to result from this appointment, it is essential that full authority should be given to the Manager to deal with and correct abuses. It is in this direction that the previous arrangements of a similar kind have broken down, and unless the Maharaja is prepared to give his full confidence and a full measure of support to his Manager, there can, the Lieutenant-Governor fears, be but little hope of any satisfactory improvement.

The Lieutenant-Governor must express a strong hope that such measures of reform as the Maharaja may decide on adopting will not be confined to the Tipperah estates. The Maharaja should have strongly pressed upon him the urgent necessity of abolishing expensive and useless appointments, of which one has been referred to in an earlier part of this Resolution, of reducing, wherever possible, the existing subordinate establishments and the removal of obstructive rules, such as the one alluded in paragraph 47 of the Assistant Political Agent's report, under which British subjects residing in Hill Tipperah are unable to acquire any right of occupancy in respect of lands held by them there. It is said that this rule has been found to be productive of much mischief, but that its rescission has been promised. The Lieutenant-Governor is glad to notice that during the year the Maharaja has consented to bring a portion of the forest mehal under khas management, with the prospect of increasing the revenue derived therefrom by at least Rs. 25,000 a year. This is, at all events, one step in the right direction, and the Lieutenant-Governor hopes to see that during the current year still further changes in this respect have been introduced.

7. It is very unsatisfactory to find that, as before, only a statement of receipts has been furnished by the Maharaja's office. The advantages of an expenditure statement being also prepared has been so frequently explained, and the necessity for it is so obvious, that the Lieutenant-Governor cannot understand the Maharaja's disinclination to supply it, except on the supposition that, as remarked last year, it is not to the interest of his officers that the financial position should be too closely scrutinized.

8. There appears to have been no change in the arrangements for the administration of justice during the past year, with the exception that a son-in-law of the Maharaja has been appointed Assistant Magistrate with limited magisterial powers over a portion of thana Agurtolla. The appointment is fortunately an honorary one, and appears to have been created, not so much because it was wanted, as to give the holder of it some little judicial training.

9. Crime generally is light, especially in the hills. Minor offences against person and property, hurt, petty thefts, and mischief constitute nearly the whole of it. Cognizable crime seems steadily decreasing, the number of cases during the last three years being 172, 156, and 139 respectively. The total number of criminal cases of all kinds was 625 as against 567 in the preceding year. Of these, 218 were rejected, 22 were pending at the close of the year, and 385 were tried, with the result that 365, or 53·4 of the total number tried, were convicted, and 292, or 42·7, were acquitted. Serious cases numbered 54, or 8·6 per cent., including 3 murders, 2 culpable homicides, 4 cases of rape, 3 cases of dacoity, and 2 of robbery, or very nearly the same as in 1883-84, the only differences being that in the year under report there were 2 more cases of rape and 2 less cases of robbery than in the previous year. The number of cases in which British subjects were concerned was 180 against 153 in the previous year and 182 in 1882-83. In 39 British subjects were complainants, and in 47 both complainants and defendants. One hundred and eighty persons in all were brought to trial; 90 were convicted, 87 discharged, 1 died and 2 remained under trial.

10. The number of appeals instituted during the year was 52 against 64 in the previous year. In 25 cases the orders of the lower courts were upheld, in 14 cases modified, and in 13 cases reversed. One case was pending at the close of the year. The work in the Khas Appellate Court, presided over by the Jubraj assisted by two Thakurs, was light. Altogether there were only 11 cases before it. In three cases the orders of the lower courts were upheld, in five modified.

and in three reversed. So far as they go, these results speak for themselves but as the Thakur Judges are, though well meaning, without much training; or experience, it is a question whether they are any more likely to arrive at the truth in any particular case than the court which originally tried it.

11. The number of civil suits was 216 against 254 of the previous year, the decrease being chiefly in bond suits, owing partly to the people not being naturally litigious, and partly to their generally prosperous condition. Including 71 pending at the close of 1883-84, there were altogether 287 for disposal during the year under review. Of these, 249 were decided, leaving 38 pending. The aggregate value of the new institutions was Rs. 16,479-6-10, or an average of Rs. 76-5 per suit. Only nine cases were valued above Rs. 500. The total amount of fees realized was Rs. 2,797, or Rs. 12-15 per suit. There were 46 civil appeals, 31 before the Lower Appellate Court and 15 before the Khas Appellate Court. Of the former, 29 were disposed of, in ten the orders appealed against were confirmed, in 16 either reversed or modified, two cases were remanded and one was rejected. In the Khas Appellate Court all the cases were disposed of, nine being confirmed, three reversed, two remanded and one rejected. There were 59 suits in which British subjects were concerned against 122 in the previous year. In 59 cases the plaintiffs were British subjects, in 14 they were defendants and in 16 both plaintiffs and defendants. The falling off in the number of these cases is said to be due to the fact that the decrees of the courts of the State cannot be executed in British territory.

12. There are four jails in the State—one at Agurtolla itself, and one at each of the sub-divisions of Sonamura, Koylashur, and Belania. The average daily number of prisoners was only 57. It is stated that the prisoners are always treated with leniency, the work is light, food ample, medical attendance sufficient, as is evidenced by the fact that only one prisoner out of 34 under treatment during the year died.

13. The Military force consisted of 295 men of all ranks, of whom 17 are Bengali Hindus, 122 Bengali Mussalmans, 57 Goorkhas, 10 Assamese, 57 Hindustanis, 19 Tipperahs and 13 Christians. There were no frontier disturbances during the year. The five guard posts maintained were the same as before, viz., Dharmanagar, Chirakuti and Kamalpur in the Koylashur sub-division, one at Belania and one at Udaypore. During the raiding season an additional post is kept up at Eksari. Cultivation having of late extended all around them, the position of the two first-named posts is not so good as it was, and should be moved further forward. The Commissioner doubts the necessity of maintaining the Kamalpur outpost, and thinks that one well-placed guard might do the work now done by the three northern guards; this would lessen expenditure and enable a reduced number of men to be kept up in a more efficient state. As it is, the service is not attractive. The men, like the other establishments of the State, are paid irregularly, and are neither well disciplined nor properly equipped.

14. Nothing appears to have been done during the past year to improve the communications of the State. The road leading from Agurtolla to Tipperah was repaired, but no steps were taken towards establishing any system of communications in the interior, owing no doubt to the impossibility of providing the necessary funds.

15. The state of education is not satisfactory. The number of boys' schools has increased by one during the past year, and there are now 16 in existence and two for girls. The aggregate number of pupils has increased from 441 to 470. With the exception of the schools at the sub-divisions, all the rest are mere patshalas. The status of the Agurtolla Anglo-Vernacular school should, it is stated, be raised to the standard of an Entrance school, but so little interest appears to be taken by the Thakurs in it, that there seems little likelihood of this being done. The education of the Jubraj and Burra Thakur is stated to be much neglected. Both of them are intelligent young men, but they are allowed no means of improving their minds or enlarging their ideas so as to fit them for the duties they will one day be called upon to discharge. The Maharaja acquiesces in all that is said to him as to the desirability of allowing them to see something of the world, but financial considerations prevent his doing anything in the matter.

16. There are three dispensaries in the State, in which 4,009 patients were treated as against 3,664 in the previous year. Of these, 3,785 or 94·4 per cent. were cured or relieved, 59 or 1·5 per cent. died, 75 or 1·9 per cent. discontinued their attendance, and 90 or 2·2 remained under treatment at the close of the year. The prevailing diseases were dysentery, diarrhoea, sores, and fever. As noticed above, there were a few sporadic cases of cholera, some of which ended fatally. As remarked last year, the dispensaries are badly managed, and their wants indifferently supplied.

17. The only post-office in the State continues to be the one attached to the Agency, and appears to be in a flourishing condition. Rupees 65,032 were remitted through it in money-orders as against Rs. 43,859 in the previous year. There was a falling off in the value of insured covers from Rs. 13,934 to Rs. 5,395, for which no reason has been assigned. The institution is not only self-supporting, but works at a profit.

18. During the past year the boundary pillars between the State and Sylhet, which were found in 1855-54 by the Topographical Survey Party to be wrongly placed, have been erected in their proper positions during the past year. Some of the masonry boundary pillars between Hill Tipperah and British Tipperah are reported to have been entirely destroyed, while others are in need of repairs. A separate report on this subject has been submitted by the Commissioner.

19. The Assistant Political Agent reports that some of the Hill Tipperah liquor-shops are so close to British territory as to offer great temptations to the inhabitants of the latter to smuggle. He has addressed the Durbar on the subject, and has reason to expect that these shops will be removed to a greater distance from the boundary.

20. The report submitted by the Assistant Political Agent has been carefully drawn up, and contains so much interesting information that it is clear Baboo Uma Kant Dass spares no pains to make himself acquainted with the details of the administration of the State.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

*Chief Secretary to the Government of Bengal.*

**RESOLUTION ON THE BOARD'S REPORT ON THE LAND REVENUE  
ADMINISTRATION OF THE LOWER PROVINCES OF BENGAL  
FOR 1884-85.**

REVENUE DEPARTMENT—LAND REVENUE.

*Darjeeling, the 12th September 1885.*

RESOLUTION.

READ—

The Board's Report on the Land Revenue Administration of the Lower Provinces of Bengal for 1884-85.

The Land Revenue Department of the Board was in the charge of Mr. H. L. Dampier from the beginning of the year to the 26th July 1884, when he retired from the Civil Service. Mr. Reynolds was in charge from the 26th July to the 9th September 1884, and Mr. Peacock from the latter date to the end of the year. The Report is submitted by Mr. Reynolds.

2. *Number of Estates.*—The following statement shows the number on the revenue-roll during the last two years arranged according to the standard system of classification:—

		Class I, permanently- settled estates.	Class II, temporarily- settled estates.	Class III, Government estates.	Class IV, ryotwari tracts.	Total of all classes.
1883-84	...	143,842	7,785	2,833	26	154,486
1884-85	...	145,457	7,691	2,913	26	156,087
Difference	...	+ 1,615	—94	+ 80	...	+ 1,601

Under the head of Permanently-settled Estates the constantly recurring process of partition has added 1,615 estates to the roll—a number closely approximating to the average increase during the last seven years. Assessment of alluvial accretions, transfers from Class II to Class III, escheats, resumptions, and purchases at sales for arrears of revenue, account for the fluctuations in the number of temporarily-settled and Government estates; while the number of ryotwari tracts remains unchanged.

3. *Land Revenue Demand.*—The current demand from each class of estates for the last two years is shown thus:—

				1883-84. Rs.	1884-85. Rs.
Class	I	...	...	3,22,99,847	3,22,98,211
"	II	...	...	27,00,892	27,11,757
"	III	...	...	20,86,623	21,24,585
"	IV	...	...	8,52,525	8,53,133
	Total	...	...	3,79,39,887	3,79,87,686

Including an arrear demand of Rs. 22,00,716, the total demand for realization during 1884-85 amounted to Rs. 4,01,88,402, against Rs. 3,99,38,487 in the previous year.

The slight decrease in the current demand from permanently-settled estates is due to redemptions under the partition law, and to transfers from this head owing to the purchase of estates by Government at sales for arrears of revenue. Dearah settlements in the Dacca Division are stated to be the chief cause of the rise of demand from temporarily settled estates; and the increase under the head of Government Estates is due partly to the causes noticed in paragraph 2, and partly to new settlements effected at an increased rental. It is observed, however, that, while the average annual increase of demand under all heads during the ten years from 1874-75 to 1883-84 was Rs. 1,51,975, the increment of 1883-84 was only Rs. 77,962, which again fell to Rs. 47,799 in the year under report. The slower growth of this branch of revenue is attributed in part at least to the more lenient assessments made at

recent settlements. This state of things seems likely to continue, and it is improbable that any rapid advance of revenue will be effected by settlements in futuro; for both in Government estates and in estates under temporary settlement, the operations of the Revenue officers will be controlled by the Bengal Tenancy Act, and the provisions of that Act, while securing to the landlord, whether Government or a private individual, a fair rent in all cases where the existing rent may be unduly low, will effectually prevent any sudden enhancement.

4. *Collections.*—The total collections, both current and arrear, amounted to Rs. 3,71,37,748, or a percentage of 92.41 on the total demand, as compared with 94.03 per cent. in the previous year. Out of this amount, Rs. 16,66,444 were arrear collections representing 75.72 per cent. on the arrear demand; while Rs. 3,54,71,304 were current collections, being 93.37 of the current demand. Under both heads the percentages of realization are below the corresponding percentages of the preceding year. The decline of Rs. 5,05,395 in the current collections was due to delay in the payment of the revenue of the Burdwn estates caused by the death of the Maharajah just before the close of the financial year. The arrear has since been realized.

5. *Remissions and Balances.*—The remissions of revenue granted during the year rose to Rs. 1,24,977 against Rs. 1,03,580 remitted in 1883-84. The largest amount remitted in any district was Rs. 28,259 in Midnapore on account of loss of crops in the Jellamuta and Majnamuta estates arising from the excessive rainfall of 1881. The total outstanding balance from all classes of estates amounted to Rs. 29,25,677, as compared with Rs. 22,00,716 in the previous year. From this, however, should be deducted Rs. 8,00,000, being the purely accidental arrear from the Burdwan estates. Thus the true outstanding balance is reduced to Rs. 21,25,677, or three-quarters of a lakh less than in 1883-84.

6. *Financial results in each class of estates.*—In permanently-settled estates the collections averaged 95.71 of the total demand, against 95.2 per cent. in the previous year; while the outstanding balance rose from Rs. 3,83,041 to Rs. 14,07,616. Deducting, however, eight lakhs due in Burdwan, and certain nominal balances in Darjeeling and Chumparun, the results are, on the whole, as good as in 1883-84. In Wards' estates the balances have risen since last year, but are still slightly lower than in 1882-83. Temporarily-settled estates show much the same percentage of collections, and a smaller outstanding balance than in the past year. The demand, however, was less, and the remissions were much larger. In order to arrive at accurate conclusions regarding the financial results obtained on temporarily-settled estates, it is necessary to distinguish between estates settled with their proprietors for definite periods, and estates managed direct or farmed in consequence of the refusal of the proprietors to engage for the payment of the land revenue assessed. In estates settled with their proprietors, the total uncollected balances were only 6.43 per cent. on the total demand; while the proportion rose to 26.56 per cent. in estates managed direct by Government, and to 36.04 per cent. in estates let out in farm. The heaviest balances occur in Midnapore (Rs. 1,90,111), Backergunge (Rs. 77,940), and in Pooore (Rs. 48,812). In Midnapore the work of collection in the Majnamuta and Jellamuta estates is said to have been proceeding satisfactorily when it was unfavourably affected by a judgment of the High Court throwing doubt on the regularity of the proceedings by which the rates of rent had originally been fixed. No distinct explanation is given of the balances in Backergunge, though it may be gathered that measures are being taken to realise them by the certificate procedure. Of the arrear in Pooore, a large portion has been realised since the close of the year, and the remainder is accounted for by postponements of rents on account of floods. The amount of actual remission that will be necessary is still uncertain.

Turning now to Government estates, it is observed that the percentage of collections to the total demand has risen from 63.36 per cent. in 1883-84 to 67.91 in the year under report. These results, though better than those of the previous year, cannot be regarded as satisfactory, nor do the explanations furnished in the report of the specially heavy arrears which have accrued in some districts throw any clear light upon the real causes which have led

to the accumulation of these balances. In many cases, indeed, the explanations furnished by the local officers are couched in such vague and general terms that it has been as difficult for the Board as it is now for the Lieutenant-Governor to arrive at a distinct understanding of the actual state of things. There can be no doubt that, where the Collector finds himself burthened with the management of numerous scattered estates, prompt collections can hardly be looked for. Here it is proposed that relief should be given by disposing of some of the smaller estates, and the proposal is still under the consideration of Government. Should it be sanctioned, some measure of relief will, no doubt, have been given; but it by no means follows that this will of itself be sufficient to produce a substantial improvement in the matter of collections. Administrative reforms will then have to be taken in hand, and the first of these will be a careful examination by each district officer of the condition of every Government estate in his district, with the object of ascertaining the causes of fluctuations in the collections, and of introducing such reforms as may ensure regularity of payment in future. Nothing short of a minute enquiry into the circumstances of each individual estate will, the Lieutenant-Governor is satisfied, be of any avail to remove the defects of the present system of administration.

7. *Results of Direct Management.*—Comparing the results of direct management in 1884-85 with those recorded in the previous year's report, it is observed that the number of estates under management was 1,251 with an annual rental of Rs. 28,06,433, against 1,323 estates with a rental of Rs. 27,50,451 in 1883-84. Of these, 1,039 were the property of Government, while 212 belonged to private owners who had refused settlement. Including an arrear balance of Rs. 10,24,864, the total demand of the year was Rs. 38,31,297, out of which Rs. 27,26,762, or 71.1 per cent., were realised, the corresponding percentage of the previous year being 66.8. The percentage of collections on current demand was better by 1 per cent. than that in 1883-84.

8. *Improvements, &c.*—It follows from what has been said above that in 1884-85, as in foregoing years, the management of estates under the direct charge of district officers consisted for the most part of attempts, more or less sustained and continuous, to realise certain amounts of rent by means of an agency not more than barely sufficient for that purpose. That such a system as this should produce any well-considered works of permanent improvement is hardly to be expected. Small sums have been spent on the construction of works for the irrigation of estates and for their protection from floods, and larger sums on sundry works, the precise nature of which is not specified. Among agricultural improvements properly so called, the only improvement really appreciated by the cultivators is the Behea Sugar Mill. This has made its own way in Behar and the more accessible parts of Bengal, and an agency started at Kushtea for hiring out Behea mills is said to be doing a large and prosperous business. Hiring is preferred by the cultivators to purchase, as, in the event of anything going wrong with a machine, they can get another from the supplier. In more remote districts, where private enterprise has yet to make its way, the mills have been introduced on Government estates by the local officers. Experiments were made in a few districts with improved ploughs, but they are said to have been on the whole unsuccessful, and even where some measure of success was attained, the possible demand for invention was limited by the standard difficulty that the ordinary ryot either cannot or will not pay a high price for an implement which he has been accustomed to get for next to nothing. On this point the Commissioner of the Presidency Division remarks that—

“The late International Exhibition held in Calcutta does not seem to have had any effect on husbandry in the introduction of improved methods of agriculture. The machinery exhibited and worked experimentally was generally of a kind too ambitious to meet the requirements of the generality of Indian agriculturists, as they are poor and have not the means to buy expensive implements.”

Three experimental *silos* were constructed in the Patna district. The ensilage is said to have been “more readily taken by buffaloes than by any other animals,” and a hope is expressed “that some of the ryots will be induced to try the experiment themselves.” An Agricultural Exhibition was held at Dumraon in February last, in which 33 prizes and 42 “honourable

mentions" were won by ryots who "themselves accompanied the exhibits and are reported to have taken a keen interest in the Exhibition."

9. *Surveys*.—Comparatively little survey work was done during the year. In Midnapore the revision of the former survey still continues, and fair progress appears to have been made. In Sarun and Shahabad the boundary between Bengal and the North-West Provinces was demarcated in accordance with the deep stream line of the rivers by officers from both Provinces. The survey of ghatwali lands in Bankoora was stopped in September 1884 owing to the expensive mode of procedure adopted, and has since been resumed under a simpler system which promises to bring the work to a more rapid conclusion. The ghatwali survey in Singbhoom was brought to a close by a compromise with the zemindar of Dhudbhoom on the same general lines as were followed in the case of the Burrahoom zemindar in Manbhoom. In both cases the result of the arrangement has been to leave the ghatwals in possession of tenures amply sufficient for the maintenance of the service they render, and to save Government and all persons interested in these lands from vexatious litigation, which could hardly have failed to have seriously disturbed the peace of the districts concerned.

10. *Settlements*.—Including settlements of all kinds, 796 cases were disposed of during the year, yielding an increase in revenue of Rs. 25,503, against an increase of Rs. 64,479 in the previous year. The divisions showing the heaviest increases were Dacca (Rs. 6,768) and Chittagong (Rs. 10,509). In the three districts of Patna, Mozufferpore, and Sarun there was a decrease of Rs. 2,794, of which no explanation is given. In the Government estate of Khoorda the revision of the papers showing the reduction of rent ordered in 1883 has nearly been completed, and 85,294 kabulyats have been executed, leaving 59,752 still to be signed. The progress made indicates that the ryots are satisfied with the settlement as now modified, and it is anticipated that the interchange of pottahs and kabulyats will now be completed without any difficulty. In the Majnamuta and Jellamuta estates in Midnapore the revision of errors of detail in the settlement is in progress. The objections raised to the assessment were referred in May last to a Conference of Government officers and representatives of the ryots, and after considering the results of their discussions, the Lieutenant-Governor finally decided to offer to those ryots who have appealed to the High Court against the settlement a reduction of three annas in the rupee on the rent assessed. The local officers are now engaged in ascertaining whether the appellants are willing to accept this compromise. In Chittagong the intricate group of questions arising out of the settlement of the Noabad taluks has now been disposed of, and the settlement will be completed on lines laid down after thorough discussion of all the issues involved. In dealing with all these questions, careful regard has been paid to the principles affirmed in the Bengal Tenancy Act, which will in future impose upon Revenue officers engaged in making settlements of Government estates precisely the same limitations as are imposed upon private landlords.

11. Paragraphs 122 to 134 of the Board's Report, which relate to irrigation, drainage and embankments, will be dealt with in the Public Works Department of Government.

12. *Land Registration*.—The work of initial registration of proprietary interests in estates and revenue-free properties has been completed, except as regards some office details in 34 out of the 43 districts, where the Land Registration Act is in force. Of the remaining nine districts the work is nearly complete in Hooghly, the 24-Pergunnahs, and Balasore; while satisfactory progress has been made in Calcutta and Moorshedabad. In Cuttack many cases are still pending, but the work is rendered peculiarly intricate by the large number of revenue-free holdings, of which the estate of Killah Banki, recently annexed to the Cuttack district, contains no less than 38,433. The progress made in Midnapore and Chittagong was far from satisfactory, and in the former district the delay in disposing of cases is wholly unexplained.

Reviewing the results of the working of the Act up to the present stage of completion, it is observed that 914,985 proprietary interests in estates and revenue-free properties have been registered throughout Bengal, the number of such interests varying from 287,612 in the Patna Division, where partition is greatly in vogue, to 1,894 in Chota Nagpore, where many of the estates are

impartible under local custom affirmed by Regulation X of 1800. It appears, however, that during the past year the number of mutations registered was only 3·3 per cent. of the initial registrations, and that of these only 1·4 per cent. were occasioned by the death of the former proprietor. Seeing that the death-rate among landowners must largely exceed 14 per 1,000, it follows that many successions to estates remain unregistered, and that more stringent measures must be taken to enforce compliance with section 42 of the Act. With this object proposals for the amendment of the law have recently been submitted to the Government of India. In the meantime, the rules which the Lieutenant-Governor proposes to make under section 189 of the Bengal Tenancy Act will have the effect of completing the proprietary record in any areas where a record of rights may be undertaken under Chapter X of the Act, and will probably tend indirectly to promote the registration of mutations throughout the districts affected.

13. *Road Cess and Public Works Cess.*—The following statement compares the results of 1884-85 in respect of the realization of these cesses with those of the preceding three years:—

	DEMAND.			BALANCES.			Deduct remissions.	Net arrears.	Percentage of net balance on gross demand.
	Current.	Arrear.	Total.	Current.	Arrear.	Total.			
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1880-81 .. .. .	69,14,587	9,29,041	78,43,628	10,06,396	1,81,826	11,91,152	17,533	11,73,629	14·9
1881-82 .. .. .	70,10,994	11,71,662	81,82,656	9,54,815	1,32,234	11,47,554	10,944	11,36,610	13·8
1882-83 .. .. .	71,10,811	11,12,296	82,23,107	10,09,330	1,77,390	11,86,720	27,940	11,58,780	13·7
1883-84 .. .. .	73,75,637	12,60,272	86,35,909	13,56,778	2,61,136	16,20,974	26,993	15,93,981	18·4

The fact that the arrear balance has risen by Rs. 3,33,709 is attributed partly to scanty crops, partly to the last day of payment having fallen within the Doorga Poojah holidays, and chiefly to the inclusion, under section 70 of the Act, of the demand from rent free holdings in certain districts with three years' retrospective effect. To the latter cause in particular is attributed the large increase in the arrear demand, and the accumulation of arrear balances at the close of the year. The proposals made by the Board for dealing with this difficulty will be considered in the Financial Department.

14. *Operations of the Sale Law.*—Of 10,575 estates, shares of estates, and interests in estates which became liable to sale for arrears of revenue during the year, 1,836 or 17·3 per cent. were actually sold. The corresponding figure for the previous year was 2,225, or 20·6 of the properties liable to be sold. These statistics tend to show that practical effect has been given to the policy of leniency which the Government has repeatedly enjoined on officers entrusted with the working of the Sale Law; and the inference is borne out by the complaint of the Collector of Hooghly that this policy tends to make the sale day a sort of second kist day; as defaulters, when their estate is called up for sale in its proper order, present a petition under section 18, produce the amount of the balance and claim exemption as a matter of course.

Of the estates sold, 213 were bought in by Government at nominal prices, and with regard to these it may be inferred that, either from diluvion or other causes, they were no longer able to bear their permanent revenue. As to most of the others, it is reported that the owners voluntarily fell into arrears in order to sell with a more valuable title. This can only mean that their intention was to sell free of those encumbrances, for which, in the majority of cases, they or their predecessors in title had received valuable consideration. One instance of this fraud upon tenureholders has been reported to the Board by the Commissioner of Chittagong, who writes—

“The Collector has now reason to believe that the sale was forced in order to break up the tenures, and that the estate has been re-purchased *benami*. In reporting this case, Mr. Barooah remarks that he quite agrees with the Board that such sales should be discouraged, but that he sees no provision in the law which enables him to do so, and in this he is quite right.”

The Lieutenant-Governor fully agrees with the Board in pronouncing the Commissioner's and Collector's opinion to be incorrect. In his view the right to sell an estate under Act XI of 1859 is a right to be exercised by the Government alone in the interest of the revenues of the

State, and it is within the discretion of the Collector, under section 18 of the Act, to accept arrears from any person who may tender them with the object of staying a sale. This amount of protection tenureholders can fairly claim under the law as it stands now. The question of affording to them, and to the holders of under-tenures, further protection by amending the law in accordance with the principles embodied in chapter XIV of the Tenancy Act is now under the consideration of the Lieutenant-Governor.

15. *Working of the Public Demands Recovery Act.*—The following statement sums up the main heads of information regarding the working of Act VII (B.C.) of 1880:—

	Number pending from last year.	Number filed during the year.	Total.	Disposed of during the year.	PENDING.		
					More than six months.	Less than six months.	Total.
Demands of all kinds under section 5 ...	1,716	3,197	5,213	3,775	431	1,027	1,458
Arrears of rent due to Government, clause 6, section 7 ...	23,099	37,067	60,166	41,058	5,723	13,385	19,108
Embankment dues, section 50, Act VI (B.C.) of 1873 ...	1,739	12,079	13,818	7,638	1,010	5,170	6,180
Water-rates, Act III (B.C.) of 1876 ...	40,864	13,645	54,509	29,663	20,118	13,008	33,646
Cases, Act IX (B.C.) of 1880 ...	36,660	74,802	110,461	76,828	11,934	22,009	34,983
Demands of the Court of Wards, clause 7, section 7 ...	7,085	8,000	15,085	8,864	4,240	1,972	6,212
All other certificates under section 7 ...	16,428	24,384	40,812	27,170	5,615	8,618	13,633
Total ...	136,599	173,474	309,064	193,685	49,110	66,299	115,379

The decrease in the number of certificates filed shows that greater discretion has been exercised in resorting to this procedure than was the case in former years. It is observed at the same time that the number of sales has risen from 3,899 to 8,599, owing to an unexplained increase in the sales held in the Patna Division from 294 in 1883-84 to 4,862 in the year under review. In the Chittagong district the number of certificates issued to realise rents due to Government has risen from 1,059 to 5,392. This it is explained is due to the temper of the people, who, though well able to meet the Government demand punctually, delay payment partly out of sheer indolence, and partly in the ignorant expectation of gaining some indefinite advantage by withholding their rent until actually compelled to pay. The local officers seem to have thoroughly apprehended the position, and to be attempting by various devices to reduce the number of certificates as low as possible.

16. *Redemption of Revenue; Land Acquisition; Waste Lands; Patwaris.*—During the year under review increased resort was had to the privilege of redeeming Government revenue, and Rs. 11,385—an amount largely exceeding the receipts under this head for many years past—was paid as the price of redemption. No reason is assigned for this increase, and it may perhaps have been the case that it was due to no general cause, but arose from special circumstances inducing a few landholders to redeem. It is observed that most of the redemptions occurred in Calcutta and its neighbourhood.

The area of land acquired under Act X of 1870 for various public purposes during the year was 2,946 acres, for which Rs. 3,12,072 were paid as compensation. In the course of the proceedings for the acquisition of land for the Bengal-Nagpore State Railway, it was brought to notice that Act X of 1870 made no provision for the contingency of minerals underlying land taken up for public purposes, and that the Act was so worded as to compel Government to acquire the minerals and pay compensation at their full market value. As soon as this difficulty was reported, the acquisition proceedings were suspended, and the Government of India was moved to undertake legislation on the lines of the English law on the subject. The owners of minerals underlying the land already acquired have since, at the instance of this Government, consented to claims accruing under the existing law being dealt with under any Act fairly embodying the provisions of sections 77 to 85 of the English enactment (VIII and IX Vic., c. 20), which governs similar questions in England. The Lieutenant-Governor takes this opportunity of acknowledging the good sense and moderation with which his proposals have been accepted by the representatives of the coal-mining interest in Bengal.

Under the head of Waste Lands, the only fact calling for special remark is a considerable extension of the area granted for tea cultivation in Julpai-gori, where 22,346 acres were taken up during the year under review.

The re-organization of the putwari system in the Patna Division, commenced in 1876, was completed during the year, and, with the exception of 32 villages, where putwaris have still to be appointed, every village, on a revenue-paying estate throughout the Patna Division, and in the Monghyr district of the Bhagulpore Division, has a putwari duly appointed and properly registered. It remains to define precisely the legal status of these officials; to secure that their records shall be accurate and complete; and to place them more fully under the control of the Collector of the district. All these objects are provided for by the Bill relating to Canoongoes and Putwaris now under the consideration of Government. In Orissa both canoongoes and putwaris are reported to have done useful work.

17. *Relations between Landlord and Tenant.*—In the Presidency, Bhagulpore, and Rajshahye Divisions, the relations between landlord and tenant have, on the whole, been satisfactory. In the Pubna district of the Rajshahye Division, formerly the scene of serious agrarian disturbances, the present peaceable state of things is attributed to the fact that the ryots have learned the power of combination and passive resistance, and have frequently applied it with considerable effect. This the zemindars have perceived, and have compromised their disputes with their ryots in most cases. No instances of undue pressure being put on the ryots for the payment of rents have been heard of.

From all districts of the Patna Division, except Durbhunga, a similar account is given. In Durbhunga alone an attempt was made by some zemindars to raise the rates of rent and destroy rights of occupancy.

From Mymensingh Mr. Glazier, the Collector, reports—

"The relations between zemindars and ryots have continued unsatisfactory. They are worst in Kagmari pergunnah, Tangail sub-division, and several branches of the peases have occurred. Two attempts have been made to bring the parties to a settlement, the first by myself in August, and the second by the Commissioner in February; but at the close of the year no improvement in the relations was discernible. In the Mymensingh pergunnah, lying in the Sudder and Netrokona sub-divisions, matters are quieter than last year. The zemindars are taking the rents paid by the ryots, but no final agreement has been arrived at. In my tour I found that the ryots had a just ground of complaint; that money they paid for current rent was credited to old arrears, and in many cases they got no receipts. It is a great pity that the new Tenancy Act does not allow the Collector to enquire judicially into these complaints, instead of giving the ryot his only remedy in a civil suit. In the large pergunnah of Sherepore in the Jamalpore sub-division, the old relations still continue between zemindars and ryots. The zemindar's word is law, and they are now very busy in obtaining kabuliyats of two, three, or five years' duration and sowing a crop of future trouble. In Patiladaha pergunnah, in the same sub-division, the estate (a part of the late Prosanna Kumar Tagore's property), is scientifically exploited. Strict kabuliyats are the rule: no illegal measures are adopted, but the ryots are legally harassed by successive suits for arrears.

"It may be worth while to specify an instance in which I made some endeavours to settle matters between a zemindar and some reculant ryots in pergunnah Alapsingh, the central pergunnah of the district. I succeeded in inducing the ryots to pay and the zemindar to receive a portion of the current rent, and in thus removing a distrait which threatened a breach of the peace; but in going over the old accounts at the request of the zemindar, I found the views of the opposite parties to be too divergent to give any chance of a final settlement, unless I was empowered by law to enforce one. It may be interesting to give some particulars of the case. The estate had been under a succession of farmers, and there was thus no fixed assessment, the ryots maintaining that the proper sum was Rs. 6,045, the zemindar claiming Rs. 10,964. The ryots had been making payments into court for some years and (taking credit for Rs. 3,644 on this account) admitted only Rs. 2,401 to be due. The zemindar, on the other hand, would not give credit for any of these payments, and added to his principal a sum of Rs. 8,093 for interest, thus making a total claim of Rs. 19,057 as against the ryots' admission of Rs. 2,401. The zemindar's agent confessed that if they went into court they would not obtain more than the ryots admitted, except in a few cases where they had kabuliyats, and he proposed to have the estate measured, and then enhance by suit."

In Backergunge a somewhat similar state of things seems to prevail. The Collector writes—

"The relations between landlord and tenant in this district are not in a satisfactory state. Combinations amongst ryots exist in several zemindaries, and there is much general disposition to withhold rents. This complaint is general in Dakshin Shabazpore sub-division, while in parts of thana Mendigunge the ryots complain of exorbitant demands made by zemindars and talookdars on account of illegal cesses, road cess, &c. It came to light during the year that zemindars were levying road cess from their tenantry at maximum

rates, although only half rates are here levied by the Committee. Government, on a reference made, has directed that Deputy Collectors and Assistants, when out on tour, should explain the rate of cess to the ryots, but that the issue of general notices prohibiting the payment would be inexpedient, as the rate is liable to be changed every year."

As to Mr. Glazier's remark that the Tenancy Act should have allowed the Collector to enquire judicially into complaints brought by ryots of having got no receipts for rent paid, it is to be observed that any such division of jurisdiction between the Collector and the Civil Court would have been inconsistent with the principles of the Act. The question whether a ryot has made a particular payment and has got a receipt for it is essentially a question of evidence, and could only be properly dealt with by the Civil Courts; and in Eastern Bengal, at any rate, the experience of the last few years does not indicate any reluctance on the part of the ryots to assert their rights in the Civil Courts. Regarding the larger and more general grounds of disputes mentioned by the Collectors of Mymensingh and Backergunge, it is possible that some of these can only be set at rest by the preparation of a record of rights under Chapter X of the Tenancy Act; and if the present state of things continues, the Lieutenant-Governor will have no hesitation in applying this effectual remedy.

Indications are not wanting that the spirit of agricultural independence which prevails in many parts of Bengal Proper is beginning to spread to Orissa. Thus the Collector of Balasore writes—

"It is beyond doubt that the tenantry are beginning to lose that old feeling of half-filial respect for their landlords which used to characterize the Uriya peasantry so strongly. It is also beyond dispute that the chief reason of this is the fact that the landlords are ceasing to take any active part in the management of their estates, which they are handing over to strangers, who pay the landlord the full legal rents, and make what profit they can out of the ryots by means that can hardly be legal."

In other words, the patriarchal relation between landlord and tenant, hitherto supposed to be peculiarly characteristic of Orissa, is beginning to be affected by the general movement from status to contract, which has already begun in the more progressive parts of Bengal. The transition may be regretted, but is nevertheless inevitable; and it is one of the objects of the Tenancy Act to invest the executive officers of Government with such powers as may enable this transition to be effected with the minimum of friction and disturbance.

In Chota Nagpore the old landholding families of the Division, finding themselves greatly impoverished by mismanagement, are following the example of the same class in Orissa by handing over large portions of their estates to farmers, who work the land upon purely commercial principles. Searching methods of management are introduced; lands are measured and systematically assessed; claims to hold at privileged rates are enquired into; and a process of levelling up rentals is set on foot. Discontent necessarily follows, and a state of things such as is said to prevail in Manbhoom comes to be established. Here the Commissioner writes—

"In Manbhoom matters have been in a very unsatisfactory state in pergunnah Burra-bhoom, where there is very great opposition to the introduction of indigo-planting by Messrs. Watson and Company, the new ijaradars of the pergunnah. This opposition is strongest in the ghatwali villages, the holders of which have hitherto held large areas of land practically rent-free. It is said that the feeling of discontent in this pergunnah is kept alive for their own purposes by a number of Brahmin tenants, to whom the presence of strong landlords like Messrs. Watson and Company is specially unwelcome."

The question of Messrs. Watson and Company's operations in Manbhoom has been already brought to the notice of Government. The settlement arranged by the Deputy Commissioner between the Company and their ryots in 1883 was quoted with approval in paragraph 73 of the Report of the Government of Bengal on the Tenancy Bill, dated the 15th September 1884; while the compromise effected between the ghatwals and Messrs. Watson and Company, regarding the excess areas of lands which the former had got possession of in excess of their tenures, was expressly approved by Government after full consideration in 1884. This being so, the Lieutenant-Governor expects the Deputy Commissioner to do everything in his power to maintain these arrangements and to enforce the responsibility of the holders of police tenures

for the preservation of the peace within the areas under their charge. In respect of the introduction of indigo-planting, the local officers must maintain an impartial attitude, and see that neither party is allowed to infringe the clear provisions of the law.

18. *Minor administrative matters.*—Under this head of the Report are included various questions which need not be reviewed in detail here. The Lieutenant-Governor will merely remark that the omission of certain Collectors and Deputy Commissioners to carry out the orders requiring them to inspect their offices half-yearly cannot be looked upon as a matter of routine. A district office is a large and complicated machine, and if it is allowed to fall into disorder public business suffers and mistakes are made which may have the effect of seriously misleading Government upon important questions. Mr. Cockerell cannot allow that either oversight or want of leisure are sufficient grounds for neglecting a duty which has a very direct bearing upon the efficiency of district work.

As to the training of young Civilians in survey and settlement work, the Lieutenant-Governor agrees with the Board that their instructions on this subject have not received the attention which the importance of this branch of a district officer's duties demands. The cadastral survey of Mozufforpore, which is about to be undertaken, will, however, furnish an excellent means of imparting training of a most practical kind to junior officers stationed in Behar; while any similar operations which may be undertaken in other parts of Bengal may be utilized for officers stationed within a reasonable distance. The Lieutenant-Governor would be glad to be favoured with an expression of the Board's opinion as to the feasibility of this plan, accompanied by suggestions for giving effect to it in detail.

19. The Lieutenant-Governor desires to thank Messrs Reynolds and Peacock for their administration of the Land Revenue Department during the past year. The names of the officers mentioned in paragraph 286 of their Report as deserving special commendation will be considered in the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

*Offg. Secretary to the Government of Bengal.*

THE following are published for general information.

H. H. RISLEY,  
*Offg. Secretary to the Govt. of Bengal.*

---

No. 1452T—R, dated Darjeeling, the 7th September 1885.

From—H. H. RISLEY, Esq., Officiating Secretary to the Government of Bengal,  
Revenue Department,

To—The Manager of the Durbhunga Raj.

I AM directed to acknowledge receipt of your letter No. 5800, dated the 28th August 1885, enquiring whether, under section 59 of the Bengal Tenancy Act, landlords are obliged to purchase forms of rent receipts from the Government.

2. In reply, I am to say that section 59 of the Tenancy Act is intended merely to render standard forms of receipt readily procurable by landlords who have not the means of getting such receipts printed on a large scale for themselves. All that the Act requires is that every receipt for rent given by a landlord to a tenant shall contain substantially certain particulars, and provided that this condition is complied with, it is immaterial whether the receipt form is purchased from Government, printed at a private press, or written by hand.

3. In order to remove all possible misapprehensions on the subject, your letter and this reply will be published in the *Calcutta Gazette* for general information.

---

No. 5800, dated Durbhunga, the 28th August 1885.

From—COLONEL R. C. MONEY, B.S.C., Manager, Raj Durbhunga,

To—The Secretary to the Government of Bengal, Revenue Department.

I HAVE the honour to request that you will kindly inform me whether, under the next Rent Act, section 59, we are obliged to buy forms of receipts from the Local Government, or whether I can have what we need printed, in the Government form, in our own press.

A very early answer will oblige, as the number of receipt forms we shall need is great, not less than 2,500 books containing 200 receipt forms each.

---

## Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 12th September 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.</b>			
<i>Western Districts.</i>			
<b>BURDWAN DIV.</b>	1 Burdwan, Sept. 12 '85	1.55	Weather—seasonable. Prospects of crops good except in inundated parts. Price of rice 10 to 14½ seers per rupee. Health generally good.
	Culna ..	1.55	
	Cutwa ..	8.72	
	Rancegunge ..	3.49	
	2 Bankoora, " 12 ..	0.93	Weather—seasonable. <i>Aus</i> being harvested. Considerable loss reported from Bishenpur in consequence of late floods. Prospects of <i>amun</i> crops continue promising. Rice selling at 14 to 22 seers per rupee. Health good.
	Bishenpur ..	2.39	
	3 Beerbhoom, " 12 ..	5.47	Heavy rain in the beginning of the week. Prospects of rice crop generally good. Transplanting nearly finish'd. Prices of food-grains continue high. Health of people satisfactory except for cases of cholera.
	Rampore Haut ..	5.57	
	4 Midnapore, " 12 ..	0.11	Weather—hot and generally dry. The comparative cessation of rain is at present beneficial, but it will be injurious if it lasts much longer. <i>Aus</i> crop damaged by excessive rain in August. <i>Amun</i> on higher lands doing well.
	5 Hooghly, " 12 ..	1.79	Weather—seasonable now, hot and sunny in the last two days of the week. Prospects of the crops remain unfavourable, as the flood has not yet subsided. Fever still prevalent.
<b>PRESIDENCY DIV.</b>	Jehanabad ..	4.14	
	Howrah, " 12 ..	1.00	Sky cloudy. Slight showers now and then. Nearly three-fourths of the rice crop in the district are said to have been destroyed by the floods. The rest is in good order. Every effort is being made to drain off flood water. Health good.
	Oooloobariah ..	4.20	
	<i>Central Districts</i>		
	6 24-Pergha, Sept. 12 '85	1.08	Weather—hot for the season. Prospects of <i>aus</i> crops are a little better. <i>Amun</i> plants on high lands are doing well. Fever as usual in this season appears here and there.
	7 Nudda, " 12 ..	10.37	Heavy rain during the week, the last two days were clear. The height of the floods rose during last week, and consequently more damage was done to the standing crops. Harvesting of <i>aus</i> paddy on the higher lands continues.
	Meherpur ..	7.64	
	Kooshtea ..	6.97	
	Choodanga ..	7.91	
	Ranaghat ..	8.70	
<b>RAJSHAHY DIV.</b>	8 Khoolua, " 12 ..	1.09	Weather—cloudy; bright at close of week. <i>Aus</i> paddy harvest completed in Baginhat, and reported good; in Sakhira slight damage by flood. <i>Amun</i> paddy transplanting continues; slight damage from water and insects. Public health good.
	9 Jessore, " 12 ..	3.23	Weather—rainy, but dry in the latter part of the week. Harvesting of <i>aus</i> paddy not yet finished. Incessant rain and inundation have caused some injury to this crop. <i>Amun</i> crop also in danger in some places owing to inundation. Prospects of this crop reported to be bad in the Bongong sub-division, which has been visited by inundation. Fever almost everywhere.
	Jhenida ..	3.50	
	Magoora ..	6.37	
	Narail ..	2.51	
	Bongong ..	1.36	
	10 Moorshedabad, " 12 ..	4.69	Weather—seasonable. The high floods of the Padma and other rivers have almost entirely destroyed the <i>aus</i> crop. The <i>amun</i> in the <i>rark</i> is doing well, except on low lands, where it has also been destroyed by the floods. Public health fair. Common rice selling at 10 or 12 seers per rupee.
	Lalbach ..	6.59	
	Kandi ..	2.15	
	Jungipore ..	7.35	
<b>RAJSHAHY DIV.</b>	11 Dinagapore, ..	.....	Report not received.
	12 Rajshahye, " 12 ..	4.07	Weather—rather heavy rain at beginning of week; latter part more settled. Harvesting of <i>aus</i> paddy continues. Prospects generally fair, except where damage has been done by floods. Fever general.
	Natlote ..	6.98	
	Nowgong ..	6.90	
	13 Rungpore, " 12 ..	1.49	Weather—close with occasional rain and cold easterly wind. Harvesting of <i>aus</i> has been brought to a close. Transplanting of <i>amun</i> going on. Jute is being cut and steeped. The rainfall during the week has done much good to the <i>amun</i> transplanting in the Kurigram sub-division. Malarious fever is unusually prevalent in the Sudder station. Public health otherwise good.
	Kurigram ..	5.71	
	Nilphamari ..	4.57	
	Gaibanda ..	4.53	
	14 Bogra, " 12 ..	3.98	Weather—early part of week wet, latter part dry. A couple of slight shocks of earthquake during the week. Prospects of crops continue to be favourable. <i>Aus</i> is being reaped. Public health fair.
<b>RAJSHAHY DIV.</b>	15 Pubna, " 12 ..	7.96	Weather—cloudy and rainy. Rivers falling slowly. Prospects of crops very good. Public health fair.
	Serajgunge ..	6.95	
	16 Darjeeling, " 12 ..	5.59	Weather—wet; getting colder. The current harvest of all produce except jute has turned out below expectation owing to the wet, but is average. Prospects all good.
	17 Julpigoree, " 12 ..	1.18	Morning and evening very cool. A good deal of cloud. All crops looking well and prospects at present very favourable. Cattle-disease very bad in Alipur and Fallacotta. Two shocks of earthquake felt at Alipur on Saturday, the 6th, at 12 30 P.M.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.—concl'd.</b>			
<i>Eastern Districts.</i>			
Dacca Division.	18 Dacca, Sept. 12 '85	5.84	Weather—cloudy and incessant rain during the week. <i>Aus</i> paddy and jute being cut; outturn good. Prospects of <i>aman</i> good. Public health good.
	Manickgunge ...	8.48	
	Munshigunge ...	3.40	
	Narsingunge ...	5.65	Weather—cool with much rain. Rather too much water, but prospects generally good. Sunshine badly wanted for threshing. Prices in consequence rising.
	19 Furreedpore, " 12 "	4.32	
	Madaripore ...	3.11	Weather—seasonable. Much rain. Transplanting of <i>aman</i> nearly over. Constant rain has caused slight damage to the harvested <i>aus</i> paddy. General health good.
	20 Backergunge, " 10 "	5.73	
	21 Mymensingh, " 11 "	11.16	Heavy rain throughout the district, especially on the 7th instant, when 6.7 inches fell at Mymensingh. A smart shock of earthquake on the noon of the 5th instant. Jute and <i>aus</i> rice still being cut. Prospects of <i>aman</i> rice excellent.
	Jamulpur ...	6.69	
	Kishoregunge ...	11.26	
	Atia ...	4.84	
Chittagong Divn.	22 Chittagong ...	8.66	Report not received.
	23 Noakhally, Sept. 11 '85	5.08	
	Fenny ...	11.10	Weather—seasonable. Wind generally southerly and sometimes northerly. Reaping of <i>aus</i> nearly completed; about two annas of the crop destroyed by the late rain. Transplanting of <i>aman</i> continues.
	24 Tipperah, " 10 "	5.04	
	Brahmanbariah ...	13.28	Weather—unsettled with constant showers. Rice appears a magnificent crop. Jute giving fair returns, and sugarcane promises well. Public health has improved owing to the heavy rainfall. Price of rice rising.
	25 Chittagong Hill Tracts, " 8 "	3.65	
	Hill Tipperah, " 9 "	6.44	Heavy rain throughout the week. Harvesting of <i>joom</i> paddy still continues. Prospects of sugarcane and cotton good. Public health slowly improving.
<b>BEHAR.</b>			
Patna Divn.	26 Patna, Sept. 12 '85	6.76	Weather—hot. <i>Bhadai</i> crops on low and <i>deerah</i> lands have been greatly damaged by the unusual overflow of the Ganges. Transplanting of paddy still continues. Cholera still reported from the sub-divisions.
	Dinapur ...	2.74	
	27 Gya, " 12 "	4.14	Weather—cloudy. <i>Bhadai</i> has been slightly damaged in Nowada and Jehanabad. Prospects of rice crop good. Cholera reported from Husna only. Prices slightly easier, and general health improved.
	28 Shahabad, " 12 "	1.07	
	Buxar ...	4.75	Weather—warm and bright with occasional clouds. Transplanting of rice seedlings completed. Harvesting of <i>bhadai</i> progressing. Prospects of <i>aghani</i> rice favourable, and the break in the rains will further improve them. Fever reported from Sasseram and Buxar. Cholera abating.
	29 Darbhanga, " 12 "	5.19	
	Tajpur ...	7.94	Weather—very wet. Transplanting of paddy nearly over, and prospects seem to be promising. <i>Bhadai</i> crops have been very nearly harvested. Some injury has been done to them by the late excessive rain. A break in the weather for a few days is absolutely necessary. Prices still continue stationary. Public health generally good.
	Madhubani ...	5.25	
	30 Mozufferpore, " 12 "	6.67	Weather—cloudy and rainy, but now bright and hot. Maize harvest has commenced. Prospects generally good, but considerable damage from inundation. Public health indifferent.
	Hajipur ...	3.35	
Bhagalpur Divn.	31 Saran, " 12 "	2.19	Weather—bright and sultry. A break in the rains. <i>Bhadai</i> crops fast ripening (though in places injured by excessive rain), and the harvest will shortly commence. Prospects of winter paddy continue good. Cholera abating.
	Sitanurhi ...	3.26	
	32 Chumpanu, " 12 "	0.24	Weather—bright and sultry. A break in the rains. <i>Bhadai</i> crops fast ripening (though in places injured by excessive rain), and the harvest will shortly commence. Prospects of winter paddy continue good. Cholera abating.
	Sewan ...	2.65	
	Gopalgunge ...	0.85	Weather—seasonable. Excessive rain has done some damage to <i>makai</i> and other <i>bhadai</i> crops. Prospects of <i>aghani</i> crops excellent except where injured by caterpillars. Prices have fallen slightly. Cholera has somewhat abated both in town and the interior.
	33 Monghyr, Sept. 12 '85	1.89	
	Begusserai ...	6.09	Very heavy and continuous rain. Prospects of <i>aghani</i> good; transplanting completed. Cholera has abated. Prices steady.
	Jamui ...	7.66	
	34 Bhagupore, " 12 "	6.80	Heavy rain in the first part of the week; weather finer the last three days. Prospects of <i>bhadai</i> crops and winter rice in the north very good; some damage has been done to the <i>bhadai</i> , which is being harvested, by the wet weather, but for this it would have been a bumper crop. <i>Murwa</i> selling at a piece a seer. Prospects in the south unaltered. A break in the rains is wanted. <i>Janera</i> outturn has been good except where the floods destroyed it. <i>Janera</i> is selling at 25 seers per rupee. Cholera very bad in Banka, and some cases have occurred in Bongong.
	Banka ...	12.69	
Bhagalpur Divn.	Muddehporeah ...	9.66	Weather—fine and hot. <i>Aghani</i> transplanting nearly finished, but very late in parts. <i>Bhadai</i> harvest good, except in tract flooded by Ganges. Fever prevalent, Ganges highest this year about 7th September; it has since fallen considerably.
	Soopole ...	5.17	
	35 Purneah, " 12 "	4.35	Weather—first part of the week cloudy and rainy; last three days clear and sunny. Prospects of winter rice continue good. Rivers falling. Common rice 14 seers per rupee at English Bazar. Public health fair.
	Kissengunge ...	6.06	
	Arrarrah ...	4.54	There has been a change in weather with the change of moon, and barometer has risen from 29.23° on the 5th to 29.46° today (12th). Storm of previous week appears to have subsided. Moderate rain everywhere but in Pakour and Godda. In the latter sub-division enormous rain has done some damage to Indian-corn. Rice doing well everywhere. Floods in Rajnehal continue unabated, and there is no hope that any of the submerged crops will survive. Cholera still prevalent here and there.
	36 Maldah, " 12 "	2.46	
	Chanchal ...	7.37	Weather—first part of the week cloudy and rainy; last three days clear and sunny. Prospects of winter rice continue good. Rivers falling. Common rice 14 seers per rupee at English Bazar. Public health fair.
	Gazole ...	2.22	
Bhagalpur Divn.	37 Sonthal Pergah, " 12 "	6.2	There has been a change in weather with the change of moon, and barometer has risen from 29.23° on the 5th to 29.46° today (12th). Storm of previous week appears to have subsided. Moderate rain everywhere but in Pakour and Godda. In the latter sub-division enormous rain has done some damage to Indian-corn. Rice doing well everywhere. Floods in Rajnehal continue unabated, and there is no hope that any of the submerged crops will survive. Cholera still prevalent here and there.
	Deoghur ...	3.31	
	Godda ...	3.51	Weather—first part of the week cloudy and rainy; last three days clear and sunny. Prospects of winter rice continue good. Rivers falling. Common rice 14 seers per rupee at English Bazar. Public health fair.
	Rajnehal ...	11.39	
	Jamtara ...	2.6	There has been a change in weather with the change of moon, and barometer has risen from 29.23° on the 5th to 29.46° today (12th). Storm of previous week appears to have subsided. Moderate rain everywhere but in Pakour and Godda. In the latter sub-division enormous rain has done some damage to Indian-corn. Rice doing well everywhere. Floods in Rajnehal continue unabated, and there is no hope that any of the submerged crops will survive. Cholera still prevalent here and there.
	Pakour ...	1.52	
Bhagalpur Divn.	38 ...	7.19	Weather—first part of the week cloudy and rainy; last three days clear and sunny. Prospects of winter rice continue good. Rivers falling. Common rice 14 seers per rupee at English Bazar. Public health fair.
	39 ...	7.19	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
ORISSA DIV.	38 Cuttack, Sept. 11 '85	0.50	Weather—clear and very hot. Reaping of <i>beali</i> continues. <i>Sarad</i> crop on unirrigated lands urgently requires rain. Price of rice rising; common rice sells at 11 seers per rupee in the town, and from 17 to 18 seers in the interior. Public health generally good.
	39 Pooree, " 10 "	1.72	Weather—hot and cloudy. Weeding and transplanting of <i>sarad</i> going on. More rain wanted for crops on high lands. <i>Neali</i> being harvested. Miscellaneous crops doing well. <i>Sarad</i> paddy in the Chalka tracts withering from drought. Common rice is selling at an average of 17 seers 15 chittacks per rupee in the Sudder sub-division, and 17 seers 11 chittacks in the Kuoonda sub-division. Cases of cholera still reported from the interior of the district.
	Khoorda " ...	0.63	
	40 Balasore " 11 "	0.78	Weather—hot and cloudy. Prospects of crops continue favourable. Transplanting still continues at places. Public health generally good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
	41 Hazaribagh, Sept. 11 '85	5.38	Weather—heavy rain the first three days, latterly bright and clear. The break of the last three days is proving of great benefit. <i>Bhadai</i> is being harvested with outturn a little below the average. Rice crops continue to promise well. Cholera still very prevalent in certain thanas, and fever and cases of small pox reported from a few villages.
	42 Lohardugga, " 12 "	0.18	Weather—hot and dry for the season. Prospects good, but the rice on higher stretches wants rain. <i>Gora dhan</i> being reaped. Prices falling on the whole. Much damage reported from western part of Palamow from overflowing of the Sone. Cholera still prevalent in Ranchi, Mandar, and Lohardugga thanas.
	43 Singhbhum, " 11 "	0.05	Weather—seasonable. Bright weather during the week has done great good to all crops. <i>Gora dhan</i> , <i>makai</i> , and <i>goondli</i> are being reaped with fair results. Prices steady. General health good.
	44 Manbhum, " 12 "	0.51	Weather—fine and favourable for crops. All crops doing well. Prices falling, and public health good.
	Govindpore, " ...	0.72

ALEXANDER PEDLER,  
Offg. Meteorological Reporter to the Govt. of Bengal.

## METEOROLOGICAL AND RAINFALL SUMMARY OF THE PROVINCE OF BENGAL FOR THE MONTH OF AUGUST 1885.

THE normal meteorological conditions in Bengal during August resemble those of July to a very great extent, and the month is therefore nearly as important as July from a meteorological point of view. The south-west monsoon winds continue to blow over the Province with almost undiminished force during the greater part of August, though towards the end of the month, or commencement of September, wind velocities begin to fall off. The normal rainfall in August is distinctly, though slightly, smaller than in July, and this would tend to show that the monsoon current even in August commences to weaken. The greater part of the rainfall in Bengal in August is undoubtedly brought up by the Bay of Bengal current, but a considerable part of the rainfall at the western stations of the Province is also due to the Bombay branch of the current, which, interacting in these districts with the Bengal branch, causes ascensional air motion, and consequently increased precipitation of rain. The Bay of Bengal branch alone gives the heaviest rainfall to the southern, eastern and northern districts, but the interaction just mentioned increases the rainfall in the western districts, and thus supplements the action of the Bengal current, and tends to produce greater uniformity of rainfall over the whole Province.

The actual amount of rainfall in August will no doubt depend mainly on the strength and volume of the Bay of Bengal monsoon current, the heaviest rainfalls usually occurring in the eastern and northern districts, and the amount slowly diminishing towards the western districts, but the actual distribution will be affected by the causes which have been discussed in the previous monthly summaries. One of the causes which will produce marked variations from the normal distribution of rainfall will be the formation and passage of areas of barometric depression or small cyclonic storms, which bring large amounts of rain to the districts through which they pass. The formation of such storms is a prominent characteristic of many rainy seasons, though they are to a certain extent absent in others; and as the line of country through which they pass varies very considerably, they are prominent causes in modifying the distribution of rain in particular years. A second cause which modifies the normal distribution of the rainfall is the varying strengths of the two currents, and the amount and position of their interaction, and it will be seen that, if from any cause a larger amount of interaction than usual takes place over the western districts of the Province, the rainfall will be increased by a corresponding amount.

The normal distribution of rainfall during the month is comparatively simple. The two localities in which rainfall is heaviest, and where the amount exceeds 20 inches, include, first, the Chittagong, Noakholly, and Backergunge districts; and second, the Julpigoree, Cooch Behar, and Darjeeling districts. The area which receives a rainfall of between 20 and 15 inches starts from Sangor Island and runs nearly parallel to the sea coast, then turns to the north, runs parallel to the Tipperah and Sylhet hills, and through the centre of the Rungpore district to Kissengunge in the Purneah district. The greater part of Chutia Nagpur, and of South-West, Central, East and North Bengal, receives a rainfall of from 12 to 15 inches, while the greater part of Behar receives only from 10 to 12 inches. The central districts of Behar receive the smallest amounts of rain, the average being generally rather less than 10 inches.

*Meteorology of the month.*—Generally speaking, the month of August has been characterised by exceptionally heavy and in some cases excessive rainfall over a large part of the Province. In South-West Bengal, South Behar, and Chutia Nagpur, the rainfall has been very much larger than the normal, and in East Bengal, North Behar and Orissa the rainfall has been nearly normal, while North Bengal shows rather a decided defect.

At the close of the previous month a small cyclonic storm had passed away from Bengal into the North-West Provinces, and with its advance a light monsoon had set in over the Province. For the first two days of the present month pressure fell generally in Bengal, and a slight barometric depression was formed over Central Bengal, which on the 3rd instant commenced to travel in a westerly direction and became absorbed in the comparatively low pressure area which generally exists at this season of the year in the western districts. The small depression was attended with the usual cyclonic circulation of winds, and during its existence in Central Bengal, with its westerly movement, it brought moderate to heavy rain to many of the districts in Central and South-West Bengal, and also to Chutia Nagpur and parts of South Bengal and Orissa, but in East and North Bengal and North Behar the rainfall was decidedly lighter. Immediately after the disappearance of the first depression, a second area of low pressure commenced to form over Central Bengal, which was attended by the usual cyclonic circulation of winds. It moved in a westerly direction, and on the morning of the 5th its centre was not far from Burdwan, and on the 6th it had moved to Chutia Nagpur not far from Hazaribagh, while on the 7th the small storm was distinctly perceptible in the neighbourhood of Gya, though it was evidently growing more feeble and was rapidly breaking up. This storm was decidedly larger and more influential than the previous one, and it was fed by rather strong moist southerly winds, and it therefore gave rise to very heavy rain in the districts affected by it, while at the same time it brought lighter rain to the other districts of the Province. With the advance of this small storm, a fairly strong monsoon current set in from the Bay of Bengal, and on the 7th practically all stations in the Province were influenced by the Bay of Bengal branch of the monsoon only. On the 8th a rather stronger advance of the

Bombay current took place, and a westerly wind blew over the greater part of the Province, necessarily causing a considerable amount of interaction between the two branches of the monsoon, and this was immediately followed by heavy rain, the rainfall being particularly heavy in Behar and North Bengal. This action between the two opposing wind currents set up a slight circulation of winds in Central Bengal, and as this was accompanied by a falling pressure, a small but distinct barometric depression was formed on the 9th, the centre of which was apparently between Calcutta and Jessore, and round which there was a decided cyclonic circulation of winds, though the wind velocities were feeble. The depression was, however, an insignificant one, and it rapidly disappeared, while another small depression was formed in the north-west angle of the Bay, the centre being on the 10th apparently between Balasore and False Point. The depression moved in a westerly direction, and on the following day it was near Cuttack, and on the 12th it had disappeared. On the 13th a small depression appeared off the South Orissa coast with its centre near Gopalpore, and this advanced in a north-westerly direction crossing the coast, and on the 14th it was near Cuttack; on the following day it had advanced further inland towards Chutia Nagpur and had disappeared.

On the 16th a rapid fall of pressure took place in the north-west angle of the Bay, and a small cyclonic storm was formed. It was, however, formed too close to the land for it to have time to gather strength, and it was decidedly a feeble storm, though it gave rise to a rough sea and strong winds at the Sandheads. On the morning of the 17th it had moved in a north-westerly direction and was in the South of Chutia Nagpur, and on the 18th it had disappeared. The depression of course carried with it moderate to heavy rain, and as it advanced a fresh rush of southerly moist winds flowed over the Province. About this time another advance of the Bombay current took place, and the two branches of the monsoon current commenced to interact, and on the 19th rather heavy rainfall occurred in the western and south-western districts. On this date the lowest pressure in the Province was in the western part of South Behar, and round the low pressure area the opposing winds commenced to circulate slowly. The westerly winds having strengthened, the low pressure area with its circulation of winds moved in an easterly direction into North Bengal, and on the 21st the depression, which was near Maldah, became exceedingly feeble and disappeared. On the 22nd, with a very rapid fall of the barometer which took place in South-East Bengal, a new barometric depression was formed in this district with its centre near Dacca. The fall in this district was very rapid, and at Jessore, Chittagong and Comilla the decrease exceeded a tenth of an inch. There was on this day a very decided convergence of the winds towards the area of low pressure in East Bengal, and with the heavy rainfall which occurred in this district at the same time, the small cyclonic storm became decidedly more intense, and commenced to move in a westerly direction, giving particularly heavy rain in its path. At the same time, at the westerly stations of the Province, westerly winds were blowing, and at the northern stations easterly winds were reported, so that a considerable amount of interaction was taking place, which caused heavy rainfall. The depression moved in a westerly direction, and on the 23rd its centre was between Jessore and Calcutta, and it was giving on this day exceptionally heavy rain to the districts through which it was passing. On the 24th the small storm had advanced into the south of Chutia Nagpur, and its centre was apparently almost due south of Hazaribagh, though it was clear that the storm was becoming more feeble, and on the 25th it had moved to the north-east corner of Chutia Nagpur, and it was then extremely feeble and was evidently rapidly breaking up. The formation and advance of this storm were the main features in the meteorology of the last ten days of the month. Round the small storm there was the usual well marked cyclonic circulation of winds, and with the advance of the storm into the interior, strong south-easterly and easterly winds set in over the Province. The storm was only of small intensity with regard to the wind velocities which accompanied it, but with regard to the rainfall it brought, it was of considerable importance, particularly during the first two or three days of its existence, as will be seen from the following record of rainfall of stations affected by it; thus on the 21st Kutubdia (Chittagong district) reported 7·18 inches of rain, Cox's Bazar 4·14 inches, Fenny 4·85 inches and Chaudpore 5·12 inches. On the 22nd, Jehanabad in the Hooghly district received 12·50 inches of rain, Chittagong 4·58 inches, Kutubdia 5·42 inches, Satkhira 4·12 inches, Hooghly 4·56 inches, Goalundo 5·50 inches, and Furreedpore 4·15 inches. On the 23rd, Bongong (in the Jessore district) reported 10·31 inches, Raipur (Bankoora district) 7·57 inches, Anda (Bankoora district) 7·38 inches, Khatra (Bankoora district) 7·10 inches, Bankoora 10·33 inches, Bishenpore 5·50 inches, Ranaghat 4·73 inches, Mohesreka (Howrah district) 6·39 inches, Calcutta 7·84 inches, Dum-Dum 4·90 inches, Garbeta (Midnapore district) 5·34 inches, Midnapur 8·64 inches, and Tumlook (Midnapur district) 8·15 inches.

The small storm had ceased to have any marked effect on the meteorology of the Province on the 25th instant, and on the following day pressure was falling in East and North Bengal, while in other districts it was rising. There appeared on this day to be a distinct tendency to again form a low pressure area in South Bengal. On this day, too, with the complete disappearance of the first depression from Behar, a westerly wind current set in at the western stations, producing decided interaction with the easterly and south-easterly winds previously blowing, and heavy rain was again reported from the western stations in Behar, Chutia Nagpur and in South-West Bengal. The tendency to the formation of a barometric depression in South Bengal became much more marked on the 27th, and a small and feeble depression was distinctly formed over the Sunderbans to the south-east of Calcutta, which was attended by the usual cyclonic circulation of winds. On the

28th the depression had rather increased in area, though it had not intensified to any material extent, and it was moving in a northerly or north-westerly direction, the lowest pressure being reported from Calcutta, and the depression being apparently only a short distance to the south-east of this station. The small depression remained almost stationary on the 29th, but on the morning of the 30th it had moved in a northerly direction and was in Central Bengal, the centre of the disturbance being to the north of Krishnagore, while on the 31st it had moved in a north-westerly direction, and it was over the central parts of South Behar, the centre being apparently between Gya and Bhagulpur. This storm also, during its formation and advance, brought up moderate to heavy rain to the southern, central and south-western districts of Bengal.

*Barometric depressions during the month.*—It will thus be seen that Bengal has been subject to the action of no less than nine barometric depressions during the month, most of which were of a very feeble character; of these, three were formed in Central Bengal and moved towards Chutia Nagpur and South Behar; two were formed in South and South-East Bengal, and passed in a westerly and north-westerly direction through South-West Bengal into Chutia Nagpur; two were formed in the north-west angle of the Bay and passed through West Bengal into Chutia Nagpur; one was formed off the South Orissa coast and passed through Orissa into Chutia Nagpur, and the ninth was an extremely feeble depression which was present in South Behar and North Bengal, and disappeared near Maldah. As usual these depressions have brought heavy rain, and it is therefore clear that South-West Bengal, South Behar, and Chutia Nagpur will have received very large amounts of rain, while East Bengal, North Behar and Orissa will have received moderate amounts of rain, while North Bengal has received comparatively small amounts of rain.

*Pressure.*—Was during the month of July very nearly equal to the normal, the average variation for the whole Province being a defect of only 0.008", but with the constant succession of barometric depressions which has occurred in Bengal during August, the average pressure for the month has fallen very decidedly below the normal, and the variation for August has become a defect of rather less than 0.04". The variations during the month have been of the usual oscillatory character, but these have to a great extent been masked by the changes accompanying the formation and advance of the various depressions. In the first week the changes of pressure were not very large, and the average defect was about 0.007", but the distribution of pressure was unequal; and while Gya and Berhampore showed defects of 0.03", in East Bengal pressure was normal, and in Orissa there was an excess of 0.03". During the second week pressure fell rather rapidly, and the average defect became 0.04", and while in Orissa the defect had increased to 0.07", in South-West Bengal it was 0.05", and in East Bengal, South Behar and Chutia Nagpur the defect was 0.03", while in North Behar pressure was normal. In the third week the average defect was 0.03" and the distribution had become very even, but in the fourth week the defect over the Province had increased to 0.08", and the defect was most marked in the southern and central districts, where at Calcutta it was 0.12", at Jessore 0.11" and at Behampore 0.1". The average defect for the month has thus been about 0.03" to 0.04". The largest average defect during the month, as might be expected, has been in South-West Bengal where it equals 0.06"; in South Behar it has been 0.04", in Chutia Nagpur, East Bengal and Orissa about 0.03", while in North Behar it has been only 0.01".

*Temperature.*—The variations of temperature during the month have again been of little importance. During the previous month the average temperature of the Province was very nearly normal, and for the first two weeks of the present month the changes were of the usual oscillatory character, and the average temperature was scarcely altered. With the occurrence of the exceptionally heavy rain in the third and fourth weeks of the month, temperature generally fell and the average temperature of the Province for the fourth week in the month was 2° in defect. For the whole month of August the average temperature of the Province has been rather less than 1° in defect, the areas of greatest defect being South Behar, Chutia Nagpur and South-West Bengal; in North Behar temperature has been, if anything, slightly in excess.

*Winds.*—The rainfall for the month having been extremely heavy over a large part of the Province, it might perhaps be expected that the strength of the monsoon current, as measured by the wind velocities at the head of the Bay would have been proportionately large; but this scarcely seems to have been the case. Thus the average daily wind velocity at False Point during August has been about 245 miles against the normal velocity of about 215 miles; at Cuttack the actual daily movement of wind has been 62 miles against the normal movement of 66 miles. At Saugor Island the daily movement in August has been about 345 miles against the normal of about 270 miles; at Jessore the actual daily velocity has been 106 miles against the normal 98 miles; at Dacca the velocity per day has been 125 miles against the normal velocity of 152 miles; and at Chittagong the mean daily movement registered has been 144 miles instead of the normal movement of 145 miles. It would therefore appear that at the western stations, on or near the coast, the wind velocity or the strength of the monsoon has been a little greater than usual during August; while at the eastern stations the velocity has been a little lower than usual. These small differences, however, will scarcely account for the largely increased rainfall which has been received.

*Rainfall.*—The meteorological conditions on which the excessive amount and the distribution of the rainfall during the month have depended have already been discussed in the Meteorological Summary above, and its distribution as to time and place have also been

indicated. Owing to the almost constant succession of small depressions, each bringing with it moderate and in some cases heavy rainfall, it will be seen that there have been no breaks in the rains of any practical importance. In some districts there have been of course periods of two or three days during which rainfall became light and local, and the districts in which these have occurred have been principally Behar and North Bengal. Thus in North Bengal and North Behar the period from the 1st to the 4th was comparatively rainless, and again in Behar generally from the 12th to the 15th rainfall was scanty, but with these exceptions rainfall has been tolerably continuous in all districts throughout the month. The extreme frequency of the rainy days is perhaps best shown by stating that in South-West Bengal and Chutia Nagpur the rainy days have averaged nearly 25 during August, or about 5 in excess of the normal number. In Orissa, East Bengal, North Bengal and South Behar the number of rainy days has averaged from 20 to about 23; while in North Behar, where the number of rainy days has been the smallest in any district, rain has been received on 17 days.

The lines of equal rainfall during August, very roughly speaking, run diagonally across the Province, starting from the south-eastern districts running to the north-western districts. There are the usual lines of heavy rainfall in the Darjeeling Hills, where there are some stations which have received 25 inches of rain and upwards; the rainfall, however, rapidly diminishes, and a rather large district, starting from Tipperah including the Mymensingh, part of the Pubna, Bogra, Dinapore, Purneah, Bhagulpore and Durbhanga districts, has received less than 10 inches, the rainfall being less than 6 inches at such stations as Brahmunbariah, Kishoregunge, Netrokona, Jamalpore and Gyabanda. To the south-east of this line the rainfall again steadily increases till the central and southern parts of the Province are reached, where the rainfall has been almost uniformly in excess of twenty inches, while there is also a large area where the rainfall has been more than 30 inches, the latter area including the greater part of the Midnapore district. Further to the east and south-east again the rainfall decreases, and the greater part of Chutia Nagpur has received a rainfall of from 15 to 20 inches. In the southern part of East Bengal the rainfall rapidly increases, until at Cox's Bazar the very large amount of 63·46 inches was registered.

When the actual is compared with the normal fall, it appears that the whole of the northern and north-eastern districts have received a defective rainfall, while almost the whole of the remainder of the Province has received a fall largely in excess. The line separating the area in defect from that in excess starts from the northern part of the Chittagong Hill Tracts, runs to the south of Fenny and Munshigunge, to the north of Serajgunge, and then between the Rajshahye and Dinapore districts, then to the south of the Purneah, Bhagulpore and Durbhanga districts, and then passes through Mozufferpore and to the north of Chumparun. A large area of the central parts of the Province has received more than 10 inches of excess rainfall. This area stretches from Patuakhally in East Bengal to Contai in the Midnapore district, and the band of excess rainfall runs in a north-westerly direction, gradually narrowing in its advance till it finally reaches Buxar in South Behar. On either side of this area of large excess, the amount of excess gradually diminishes, reaching the area in defect in North Bengal on the one side, and on the other side reaching an area in defect in Orissa. In some cases the amount of excess rainfall at stations has been extraordinarily large; thus at Cox's Bazar a rainfall of no less than 36·7 inches in excess of the normal was recorded. At Jehanabad in the Hooghly district the excess amounted to 32·2 inches; at Tumlook in the Midnapur district the excess was 22·5 inches; at Ghatal, also in the Midnapur district, the excess was 22·1 inches; at Contai, also in the same district, 19·5 inches, and finally at Midnapur itself the excess rainfall for the month was 18·4 inches. It will thus be seen that the Midnapur district in particular has suffered from an enormous excess of rainfall during the month.

Taking up the meteorological districts in detail, South-West Bengal, for the first two weeks of the month, received rather more than the normal amount of rain; but in the second and particularly in the third week of the month the rainfall was very largely in excess, and for the whole month the average amount received was 23·66 inches against the normal amount of 12·22 inches. The excess fall in this district has therefore amounted to 85 per cent. of the normal. South Behar has been receiving an excess rainfall throughout the month, and this district reports 17·55 inches against the normal 10·91 inches, and the excess is therefore equal to 61 per cent. of the normal. In Chutia Nagpur rainfall was in excess of the normal in the first, third and fourth weeks of the month; while in the second week there was a very decidedly defective fall. For the month, the rainfall in this district has been 19·55 inches against the normal 12·89 inches, and the excess has therefore been 52 per cent. of the normal. In East Bengal the rainfall was again deficient in the second week of the month, while it was in excess for the remainder of the month. This district averaged 18·4 inches of rain against 15·72 inches, and has shown an excess of 16 per cent. above the normal. In North Behar the rainfall was fairly uniformly distributed, and it received 11·75 inches against 11·04 inches, and was thus only 6 per cent. in excess. In Orissa the rainfall was in excess in the third week only, and the average amount reported for the month was 11·72 inches against the normal 11·65 inches, which is practically a normal fall. The only district in which the rainfall was in considerable defect was North Bengal, and this has received 10·47 inches against 14·67 inches, the defect has here been equal to 29 per cent. of the normal. Taking the meteorological divisions as being of equal value, during the month of August the rainfall for the whole Province was 29 per cent. in excess of the normal amount for the same period.

The excessively heavy falls at the various stations, both for the whole month and for isolated days, have been so extremely numerous that it is impossible to attempt to enu-

merate them; and a few of the exceptionally heavy rainfalls in districts only can be indicated. In the 24-Pergunnahs district the rainfall was 28·04 inches against the normal 12·28 inches. In the Midnapore district it was 35·27 inches against the normal 12·73 inches. In the districts represented by Saugor Island it was 29·23 inches against 14·03 inches. In the Bankoora district it was 27·11 inches against 12·23 inches; and in the Burdwan district 19·48 inches against 11·93 inches. In the Beerbhoom district the rainfall was 20·31 inches against 12·83 inches. In the Hazaribagh district it was 23·34 inches against 12·53 inches, and in the Singhbhum district it was 20·58 inches against 13·92 inches. Finally, in the Chittagong district the rainfall was 42·58 inches against the normal amount of 21·62 inches.

The following table gives full data for the comparison of the actual and the normal rainfall of the month of August in all districts of the Province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third column in a slightly different form. It states as a percentage how much the district rainfall of the month varied in excess or defect from the normal rainfall, and is hence the difference between the numbers in the third column and 100.

Division.	District.	Normal district rainfall, August.	Actual district rainfall, August 1885.	Percentage of actual to normal rainfall.	Percentage excess (+) or deficit (-).

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns is wanting, the corresponding spaces in the total rainfall columns are left blank.

Calcutta, the 14th September 1885.

## SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 11TH OF SEPTEMBER 1885.

At the close of the previous week two slight barometric depressions existed, one having its centre to the east of Calcutta, while the centre of the second was to the south-west of Bhagulpore. The southern depression advanced in a northerly direction during the Friday night, and on the morning of Saturday, the 5th, it had become absorbed in the low pressure area which existed near Bhagulpore. There was also on this day a distinct and rather broad band of low pressure stretching in a north-westerly direction across the Province, the southern limit of the band being at Burrisal while the northern limit included the station of Purneah. Pressure on this day was largely below the normal, particularly in the districts affected by the low pressure, and at Bhagulpore the defect from the normal was 0.15". The wind system of the Province was of course materially influenced by these conditions, and round the area of low pressure winds circulated cyclonically, the wind directions at almost all the stations in the Province being affected in this way. Wind velocities were generally light, though with the advance of the depression rather strong winds set in at the southern and western stations. These conditions of course brought moderate to heavy rain to almost all parts of the Province.

The area of low pressure which thus occupied almost the whole of North Bengal and surrounding districts continued practically unaltered for the next four days, on some days slightly intensifying and on others slightly decreasing in intensity, and with its continued existence the wind circulation was unaltered, and thus conditions remained favourable for the production of heavy rainfall over the central, eastern and northern parts of the Province, while at the western stations, and particularly in Orissa and Chutia Nagpur, the rainfall gradually commenced to decrease and became light and local. On the 10th and on the 11th pressure commenced to rise rapidly over the whole Province, the rise being particularly rapid at the northern and eastern stations, and thus the area of low pressure in North Bengal was filled up, and the lowest pressure in the Province was transferred to the western and northern parts of Behar. With the disappearance of the depression the cyclonic circulation of winds also ceased, and the monsoon winds became light and feeble, and were to a certain extent driven back by a westerly current which brought with it fine weather to almost all districts. At the close of the week there was every appearance that a very distinct break in the rains would become established, and weather in most districts was clearing, and in the western districts it was fine with passing clouds, though of course there were still local showers, and in some cases of considerable amounts, particularly in the eastern and southern districts and at some of the northern stations.

The changes of pressure have been rather marked during the week. On the 5th pressure fell rapidly at the eastern and northern stations, while it rose at the western and southern stations. These changes were of course connected with the advance of the area of low pressure above noticed. For the following four days the variations were small, and pressure was generally below the normal in the eastern and northern districts, while on the last day of the week pressure rose rapidly, the previous defect was filled up, and the average pressure over the Province became about 0.08" above the normal, while at Durbhunga the excess was equal to 0.12". The average variation of pressure for the whole Province for the week has been a defect of 0.015", while the distribution has been a little unequal, and thus Chutia Nagpur and Orissa show generally an excess of 0.01", while East Bengal and probably North Bengal show a defect of at least 0.05".

The changes of temperature during the week have been rather larger than has been the case during the past few weeks, and while for the first four or five days of the week in the central, eastern and northern districts, owing to the heavy rainfall, temperature continued very low, during the last two days of the week, when the rainfall began to diminish in quantity, temperature rose rather rapidly in several districts. In the western districts the rise of temperature set in earlier, for the rainfall diminished in these districts from the earlier part of the week. For the whole week temperature over the Province has been 1° in defect, the greatest variations from the normal being in North Behar, where there has been a defect of 2.6°, while on the other hand Orissa shows an excess temperature of 2.0°.

Rainfall, as has previously been stated, has been abundant in the central, northern, eastern and southern districts during the week, and all districts, except Orissa and Chutia Nagpur, have again received an excess rainfall. In these two districts, and in Orissa in particular, the rainfall has been very scanty, and the number of rainy days in these districts has been small. Thus in Orissa the average rainfall for the week has been 0.41 inch instead of the normal fall of 2.66 inches, and this district has thus been in defect by 85 per cent. of the normal quantity. Chutia Nagpur has received 1.90 inches against the normal fall of 2.53 inches, and is therefore 25 per cent. in defect. On the other hand North Bengal has received an average fall of 3.26 inches against the normal fall of 2.81 inches, and the excess fall has therefore been 16 per cent. South-West Bengal has received 3.67 inches of rain, while the normal for the week is 2.44 inches, and the excess is therefore 50 per cent of the normal. North Behar reports 3.64 inches against the normal 2.00 inches, and is thus 82 per cent in excess. East Bengal has received an average fall of 7.14 inches, while the normal is 2.87 inches, the excess is therefore 149 per cent., and finally South Behar reports 4.73 inches against the normal 2.00 inches, and has received an excess fall of 137 per cent.

Results of the Meteorological Observations taken at the Alipore Observatory from  
6th to 12th September 1885.

The mean pressure of the seven days

The average pressure of the corresponding period for 24 years, S. G.'s Office

The total number of hours of bright sunshine

The maximum possible number of hours of sunshine

The mean temperature of the seven days

The average temperature of the corresponding period for 24 years, S. G.'s Office

The extreme variation of temperature

The maximum temperature

The highest velocity of the wind in one hour

The highest pressure of wind on one square foot

The mean relative humidity

The average relative humidity of the corresponding period for 24 years, S. G.'s Office

The total fall of rain from 6th to 12th September 1885

The average fall of the corresponding period for 24 years, S. G.'s Office

The total fall from 1st January to 12th September 1885

The average fall of the corresponding period for 24 years, S. G.'s Office

The mean pressure, temperature, &amp;c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, p passing temporary showers, t thunder.

ALEXANDER PEDLER.

METEOROLOGICAL OFFICE, INDIA;  
Calcutta, the 13th September 1885.

For Meteorological Reporter to the Government of India.

The mean temperature of the seven days ... .. 81.9

The extreme variation of temperature ... .. 18.2

The maximum temperature ... .. 92.0

The mean relative humidity ... .. 88

The total fall of rain from 6th to 12th September 1885 ... .. 0.69

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

METEOROLOGICAL OFFICE, INDIA;  
Calcutta, the 14th September 1885.

ALEXANDER PEDLER,  
For Meteorological Reporter to the Govt. of India.

## MEMORANDA.

THE table appended to this memoranda exhibits the vital statistics of the principal Municipalities in Bengal for the week ending 29th August 1885. The figures in it indicate—

1. That during the week in question births and deaths were registered in the proportions, respectively, of 24·6 and 44·2 per 1,000 of population, as opposed to 27·1 and 46·4 per 1,000, respectively, during the preceding week ending 22nd August, indicating a falling off in the registration of both events.

2. That these events were returned at the highest rates by the undermentioned Municipalities:—

Births.				Deaths.			
			Ratio per mille.				Ratio per mille.
Utterpara ...	...	...	85·0	Chupra ...	...	...	87·9
Durbhanga ...	...	...	40·9	Gya ...	...	...	76·5
Arrah ...	...	...	38·3	Patna ...	...	...	69·7
Chittagong ...	...	...	37·6	Bhagulpore ...	...	...	65·1
Mozufferpore ...	...	...	36·4	Purneah ...	...	...	58·9
Bhagulpore ...	...	...	36·2	Puri ...	...	...	48·3
Patna ...	...	...	33·1	Monghyr ...	...	...	47·9
Gya ...	...	...	31·5	Suburbs of Calcutta ...	...	...	41·5
Chupra ...	...	...	31·2	Mozufferpore ...	...	...	40·1
				Burdwan ...	...	...	39·7
				Serampore ...	...	...	39·2
				Hughli ...	...	...	36·2
				Arrah ...	...	...	32·3
				Durbhanga ...	...	...	30·7
				Jessore ...	...	...	30·6

3. That the diseases classified in the following table furnished the death-rates indicated below, in contrast with the results of the preceding week:—

				Ratio per mille during the weeks ending—	
				29th August 1885.	22nd August 1885.
Cholera ...	...	...	...	5·5	10·1
Small-pox ...	...	...	...	·2	·4
Fever ...	...	...	...	17·8	16·1
Bowel-complaints ...	...	...	...	7·3	8·0
Injury ...	...	...	...	·6	·7
Other causes ...	...	...	...	12·7	11·0

The noticeable points indicated by the above figures are that cholera prevailed with considerably diminished severity, and that fever and the diseases returned under the head of "other causes" were more fatal in their incidence.

4. That while the casualties from small-pox and violence were nowhere conspicuously heavy, cholera, fever, bowel-complaints and "other-causes" proved most fatal to life in the Municipalities named below:—

Cholera.		Fever.		Bowel-complaints.		Other causes.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.		Ratio per mille.
Chupra ...	43·9	Bhagulpore ...	38·0	Patna ...	18·4	Puri ...	35·7
Purneah ...	20·8	Gya ...	30·7	Gya ...	13·7	Gya ...	22·5
Arrah ...	17·9	Purneah ...	27·7			Patna ...	20·8
Monghyr ...	11·8	Burdwan ...	27·5			Chupra ...	18·6
Mozufferpore ...	9·7	Jessore ...	24·4			Bhagulpore ...	15·4
Gya ...	8·9	Patna ...	22·7			Suburbs of Calcutta ...	14·9
Patna ...	6·5	Monghyr ...	22·6			Serampore ...	13·7
Bhagulpore ...	5·4					Dacca ...	13·6
						Midnapore ...	12·4

5. That the death-rates in relation to *Sex*, *Class* and *Age*, stand as indicated below:—

According to Sex.		According to Class.		According to Age.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.
Males ...	44·4	Christians ...	26·1	Under 1 year	428·7
Females ...	43·9	Hindus ...	46·3	1 and under 5 years	78·7
Ratio of male deaths to every 100 female deaths	114	Mahomedans ...	39·8	5 " 10 "	23·6
		Budhists ...	24·2	10 " 15 "	23·1
		Other classes...	72·8	15 " 20 "	29·3
				20 " 30 "	24·9
				30 " 40 "	20·6
				40 " 50 "	21·7
				50 " 60 "	48·1
				60 years and upwards	91·1

*General Remarks on the fluctuation of principal staples carried on the East Indian Railway  
during the month ended 25th July 1885.*

## INCREASES.

*Wheat.*—The increase in this staple was due to a demand in Calcutta for export.

*Salt.*—The outturn at the Sambhar lakes being small, Liverpool salt was sent from Howrah to up-country stations.

*Other grains.*—This increase may be attributed to better crops attended with improved local demand.

*Railway Materials, Foreign.*—The construction of the Cawnpore-Kalpi and Bilaspur-Katni Railways, and the Benares bridge, accounts for the increase in this material.

*Lac.*—Although the prices in the Calcutta market were high, and business irregular, there was a slight increase in this commodity.

*Sugar.*—The increase in this staple is accounted for by a better demand in Rajputana and Central India.

## DECREASES.

*Coal.*—There was an increase in the upward traffic during the month, but there was a heavy falling off in the downwards traffic resulting in a net decrease in this staple.

*Cotton.*—Want of demand for export may be assigned as the cause of a slight decrease in this article of commerce.

*Piece-goods.*—A small decrease under this head may be attributed to dull markets.

*Rice (husked and unhusked).*—Deficient rainfall last season accounts for the decrease in this commodity.

*Seeds.*—The falling off in this staple may be attributed to ordinary fluctuation of trade combined with shorter distance traffic.

N. ST. L. CARTER, *Traffic Manager.*

TRAFFIC MANAGER'S OFFICE, JAMALPUR, the 10th September 1885.

**Weekly Return of Traffic Receipts on Indian Railways.**

H. H. RISLEY,  
Offg. Secy. to the Govt. of Bengal.

No. 3262A.

GENERAL.—The 14th September 1885.—The order of the 27th May last, granting privilege leave for 31 days to Baboo Nundjee, Temporary Deputy Magistrate and Deputy Collector, Lohardugga, is cancelled.

Mr. H. Thompson, Deputy Magistrate and Deputy Collector, Chittagong, is transferred to the Sonthal Pergunnahs, and is appointed to have charge of the Rajmehal sub-division of that district, with effect from the date on which he joined his appointment.

The 18th September 1885.—Moulvie Abdeol Ghuffoor, Deputy Magistrate and Deputy Collector, Midnapore, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code, with effect from such date as he may avail himself of it.

Baboo Bhupati Chuckerbutty, Officiating Deputy Magistrate and Deputy Collector, Howrah, is transferred to Midnapore, and is posted to the sudder station of that district.

Mr. J. Whitmore, Officiating District and Sessions Judge of Rungpore, is allowed leave for fifteen days, under section 72, chapter V of the Civil Leave Code, with effect from the 20th instant.

Baboo Sitikant Ghose, Officiating Deputy Magistrate and Deputy Collector, on special duty, Bankoora, is allowed leave for one month, under section 72, chapter V of the Civil Leave Code, with effect from such date as he may avail himself of it.

Mr. W. H. Grimley, on special duty, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code, with effect from the 22nd instant, or from such subsequent date as he may avail himself of it.

*The 19th September 1885.*—Mr. T. Inglis, Officiating Joint-Magistrate and Deputy Collector, Rancegunge, Burdwan, is transferred temporarily to Midnapore, and is posted to the sudder station of that district.

Mr. W. H. Thomson, Temporary Deputy Magistrate and Deputy Collector, Burdwan, is appointed temporarily to have charge of the Rancegunge sub-division of that district.

Baboo Hurri Chaitanya Ghose, Deputy Magistrate and Deputy Collector, is posted temporarily to the sudder station of the district of Burdwan on being relieved of his present appointment as Officiating Second Inspector of Registration Offices.

Baboo Mohanund Gupta, Deputy Magistrate and Deputy Collector, 24-Pergunnahs, is transferred to Cuttack, and is posted to the sudder station of that district.

This cancels the orders of the 10th instant, posting Baboo Mohinee Mohun Chuckerbutty to Cuttack and Baboo Juggobundhoo Bhattacharjee to Tumlook.

Mr. R. F. Rampini, Officiating Additional District and Sessions Judge, 24-Pergunnahs and Hooghly, is appointed to act temporarily as District and Sessions Judge, 24-Pergunnahs, with effect from the 14th instant.

Mr. J. G. Charles, Temporary Additional District Judge, 24-Pergunnahs, is appointed to act temporarily as Additional District and Sessions Judge, 24-Pergunnahs and Hooghly, in addition to his other duties, with effect from the 14th instant.

**POLICE.**—*The 18th September 1885.*—Mr. A. S. Judge, Officiating District Superintendent of Police, Howrah, is allowed leave for three months, under section 128, chapter X of the Civil Leave Code, with effect from the date on which he may be relieved.

Mr. R. W. Keown, Officiating District Superintendent of Police, Nuddea, is appointed to act as District Superintendent of Police, Howrah, during the absence, on leave, of Mr. A. S. Judge, or until further orders.

**REGISTRATION.**—*The 17th September 1885.*—Baboo Sharna Kamal Chuckerbutty, who was, under orders of January 1884, appointed to be Rural Sub-Registrar of Munshigunge, in the district of Dacca, on probation for six months, is confirmed in that appointment.

**EDUCATION.**—*The 15th September 1885.*—Major-General C. Murray is appointed to be Secretary to the District School Committee of Moughyr, *vice* Mr. C. R. Marindin, transferred.

*The 17th September 1885.*—Baboo Odoy Chandra Sen is appointed to be a member of, and Secretary to, the District School Committee of Tipperah, *vice* Mr. William Dutt, transferred.

**OPIMUM.**—*The 17th September 1885.*—Mr. S. Cooper, Sub-Deputy Opium Agent, Futtehar, is allowed leave for one month, under section 72, chapter V of the Civil Leave Code, with effect from the 5th October next.

Mr. A. Christian, Assistant Sub-Deputy Opium Agent, is appointed to act as Sub-Deputy Opium Agent, Futtehar, during the absence, on leave, of Mr. S. Cooper, or until further orders.

**MEDICAL.**—*The 14th September 1885.*—Assistant Surgeon Tara Prosunno Roy, Assistant Chemical Examiner to Government, held charge of the office of Chemical Examiner to Government in addition to his own duties from the 11th to the 27th June 1885, during the absence, on privilege leave, of Surgeon L. A. Waddell.

Mr. J. Davis, Apothecary, Medical College Hospital, is appointed to act temporarily as Resident Surgeon, Eden Hospital, Calcutta, during the absence, on privilege leave, of Surgeon J. Clarke, or until further orders.

*The 17th September 1885.*—Surgeon-Major O. J. W. Meadows, Officiating Civil Surgeon, Hazaribagh, is allowed leave for one month, under section 72, chapter V of the Civil Leave Code, with effect from the 25th instant.

Surgeon D. G. Crawford, Officiating Resident Surgeon, Medical College Hospital, Calcutta, is appointed to act as Civil Surgeon of Hazaribagh, during the absence, on leave, of Surgeon-Major O. J. W. Meadows, or until further orders.

*The 18th September 1885.*—Surgeon J. French-Mullen, Civil Surgeon of Tipperah, is allowed leave for two months, under section 72, chapter V of the Civil Leave Code, with effect from the date on which he may be relieved.

Assistant Surgeon Mutty Lal Mookerjee, in medical charge of the Tirhoot State Railway, is appointed to have medical charge of the civil station of Tipperah, during the absence, on leave, of Surgeon J. French-Mullen, or until further orders, on being relieved of his present appointment.

*The 21st September 1885.*—Surgeon-Major H. B. Purves, Civil Surgeon, 24-Pergunnahs, is appointed to act as Civil Surgeon of Patna and Superintendent of the Temple Medical School, Bankipore.

Surgeon J. Clarke, Resident Surgeon, Eden Hospital, Calcutta, is appointed to act as Second Resident Surgeon, Presidency General Hospital, during the absence, on deputation, of Surgeon G. F. A. Harris, or until further orders.

The following notifications are republished from the *Assam Gazette* :—

*No. 299.—The 10th September 1885.*—Privilege leave of absence for three months, under section 74 of the Civil Leave Code, is granted to Mr. A. W. Steinberg, c.s., Assistant Commissioner, Hailakandi, with effect from the 26th October 1885.

*No. 300.*—Mr. R. R. Pope, c.s., Assistant Commissioner, Sylhet, is transferred to Hailakandi, and is placed in charge of the sub-division during the absence of Mr. A. F. Steinberg, c.s., Assistant Commissioner, or until further orders.

*No. 306.—The 11th September 1885.*—Privilege leave of absence for one month, under section 74 of the Civil Leave Code, is granted to Mr. G. Godfrey, c.s., Deputy Commissioner, Lakhimpur, with effect from the 4th October 1885, or the subsequent date on which he may avail himself of it.

F. B. PEACOCK,  
Chief Secy. to the Govt. of Bengal.

#### NOTIFICATION.

*The 14th September 1885.*—In exercise of the powers vested in him by the second clause of section 3 of the Santal Parganas Settlement Regulation, the Lieutenant-Governor is pleased to declare that the Land Improvement Loans Act XIX of 1883, and the rules framed under it, which have received the sanction of the Governor-General in Council, and the Agriculturists' Loans Act XII of 1884 and the rules framed under it, which have received the consent of the Governor-General in Council, shall have force and effect from this date in the Santhal Parganas.

H. H. RISLEY,  
Offg. Secy. to the Govt. of Bengal.

#### ERRATUM.

*The 21st September 1885.*—In the list for the Chittagong Division, contained in the schedule appended to the draft rules, regarding price lists prepared under the provisions of the Bengal Tenancy Act (VIII of 1855), published for general information and criticism in Part I, pages 829-832 of the *Calcutta Gazette* of the 19th August 1885, the following corrections should be made—

In column 2, for "Bulwah sub-division" read "sudder sub-division;" and in column 4, for "Kalitollah Hât" read "Kali Tara Hât," and for "Pashkatea Hât" read "Pachgachia Hât."

H. H. RISLEY,  
Offg. Secy. to the Govt. of Bengal.

#### NOTIFICATION.

##### Addendum.

*The 21st September 1885.*—To the description of the boundaries of the Mahakalgar Forest Reserve, situated in the Bhattabari pergunnah of the Julpigoree district, as published in the notification dated the 6th December 1884, at page 1206 of the *Calcutta Gazette* of the 10th idem, add—"and a separate block to the north-east of the stockade, similarly bounded and demarcated."

H. H. RISLEY,  
Offg. Secy. to the Govt. of Bengal.

#### NOTIFICATION

##### UNDER SECTION 4 OF ACT V (B.C.) OF 1875.

*The 22nd September 1885.*—Under the powers vested in him by section 4 of the Bengal Survey Act, V of 1875, the Lieutenant-Governor is pleased to appoint Munshi Nundjee to be an Assistant Superintendent of Survey in the district of Mozufferpore for the purpose of the survey of portions of that district ordered by the notification, dated 18th August 1885, published in Part I, page 828 of the *Calcutta Gazette* of the 19th August 1885.

H. H. RISLEY,

PORT OFFICE, Calcutta, the 7th September 1885.

## JUDICIAL DEPARTMENT.

No. 3263A.

*The 10th September 1885.*—Baboo Baman Das Sen is appointed to be an Honorary Magistrate for the Manickgunge Bench, in the district of Dacca, and is vested with the powers of a Magistrate of the third class.

*The 11th September 1885.*—The Lieutenant-Governor accepts the resignation tendered by Baboo Ram Lall Mukerjee of his appointment of Honorary Magistrate of the Cutwa Bench, in the district of Burdwan.

Baboo Jadu Nath Mukerjee is appointed to be an Honorary Magistrate for the Cutwa Bench, in the district of Burdwan, and is vested with the powers of a Magistrate of the third class.

*The 12th September 1885.*—Baboo Jamuna Prasad Singh and Baboo Beerkrishna Prasad Singh are appointed to be Honorary Magistrates for the Independent Bench at Sonbursa, in the district of Bhagulpore, and are vested with the powers of a Magistrate of the third class.

Mr. E. G. Williams is appointed to be an Honorary Magistrate for the Independent Bench at the sudder station of the Purneah district, and is vested with the powers of a Magistrate of the third class.

*The 14th September 1885.*—Baboo Nil Madhub Banerjee, Officiating Subordinate Judge of Purneah, is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court, up to the amount of Rs. 50 within the local limits of the sudder munsifi of that district.

Baboo Promatha Nath Chatterjee will continue to act as Munsif of Durbhunga, in the district of Tirhoot, during the absence, on deputation, of Baboo Nil Madhub Banerjee, or until further orders.

Baboo Iswar Chandra Chatterjee, B.L., is appointed to act as a Munsif in the district of Tirhoot, to be ordinarily stationed at Madhubani, during the absence, on leave, of Baboo Akhoy Kumar Chatterjee, or until further orders, with effect from the date on which he joined his appointment.

This cancels the order of the 19th ultimo, appointing Baboo Promatha Nath Chatterjee to act as Munsif of Madhubani.

*The 15th September 1885.*—Mr. A. H. Ward-Jones, Deputy Magistrate and Deputy Collector, Shahabad, is vested with the power to take cognizance, under clauses (a) and (b) of section 191 of the Code of Criminal Procedure (Act X of 1882) of offences for which he may try or commit for trial.

*The 17th September 1885.*—Baboo Poorno Chunder Gupta, Temporary Deputy Magistrate and Deputy Collector, Pubna, is vested with powers under sections 110 and 133 of the Code of Criminal Procedure.

**GRANT OF LEAVE TO MUNSIFS.**—*The 17th September 1885.*—Baboo Behari Lall Banerjee Munsif of Magoorah, in the district of Jessore, is granted leave for 10 days, under section 134, chapter X of the Civil Leave Code, with effect from the afternoon of the 6th September 1885.

**ERRATUM.**—*The 14th September 1885.*—In the notification of the 29th August 1885, published in the *Calcutta Gazette* of the 2nd September 1885, empowering Baboo Gyan Chandra Das, Officiating Deputy Magistrate, Pooree, to take down evidence in criminal cases in the English language, for "Baboo Gyan Chandra Das" read "Baboo Gogan Chandra Das."

F. B. PEACOCK,

*Chief Secy. to the Govt. of Bengal.*

#### NOTIFICATION.

*The 17th September 1885.*—It is hereby notified that, under the provisions of sections 35 and 40 of Act XI of 1865, the Lieutenant-Governor appoints Baboo Kali Prosonno Shome, Clerk of the Court of Small Causes, Howrah, to be Registrar of that Court, and vests him with the power to try suits up to Rs. 20 in value arising within the local limits of the jurisdiction of the Court.

F. B. PEACOCK,

*Chief Secy. to the Govt. of Bengal.*

#### NOTIFICATION.

*The 17th September 1885.*—The following amended Rule, which has been approved by the Lieutenant-Governor, is published for general information, in supersession of Rule I of the Rules made by Government under section 259 of Act X of 1865 for the custody and preservation of Wills, which appeared at page 1620 of the *Calcutta Gazette* of the 23rd October 1867:—

"I. All original Wills presented to a District Judge in accordance with the provisions of section 244 of Act X of 1865, shall, immediately upon the passing of the order granting Probate or letters of Administration under sections 254 and 255 of the same Act, be committed to the care of the Head clerk or Chief Ministerial officer of the Judge's Court, who shall be responsible for their safe custody."

F. B. PEACOCK,

*Chief Secy. to the Govt. of Bengal.*

*All candidates from the same institution must appear at one and the same place of examination.*

By order of the Vice-Chancellor.

W. GRIFFITHS,  
Registrar.

SENATE HOUSE,

The 16th September 1885.

It is hereby notified that for the ensuing half-yearly departmental examination of Junior Civilians, Deputy Magistrates and others to be held in November next, two local Committees will be formed in the Burdwan Division, viz. one at Midnapore for examinees employed in the district of Midnapore, and another at the Commissioner's office, Burdwan, for those employed in the districts of Burdwan, Bankoora and Beerbhoom. Officers employed in the districts of Hooghly and Howrah, who have to appear at the examination, will be examined by the local Committee at the Presidency, and must appear in the office of the Commissioner of the Presidency Division at No. 14, Hare Street, Calcutta.

ASUTOSH GUPTA,  
Personal Assistant, for Offy. Commr.

BURDWAN COMM'R'S. OFFICE, the 16th September 1885.

It is hereby notified for general information that the next half-yearly examination of Assistants and Deputy Magistrates and officers of the Police, Jail, Medical and Forest Departments, in the Chota Nagpore Division, will be held at Ranchi on the 9th November 1885 and following days.

C. C. STEVENS, Commissioner.

## NOTIFICATION OF THE BOARD OF REVENUE.

No. 860B.

NOTICE is hereby given that the Tenth Sale of Opium, the provision of 1883-84, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Monday, the 5th October 1885, at 11 A.M., and will comprise 4,166 chests, viz:—

	Chests.
Opium manufactured at the Patna Factory	... 2,000
Do. do. at the Ghazipore Factory	... 2,166
Total	... 4,166

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1884, and published in the *Government and Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 10th and 27th October 1885 respectively—that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 10th October 1885, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 27th October 1885.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipore Factories will be brought to sale in the present year about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

DATE.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazipore Factory, about chests.	Total, about chests.
On or about Tuesday, 3rd November 1885...	2,000	2,166	4,166
Ditto Thursday, 3rd December „ ...	2,000	2,166	4,166
Total ...	4,000	4,332	8,332

By order of the Board of Revenue, L.P.,

C. A. SAMUELLS, *Offg. Secretary.*

BOARD OF REVENUE, L.P., CALCUTTA, the 31st August 1885.

PART IB.

## ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

### MUNICIPAL AND LOCAL:

#### NOTIFICATION.

*The 11th September 1885.*—Whereas a notification, dated the 28th February 1885, declaring the intention of the Lieutenant-Governor to extend the provisions of the Bengal Municipal Act III (B.C.) of 1884 to the town of Daudnugger, in the district of Gya, was published at page 156, Part I of the *Calcutta Gazette* of the 4th March last, and also in the aforesaid town; and whereas no valid objection has been raised to the measure, the Lieutenant-Governor is pleased, in the exercise of the power vested in the Local Government by section 8 of the Act, to extend the provisions of the said Act to the aforesaid town of Daudnugger, lying within the boundaries specified below, with effect from the 1st October 1885

The boundaries of the aforesaid Municipality are as follow :—

*On the North.*—A straight line drawn due east and west hundred yards north of the northern boundary of the Irrigation Department buildings, the eastern end of the line terminating on the Dinapore canal, and the western end meeting the road to Patna.

*On the East.*—The Dinapore canal.

*On the South.*—Indigo factory and the junction of Nasrigunge road with the first portion of it.

*On the West.*—The bank of the Sone.

The name of the Municipality shall be inserted in both the first and second schedules of the Act. The number of Commissioners to be appointed to the Municipal Committee shall be twelve.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

#### NOTIFICATION.

**NOTICE** is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situated in the district of Nuddea, will be put up to sale at the Nuddea Collectorate on Monday, the 28th of September 1885, corresponding with 13th Ashvin 1292.

The purchasers will be subject to the following conditions of sale—

*Conditions of Sale.*

**1st.**—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

**2nd.**—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

**3rd.**—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

**4th.**—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of the sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

Collector's office, district of Nuddea, the 24th July 1885.

J. A. HOPKINS, Collector.

**NOTICE** is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the sub-division of Dinapore, in the district of Patna, will be put up to sale at the office of the Deputy Collector of Dinapore at 12 o'clock noon, on the 20th October 1885, corresponding with 3rd Kartik 1293 Fushli.

The purchasers will be subject to the following conditions of sale—

*Conditions of Sale.*

**1st.**—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

**2nd.**—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

**3rd.**—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

**4th.**—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertisement as in the case of original sale.

Number in statement of Government estates.	Number on the district roll, or town number.	Name of estate and pergunnah.	Share which will be put to sale.	Approximate area in local bigha.	Government revenue or sudder jumma of the entire estate.	Jama kham of the share which will be put up to sale.	Deduct Government revenue of the share which will be put up to sale.	Net income.	Upset price.

Countersigned,

C. C. QUINN, Collector.

H. BOILEAU, Dy. Collector, Dinapore.

Dinapore, Deputy Collector's office, the 19th August 1885.

NOTICE is hereby given, under section 6, Act XI of 1859, that the undermentioned estates, in the district of Sarun, will be put up to public and unreserved sale at the Collector's office of that district on Thursday, the 24th day of September 1885, corresponding with 30th day of Bhado 1292 F., for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue due on the 7th day of June 1885.

CLASS I.—*Permanently-settled estates.*

## Debenture Loan.

RUPEES 2,82,000 BEARING INTEREST AT 6 PER CENT. PER ANNUM.

UNDER section 209 of (Madras) Act I of 1884, the Governor in Council of Fort St. George has given sanction, in Government Order, Financial Department, dated 3rd September 1885. No. 458M, for a Debenture Loan of Rs. 2,82,000 on the security of the rates and taxes levied under the said Act. The Municipal Commissioners are, therefore, prepared to receive tenders for this loan, which will be expended in carrying out the drainage project in Black Town.

2. Debentures will be issued for the said amount, bearing interest at the rate of 6 per cent. per annum, payable half-yearly on the 15th April and 15th October of each year, and having a currency of thirty years.

3. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs. 100, or some multiple of Rs. 100.

4. Tenders for the whole or any part of the above-named sum of Rs. 2,82,000 will be received by the President of the Municipal Commission up to noon on October 1st, 1885.

5. Each tender should be in the form hereto annexed and enclosed in a sealed cover, superscribed "Tender for Municipal Loan, 1885," and sent to the Municipal Office addressed to "The President, Municipal Commission, Madras."

6. The tenders will be opened by the President at the Municipal Office at noon on the 1st October 1885, a minimum rate, below which no tenders will be accepted, having first been fixed by the President.

7. Parties tendering must pay direct to the President or into the Bank of Madras to the credit of the Municipal Fund a sum equivalent to two per cent. of the amount tendered. If the deposit be paid into the Bank of Madras the Bank's receipt must be forwarded with the tender.

8. If the tender be accepted the deposit will be taken in part payment, but it will be forfeited if, after the acceptance of the tender, the allotment is not fully paid up on or before the 15th October 1885.

9. Debentures will be issued as soon as possible after receipt of the amount of allotment.

10. The deposit on tenders which may not be accepted will be returned on application.

11. In the case of two or more tenders at the same rate (not being below the minimum), a *pro rata* allotment will, if necessary, be made.

12. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

13. In order to avoid mistakes, a separate tender must be made at each rate tendered, and a separate deposit must accompany each tender.

14. The annual income from the rates and taxes, which will form the security for the loan, amounts to Rs. 7,90,000. Loans which have already been raised on the same security are as follow:—

	Annually. Rs.	
Water Works Loan of 1869, Rs. 14,30,000, interest at 4 per cent., payable to Government.	57,200	Repayable in 50 years by a sinking fund at 2 per cent.
Market Loan of 1879, Rs. 20,000, interest at 6 per cent., payable to debenture-holders	1,200	Repayable in 30 years by a sinking fund at 2 per cent. with compound interest.
Water Works Loan of 1882, Rs. 2,50,000, interest at 5 per cent., payable to debenture-holders.	12,500	Ditto ditto.
Drainage Loan of 1882, Rs. 1,00,000, interest at 5 per cent., payable to debenture-holders.	5,000	Ditto ditto.
Drainage Loan of 1883, Rs. 3,00,000, interest at 5 per cent., payable to debenture-holders	15,000	Ditto ditto.
Drainage Loan of 1885, Rs. 18,000, interest at 5 per cent., payable to debenture-holders.	900	Ditto ditto.
Total	91,800	

Municipal Office, Madras,  
3rd September 1885.

G. T. MACKENZIE,  
President.

## FORM OF TENDER.

I hereby tender for Rs. \_\_\_\_\_ of the loan advertised in the notification of the President of the Madras Municipality, dated 3rd September 1885, and agree to pay the same, subject to the conditions notified, at the rate of Rs. \_\_\_\_\_ for every Rs. 100 allotted to me. I enclose (a cheque, currency notes, or the bankers' receipt for) Rs. \_\_\_\_\_, being 2 per cent. on the amount of my tender, and engage, if my offer be accepted, to pay to the account of the Municipal Fund in the Bank of Madras the sum allotted to me on or before the 15th October 1885.

\_\_\_\_\_, Signature.  
\_\_\_\_\_, Address.

## FORM OF DEBENTURE.

MADRAS MUNICIPAL SIX PER CENT. LOAN OF 1885.  
The Municipal Commissioners for the City of Madras.

No. \_\_\_\_\_

By virtue of the City of Madras Municipal Act, I of 1884, we, the Municipal Commissioners for the City of Madras, incorporated under the said Act, in consideration of the sum of Rs. \_\_\_\_\_ Madras, the \_\_\_\_\_ 1885.  
of Madras, incorporated under the said Act, in consideration of the sum of Rs. \_\_\_\_\_ paid to us by \_\_\_\_\_, promise to pay to the said \_\_\_\_\_, or order, the sum of ( \_\_\_\_\_ )  
( \_\_\_\_\_ ) thirty years after the date hereof, together with interest on ( \_\_\_\_\_ ) at the  
rate of six per centum per annum, payable half-yearly on the 15th day of October and on the 15th day of April.  
For the Municipal Commissioners for the City of Madras.

\_\_\_\_\_, President.  
\_\_\_\_\_, Commissioner.  
\_\_\_\_\_, Commissioner.

N.B.—This Debenture is transferable by endorsement, which must be made in the following form:—  
I, A.B., of \_\_\_\_\_, do hereby transfer to C.D. of \_\_\_\_\_ the Debenture  
Bond issued by the Municipal Commissioners for the City of Madras to the amount of Rs. \_\_\_\_\_ and standing  
in my name, to hold unto the said C.D., his executors, administrators, representatives, or assigns, subject to the  
conditions on which I hold the same at the time of the execution thereof.

Dated the \_\_\_\_\_ day of \_\_\_\_\_  
No transfer will be effectual until the endorsement has been registered in the office of the Commissioners \_\_\_\_\_

## Notice.

## Oudh Forest Department.

## BAHRAMGHAT DEPOT.

## ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sal beams and scantlings supplied from this depot will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.

22 " " 2-13 "

23 " " 2-14 "

24 " " 3 "

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c. ft.

Under 12 and over 7, at " 3-4 "

Under 7 feet at " 3 "

The above prices are for ordinary building purposes. For Planking, Sleepers, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timbers will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,

Sub-Assistant Conservator of Forests,  
Bahramghat Division.

Bahramghat, the 1st April 1883.

## Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

## Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the following rates:—per four ounce tin, Rs. 4 ans. 8; per eight ounce tin, Rs. 8 ans. 8; per pound tin, Rs. 16 ans. 8. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, at the undernoted rates:—per four ounce tin, Rs. 5 ans. 8; per eight ounce tin, Rs. 10 ans. 8; per pound tin, Rs. 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

## Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Augrhyay 1292 B.S., and continue up to the 3rd January 1886. Tradesmen dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

## Notice.

MR. J. COUTTS has been appointed to act temporarily as Agent at Delhi during the absence of Mr. J. W. Russell, or until further orders.

R. HARDIE, Secretary and Treasurer.

Bank of Bengal, Calcutta, 15th September 1885.

E. HUTTON, Pres. Postmaster.

General Post Office, the 23rd September 1885.

### Parcels to be presented with receipts ready filled up

UNDER the provisions of the Notification of the Government of India in the Department of Finance and Commerce, No. 3120, dated the 18th September 1885, the public are informed that from the 1st October 1885 all parcels, when presented at the window for despatch, should be accompanied by a simple receipt, ready filled up in the *prescribed form*. This will be signed and returned to the messenger. Forms will be given gratis by the Post Office, which will only grant receipts for parcels in future, when the above conditions are complied with.

2. As at present, value-payable and insured articles need only be accompanied by the prescribed V.P. memoranda or insured declarations.

3. Firms that post many ordinary parcels or value-payable articles will be given books of receipts or V.P. memoranda on application.

4. Ordinary parcels presented without the prescribed receipts ready filled up will be forwarded, but no receipt will be given for them.

An acknowledgment from the addressee that the parcel has been duly received can be obtained on payment of one anna extra, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 19th September 1885.

### Extension of Value-Payable system to Unregistered Book-packets.

FROM and after the 1st October 1885, the value-payable system will be extended to unregistered book-packets, prepaid and unpaid.

2. Value-payable unregistered book-packets must be presented at the window with a memorandum in the *prescribed form* containing the name and address of sender and the amount to be collected.

3. Booksellers and others, who require a certificate that the book-packet has been duly posted, can also obtain a certificate of posting, if presented ready written in a book or on a separate slip. The certificate should be simply a copy of the address on the book-packet, and should bear a half-anna stamp, which will be defaced and the certificate returned to the messenger.

4. The postage for an unregistered book-packet sent value-payable will be the same as for an ordinary book-packet. The value-payable commission will be deducted from the amount recovered from the addressee.

5. Value-payable unregistered book-packets will be delivered at the door of the addressee, and the money will be collected by the postman. Delivery of value-payable parcels and value-payable registered articles must, however, be made at the Post Office, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 19th September 1885.

## RESOLUTION ON THE REPORT OF THE ROYAL BOTANIC GARDENS FOR 1884-85.

### MUNICIPAL DEPARTMENT—MEDICAL.

*Darjeeling, the 11th September 1885.*

#### RESOLUTION.

#### READ—

THE Annual Report on the Royal Botanic Gardens, Calcutta, for the year 1884-85.

THE unusual mildness of the last cold season exerted a favourable influence on the more delicate plants cultivated in the conservatories, while the show of orchids was the most magnificent that has been seen for many years. A large number of the numerous trees planted during the past few years have grown well, and the garden now presents a fine park-like appearance, for which the public of Calcutta, no less than the Government, are indebted to Dr. King.

2. The cultivation of several economic plants engaged the attention of the Superintendent during the year. A fresh attempt was made to introduce the plantain (*Musa textilis*), from which Manilla hemp is derived; but, as on previous occasions, the cold weather proved fatal to every plant of this species. Of the *Rhea* plant, both stems and roots were distributed among persons interested in discovering a proper method of extracting the fibre. Another fibre, which has lately attracted considerable attention, is bow-string hemp, the product of the plant *Sansevieria Zeylanica*. Although not indigenous, the

tree grows well in Bengal, and the fibre is said to be admirable, while it is easy of extraction from the plant. Dr. King reports as follows on the Japan paper mulberry—

“In several of my recent reports I have referred to the Japan paper mulberry as a hopeful source of paper fibre for Bengal. I am happy to say that the trees of this species in the garden continue to grow well. Although now only three years old, they are twenty-five feet high, and have proportionately thick stems. The fibre contained in the bark is one of the best materials for paper known. It is easily separated, is strong, and requires little bleaching. As the tree grows thoroughly well and coppices freely, I think it quite possible that, in the course of time, natives may be induced to grow it on the odd corners of land which are so common near Bengali villages.”

The *Sabai* grass, the suitability of which as a raw material for paper has been established beyond doubt, is now largely used in local manufacture. Attention has lately been given to an important alkaloid, called cocaine, which is extracted from the leaves of the cocoa plant; and this plant is now being propagated to a large extent for distribution.

3. There have been considerable additions to the collection of dried plants, the contributors being Sir J. D. Hooker, Mr. Kunstler, Mr. Gamble, Mr. Duthie, Mr. Talbot, Dr. Cooke, and several others. The interchange of seeds and plants went on actively during the year, the issues amounting to 23,433 living plants, and 2,979 packets of seeds; and the receipts to 12,056 living plants, and 1,201 packets of seeds. The receipts from sale of surplus plants amounted to Rs. 1,075-11-6.

4. The *Lloyd Botanical Gardens, Darjeeling*, which had suffered severely in recent years from the depredations of cockchafer grubs, were comparatively free from this pest during the year under review. The grub has gradually disappeared, and the garden has once more been stocked with varieties of plants. It is to be hoped that the grub, which is said to be extending its ravages in the Darjeeling district, will display no partiality for tea. Dr. King states that there is some possibility of the site of the old municipal vegetable garden, situated between the Eden Sanitarium and the Botanical Gardens, being used either for dhobies' huts or washing tanks. The Lieutenant-Governor considers that this would be most undesirable, and trusts that Dr. King may be able to make some arrangement with the Municipal Commissioners to prevent it. A special report on the subject should be submitted.

5. The thanks of the Lieutenant-Governor are again due to Dr. King and his subordinates for the excellent work done during the year. For the first seven months of the year Dr. King was on furlough, and his duties were carried on by Mr. Bruce, the Curator of the Herbarium.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

# **RESOLUTION ON THE REPORT OF THE CALCUTTA MEDICAL INSTITUTIONS FOR, 1884.**

MUNICIPAL DEPARTMENT—MEDICAL.

*Darjeeling, the 19th September 1885.*

## **RESOLUTION.**

**READ—**

The Report on the Calcutta Medical Institutions for the year 1884.

**Read also—**

The Report for the year 1883, and the Resolution recorded upon it.

The year under report was a very unhealthy one, cholera and small-pox having prevailed within the town of Calcutta with more than usual severity. The following statement, which is furnished by the Inspector-General of Civil Hospitals, shows the mortality from the most prevalent diseases in the town for the past ten years:—

	Cholera.	Diarrhoea and dysentery.	Fevers.	Small-pox.	Other causes.	Total.	Ratio per mille of population.
1875	1,074	1,570	5,338	720	4,785	14,086	32.7
1876	1,851	8,804	4,361	71	4,817	19,064	30.1
1877	1,418	1,683	5,151	67	5,385	13,704	31.9
1878	1,338	2,010	6,986	1,103	5,167	16,504	38.1
1879	1,186	1,516	4,706	72	4,774	13,014	30.3
1880	805	1,367	3,707	111	5,608	11,681	27.1
1881	1,693	1,191	3,765	133	5,948	13,630	30.
1882	2,210	1,154	3,618	17	6,818	13,177	30.4
1883	2,057	1,307	3,112	73	5,466	12,955	28.4
1884	2,272	1,209	3,018	478	5,059	18,236	30.5

The general death-rate for the year 1884 is shown to be 30.5 per mille of the population of the town, against 28.4 in the previous year. The number of deaths from cholera, 2,272, was the highest on record for the past ten years, and more persons died of small-pox than in any year since 1879. There were fewer deaths, however, from diarrhoea and dysentery, the total being 1,209 against 1,307 and 1,454 in the two preceding years. The mortality from fevers and "other causes" slightly increased. The Inspector-General has made some remarks on the high rate of mortality during the year from cholera and small-pox, which are not out of place in the present report; for the mortuary returns of the hospitals are, to a great extent, influenced by the condition of things prevailing outside the limits of the hospitals, which occasions or prevents the outbreak of epidemic disease. There can be no doubt, as the Inspector-General observes, that "the high mortality from cholera distinctly points to an absence of sanitation in the situations in which the disease found an abiding place; while 478 deaths from small-pox point to the need of far greater activity on the part of those whose duty it is to protect the people." The following statement shows the number of cases among the principal diseases treated in the several hospitals in Calcutta during the year, and the number of such cases which proved fatal:—

MEDICAL INSTITUTIONS.	CHOLERA.		DIARRHOEA AND DYSENTERY.		FEVER.		SMALL-POX.		OTHER CAUSES.		TOTAL.	
	Cases.	Died.	Cases.	Died.	Cases.	Died.	Cases.	Died.	Cases.	Died.	Cases.	Died.
Medical College Hospital	214	111	245	51	401	46	8	...	1,067	422	4,095	090
Presidency General Hospital	43	28	249	6	617	21	8	1	2,137	68	3,073	124
Mayo Hospital	344	174	154	13	320	31	4	...	1,029	191	2,451	361
Campbell Hospital	236	161	1,284	561	1,323	203	271	85	3,171	530	6,525	1,540
Police Hospital	10	4	382	3	873	10	3	...	900	7	2,221	24
Howrah General Hospital	146	75	358	133	363	37	1	...	710	101	1,508	340
Total	1,023	536	2,671	707	3,887	348	275	86	12,974	1,321	20,853	3,058

There was a considerable increase both in the number of cholera and small-pox cases treated in the hospitals, the number under each of these heads being 1,023 and 275 against 932 and 111 respectively in the year 1883. The death-rate, however, under both heads was lower than that of the previous year, being 523 and 312 per mille against 547 and 315 per mille respectively. The number of fever cases fell from 4,141 in 1883 to 3,887 in the year under report; but the number of deaths from this cause rose from 323 in 1883 to 348 in 1884.

2. The following table shows the total number of persons treated, both as in-door and out-door patients, in the several hospitals in Calcutta during the past two years, and the number of deaths which occurred among those under treatment:—

MEDICAL INSTITUTIONS.	1884.				1883.			
	TOTAL TREATED.			Died per mille of treated.	TOTAL TREATED.			Died per mille of treated.
	In-door.	Out-door.	Total.		In-door.	Out-door.	Total.

\* Reckoned on the cases treated, exclusive of ophthalmic cases.

Compared with the statistics of the previous year, there was an increase of 979 in the total number of in-door patients treated at the hospitals, and a falling off, to the extent of 3,652, in the number of out-door patients treated during 1884. The increase in the number of in-door patients is confined to the Mayo Hospital with its allied dispensaries, and the Campbell Hospital; and is attributed in the case of the former to the large number (344) of cholera cases admitted, and in the case of the latter to the unusual number (457) of cholera and small-pox cases combined.

The falling off in the number of out-door patients treated during 1884, as compared with the number treated in 1883, was greatest in the Medical College Hospital, where the number fell from 51,022 to 44,562. A most satisfactory reason is assigned for this, viz. "the establishment of chemists' shops throughout the town, to which qualified surgeons are attached, who give advice and perform minor operations free of charge." There was a decrease of 2,931 in the number of out-door patients treated in the Mayo Hospital; but the reverse was the case in its dispensaries, chiefly in the Chandney Hospital, where the number rose from 65,630 in 1883 to 69,967 in 1884. Of the 44,562 out-patients treated at the Medical College Hospital, 15,989 were treated in the Medical Dispensary, 11,804 in the Surgical, 6,274 in the Ophthalmic, and 1,374 in the Dental Department: 9,121 patients were treated in the duty-room after dispensary hours.

3. The daily average number of patients under treatment in each of the hospitals for the past two years was as follows:—

	1883.		1884.	
	In-door.	Out-door.	In-door.	Out-door.
Medical College Hospital ...	289.35	292.55	331.24	311.66
Presidency General Hospital ...	148.6	...	165.27	...
Mayo Hospital ...	92	1222.39	96.6	1,211.2
Campbell Hospital ...	339.1	...	360.83	...
Police Hospital ...	87.02	...	83.47	...
Howrah General Hospital ...	60.14	102.8	62.13	88.06

4. Of the total number (257,045) of persons treated during the year, 156,309 were adult males, 36,398 were females, and 64,338 were children. The statistics according to race were 10,032 Europeans, 29,913 Eurasians, 87,615 Mahomedans, 122,919 Hindus, and 6,566 of other races. These figures differ in a very small degree from those recorded in 1883.

5. The mortuary statistics of Calcutta for 1884 show the year to have been unusually unhealthy, and it is not, therefore, surprising to learn that the number of sick in hospital rose from 19,872 to 20,833, and that the death-rate among them was 127 against 116 in 1883. As regards the particular diseases treated at the hospitals, the Inspector-General makes the following remarks:—

"The quantity of fever and its sequelæ varied but little from that of 1883, but was quite as fatal, and while the deaths from diarrhoea increased in the Campbell Hospital they fell elsewhere. Dysentery increased in quantity but decreased in severity; cholera and small-pox furnished a large mortality, although the percentage of deaths to total treated of both diseases showed that they were of a less fatal type than in 1883. In the Small-pox Hospital

at Scaldah, 251 persons were treated in 1884. It is recorded that of this number 85 had been vaccinated, of whom 16 died; 5 had suffered from a previous attack of disease, of whom none died; that 28 had been inoculated, of whom 12 died; and that 133 were unprotected altogether, of whom 57 died."

The Lieutenant-Governor observes that diarrhoea is every year reported as being more fatal at the Campbell Hospital than elsewhere. The following are the averages of deaths from diarrhoea per 1,000 at this hospital reported since 1879 :—

1879	...	...	...	...	...	551
1880	...	...	...	...	...	543
1881	...	...	...	...	...	555
1882	...	...	...	...	...	594
1883	...	...	...	...	...	629
1884	...	...	...	...	...	518

The figures for 1884 compare favourably with those for previous years; but the average number of deaths per mille is far in excess of that reported from any other hospital. The Lieutenant-Governor would be glad to receive some explanation of this fact.

As regards the "other diseases" treated at the hospitals, special mention is made by the Inspector-General of "the frequency of chest maladies and the heavy mortality they yield." He observes :—

"The exciting causes of pulmonary diseases are obscure." We notice epidemic occurrence of pneumonia, for instance, in our cold, damp weather, and at other times under conditions precisely the reverse. The disease is met with in our hospitals in both medical and surgical practice, and as a complication in the reduced and exhausted. The physical surroundings of many fatal cases outside our institutions lead to the conclusion that a vitiated state of the air breathed is one, if not the principal, factor in the causation of the disease, rather than, as is too often supposed, mere changes in the temperature or humidity of the atmosphere. The disorder is so frequently a concomitant during the progress of some diseases that it is not unreasonable to believe the productive sources are alike."

6. Paragraphs 24 to 29 of the report are devoted to a discussion as to the distinction to be drawn between enteric (typhoid) fever and remittent fever, in order to arrive at some accuracy in the statistics recorded of each; and some suggestive remarks of Dr. Birch, Superintendent of the Presidency General Hospital, are quoted. Attempts have been made, with partial success, to diagnose the disease commonly known as typhoid fever, and to trace its etiology, and it is hoped that greater light will be thrown upon the subject as further enquiries are instituted.

7. The number of important surgical operations performed during the year was 1,368 against 1,253 in the previous year. Of these, cures were effected in 910 cases, relief was afforded in 139 cases, and death resulted in 99 cases; while of the remainder some were discharged, and some were still under treatment at the close of the year.

Exclusive of ophthalmic operations, which amounted to 459, the number of major operations performed at the Medical College Hospital during the year was 416, of which 52 resulted in death, against 377 operations with 61 deaths in 1883. Four cases of diphtheria were admitted, all of which proved fatal. Tracheotomy was performed in each instance, but without effect. The number of minor operations undertaken was 4,505; no fatal results attended these. There was a decided falling off in those affections known as "hospitalism," which is attributed by the Inspector-General partly "to a modified antiseptic method of treatment, though chiefly to a greater attention to true sanitation in every direction."

The number of major operations performed at the Presidency General Hospital was 54, out of which 3 resulted in death. The number of minor operations was 63.

At the Mayo Hospital 229 major and 12,783 minor operations were performed during the year. In 23 cases the major operations were attended with death.

At the Campbell and Howrah General Hospitals 165 and 40 major and 259 and 997 minor operations, respectively, were performed during the year. The number of fatal cases at each of these institutions was 12 and 9 respectively.

8. The Lieutenant-Governor observes with satisfaction the growing usefulness of the Eden Hospital, which is attached to the Medical College

Hospital. The rapidity with which this institution is growing in popular estimation is a sure indication that its establishment has fulfilled a public want. The number of women and children treated during the year was 1,390 against 1,300 in the previous year. Of the total number, 890 were Europeans and 500 natives. The deaths among the former amounted to 37, and among the latter to 40. The number of confinement cases rose from 314 in 1883 to 379 in 1884. The mortality among this class of cases was, however, heavier, there being 29 deaths against 12 in the previous year. The reason assigned for this increase is that many of the cases were admitted in a very hopeless condition. There were nine cases of septicæmia, all of which proved fatal. In four of these cases the disease had been contracted before admission. Owing to the increasing number of native patients seeking admission, the lower portion of the hospital was opened during the year.

9. The system of nursing which has now been established at the Medical College and General Hospitals, under the immediate superintendence of the Ladies of the Clewer Sisterhood, is deservedly spoken of in the highest possible terms. The Ladies' Committee of the Hospital Nurses' Institution, upon whose exertions depend the adequacy and efficiency of the nursing staff, are to be congratulated upon the marked success which has attended their efforts up to the present time, and the Lieutenant-Governor desires to take this opportunity of once more placing on record his recognition and high appreciation of the good work which is being done by them. The sanction of Government was recently conveyed to the carrying out of certain alterations in the quarters provided for the nurses, so as to afford accommodation for an increased number. With a larger staff of nurses, the Ladies' Committee hope to extend their sphere of operations.

10. The financial results of the management of the Calcutta Hospitals during the year were, on the whole, satisfactory. The amount of invested capital rose from Rs. 5,47,700 in 1883 to Rs. 5,53,300. The increase was confined to the Medical College and Mayo Hospitals, where the sums invested were Rs. 600 and Rs. 5,000 respectively. The total expenditure, excluding the amount invested, was Rs. 4,13,315, which exceeded the amount expended in 1883 by Rs. 8,631. The net cost to Government of all the hospitals amount to Rs. 2,54,214, which was less by Rs. 8,104 than the amount expended by Government in the previous year. There was a total decrease of Rs. 18,027 in the expenditure incurred at the Campbell, Police, and Howrah Hospitals together, and an increase of Rs. 9,923 in the Medical College and General Hospitals.

11. The total income of the Medical College Hospital, derived from local sources, amounted to Rs. 17,397 against Rs. 15,178 in the previous year. Of this amount, Rs. 13,457 represent receipts from paying patients, port dues, &c., Rs. 3,340 interest on investments, and Rs. 600 subscription from natives. The net cost of the institution to Government, deducting the amount remitted to the treasury, was Rs. 98,344 against Rs. 93,856 in the previous year. The total expenditure of the Hospital amounted to Rs. 1,16,252 against Rs. 1,07,232 in 1883 and Rs. 89,632 in 1882. The increase in the expenditure during the last three years has not been satisfactorily explained, and seems to point to a laxity in the administration of the funds of this institution. The attention of the Executive should be specially directed to the matter. The average cost of daily diet during the year, which was slightly higher than that of the previous year, was 6 annas and 9 pies in the case of Europeans, and 3 annas and 2 pies in the case of natives.

12. At the Presidency General Hospital, the total receipts from local sources amounted to Rs. 50,843 against Rs. 44,533 in 1883, including Rs. 1,526 received from the Prince Golan Mahomed Fund. The amount received from paying patients was Rs. 15,926 against Rs. 13,696 in 1883. The receipts from the Port Fund exceeded those of the previous year by Rs. 3,136. The net cost to Government, exclusive of the salaries of the Covenanted Medical Officers, was Rs. 42,149. The total expenditure during the year was Rs. 1,36,237 against Rs. 1,23,126 in 1883. The increase was chiefly due to the expenditure under buildings and repairs. "Besides quadrennial repairs to the central building, converting eastern and western building into private wards, dismantling old guard-room and cook-house, and constructing partition wall and

brick nogging partition, the Calcutta filtered water was laid on." The average cost of daily diet was 7 annas and 9 pies, the same as it was in the previous year.

13. The total receipts from local sources at the Campbell Hospital amounted to Rs. 33,384, of which Rs. 30,000 were paid by the Municipality, and the remainder from port funds, paying patients, sale of medicines, &c. Government contributed Rs. 27,340 against Rs. 44,437 in 1883. The total expenditure amounted to Rs. 60,724 against Rs. 75,863 in the previous year. This decrease is only due to a less amount having been expended on "buildings and repairs" than was expended in 1883. In all other items there was an increase of expenditure, which is said to be due to the large accession in the number of small-pox cases treated during the year.

14. The total expenditure incurred at the Polico Hospital during the year was Rs. 15,786 against Rs. 16,685 in 1883, showing a decrease of Rs. 899. Of the total amount expended, five-sixths were paid by the Calcutta and Suburban Municipalities and one-sixth by Government. The daily cost per head was the same as in the previous year, viz., 2 annas and 2 pies. The expenditure on clothing fell from Rs. 554 in 1883 to Rs. 231 in the year under report.

15. The total income from local sources of the Mayo Hospital and its dispensaries during the year amounted to Rs. 23,304, of which Rs. 16,858 represented interest on investments. The invested capital of the institution at the close of the year stood at Rs. 3,47,400, or Rs. 5,000 more than it was at the beginning of the year. The amount contributed by Government was Rs. 37,366. The total expenditure amounted to Rs. 56,745 against Rs. 55,124 in 1883. Deducting the amount spent on buildings in the two years, the expenditure was Rs. 54,568 against Rs. 52,524. Of the total expenditure, Government contributed 66 per cent., the remaining 34 per cent. having been met from the private funds of the institution. The surplus balance at the close of the year was Rs. 5,760. The Lieutenant-Governor agrees with the Inspector-General of Civil Hospitals in thinking that the time has arrived for reconsidering the Government grant to this institution. If the amount of savings which are being annually invested were utilized in defraying the expenses of the Hospital, so large a contribution from Government as is now being given will not be necessary. The Inspector-General will be requested to forward a special report on this matter.

16. At the Howrah General Hospital the total income from private sources during the year amounted to Rs. 21,292 against Rs. 22,674 and Rs. 22,885 in the two preceding years. Of the total amount received, Rs. 6,486 were paid by the Port Trust for diet of sick seamen, Rs. 2,600 by the Municipality, Rs. 1,680 were derived as interest on investments, Rs. 10,495 were received as subscriptions from Europeans, and Rs. 31 as subscriptions from natives. Government contributed Rs. 4,413 in the shape of European medicines, registers and forms, diet of police cases, salaries and special allowances. The total expenditure amounted to Rs. 25,499 against Rs. 24,639 in 1883. The increase was chiefly due to a larger amount being spent on "buildings and repairs." There was an increase of Rs. 377 in the cost of establishment. The average cost of each diet was 8 annas and 3 pies in the case of Europeans, and 2 annas and 3 pies in the case of natives. The corresponding figures in the previous year were 9 annas, and 2 annas and 1 pie, respectively.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

## Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 19th September 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.</b>			
<i>Western Districts.</i>			
<b>BURDWAN DIV.</b>	1 Burdwan, Sept. 19 '85	2.11	Weather—seasonable. Prospects of <i>amun</i> very good. <i>Aus</i> has commenced to be harvested. Price of rice 11½ to 15½ seers per rupee. Health generally good.
	Culna ..	4.74	
	Cutwa ..	0.24	
	Rancegunge ..	0.13	
	2 Bankoora, " 19 "	0.67	Weather—bright and sultry, with moderate rain now and then. Standing crops doing well. Prices stationary. General health good.
	Bishenpur ..	1.14	
	3 Beerbhoom, " 19 "	0.06	Weather—seasonable. Transplanting of <i>amun</i> crop finished. Some damage done by floods. Prospects of crops otherwise good. Prices of food-grains high. Cholera still prevalent.
	Rampore Haut ..	0.40	
	4 Midnapore, " 19 "	2.31	Weather—rainy. It is difficult to judge just yet of the actual damage caused by the floods. A few cases of cattle disease in Garbeta thana. Public health normal.
	5 Hooghly, " 19 "	2.29	
<b>PRESIDENCY DIV.</b>	Serampore ..	1.26	Rain has greatly diminished; cloudy in early part of the week, sun shining in later part. In the Sudder and Serampore sub-divisions, there is every prospect of an average outturn on the whole. In the Jehanabad sub-division, the crops have been much injured, and are partially lost in the flooded tracts, but the <i>amun</i> is good in the high lands. Some cases of cholera in the Jehanabad and Serampore sub-divisions. Fever very general.
	Jehanabad ..	0.98	
	Howrah, " 21 "	1.60	Weather—sultry, with showers. The part of the crops left, viz. most of the crop in Serampore and about one-fourth of the remainder, is doing well.
	Oodooberiah ..	3.31	
	<i>Central Districts.</i>		Weather—hot for the season. Harvesting of <i>aus</i> continues. <i>Amun</i> on high lands doing well, but loss is expected in north-east in some of the lower tracts. Public health generally good.
	6 24-Pergha, Sept. 21 '85	1.08	
	7 Nudda, " 19 "	0.87	Weather—hot and cloudy. Rivers are going down day by day. The flood has done much damage to the standing crops. <i>Amun</i> is totally destroyed except in Chuadanga. Of the <i>aus</i> over the whole district about 4 annas has been saved.
	Melherpur ..	1.74	
	Chooadanga ..	5.25	Weather—much rain, with a few fine days. Except in the northern part of Sathkira, the prospect of rice crops is reported very good. Public health fair.
	8 Khoolna, " 19 "	3.12	
<b>RAJSHAHY DIV.</b>	9 Jessore, " 19 "	4.23	Weather—rainy and cloudy. Bongong sub-division has been seriously inundated over a large portion of its area, and considerable injury has been caused to the <i>amun</i> crop there. Measures have been adopted to help the people in the inundated tracts of this sub-division. The Sudder and other sub-divisions of the district have also been visited by inundation, but to a smaller extent, and the <i>amun</i> crop in the inundated places is in danger. The harvesting of the <i>aus</i> crop has been almost completed. The outturn of this crop will not be so good as was at first expected, owing to continuous rain and to the inundation which have caused loss. Fever continues.
	Jhenida ..	1.69	
	Magoora ..	2.25	Weather—seasonable. <i>Amun</i> on the high lands doing well, but on the low lands it has suffered as well as the <i>aus</i> . What proportion of <i>aus</i> will be reaped not yet fully estimated. Sowing of <i>kalai</i> has commenced in the Jungipore <i>chura</i> . Public health good. Common rice selling at from 10 to 13 seers per rupee.
	10 Moorsheadabad, " 19 "	4.30	
	Lalbuch ..	1.99	Weather—showery, but rain reported from every thana. Both harvest and cultivation most satisfactory. Average price of rice 15 seers per rupee.
	Kandi ..	1.20	
	Jungipore ..	0.59	Weather—cloudy, with occasional slight showers. Harvesting of <i>aus</i> paddy continues. Floods gradually subsiding. Prospects of <i>amun</i> paddy, sugarcane and other standing crops generally fair. Fever general.
	11 Dinagepore, Sept. 18 "	1.62	
	12 Rajshahye, " 19 "	0.35	Weather—hot, with occasional showers. There are no complaints of want of rain. Transplanting of <i>amun</i> still not completed. Prospects of other standing crops good. Price of rice still rising, although a full <i>aus</i> crop has been harvested. Sporadic cases of cholera in Buddergunge and Nesbetgungo thanas have been reported. Fever still prevalent in the Sudder station.
	Natore ..	2.66	
<b>RAJSHAHY DIV.</b>	Nowgong ..	0.81	Weather—cool, scanty rainfall. A few earth tremors were felt. Prospects of crops good. Public health fair.
	13 Rangpore, " 19 "	4.15	
	Gaibanda ..	0.85	Weather—cloudy and rainy. All prospects good.
	Kurigram ..	3.37	
	Nilphamari ..	1.59	Weather—still wet. Harvest disappointing but average. Prospects excellent.
	14 Bogra, " 19 "	1.86	
	15 Pubna, " 19 "	2.99	Weather—showery, cool, cloudy. State and prospects of crops good. Cattle-disease continues at Falacotta.
	Serajgunge ..	2.57	
	16 Darjeeling, " 19 "	3.31	
	17 Julpigoree, " 19 "	11.84	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.—concl'd</b>			
<i>Eastern Districts.</i>			
Dacca Division	18 Dacca, Sept. 19 '85	2.26	Weather—seasonable. Harvesting of <i>aus</i> rice nearly completed, and that of jute going on. Prospects of <i>amun</i> continue favourable. Rivers are still rising, and in Nawabganj thana a little damage to crops on low lands is reported. Public health good.
	Manickgunge ...	2.89	
	Munshigunge ...	3.8	
	19 Farraedpore, " 19 "	4.22	Weather—cool with much rain. Prospects of <i>amun</i> , sugarcane, and jute good. Sunshine wanted.
	Madaripore ...	0.80	
	20 Backergunge, " 17 "	1.83	Weather—rainy and cloudy. The constant rain has caused some damage to the harvested <i>aus</i> paddy. Prospects of <i>amun</i> paddy cheerful. General health good.
	21 Mymensingh, " 18 "	2.24	
	Jamulpur ...	3.37	
	Kishoregunge ...	3.35	
	Attna ...	1.03	Rain general and high floods, especially to the east of the district. Prospects of crops good. Some damage done by floods in low lands.
	Netrokona ...	4.35	
Chittagong Divn.	22 Chittagong Sept. 22 '85	1.33	Weather—seasonable. Prospects of crops generally fair. Transplanting of <i>amun</i> continues. Prices falling. Cholera still reported.
	23 Noakhally, " 18 "	6.86	
	Fenny ...	5.42	Heavy rain again during the latter part of the week. Fifteen annas of <i>aus</i> have been harvested; some damage has been done to the crop after it was cut, owing to want of fine weather to dry it. <i>Amun</i> paddy is at places suffering from excessive rain, and fine weather is required.
	24 Tipperah, " 17 "	3.32	
	Brahmanbariah ...	3.87	Heavy and almost continuous rain. Crops at present fair; but there is a general apprehension that inundation will seriously imperil agricultural prospects. Public health unusually good. Prices rising.
	Chandpore ...	1.90	
Bihar.	25 Chittagong Hill Tracts, " 15 "	2.37	Heavy rain occasionally throughout the week. Harvesting of <i>joom</i> paddy still continues. Prospects of sugarcane and cotton crops good. Public health slowly improving.
	Hill Tipperah, " 16 "	3.63	
Patna Divn.	26 Patna, Sept. 19 '85	0.10	Weather—hot. Transplanting of paddy nearly over. Harvesting of <i>bhadoi</i> progressing. Cholera still reported from the sub-divisions.
	Dinapur ...	Nil	
	27 Gaya, " 19 "	0.03	Weather fair. Average outturn of <i>bhadoi</i> estimated at 10 to 12 annas. <i>Khurif</i> promising. A few cases of cholera reported from Rajouli. Prices almost stationary.
	28 Shahabad, " 19 "	1.07	
	Sasaram ...	Nil	Weather—hot and bright with occasional clouds, sometimes followed by showers. Harvesting of <i>bhadoi</i> approaching completion. Prospects of winter rice excellent. Fever of a bad type had broken out in the Sasaram sub-division, but is abating. Cattle-disease also prevails in that sub-division. Fever and cholera reported from Bhabua.
	Buxar ...	3.92	
	Bhabhua ...	Nil	Weather—clear and hot. Reaping of the <i>bhadoi</i> harvest nearly over. <i>Murwa</i> greatly injured by the late excessive rain and floods. Considerable injury has also been done to the paddy plants on low lands by the overflow of the Bagmati and Karai. Prices still continue stationary. Public health generally good.
	29 Darbhanga, " 19 "	2.21	
	Madhubani ...	1.42	
	Tajpur ...	1.79	Weather—mostly clear and bright. Considerable injury has been done by floods, but on the whole prospects are excellent. Fine weather has been very beneficial. Harvesting of maize, <i>kodo</i> , &c., has commenced. Mortality from cholera and fever still heavy.
	30 Mozufferpore, " 19 "	Nil	
	Hajipur ...	0.81	
Bhadrachal Divn.	Sitamarhi ...	1.37	Weather—fair and sultry, with occasional clouds. <i>Bhadoi</i> harvest has commenced. Prospects of paddy continue fair. Manufacture of indigo <i>khaoni</i> (second cuttings) going on. Cholera has abated. General health on the whole fairly good.
	31 Saran, " 19 "	0.20	
	Sewan ...	1.22	Weather—cloudy and fine. The excessive rain has done some damage to the <i>makai</i> and other <i>bhadoi</i> crops. Prospects of <i>aghani</i> crops excellent. Prices have fallen slightly. Cholera has abated both in town and the interior.
	Gopalgunge ...	0.20	
	32 Chumouan, " 19 "	0.64	Weather—seasonable. The break in the rains has been beneficial. Prospects of <i>aghani</i> continue good. Ganges has fallen very much during past week. Cholera abating. Prices steady.
	Bettiah ...	0.42	
	33 Monghyr, Sept. 19 '85	0.59	Weather—fine; light clouds. Prospects of winter rice remarkably good all over the district. The break in the rains has come just in time for the <i>bhadoi</i> harvest in the north and the <i>kurthi</i> sowings in the south. Floods are subsiding and sowing of peas, &c., has begun. Cholera increasing slightly in the north, but decreasing in the south. Prices falling.
	Reguserai ...	0.08	
	Jaman ...	1.12	Weather—fine. <i>Aghani</i> where sown promises well. Ganges falling fast. Much fever. Rice selling at 16 seers per rupee.
	34 Bhagupore, " 19 "	Nil	
Bhadrachal Divn.	Banka ...	0.81	Weather—clear and fine throughout the week. Prospects of winter rice continue good. Sowing of <i>kalai</i> has commenced. Rivers falling fast. Common rice selling at 13 seers and <i>bhadoi</i> at 15 to 16 seers a rupee at English Bazar. Public health generally good.
	Muddhapoorah ...	4.81	
	Soopole ...	4.11	There has been a clear week of sunny days, which will do much good. The <i>janera</i> crop is now being cut. The outturn is poor. The paddy crop promises well. In Rajmehal efforts are being made to transplant rice seedlings on the lands which have emerged from water after the recent floods. Cholera still at Deoghur.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
38	Cuttack, Sept. 18 '85	2.34	Weather—cloudy at times. More rain expected. <i>Beali</i> being harvested, with fair outturn everywhere. <i>Sarad</i> being weeded and growing well. Rain of 14th and 15th has been beneficial to this crop. Common rice is selling at 12 seers per rupee in town. Public health generally good.
39	Pooree, Khoorda	0.79	Weather—hot, with occasional showers towards the end of the week. Weeding of <i>sarad</i> paddy going on. Second weeding has begun in some places. Where rain has fallen all crops of this season have been much benefited. <i>Beali</i> is being harvested. <i>Sarad</i> paddy bordering the Chilka is doing badly owing to drought. Common rice is selling at an average of 18 seers 5 chittacks per rupee in the Sudder sub-division, and 17 seers 10 chittacks in the Khoorda sub-division. Cases of cholera and small-pox occur in the interior of the district.
		2.79	
40	Balasore, „ 18 „	1.22	Weather—seasonable. Prospects of crops exceptionally good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh, Sept. 18 '85	0.44	Weather—bright and clear. No rain till yesterday (17th). Slight rain reported from several thanas. <i>Bhadoi</i> being harvested; outturn below average. Rice and other crops continue to promise well. Cholera abating, but still severe in parts of the district. A few cases of small-pox also reported.
42	Lohardugga, „ 19 „	0.69	Weather—seasonable. Rain is now wanted for <i>aghani</i> rice, except in Chainpur, where there has been an excessive fall. Prices stationary on the whole. Numerous houses and a large extent of crop have been swept away by the Sonc. Cholera still prevalent in Ranchue, Mandar, and Lohardugga thanas.
43	Singbhoom, „ 18 „	0.57	Weather—seasonable. Bright weather during the week has done great good to all crops. Prices steady. General health good.
44	Manbhoom, Govindpore	0.26	Weather—fine. Maize has been cut; outturn rather below the average. <i>Gumli</i> , <i>kodo</i> , <i>murwa</i> , and <i>gora dhan</i> are being reaped; yield somewhat below average, on account of excessive rain. Prospects of other crops good. Public health good. Prices falling.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, the 22nd September 1885.

## SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 18TH OF SEPTEMBER 1885.

At the close of the last week the barometric depression which had existed for some time previously in North Bengal had disappeared and a dry westerly wind current had set in over a large part of the province, and rainfall had become light and local. The weather conditions at this period showed every indication that a well defined break in the rains had set in over the greater part of the province, and for the first two days of the present week these conditions remained practically unaltered. On the 14th, however, the wind directions, which had previously become somewhat irregular, showed at the coast stations in the north-west angle of the Bay decided indraught towards the sea area, and these conditions developed on the following day into a distinct, but very feeble, cyclonic storm at the head of the Bay, the centre being probably only a short distance to the south-east of Sanguor Island. Around the small depression winds circulated cyclonically as usual, but wind velocities were very light. On the morning of the 16th the storm had moved in a north-westerly direction, and its centre was between Calcutta and Burdwan, and on the 17th it had passed away in a westerly direction and was apparently in Chutia Nagpur, though it had become extremely feeble and could scarcely be detected. During the whole period of its existence the wind circulation accompanying it was feeble, but with its inland advance rather stronger monsoon winds set in over the eastern and southern districts of the Province, bringing up light though fairly general rainfall. In other respects the meteorology of the week has not been of much importance, and winds have been over a large part of the Province light and irregular in direction, except of course in those districts affected by the small depression. The districts which have therefore received the largest amount of rain during the week have been East, North and South-West Bengal and Orissa, while Behar and Chutia Nagpur have received comparatively small amounts of rain.

**Pressure**—Was during the previous week very slightly in defect of the normal, but during the present week there has been a very rapid change, and it averages now about 0.08" in excess of the normal. On the first day of the present week pressure rose rapidly in all districts, and it became nearly 0.1" in excess of the normal while in the western districts the excess was 0.12". This was succeeded on the 13th by a slight fall, but only to be followed by an increase on the 14th, and on this day at Durbhunga the excess pressure was no less than 0.15". A further general increase took place on the 15th, but the changes were to a great extent governed by the formation of the low pressure area at the head of the bay. On the 16th and 17th pressure fell rapidly with the advance of the depression, and it became nearly normal, while on the 18th pressure again rose at all stations, and the distribution became a little anomalous, as pressure was comparatively low in South Bengal and high at the northern stations, and on this day, while Sanguor Island only showed an excess pressure of 0.03" at Durbhunga it was 0.11". For the whole week, then, the pressure, as above stated, has averaged about 0.08" in excess of the normal, and the excess pressure has been fairly equally distributed.

The variations of temperature also have been rather large during the week, and while during the first three days temperature generally increased rather rapidly, during the last four days of the week there was an almost equally rapid decrease in the southern, central and eastern districts. The average temperature for the whole week is very closely normal for the whole Province; but while Chutia Nagpur, South Behar, and Orissa show a slight excess temperature, North Behar and East and South-West Bengal show a decided defect. The largest variations from the normal in any of the districts are an excess of 1.9° in South Behar and a defect of 1.8° in East Bengal. The largest variations at individual stations have been an average excess of 3.3° at Gya and an average defect of 2.5° at Berhampore.

Rain, as has before been stated, was fairly plentiful during the last four or five days of the week in East and South-West Bengal and in Orissa. In North Bengal, on the other hand, rather heavy rain fell on the first and second days of the week. East Bengal shows the largest excess rainfall and reports 4.30 inches against the normal fall of 2.11 inches, and has therefore received an excess fall of 104 per cent. South-West Bengal has received 2.07 inches against the normal 1.67 inches, and has thus received an excess fall of 24 per cent. North Bengal has received 2.62 inches, but as the normal fall for the week is 2.88 inches, the rainfall has been in defect by 9 per cent. Orissa reports 2.00 inches against the normal 3.02 inches, and has thus received only 66 per cent. of the normal fall. North Behar reports 1.06 inches against 2.03 inches, and has thus received only 51 per cent. of the normal. Chutia Nagpur has averaged 0.74 inch, the normal fall being 1.92 inches; the defect is therefore 62 per cent.; and finally South Behar has only received 0.76 inch, while the normal is 1.44 inches and the defect in this district is 47 per cent.

Some of the rainfalls for smaller districts than the above Meteorological Divisions have shown even larger variations than are represented by the above percentages. Thus the south-west Midnapur and south 24-Pergunnas District has received 4.78 inches of rain against the normal 2.11 inches. The Nuddea District has received 2.57 inches of rain against the normal 1.55 inches. In East Bengal the following districts have received comparatively very large falls, the Dacca, Noakhally, Tipperah and Burrisal Districts; on the other hand, there have been some districts in which the rainfall has been very scanty for the week, and

these are principally in Behar, where the Mozufferpur, Gya and Patna districts have only received an average of two or three tenths of an inch of rain for the entire week.

There have also been some heavy rainfalls on isolated days at various stations: thus on the 12th Rungpur reported 3·10 inches, and Matabhanga 3·21 inches; on the 13th Jamalpur in the Mymensingh District reported 3·12 inches, Julpigoree 5·68 inches, and Kalimpong in the Purneah District 3·00 inches; on the 14th Bahera in the Durbhunga District received 4·16 inches; and on the 15th Saugor Island recorded 3·99 inches, and Julpigoree 3·55 inches; and on the 16th Saugor Island again received 3·44 inches, Durgapur in the Mymensingh District 4·50 inches, and Buxa 4·44 inches; while on the 17th Moonshigunj reported 4·58 inches, Naraingunge 4·64 inches, and Laksham in the Tipperah District 5·11 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 18th of September 1885:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.										RAINFALL.

2.42

58.74

55.56

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph. The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, p passing temporary showers, t thunder, Δ dew.

The mean relative humidity

The total fall of rain from 13th to 19th September 1885

The mean temperature and humidity are obtained by applying to the mean of the 10th, 16th and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

METEOROLOGICAL OFFICE, INDIA;  
Calcutta, the 21st September 1885.

ALEXANDER PEDLER,  
For Meteorological Reporter to the Govt. of India.

MEMORANDA.

THE main features deducible from the vital statistics of the principal Municipalities in Bengal for the week ending 5th September 1885, as indicated in the statement appended to this memoranda, are the following:—

1. That births and deaths were registered in these Municipalities in the proportions per 1,000 of population of 28.1 and 42.4, respectively, as opposed to 24.6 and 41.2 per 1,000, respectively, during the preceding week ending 29th August, exhibiting an improvement in the registration of births, and a retrogression in that of deaths.

2. That the following Municipalities returned the highest birth and death-rates:—

Births.				Deaths.			
			Ratio per mille.				Ratio per mille.
Bhagulpore	...	...	58.0	Chupra	...	...	102.5
Gya	...	...	41.7	Gya	...	...	88.1
Scrapore	...	...	41.3	Bhagulpore	...	...	76.9
Chupra	...	...	41.0	Patna	...	...	70.4
Arrah	...	...	38.4	Utterpara	...	...	47.2
Patna	...	...	35.1	Suburbs of Calcutta	...	...	43.6
Chittagong	...	...	32.8	Monghyr	...	...	42.5
				Purneah	...	...	41.6
				Burdwan	...	...	33.6
				Puri	...	...	33.6
				Mozafferpore	...	...	32.8

3. That the mean rates at which the population of the Municipalities died from the principal diseases exhibit no noticeable differences in comparison with the mortality during the preceding week, *cule* figures given below:—

				Ratio per mille during the weeks ending—	
				5th September 1885.	29th August 1885.
Cholera	...	...	...	4.9	5.5
Small-pox	...	...	...	0.3	.2
Fever	...	...	...	17.3	17.8
Bowel-complaints	...	...	...	7.9	7.3
Injury	...	...	...	.4	.6
Other causes	...	...	...	11.8	12.7

4. That of the above-mentioned diseases, cholera, fever, bowel-complaints, and the maladies classed under the head of "Other causes" were most fatal in the following Municipalities:—

Cholera.		Fever.		Bowel-complaints.		Other causes.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.		Ratio per mille.
Chupra	31.2	Bhagulpore	38.9	Chupra	23.4	Gya	30.8
Gya	16.4	Utterpara	37.8	Patna	14.9	Bhagulpore	24.4
Bhagulpore	9.1	Gya	28.0	Suburbs of Cal-	11.0	Patna	21.4
Patna	8.8	Patna	21.6	cutta	10.9	Puri	21.0
		Purneah	21.3	Gya	10.7	Chupra	20.5
		Chupra	23.4	Hughli	10.7	Suburbs of Calcutta	11.6
						Monghyr	10.8

5. That the mortality of the week, classified under the heads of *Sex*, *Class* and *Age*, stands as follows:—

According to Sex.			According to Class.			According to Age.		
		Ratio per mille.			Ratio per mille.			Ratio per mille.
Males	...	42.7	Christians	...	26.1	Under 1 year	...	411.6
Females	...	42.1	Hindus	...	44.2	1 and under 5 years	...	83.0
Ratio of male deaths to every 100 female deaths	...	114	Mahomedans	...	39.0	5 " 10 "	...	21.4
			Other classes	...	36.4	10 " 15 "	...	20.8
						15 " 20 "	...	25.1
						20 " 30 "	...	23.2
						30 " 40 "	...	21.6
						40 " 50 "	...	29.2
						50 " 60 "	...	45.9
						60 years and upwards	...	81.4

R. LIDDERDALE, M.D., Deputy Surgeon-General,

The 21st September 1885.

Sanitary Commissioner for Bengal.

											</																					

A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives as before, as it was not necessary to re-census them. The natives have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to, cannot be employed as a basis of calculation owing to the results of the census under the authorized forty-five age classification.

## PART I A.

### Orders and Notifications by the Government of India, &c.

[Reprinted from the Gazette of India.]

The following orders, issued by the Government of India in the Home Department, are republished for general information.

F. B. PEACOCK,  
*Chief Secy. to the Govt. of Bengal.*

#### NOTIFICATIONS.—JUDICIAL.

*Simla, the 23rd September 1885.*

No. 1313.—The Honourable W. F. McDonell, v.c., a Judge of the High Court of Judicature at Fort William in Bengal, resumed his seat on the Bench of the High Court on the forenoon of the 12th instant.

No. 1314.—The services of Mr. J. P. Grant, of the Bengal Civil Service, are replaced at the disposal of the Government of Bengal, with effect from the 12th instant.

A. MACKENZIE,  
*Secretary to the Govt. of India.*

The following orders, issued by the Government of India in the Department of Finance and Commerce, are published for general information.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

No. 2566, dated Simla, the 20th August 1885.

RESOLUTION—By the Government of India, Department of Finance and Commerce.  
READ again—

Resolution in the Department of Finance and Commerce, No. 3742, dated the 15th September 1882.

Resolution in the Department of Finance and Commerce, No. 2599, dated the 10th August 1883.

In the Resolution in the Department of Finance, No. 2599, dated the 10th August 1883, the Government of India invited the opinions of the various Local Governments and Administrations regarding the best method of popularising stock-notes. The Governments of Madras, Bombay and Bengal were at the same time requested to consult the local Chambers of Commerce and the principal local Banks with reference to the points discussed in the Resolution.

2. The replies received are generally adverse to the scheme. It cannot be denied that sale of the notes, and their popularity as an investment with the classes by whom it was hoped that they would be bought, have been much less than was anticipated. The Government of India, however, are of opinion that these results may be attributed in some measure to causes in existence at the time of the issue of the notes, the operation of which has in part ceased, and of which the effect will not be indefinitely prolonged. The continuance of the sale of notes, if for the present not productive of much advantage, is not calculated to cause detriment or injury to the public or to the financial interests of Government. It may be still hoped that, subject to certain modifications, this mode of investment will become more popular, and that the advantages which unquestionably attach to the system, when successfully worked, may be in course of time obtained. The Governor-General in Council

has therefore decided to continue for the present the sale of the notes, subject to certain changes in the rules which, it is hoped, will render the notes more generally acceptable.

3. It has been decided—

- (a) to permit the payment of interest on stock-notes if presented at a presidency town;
- (b) to facilitate the issue of a duplicate note in lieu of one proved to have been lost or destroyed;
- (c) to allow the transfer of notes from one circle to another without payment of any fee.

4. Interest on stock-notes will now be payable at presidency towns (as well as at any of the treasuries situated within the circle to which the notes belong) as under—

On notes of the Calcutta, Allahabad, and Lahore Circles—at the Circle Office, Calcutta.

On notes of the Bombay Circle—at the Circle Office, Bombay.

On notes of Madras Circle—at the Circle Office, Madras.

5. The orders regarding claims for stock-notes alleged to have been lost or destroyed are contained in the Resolution in the Department of Finance, No. 3742, dated the 15th September 1882, quoted at head of this Resolution.

The Governor-General in Council now directs that the following orders regarding claims on account of stock-notes alleged to have been lost or destroyed be substituted for those contained in the Resolution of 15th September 1882:—

I.—When any person desires to make a claim for the value of a stock-note alleged to have been lost or destroyed, he should at once produce before the district officer all the evidence he can produce regarding the circumstances of the destruction or loss of the note, which must be absolutely identified. The district officer may either reject the claim, or, if he is of opinion that the evidence establishes beyond doubt the impossibility or extreme improbability of the note ever being presented, he should record his opinion to this effect, and forward it to the Comptroller-General. The latter, if he agrees as to the effect of the evidence, may direct as follows:—

- (a) That the loss of the note be advertised in the *Gazette of India* and the Local Government Gazettes, and that after two years from the first advertisement of the loss the value of the note may be invested, if possible, in Government securities, or, if the amount is too small, then paid into the Government Savings Bank.
- (b) That after twenty years from the date of advertisement, if meantime the note has not been presented for payment, the said investment, with accumulated interest (or the said deposit, if no investment has been made), be delivered to the claimant or his assignee, or other legal representatives, upon a bond of indemnity, with two personal sureties attached.

II.—When the total value of the claim does not exceed Rs. 250, the Comptroller and Auditor-General may direct, either immediately or after the lapse of a certain interval, the issue of a duplicate note or notes in lieu of the notes said to be lost or destroyed on a bond being given by the claimant with two sureties. The bond should bind the parties to make good any loss which may be thrown on Government in the event of the production of any of the notes alleged to have been lost or destroyed.

III.—The Comptroller-General will issue a notice to all treasuries of the circle to which a lost note belongs when he directs the issue of a duplicate note. If the note said to be lost or destroyed is subsequently presented for payment of interest, the interest due on it must be paid to the holder, but the fact of payment and the name and address of the presenter should be at once communicated to the Comptroller-General.

IV.—Every duplicate note will bear an endorsement to the effect that it has been issued in lieu of a specified lost note.

V.—If the Comptroller-General think in any instance that the circumstances warrant terms more favourable to the claimants than can be given under these rules, he may, if he think fit, submit the claim to the Government for orders.

6. Any holder of a stock-note who desires to have it transferred to another circle should make written application to the district officer stating the name of the circle to which transfer is desired, and should enclose the note. Such applications are exempted by notification of this date from payment of any fee. The district officer on receiving such an application will at once forward the application, together with the note, to the Comptroller-General. The Comptroller-General will cancel the note. He will then give instructions for the issue without payment to the person from whom the note was received of a note or notes, of the same value or values as the cancelled notes, of the circle to which transfer is desired.

7. The Comptroller and Auditor-General will issue the subsidiary instructions and orders necessary to carry into effect the above orders.

ORDER.—Ordered that the foregoing Resolution be communicated to the several Local Governments and Administrations, to the Comptroller and Auditor-General, to Accountants-General and Comptrollers, for information and guidance.

Ordered also that the Resolution be published in the *Gazette of India*.

## LEAVE AND APPOINTMENTS.

*Simla, the 22nd September 1885.*

No. 3137.—The services of Mr. E. W. Collin, Assistant Accountant-General, Bengal, are replaced at the disposal of the Government of Bengal.

CODRS.

*The 14th September 1885.*—It is hereby notified that, under section 23, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Mr. R. W. Carlyle, c.s., to be Chairman of the Sewan Municipality, in the district of Sarun, *vice* Mr. W. Grindlay, c.s., on furlough.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

##### NOTIFICATION.

*The 14th September 1885.*—It is hereby notified that, under section 22, Act III (B.C.) of 1884, the Lieutenant-Governor has been pleased to re-appoint the following gentlemen to be Commissioners of the municipality of Burdwan :—

The Revd. P. M. Rudra. | Mr. E. A. Stoney.

The Lieutenant-Governor has also been pleased, under section 27 of the Act, to appoint Dr. G. C. Roy to be a Commissioner of the above municipality, *vice* Dr. H. B. Purves, transferred.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

##### NOTIFICATION.

*The 14th September 1885.*—It is hereby notified for general information that in the exercise of the powers vested in the Local Government by section 85, Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Perozepore Municipality, in the district of Dacca, made at a meeting, the Lieutenant-Governor intends to sanction the imposition by the Commissioners of a tax upon persons occupying holdings within the municipality according to their circumstances and property within the municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the municipality.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

##### NOTIFICATION.

*The 16th September 1885.*—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Baboo Ram Narain Bhattacharjee to be a Commissioner of the Baduria Municipality, in the district of the 24-Pergunnahs, *vice* Baboo Sarut Chandra Gupta, resigned.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 16th September 1885.*—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers conferred on him by section 221 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Baduria Municipality, in the district of the 24-Pergunnahs, made at a meeting, to extend the provisions of Part VI of the above Act, with the exception of sections 252, 253, 263 to 265 and 276, to the said municipality, unless good reasons are shown to the contrary within one month from the date of publication of this notification within the municipality.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 16th September 1885.*—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers conferred on him by section 221, Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the South Dum-Dum Municipality, in the district of the 24-Pergunnahs, made at a meeting, to extend the provisions of Part VI of the above Act to the said municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said municipality.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 17th September 1885.*—It is hereby notified for general information that an election will be held, under section 27, Act III (B.C.) of 1884, on the 31st October 1885, in Ward No. II of the Bhuddessur Municipality, in the Hooghly district, for the purpose of filling up the vacancy caused by the removal of Baboo Jogendra Nath Chatterjee.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 17th September 1885.*—Whereas a notification was published at page 631, Part I of the *Calcutta Gazette* of the 1st July 1885, declaring the intention of the Lieutenant-Governor to extend the provisions of Parts VI and X of the Bengal Municipal Act, III (B.C.) of 1884, to the Cutwa Municipality, and whereas no objection has been raised to the proposal within one month from the date of the publication of the notification within the above municipality, it is hereby notified for general information that, in the exercise of the powers conferred on the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the said municipality, made at a meeting, the Lieutenant-Governor directs that Parts VI and X of the Act be extended to the said municipality with effect from the 1st October next.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 17th September 1885.*—In supersession of the notification, dated the 13th August last, published at page 5, Part IB of the *Calcutta Gazette* of the 26th idem, fixing the 31st August 1885 to be the date for the election of a Commissioner in Ward No. V of the Barisal Municipality for the purpose of filling up the vacancy caused by the resignation of Mr. P. N. Mitter, it is hereby notified for general information that an election will be held, under section 27, Act III (B.C.) of 1884, for the above purpose on the 9th November 1885.

J. WARE EDGAR,

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 26th September 1885.*—It is hereby notified that, under section 59, Act III (B.C.) of 1884, the Lieutenant-Governor approves the election by the Commissioners of the Nalchitty Municipality, in the district of Backergunge, of Baboo Banomally Roy to be their Chairman.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 28th September 1885.*—In modification of the notification, dated the 2nd instant, published at page 15, Part IB. of the *Calcutta Gazette* of the 9th idem, fixing the 31st October next to be the date for holding elections under section 27, Act III (B.C.) of 1884, for the purpose of filling up vacancies in the representation of Wards Nos. I, III, V, and VII of the Dacca Municipality, it is hereby notified for general information that the said elections shall be held on Monday, the 23rd November 1885.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 14th September 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Bogra Municipality for a public purpose, viz. for the purpose of extending a burial ground for the town of Bogra, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 bigah 11 cottahs and 3 chittacks of standard measurement, situated in mouzah Nishindara, pergunnah Shelburgha, zillah Bogra, is required. It is bounded on the north by Kooky Bewa's mulberry field; on the east by Anoo Pramanick and Ali Mahmud's paddy-field; on the south by the existing municipal Mahomedan burial ground; and on the west by a footpath joining the Sooltanpore and Dinagepore roads.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 14th September 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Burrisal Municipality for a public purpose, viz. for the residence of municipal mehters, in the village of Amanutgunge, pergunnah Chandradeep, zillah Backergunge, it is hereby declared that for the above purpose a plot of land measuring, more or less, 1 bigah 7 cottahs 4 chittacks of standard measurement is required. It is bounded on the north by Nawazdi Misrie's bari; on the east by a jhora khall issuing from the Barisal river; on the south by Salim's bari; and on the west by the Amanutgunge road.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 16th September 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Nasirabad Municipality for a public purpose, viz. for deposit of night-soil and burial of carcasses, &c., in the villages of Shawra and Vatikasar, and in the town of Nasirabad, pergunnah Alapsingh, zillah Mymensingh, it is hereby declared that for the above purposes pieces of land measuring, more or less, 5 bigahs 1 cottah of standard measurement are required. These three pieces of lands are bounded as follows:—

The first piece, situated in the village of Shawra, of which the area is 3 bigahs, more or less, is bounded on the north by part of Dulab's bhita; east by road; south by part of the houses of Har Kishore Deb and Kali Keshore Deb; west by part of Dulab's bhita and part of the houses of Kali Kishore Deb and others.

The second piece, situated in the village of Vatikasar, of which the area is 1 bigah 17 cottahs 8 chittacks, more or less, is bounded on the north by Ashan Sarkar and others' low land; east by Ram Kumar Pal's and Ashan Sarkar's and others' land; south by Ashan Sarkar and others' land; west by a footpath.

The third piece, situated in the town of Nasirabad, of which the area is 3 cottahs 8 chittacks, more or less, is bounded on the north by Hari Nath Karmakar's land and Icha Kasbi's bari; east by Icha Kasbi's bari and Sreeram Chatterjea's shop; south by Monee Kasbi, Raj Kumari Kasbi, and Falu Kasbi's bari; on the west by Falu Kasbi's bari and waste land.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 21st September 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Burrisal Municipality for a public purpose, viz. for a nightsoil ground in the village of Amanutgunge, pergunnah Chandradeep, zillah Backergunge, it is hereby declared that for the above purpose

a piece of land measuring, more or less, 3 bigahs 2 cottahs 1 chittack of standard measurement is required. The land is bounded on the north by Komoroddi and Alepkhan's land; on the east by the Barisal river; on the south by Komoroddi and Alepkhan's land; and on the west by the Amanutgunge road.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

#### DECLARATION.

*The 26th September 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a bathing platform at No. 26, Beadon Street, it is hereby declared that for the above purpose a piece of land, No. 26, Beadon Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah only, is required.

The boundaries of the land are as follows:—On the north by Beadon Street; on the south and east by premises No. 26, Beadon Street; and on the west by Hurtokec Bagan Lane.

A plan and specification of the land to be acquired are filed in the office of the Commissioners for the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

WEDNESDAY, SEPTEMBER 30, 1885.

## PART II.

### Advertisements.

N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

### LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the sub-division of Dinapore, in the district of Patna, will be put up to sale at the office of the Deputy Collector of Dinapore at 12 o'clock noon, on the 26th October 1885, corresponding with 3rd Kartik 1293 Fushli.

The purchasers will be subject to the following conditions of sale—

#### Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertisement as in the case of original sale.

### Debenture Loan.

RUPEES 2,82,000 BEARING INTEREST AT 6 PER CENT. PER ANNUM.

UNDER section 209 of (Madras) Act I of 1884, the Governor in Council of Fort St. George has given sanction, in Government Order, Financial Department, dated 3rd September 1885, No. 458M, for a Debenture Loan of Rs. 2,82,000 on the security of the rates and taxes levied under the said Act. The Municipal Commissioners are, therefore, prepared to receive tenders for this loan, which will be expended in carrying out the drainage project in Black Town.

2. Debentures will be issued for the said amount, bearing interest at the rate of 6 per cent. per annum, payable half-yearly on the 15th April and 15th October of each year, and having a currency of thirty years.

3. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs. 100, or some multiple of Rs. 100.

4. Tenders for the whole or any part of the above-named sum of Rs. 2,82,000 will be received by the President of the Municipal Commission up to noon on October 1st, 1885.

5. Each tender should be in the form hereto annexed and enclosed in a sealed cover, superscribed "Tender for Municipal Loan, 1885," and sent to the Municipal Office addressed to "The President, Municipal Commission, Madras."

6. The tenders will be opened by the President at the Municipal Office at noon on the 1st October 1885, a minimum rate, below which no tenders will be accepted, having first been fixed by the President.

7. Parties tendering must pay direct to the President or into the Bank of Madras to the credit of the Municipal Fund a sum equivalent to two per cent. of the amount tendered. If the deposit be paid into the Bank of Madras the Bank's receipt must be forwarded with the tender.

8. If the tender be accepted the deposit will be taken in part payment, but it will be forfeited if, after the acceptance of the tender, the allotment is not fully paid up on or before the 15th October 1885.

9. Debentures will be issued as soon as possible after receipt of the amount of allotment.

10. The deposit on tenders which may not be accepted will be returned on application.

11. In the case of two or more tenders at the same rate (not being below the minimum), a *pro rata* allotment will, if necessary, be made.

12. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

13. In order to avoid mistakes, a separate tender must be made at each rate tendered, and a separate deposit must accompany each tender.

14. The annual income from the rates and taxes, which will form the security for the loan, amounts to Rs. 7,90,000. Loans which have already been raised on the same security are as follow:—

	Annually. Rs.	
Water Works Loan of 1869, Rs. 14,30,000, interest at 4 per cent., payable to Government.	57,200	Repayable in 50 years by a sinking fund at 2 per cent.
Market Loan of 1879, Rs. 20,000, interest at 6 per cent., payable to debenture-holders	1,200	Repayable in 30 years by a sinking fund at 2 per cent. with compound interest.
Water Works Loan of 1882, Rs. 2,50,000, interest at 5 per cent., payable to debenture-holders.	12,500	Ditto ditto.
Drainage Loan of 1882, Rs. 1,00,000, interest at 5 per cent., payable to debenture-holders.	5,000	Ditto ditto.
Drainage Loan of 1883, Rs. 3,50,000, interest at 5 per cent., payable to debenture-holders.	15,000	Ditto ditto.
Drainage Loan of 1885, Rs. 18,000, interest at 5 per cent., payable to debenture-holders.	900	Ditto ditto.
Total ...	91,800	

Municipal Office, Madras,  
3rd September 1885.

G. T. MACKENZIE,  
President.

#### FORM OF TENDER.

I hereby tender for Rs. \_\_\_\_\_ of the loan advertised in the notification of the President of the Madras Municipality, dated 3rd September 1885, and agree to pay the same, subject to the conditions notified, at the rate of Rs. \_\_\_\_\_ for every Rs. 100 allotted to me. I enclose (a cheque, currency notes, or the bankers' receipt for) Rs. \_\_\_\_\_, being 2 per cent. on the amount of my tender, and engage, if my offer be accepted, to pay to the account of the Municipal Fund in the Bank of Madras the sum allotted to me on or before the 15th October 1885.

\_\_\_\_\_, Signature.  
\_\_\_\_\_, Address.

#### FORM OF DEBENTURE.

MADRAS MUNICIPAL SIX PER CENT. LOAN OF 1885.  
The Municipal Commissioners for the City of Madras.

No. \_\_\_\_\_

By virtue of the City of Madras Municipal Act, I of 1884, we, the Municipal Commissioners for the City of Madras, incorporated under the said Act, in consideration of the sum of Rs. \_\_\_\_\_ paid to us by \_\_\_\_\_, promise to pay to the said \_\_\_\_\_, or order, the sum of ( \_\_\_\_\_ ) thirty years after the date hereof, together with interest on ( \_\_\_\_\_ ) at the rate of six per centum per annum, payable half-yearly on the 15th day of October and on the 15th day of April.

For the Municipal Commissioners for the City of Madras.

\_\_\_\_\_, President.  
\_\_\_\_\_, Commissioner.  
\_\_\_\_\_, Commissioner.

N.B.—This Debenture is transferable by endorsement, which must be made in the following form:—

I, A.B., of \_\_\_\_\_, do hereby transfer to C.D., of \_\_\_\_\_, the Debenture Bond issued by the Municipal Commissioners for the City of Madras to the amount of Rs. \_\_\_\_\_ and standing in my name, to hold unto the said C.D., his executors, administrators, representatives, or assigns, subject to the conditions on which I hold the same at the time of the execution thereof.

Dated the \_\_\_\_\_ day of \_\_\_\_\_

No transfer will be effectual until the endorsement has been registered in the office of the Commissioners. (560—3)

## Commissioners for making Improvements in the Port of Calcutta.

## NOTICE

UNDER SECTION 69 OF ACT V (B.C.) OF 1870.

SURVEY OF INDIA DEPARTMENT, }  
Calcutta, 1st July 1885. }

W. H. WILKINS, Lieut.-Col., S.C.,

Deputy Supdt. of Survey, in charge Map Record and Issue Office.

#### Notice.

##### Oudh Forest Department.

##### BAHRAMGHAT DEPOT.

##### ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sal beams and scantlings supplied from this depot will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.

22	"	"	2-12	"
23	"	"	2-14	"
24	"	"	3	"

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c. ft.  
Under 12 and over 7, at " 2-4 "  
Under 7 feet at " 2 "

The above prices are for ordinary building purposes. For Planking, Sleepers, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,

Sub-Assistant Conservator of Forests,

Bahramghat Division.

Bahramghat, the 1st April 1883.

#### Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Augrahyā 1292 B.S., and continue up to the 3rd January 1886. Tradesmen dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

#### Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the following rates:—per four ounce tin, Rs. 4 ans. 8; per eight ounce tin, Rs. 8 ans. 8; per pound tin, Rs. 16 ans. 8. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, at the undernoted rates:—per four ounce tin, Rs. 5 ans. 8; per eight ounce tin, Rs. 10 ans. 8; per pound tin, Rs. 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

#### Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from dried Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

IN pursuance of section 77 of Act V of 1881, notice is hereby given that all parties having claims against the estate of the late Bridget Newhouse, who died on the 10th May 1885 at Salarnapore in the district of Jessore, and probate of whose will was granted on the 21st July by the Jessore Court, should send in particulars of the same to the undersigned within one month from this date, after which no claims will be admitted.

ELIZABETH C. NEWHOUSE, executrix.

ALEXANDER H. NEWHOUSE, executor.

Salarnapore, Kotechandpore P. O., the  
1885.

(525—4)

**Time Ball Notice.**

**D**URING the Doorga and Luckmi Poojah holidays, from Tuesday, the 13th, to Saturday, the 24th October 1885, both days inclusive, the time ball on the semaphore tower, Fort William, and that at the Port Commissioners' office, will not be dropped except on the following days—

Saturday, the 17th October 1885.

Wednesday, the 21st " "

\* Also for Cape Colonies through United Kingdom; also *ad* Aden for Lamoo, Mombaza, Zanzibar, Kilvakinji, Lande, Mozambique, Delagoa Bay, and Cape Colonies can be forwarded.

† Also for Port Blair can be forwarded by this opportunity.

**N.B.**—The letter-box will close at 7 P.M. precisely, after which hour foreign letters fully prepaid and bearing an extra postage stamp of four (4) annas on each cover will be received up to 7½ P.M.

E. HUTTON, Presy. Postmaster.

General Post Office, the 30th September 1885.

### Despatch of samples of wool to Portugal prohibited.

**INTIMATION** has been received from the Post Office of Portugal that the admission into that country *via* Spain of samples of woollen fabrics or of raw wool of any kind has been temporarily prohibited on account of sanitary measures adopted by the Portuguese Government against the spread of cholera.

2. Until further notice therefore no samples of wool in any form can be forwarded by post from India to Portugal.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 14th September 1885.

### Parcels to be presented with receipts ready filled up.

**UNDER** the provisions of the Notification of the Government of India in the Department of Finance and Commerce, No. 3120 dated the 18th September 1885, the public are informed that from the 1st October 1885 all parcels, when presented at the window for despatch, should be accompanied by a simple receipt, ready filled up in the *prescribed form*. This will be signed and returned to the messenger. Forms will be given gratis by the Post Office, which will only grant receipts for parcels in future, when the above conditions are complied with.

2. As at present, value-payable and insured articles need only be accompanied by the prescribed V.P. memoranda or insured declarations.

3. Firms that post many ordinary parcels or value-payable articles will be given books of receipts or V.P. memoranda on application.

4. Ordinary parcels presented without the prescribed receipts ready filled up will be forwarded, but no receipt will be given for them.

5. An acknowledgment from the addressee that the parcel has been duly received can be obtained on payment of one anna extra, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 19th September 1885.

### Extension of Value-Payable system to Unregistered Book-packets.

**FROM** and after the 1st October 1885, the value-payable system will be extended to unregistered book-packets, prepaid and unpaid.

2. Value-payable unregistered book-packets must be presented at the window with a memorandum in the *prescribed form* containing the name and address of sender and the amount to be collected.

3. Booksellers and others, who require a certificate that the book-packet has been duly posted, can also obtain a certificate of posting, if presented ready written in a book or on a separate slip. The certificate should be simply a copy of the address on the book-packet, and should bear a half-anna stamp, which will be defaced and the certificate returned to the messenger.

4. The postage for an unregistered book-packet sent value-payable will be the same as for an ordinary book-packet. The value-payable commission will be deducted from the amount recovered from the addressee.

5. Value-payable unregistered book-packets will be delivered at the door of the addressee, and the money will be collected by the postman. Delivery of value-payable *parcels* and value-payable *registered* articles must, however, be made at the Post Office, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 19th September 1885.

JOHN ELIOT, M.A., *Meteorological Reporter*  
*to the Govt. of Bengal.*

CALCUTTA, the 26th August 1875.

## INDIAN LAW REPORTS.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, by the Calcutta Central Press Company, "Limited," 5-1, Council House Street, at the following rates, payable in advance:—

	One page.	Half page.	Quarter page.
For one issue	Rs. 15	Rs. 10	Rs. 6
„ three issues	„ 40	„ 25	„ 14
„ six „	„ 70	„ 40	„ 25
„ twelve „	„ 110	„ 70	„ 45

At these rates the advertisers will have the option of changing their advertisements in each issue.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1881:—

## The Indian Law Reports,

*Published under Authority.*

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance*

For the complete series, including postage, Rs. 22-8.

	Without postage	With postage.
For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
„ each of the Madras, Bombay, and Allahabad Series ...	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (inclusive of postage in India) .....	.....	„ 2 6
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India) ...	.....	„ 1 6

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

„ Thacker & Co., Bombay.

„ Higginbotham & Co., Madras.

The Government Central Book Depôt, Bombay.

„ Curator of Government Books, North-Western Provinces and Oudh.

„ Superintendent of Government Printing Bengal.

Orders and subscriptions for 1886 should be at once remitted.

## Notice

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by noon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e. from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,

Meteorological Reporter to the Govt. of Bengal.

Meteorological Office, Bengal, the 3rd July 1885.

## RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE POLICE DEPARTMENT FOR THE YEAR 1884.

### RESOLUTION.

#### POLICE.

*Dated Darjeeling, the 18th September 1885.*

#### READ—

The Report on the Administration of the Police Department for the year 1884.

#### Read also—

The Reports for the years 1882 and 1883, and the orders of Government recorded thereon.

THE Annual Report on the Administration of the Police Department for the year 1884 has again been submitted after due date, owing to the late receipt of the Divisional Commissioners' reports. None of these reports were received on or before the proper date. That of the Commissioner of Orissa was received only on the 21st April: that of the Commissioner of the Presidency Division not until the 1st May. The former states that the district reports of his division had all to be returned as being either incorrect or imperfect, and that none of them were finally completed until the first half of April. In the Presidency Division the latest district report was received by the 10th March, and there is therefore no apparent cause for the delay. In accordance with the orders contained in the Resolution on the report for 1883, an explanation of the failure to observe punctuality should have been submitted. This will now be called for.

2. The Chittagong Hill Tracts were constituted a separate general police district under Act V of 1861 from the 25th October 1884, and the Commissioner of the Chittagong Division was appointed Inspector-General of Police within the new police district. The police statistics of the Chittagong Hill Tracts are in consequence excluded from the report under review. Exclusive, therefore, of the accounts for the Chittagong Hill Tracts, the police budget grant for 1884-85 for the Lower Provinces amounted to Rs. 43,22,873. The actual expenditure is stated at Rs. 41,98,296. There was a saving, amounting to Rs. 1,83,353, under the heads of pay of executive police, clothing allowance, and fixed boat establishment, and an increase of Rs. 58,776 in expenditure under other heads. The saving in expenditure is, however, only nominal, as Rs. 2,67,000 anticipated savings were added to the budget grant. This course, in absence of some good reason, should not have been taken. In 1883 the police budget grant amounted to Rs. 43,56,518, and the actual expenditure to Rs. 41,70,698. The total sanctioned strength of the whole district police force of all descriptions, including the reserve, consisted of 73 superior officers, 3,435 subordinate officers, and 20,001 constables. At the close of the year the force was below the sanctioned strength by 1 inspector, 16 sub-inspectors, 25 head constables, and 242 constables. A net addition of 2 sub-inspectors and 42 constables was made to the force during the year for various reasons.

3. The cost of the force employed on purely police work is approximately estimated at Rs. 26,38,263, or 7-6 pies per head of population. In Bengal (excluding the Chittagong Hill Tracts) the cost was 8-5 pies per head, in Behar 6-0 pies, in Orissa 8-4 pies, and in Chota Nagpore 8-5 pies. The distribution of cost over the various provinces under this Government was thus the same as in 1883. There was an increase in expenditure of Rs. 4,785, due to the additions already mentioned to the police force. The proportion of police to area was in Bengal (exclusive of the Chittagong Hill Tracts) 1 to 5-8, in Behar 1 to 7-1, in Orissa 1 to 6-9, in Chota Nagpore, 1 to 18-6 square miles. The proportion of police to population was 1 to 2,856, 1 to 3,745, 1 to 2,689 and 1 to 2,922 in those provinces respectively.

4. In the absence in the present report of any prominent notice of the difficulty in obtaining recruits, it may, the Lieutenant-Governor trusts, be assumed that it has been met to a considerable extent by the grant of batta to men in the districts of Hooghly, Howrah, Midnapore, 24-Pergunnahs, Jessore, Moorshedabad, Dacca, Rajshahye, and Pabna. It is suggested that, as in Bengal generally many of the smaller municipalities are not towns, but large villages, and there is difficulty in obtaining men for the regular police, the irksome town work discouraging enlistment, a return to the chowkidari system would have much to recommend it. Such a change might very probably have a beneficial effect on enlistment, but would in other respects be a retrograde step, and is not one which the Lieutenant-Governor is prepared to support. No mention is made in the report of the working of the new fifth grade of sub-inspectors at independent outposts. It is presumed, therefore, that these officers have continued to work satisfactorily. Some progress was made in the lighting of towns. Lights were added in Burdwan, Moorshedabad, Patna, Shahabad, Mozufferpore, Monghyr, Deoghur, Sahebgunge, Rajshahye, Bogra, and Cuttack, and lighting was begun in Pooree. Little or no progress was made elsewhere; and, as the Inspector-General remarks, it is strange that in a wealthy and important port like Chittagong no attempt at even a commencement of lighting it has been made. The remarks made on this subject in the reports of the last two years, with the comments of the Lieutenant-Governor thereon, will be sent to the Municipal Department of this Government for such action as may be thought practicable.

5. The number of town and village police, not subject to the rules of the regular police, was 170,726. The average annual emolument of each man was Rs. 30-5, and the total annual cost Rs. 52,22,339. Each man watched on the average 60-7 houses. The reports on the working of the Chowkidari Act were not generally favourable. There was much irregularity in payment of the chowkidars, and the punchayets in many cases kept no regular accounts. It is satisfactory to observe that the complaints made refer almost exclusively to the present system of paying the

chowkidars, and not to their usefulness as a body. Cases of punishment of chowkidars decreased from 8,517 to 8,323. A draft Bill is now under the consideration of the Lieutenant-Governor, by which it is hoped to reform the defects in the present Act without abrogating its principle. Under the provisions proposed, the punchayets will be employed merely as assessing bodies, and will cease to perform any duties with regard to the collection of rates, or the payment of the chowkidars. Each thana will be divided into suitable blocks or circles, within which the rates will be collected by tehsildars. The appointment of the chowkidars will rest with the punchayets subject to the approval or veto of the Magistrate. If two-thirds of the punchayets do not agree, the Magistrate will make the appointment. The village chowkidars are to be appointed by the punchayets, but paid by the police. Pending the introduction of improvements under the provisions of the proposed Act, the Lieutenant-Governor looks to district officers to make the best of the existing system from which, with energy and care, good results are, experience has shown, obtainable. A striking instance of this is noticed in the report with reference to the sub-division of Tangail in the district of Mymensingh. Whilst elsewhere in the district the pay of chowkidars was in arrear, commonly for six months, and not uncommonly for ten months and even a year, in Tangail the Sub-Divisional Officer in a few months made the payments and reports regular and the attendance punctual, and thus showed that the reasons given for bad results in other parts of the district were groundless.

6. As noticed in the Resolution on the last report, the strength of the police on the East Indian Railway was revised during the year under review on the principle that the police were to be employed solely for the maintenance of law and order, the Company making their own arrangements for watch and ward of property. The force on this Railway now consists of 1 Assistant Inspector-General, 5 inspectors, 8 sub-inspectors, 7 European constables, 41 head-constables, and 175 constables. A scheme based on similar principles for a railway police for other lines in Bengal has, since the close of the year, received the provisional sanction of the Government of India and will shortly be in operation.

7. No change was made in the system of road patrols. The patrol in the Darjeeling district is said to have worked admirably. Punitive police were quartered only in two places in Backergunge. The special reserves were not employed on any extraordinary duty, and the detachments from Dacca and Bhagulpore, detailed for duty to the Chittagong Hill Tracts, returned to their head-quarters in June. The police maintained order at 168 fairs, attended by about three and a half millions of people. Convictions were obtained in 105 out of 132 cases reported, and Rs. 712 were recovered out of Rs. 993 stolen.

8. The percentage of educated men among the inspectors increased from 98.2 to 99.3, and among sub-inspectors from 94.7 to 98; among head-constables the percentage decreased from 80.4 to 78.6, and among constables from 27.9 to 27.5. The reserves are, it is stated, practically too weak to allow of much advance being made in education. To the same cause is attributed a want of progress in drill. The Inspector-General remarks that the station officers either know no drill, or have forgotten the little they ever learnt. Where practicable, men have been sent to learn drill with native infantry regiments with a view to their employment as drill instructors, and a compliance with the order that all writer-constables should go through a course of drill has been insisted upon at inspections. So long as the superior officers are deficient in knowledge of drill, it cannot be expected that the subordinates will make any progress. The Inspector-General is requested to see that this branch of their duties is less neglected for the future. These officers have education and intelligence, and with such assistance as is readily available and with a little perseverance and painstaking they should certainly have no difficulty in acquiring all that is insisted on—a mere rudimentary knowledge of the subject. In the Resolution on the report for 1883, it was noted that new smooth-bore carbines would be issued to the ordinary district police, and muzzle-loading rifled carbines to the special reserves to replace the unserviceable arms of the same description then in possession of the police. The new carbines are in course of issue. It is too early for an opinion to be expressed

on their serviceability. The Inspector-General should notice this subject in his next report.

9. The expenditure on police buildings from the Public Works Department budget decreased from Rs. 67,173 to Rs. 10,272: that from the Police budget increased from Rs. 1,00,081 to Rs. 1,01,515. The expenditure shown in the report under review was, however, for the financial year, whereas that shown for 1883 was for the calendar year.

10. The total casualties in the police decreased from 3,412 or 14·1 per cent. to 2,971 or 12·5 per cent. of the force. The death-rate was 2·4 per cent. against 2·2 in 1883. There were fewer retirements on pension or gratuity, resignations, discharges, and desertions; while in dismissals the increase was only nominal. The improvement is attributed to the fact that the useless men taken over from the old Municipal Police have been weeded out. The figures under most heads of casualty are, however, still considerably greater than in 1881. The highest percentage (5·7) of deaths occurred in Hooghly, though the percentage of sick in hospital was in several districts considerably higher than in that district. The Inspector-General on visiting the hospital found it an ill-arranged, overcrowded building, where no proper diet was given, the men being left to feed themselves. He proposes to see if the system in force in the Calcutta Police cannot be introduced. Detailed proposals from him will be awaited. In Jessore, Dinagepore, the Gurjhat, Furreedpore, and Burdwan the admission into hospital exceeded 100 per cent. of the total strength of the force in each district. The percentage of admissions to hospital was lowest in Durbhunga (10·5) and Mozufferpore (13·9).

11. The number of judicial punishments of police under the Indian Penal Code decreased from 449 to 385: those under the Police Act from 294 to 243, departmental punishments without dismissal from 6,023 to 5,107, and dismissals from 764 to 708. The figures regarding departmental punishments cannot, however, it is stated, be trusted, as it has been the practice in some districts to show only fines and degradations. All departmental punishments should be fully entered, as otherwise inspecting officers cannot form a proper estimate of the discipline of the force. These officers should be careful to see that departmental punishments, especially fines, are not harsh or excessive in number. The general decrease in punishments inflicted on the police is satisfactory, if taken, as the Lieutenant-Governor hopes it may be, as an indication of improved conduct and discipline requiring less correction.

12. There were seven cases of torture by police. At Patna a sub-inspector was convicted of torturing by blows and kicks a man who was suspected of having embezzled Rs. 21, and of then laying a false charge of robbery to screen himself. The object of the torture was to make the accused confess in what manner he had disposed of the money. The injured man died. The sub-inspector was sentenced to three, one constable to two, and a second constable to one-and-a-half years' rigorous imprisonment. In Mymensingh a case in which there was strong suspicion of torture broke down on trial at the Court of Session. In Hazaribagh a head-constable and two constables were convicted of torturing some Dosadhs, who were suspected of house-breaking, by tying them up and beating them to induce confession. According to the special report received by Government on this case, the head-constable was sentenced to three years, one constable to eighteen months, and one constable to one year's rigorous imprisonment. At Chittagong a constable was convicted of torturing a thief to induce confession, and was sentenced to a year's rigorous imprisonment. Four other police officers were dismissed for being concerned in this case. The thief, when brought to jail, was paralysed, and bore marks of his ill-treatment. At Monghyr a head-constable, three constables, and two chowkidars were convicted of torturing five servants in order to induce them to confess to having robbed their employer. The servants were beaten, trussed with bamboos and tied, struck by a ruler on their joints, and their fingers squeezed against pieces of bamboo placed between them. The head-constable was sentenced to three years, the constables to eight months, and the chowkidars to three months' rigorous imprisonment each. The case in the Nuddea district, in which a constable, who acknowledged having beaten an accused person, and

having kept him awake by pouring cold water on him, was sentenced under Act V to a week's imprisonment and a fine of Rs. 10, requires fuller explanation. As the man was also guilty of allowing the prisoner in his custody to escape in the first instance, the case appears to the Lieutenant-Governor to have been most inadequately dealt with. This case was not specially reported to Government. The seventh case was pending trial at Midnapore at the close of the year. There were, in ten districts, 13 charges against the police of extortion, but none of them were, it is said, of any real importance. In accordance with the directions contained in the Resolution on the report for 1883, the police generally were informed through their District Superintendents, of the convictions and sentences passed on police officers for the grosser offences. The measures indicated in that Resolution for checking the commission by police of torture and extortion could have had little effect during the year under review, as they were only prescribed in the latter half of the year. Although not entirely confined to ignorant and low paid officers of the inferior grades, the Lieutenant-Governor observes that the majority of cases of this description reported during the year have been against officers of these grades. It is to be hoped that the persistent and sustained efforts of District Magistrates and Superintendents to check this form of crime, and the recognition by the police themselves that their position in the Government service will not shelter them in any way, but on the contrary will be considered an aggravation of the offence, may lead to a very considerable diminution of these charges of torture. In making these remarks, Mr. Cockerell does not overlook the fact that cases not unfrequently occur of offenders inflicting injuries on themselves for the purpose of fabricating evidence of torture against the police and procuring an acquittal for themselves. Two instances are quoted in the report where this defence was resorted to, and the Inspector-General proposes that more stringent measures should be taken to guard against its success through the corruption or apathy of jail subordinates, by insisting on the medical staff carefully examining all prisoners admitted. This proposal appears hardly practicable, but the Inspector-General of Jails will be asked whether some modification of it is not possible, supposing that its being carried out in its entirety is out of the question. A more feasible method of checking subsequent fabrication of injuries would perhaps be for the court sub-inspector, when a prisoner is first brought to him, to note in writing whether or not the prisoner bears on his person any sign of injury, and if so, to bring the fact at once to the notice of the Magistrate.

13. At the close of the year, 8,919 men wore one or more good-conduct stripes. Ten per cent. of the entire force of constables may, under the rules, draw the good-conduct allowance of Re. 1 per mensem. The number of men who, wearing three stripes or more, were eligible was 2,214, but the amount placed at the disposal of the Inspector-General was not, he says, sufficient to pay the full sum required. The Lieutenant-Governor does not understand this: the sufficiency or otherwise of funds for such a purpose as this must, it is presumed, depend upon budget provision, and the Inspector-General should see that an adequate sum is always entered in the budget estimates for the year. Much of the value of this allowance as an incentive to good conduct must be lost, if it is not paid when earned, and it is not creditable to the department that such payments should ever have to be deferred. Money rewards were received by 2,049 officers and men. The percentages of officers and men who were Christians were 3·7 and ·3, of those who were Muslims 23·9 and 29·4, Brahmins 21·4 and 16·9, Rajpoots and Khetris 5·9 and 18·2, Goorkhas and Nepalis ·9 and ·9, Sikhs 1·1 and ·2, high-caste Sudras 28·9 and 13·9, low-caste Sudras 3·4 and 4·7, Hindus of all other castes 9·9 and 13·3, other religions including hillmen ·9 and 2·2 per cent. for officers and men respectively. Escapes from police custody increased from 206 to 216. Forty-six of the escaped persons were recaptured—a result which the Lieutenant-Governor concurs with Mr. Veasey in thinking an exceedingly poor one.

14. The character of the inspections made by District Superintendents of Police was referred to only by three Commissioners in their divisional reports. In future the manner in which this duty was performed should invariably be noticed by these officers. The Lieutenant-Governor agrees in the opinion

that the present system of visiting and inspecting thanas by District Superintendents should not be altered. From the Inspector-General's remarks, it would seem that the opportunity which these tours of inspection offer for obtaining useful information at first hand in matters connected with police administration is not sufficiently borne in mind, and that the record of their visits to the interior is too often a mere string of names of places visited, instead of a useful note of information obtained by personal local enquiry, and of the orders passed on matters brought to the notice of the District Superintendents whilst on tour. The matter is one on which special instructions might with advantage be issued by the Inspector-General for the guidance of officers.

15. Escort duty, though somewhat less than in 1883, was still very heavy. The statement given in paragraph 45 of the report shows that 26,528 men of all ranks were employed in escorting Rs. 17,58,06,138 and 14,123 prisoners. No treasure was lost, but it would seem that 86 prisoners escaped during transit. It is not stated how many of these were recaptured.

16. Deaths from suicide increased from 2,392 to 2,531. In Jessore (225), Nuddea (211), Gya (167), Cuttack (155), Dacca (115), and in the 24-Pergunnahs (104) the number of suicides exceeded 100. Accidental deaths increased from 26,762 to 26,903. During the year 10,771 deaths occurred by drowning, 9,466 by snake-bite, and 1,411 by wild beasts.

17. The percentage statements prescribed by the Government of India as tests of police work are—(a) in regard to cases, the percentage (1) of cases investigated by the police to cases reported, (2) of cases, police and direct, ending in conviction to cases decided, (3) of police cases ending in conviction to cases investigated, (4) of police cases ending in conviction to cases decided; (b) in regard to persons, the percentage (1) of persons released in police cases without being brought before a Magistrate to persons arrested by police, (2) of persons convicted in police cases to persons arrested by police, (3) of persons convicted in police cases to persons sent up for trial; (c) in regard to property, the percentage (1) of property recovered to property lost, (2) of cases in which property was recovered to cases in which property was lost. On these tests the Inspector-General observes:—"Test (a) 1 shows that police agency is most resorted to in the Presidency and Chota Nagpore Divisions, the other divisions varying from 79.0 in Bhagulpore to 72.0 in Dacca. Test (a) 2 is hardly a test of police work, including as it does direct cases. Under it Bhagulpore is far the best, with 55.9; only one other division (Patna) having more than 50. Rajshahye is last with 42.4—a position it also occupied last year. Test (a) 3 is of little practical value, since it includes false cases as well as cases in which the police were unsuccessful, or had not evidence enough to justify an arrest. Test (a) 4 seems to require amendment, including as it does direct cases decided, with which of course the police had nothing to do. Under it Bhagulpore comes first and the Presidency last, but the variation is inconsiderable—6.7. B form is so seldom used that the percentages under test (b) 1 are insignificant, varying from .6 in Chittagong and .8 in Orissa to 6.7 in Patna. Speaking generally, I believe that B form should be met with much oftener than it is; that is, that the police should use C form in unsuccessful cases where accused or suspected persons were virtually under arrest, though nominally only attending for the purposes of the investigation. In both the remaining tests of persons, Chota Nagpore comes first and Dacca last, but the discrepancies are not such as to call for detailed notice. In the property tests the Presidency Division is ahead, whilst the Rajshahye and Bhagulpore Divisions show worst." The percentage required of police cases ending in conviction to cases decided would certainly seem to be useless unless the cases decided were wholly police cases. This point will be referred to the Government of India, under whose instructions the statements have been prepared. With regard to the remarks of the Inspector-General as to the use of the B and C forms, he is requested to issue instructions to District Superintendents of Police that the cases of persons virtually under arrest, and finally released by the police on insufficient evidence appearing against them, should be entered for the future in B and not in C form.

18. The total number of cases, cognizable and non-cognizable, increased from 214,985 to 219,733, showing a net increase of 4,748 cases. There was an increase of crime in six out of the nine divisions. In the Presidency, Rajshahye and Bhagulpore Divisions there was an increase of 2,234, 1,252 and 2,885 cases respectively. In the Dacca Division, on the other hand, cases decreased by 3,453. In Bengal the percentage of cognizable cases was 46·5, that of non-cognizable cases 53·5. On the other hand, in Behar the percentage of cognizable exceeded that of non-cognizable crime, the figures being 58·2 and 41·8 respectively.

19. Cognizable offences reported increased from 104,454 to 112,365, or by 7,911. There was an increase in offences against property of 9,212, and in offences against public tranquillity of 135. Under offences against the person there was a decrease of 347, and in other cases of 1,089. The increase in offences against property is attributed to a partial failure of crops and consequent high price of food acting as an incitement to crime. The increase in this class of crime was most marked in the Patna, Bhagulpore, Presidency and Rajshahye Divisions. There was a marked decline in excise and nuisance cases.

20. In Bengal the percentage of cases declared false decreased from 7·3 to 5·9, in Orissa from 8·9 to 6·5, in Chota Nagpore from 8·1 to 6·6. In Behar the percentage increased from 6·4 to 6·8. On the whole there was, it is stated, a decrease from 7·1 to 6·3. The Rajshahye, Patna and Bhagulpore Divisions were the only ones in which there was an increase. Cases excluded from the returns as false, through mistake of law or fact, increased from 8,699 to 9,572. It seems doubtful whether Magistrates have not in some districts, particularly Backergunge, shrunk from declaring charges to be wilfully false. The percentage of cases reported by the police to be false, but declared by Magistrates to be true, increased from 7·8 to 8·3.

21. Prosecutions for laying false charges decreased from 1,494 to 1,437, the percentage to total cases declared false rising from 20 to 20·3. There were 409 cases of convictions, against 466 in 1883; the percentage (31·2) of convictions to prosecutions remaining the same. The greatest success in convictions for laying false charges was obtained in the Chota Nagpore and Patna Divisions, where the percentages were 38·6 and 37·4. In the Dacca, Burdwan and Rajshahye Divisions the percentages were lowest, being 14·5, 16·9 and 19·6 respectively. From the statements given in the report it is plain that, in spite of the directions contained in the Resolution of last year, the increased supervision which Magistrates were ordered to exercise over their subordinate courts in the prosecution of persons laying false charges has not been exercised. Magistrates are still reluctant to sanction such prosecutions, and an instance is quoted in the report where a Deputy Magistrate at a sub-division declared 78 charges false during the year, yet refused to sanction a single prosecution. This is probably not a solitary example. Commissioners will be requested, in submitting their quarterly criminal returns, to state for each district in their divisions the number of cases declared wilfully false, and the number of prosecutions instituted for laying false charges, and to give, whenever necessary, an explanation of the small number of prosecutions. The Lieutenant-Governor does not consider that the judicial decision under which a complainant has a right to have his case heard before he is himself prosecuted for laying a false charge should create any difficulty in the ultimate prosecution of the original complainant. On the contrary, the enquiry should tend to simplify the case by bringing the facts more clearly to light and checking further fabrication of evidence. The hardship of putting an innocent person on his defence on the original charge, in order that the false case may be enquired into judicially before prosecutions are instituted, is adverted to by one of the Magistrates whose opinions are quoted in the report. The hardship is no doubt a real one, but it is of slight importance in comparison with the necessity of suppressing the practice of laying false charges. Commissioners will be asked further to draw the attention of Magistrates to the remarks contained in paragraph 15 of the Resolution on the report for 1883 on this subject.

22. Of 114,112 cognizable cases reported to have been committed during the year, or in previous years, and brought under enquiry within the year,

21,165 were instituted directly before a Magistrate. The total number investigated by the police was 96,149, or 84·2 per cent. In 1883 the percentage was 83·8. No original police enquiry was made in 732 cases, but out of these, enquiry in 76 cases was afterwards made by order of the Magistrate. The percentage of cases not enquired into to cases reported was, as in 1883, ·6. The districts in which the number of enquiries refused was greatest were—Mymensingh (227), Nuddea (94), Lohardugga (49), Chumparun (47) and Pooree (40). The District Superintendent of Mymensingh endeavoured to show that the work was so heavy that the police had no alternative but to refuse enquiry in order to get through the work they already had to deal with. The Commissioner and the Inspector-General consider the explanation unsatisfactory. More than half the cases occurred in two thanas, and in these the increase was, it appears, only 4·5 per cent. In 1883 enquiry was refused in Mymensingh in 116 cases, and this was attributed to some improper instructions issued by the Magistrate to the police. There can be no doubt, as remarked elsewhere in the report, that the police force of Mymensingh is not only undermanned, but under-officered. There were 50 cognizable cases to each investigating officer, and 7·8 to each policeman; the average of the province being 4·9. The proposals of the Inspector-General for re-distribution of the police force of these provinces have not yet been received, and the Inspector-General is requested to hasten their submission. It is presumed that they will contain measures for the relief of this district. No explanation is given of the large figures for Nuddea and Chumparun. The Inspector-General will ascertain and report separately the cause of the large number of refusals in these districts. The majority of cases in which enquiry was refused at Lohardugga consisted of attempts at house-breaking. The Inspector-General has impressed on the District Superintendent the importance of attending to such cases. The increase in Pooree is, it is stated, accounted for by the issue by the late Assistant District Superintendent of an order, in which the Magistrate must have concurred, to the police to refuse to enquire into all cases of petty theft. Such an order is of course wholly illegal. The practice has been discontinued.

23. Excluding cases finally declared to be absolutely false, but including other C form cases, the percentage of convictions in cases enquired into by the police to true cases decreased from 41·9 to 39·8. There were 83,544 persons arrested by the police, and of these 56,583 were convicted. The percentage of persons convicted to persons arrested rose from 65·5 to 67·7. The percentage of convictions to men brought to trial was, as in the preceding year, highest in Darjeeling (82·3), Howrah (80·6), and Patna, (77·0), and lowest in Rungpore (50·0), Pubna (48·4) and Mymensingh (41·9). It is suggested that charges withdrawn or compounded under sections 248 and 345, Criminal Procedure Code, should be excluded in calculating percentages of convictions, so that the working of the police may be shown in a fair light. The suggested change would be useful, but cannot be carried into effect without an alteration in the prescribed form of returns. The point will be brought to the notice of the Government of India. Referring to the remarks made in paragraph 17 of the Resolution on his report for 1883, the Inspector-General states that District Superintendents have been called on to state what inspectors can usefully be employed on court work, their present duties being discharged by sub-inspectors, and that the replies received are now under consideration. His proposals will be awaited.

24. It would seem that the effect of section 495, Criminal Procedure Code, which precludes any police officer below the rank of Inspector from conducting a prosecution, has again been noticed in connection with the low percentage of convictions; the Magistrates of Patna and Chittagong particularly complaining that the strength of the local bar is generally found arrayed on the side of the defence. This, however, as the Inspector-General remarks, is no new thing, nor would it be improved by amending the law so as to admit of Court Sub-Inspectors of police undertaking the duty. The latter, with their numerous other duties to attend to, would have no more opportunity of making themselves acquainted with the facts of a case than the Magistrate who tried it, and would consequently be of little use, except before a Magistrate who carries judicial impartiality to such a length that he will hear, see and know nothing beyond what

he is told by the police on one side and the defence on the other. Officers of this description are rare, most Magistrates recognising the necessity of being something more than what Mr. Veasey describes as "mere judicial machines dealing with intangible abstractions." Still in some cases the Lieutenant-Governor is inclined to think the proposed amendment might be useful, and as it is confined to allowing Court Sub-Inspectors to prosecute, it is not open to the objection commented on by the High Court in the case of Ram Chunder Sircar, 13 L. R. 18 of police prosecuting cases, which they had been engaged in enquiring into. The matter is one of no very great importance, but as the contemplated amendment of the Criminal Procedure Code affords an opportunity which may not occur again for some time, the Lieutenant-Governor is inclined to recommend that section 495 should be amended to the extent of substituting for the words "below the rank of police inspector," the words "not being an inspector or a court sub-inspector."

25. In the result of trial of persons, the general percentages of convictions to arrests, of convictions to persons brought to trial, and of convictions to persons actually tried, compared with those of the preceding year, exhibit a decrease in offences under class I (offences against the State, public tranquillity, safety and justice), class II (serious offences against the person), class IV (minor offences against the person), and class VI (miscellaneous offences) with a slight increase in offences under class III (serious offences against person and property or against property only), and class V (minor offences against property). The percentages of convictions in serious and minor offences against the person were low. In Sessions trials the percentage of convictions increased from 57·6 to 59·3. In the districts in which the jury system has been introduced, the percentage of acquittals was in the 24-Pergunnahs 32·7, Hooghly 75·0, Burdwan 35·2, Moorshedabad 58·2, Nuddea 51·9, Patna 19·3, Dacca 51·5. The total number of convictions in these seven districts was 218, and of acquittals 180. The percentage of convictions in the jury districts was thus only 54·7, being considerably below the general average. In Patna there were 50 convictions to 12 acquittals. In Hooghly, on the other hand, there were only seven convictions to 21 acquittals, and of the latter 20 were cases of serious offences against the person. The District Judge of Hooghly will be asked to explain the reason of the large proportion of acquittals. In two cases in this district the High Court, it is stated, set aside the verdict and convicted, sentencing the accused to transportation for life. The Lieutenant-Governor has recently requested the Superintendent and Remembrancer of Legal Affairs to issue a circular to all Sessions Judges, pointing out that Government, under the present Criminal Procedure Code, cannot appeal against an erroneous verdict of acquittal delivered by a jury on the facts; that such verdict can only be reversed on a reference by the Judge to the High Court under section 307 of that Code; and that, if the Judge considers the verdict of the jury, or of the majority, so completely wrong as to make it necessary for the ends of justice that it should be revised, the Code renders it imperative on him to submit the case to the High Court. If Judges in jury districts are careful to exercise the check provided by law on verdicts of juries, there is no reason why palpable miscarriages of justice should not be rectified. The Inspector-General, in applying the remarks on the reluctance of juries to convict also to assessors, appears to have lost sight of the fact that Judges are not bound to conform to the opinions of assessors.

26. The number of cases in which property was stolen increased from 32,978 to 40,683, and of those in which property was recovered from 15,456 to 18,552. The amount stolen increased from Rs. 9,57,779 to Rs. 9,92,560, while that recovered decreased from Rs. 2,79,823 to Rs. 2,67,092. The percentage of cases in which property was recovered to those in which property was lost declined from 46·9 to 45·6, and the percentage of property recovered to property lost from 29·2 to 26·9. In eight districts—Burdwan, Howrah, Rajshahye, Julpigoree, Noakholly, Mozufferpore, Maldah and Hazaribagh—the latter percentage exceeded 40, and it was lowest in Mymensingh (11·9) and Balasore (12·4). In Mymensingh only Rs. 9,026 out of Rs. 75,287 stolen, and in Balasore Rs. 1,068 out of Rs. 8,709 stolen, were recovered. In 1883, out of

Rs. 1,01,043 reported stolen in Mymensingh, the property recovered only amounted to Rs. 14,916. The weakness of the police in Mymensingh has repeatedly been noticed, and must be remedied in the general re-distribution of the force. The cause of the poor results in Balasore is not apparent. Although the totals do not vary considerably from year to year in these provinces, the percentages in adjoining districts, and in the same districts from year to year, show fluctuations which are difficult to comprehend without a knowledge of the special circumstances in each district. In reviewing the report for 1883, it was noticed that, while in Chumparun property was reported to have been stolen in 70 per cent. of the burglaries of which information was given, in Mozufferpore and Durbhunga the percentages were only 27 and 26, and the district officers were directed to ascertain for the future with greater exactness the amount of property taken. For 1884 the percentage in Chumparun is reported to be 72.0, in Mozufferpore 28.6 and in Durbhunga only 22.6, the percentage in Bengal proper being 76.1. It is obvious that the statements for Mozufferpore and Durbhunga must be incorrect: for, as the Inspector-General remarks, if burglary had more blanks than prizes, it would soon be abandoned as not worth the trouble and risk it entails. It is equally obvious that the suppression of the fact of property being stolen must lie with the police and chowkidars, as the original complainants would have little or no interest in reporting a burglary, and so courting enquiry, while at the same time suppressing the fact of theft of property which they wish to recover. In districts in which the Inspector-General considers the percentage is suspiciously low, District Superintendents either themselves, or through their Assistant Superintendents or trustworthy inspectors, must make local enquiries in at least 10 per cent. of the cases in which burglaries are reported to have been committed without theft of property. The Inspector-General will see that these orders are carried into effect.

27. The following statement shows the number of true cognizable cases under each of the six different classes for the last five years:—

	1880.	1881.	1882.	1883.	1884.
CLASS I.—Offences against the State and public tranquillity.	2,639	2,427	2,508	2,039	2,789
„ II.— Serious offences against the person ..	4,061	4,301	4,267	4,684	4,618
„ III.— Ditto ditto person and property, or against property only.	18,953	19,051	18,520	19,009	24,221
„ IV.— Minor offences against the person ..	10,874	11,096	12,450	2,813	2,583
„ V.— Ditto ditto property ...	38,859	35,673	36,301	37,690	42,630
„ VI.— Other offences not specified above ...	24,086	24,056	27,181	29,554	28,477

Exclusive, therefore, of offences under classes III and V, regarding property, the large increase in which was due to the character of the season, the state of crime was normal.

28. Under class I, offences against the State and public tranquillity, there was an increase of 130. Rioting cases increased by 137, and offences of personating a public servant by 31. Under other heads there was a decrease. Both the percentage of cases ending in conviction, and of persons convicted decreased. There was but little change in the proportion of cases investigated by the police, or in the result of arrests. The riots were for the most part of a petty nature, and it is observed that out of 10,096 persons who appeared before Magistrates on charges of riot, only 167 were committed to the Court of Sessions. Riots increased in every district in the Presidency Division, except Moershedabad, the total increase being 78. In the district of Jessore there were 41 more than in 1883. In the Patna Division rioting cases increased from 189 to 287. No explanation is given of the large increase in those two divisions. In the Dacca Division these cases decreased in all districts by 100. In Backergunge, a district formerly notorious for riots, there were only 67. Those in Mymensingh decreased from 262 to 214. There is a great diversity in the application of measures to prevent breaches of the peace. Thus, while in Mymensingh the number of cases in which persons were bound over to keep the peace was only 45, in Backergunge the number was 835. In the former district the action taken appears to have been too lax; in the latter, measures that might seem under ordinary circumstances unnecessarily

rigorous are justified when the character of this district for turbulence is remembered, and when their effect is seen in the remarkable diminution of rioting cases. But a small proportion of the riots was attended anywhere with loss of life. The immense majority was, as usual, due to agricultural disputes. The number of false charges of riot remained as in 1883—214. Coining cases numbered, as in the year 1882, 137. There were 72 persons convicted and 73 discharged by Magistrates; 25 convicted and seven acquitted at the Sessions of this offence. None of the cases appear to have been of any special interest. The cause of the increase in offences of personating a public servant is not noticed in the report.

29. In class II, serious offences against the person, there was a total decrease of 66. Cases of murder by poison decreased from 11 to 8; of rape from 186 to 145; of attempts at, or abetment of, suicide from 385 to 376; of grievous hurt for the purpose of extortion or procuring confession from three to two; of administering stupefying drugs with intent to cause hurt from 17 to 8; of hurt by dangerous weapons from 1,076 to 1,064; of kidnapping or abduction from 281 to 198; and of rash and negligent acts causing death or grievous hurt from 82 to 69. Cases of attempt at murder rose from 41 to 49, of culpable homicide from 189 to 191, of grievous hurt from 752 to 791, and of exposure of infants or concealment of birth from 89 to 116. Under none of the heads was the variation of any great importance. The increase noticed in cognizable cases of hurt in 1883 was continued, though not to the same degree, in 1884, and there still exists reason for suspecting that the police exaggerate charges of hurt, so as to make them cognizable either as grievous hurt, or as hurt by dangerous weapons or means. In the Resolution on the Report for 1883, the Lieutenant-Governor directed Magistrates to adopt measures to prevent police officers from taking cognizance of any charges not strictly cognizable according to the present law. These orders have apparently not been complied with. The attention of District Magistrates will be drawn to these orders. The Inspector-General should himself obtain through the Magistrate an explanation from the District Superintendent in any district in which the police appear to be taking cognizance of cases not properly cognizable. The percentage of convictions to cases of rape reported true was, as usual, very small. Cases of exposure of infants increased in the Patna Division from 40 to 65. The cause of this result was the distress prevailing in that division. Cases of administering stupefying drugs are noticed separately in the report. Out of 7,310 persons arrested for offences under class II, 6,431 persons were brought to trial, and 2,709 only were convicted. The percentage of convictions to arrests, and of convictions to persons tried, were generally somewhat lower than in 1883. In Courts of Sessions, however, the results were slightly better, and the percentage of convictions to persons tried increased from 43·3 to 45·5.

30. Three murders were committed by dacoits, seven by robbers, eight by poison, and there were 248 murders of other descriptions. The total number was 266. In 1883 their number was 264. The number of murders varies but slightly from year to year, the tendency being on the whole to a gradual decrease; yet the proportion of persons convicted to persons tried has every year steadily decreased from 38·3 in 1879 to 18·7 in the year under review. As observed in the report, practically few murders are committed in cold blood, or after weighing the chances of escape, and therefore the unwillingness of the courts to convict does not exercise the evil influence it would exercise in the case of other offences. There is no reason to believe that the police are more prone to mismanage the conduct of the investigation now than formerly, and the only reason which suggests itself is that given in the report, viz. the growing disinclination of courts to convict for this offence. It is not, however, plain what proportion of the persons tried for murder is convicted of the lesser offence of culpable homicide not amounting to murder. The Inspector-General may notice this point in his next report. Meanwhile, in the absence of a distinct increase in offences of murder due to the decrease in convictions, the Lieutenant-Governor is not prepared to take further steps in the matter at present.

31. Fifteen cases of murders of infants by their mothers were reported. In two cases the offenders could not be detected; in four they were acquitted;

four more were convicted of murder, of whom three were sentenced to transportation for life and one hanged; three were convicted of the minor offence of concealment of birth, and sentenced to various sentences of imprisonment; one offender died in jail; and one was under trial at the close of the year. The Lieutenant-Governor reduced the sentence of a woman who, in 1883 on a quarrel with her husband, jumped into a well with her two children, of whom one was drowned, from transportation for life to seven years' rigorous imprisonment. No other remission of sentence was granted.

32. In class III, serious offences against person and property or against property only, there was an increase of 4,606 in cases reported true. The number of offences under this head was, in comparison with the figures of many previous years, unprecedentedly large. Offences of dacoity or preparation and assembly for dacoity increased from 120 to 168, of robbery in a dwelling-house from 8 to 18, of mischief by killing, poisoning or maiming animals from 767 to 815, and of lurking house-trespass or house-breaking from 17,656 to 22,173. The variations under other heads were inconsiderable. There were 3,292 persons convicted of offences under this class against 2,814 in 1883, and the percentages of convictions to persons who appeared, and of convictions to persons tried (46·9 and 50·9) were slightly higher than in that year. As will be noticed in reviewing the statistics of offences under class V, there was a large increase in thefts, and the general increase in offences against property was undoubtedly due to high prices and to the distress which prevailed during part of the year. No explanation is offered of the increase in offences of causing mischief to animals of the value of Rs. 10 or upwards. Offences of mischief by fire are included in other offences of serious mischief which numbered 639. The Inspector-General is requested to notice this class of offence separately in future reports. Robberies decreased from 171 to 167. There is little variation in this form of crime from year to year. As noticed in the Resolution on the report for 1883, the Inspector-General, with the sanction of Government, issued a circular directing District Superintendents to give every facility to postmasters in the way of furnishing them with information and granting escorts, when remittances had to be made, and submission at the close of the year was promised of a special report on the working of the rules. The report has not, however, up to the present time, been submitted.

33. Including cases pending from 1883, there were 171 dacoities—more than in any year since 1879. The increase occurred in every division except Bhagulpore and Dacca. In the Burdwan Division they numbered 34, in the Presidency 29, in Chota Nagpore 17, and in Patna 21, against 26, 16, 8, and 11 respectively in 1883. In each of the districts of Hazaribagh and Dinagepore 10 dacoities occurred, in Rungpore, Gya, and the 24-Pergunnahs 15, and in Beerbhoom 12. Of 656 persons who appeared before a Magistrate charged with this offence, 129 were convicted and 404 acquitted. The percentage of convictions to those who appeared being 19·6, that of convictions to those tried 24·2. These results are very unsatisfactory. The percentage of property recovered to property stolen decreased from 14·4 to 7·9. The value of property reported stolen was, however, much less than in 1883, being Rs. 37,818 against Rs. 61,460. The latter percentage is of very small value, as hardly any reliance can be placed on the statements of complainants as to the amount of property of which they have been robbed. In reviewing the crime statistics of 1883, it was remarked that many offences against property, which are technically described as dacoity, are in reality of comparatively slight importance, requiring no special means to check them, and the Inspector-General was asked in future reports to indicate more clearly what proportion of the reported dacoities there was reason to believe was committed by professional dacoits. In his present report the Inspector-General states that two-thirds of the reported dacoities have been declared to be merely technical; but he observes, accepting as the definition of a technical dacoity, an occurrence in which the offenders are known and belong to the neighbourhood, and are not members of an organized gang, he is unable to accept the classification as correct; it having been found on inspection that local officers have been too ready to minimise an outbreak of crime by declaring the majority of the dacoities

to be technical and of no importance. He, therefore, proposes to use the word "local" instead of "technical" as distinguished from "professional" dacoits. By the term professional dacoits, however, was meant persons organized into gangs for the purpose of systematically committing robbery by violence, whether locally or otherwise. The Inspector-General, to whom special reports of dacoities are submitted, will himself be best able to judge which of the offences are committed by this the more dangerous class of offenders, and it is to the suppression of this class that the energies of the police should be chiefly directed. With a view to more effective surveillance, and to guard against the omission of names not now on the registers, District Superintendents have, it is reported, been directed to make lists of all persons convicted or reasonably suspected of dacoity. Endeavours should further be made to ascertain from convicts under sentence whether they are connected with any organization for commission of dacoity, and promise should be made to such a criminal of remission of part of his sentence in the event of his giving material information leading to the conviction of other professional dacoits. The Inspector-General remarks that the crime is fostered and encouraged by the arrant cowardice of the people plundered, who will neither make any show of resistance, nor even follow up and trace the offenders, and that the remedy lies with the people themselves, who invite attack by their own helpless timidity, and from their rooted belief that everything is to be done for them. This is no doubt the case; but the nature of the people cannot be changed, and since they will not stir to protect themselves, the best means available must, under the circumstances, be taken to protect them. An example of the difficulties with which the police have to contend occurred in Midnapore, where it is reported the householder who had been robbed attempted to hush up the matter for fear the women of his household should be cited as witnesses.

34. Minor offences against the person under class IV decreased from 2,813 to 2,580. Owing to the large number of cases in which compromise is effected, these amounting in the year under review to 457, the percentages of convictions are always low. There was a large decrease of 217 cases in the Dacca and of 76 in the Presidency Division, of which no explanation is given. There were no other fluctuations calling for remark.

35. Offences under class V, minor offences against property, show an increase of 4,940. Offences of receiving stolen property were more by 278, of cattle-theft by 475, of criminal or house-trespass by 576, of ordinary theft by 3,767 than in 1883. Cases of criminal breach of trust declined by 111, and there were small decreases in minor offences of lurking house-trespass or house-breaking, or breaking a closed receptacle. Percentages of convictions generally showed a slight improvement. In order to facilitate comparison with the results of former years, the more serious offences of lurking house-trespass, house-breaking, and house-trespass with intent to commit an offence, have been included in the statistics of this class in reviewing offences under it. Including those offences, there was an increase in every division except Dacca, and in every district except Balasore, Jessore, Mozufferpore, Mymensingh, Noakholly, Shahabad and Tipperah. The bulk of the increase was in thefts and burglaries. The increase in the two Behar Divisions—Patna and Bhagulpore—was great in comparison with that which took place in Bengal. Out of 65,051 offences occurring in these provinces, 24,634 occurred in those two divisions; but the increase in the latter amounted to 4,804, or considerably more than half the total increase. Bad harvests and consequent high prices, acting especially in Behar as an inducement to crime, were the undoubted, as they are the assigned, cause of the increase. Among the seven districts noticed above, the decrease in Balasore, Tipperah and Noakholly was merely nominal, and calls for no remark; for Jessore, in which there were 212 cases less, no explanation is given; in Mozufferpore the decrease, though only nominal, was remarkable, taken with the large increase in the neighbouring districts, and should have been fully explained; in Mymensingh 424 offences were reported less than in 1883—a result which is ascribed, and can only be ascribed, to the bad state of police and criminal administration in that district; for Shahabad, in which there was a decrease of 58 cases, no explanation is given, though the district is in a division where the increase was generally great. The heaviest increases occurred in Durbhunga (934), Nuddea (711), Gya (710),

Sonthal Pergunnahs (677) and Bhagulpore (551). It is difficult to understand the reason of the fluctuations in the number of offences of the same class in different districts within the same division, and apparently under the influence of the same general causes which affect the criminal population. Thus in the Presidency Division there was a large decrease in Jessore, with a very large increase in Nuddea; in the Rajshahye Division the increase was only nominal in Julpigoree, while in Rungpore it exceeded 37 per cent. The cases of Mozufferpore and Shahabad have been already noticed. Commissioners of Divisions should deal with this subject more thoroughly in submitting their divisional reports.

36. In reviewing the crime statistics for 1883, the Lieutenant-Governor requested the Inspector-General to impress on District Superintendents the necessity of giving clearer explanations, when submitting their annual statements, of the fluctuations between the number of thefts and that of burglaries in their districts. Instructions to District Superintendents were accordingly issued by him, and explanations given by some of the officers are briefly summed up in his report. They are for the most part superficial and unsatisfactory, and show that the officers do not themselves understand the causes which are operating. The Inspector-General observes generally: "The main reason for these fluctuations is to be found in want of uniformity in procedure and classification, and I may add to this that it is a fallacy to suppose that what influences one class of offence will influence the other. In Behar and Western Bengal the third quarter of the year is the best suited to burglaries, as the mud walls are then softened by damp, and the pattering of the rain on the tiles on a wet night deadens the sound of the burglar's tools. Elsewhere the weather gives no such assistance, but the houses are for the most part so flimsy and insecure that theft can be distinguished from burglary only by an arbitrary and artificial distinction, and throughout the Lower Provinces there will always be most thefts at the seasons when crops are ready to cut, or the grain is left unprotected on the threshing-floor." The opinion is cited of Mr. Stack, now Deputy Inspector-General, who points out that the recognition of an anomaly implies an assumption that both classes of offences are influenced by the same causes, which is not the case; theft including not only theft by professional thieves, but also offences which are merely technically thefts, occurring in the course of disputes about land, and having no connection with burglary. It is no doubt true that the two classes of offences are not influenced in their occurrence by exactly the same causes. They are, however, influenced by the same chief general causes, viz. the needs of the criminal population and the repressive action of the police and criminal courts. Other causes are inconsiderable and to some extent neutralize each other in the course of the year. The Lieutenant-Governor is inclined to agree with the opinion that the fluctuations in the two classes of crime are not in their actual occurrence, but in their classification. On this point the Inspector-General will no doubt inform himself more exactly in the course of his inspections.

37. In offences under class VI, including offences not included in the other five classes, there was a decrease of 1,077. With the exception of the year 1881, in which there was a nominal decrease of 32 cases, the rise since 1878 had been constant and great. In 1878 offences under this numbered 14,996; in the year under review they were 28,477. Public and local nuisances declined from 22,071 in 1883 to 20,709, while offences under the Excise laws declined by 565. Offences under the Arms Act, on the other hand, increased by 122, and those under special and local laws by 205. Nuisance cases largely increased in the Presidency Division, and in Dinagepore of the Rajshahye Division the reported cases increased from 371 to 1,330. The cause assigned is increased activity on the part of the police. In Patna there was a decrease of 1,342 in these cases, due, it is stated, to the Patna Courts, that is, apparently the Honorary Magistrates, by their leniency towards delinquents, discouraging prosecution by the police. A large decrease in Bhagulpore is attributed to a change in procedure of the Bench of Magistrates, who now refuse to convict under section 34, Act V of 1861, persons sent up for committing nuisances elsewhere than on the road.

38. There were 1,260 persons tried for bad livelihood, of whom 774 were convicted. The comparatively small proportion of convictions in a class of case in which no prosecution should be instituted without full proof against the accused,

shows that prosecutions are still instituted with too great frequency. In the five districts of Beerbhoom, Rajshahye, Julpigoree, Mymensingh and Pooree, there were 89 institutions and only 24 convictions. Charges of bad livelihood instituted by private persons increased from 120 to 144, of which 99 arose in six districts. Such charges are naturally open to suspicion. The trial of persons accused of bad livelihood on the average remained pending in Bengal 38·6 days, in Behar 20·6 days. The average duration in Julpigoree was 148, in Mymensingh 145, and in Jessore 140 days, while in Sarun a single case remained pending for 1,318 days. Explanations will be called for from the district officers of these four districts. The Inspector-General observes that results certainly do not show that prosecutions have been instituted indiscriminately, but the amount of work at head-quarters now-a-days is such that it is often difficult to find an officer to take up a case locally, whilst another difficulty is that only specially selected Magistrates can now exercise powers under section 110, Criminal Procedure Code. It appears to him, however, that more cases might be tried by District Magistrates while on tour. Looking to the result in convictions of trials, the only safe test in such cases, the Lieutenant-Governor does not feel sure that the prosecutions might not be considerably reduced. It is of course possible that a number of cases break down owing to the unreasonable time taken in their disposal. Work at the head-quarters of a district is no doubt heavy, and at certain seasons it is extremely difficult, if not impossible, to depute an officer to the spot for the purpose of locally trying these cases. But at the same time Mr. Cockerell must record his opinion that much of this difficulty would be got over if Magistrates would exercise a little more forethought and method in the arrangements made for the disposal of cases of this description. Obviously, as far as possible, these cases should be taken up in the cold weather, when, with the Magistrate or the Joint-Magistrate and all the sub-divisional officers in camp, a great deal of the work might be got through. Excluding wandering, homeless thieves who, as remarked in the Resolution on the Police Report for 1883, should be tried as soon as sent up, the names and villages of those it is desirable to prosecute are perfectly well known, and the Lieutenant-Governor feels confident that there is hardly a district in these Provinces in which it would not be possible to depute a competent officer to take up such cases at least once a quarter; if in some instances, owing to special circumstances, this is found impossible, the position must be accepted and the cases taken up when a convenient opportunity occurs. As regards the difficulty that only specially selected Magistrates can now exercise powers under section 110, the Lieutenant-Governor believes that nearly all officers exercising first class powers, to whom the selection is by law confined, have been invested with powers under this section. Where this has not been done, District Magistrates have only to apply, and the difficulty will be at once removed. It is satisfactory to observe that the number of bad characters under police surveillance was reduced from 48,269 to 46,806. The Inspector-General states his belief that the number is not susceptible of anything like a substantial reduction, and cites the fact that enquiries in the dacoity circles have brought to light numbers of instances of old dacoits whose very existence was unknown and unsuspected by the local officers. The greatness of the numbers on the registers is, however, the chief obstacle to effective scrutiny, and is the very reason why criminals who should be very carefully watched are able to commit crime unsuspected. The Lieutenant-Governor finds it difficult to believe that in Midnapore 2,593, in Dacca 2,318, in Moorshedabad 2,262, and in Bankoora 2,137 persons are kept under effective surveillance by a police burdened with many other duties, or that such surveillance is necessary in so many cases. If only those criminals who are on good ground suspected to be habitual are watched by the police, the Lieutenant-Governor believes that the number on the registers is capable of being much lessened. It is of course not meant that the reduction should be hasty and indiscriminate, but the necessity for it must be constantly kept in view and the importance of the duty impressed on District Superintendents.

39. Offences against Excise and Opium laws declined from 3,171 to 3,143. There was no variation of any moment in this class of offence.

Offences against the Salt laws fell in Bengal from 1,437 to 1,088, and in Behar from 903 to 773; decreases in Midnapore and Howrah are attributed to discontinuance of prosecution of retail vendors for petty irregularities,

a decline from 142 to 28 cognizable salt cases in the Chittagong district, to an increase in the consumption of duty-paid salt, and discontinuance of employment by the police of boatmen in detection; of a decrease of 101 cases in the Orissa Division no explanation is given.

Offences under the Arms Act rose from 1,082 to 1,204. In the Patna Division the number of cases rose from 113 to 225. No reason is given. There was no other fluctuation of importance. In the 24-Pergunnahs, the Magistrate remarking on a decrease from 38 to 5, stated that it was his policy not to prosecute, but to induce persons to take out licenses.

40. Offences committed on the East Indian Railway are included in the criminal statistics of the districts in which they occur. There were 608 true cases reported, chiefly under the head of theft, against 690 in 1883. Four hundred and thirty-six non-cognizable cases were enquired into, 89 of which were of cattle trespass. No case of heinous crime was reported. The police are stated to have been very successful in dealing with professional crime and careful in tracing the antecedents of accused persons. Rupees 1,332 were given as rewards for detection in 12 opium cases. Thefts of rail spikes increased, 1,061 having been stolen against 452 in 1883; only seven persons, however, were convicted. Seventeen cases of obstructing the line occurred; of 34 persons sent up for trial, 23 were children. In a serious case, the accused in which were railway employes, one accused was sentenced to ten and a second to seven years' rigorous imprisonment.

There were 123 railway accidents, and 73 persons killed, 13 being servants of the Company; of the rest 12 were cases of suicide. Only 35 persons were injured, of whom 15 belonged to the general public. It is stated that eight accidents were petty collisions, and that none were of a serious character. This statement, in the face of the fact that 48 persons, excluding the 25 above mentioned, met their deaths in them, seems open to question.

41. Previous convictions were proved against 1,482 convicts. In 1883 the re-convictions numbered 1,159. The increase was spread over every division except Dacca, and being coincident with the general increase in cognizable crime, calls for no special remark. Photographs were taken of 142 criminals, among whom were 50 Burwars of the Gonda criminal tribe, 38 railway pick-pockets and two poisoners. Photographs are now circulated to all Central Jails; six men were recognized by their photographs. No details of expenditure or method are given in the report. In future reports the Inspector-General should notice to what extent previous convictions of offences, for which on repetition enhanced punishment is provided under the Indian Penal Code or Whipping Act, were proved before sentence against offenders was passed; to what extent assistance in proving such previous convictions was rendered to the police by jail officers, and should state what suggestions, if any, he has to make towards improving the detection of previously convicted criminals. The settlements of the criminal Mughya Domes in the districts of Chumparun and Sarun were noticed at length in the Resolution on the report for 1883. During the year under review those in Chumparun stood successfully the test of a bad season. In Sarun the attempts made to reclaim them have, it is stated, reduced the number of burglaries from 815 in 1882 to 507 in 1884.

42. Of non-cognizable offences the number decreased from 110,531 to 107,368. Offences under classes II, IV, V, and under special laws, increased by 1,088, while under classes I, III and VI the decrease amounted to 4,251. A decrease of 394 in class I, offences against the State, &c., was chiefly under offences against public justice and offences relating to weights and measures. In class II, serious offences against the person, an increase of six cases calls for no remark. Under the head of extortion in class III there was a decrease of 202. Minor offences against the person, class IV, show a curious variation in a fall of 857 which occurred under the head of criminal force; and a rise of 1,386 under the head of voluntarily causing hurt. In cases of mischief in class V there was an increase of 393 cases. In other offences under class VI there was a fall, occurring under every heading except that of offences against religion, of 3,655, proceedings under chapters VIIA, X, XII and XXXVI alone having fallen from 6,182 to 3,478. A large part of the latter reduction was, however, apparently only nominal; proceedings in requisition of security for keeping the peace otherwise than on conviction and for good behaviour having

in Backergunge and Furreedpore been included incorrectly in class VI of non-cognizable crime. This explanation may in part account for a decrease in the number of persons against whom proceedings are shown as taken under chapters VIIIA (security for keeping the peace on conviction), X (public nuisances), XII (disputes as to immoveable property) and XXXVI (maintenance of wives and children), Criminal Procedure Code, in Backergunge from 6,063 to 18, and in Furreedpore from 3,475 to 723. The decline is, however, startlingly large and was not accompanied by a corresponding rise in proceedings under chapter VIII B, Criminal Procedure Code, shown under cognizable crime. Of offences under special laws, pound, vaccination and municipal cases showed a considerable increase, while offences under the Salt, Police, Chowkidari, Excise, Arms and Stamp Acts declined. The police were employed to enquire into 4,973 charges. The general percentage of cases in which police agency was employed fell from 6·4 to 4·6. So far the reduction was satisfactory; but as 2,090 of the cases were of criminal force or hurt, it is obvious that the directions to Magistrates of districts to discourage the excessive issue of orders to the police for enquiry into this class of offence have been disregarded. No good reason exists for the frequent employment of police in investigating petty non-cognizable offences which can most properly be dealt with directly by Benches of Honorary Magistrates and Magistrates of the lower grades. The Inspector-General is requested to bring to the notice of Government the case of any district in which the agency of the police is too frequently employed to investigate non-cognizable crime, especially offences of voluntarily using criminal force and causing hurt.

43. The percentage of police charges disposed of by Magistrates with less than three remands was 73·0 against 74·7 in 1883. The percentages of remands vary but little from year to year, and are not on the whole unsatisfactory. They are worst in the Dacca, Chittagong and Orissa Divisions, and best in the Burdwan and Presidency Divisions. District officers as a rule appear to be alive to the necessity of checking frequent remands on the part of their subordinates. Where these occur it is generally because the District Magistrate does not look after his subordinates' work, and because the latter are themselves dilatory and procrastinating. The chief object to which District Magistrates should direct their attention is that witnesses are not needlessly detained and harassed by frequent adjournments for trivial reasons.

44. The usual complaints were made of want of detective ability among the police and of their inefficiency in some of the unhealthier districts. Their conduct and efficiency on the whole, however, is reported to have been satisfactory. The office of Inspector-General was filled by Mr. Lyall up to the second of November, when he proceeded on deputation as Commissioner of Chittagong, and was succeeded in his office by Mr. Veasey. The Lieutenant-Governor has to thank the latter officer for his careful and intelligent Administration Report.

ORDER.—Ordered that a copy of the above Resolution be forwarded to the Inspector-General of Police and the Commissioner of Police, Calcutta.

Ordered also that a copy of the Resolution be forwarded to all Commissioners of Divisions for information.

Ordered also that a copy of the Resolution, and extract paragraph 50 from the Report, be forwarded to the Appointment Department of this office for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

*Chief Secretary to the Government of Bengal.*

## RESOLUTION ON THE REPORT OF THE SHIPPING OFFICES IN BENGAL FOR 1884-85.

MUNICIPAL DEPARTMENT—MARINE.

*Darjeeling, the 17th September 1885.*

### RESOLUTION.

READ—

A. Report from the Board of Revenue, No. 459B, dated the 9th July 1885, on the working of the Calcutta Shipping Office and of the Shipping Offices at the several outports for the year 1884-85.

An important change was introduced during the year in the system of accounts in the Calcutta Shipping Office with the view of securing an efficient check over the receipts of the Shipping Master's Office, Calcutta. The treasury at the Shipping Office was abolished, and its pecuniary transactions reduced to a minimum by substituting payment by cheques on the Bank of Bengal, instead of by cash as heretofore. The full effects of this change had not become perceptible before the close of the year, but the Shipping Master states that it has afforded satisfaction, and that no difficulties have arisen.

2. The financial results of the working of the Calcutta Shipping Office during the past year were satisfactory, the receipts having amounted to Rs. 25,768, the disbursements to Rs. 21,325, and the net profits to Rs. 4,443. Compared with the preceding year, the receipts show an excess of 5 per cent., attributable chiefly to the discharge and re-engagement at the Calcutta port of the crews of certain vessels which used formerly to ship and discharge their crews at Bombay. Under recent orders of Government these vessels will be permitted to retain their crews and discharge them at Bombay. The general business of the office seems to be still slightly on the decline, owing to the continued depression of trade. The expenditure shows a small increase of 1·9 per cent. over that of the preceding year.

3. There has been a decrease in the year's transactions in funds held in trust by the Calcutta Shipping Office on account of both European and Native seamen, as shown below:—

			1883-84.			1884-85.		
			Rs.	A.	P.	Rs.	A.	P.
Balance	...	...	7,224	9	5	6,299	10	8
Receipts	...	...	59,486	11	7	56,452	8	11
Total	...	...	66,711	5	0	62,752	3	7
Repaid and lapsed to Government			60,411	10	4	58,992	14	9
Balance	...	...	6,299	10	8	3,759	4	10

The largest decrease was under the head "Deposit money of British seamen," and this decrease is explained by the fact that, during the greater part of the year, there was such a demand for seamen that they were permitted to get their discharge without anything being deducted from their wages and deposited in the Shipping Office as security against their falling into distress. The whole of the amount received during the year on account of the estates of deceased British seamen was credited to the Board of Trade, who are the administrators of their estates. The figures showing the transactions in connection with the deposit money of native seamen are better than last year's; but it appears that, as usual, the greater part of the unpaid balance under this head was disposed of by lapse to Government.

4. The number both of seamen shipped and seamen discharged through the Shipping Office show an increase as compared with the previous year, being 15,649 and 14,438 against 14,804 and 12,364 respectively. The increase is attributed to the authority given during the year to the Shipping Master to act upon the construction of the Legal Adviser to Government of section 21 of Act I of 1859. Under this construction ships were bound to discharge their crews on return to India from a foreign port, even though they had not arrived at their final destination, and, when necessary, to re-engage the same crew under a fresh agreement for a second voyage. These discharges and re-shippments contributed to swell the total number of shipped and discharged

seamen. The Advocate-General has since re-considered the question, and it has now been declared legal for ships to retain their crews until they reach the final port of destination.

5. There was a decrease in the amount of the remittances by money-orders sent home by British seamen. The Shipping Master states that the amounts of the individual money-orders issued during the year were smaller than those of the orders issued during the previous year. This class of receipts is, however, liable to great variations, as the following figures for the last five years will show :—

						£
1880-81	...	...	...	...	...	2,045
1881-82	...	...	...	...	...	1,837
1882-83	...	...	...	...	...	3,565
1883-84	...	...	...	...	...	7,069
1884-85	...	...	...	...	...	2 546

and the figures for 1883-84, Captain Stiffe states, were unusually high. On the condition of European seamen, the Shipping Master writes that "they are generally quiet and well-behaved, and that the number able to write continues to increase, as scarcely a man can now be found who cannot sign his name and examine his account of wages."

6. Fifty-four distressed seamen, for the most part invalids, were sent home during the year. Desertion slightly diminished in number owing, it is stated, to the diminution in the number of seamen visiting the port. The general health of European sailors at sea is reported to have been good. Twenty-seven casualties happened during the year against 33 in the previous year. Fourteen cases of scurvy occurred in six vessels which arrived during the year, five of them in one vessel, the *Compta*. It is believed that the men attacked brought the germs of the disease with them on board, enquiry having shown that the men had no complaints to make about their provisions and that lime-juice had been regularly issued. The Lieutenant-Governor observes that these men had come from New York and San Francisco; and that all the vessels affected (except the *Blythswood* from Liverpool) came from North America.

7. The health of the lascars is also stated to have been good. There were no important cases of sickness among them. Four complaints regarding the quantity, quality and short issue of provisions while at sea were made during the year. Two of these were on enquiry found to have been made without sufficient grounds, while in the other two compensation was awarded. In regard to the condition of native seamen, the Shipping Master says that "these men are much in the same condition as hitherto. They are, with the exception of the Goanese Christians, very improvident and ignorant." There has not been much change in the practice existing among the lascar crews of Calcutta of giving substitutes. The Assistant Shipping Master estimates the number of such substitutes at quite 8 per cent. of the total number of Asiatics shipped through the office.

8. The practice of the payment of wages to discharged seamen at contract rates of exchange is said to have greatly increased. From January to August 1883, 298 men out of 13,398, or 22 per 1,000, were paid in this way; while from January to August 1884, the number was 955 out of 9,867, or 96 per 1,000. It is said to have been ascertained by enquiry that each seaman understood fully the effect which his discharge in India had upon his wages; but no cause is assigned for this striking increase, and the Lieutenant-Governor finds it difficult to believe that men would voluntarily make such bad bargains for themselves. These contract rates are said to be found in the agreements of sailing-vessels only.

9. In paragraphs 27 to 30, the Board of Revenue have given a full account of the various important matters affecting the interests of seamen which came under consideration during the year. One is that referred to in paragraph 4 of this Resolution, and, as already remarked, the question has since been finally disposed of. It had been the custom for lascars not to attach their own signature or mark to the articles of agreement, but merely to touch the pen after the Shipping Master had inscribed their names. As the validity of this custom was liable to be disputed in a court of law, instructions were given at the suggestion of the Superintendent of Lascar Transfers at the Victoria Dock,

London, for the adoption in India of the course followed in England, viz., that the seaman, if he cannot write, should make his own mark, the Shipping Master certifying the fact. The shipping officers were also directed to explain clearly to lascars that, when they sign agreements, they are liable to transfer (for return to India) to any vessel which the authorities in the United Kingdom may consider to be a fit and proper vessel. The passing of the Indian Merchant Shipping Act V of 1883 necessitated a change in the form of the agreement between master and seamen, and the question is still under consideration.

10. The receipts of the Chittagong Port Office fell from Rs. 396 in 1883-84 to Rs. 343 in 1884-85. The decrease is said to be due to a smaller number of native lascars having been both shipped and discharged. The receipts on account of the deposit of wages of British seamen amounted to Rs. 6,758 against Rs. 3,251 in the previous year, and those on account of the wages of deceased British seamen to Rs. 15. Nothing was shown under the last mentioned head in the previous year. Deposit money on account of wages of discharged native seamen amounted to Rs. 1,945 against Rs. 2,907, and the amount received on account of wages of deceased native seamen to Rs. 35 against Rs. 57. The whole of the deposits of wages due to discharged and deceased British and native seamen, except Rs. 59, was paid over. This balance of Rs. 59 has been held in deposit on account of the wages of a native seaman, who was sentenced to three months' imprisonment. One hundred and thirty-two seamen were shipped at Chittagong against 237 of the previous year, and 166 discharged against 215 in 1883-84. The decrease is attributed in the former case to a smaller number of British Indian registered vessels carrying crews under agreement having cleared from the Port of Chittagong consequent on the depression in foreign export trade, and in the latter case to some vessels that engaged crews under agreement at this port in the previous year having discharged them at other ports. One hundred and six ships were visited by the Shipping Master during the year. No cases of scurvy were detected, and the health of the seamen is reported to have been satisfactory. There were two cases of cholera in the port during the year. There were 18 deaths among seamen, two at sea and 16 in port. Desertions fell from 17 to 12 (11 Europeans and one native). Convictions of seamen by Magistrates rose from 34 to 64, and the increase is reported to be in cases of drunkenness, of which 40 were reported against 17 of the previous year.

11. The transactions in the Orissa ports seem to have been few and unimportant. Ninety-nine seamen were discharged and two shipped during the year, against 50 and 0 respectively in the year previous; two deaths occurred during the year among seamen, and 62 visits were paid to steam-ships and 25 to sailing-vessels. The only complaint made was one by the Commander of the French barque *Maridian* of the inferior quality of the water supplied.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

*Offg. Secretary to the Government of Bengal.*

## RESOLUTION OF THE GOVERNMENT OF BENGAL IN THE REVENUE DEPARTMENT ON THE RECENT FLOODS IN BENGAL.

*Dated "Rhotas," the 29th September 1885.*

IN the course of his journey by river from Calcutta to Kishnaghur, where he arrived on the evening of the 26th September, the Lieutenant-Governor has had the opportunity of ascertaining, by personal observation, the actual condition of the people in a large portion of the area inundated in the Hooghly, Burdwan, and Nuddea districts. He has himself visited several flooded villages, and has conferred with the officials, landholders, and cultivators of the area affected. In replying to the Deputation which waited upon him in Calcutta to urge that a public subscription should be raised for the relief of those who have suffered from the floods, Sir Rivers Thompson, while expressing his readiness to preside at a public meeting for the purpose of organizing relief, advised the members of the Deputation to wait until fuller knowledge had rendered it possible to gauge the extent and consequences of the disaster more exactly, and at the same time undertook to publish, from time to time, the official information which might reach him. Accordingly, the reports of the Collectors of Nuddea and Jessore, with the Lieutenant-Governor's orders on them, were communicated to the newspapers on the 23rd instant, and the report of the Collector of Hooghly was sent for publication from Hooghly after the Lieutenant-Governor had conferred there with Mr. Hare, who had visited portions of the flooded tracts. Sir Rivers Thompson now desires to record the substance of the reports which have reached him from all parts of Bengal, the results of his own observations in the area which he has personally seen, and the general conclusions which the facts now before him appear to warrant.

2. The area affected by floods throughout Bengal may be roughly estimated at from 3,500 to 4,000 square miles. In the Presidency Division the flooded portion of Jessore comprises about 400 square miles of country; in Nuddea 1,000 square miles have been inundated; and in Murshedabad the floods have covered 1,250 square miles. A report received to-day states that the flood-water which covered the Bongong sub-division of Jessore is now finding its way to the sea through the Ichamati and Betua rivers, and is beginning to inundate an area of uncertain extent in the Satkhira sub-division of Khoolna. In the Burdwan Division the flooded area is stated to be about 50 square miles in the riparian tract to the north of Culna, 170 square miles in the Ghattal sub-division of Midnapore, 200 square miles in Hooghly, and 300 in Howrah. In the Bhagulpore Division about 100 square miles in the south of Maldah have been more or less affected by the overflow of the Ganges, besides small areas on river banks in the Bhagulpore and Monghyr districts, and in the Rajmehal sub-division of the Sonthal Pergunnahs.

3. Of these various tracts the Lieutenant-Governor has at present seen only a comparatively small portion—the riparian country of Hooghly and Burdwan bordering on the river Hooghly, and the eastern portion of Nuddea district between Navadwip or old Nuddea and Kishnaghur. Over the greater part of this area the *amun* rice has probably been destroyed, but this is not the chief food-crop of the country, which consists to a great extent of *aus* rice and various cold-weather crops grown on *chur* lands. *Amun* rice is confined to the higher lands and stiffer soils which have either escaped inundation altogether, or have not been submerged long enough for the crop to be materially injured. Of the *aus* rice a certain proportion, varying according to local conditions and the comparative forwardness of the crop in different places, is known to have been saved. In many places, however, there is reason to fear that the whole of the *aus* rice must have been lost. Thus in the village of Gosaincharra on the east bank of the Hooghly, visited by the Lieutenant-Governor on the 25th September, all the lands were under water except the village site itself, from which the waters had only recently retired. Many of the houses had been injured and some had fallen down, and the people had removed their families, cattle and valuables to the high villages on the western bank. On his way back from the village the Lieutenant-Governor met several boats full of persons returning to their homes with their cattle and household

goods. Here the whole of the *aus* had been overtopped by the water, while it was still unripe, and the small quantity which the people had contrived to save was rotten and unfit for consumption by men or cattle. As the people do not grow *amun* rice, the crop they had lost was the sole supply of food they had to depend upon until their cold-weather harvests. They were bearing their misfortunes with cheerfulness worthy of all praise, and their behaviour showed a determination to make the best use of all the resources at their disposal. The measures taken by them to provide for the safety of their families have already been mentioned, and it should be added that, owing to the gradual rise of the waters, no lives were lost in carrying these out. Their stock of food was stated to be sufficient for their immediate wants, and they either had in hand, or were in a position to procure, enough seed to sow a cold-weather crop on the whole area under water. In ordinary years *kalai* would be sown on these lands early in October, and would be harvested in December; but though the waters are falling rapidly, it seemed doubtful in this particular locality whether the river would sink rapidly enough this year to allow *kalai* to be sown, and the ryots expected to have to wait for wheat, barley, peas, and various vegetable crops which are sown later on, and harvested in March and April. Even the prospect of this long delay did not appear to alarm them. They observed to the Lieutenant-Governor that the floods would leave behind an unusually heavy deposit of silt, and that the crops of the next and the few following years would be specially abundant. No signs of distress from scarcity of food were visible, and although the people had been temporarily flooded out of their homes, none of them asked for alms. They seemed to be fully prepared to depend upon their own resources to accept the loss they had sustained, and to set to work vigorously to repair their houses and to cultivate their lands as soon as the subsidence of the water permitted them to do so. Owing to the prompt action taken by the people themselves, and to the fact that plenty of boats were available, very few cattle appear to have been lost. There may, however, be some difficulty hereafter in obtaining fodder, as most of the straw has been destroyed.

4. On the western bank of the Hooghly near the large boat-building village of Balagurh, the flood had not penetrated far into the interior. The village sites had been about a foot under water, and more than a thousand houses in the riparian villages, including the police station and post-office, had tumbled down. One woman had been killed by the fall of her house. Here *amun* rice is the chief crop, and the zemindar of Balagurh, who had an interview with the Lieutenant-Governor, assured him that the outturn promised to be a fair one. From Balagurh up to Culna the state of things on both banks is much the same. Stretches of *chur* alternate with high land, and the flood-water has spread out to one side or the other according to the level of the country. The condition of Gosaincharra, described in detail above, may be taken as typical of the *chur* villages, while the higher villages have escaped with about the same amount of damage as Balagurh.

5. At Culna the Lieutenant-Governor received a Deputation of the Municipal Commissioners and the Superintendent of the Burdwan Estates in that neighbourhood. This property comprises extensive *churs* lying on the west bank of the Hooghly to the north of Culna. The whole of these have been flooded, most of the houses have been destroyed, and nearly the whole of the *aus* crop has been lost. In Culna itself many houses have fallen down, and great damage has been done to the local roads. The ryots of the Burdwan estate *churs* are said to be already returning to their villages and preparing to rebuild their houses, and with the fall of the waters to get their lands ready for the cold-weather crop. Under the Lieutenant-Governor's orders, small charitable grants for the rebuilding of houses will be given by the Managers of the Burdwan Raj. The villages, it is true, are let in *patni*, and the Raj has no direct connection with them; but this fact cannot be held to relieve the parent estate, which has derived enormous profits from the *patni* system from the obligation to help the cultivators in a great natural calamity. The Municipal Commissioners also propose to raise a local subscription to assist people in rebuilding their houses; and in any case the extensive repairs to be undertaken on the roads within the town will provide employment for the poorer classes in the neighbourhood.

6. From Culna to Kishnaghur along the Hooghly and Jellinghi the *churs* have everywhere been inundated, and in many places the flood has spread some distance into the interior of the country. Long stretches of high land have however escaped, and on these is stacked the *aus* rice which had been harvested before the flood, or which had ripened fully before it was submerged and had since been cut while standing in the water. On this question—the degree of injury done to standing rice by immersion in water—the Lieutenant-Governor has made careful enquiries from landowners and others at Kishnaghur, and has examined specimens of rice reaped while the crop was under water. From the data at present available, no very precise conclusion can be drawn as to the length of time for which rice can stand immersion; but it seems tolerably certain that if the crop is quite ripe before it is overtopped by the water, it may be reaped comparatively uninjured after an interval of several days. If an unripe crop is submerged, the whole rots and becomes perfectly uneatable. In the present case these facts are of considerable importance. Owing to the rains having set in much later than usual, the *aus* rice in many parts of the district was sown late, and its ripening may also have been to some extent delayed by the heavy and continuous rain of July and August. Consequently when the floods came, a considerable proportion of the crop submerged was unripe and rotted under water. Where, however, the *aus* had had time to ripen before the flood overtopped it, there is reason to believe that much of it may have been saved.

7. On the morning of the 27th September a conference was held on board the *Rhotas*, at which the Commissioner of the Presidency Division, the Collector of Nuddea, and the subdivisional officers of Meherpore and Ranaghat, were present. The Collector of Nuddea explained in full detail the extent of the floods so far as known at present. It appears that in the “northern tract” of inundated country described in paragraph 2 of the Government letter No. 1976—236 of the 22nd September to the Commissioner of the Presidency Division as comprising the subdivisions of Kushtea and Choodanga and the north-eastern portion of Meherpore, no serious damage has been done. In this part of the country three-fourths of the rice grown is *aus*, and only a quarter *aman*. The proportion of *aus* saved in the part of Meherpore east of the Bhoirub river is estimated by Mr. Melitus (and his view is confirmed from independent sources) at from twelve to thirteen annas, and the probable outturn of the *aman* at from eight to ten annas, while the prospects of the cold-weather crops are expressed as sixteen annas everywhere. It may be assumed that this estimate will hold good for the whole of Kushtea and Choodanga subdivisions except thana Coomercolly. The southern tract referred to in the letter quoted above can now be defined more precisely. It includes about one-third thana Kureempore, two-thirds Tehatta, the whole of Kaligunge, Nakasipara, Chupra, Hanskhali, and parts of Kishnaghur, Kissengunge, and Aranghatta. Within this area again it is necessary to distinguish a central zone consisting of thanas Tehatta Chupra Hanskhali, and parts of Kissengunge and Aranghatta, which is not subject to periodical inundation, and where, therefore, the present calamity has been more severely felt than in the riverain tracts of Kaligunge, Nakasipara, and Kishnaghur. This latter country is more or less flooded every year, and, provided the floods do not occur early enough to swamp the *aus* rice, the cultivators look upon the visitation as an important fertilising process, which secures them a rich cold-weather crop. In respect of the whole southern area, no precise estimate of the destruction of crop can be formed until Mr. Melitus has completed his enquiries.

8. The general character of the measures adopted to meet the present emergency is indicated in paragraphs 5 and 6 of the Government letter of the 22nd September. The facts laid before the Lieutenant-Governor at the conference were not such as to call for any important modification of those orders. No immediate distress from scarcity of food is apprehended in any quarter, and the funds in the Collector's hands are sufficient to enable him to deal with any cases which may come to his notice. The wants of the cultivators will be provided for by advances under the Agriculturists' Loans Act. The allotment to Nuddea under this head has been raised from Rs. 10,000 sanctioned in the Government letter referred to above to Rs. 25,000, and special arrangements have been made to enable

Mr. Melitus to distribute these advances during his tour of enquiry through the central zone, where the inundation has been most severe. Advances will also be made by the regular district staff, which will be strengthened by the appointment of a Joint-Magistrate and of two additional Sub-Deputy Collectors. It is for the Collector to see that the best use is made of the agency at his disposal, and that all cases in which advances are asked for are disposed of in time to enable the money to be spent in preparing for the cold-weather crop. His attention should also be given to the question of the stocks of seed in the districts. It was suggested to the Lieutenant-Governor during his stay at Kishnaghur that it was doubtful whether the supply of *kalai* seed locally available would be sufficient to meet the demands of the cultivators in a year when an unusually large area is likely to be sown with this crop. If this possibility were intimated to the dealers, they would probably find no difficulty in importing as much seed as may be required.

9. For the class of landless day-labourers the road works already sanctioned will serve to provide employment till larger projects, which are under consideration, can be commenced. The works recommended by Mr. Melitus may be started at once, and an attempt should be made to give indirect assistance to this class by giving out loans for land improvement from the balance still in the Collector's hands.

10. The Lieutenant-Governor hopes that this scheme of operations, worked out on the spot in consultation with the local officers, will ensure the relief of all pressing distress, will enable the cultivators to recoup in some measure their loss of crop, and will furnish the landless labourers of the area affected with the work they require to take the place of the harvest employment which would have been available in ordinary years. Even then, however, there will still remain much discomfort and hardship caused by the wholesale destruction of houses resulting from the floods. Financial considerations absolutely preclude the State from attempting to alleviate this form of distress, which can most properly be dealt with by private charity. In many places subscriptions have been raised locally for this purpose, and the Lieutenant-Governor feels himself justified in calling upon the larger and wealthier public of Calcutta and of the province generally to give that assistance already offered by the deputation which waited upon him at Belvedere. Sir Rivers Thompson has therefore decided to appoint a Committee for the purpose of collecting subscriptions and organizing relief for those forms of distress and hardship with which a Government agency cannot adequately cope. Among these the rebuilding of houses occupies the most prominent place, but it may well be that the Committee will find on further enquiry other subjects upon which money may properly be expended. The difficulties of communication while on tour compel the Lieutenant-Governor to constitute the Committee provisionally without formally inviting the co-operation of the individual members. Sir Rivers Thompson hopes, however, that the following gentlemen will consent to serve as members of the Committee, and will add to their number from time to time any persons who are in a position to promote the objects in view.

**FEE LEVIED FROM MAHOMEDAN PILGRIMS AT JEDDAH  
FOR A TRAVELLING PASS.**

No. 11—259, dated Simla, the 31st August 1885.

From—F. C. DAUKES, Esq., c.s., Under-Secy. to the Govt. of India, Home Dept.,  
To—The Chief Secretary to the Government of Bengal, Political Department.

I AM directed to forward the accompanying copy of a despatch from Her Majesty's No. 72 (Statistics and Commerce), Secretary of State for India, and enclosures, relative to an increase recently made in the charge levied upon British Indian pilgrims on landing at Jeddah for a Turkish pass to enable them to travel in the interior.

2. I am to request that the fact that the charge has been increased may, with the permission of His Honor the Lieutenant-Governor, be notified for the information of intending pilgrims.

No. 72 (Statistics and Commerce), dated India Office, London, the 16th July 1885.

From—Her Majesty's Secretary of State for India,  
To—His Excellency the Right Hon'ble the Governor-General of India in Council.

I FORWARD herewith, for your information, a copy of a letter from the Foreign Office, with enclosure, and of the reply thereto, relative to a recent increase in the charge levied upon British Indian pilgrims on landing in Turkey for a pass to enable them to travel in the interior.

Dated Foreign Office, the 1st July 1885.

From—T. V. LISTER, Esq.,  
To—The Under-Secretary of State for India.

I AM directed by the Marquis of Salisbury to transmit to you, to be laid before the Secretary of State for India in Council, for such observations as His Lordship may have to offer thereupon, a despatch from Her Majesty's representative at Constantinople relative to a recent increase in the charge levied upon British Indian pilgrims on landing in Turkey for a pass to enable them to travel in the interior.

Sir W. White, No. 82 (Commercial),  
dated 22nd June 1885.

The return of this paper is requested together with your reply.

No. 82 (Commercial), dated Therapia, the 22nd June 1885.

From—SIR W. A. WHITE,  
To—EARL GRANVILLE, K.G.

I HAVE received a despatch from Her Majesty's Consul at Jeddah reporting that the charge of eight piastres, which has hitherto been levied from British Indian pilgrims on landing for a Turkish pass, for travelling in the interior, has been increased to fifteen piastres.

Mr Jago states that he refused his official co-operation to this measure, but that ultimately, on the recent arrival of a large number of pilgrims, he consented, under pressure from the authorities, to allow the fifteen piastres to be deposited by the pilgrim brokers in Her Majesty's Consulate pending instructions from Her Majesty's Embassy.

On making enquiries on this subject at the Sublime Porte, I was informed that the charge of a travelling pass in the interior was in fact formerly eight piastres; but that, in consequence of a decision come to last year by the Council of State and the Council of Ministers, and sanctioned by Imperial Trade, the fee in question was increased to fifteen piastres.

This measure came into force at Constantinople on the 1st November last, and three months earlier in the provinces.

I would venture to point out to Your Lordship that this measure has been applied since that date to travellers of all nationalities in the Ottoman Empire, without, as far as I am aware, giving rise to any objections on their part entirely distinct from the Passport Regulations which, as Your Lordship is aware, are at present undergoing certain important modifications in the sense desired by Her Majesty's Government.

Under these circumstances, I fail to perceive on what grounds Her Majesty's Consul at Jeddah can advise the British Indian pilgrims to refuse to submit themselves to the payment of the increased fee.

I should, however, be glad to be informed of the view taken of this question by Her Majesty's Government in order that I may be enabled to furnish Mr. Jago with the necessary instructions.

No. 1125, dated 15th July 1885.

From—J. A. GODLEY, Esq., Under-Secretary of State for India,  
To—The Under-Secretary of State for Foreign Affairs.

I AM directed by the Secretary of State for India in Council to acknowledge the receipt of your letter, dated the 1st instant, relative to a recent increase in the charge levied upon British Indian pilgrims on landing in Turkey for a pass to enable them to travel in the interior.

In reply, I am to state that, as this measure applies generally to travellers of any nationality in all parts of the Turkish dominions, Lord Randolph Churchill does not apprehend that any sufficient ground exists for a protest by Her Majesty's Government in reference thereto.

## Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 26th September 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.</b>			
<i>Western Districts.</i>			
<b>BURDWAN DIV.</b>	1 Burdwan, Sept. 26 '85	2.07	Weather—seasonable. Prospects of crops good everywhere except in certain inundated tracts. Price of rice 11½ to 15½ seers per rupee.
	Culna ..	2.33	
	Cutwa ..	1.75	
	Rauegunge ..	5.49	
	2 Bankura, „ 26 „	2.78	Weather—seasonable. Prospects of crops continue favourable. <i>Bhadai til</i> is being reaped in thana Raipur with fair outturn. General health good.
	3 Beerbhoom, „ 26 „	5.46	
	Rampore Haut ..	3.78	Weather—cloudy and showery. Fine weather wanted for rice crops. Prospects satisfactory except where floods have done some damage. Prices of food-grains still high. Cholera somewhat abated.
	4 Midnapore, „ 26 „	4.22	
	5 Hooghly, „ 26 „	0.97	Weather—cyclonic early in the week with heavy rain. In the Ghatal sub-division <i>amun</i> will not exceed 7 annas; it will fall below this in Panscoora thana and Moins outpost; elsewhere a crop varying from 10 to 16 annas is expected. Fever, as usual, is prevalent at this time of the year.
	Serampore ..	1.09	
<b>PRESIDENCY DIV.</b>	Howrah, „ 28 „	1.71	Weather—stormy on 22nd and 23rd; hot and cloudy the rest of the week. As formerly reported, much of the <i>amun</i> crop with sugarcane, jute and vegetable destroyed by the floods. What is left doing well. Water being preserved for <i>boro</i> paddy. Health good.
	Osoobariah ..	2.88	
	<i>Central Districts.</i>		Weather—seasonable. The prospects of the crops in the Sudder, Diamond Harbour, Barrackpur and Dum-Dum sub-divisions are good, though in parts of thanas Atchipur and Bisotpur in the Sudder, and Bankipur and Devipur in the Diamond Harbour sub-division, the <i>amun</i> in the lower lands has suffered to some extent from excess of rain water. In Baraset and Bussirhat the northern and eastern portions have been swept over by the waters from the Bongong floods and a sudden rise of the Ichamatti river, and the <i>amun</i> crop has been entirely destroyed. Public health on the whole normal.
	6 24-Pergha, Sept. 28 '85	1.73	
	7 Nuddea, „ 26 „	2.22	Weather—seasonable; showery. Prospects appear daily improving. Damage done by inundation is chiefly confined to the Sudder sub-division and thana Tehatta in Meherpur. In 70 villages in the Ramaghat sub-division damage has been done to <i>aus</i> ; <i>amun</i> is reported to have escaped. Health fair.
	Kushtia ..	0.94	
	Meherpur ..	2.09	Weather—storms on 22nd and 23rd, since then fine. Except in the northern thanas of Satkhira, prospects of the <i>amun</i> rice crop are very good, and the yield of <i>aus</i> paddy is satisfactory. The rivers rose to a great height on 23rd, but since then have subsided. Fever prevalent.
	8 Khoolna, „ 26 „	6.83	
	9 Jessore, „ 26 „	2.09	Weather—dry in the latter part of the week. <i>Amun</i> has been destroyed over a greater part of the Bongong sub-division by the flood. In other sub-divisions it has been partially damaged. Prospects on the whole fair. Fever continues.
	Jhenida ..	1.07	
<b>RAJSHAHY DIV.</b>	Mugpoora ..	1.64	Weather—stormy and unsettled. Brighter weather wanted for all crops. <i>Amun</i> on the high lands of the Barh is doing well. <i>Kalai</i> sowings have commenced on the dearah and other lands that were flooded. Public health good. Price of common rice varies from 10 to 12½ seers per rupee.
	Narail ..	1.39	
	Bongong ..	2.59	Weather—cloudy and rainy. Heavy rain at Nowgong. Harvesting of <i>aus</i> paddy continues; outturn for Nattore estimated at 8 annas. Very little improvement in price of rice as yet. Prospects of <i>amun</i> paddy, sugarcane, jute, &c, generally fair. <i>Ganja</i> seedlings being transplanted in Nowgong. Fever general.
	10 Moorshedabad, „ 26 „	3.94	
	Lalbagh ..	3.76	Weather—rainy. Transplanting of <i>amun</i> has nearly come to an end. Prospects of the crop continue good. Other standing crops doing well. The outturn of jute will be below the average. Sugarcane has been damaged by excessive moisture. Fever and bowel-complaints still prevalent in the station; otherwise public health good.
	Kandi ..	5.71	
	Jungipore ..	1.68	Weather—latter end of the week very wet. Cool. Prospects of winter crops very good. Public health fair.
	11 Dinagopore, Sept. 25 „	7.06	
	12 Rajshahye, „ 26 „	3.98	Weather—cloudy and rainy. Crops in Serajgunge all good. Some loss of crops in the low lands in Pubna, but general prospects good. River falling rapidly. A good deal of fever about, especially at Serajgunge.
	Nattore ..	2.03	
<b>RAJSHAHY DIV.</b>	Nowgong ..	12.13	Weather—fine after very heavy rain. Prospects of all crops good.
	13 Rungpore „ 26 „	4.96	
	Nilphamari ..	4.96	Weather—cloudy with occasional showers. Copious rain on 24th. Transplanting of <i>amun</i> completed. Prospects of crops good. Cattle-disease continues at Fallacotta. Public health fair.
	Gaibanda ..	0.71	
	Kurigram ..	0.78	Weather—latter end of the week very wet. Cool. Prospects of winter crops very good. Public health fair.
	14 Bogra, „ 26 „	4.33	
	15 Pubna, „ 26 „	3.35	Weather—fine after very heavy rain. Prospects of all crops good.
	16 Darjeeling, „ 26 „	13.21	
	17 Jalpigoree, „ 26 „	7.98	Weather—cloudy with occasional showers. Copious rain on 24th. Transplanting of <i>amun</i> completed. Prospects of crops good. Cattle-disease continues at Fallacotta. Public health fair.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.—consolid Eastern Districts.</b>			
Dacca Division.	18 Dacca, Sept. 26 '85	1-00	Weather—seasonable. Harvesting of <i>aus</i> rice nearly completed and that of jute going on. Floods subsiding. Prospects of <i>amun</i> good. Public health good.
	Manickgunge ...	2-11	
	Munshigunge ...	6-38	
	Narsingunge ...	7-67	Weather—seasonable. Prospects of crops good. Public health good.
	19 Furreedpore, " 26 "	1-85	
	Madaripore ...	1-08	Weather—hot. Sufficient rain with occasional high wind. The constant rain has caused some slight damage to the harvested <i>aus</i> paddy. The new plants of <i>amun</i> paddy also have been slightly damaged; but there is promise of a good crop. General health good.
	20 Backergunge, " 24 "	4-34	
	21 Mymensingh, " 25 "	2-54	Heavy rain general and high floods in the south-eastern part of the district; rivers now falling. Crops in low lands damaged by inundation. General prospects good.
	Jamalur ...	1-95	
	Kishoregunge ...	2-34	
	Attia ...	4-55	
	Netrokona ...	7-69	
Chittagong Divn.	22 Chittagong Sept. 29 '85	0-28	Weather—seasonable. Prospects of crops generally fair. Transplanting of <i>amun</i> finished. Prices rising. Public health generally fair.
	23 Nonkholly, " 25 "	0-22	Weather—first day of the week slightly rainy and cloudy and since then it is clear and sunny. Harvesting of <i>aus</i> crop completed except in the islands; outturn about twelve annas. Transplanting of <i>amun</i> almost over. Fair weather has done good to the standing crops. General health good.
	Founy ...	2-15	
	24 Tipperah " 24 "	7-05	A break in the rains, fine weather, intensely hot. Late rice generally a very promising crop, but, over a limited tract, has suffered from the heavy rain of July. In that tract there is some distress, regarding which enquiries are in progress. Some damage, too, has been done in the north of the district by floods.
	Brahmanbariah ...	3-80	
	Chandpore ...	4-20	Weather—cloudy and rainy during the latter part of the week. Foggy on the morning of the 19th and 20th. Harvesting of <i>joom</i> paddy in full swing. Prospects of sugarcane and cotton good.
BEHAR.	25 Chittagong Hill " 22 "	3-25	Weather—close and warm; heavy downpour occasionally. <i>Joom</i> paddy being reaped. Prospects of <i>til</i> and cotton fair. Public health good.
	Hill Tipperah, " 23 "	3-98	
PATNA DIVN.	26 Patna, Sept. 26 '85	5-46	Weather—heavy squalls with wind and rain daily; getting much cooler with signs of cold weather in morning and evening. <i>Bhadai</i> harvest has commenced. Prospects of paddy continue fair. Public health good.
	27 Gya, " 26 "	1-78	Weather—mostly cloudy. Prospects of <i>khurif</i> excellent. Some cases of cholera and fever reported in the Nawada sub-division. Health generally good. Prices slightly easier everywhere.
	28 Shahabad, " 26 "	2-97	Weather—rainy with high west winds in the beginning of the week; latterly cloudy and fair at intervals. Harvesting of <i>bhadai</i> finished. Prospects of winter rice excellent. Cholera and fever reported from the Bhabuah sub-division, and fever and cattle-disease from Sasseram. Prices stationary.
	Buxar ...	3-63	
	Sasseram ...	3-15	Heavy and almost continuous rain on 23rd and 24th accompanied with strong easterly winds. Harvesting of <i>bhadai</i> nearly completed. Prospects of rice very favourable except in tracts affected by the late floods. Transplanting of tobacco seedlings has begun in places. Price of <i>makai</i> falling. A few cases of cholera reported from the Madhubani sub-division, otherwise public health good.
	29 Durbhanga, " 26 "	5-71	
	Tajpur ...	1-66	Weather—cloudy. There was an unusually heavy rainfall with strong wind on the 23rd instant, which has damaged the <i>bhadai</i> crops to a certain extent. Paddy doing well. Cholera still prevails in the district causing great mortality.
	Madhubani ...	1-5	
	30 Mozufferpore, " 26 "	5-50	Weather—cloudy with heavy showers in the beginning of the week; fair towards the latter end of it. <i>Bhadai</i> crops (where not injured by excessive rain) are being harvested with fair results. Prospects of paddy continue good. Manufacture of indigo going on, but owing to excessive rain the outturn is poor. Sporadic cases of cholera and fever still reported, but on the whole general health is fairly good.
	Hajipur ...	4-16	
BRAHMAPUTRA DIVN.	Sitamarhi ...	6-21	Weather—cloudy with heavy showers. Excessive rain has done much damage to the <i>makai</i> and other <i>bhadai</i> crops. Prospects of paddy continue excellent. Prices stationary. Cholera has abated; some cases of fever reported. Strong east winds on 22nd and 23rd, showers till 25th, since which no rain. <i>Bhadai</i> has been reaped; about an 8-anna crop has been secured. Prospects of <i>aghani</i> continue very good. Public health fair. Prices falling slightly.
	31 Sarun, " 26 "	7-41	
	Sewan ...	5-67	Weather—first three days fine, since then cloudy with occasional rain. Prospects of winter rice very good. Floods have subsided, and <i>kurthi</i> and <i>kalai</i> are being largely sown. In the tracts lately flooded the labourers are reported to be getting work. A great deal of cholera still about in many parts of the district, especially Banksa, Peerpintee, and Bongong. Price of rice 10 seers per rupee at Bhagulpur, elsewhere 11 to 13½ seers.
	Gopalgunge ...	1-93	
	32 Chumparun, " 26 "	5-51	Weather—fine after storms of 22nd to 24th. Crops where planted and not destroyed are fair. Much fever. Rivers falling. Very heavy rain general on 23rd. 8-61 at Kishengunge on 24th not included in column 2.
	33 Moughyr, Sept. 26 '85	3-15	
	Beguserai ...	3-42	Weather—clear, cloudy and sunny alternately. Prospects of winter rice excellent. <i>Kalai</i> sowings progressing. Common rice selling at 13 seers per rupee and the new crop at 16 seers at Englishbazar. General health good.
	Jamui ...	1-27	
	34 Bhagulpore, " 26 "	1-64	Strong cyclonic SSE winds with heavy rain for three days, and then cloudy with heavy showers. <i>Janera</i> harvest nearly over; best outturn in Godda with a 10-anna crop; in other parts outturn 4 to 8 annas. Paddy everywhere doing well. In Rajmela and Pakour floods have subsided and lands are being sown with <i>rubbee</i> crops. General health good.
	Banksa ...	1-91	
	Muddehpoorah ...	4-74	
	Soopole ...	3-56	
	35 Purneah " 26 "	10-11	
	Kishengunge ...	8-70	
	Arareah ...	10-12	
	36 Maldah " 26 "	7-38	
	Chanchal ...	0-68	
	Gazole ...	10-52	
	37 Sonthal Fergus, " 26 "	5-06	
	Shibgunge ...	3-63	
	Rajmela ...	3-89	
	Jamtura ...	1-03	
	Pakour ...	1-55	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
ORISSA DIV.	38 Cuttack, Sept. 25 '85	5 05	Weather—cloudy at times Reaping of <i>beali</i> continues. <i>Sarad</i> growing well. Common rice is selling at 12 seers per rupee in town. Cyclone of the 22nd greatly damaged the houses, trees, and crops in almost every part of the district. Storm-wave destroyed crops, cattle, and villages along the sea-coast.
	39 Pooree, „ 24 „	2 70	Weather—cyclonic. Hot and cloudy with strong gales and rain from 6 p.m. on the 21st, blowing hard from the north and the west, and ending from the south at 3 p.m. on the 22nd. Out-houses, fences, and gardens have been damaged. The crops have been much benefited by the recent rain. The <i>sarad</i> paddy bordering the Chilka is doing very badly owing to drought. Common rice is selling at an average of 16 seers 11 chittacks per rupee in the Sudder sub-division, and 17 seers 10 chittacks in the Khoorda sub-division. Public health good.
	40 Balasore, „ 25 „	6 45	Weather—stormy with heavy rain throughout the district. A cyclone of great extent, but weak power, affected the whole district on the 22nd. The wind did no mischief to trees or houses save in the extreme south. The rivers rose very high, and floods were out in most parts of the district. These are fast draining off as is usual in Balasore after doing good to rice on high land, and no harm to rice elsewhere so far as has been heard. A small storm-wave was kept out of cultivated lands by bank of the coast canal. It drowned many cattle, and has hurt the small quantity of rice grown on the sea-shore outside the protection of the canal embankment.
CHOTA NAGPORK.			
South-West Frontier Agency.			
41	Hazaribagh. Sept. 25 '85	2 45	Weather—seasonable Good rain reported from all parts of the district. <i>Bha-doi</i> being harvested; outturn somewhat below average Rice crops promise well; other crops also doing well Cholera abating, but still prevalent in parts of the district. A few cases of small-pox also reported.
42	Lohardugga, „ 26 „	2 65	Weather—seasonable. Recent rain has ensured at least an average rice crop all over the district. Prices very steady. No cattle-disease; but cholera still prevails in Ranchi town and neighbourhood.
43	Singbhoom, „ 25 „	1 35	Weather—seasonable. Nothing could be better for the crops than the present weather. Reports received show the crops to be excellent everywhere. Prices easy, and general health good.
44	Manbhoom, „ 26 „	3 73	Weather—alternately stormy and fine. Reaping of <i>bhadoi</i> crops continues. Prospects of winter crops excellent. Common rice is selling at 18 seers per rupee in the ruralia market. Public health good.

The average fall of the corresponding period for 24 years, S. G.'s Office .. .. 2.36  
The total fall from 1st January to 26th September 1885 ... .. 60.48  
The average fall of the corresponding period for 24 years, S. G.'s Office .. .. 57.92

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newmann's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Bockley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, p passing temporary showers, d dew, < lightning, t thunder.

\* Mean for six days.

*Explanation.*—*Summary.*—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same period. The amount of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by C and an overcast sky by O. The normal means are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisions of the district (i.e., the total rainfall at the sub-divisional stations in the district sending in returns divided by the number of stations. A rainy

for the week ending Friday, the 25th of September 1885.

period for the past ten years. The variations are *negatives* when the mean for the week is less than the corresponding normal mean, and *positives* when greater. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District" observations for the period in question during the past 12 years. The means of the "district" are the numerical averages of the rainfall turn received at one or more stations for the period in question during the past 12 years. The means of the "district" are the numerical averages of the rainfall turn received at one or more stations for the period in question during the past 12 years.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, the 29th September 1885.

## SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 25TH OF SEPTEMBER 1885.

The principal feature in the meteorology of the week has been the formation of a rather small, but decidedly severe, cyclone in the Bay, and its subsequent passage inland through Orissa and Chutia Nagpur into North Behar and perhaps into the North-West Provinces.

The week ending the 18th instant had been characterised by comparatively light rainfall over the greater part of the Province, and very light and somewhat irregular winds were blowing during that time over the land area. At the same time, however, strong monsoon winds were blowing in the south of the Bay, the average wind velocity at Galle having been for some days 10 miles an hour and upwards, which indicated a fairly strong monsoon current advancing up the Bay. In the centre of the Bay also at the close of the week winds were comparatively light and of fairly normal direction, except at the Arakan stations, where winds were irregular and in some cases easterly, but on Saturday, the 19th, winds at Akyab and Diamond Island became north-easterly, and wind velocity at the latter station commenced to increase, and at 10 A.M. on this morning a velocity of 22 miles an hour was reported. Pressure also commenced to fall rather rapidly at Diamond Island and Negapatam, and it is probable that on this day the cyclone had commenced to form, the centre, so far as can at present be judged, being probably to the west of the Andaman Islands. On the 20th the indications that stormy weather or a small cyclone had formed in the Bay were more marked, pressure fell moderately at Madras and along the Arakan coast, while wind became south-easterly at Diamond Island and strengthened considerably, the hourly wind velocity for the 24 hours becoming 25 miles, with a velocity at 10 A.M. of 28 miles. Winds also commenced to strengthen at Galle. On this day probably the storm had distinctly formed, and its centre was to the west or perhaps south-west of Diamond Island and towards the centre of the Bay. On the morning of the 21st the indications showed that the storm was advancing in a north-westerly direction, for pressure was rising rapidly at Diamond Island and wind velocity was moderating, while at Akyab wind had become south-easterly. Wind directions along the west coast also altered, and on this day, from the light south-easterly winds which were previously blowing, they became north-easterly and northerly at all stations from Dacca down to Coconada. Pressure fell rather rapidly at Masulipatam and less rapidly at False Point, and the indications at this time were by no means clear as to which part of the coast the storm would reach. The 4 P.M. observations of the stations at the head of the Bay and along the west coast, which were called for, and some of which were not received until midnight, shewed clearly that the storm was approaching the west coast to the south of False Point, and orders were issued shortly after midnight to hoist the storm signals at the stations in the river, warning the shipping that a cyclonic storm would cross the coast to the south of a line joining Chittagong and False Point. The exact position of the centre of the storm at 10 A.M. of the 21st is a little doubtful, but it was probably in about latitude  $17^{\circ}$  or  $18^{\circ}$  and longitude  $87^{\circ}$  or  $88^{\circ}$ , and it must have been advancing with very great rapidity in a north-westerly direction; for on the morning of the 22nd, so far as can be judged from the observations which have been received at present, its centre was a little distance to the south of False Point, whence it advanced inland, the centre passing near Cuttack and thence through Chutia Nagpur, and on the morning of the 23rd the centre of the storm was apparently not very far from Dehree in South Behar, and probably a little to the south of that station. This represents a movement of about 350 miles in the 24 hours from 10 A.M. on the 22nd to 10 A.M. on the 23rd. On the morning of the 24th the storm had again moved in a northerly direction, and it was probably to the west or south-west of Motihari in North Behar. It was on this day, however, comparatively feeble, and though winds were still cyclonic in direction, the barometric depression had to a great extent filled up. With the advance of the storm to the north of False Point, a second signal was hoisted at the stations in the river, showing that the storm was passing to the north of False Point; and on the morning of the 23rd, as the storm had advanced well inland, the storm signals were lowered.

The barometric depression accompanying the advance of the small cyclone was very considerable, and though no observations have yet come to hand, which will show the pressure at the centre of the small cyclone either while it was in the Bay or inland, yet the observations at Cuttack on the morning of the 22nd shewed there had been a fall of the barometer of 0.539" during the previous 24 hours, and the pressure recorded was only 29.23". As the centre at this time was certainly some little distance from this station, it will be probably safe to infer that the actual pressure at the centre of the storm was not much, if at all, above 29 inches. This is a very low pressure, and it may be looked on as a measure of the intensity of the storm, and if other evidence were wanting, it would prove that the cyclone, though in reality a small one, was very fierce and intense. The changes of pressure with the advance of the storm were very rapid, and by 10 o'clock in the evening of the 22nd pressure at Cuttack had risen almost half an inch. It is much to be regretted that during the early part of the night of the 21st an interruption in the telegraphic communication with False Point took place, and thus no details were at that time, or even are at present, obtainable as to the passage of the storm near this station.

The winds accompanying the small cyclone were undoubtedly very fierce, and the last telegram received from False Point at 10 p.m. on the 21st shewed that the wind velocity was 38 miles per hour. The observations, too, which were taken at Saugor Island on the 22nd, shewed that at 4 p.m. on that day wind velocity was 68 miles per hour, and at 10 p.m. the velocity was 58 miles per hour, while the velocity for the 24 hours from the 21st to the 22nd averaged 30 miles per hour. Saugor Island, too, it will be seen, was at a very considerable distance from the centre of the storm, in all probability the centre of the storm never being nearer than from 120 to 150 miles from that station.

The rainfall which accompanied the small cyclone near its centre, though undoubtedly very heavy, does not appear to have been quite as heavy as is usually the case with such a violent storm. Up to the present time the heaviest rainfalls in the actual path of the storm, of which reports have been received, are on the 22nd instant in the Cuttack district—Dharmasalla 9.20 inches, Jagatsingpore 6.11 inches, Kendrapara 5.50 inches, Jajpore 5 inches (about) and Cuttack 4.67 inches; and in the Balasore district—Bhuddruck 5.40 inches and Balasore 4.15 inches, but of course with the advance of the storm a strong inrush of moist southerly winds set in over the whole Province, bringing rather heavy rainfall to all stations, and from the 22nd or 23rd up to the close of the week, moderate to heavy rain fell in all districts, and in North Bengal and North Behar in particular the rainfall became exceedingly heavy.

The variations of pressure during the week have of course been mainly dependent on the small cyclone during its formation and movement through the Province, and as the western districts only were affected by this storm, these districts only show comparatively low pressure and the eastern districts comparatively high pressure. Thus the average pressure for the week at Cuttack is 0.01" below the normal; at Gya the average pressure is nearly normal, while on the other hand at Dacca pressure for the week has been 0.09" in excess of the normal.

With the very heavy rainfall which has occurred during the week, temperature has been in most instances lower than the normal, and the average temperature in each district is below the normal by amounts which vary from a defect of 2° in North Behar to a defect of 0.5° in East Bengal. The largest defect at any individual station is at Berhampore, where it equals 2.8°.

As has before been explained, the rainfall for the week has been heavy in all districts, except East Bengal. The districts receiving the heaviest falls are North Behar, North Bengal and Orissa, while also Chutia Nagpur, South Behar and South-West Bengal received comparatively large amounts of rain. Thus in North Behar for the week the rainfall has averaged 6.76 inches; while the normal fall for the week is only 1.86 inches, or the actual fall is between three and four times as large as the normal. In North Bengal the average rainfall recorded was 5.32 inches as against the normal amount of 1.55 inches, so that again the actual fall is between three and four times the normal quantity. Orissa has received an average fall of 4.75 inches, the normal fall being 2.38 inches, so that the actual is about twice the normal. Chutia Nagpur has received an average fall of 3.81 inches, while the normal fall is 1.70 inches, which is again more than twice the normal fall. South Behar has averaged 3.25 inches, while the normal fall is 1.55 inches, or the actual is decidedly more than twice the normal, and in South-West Bengal the rainfall has averaged 2.97 inches, while the normal fall is 2.15 inches, the excess fall in this district is therefore only 38 per cent. of the normal. In East Bengal, on the other hand, the actual average rainfall has only been 1.15 inches, while the normal fall is 3.04 inches, this district therefore shows a defective fall of 63 per cent.

In certain districts therefore the rainfall for the week has been particularly heavy, and prominent among the districts which have received falls very largely in excess are—in Orissa the Cuttack and Balasore districts; in South-West Bengal the Midnapore, Bancoorah, and Beerbhoom districts; in North Bengal the Pubna, Maldah, Dinagepur, Cooch Behar, and Darjeeling districts; and in North Behar the Purneah, Mozufferpore, Chumparun and Sarun districts.

The excessively heavy nature of the rainfall may also be seen by giving the stations which have received 7 inches of rain and upwards during the week. Thus in Orissa the following stations have received upwards of 7 inches:—Dharmasalla and probably Bhuddruck; in South-West Bengal the following stations Bishenpore Anda, Raipore, and Sonamukhi; in North Bengal Naogaon, Maldah, Gazol, Dinagepur, Julpigoree, Cooch Behar, Mickligunge, Siliguri, and Darjeeling; in North Behar Kalimpong, Kissengunge, Arrareah, Purneah, Sitamarhi, Paru, Fugaha, and Chupra; and in Chutia Nagpur Hazaribagh received more than 7 inches of rain in the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 25th of September 1885:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.						RAINFALL.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average number of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 15th May 1885.

OFFICE OF SANITARY COMMISSIONER FOR BENGAL, }  
 THE 28th September 1895

MEMORANDA.

THE annexed table, exhibiting the vital statistics of the principal Municipalities in Bengal for the week ending 12th September 1885, furnishes the following results:—

1. That during the week in question births and deaths were registered in the proportions, respectively, of 25·3 and 41·9 per 1,000 of population, as opposed to 28·1 and 42·4 per 1,000, respectively, during the preceding week ending 5th September, indicating a falling off in the record of both events, particularly of births.

2. That the undermentioned Municipalities returned the highest proportions of births and deaths:—

Births.				Deaths.			
			Ratio per mille.				Ratio per mille.

A special census of the European in the District of ...

\* A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the causes of the Europeans above stated to, cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age-classification.

INCREASE.

Edible grain ... 323

This increase is due to high rate caused by the inundation in the Moorshedabad district by the breakage of the Bhagiruthi river embankment at Lalta Kooria.

DECREASE.

Piece-goods ... 57

This decrease is due to previous stock not being exhausted in consequence of the distress.

Seeds of all sorts ... 29

This decrease is due to previous stock not being exhausted in consequence of the distress.

Sundries ... 35

This decrease is due to previous stock not being exhausted in consequence of the distress.

Coal ... 566

This decrease is due to merchants not laying in stock, as the river is expected to be navigable throughout the year.

NALHATI, the 21st September 1885.

R. G. MOOKERJEE, Manager.

# The Calcutta Gazette.

WEDNESDAY, OCTOBER 7, 1885.

## PART II.

### Advertisements.

N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

### LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the sub-division of Dinapore, in the district of Patna, will be put up to sale at the office of the Deputy Collector of Dinapore at 12 o'clock noon, on the 26th October 1885, corresponding with 3rd Kartik 1293 Fushli.

The purchasers will be subject to the following conditions of sale—

#### Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertisement as in the case of original sale.

Number in statement of Government estates.	Number on the district roll, or town number.	Name of estate and pergunnah.	Share which will be put to sale.	Approximate area in local bigha.	Government revenue or sudder jumma of the entire estate.	Jama khani of the share which will be put up to sale.	Deduct Government revenue of the share which will be put up to sale.	Net income.	Upset price.

By order of the Commissioners,  
R. A. DONNITHORNE, Secretary.

## Notice.

## Oudh Forest Department.

## BAHRAMGHAT DEPOT.

## ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of saw beams and scantlings supplied from this depot will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.

22	"	"	2-12	"
23	"	"	2-14	"
24	"	"	3	"

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per cubic foot  
Under 12 and over 7, at " 3-4 "  
Under 7 feet at " 3 "

The above prices are for ordinary building purposes. For Planking, Sleepers, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge. By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,

Sub-Assistant Conservator of Forests,  
Bahramghat Division.

Bahramghat, the 1st April 1883.

**Government Cinchona Febrifuge.**

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the following rates:—per four ounce tin, Rs. 4 *ans.* 8; per eight ounce tin, Rs. 8 *ans.* 8; per pound tin, Rs. 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, at the undernoted rates:—per four ounce tin, Rs. 5 *ans.* 8; per eight ounce tin, Rs. 10 *ans.* 8; per pound tin, Rs. 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

**Crystalline Cinchona Febrifuge.**

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

**Notice.**

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Anurahyan 1292 B.S., and continue up to the 3rd January 1886. Trade men dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

**Notice.****GYA MICA MINES.**

IT is proposed to give leases to prospect for and extract mica in the Government estates of Dubour and Chatkari in the district of Gya. Offers from persons likely to work the mines in a scientific manner will be received by the Collector of Gya.

D. NORTON, Offg. Collector.

The 1st October 1885.

**Calcutta Steam Navigation Company, Limited.****NOTICE OF CALL.**

IN accordance with Resolution 3 passed at the Seventh Ordinary General Meeting of Shareholders held on 18th August 1885, notice is hereby given that a call of Rs. 15 (fifteen) per share will be payable at the registered office of the Company, 38, Strand, Calcutta, on 2nd November 1885.

HOARE, MILLER & Co., Managing Agents.

Calcutta, the 18th September 1885.

(602—3)

**East India Tea Company, Limited.**

NOTICE is hereby given that the Forty-sixth Half-yearly Ordinary General Meeting of Shareholders of the above Company will be held at the registered office, No. 4, Mangoe Lane, Calcutta, on Saturday, the 31st current, at 12 o'clock noon, for the purpose of receiving the Directors' report, passing the accounts for the half-year ended 30th June last, and transacting such other business as may be brought before the meeting.

By order of the Board,

WILLIAMSON, MAGOR & Co., Secretaries.

Calcutta, the 6th October 1885.

£ 15 ...	1 12
£ 17 ...	2 0

**NOTE.**—A deduction will be made by the London Post Office from the amounts payable to the payees at the following rates:—

For sums not exceeding ...	£ s. d.
£ 2 ...	3d.
£ 2 but not exceeding ...	6d.
£ 5 ...	9d.
£ 7 ...	1s.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 28th September 1885.

### Exchange of Parcels with Gibraltar.

**F**ROM the 1st of October 1885, parcels will be received at any Indian Post Office for transmission to Gibraltar.

2. The limit of weight for such parcels will be 7 pounds.

3. The rate of postage, and the conditions as to size, contents, value, customs declarations, and manner of posting generally will be the same as those prescribed for parcels addressed to the United Kingdom and intended for delivery through the British Post Office.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 1st October 1885.

### Parcel Post with the West Indies.

**O**N and after the 1st October 1885, parcels will be received at any Post Office in India for transmission to the following places in the West Indies—

Jamaica. | St. Lucia.  
Grenada. | Tobago.  
Trinidad.

2. The rate of postage for parcels addressed to these places will be one rupee for every pound or fraction of a pound weight.

3. The limit of weight for such parcels will be 7lb, and the conditions as to size, contents, limits of value, &c., will be the same as those for parcels addressed to the United Kingdom for delivery through the British Post Office, except that parcels intended for Jamaica may not exceed 2 feet in length and 4 feet in girth.

4. Each parcel must be accompanied by a customs declaration in the prescribed form, as in the case of parcels intended for the United Kingdom.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 28th September 1885.

### Extension of Value-Payable system to Unregistered Book-packets.

**F**ROM and after the 1st October 1885, the value-payable system will be extended to unregistered book-packets, prepaid and unpaid.

2. Value-payable unregistered book-packets must be presented at the window with a memorandum in the prescribed form containing the name and address of sender and the amount to be collected.

3. Booksellers and others, who require a certificate that the book-packet has been duly posted, can also obtain a certificate of posting, if presented ready written in a book or on a separate slip. The certificate should be simply a copy of the address on the book-packet, and should bear a half-anna stamp, which will be defaced and the certificate returned to the messenger.

4. The postage for an unregistered book-packet sent value-payable will be the same as for an ordinary book-packet. The value-payable commission will be deducted from the amount recovered from the addressee.

5. Value-payable unregistered book-packets will be delivered at the door of the addressee, and the money will be collected by the postman. Delivery of value-payable parcels and value-payable registered articles must, however, be made at the Post Office, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 19th September 1885.

### Parcels to be presented with receipts ready filled up.

**U**NDER the provisions of the Notification of the Government of India in the Department of Finance and Commerce, No. 3120, dated the 18th September 1885, the public are informed that from the 1st October 1885 all parcels, when presented at the window for despatch, should be accompanied by a simple receipt, ready filled up in the prescribed form. This will be signed and returned to the messenger. Forms will be given gratis by the Post Office, which will only grant receipts for parcels in future, when the above conditions are complied with.

2. As at present, value-payable and insured articles need only be accompanied by the prescribed V.P. memoranda or insured declarations.

3. Firms that post many ordinary parcels or value-payable articles will be given books of receipts or V.P. memoranda on application.

4. Ordinary parcels presented without the prescribed receipts ready filled up will be forwarded, but no receipt will be given for them.

5. An acknowledgment from the addressee that the parcel has been duly received can be obtained on payment of one anna extra, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 19th September 1885.

### Despatch of samples of wool to Portugal prohibited.

INTIMATION has been received from the Post Office of Portugal that the admission into that country *via* Spain of samples of woollen fabrics or of raw wool of any kind has been temporarily prohibited on account of sanitary measures adopted by the Portuguese Government against the spread of cholera.

2. Until further notice therefore no samples of wool in any form can be forwarded by post from India to Portugal.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 14th September 1885.

P. B. ROBERTS, C.E., Executive Engineer,  
Nuddea Rivers Division.

Berhampore, the 5th October 1885.

### Notes on Forestry,

By C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trubner & Co., Ludgate Hill, London. Price five shillings.

## Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by post in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e. from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT.

Meteorological Reporter to the Govt. of Bengal.  
Meteorological Office, Bengal, the 3rd July 1883.

## RESOLUTION OF THE GOVERNMENT OF BENGAL IN THE REVENUE DEPARTMENT ON THE RECENT FLOODS IN BENGAL.

*Dated "Rhotas," the 3rd October 1885.*

IN the Resolution of the 29th September 1885, published in the *Calcutta Gazette* of the 30th idem, the Lieutenant-Governor noticed briefly the approximate area affected by floods in different districts of Bengal, and proceeded to review in fuller detail the prospects of the crops and the condition of the people in those parts of the country which had come under his personal observation during his tour through the districts of Hooghly, Burdwan, and the western parts of Nuddea. In paragraph 7 of that Resolution, it was observed that in the district of Nuddea the effects of the inundation had been especially severe throughout a central zone comprising thanas Tehatta, Chapra, Hanskhali, and parts of Kissengunge and Aranghatta. This tract of the country is traversed by the river Jellinghi, and the Lieutenant-Governor passed through the centre of it in his journey from Kishnaghur to Berhampore. All along the course of the Jellinghi, from its junction with the Bhagiratti at old Nuddea to the mouth of the Bhoirab near Madhupur, large areas of lowlying land were then under water, although the river had sunk three feet nine inches from its highest flood level. Here, as in the Hooghly, the spill of the flood waters had oscillated from bank to bank according to the levels of the country, and tracts of high land alternated with long stretches of flooded low lands. Thus in the north-east corner of thana Nekasipara, where the Kulmah khal joins the Jellinghi,

the floods extended to the west as far as the eye could reach, and the water appeared to have only lately receded from the village sites. A few miles higher up in the villages of Chanderghat, Koostea, and Hanspookooria, where the Lieutenant-Governor landed, he ascertained from the villagers that *kalai* had been sown on all the higher lands, and in some places the new crop was already visible above ground. In thana Tehatta, to which these villages belong, the *aus* is stated to form 11 annas and the *aman* 5 annas of the rice crop of the year. Of the *aus* about 6 annas have been saved, as the crop was fairly forward, while all of the *aman* except about 2 or 3 annas will probably be lost. To compensate them for this disaster, the ryots have the promise of an unusually abundant cold weather crop, and the fertilizing effect of the inundation will guarantee a plentiful yield of both rice and *rabi* for several years to come. So high indeed is the value set by the cultivators upon the layer of silt which the floods leave behind, that in both Nuddea and Moorshedabad the Lieutenant-Governor was informed by non-official gentlemen of wide local experience that cultivators had admitted in conversation that if they had to choose between a flood as extensive as the present one and no flood at all, they would prefer the former alternative, even with the loss it had caused.

2. In the Moorshedabad district the total area affected by the floods is roughly estimated at 1,250 square miles. Along the northern border of the district the Ganges floods, commencing early in August, inundated nearly the whole of the Jungipore sub-division and a tract of country extending from Bhugwangola to the junction of the Ganges with the Jellinghi. On the 23rd August the embankment on the right bank of the Bhagiratti, which is prolonged to Akrigunge, and thus in some measure protects the central portion of the district from the Ganges flood, burst at Lalitakuri, about 20 miles north of Moorshedabad. The flood water from this breach passed off to the south and south-east along the lines of the Gobra nadi and the Bhoirab river, inundating the entire tract of country between the Bhagiratti and the Sialmari nadi, down to the southern border of the district, whence the floods spread into Nuddea. Besides these main inundations, the spill from the western bank of the Bhagiratti extended to a portion of the Kandi sub-division on both banks of the Dwarka or Babla nadi, and a smaller area further west was flooded by the rising of the river Mor.

3. At a conference held at Berhampore on the 1st October, the Collector, who had been very active in his enquiries, and had visited nearly every part of the flooded area, explained to the Lieutenant-Governor the effect of the inundations on the different tracts of country comprised in Moorshedabad district. It appears that in the high undulating lands to the west of the Bhagiratti known locally as the Rarh, *aus* rice is not grown at all, and that the only cold weather crop is *surgujia* and similar oil-seeds planted in small quantities on high ridges. The staple food crop of this part of the district is a very fine variety of transplanted *aman* rice, which yields after husking the high proportion of 30 seers of rice to a maund of paddy. During the last two years the rainfall in the Rarh has been comparatively scanty, and the *aman* rice—a crop peculiarly dependent upon a plentiful supply of rain—has suffered greatly. The heavy rain of the present year, though flooding some low lands in Kandi and parts of the Rarh country in Jungipore, have on the whole done great good to the *aman* rice, of which an unusually large quantity is said to have been planted. Great benefits are also anticipated by the cultivators from the destruction of the caterpillars and other insects which did great damage to last year's *chaitali* crop. In the Bagri, or lowlying lands to the east of the Bhagiratti, the *aus* rice forms three-fourths and the *aman* barely one-fourth of the rice crop of the year. *Rabi* or *chaitali* crops are largely grown, and 12 annas of the total food supply of this part of the country is said to be derived from *kalai mung*, wheat, barley, and similar staples. Here, as in Hooghly and Nuddea, the proportion of the *aus* rice that has been lost varies greatly according to the elevation of the country and the comparative forwardness of the crop. Highlying villages, where the *aus* happened to be forward, may, it is said, have saved as much as 10 or 12 annas, while in other places where the plants were overtopped in an unripe state there has been a total loss.

4. In his journey up the Bhoirab to Islampore, and again in travelling across country from the latter place to Berhampore, the Lieutenant-Governor passed through the centre of the area flooded by the breach of the Lalitakuri embankment; and his impressions fully bear out the views expressed to him by the local officers. These may be summed up by saying that the disaster which has befallen the people of the affected districts, though causing much hardship and discomfort for the time being, has done little or no permanent harm to the cultivating classes, and in fact has ensured to them for the next few years crops far more abundant than those which they have lost. Landless day-labourers, however, and those cultivators who have been brought into a reduced state by the short crops of previous years, necessarily suffer more acutely, and it is on behalf of these classes that the Lieutenant-Governor has decided to undertake certain measures of State relief, and to appeal to private charity for the alleviation of those forms of distress with which the Government is unable to deal. Here it may be remarked that, owing either to the character of the soil from which the walls are made, or to more substantial modes of construction, the number of houses destroyed in Moorshedabad seems to have been considerably less than in Nuddea and Hooghly. On the other hand, there has been much loss of personal property, and it was represented to the Lieutenant-Governor by a deputation of the Moorshedabad Association that the State should undertake to distribute clothes on a large scale to persons in need of them. While altogether declining to admit any such obligation on behalf of Government, the Lieutenant-Governor wishes to draw attention to this matter as a very proper subject for private charity, and to take the present opportunity of acknowledging the liberal donation which Bissen Chand Dudhuria and Budh Singh Dudhuria, merchants of Azimgunge, have placed at the disposal of the Collector of Moorshedabad for expenditure on this purpose. It is also understood that the local Committee about to be formed at Berhampore to work in concert with the Calcutta Committee, appointed by the Resolution of the 29th September, will pay special attention to this form of distress.

5. The scheme of relief operations drawn up during the Lieutenant-Governor's visit does not differ materially from that sanctioned in Nuddea. From the beginning of the floods the Collector and sub-divisional officers have been distributing charitable relief in all cases where it was required, and their efforts in this direction appear to have prevented those isolated cases of death by starvation which might otherwise have occurred. The Government grant under this head has not yet been exhausted, and the Collector has some private subscriptions still in hand. He has been directed to watch the condition of the people carefully, and to ask for a further allotment directly he has reason to believe that it is likely to be required. Mr. Anderson's arrangements for this purpose appear to be well considered and sufficient. For instance, thana Raghunathgunge, in the Jungypore sub-division, where the people were reduced by the loss of previous crops, has been divided into six circles, each under the charge of a relief officer, working in concert with the village *punchayets* and the delegates of the Moorshedabad Association. It is difficult to see how an organization of this kind, dealing with so limited an area, can fail to detect all cases of real distress; and, in fact, though it has been alleged that persons have died of starvation, the Lieutenant-Governor satisfied himself during his visit to Berhampore that none of these allegations were borne out by the facts. Similar arrangements have been made in other thanas where distress is apprehended. In order to enable the system to be fully organized, and to set free for their proper duties the police officers now engaged on relief work, the Lieutenant-Governor authorizes the Collector to appoint for a period of two months, from the present time, as many canungoes and other ministerial officers as may be necessary for the administration of relief. The pay of the canungoes should not exceed Rs. 50 a month, and that of the subordinate officers should be graduated on a corresponding scale. Their salaries will be charged to relief, and will be adjusted hereafter against the total expenditure incurred on the district, from whatever sources it may have been derived.

6. The requirements of the landless labourers throughout the district will be met for the present by the provision of work on the district roads. Everywhere roads have been breached by the floods, thus enabling the demand for immediate labour to be readily met in all parts of the district,

and the Road Cess Committee have for the time ample funds at their disposal. In the event of road work or the funds available for its execution falling short, the construction of the embankment of the Ranaghat-Bhugwangola line of railway from Krishnaghur through Nuddea and Moorshedabad would furnish labour for the population of the tracts which have suffered most severely from the floods; but the resumption of this work must depend in the first instance upon the ability of the provincial revenues to find the necessary funds, and in the last resort upon the willingness of the Government of India to make a special grant for the purpose.

7. During the Lieutenant-Governor's visit a large number of applications for advances under the Agriculturists Loans Act were presented by cultivators of the neighbourhood. In connection with these the working of the Act and the rules under it was discussed in conference with the Commissioner and Collector, and in order to expedite the granting of advances the latter officer was directed to accept the joint and several personal security of bodies of villagers in the manner laid down in Rule 7. This procedure, to which effect has already been given in Nuddea, dispenses with the lengthy enquiries necessary when immoveable property is pledged, and will, it is hoped, enable advances to be distributed rapidly enough to be of real assistance to the ryots in saving the later cold-weather crops. In most places which the Lieutenant-Governor has seen the cultivators' own resources have enabled them to sow *kalai*, for which they appeared to have seed already in hand; but in the case of crops like wheat and barley, for which the land requires more careful preparation, the judicious and early distribution of advances will probably be necessary. The grant to the Collector of Moorshedabad for advances under the Agriculturists Loans Act has been increased from Rs. 10,000 to Rs. 25,000.

8. In travelling from Daulat Bazar on the Bhairab to Akrigunge on the Ganges, the Lieutenant-Governor passed through a portion of the country affected by the Ganges flood. No signs of distress were apparent, and Mr. Pope, Commandant of the Central Bengal Light Horse, who lives at Akrigunge, assured Sir Rivers Thompson that there were no grounds for anxiety as to the condition of the people. At Rampore Beaulah it was ascertained from Mr. Ruddock, the Collector of Rajshahye, and from many other gentlemen with local knowledge, that the prospects of the *aman* crop were excellent; and from this and other evidence it is clear that the districts north of the Ganges have gained infinitely by the abundant rainfall, while their loss by floods has been confined to individual villages, and even there has been of trifling extent. The Collector of Pubna, Mr. Tute, met the Lieutenant-Governor at Sara, and explained that no material damage had been caused by floods in that district, and that the harvest would be a full one.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

*Offg. Secretary to the Govt. of Bengal.*

**RESOLUTION BY THE GOVERNMENT OF BENGAL ON THE REPORT OF  
THE CALCUTTA INTERNATIONAL EXHIBITION, 1883-84.**

Report of the Calcutta International Exhibition of 1883-84 compiled under the orders of the Executive Committee.

Letter No. 264A, dated 2nd August 1885, from the Secretary to the Executive Committee of the Calcutta International Exhibition of 1883-84, forwarding copies of the minutes of the Proceedings of the Executive Committee.

Minutes of the Proceedings of the Executive Committee.

The Executive Committee of the Calcutta International Exhibition of 1883-84 have submitted their report 16 months after the closing of the Exhibition.

In his speech, made on the 10th March 1884, at the closing of the Exhibition, Sir Rivers Thompson stated that it was the intention of the Bengal Government that a full report on the Exhibition should be published. The Report now submitted, redeeming this promise, gives an exhaustive account of the circumstances under which the Exhibition was held, and describes with much detail the exhibits which were brought together. It is a matter for regret that it was not found possible to publish the Report while the memory of the Exhibition was still fresh in the minds of the public, but the Lieutenant-Governor believes that delay was unavoidable by reason of the laborious nature of the work, and the little leisure which was available to the members of the Executive Committee for the compilation of the report.

2. The Committee remark that the Calcutta Exhibition of 1883-84 was the first attempt made in India to hold an Exhibition of an international character. "Exhibitions on a smaller scale had been held in various parts of India, but these were generally of a local character; and, where their scope was not purely provincial, no attempt was made to include in them specimens of other than Indian arts and manufactures. For the improvement of Indian art these Exhibitions were not without considerable value, but they necessarily did not embrace the other important objects of an Exhibition—the bringing of distant countries into closer commercial union with India, and the development of new branches of industry." The idea of having an Exhibition in Calcutta for the exposition of the arts and industries of India was under the consideration of the Lieutenant-Governor when, in October 1882, M. Jules Joubert, who had before successfully promoted similar Exhibitions in Australia, arrived in this country; and it was at his instance that what had been originally proposed as an Exhibition of the products of the Indian Empire took the form of an International Exhibition. Having obtained the assent of the Government of India to this wider and more ambitious project, together with a promise that other Local Governments would be invited to assist in securing the adequate representation at the Exhibition of the natural products and manufactures of all parts of India, Sir Rivers Thompson gave his sanction and support to the undertaking in a Resolution published on the 16th January 1883, and the work of preparation at once began.

A General Committee was formed consisting of the chief officers of the Supreme Government and of all Local Governments and Administrations, the great feudatory chiefs and nobles of India, and the leading officials and private individuals, both European and Native, of the various provinces; while in every province of India local committees were formed in aid of the Exhibition. The Governments of three of the Australian Colonies, viz. Victoria, New South Wales, and South Australia, appointed Commissions to promote the objects

of the Exhibition, and official representatives were sent to the Exhibition by five other British Colonies, viz. Ceylon, the Straits Settlements, Tasmania, Demerara, and Mauritius. From foreign countries delegates were sent by the Government of Austro-Hungary; by the French Colonies of Cochin China and Tonquin, and by the Dutch Colony of Batavia. The following nations were represented by exhibitors, but took no official action with respect to the Exhibition:—Great Britain, France, Germany, Italy, Belgium, Turkey, Japan, and the United States of America. The Executive Committee remark that the character of the Exhibition, which was in some measure promoted by private enterprise, no doubt prevented it from securing the participation of foreign countries in the same manner as would have been the case if it had been from the first declared to be an undertaking of Government.

The Lieutenant-Governor takes this opportunity of tendering his thanks to the Government of India and to all Local Governments and Independent States in India, and to the Colonial and Foreign Governments who were represented at the Exhibition, for the cordial assistance rendered. To the district officers in all parts of India, and to other members of local committees who gave their time and labour in the cause of the Exhibition, the Lieutenant-Governor is deeply indebted.

3. To help to meet the cost of collecting samples of the products and manufactures of India, the Bengal Government provided a sum of Rs. 50,000, which was distributed by the Government of India among the different Local Governments, and in all cases the allotments made were supplemented by grants made by the Local Governments from the funds of their own provinces. For the collection of exhibits in these provinces a sum of Rs. 10,000 was placed in the hands of the Executive Committee by the Government of Bengal. Many articles were also lent by Native and European gentlemen in India for exhibition, and for these contributions the Lieutenant-Governor desires to express his thanks. In particular the local committee of the Presidency district took special measures for the representation of Calcutta. Subscriptions were raised, and a separate Court, furnished and equipped entirely at the expense of the Calcutta community, was the result of their liberality and public spirit. This Court was one of the largest in the Exhibition, and was most artistically arranged.

4. The management of the Exhibition was in the hands of the Executive Committee who worked in concert with M. Joubert. After having obtained the sanction of Government for the Exhibition, M. Joubert left Calcutta at the end of December 1882 for the Australian Colonies in order to secure their adequate representation, and he at the same time appointed an agent in London to make known the circumstances of the Exhibition and to obtain the co-operation of mercantile and manufacturing firms in England and on the Continent.

While arrangements had thus been made for the collection of exhibits, the Exhibition buildings were being built by the Public Works Department of this Government. It had originally been M. Joubert's intention to erect temporary buildings for the Exhibition at his own expense, but he subsequently found that the scheme was likely to assume much larger proportions than he had ever imagined, and on his request Government obtained for him from the Trustees of the Indian Museum the use of the Museum building, and finally undertook the construction of the necessary annexes. Practically the entire administration of the undertaking had now devolved upon the Executive Committee, M. Joubert continuing from the date of his return to India in June 1883 to control, subject to the supervision of the Executive Committee, all sections except the Indian section of the Exhibition.

5. A description of the Exhibition buildings and of their internal arrangements is given in Chapter II of the Report. By the end of June it had become evident, from the number of applications received for space, that the accommodation must be greatly increased, and it was decided to enclose a large space upon the maidan opposite to the Museum to contain the Indian Court, the Machinery Court, and other Courts, and ultimately the total space enclosed for the Exhibition amounted to nearly 22 acres, including covered space of about 300,000 square feet or nearly seven acres, of which about 200,000 square feet represented buildings newly built by the Executive Committee for the occasion, the remainder being provided

in the Museum building or having been built at the charge of the exhibitors themselves. The buildings comprised, besides a portion of the Indian Museum, a new permanent building specially erected to form a portion of the future home of the Bengal Art collection, six annexes contiguous to the Museum, a large Indian Court and a still larger Machinery Court on the maidan, besides several minor buildings.

Even this space was, however, insufficient for the proper display of the exhibits which, in some Courts, were overcrowded, and in his report read at the opening of the Exhibition, Colonel Trevor, the Vice-President of the Executive Committee, expressed the regret of the Committee that it had been necessary to refuse numerous applications for space which had arrived since the last day fixed for their reception. Colonel Trevor observed that the number of these applications made it absolutely certain that, had it been possible to devote two years instead of one to the preparation for the Exhibition, the number of articles exhibited would easily have filled more than double the space which was provided on this occasion. Unfortunately the Executive Committee were hampered in this particular matter by the exigencies of M. Joubert's position, but the experience gained in Calcutta as to the necessity of the fullest time for preparation will not be lost in future Exhibitions of the kind which may be undertaken in India.

The temporary buildings were constructed of materials taken from dismantled Government buildings, of which a large quantity happened to be available at the time. The building operations were carried out by officers of the Public Works Department under the immediate supervision of Colonel Trevor. To these gentlemen, who are named in Chapter II of the Report, the Executive Committee express their obligations for the untiring efforts by which, under many difficulties, the rapid completion of the buildings was accomplished.

6. The Exhibition was opened by His Excellency the Viceroy on the 4th December 1883, just one year after the proposal for holding it was first laid before Government. It remained open till the 10th March 1884, and was then closed by the Viceroy. It was a matter for regret that it could not be kept open longer, as the daily numbers of persons admitted continued to increase before the closing, and there is no doubt that, if circumstances had permitted an extension of the open period to the time ordinarily devoted to such Exhibitions in Europe, the results would in many ways have been beneficial. Exhibitors, however, had come prepared to stay for three months only, and were unwilling to endure the heat of an Indian summer, when the season during which business was likely to be done was over. The buildings, moreover, were of a temporary nature, and were not intended to resist the storms which accompany the approach of the hot weather.

7. No adequate notice of the exhibits gathered together in the different Courts can be attempted in this Resolution. A description of each Court, and a catalogue of its exhibits, have been given in the Report. The descriptions of the Courts, written for the most part by the officers in charge, and especially the description of the Economic Court written by Dr. George Watt, besides giving very full notices of the collections displayed, contain much useful information with regard to the resources and industries of the countries which were represented. The catalogues of the Indian exhibits form a useful record of the products and industries of this country to which reference will often be made.

The relative proportion of the numbers of exhibits from each country represented may be gauged from the fact that the catalogue of the exhibits from the Indian Empire takes up the whole of the last volume of the Report consisting of 722 pages; the catalogue of the exhibits from Great Britain occupies 35 pages; that of exhibits from British Colonies 154 pages (of which 128 pages are monopolised by the Australian Colonies), and that of exhibits from foreign countries 55 pages. The beautiful collections of art work in the Indian Courts have perhaps furnished the most vivid recollections of the Exhibition in the minds of most visitors; but the solid merits of the collections of raw products and rough industries in the Indian Economic Court afforded especial ground for satisfaction to all persons interested in the welfare of the Empire. The exhibits in the Economic Court included the entire collection of the Bengal Economic Museum, collections made by the Revenue and Agriculture Department of the Government of India, collections

contributed by private individuals, trade samples supplied by the various Indian Chambers of Commerce and by merchants, and ethnological specimens purchased or obtained on loan. The arrangement of the exhibits in this Court was supervised by Dr. George Watt, Mr. F. B. Manson, and Baboo Trailokya Nath Mukerji, to all of whom much praise is due for their labours. The large part taken in the Exhibition by the Australian Colonies was especially pleasing, and the Lieutenant-Governor expresses his hope in the words used by Lord Ripon at the closing of the Exhibition, that the display of the large and varied resources of these young countries, and of the energy of their people, together with the friendly intercourse which was brought about by the Exhibition, may do much to promote trade between this country and those Colonies. The Lieutenant-Governor has recently received from the Exhibition Commission appointed by the New South Wales Government an interesting report of the part taken by that Colony in the Exhibition. With regard to the European exhibits, the following remarks made by His Excellency the Viceroy, with which the Lieutenant-Governor may be allowed to express his entire concurrence, deserve attention. Lord Ripon remarked :—

“In one respect I must say that the European exhibits in this Exhibition have not altogether fulfilled some of the hopes which I at least entertained. The requirements of the wealthy have been thoroughly considered, articles of luxury and splendour are to be found in these Courts in plenty, but little has been done to show what might be accomplished to supply the wants of the masses of the people; and especially the wants of the cultivators of the soil. Now I have no doubt that that has arisen mainly from the ignorance of the needs of these persons in that respect. Nothing can be more natural; but nevertheless I can assure the capitalists and inventors of Europe and America that there is ample room for the exercise of skill and ingenuity to supply the wants of the agricultural classes of this country, and to provide them with implements calculated to supersede the rude and primitive instruments which they now use. No doubt to do this may be beset with various difficulties, for we all know how attached the rural natives are to the practices and habits of their forefathers, but nevertheless I believe that those who have skill and the capital to devise improved agricultural implements would find a fair field, as time goes on, for the sale of articles of that description in this country. I mention this now in the hope that before another Exhibition is held here, those who are likely to become exhibitors hereafter will turn their attention to this subject.”

8. The total number of exhibitors in all the Courts of the Exhibition amounted to 2,500, and the articles exhibited exceeded 100,000 in number. The exhibits were divided into 149 classes, and for the purpose of judging them a separate jury was appointed for each class. The duty of nominating the juries fell almost entirely upon the Executive Committee with some assistance from exhibitors who were allowed to propose names of persons to be appointed jurors. The report comments on the difficulty which was experienced in obtaining qualified jurors in Calcutta (where technical knowledge of any kind commands a high price), with reference to the provisions of the Jury Regulations that no person should be a juror who was himself an exhibitor or in any way connected with an exhibition. It was ultimately, however, found possible to appoint qualified juries in all classes, and the Lieutenant-Governor joins the Executive Committee in thanking the gentlemen who, at a large sacrifice of time and labour, gave their gratuitous services. The fact that not less than three jurors were appointed in each of the 149 classes, and that the total number of jurors who served was only 176, suffices to show how great was the task which some among these gentlemen undertook. A list of the jurors is appended to this Resolution.

The valuable services rendered by Lieutenant-Colonel J. F. Fitzgerald Cologan, in his capacity as Superintendent of Juries, deserve especial mention. It was due to this officer's tact and judgment that the difficulties of a somewhat thankless office were so successfully surmounted.

The labours of the juries began on the 19th January 1884, and the last award was declared on the day of the closing of the Exhibition. Three thousand five hundred and ninety awards in all were made, which were classed as follows :—

Certificate of merit of the first class with gold medal	...	723
Ditto ditto with silver medal	...	1,175
Ditto ditto second class with bronze medal	...	1,031
Ditto ditto third „ ...	...	497
Ditto ditto fourth „ ...	...	117
Ditto ditto fifth „ ...	...	47

9. The total number of persons admitted into the Exhibition exceeded a million, including 817,153 persons paying for admission at the turn-stiles and about 200,000 season ticket-holders. The price of admission was fixed\* at four annas daily, except on one day of the week, which was reserved for visitors wishing to see the Exhibition with more comfort, when one rupee was charged. The daily average attendance for the 96 days, during which the Exhibition was open, amounted to 6,277 persons, and the largest numbers admitted on any one day were 16,183 on the 10th December 1883. As above noticed, the number of visitors to the Exhibition continued to increase before the day of closing, and as its fame extended only gradually to distant places in the interior, it would certainly have attracted visitors for a much longer time could it have been permitted to remain open. A noticeable feature of the Exhibition was the large number of native females of all ranks who, in opposition to the restraints of caste and custom, were constant visitors to its Courts. Special arrangements had occasionally to be made for the visits of native ladies of high rank. The duties of guarding the Exhibition were well performed by the Calcutta Police, but in spite of all precautions some thefts were committed, the most important of which was effected by wrenching off a piece of the gold throne exhibited by the Maharajah of Burdwan. The loss was made good to the Maharajah by Government.

10. The financial arrangements and results of the Exhibition are described in the fourth chapter of the Committee's report. It has been stated above that the management of the Exhibition from being at first a private enterprise was unavoidably converted into a Government undertaking. As a guarantee for the repayment of the expenditure incurred by Government upon the Exhibition buildings, M. Joubert entered into an engagement to make over to the Executive Committee all the receipts of the Exhibition from space money, gate money, and all other sources, and also to permit his accounts to be audited. The gross expenditure on the Exhibition buildings, on wages of attendants, advertisements, lighting, M. Joubert's drawings (Rs. 43,113-6-5 for his personal expenses,\* the salaries of his Secretary and foreman, &c.), and under all other heads, but exclusive of the sum of Rs. 60,000 spent on the collections of exhibits made in India, amounted to Rs. 5,04,248-12. Of this

\* Certificates and medals are still being issued as fast as they can be procured from the Mint, and the account under this head is not yet finally closed.

sum more than Rs. 3,83,000 were expended on plant and buildings, and over Rs. 32,000 have been spent\* on medals and certificates of award. This amount also does not include the sum of Rs. 13,659, which

was the cost of the police employed in the Exhibition. The gross receipts of the Exhibition amounted to Rs. 5,02,858-2, of which Rs. 1,78,044 were obtained by gate money, Rs. 30,201 from season tickets, Rs. 91,418 from space money, Rs. 16,787 from deposits of exhibitors for duplicate certificates and gold medals, and Rs. 1,63,743 represented the value of buildings and building material taken over and sold by Government and by M. Joubert on account of Government; the balance of receipts was made up by payments for licenses to sell in the Exhibition, tenders for refreshment bars, and sundries. Any balance shown by the account when it is finally closed will be written off against the Bengal Government.

11. In return for the advances, amounting to Rs. 50,000, made by the Government of Bengal to other local Governments in India for the purchase of exhibits, the Government of Bengal was permitted to select articles from the collections sent from the various provinces to the value of its advances. The selection made, together with the collection of exhibits purchased in these provinces from the sum of Rs. 10,000 placed in the hands of the Executive Committee, forms the nucleus of the Art Gallery and Economic Museum of Bengal, established in the new building which adjoins the Imperial Museum, and which extended and enlarged, as the Lieutenant-Governor hopes, as funds become available, will be a permanent memorial of the Calcutta Exhibition of 1883-84.

12. In conclusion, the Lieutenant-Governor desires to express his thanks to the Executive Committee, and especially to their Vice-President, Colonel Trevor, for the valuable work done by them. A prominent part was taken by the Public Works Department in all branches of the Exhibition work. The arrangements with M. Joubert were carried out by

Colonel Trevor as the Head of the Department, the buildings were erected by members of the Department under Colonel Trevor's directions, and the same officers gave much assistance in the decorative arrangements of the Courts. It is right to place on record a fact which public opinion has already recognized, that to Colonel Trevor, more than to any other person, are due the satisfactory results of this first effort to hold a Great International Exhibition in India. His hearty interest in the undertaking from its inception, and his personal zeal in its cause until its close, inspired all those who were associated with him in his labours to make it a success; without him, they would have failed. The executive and administrative officers of the Executive Committee were Colonel Trevor, Mr. C. S. Bayley, and Mr. M. H. Jackson. As officer in charge of the Bengal Court, Mr. Bayley worked with energy and judgment, and he has also given valuable assistance in editing the report. Mr. Jackson, the Secretary to the Committee, deserves the commendation which is due to the unfailing activity with which he performed his multifarious duties.

The Lieutenant-Governor regrets that M. Joubert, the promoter of the Exhibition, did not obtain the full profits which he had anticipated and which his enterprise merited. This result was perhaps due to the fact that in his calculations, based upon Exhibitions held in other countries, M. Joubert did not sufficiently recognise the special difficulties attending an undertaking of this kind in India. By virtue, however, of his wide experience, he was able to give to the Executive Committee advice which was of the highest value, and especially in the arrangements which secured the active co-operation of the great Australian Colonies in the Exhibition.

**ORDER.**—Ordered that copies of this Resolution, with copies of the Report, be submitted to the Government of India, in the Revenue and Agricultural Department, for information.

Ordered also that this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

*Offg. Secretary to the Govt. of Bengal.*

---

## APPENDIX

TO

## RESOLUTION OF THE GOVERNMENT OF BENGAL, REVENUE DEPARTMENT

ON THE

## REPORT OF THE CALCUTTA INTERNATIONAL EXHIBITION OF 1883-84.

## MANAGEMENT OF THE MUGHYA DOME SETTLEMENTS IN CHUMPARUN.

No. 1903J—D, dated Darjeeling, the 25th September 1885.

From—F. B. PEACOCK, Esq., Chief Secretary to the Government of Bengal,  
To—The Commissioner of the Patna Division.

I AM directed to acknowledge the receipt of your letter No. 571G, dated the 14th August 1885, submitting a copy of the third annual report by the Magistrate of Chumparun on the management of the Mughya Dome settlements in that district.

2. In reply, I am to say that the report is a satisfactory one, showing, as it does, that this most troublesome clan are gradually taking to peaceful and honest pursuits. Much of the success of the experiment of forming colonies of the Mughya Domes in Chumparun is due to the great personal interest which Mr. Henry has taken in it.

3. As remarked by Mr. Henry, one of the most encouraging features in the scheme is that the domes have begun to take lands on their own account from the zemindars, thus clearly indicating their desire to settle down and live honestly. It is encouraging, too, to find that the zemindars are willing to have these people as tenants. It is observed that Mr. Henry reports that the two settlements at Bargaon and Futtehpore will probably be self-supporting in future, and that, at all events, no grant-in-aid will be required from Government during the current year.

4. I am to request that you will be so good as to convey to Mr. Henry the thanks of Government for the continued interest he has taken in the Dome settlements in his district, and to say that the Lieutenant-Governor will watch with great interest the further development of what promises to be a measure of great practical utility.

5. I am to add that the services rendered by Head Constables Ramdhani Singh and Ambica Pershad, in charge, respectively, of the Bargaon and Futtehpore settlements, and by Inspector Mokhey Lal Miśsir, have been noticed with satisfaction, and that the Inspector-General of Police will be asked to give the two former officers the promotion which they appear to have well deserved.

No. 571G, dated Bankipur, the 14th August 1885.

From—F. M. HALLIDAY, Esq., Commissioner of the Patna Division,  
To—The Secretary to the Government of Bengal, Judicial Department.

I HAVE the honour to forward herewith copy of a report from Mr. Henry, Magistrate of Chumparun, on the management of the Mughya Dome settlement in his district.

2. The report is as usual full and interesting, and gives a very favourable and hopeful account of the ultimate success of the experiment; but for this we shall be indebted entirely to the extreme interest taken in the undertaking by Mr. Henry and the police officers employed under him. I have much pleasure in supporting the Magistrate's recommendation for some substantial acknowledgment being made by Government to the subordinate police officers he mentions.

No. 1193, dated Motihari, the 30th July 1885.

From—E. R. HENRY, Esq., Offg. Magistrate of Chumparun,  
To—The Commissioner of the Patna Division.

I HAVE the honour to submit the third annual report on the administration of the Mughya Dome settlements in this district.

### BARGAON SETTLEMENT.

This settlement consists of 112 adults and 51 boys and girls. During the year six males were admitted upon release from jail. One male, five females and three children absconded, and are said to be in Goruckpur. Three males, who had during the preceding year absconded and had reverted to criminal practices, were, with the aid of the settlement domes, arrested and brought to trial. One was sentenced to seven years, one to five years and one to six months' imprisonment. These prosecutions have had an excellent effect in convincing the domes that the supervision which the police are now able to exercise is strict and effectual, and that any attempt on their part to return to their old practices will inevitably lead to detection and conviction.

Seven domes were employed throughout the year as village chowkidars, and four as chowkidars under the Road Cess Department. Their conduct has been satisfactory. A bansphor dome was employed to teach the children bamboo work, and some of them have learnt sufficient to be able to earn money by making moras and baskets.

*Cultivation.*—The land attached to this settlement under cultivation was 48 local bighas, and the outturn of the crops harvested was—

					Maunds.
Aughani dhan	...	...	...	...	270
Bhadoi dhan	...	...	...	...	496
Indian-corn	...	...	...	...	105
Rabi grain	...	...	...	...	148
Total	...	...	...	...	1,019

(pucca weight) from 48 bighas, the local bigha being about  $1\frac{1}{4}$  acres.

This outturn may be considered satisfactory, regard being had to the effect that the domes are only learning agriculture, and that the season was not particularly favourable. Better results are expected next year, as all the lands have been sown and the seed has germinated well; but much depends upon seasonable rain in August and the two following months. Arrangements are being made to extend the cultivated land attached to this settlement, the result of which will be reported next year. All the land has been divided amongst the settlers, who now are beginning to realize that they will reap the full benefit of their own labour.

One of the most encouraging facts in connection with the year's working is, that the domes have commenced to take lands direct from the zemindars on their own account. They pay the rent and provide all the necessary expenses for cultivation out of their own funds, and no interference, direct or indirect, is exercised by us in the matter of these lands. I have not the figures by me showing to what extent land has been taken up by them in this way, but their operations promise to be on a larger scale next year.

With a view to stimulating a spirit of enterprise amongst them, I caused it to be known that if any dome succeeded in purchasing for himself a plough-bullock, the pair to it would be given to him from the Government stock. No less than 14 bullocks have been purchased by the domes out of their savings, and they now own 14 pairs of plough-bullocks which they use for the cultivation of their lands. I am in hopes that before the end of next year a dozen more plough-bullocks will be purchased by them, and then the whole stock of Government bullocks will be absorbed, and the settlement will have 26 pairs of plough-bullocks belonging to private owners.

The rearing of poultry has proved profitable, as there is a brisk demand for this stock in the neighbourhood.

*House accommodation.*—There are 40 well-built houses at this settlement, of which 26 are tiled and 14 thatched. The roofs are supported on wooden props, as the material of which the walls are composed, being somewhat friable, was not adapted to bearing a heavy strain. All the tiles have been re-set, and the other roofs have been entirely re-thatched this year. The work has been so well carried out, that on the occasion of my last visit to the settlement a few days ago, I found that not a single house had leaked, although nearly 20 inches of rain had fallen during the month. During the present year we hope to get the remaining houses tiled, as thatched roofs require extensive yearly repairs, whereas tiled roofs properly laid last for five or six years without entailing much expense.

The masonry well is in good order, and the water-supply is said to be of satisfactory quality and sufficient in amount.

Several of the bamboo and sisoo trees planted on the bank of the homestead enclosure, died out during the year. They have now been replaced. The soil unfortunately appears ill-adapted to growing bamboos, but special precautions have been taken in preparing the ground this year; better results are expected than have hitherto been obtained.

The weekly *hat* established upon the settlement land is gradually becoming more frequented by buyers and sellers.

#### FUTTEHPUR SETTLEMENT.

There are 61 adults and 39 boys and girls, in all 100 persons, at this settlement. During the year two males were admitted upon release from jail: one male and one female were convicted of theft and sentenced to two years' rigorous imprisonment. Five domes were employed as village chowkidars.

*Cultivation land.*—The area under cultivation attached to this settlement was  $13\frac{1}{2}$  local bighas (the local bigha being a little over an acre); the outturn of the crops was—

					Maunds.
Aughani dhan	...	...	...	...	123
Bhadoi dhan	...	...	...	...	6
Makai	...	...	...	...	63
Sadhi dhan	...	...	...	...	3
Total	...	...	...	...	195

There was besides a yield from the rabi crops upon the land twice cropped, the details of which I have not by me to refer to.

Having regard to the area of the land under cultivation, the yield secured was, I consider, decidedly good. Some of the domes have rented land on their own account direct from the landholders, and inducements are held out to them to take up as much land in this way as they can work.

Within this month I have at last succeeded in securing 10 bighas of good land for this settlement; this will bring the area under cultivation up to 23½ bighas, which at present is about as much as we can hope to cultivate successfully. There is great difficulty in obtaining good land in this neighbourhood, and it does not pay to break up fallow. If we can gradually extend the cultivation land to 40 bighas, this will prove quite sufficient for the requirements of this settlement. Obviously it is better to secure crop outturns at the rate of 16 or 18 maunds an acre from a limited area as we are now doing, than to double the cultivation area by taking in land of bad quality, the crops grown on which would barely pay for the cost of seed and cultivation generally. The settlers here are not so entirely dependent upon their fields as the Bargaon men, for the labour market is always brisk, and a day-labourer can earn sufficient wages to maintain himself all the year round by field work if so disposed. The orders of Government regarding the extension of the cultivation area, however, are not being lost sight of, and, as occasion offers, fresh lands will be taken up. It is necessary, however, to proceed with discretion, as the settlement would become extremely unpopular if any pressure were brought to bear upon the villagers of the neighbourhood to induce them to surrender their lands even upon payment of liberal compensation.

Of the ten bullocks belonging to this settlement, one died of snake-bite. None of the domes here have as yet been able to purchase bullocks on their own account, but some of them have expressed the intention of doing so during the ensuing year, when for every bullock they purchase, they will receive the pair from the Government stock.

*House accommodation*.—There are 20 houses all in good repair. Of these, ten have been tiled, the thatched roofs of the remaining ten are in good order. Thatching-grass and bamboos are more easily procurable here than in the neighbourhood of Bargaon, so I attach less importance to the roofs being tiled.

There is a good well, and the water-supply is said to be wholesome.

Several of the domes here earn money by bamboo work and by rearing poultry.

I may sum up the result of the year's working by saying that both settlements are prospering beyond our anticipations, for it appears to be assured now that they will be able to maintain themselves as agricultural colonies without any further aid from Government. That the experiment of establishing them upon this basis was considered somewhat hazardous will be seen from the published correspondence of the North-West Province officers, to whom a reference upon the subject was made by that Government. The area of the land under cultivation is as yet small, regard being had to the actual numbers of the colonists, but the harvest yields show that it was thoroughly well cultivated. The more thrifty amongst the domes who have succeeded in saving a little have commenced to take up land on their own account from the zemindars, and as their resources increase, they will, no doubt, extend their operations. No better proof could be given of the change that is gradually coming over them than these instances of their dealing directly with the zemindars. It shows that they are beginning to realize that in future they will have to shift for themselves, and it also shows that landholders are not unwilling to accept them as tenants. To any person acquainted with the status allotted to domes by general consent a few years ago, these facts will be strong evidence that a marked reformation in their habits and modes of life must have been effected.

It would be premature to think that this reformation has been so radical that they might now be allowed to settle in other villages, where they would not be under efficient supervision, and where temptations to commit theft would be frequent. That many of them, if placed in this situation, would find temptation irresistible and fall away, I have no doubt; for it will take years to effect any real change in their opinions as regards the rights of property. But under the system in force here they are not exposed to much temptation; they are collected together in colonies, where one or two policemen or even intelligent chowkidars can keep an effective watch over them, while at the same time they have an opportunity of so improving their condition as to be placed above the necessity of reverting to criminal practices. So far we have succeeded in bringing to justice, with few exceptions, the domes who have receded and have re-commenced thieving, and the lesson has not been wasted upon those remaining at the settlements.

In conclusion, I am glad to be able to report that no grant-in-aid will be required from Government this year. I was able a few days ago to go over the cultivation of both settlements, and prospects are so good that I have no doubt whatever that the domes will be able to maintain themselves during 1885-86 without aid from Government.

I desire to bring to your notice the excellent work done by head constable Ramdhani Singh, who has been in charge of the Bargaon settlement. This officer can read and write but little, and consequently can only be promoted to a Sub-Inspector under special orders. He has, however, done such good work, and has borne such an excellent character throughout his service, that I should be glad if he could, as a special case, be promoted from head constable to 5th grade Sub-Inspector. In previous reports I brought his name to your notice. Head constable Ambica Pershad, in charge of the Fattéhpur settlement, has also worked to my entire satisfaction. Inspector Mokhey Lal Missir, whose services have already been recognized by Government, has continued to supervise both settlements efficiently.

## Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 3rd October 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
Western Districts.			
BURDWAN DIV.	1 Burawan, Oct. 3 '85	0.71	Weather—seasonable. <i>Aus</i> being harvested. Prospects of <i>aman</i> good. Price of rice 12 to 16 seers per rupee.
	Culina ..	0.48	
	Cutwa ..	0.58	
	Raneegunge ..	2.00	
	2 Bankoora, " 3 "	1.00	
	Bishnupore ..	0.70	
	3 Beerbhoom, " 3 "	0.87	
	Ranpore Haut ..	3.23	
	4 Midnapore, " 3 "	0.77	
	5 Hooghly, " 3 "	1.84	
Serampore ..	0.42		
Howrah, " 5 "	1.34	Weather—hot with puffs of north wind; mornings and evenings cooler. Most of the paddy (about three-fourths of the whole district crop) is destroyed. <i>Boro</i> seedlings being reared. Health good.	
Oslooberiah ..	1.96		
Central Districts.			
PRESDENCY DIV.	6 24-Pergha Oct. 5 '85	1.17	Weather—seasonable; rather hot. Prospects of <i>aman</i> paddy, except on low inundated lands, are good. Harvesting of <i>aus</i> continues with an estimated outturn varying from 10 to 12 annas. Public health good.
	7 Nuddem, " 3 "	1.28	
	Kushtia ..	6.37	Weather—seasonable. Heavy rain on the 1st instant. Rivers falling day by day, and prospects improving. <i>Kalai</i> being sown everywhere.
	Meherpur ..	2.28	
	Chuananga ..	4.24	
	8 Khoolua, " 3 "	1.44	Weather—very hot with occasional rain. Except in inundated parts north of Satkhira prospects of <i>aman</i> paddy are very good. At Satkhira rice selling at Rs. 3-2 per maund. Public health generally good.
	9 Jessore, " 3 "	1.68	
	Jhenida ..	2.89	Weather—seasonable with occasional rain. Harvesting of <i>aus</i> paddy finished almost everywhere. It has yielded a fair outturn on the average. Prospects of <i>aman</i> fair except in the Bongong sub-division, where this crop over a large area has been almost wholly destroyed by the inundation. The flood-waters are fast subsiding. Fever continues.
	Narail ..	0.35	
	Bongong ..	1.25	
	10 Moorshedabad, " 3 "	0.18	Weather—seasonable. Prospects of <i>aman</i> rice in the Barh excellent. <i>Kalai</i> being extensively sown and doing well. Prospects generally much brighter. Common rice selling at from 13 to 15 seers per rupee. Public health good.
	Lalbah ..	1.14	
	Kandi ..	3.20	
	Jungipore ..	0.52	
	11 Dinagepore, Oct. 2 "	0.72	Moderate rain this week. Weather fair and seasonable. Harvesting of jute and <i>aus</i> finished. Transplanting of <i>aman</i> also finished; state and prospects of this crop good. Rice selling at from 13 to 20 seers per rupee.
	12 Rajshahye, " 3 "	2.79	
	Natllore ..	3.26	Weather—mornings rather cloudy and cool, days hot. Harvesting of <i>aus</i> still continues. Prospects of standing crops fair on the whole. Transplanting of <i>ganja</i> seedlings going on in Nowgong. Fever prevails.
Nowgong ..	2.17		
RAJSHAHY DIV.	13 Rungpore, " 3 "	0.09	Weather—hot with rain to the east and south-east. Transplanting of <i>aman</i> over. Other crops doing well. Price of rice at Rungpore has risen considerably in spite of the good harvest of <i>aus</i> and the promising state of the <i>aman</i> plants which are thriving very well. Price of salt has risen 50 per cent owing to the break in the Eastern Bengal Railway. Fever and bowel-complaints prevalent. Rain daily; weather pleasant; another slight shock of earthquake on 28th ultimo. Prospects of winter crops good. Public health fair.
	Gulbanda ..	5.41	
	Kurigram ..	5.70	
	Nilphamari ..	1.43	
	14 Bogra, " 3 "	3.10	Weather—rainy, but fair in the latter part of the week. Rivers falling rapidly. Crops in low lands have suffered to some extent, but general prospects good. Fever still prevalent about Serajunge.
	15 Pubna, " 3 "	3.16	
	Sernjunge ..	2.94	Weather—bright and fine. Potato harvest has disappointed expectation owing to excessive wet. All other prospects excellent.
	16 Darjeeling, " 3 "	..	
	17 Julpigoree, " 3 "	5.73	Weather—seasonable, nights generally cool. <i>Aman</i> paddy doing well in all parts of the district. Recent rain has done much good. Public health generally good.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.—concl'd.</b>			
<i>Eastern Districts.</i>			
Dacca Division.	18 Dacca, Oct. 3 '85	1.81	Weather—seasonable. Harvesting of jute and <i>aus</i> paddy nearly completed. Sowing of <i>roarkia</i> paddy finished. Early <i>amun</i> blossoming. Prospects of crops good. Public health good.
	Manickgunge ...	0.21	
	Munshigunge ...	0.46	
	Naraingunge ...	1.82	Weather—seasonable. Prospects good. Jute and sugarcane have suffered somewhat from excess of water, but are on the whole good.
	19 Furrecupore, " 3 "	3.02	
	20 Backergunge, " 1 "	0.58	Weather—seasonable. Harvesting of <i>aus</i> paddy finished. Transplanting of <i>amun</i> completed. General health bad.
	21 Mymensingh, " 2 "	3.84	
	Jamalpur ...	4.91	Heavy rain on the 30th, 2.61 inches registered at Sudder station, and 3.95 inches at Netrokona. Rivers still high. Weather cool. Much damage to crops on low lands by floods. General prospects good.
	Kishoregunge ...	0.91	
	Attia ...	0.91	
	Netrokona ...	8.33	
Chittagong Divn.	22 Chittagong Oct. 6 '85	2.40	Weather—seasonable. Standing crops in certain localities damaged by grubs. Prices steady. Cholera lingers. Public health generally good.
	23 Noakhally, " 2 "	2.85	Weather—hot. Showers from Wednesday night (30th September). New rice has come into the market, but price has not fallen owing to large exportation. Transplanting of <i>amun</i> completed. Prospects fair. Public health good.
	Fenny ...	0.82	
	24 Tipperah " 1 "	2.92	Weather—unsettled with high winds and occasional rain. Prospects generally good except in limited tracts where some damage has been done by floods.
	Brahmanbariah ...	0.14	
	Chandpore ...	0.15	Weather—hot and occasionally cloudy. Harvesting of <i>joom</i> paddy in full swing. Prospects of cotton and sugarcane good.
	25 Chittagong Hill Tracts, Sept. 29 "	0.08	
BEHAR.	Hill Tipperah, " 30 "	0.04	Weather—close. Transplanting of <i>amun</i> nearly finished. <i>Til</i> , cotton and sugarcane doing well. Public health good.
PATNA DIVN.	26 Patna, Oct. 3 '85	0.50	Weather—hot. <i>Bhadoi</i> crops being harvested. Prospects of paddy continue good. Public health good.
	Dinapur ...	1.40	
	27 Gya, " 3 "	Nil	Prospects of <i>khurif</i> excellent. Fields being prepared for <i>rubbee</i> . Cholera and fever reported in places. Health generally good. Price of best rice slightly risen. No notable rise in price of other grains.
	28 Shahabad, " 3 "	Nil	
	Buxar ...	0.55	Weather—clear and warm. Prospects of winter rice good. Cholera and fever of a bad type still prevalent. Prices stationary.
	Sasaram ...	Nil	
	Bhabhua ...	1.25	Weather—fine and clear. <i>Bhadoi</i> harvest completed; outturn estimated at 8 to 10 annas on an average. Prospects of paddy very favourable. Transplanting of tobacco plants going on. Prices falling. A few cases of cholera reported from the Madhubani sub-division.
	29 Durbhanga, " 3 "	3.09	
	Tajpur ...	2.58	
	Madhubani ...	4.15	
	30 Mozufferpore, " 3 "	Nil	Weather—mostly clear and bright. <i>Bhadoi</i> harvest nearly over; <i>aghani</i> crop promising, except where swamped. Rivers in very high flood. A good deal of cholera still reported from Sitamarhi; in the rest of the district public health appears to have improved.
	Sitamarhi ...	Nil	
	Hajipur ...	1.72	Weather—seasonable. Harvesting of <i>bhadoi</i> nearly completed with almost average outturn. Prospects of paddy continue good. Manufacture of indigo <i>khoomti</i> going on. Sporadic cases of cholera and fever still reported, but on the whole general health good.
	31 Sarun, " 3 "	0.42	
	Sewan ...	2.34	Weather—seasonable. <i>Bhadoi</i> crops being harvested. Prospects of paddy continue good. Prices stationary. Cases of cholera and fever still reported but on the whole general health fairly good.
	Gopalgunge ...	Nil	
	32 Champaran " 3 "	0.82	
BRAHMAPUTRA DIVN.	33 Monghyr, Oct. 3 '85	0.61	Weather—fine with passing clouds; yesterday (2nd) heavy rain-storm. Prospects of the <i>aghani</i> continue good. <i>Kurthees</i> and <i>kalai</i> are being sown. Prices steady. Public health good.
	Hegusarai ...	1.32	
	Jamui ...	1.19	
	34 Bhagupore, " 8 "	Nil	Weather—fine and cool. Prospects of winter rice very good. <i>Kalai</i> and <i>kurthees</i> being sown. Labourers getting work everywhere. Cholera decreasing.
	Banka ...	0.43	
	Muddehporeah ...	0.33	
	Soopole ...	1.79	Weather—fine with occasional showers. State and prospects of crops good. <i>Kalai</i> and <i>kurthees</i> being sown; cold-weather crops coming up well. Much fever and a little cholera.
	35 Purneah " 3 "	0.70	
	Kisengunge ...	8.94	
	Arrareah ...	0.20	Weather—fine and clear with hot sun. Prospects of <i>haimanti</i> rice continue good. Sowing of <i>kalai</i> nearly completed. <i>Bhadoi</i> rice being harvested in Gazole and Bamongola. Common rice selling at 13 seers, and new crop at 17 seers per rupee at Englishbazar.
	36 Maldah " 3 "	0.37	
	Suibgunge ...	1.55	
	Gazole ...	0.55	Weather—seasonable; cold weather setting in. Paddy crop promises to be very good. Cholera still prevalent in parts of the district.
	37 Sonthal Pergah, " 3 "	0.20	
	Deoghur ...	1.81	
	Godda ...	0.76	
	Rajmehal ...	3.09	
	Jamtara ...	4.47	
	Pakour ...	2.64	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
38	Cuttack	...	Report not received.
39	Poures,	" 1 "	Weather—hot, with occasional showers. Second weeding of late <i>sarad</i> paddy is going on. Early <i>sarad</i> is in ear. The late cyclone has done damage to <i>pān</i> gardens and sugarcane in Daudimal in Khoorda, and in pergunnah Kodhai close to the Cuttack district. State and prospects of paddy crops in the tracts bordering the Chilka are bad. Common rice selling at an average of 17 seers 4 chittacks per rupee in the Sudder sub-division, and 16 seers 15 chittacks in the Khoorda sub-division. Public health fair.
	Khoorda	" 1 "	
40	Halasore,	" 2 "	Weather—bright and sultry. Prospects of rice crop generally good, save on the east side of the coast canal, where the sea waves of the 22nd ultimo caused some damage. Public health good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh, Oct. 2 '85	1.50	Rain reported from several thanas. Weather bright and clear at head-quarters. Harvesting of <i>bhadai</i> completed: return 8 to 12 annas. Rice and other crops continue to promise well. Cholera clearing.
42	Lohardugga, " 3 "	0.79	Weather—mornings and evenings cool. <i>tiara dhan</i> has given a very good out-turn. Prospects of winter rice favourable. Price of coarse rice from 1 to 2 seers cheaper per rupee. Cholera still prevalent.
43	Singbhoom, " 2 "	1.85	Weather reasonable. Prospects of crops continue excellent everywhere. <i>Bha-doi</i> being reaped, and ground being prepared for <i>rubber</i> . Prices easy. General health good.
44	Manbhoom, " 3 "	0.34	Weather—fine. Prospects of winter crops continue excellent. Prices stationary. Public health good.

\* Means for six days.

The amount of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 100. The normal means are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisions of the district (i.e., the total rainfall at the sub-divisional stations in the district sending in returns divided by the number of stations. A rainy day is one on which the rain falls to the amount of one-tenth of an inch or more.

for the week ending Friday, the 2nd of October 1885.

DISTRICT OBSERVATIONS.															Representative station.	DISTRICT.	METEOROLOGICAL DIVISION.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, the 6th October 1885.

**SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS  
TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 2ND  
OF OCTOBER 1885.**

DURING the week under review the meteorological conditions have been nearly normal. As is usually the case at the end of September and beginning of October, the monsoon current blowing over Bengal has commenced to slacken rapidly, rainfall has largely diminished in quantity, while the area over which the rain has fallen has also considerably decreased. With the increase of pressure which took place after the disappearance of the cyclonic storm of the previous week, pressure became rather largely above the normal, and the pressure over the province was very uniform. Light and rather unsteady winds therefore prevailed over the province for the first four or five days of the week, and except in North Bengal, the only rainfall which took place consisted generally of light local showers. In North Bengal and some parts of Chutia Nagpur during this period rainfall was a little more general, and particularly in the latter instance on the 26th some rather heavy falls of rain were recorded, but in other districts such as South Behar and the greater part of North Behar practically no rain was recorded. On the 1st of October, however, pressure had fallen for two days in succession, and there were indications of the formation of a very feeble area of low pressure over part of South Bengal, and these indications were rather more pronounced on the following day. Winds also showed a tendency to circulate round the area of low pressure, and as the result of these slightly disturbed conditions, rain became decidedly more general in the southern districts. Thus on either one or both of the last two days of the week, though in most instances it was light, Orissa, South-West Bengal, East Bengal and the greater part of Behar reported good showers. The slight depression, however, was of such feeble character that it was evident it would only affect the weather of the province to a slight degree and for a brief period, and thus at the close of the week all the conditions which were present were those of the transition period which generally marks the gradual closing of the rainy season. Light winds, generally of rather variable nature and direction, have therefore been characteristic of the week under review; barometric pressure has been high, temperature has also exceeded the normal, while in most districts rain fall has been decidedly light and local and rather below the normal fall for the week.

The average pressure for the previous week had been dependent on the passage of the small cyclone, and while it had been below the normal, particularly in Orissa and in the western districts generally, in the eastern districts pressure had been very distinctly above the normal. The tendency of the changes during the present week has been to decidedly increase the excess pressure over the whole province, and to make the distribution more regular. The increase of pressure is seen by the fact that the average pressure for the week over the whole province has been equal to a little more than a tenth of an inch, and that the distribution of pressure has also become much more regular is shown by the fact that the variations of pressure in the different meteorological divisions only range from an excess of 0.114" in Orissa to an excess of 0.094" in North Behar, while the smallest excess recorded is at Gya, where it equals 0.081".

The temperature changes during the week have been generally small, and with the small amount of rainfall and the comparative absence of cloud, the day or maximum temperatures have continued comparatively high. On the other hand the night temperatures or minimum temperatures are now beginning to decrease, and some night temperatures which are fairly low for the season have been recorded. At the plains stations many of the observatories during the week have reported minimum temperatures of about 73° on one or two nights of the week, and this is distinctly low for the end of September or commencement of October. Nevertheless the average mean temperature for the week has been in all districts, except North Behar and Chutia Nagpur, very slightly above the normal, but the mean temperature of the whole province only differs from the normal by an excess of three-tenths of a degree.

As has before been stated, the rainfall has been generally light throughout the week, and the heaviest and most general rain was reported on the 1st and 2nd of October. The district which has received the largest average amount of rain is East Bengal, which records 2.31 inches. The normal fall in this district for the week is 2.30 inches, so that the actual amount received is practically normal. The stations in North Bengal have received an average fall of 2.27 inches for the week, while the normal fall for the same period is 2.23 inches, the actual fall has thus been about two per cent. in excess of the normal. The stations in South-West Bengal report the average amount of 1.46 inches against the normal fall of 1.23 inches. In this district the rainfall has therefore been distinctly in excess of the normal, and the percentage of excess has been about 18. Chutia Nagpur reports an average fall of 1.10 inches, the normal fall for the period being 1.42 inches, and therefore shows a defect of about 12 per cent. The average fall in South Behar has been 0.58 inch, while the normal amount is 1.25 inches, the fall is therefore less than half the normal quantity, while in Orissa the actual fall for the week has only been 0.31 inch against the normal amount of 1.40 inches, and this district has therefore received a fall little more than a fifth of the normal. For the whole province therefore the fall is distinctly below the normal, the general defect from the normal over the whole province being 28 per cent. The number of rainy days, too, over the province has also been distinctly below the normal in all districts except North Bengal, and thus, while the normal number of rainy days over the whole province for the week is 2.6, the actual average number of rainy days has been two only.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 2nd of October 1885:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.								RAINFALL.							
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of September.		Since 15th May 1885.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of former years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.6 higher; and, finally, the thermometer, which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards, is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

62.11

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 85 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph. The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, t thunder, p passing temporary showers, l<sub>r</sub> lightning reflection, < lightning, R thunder-storm, D dew.

The total fall of rain from 27th September to 3rd October 1885	...	...	1.85

The mean temperature and humidity are obtained by applying to the mean of the 10n, 16h and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

METEOROLOGICAL OFFICE, INDIA;  
Calcutta, the 5th October 1885.

ALEXANDER PEDLER,  
For Meteorological Reporter to the Govt. of India.

## MEMORANDA.

The principal results to be gathered from the mortuary statistics of the districts in Bengal for the month of August 1885, as exhibited in the appended statement, are the following:—

1. That the deaths of 136,383 persons were registered among a population of 66,163,884, or at the rate of 21·72 per 1,000 per annum, against 18·72 per 1,000 in the preceding month, and 19·56 per 1,000 in the corresponding month of 1884, indicating, as compared with both the past periods, a considerable advance in the number of deaths recorded,

2. That the undermentioned districts returned the highest proportions of deaths:—

<i>Districts.</i>			<i>Districts.</i>		
		Ratio per mille.			Ratio per mille.
Monghyr	...	51·36	Hazaribagh	...	35·88
Patna	...	45·48	Mozufferpore	...	34·80
Bhagulpore	...	40·56	Sarun	...	33·84
Gya	...	39·96	Shahabad	...	29·04
Chumparun	...	38·52	Nuldea	...	27·00
Sonthal Pergunnahs	...	38·16	Puri	...	24·96
Birbhum	...	38·04			

3. That the mortality from the following specific heads of disease stands as follows:—

						Ratio per mille during—	
						August 1885.	August 1884.
Cholera	...	...	...	...	...	4·08	1·20
Small-pox	...	...	...	...	...	·06	·12
Fever	...	...	...	...	...	15·60	13·92
Bowel-complaints	...	...	...	...	...	1·08	·84
Injury	...	...	...	...	...	·72	·60
Other causes	...	...	...	...	...	2·88	2·52

The noticeable points indicated by the above figures are that, excepting small-pox, the mortality from all the death-causes, notably from cholera and fever, was greater in August 1885 than during the corresponding month of the preceding year.

4. That the highest death-rates from cholera, fever, and the maladies classed under the head of "Other causes" were returned from the following districts, the rest of the diseases not proving noticeably fatal anywhere:—

<i>Cholera.</i>		<i>Fever.</i>		<i>Other causes.</i>	
	Ratio per mille.		Ratio per mille.		Ratio per mille.
Sonthal Pergunnahs	16·20	Monghyr	33·72	Sarun	10·80
Mozufferpore	16·08	Gya	28·14	Puri	10·56
Birbhum	15·12	Patna	26·16		
Chumparun	14·88	Bhagulpore	24·96		
Monghyr	12·36	Nuldea	23·16		
Hazaribagh	10·56	Hazaribagh	20·88		
Bhagulpore	10·20	Julpaiguri	20·40		
Puri	8·52				
Sarun	8·16				
Cuttack	5·88				
Gya	5·64				
Shahabad	4·92				
Patna	4·20				
Durbhanga	3·96				
Murshedabad	3·24				

5. That with regard to mortality referable to *Sex*, *Class* and *Age*, the rates stand as follows:—

<i>According to Sex.</i>			<i>According to Class.</i>		<i>According to Age.</i>		
		Ratio per mille.		Ratio per mille.			Ratio per mille.
Males	...	27·00	Christians	14·40	Under 1 year	...	131·76
Females	...	22·32	Hindus	27·36	1 and under 5 years	...	29·88
Ratio of males deaths to every 100 female deaths	118		Mahomedans	19·68	5 " 10 "	...	15·00
			Budhists	16·44	10 " 15 "	...	13·56
			Other classes	21·84	15 " 20 "	...	17·16
					20 " 30 "	...	17·40
					30 " 40 "	...	19·20
					40 " 50 "	...	24·00
					50 " 60 "	...	33·48
					60 years and upwards	...	52·08

R. LIDDERDALE, M.D., Deputy Surgeon-General,

The 5th October 1885.

Sanitary Commissioner for Bengal.

**The 5<sup>th</sup> October 1885.**

## MEMORANDA.

THE annexed table exhibits the vital statistics of the principal Municipalities in Bengal for the week ending 19th September 1885. The figures exhibited in it indicate:—

1. That the birth and death-rates in the Municipalities in question amounted, respectively, to 26·4 and 37·4 per 1,000 of population, as opposed to the birth and death-rates of 25·3 and 41·9 per 1,000, respectively, during the preceding week ending 12th September, showing a small improvement in the registration of births with a large decline in that of deaths.

2. That the following Municipalities returned the highest proportions of births and deaths:—

<i>Births.</i>				<i>Deaths.</i>			
			Ratio per mille.				Ratio per mille.
Bhagulpore	...	...	53·4	Bhagulpore	...	...	101·4
Gya	...	...	42·3	Gya	...	...	56·1
Patna	...	...	34·7	Patna	...	...	51·2
Durblanga	...	...	34·6	Chittagong	...	...	49·3
Purneah	...	...	34·6	Burdwan	...	...	41·2
Serampore	...	...	31·4	Chupra	...	...	41·0
Chittagong	...	...	30·5	Suburbs of Calcutta	...	...	38·5
				Utterpara	...	...	37·8
				Mozufferpore	...	...	37·7
				Monghyr	...	...	37·1
				Serampore	...	...	33·4
				Arrah	...	...	31·2

3. That the mortality from the chief death-causes stood as follows:—

				Ratio per mille during the weeks ending—	
				19th September 1885.	12th September 1885.
Cholera	...	...	...	2·0	4·0
Small-pox	...	...	...	·2	·03
Fever	...	...	...	17·9	17·5
Bowel-complaints	...	...	...	6·8	7·8
Injury	...	...	...	·4	·8
Other causes	...	...	...	10·1	11·7

indicating that, in comparison with the preceding week, there was a sensible abatement in the death-rates from cholera, bowel-complaints and the maladies recorded under the head of "Other causes," and that the casualties from the rest of the diseases exhibited only fractional differences

4. That while the mortality from small-pox and injury was nowhere noticeably high, the Municipalities named below were reported to have returned the highest death-rates from the rest of the diseases:—

<i>Cholera.</i>		<i>Fever.</i>		<i>Bowel-complaints.</i>		<i>Other causes.</i>	
	Ratio per mille.		Ratio per mille.		Ratio per mille.		Ratio per mille.
Arrah	12·0	Bhagulpore	56·1	Bhagulpore	17·2	Bhagulpore	19·9
Chupra	6·8	Utterpara	37·8	Patna	12·3	Gya	17·7
Gya	5·5	Burdwan	32·0			Puri	14·7
Bhagulpore	5·4	Chittagong	25·8			Chupra	12·7
		Mozufferpore	25·5			Suburbs of Calcutta	12·6
		Monghyr	24·4			Patna	12·6
		Gya	23·9			Serampore	11·8
		Patna	23·3			Dacca	11·7

5. That the mortality according to *Sex*, *Class* and *Age* stands as follows:—

<i>According to Sex.</i>			<i>According to Class.</i>			<i>According to Age.</i>		
		Ratio per mille.			Ratio per mille.			Ratio per mille.
Males	...	38·0	Christians	...	34·8	Under 1 year	...	348·1
Females	...	36·6	Hindus	...	42·0	1 and under 5 years	...	69·2
Ratio of male deaths to every 100 female deaths	...	117	Mahomedans	...	31·2	5 " 10 "	...	22·6
						10 " 15 "	...	20·8
						15 " 20 "	...	16·7
						20 " 30 "	...	18·8
						30 " 40 "	...	20·3
						40 " 50 "	...	21·4
						50 " 60 "	...	43·7
						60 years and upwards	...	85·9

R. LIDDERDALE, M.D., Deputy Surgeon-General,

Sanitary Commissioner for Bengal.

## GENERAL REMARKS AND EXPLANATIONS.

THE total weight of traffic carried during the month is 13,316'74 tons against 13,674'42 tons for the corresponding period last year, the decrease being 357'68 tons due, as will be seen from the comparative statement given above, to a falling off under the heads of "Miscellaneous," Jute, Piece-goods, Railway materials, Sugar, and Seed.

### INCREASES.

Food-grain ... .. Tons 1,258'16  
This increase is mainly due to large quantities of new *aus* paddy having been sent from Rungpore and Dinagepore to the Rajshahye and Bogra districts.  
Ginger ... .. Tons 121'82  
Due to a good crop and demand for export.  
Gunny-bags ... .. Tons 56'06  
Transactions in this staple were limited in the Calcutta market, the increase is consequent on increased traffic in food-grain.  
Salt ... .. Tons 230'49  
The increase was expected in the face of a heavy falling off in May and June last.  
Tea ... .. Tons 113'80  
Prices and demand both continue to be good in Calcutta.  
Tobacco ... .. Tons 516'17  
The steady increase in the weight of this commodity passing over the line is due to a good demand in Calcutta for export.

### DECREASES.

Alse ... .. Tons 16'15  
The decrease under this head is due in a great measure to a falling off in the Commissariat consignments, and will probably be made up later on.  
Jute ... .. Tons 1,251'92  
The Calcutta market is in a very dull and unsatisfactory state, and there is little business doing.  
Miscellaneous ... .. Tons 360'51  
The decrease is expected in the face of a steady increase during past few months.  
Piece-goods ... .. Tons 357'43  
A heavy traffic was done in this staple last month to meet Poojah requirements, and the falling off is due to the local markets being already well stocked.  
Railway material ... .. Tons 508'95  
The decrease is due to less coal having been sent forward this month for the Locomotive Department than in the corresponding period last year.  
Sugar ... .. Tons 52'90  
The decrease is not unusual in the face of the steady increase in this staple from January to June last.  
Seed ... .. Tons 106'32  
Due to the Calcutta market being unfavourable to despatchers.

C. J. KEENE, Traffic Superintendent.

TRAFFIC SUPERINTENDENT'S OFFICE, Saidpur, the 17th September 1885.

## PART I.

Orders and Notifications by the Lieut.-Governor of Bengal,  
the High Court, Government Treasury, &c.

### ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 3273A.

**GENERAL.**—*The 2nd September 1885.*—Baboo Madan Gopal Singh, Temporary Sub-Deputy Collector, Sonthal Pergunnahs, is transferred temporarily to Maldah, with effect from the date on which he joined his appointment.

Moulvie Zakir Hossein, Deputy Magistrate and Deputy Collector, Monghyr, is transferred to the sudder station of the district of Maldah, with effect from the date on which he joined his appointment.

*The 1st October 1885.*—Baboo Chandi Charan Bose, Deputy Magistrate and Deputy Collector, Brahmunberiah, Tipperah, is allowed leave for two months and seven days, under section 72, chapter V of the Civil Leave Code, with effect from such date as he may be relieved.

This cancels the order of the 28th July last, transferring Baboo Chandi Charan Bose to Jehanabad in the district of Hooghly.

Baboo Peary Mohan Banerjee, Deputy Magistrate and Deputy Collector, Magoorah, Jessore, on leave, is transferred to Hooghly, and is appointed to have charge of the Jehanabad sub-division of that district.

Baboo Deno Nath Chuckerbutty, Temporary Sub-Deputy Collector, Alipore, Julpigooree, is allowed leave for four months, under section 128, chapter X of the Civil Leave Code, in extension of the leave granted to him under the order of the 28th April last.

*The 5th October 1885.*—Mr. J. P. Grant, District and Sessions Judge, Hooghly, is allowed leave for three months, under the note to rule 2, section 73, chapter V of the Civil Leave Code, with effect from the 12th September 1885.

Baboo Atal Behari Moitra, Temporary Deputy Magistrate and Deputy Collector, Pooree, is allowed leave for three months, under rule 2, section 138, chapter X of the Civil Leave Code, with effect from the 13th instant.

*The 6th October 1885.*—Mr. C. B. Garrett, Officiating District and Sessions Judge, Mozufferpore, is appointed to be District and Sessions Judge, 24-Pergunnahs.

Mr. H. Beveridge, District and Sessions Judge, Furreedpore, is appointed to be Additional District and Sessions Judge, 24-Pergunnahs and Hooghly.

Baboo Ananta Lal Chatterjee, Temporary Sub-Deputy Collector, Atia, Mymensingh, is transferred to Backergunge, and is posted to the sudder station of that district, with effect from the date on which he joined his appointment.

Lieutenant-Colonel W. L. Samuells, Officiating Deputy Commissioner, Lohardugga, is allowed leave for one month, under section 72, chapter V of the Civil Leave Code, with effect from such date as he availed himself of it.

*The 12th October 1885.*—Mr. F. W. R. Cowley, District and Sessions Judge, Patna, on furlough, is appointed to be a District and Sessions Judge of the first grade, *vice* Mr. J. F. Browne, deceased.

Mr. J. F. Bradbury, Officiating District and Sessions Judge, Backergunge, is appointed to be a District and Sessions Judge of the second grade, *vice* Mr. F. W. R. Cowley.

Mr. F. F. Handley is appointed to be a Joint-Magistrate and Deputy Collector of the first grade, *vice* Mr. J. F. Bradbury, but will continue to hold his present appointment as First Inspector of Registration Offices until further orders.

Mr. F. W. Badcock, Joint-Magistrate and Deputy Collector, Moorshedabad, is posted to the sudder station of the district of the 24-Pergunnahs on being relieved of his present appointment as Officiating District and Sessions Judge, Bhagulpore.

The services of the undermentioned Sub-Deputy Collectors are placed at the disposal of the Financial Department of this Government for employment on excise work in the districts mentioned against their names :—

Moulvie Golam Lillahi	...	...	Bhagulpore.
„ Anwar Ahmed...	...	...	Sarun.
Baboo Nibaran Chunder Ghattuck	...	...	Bettiah, Chumparun.
Mr. R. G. Blyth	...	...	Durbhunga.
Baboo Madhub Lal	...	...	Gya.

**POLICE.**—*The 1st October 1885.*—Mr. H. W. J. Bamber, District Superintendent of Police, Rajshahy, is allowed furlough for thirteen months, under section 50, chapter V of the Civil Leave Code, with effect from such date as he may be relieved.

*The 5th October 1885.*—Major A. R. Wilkinson, Officiating Deputy Inspector-General of Police, is allowed leave for twenty-one days, under section 72, chapter V of the Civil Leave Code, with effect from the 8th instant.

*The 12th October 1885.*—The following acting promotions are made in the grades of District Superintendents of Police :—

*To act in the First Grade.*

Mr. W. W. Daly, District Superintendent of Police, Assam, from the 28th July 1885.

Mr. W. D. Pratt, District Superintendent of Police, Moorshedabad, from the 2nd August 1885, *vice* Mr. H. M. Reily, on leave.

*To act in the Second Grade.*

H. H. RISLEY,  
Offg. Secy. to the Govt. of Bengal.

## NOTIFICATION.

*The 10th October 1885.*—Under the powers conferred upon him by section 75 (d) of Act VII of 1878, the Lieutenant-Governor is pleased to make the following rules to regulate grazing in the reserved forests of Darjeeling.

### Rules.

1. Grazing in the reserved forests of the Darjeeling Forest Sub-Division other than those north of the Little Rangit river is prohibited, except under the following rules and conditions.

2. Permits for grazing will be issued by the Forest Officers in charge of ranges, hereinafter referred to as range officers, for the calendar month, on payment of such fees as may from time to time be fixed by the Conservator of Forests, with the sanction of Government. The permits will fix the block or locality in which the privilege of grazing may be exercised: such blocks or localities shall be selected by the Divisional Forest Officer with regard to the protection of the forest, the convenience of the permit-holder, and the existing orders of Government on the subject, or orders which may in future be issued by Government.

3. He shall not be obliged to allow grazing in any given block to more than one head of cattle to every 10 acres of area, but on the other hand may locate any number of cattle in a block, provided the area available for grazing in that block be five acres per head.

4. Grazing will be reserved for milk cattle required for the supply of milk and butter to the public in Darjeeling, Jellapahar, and Jore Bungalow, and for a number of draught cattle not exceeding 150 head.

The Divisional Forest Officer will not be bound to provide grazing for any cattle other than the above, but may, with the sanction of the Conservator, allow temporarily a larger number if he considers it can be done with due regard to the interest of the forest.

5. The construction of grazing camps, enclosures, or bathans is prohibited, except on the sites pointed out by the Divisional Forest Officer. Sites for two bathans shall be allowed to each grazier whose permit allows him to graze more than five head of cattle. Should more be required, or a change of site applied for, the question to be decided in case of dispute by the Divisional Forest Officer and Deputy Commissioner.

6. In the cases in which the two bathans allotted to a permit-holder lie in two different blocks, he shall not leave one for the other without previous notice to the range officer, and without having the permission of this officer endorsed on the permit.

7. For the construction of, and repairs to, these bathans, permit-holders may utilize such dry fallen wood as may be found in the vicinity, and, with the permission of the range officer, canes and bamboos. Should sufficient dry wood not be available, the Divisional Forest Officer, or his subordinate under his orders, may mark and allow to be cut for this purpose trees of the less valuable kinds of smaller girth than 18 inches on pre-payment of annas 4 per tree. No charge will be made for canes, bamboos, or dry wood.

8. The Divisional Forest Officer may prohibit the construction of bathans for draught cattle.

9. The cutting and lopping of trees is prohibited. This rule does not apply to bamboos, creepers, and the trees known as *Dung-Dung* (*Brassiopsis hamla*) and *Dudhia* (*Ficus gemella*).

10. Payment for permits for grazing will be made in advance on the first day of the month, and in case of payment not being made by the 10th, double fees may be charged; if not made by the 20th, the cattle may be driven out of the forest, or the defaulters prosecuted under section 25 (d) of the Indian Forest Act, and the issue of a permit refused, subject to appeal to the Conservator. Should the Conservator consider it desirable, payments may be made quarterly, but subject to the above provisions as to payment.

11. Buffaloes, goats, and sheep will not be allowed grazing in the forests forming the circles to be worked for the supply of fuel and timber to Darjeeling, Jellapahar, and tea plantations.

12. All permits will be kept at the bathans, and will be produced for inspection whenever called for by any Forest or Police Officer. On the expiry of the term for which a permit is issued, it shall be returned to the office of issue, and a fresh permit may be refused, unless the applicant produces his expiring or expired permit.

13. The range officer shall, after issue of a notice to any holder of a grazing permit, copy of which shall be sent for record to the Divisional Officer, require that on a day fixed, not less than seven days from the date of the notice, he shall have all his cattle within his bathan to allow of their number being checked with his permit. Such inspections shall not be made oftener than four times in the year: they shall ordinarily be held between the hours of 7 and 10 A.M., so as not to cause unnecessary inconvenience to the permit-holder, who may, however, by giving at least two days' notice to the range officer, fix any other hour between 8 A.M. and 6 P.M. of the day appointed by the notice that may be more convenient to himself. Should the permit-holder refuse or neglect to comply with the terms of the notice referred to above, or otherwise hinder the thorough inspection of his cattle, the issue to him of a fresh permit may be refused until he has complied with the requirements of this rule.

The Conservator may exempt by name, class, or locality any person or persons from the requirements of the preceding clause.

Nothing in this rule shall be held to debar any Forest or Police Officer from visiting and inspecting a bathan or cattle shed or pen within the reserved forests, or the cattle grazing in the forest.

14. Any Forest Officer attached to the Darjeeling Forest Division, to whom the range officer is subordinate, may exercise any of the powers conferred on a range officer by these rules.

H. H. RISLEY,  
Offg. Secy. to the Govt. of Bengal.

## NOTIFICATION.

*The 12th October 1885.*—Whereas it appears that land is required for the use of the Darjeeling-Himalayan Railway Company at different places along the Darjeeling Hill Cart Road, the Lieutenant-Governor, Bengal, is hereby pleased to declare, under section 26 of the Indian Forest Act (VII of 1878), with the previous sanction of the Governor-General in Council, that the undermentioned pieces of land, which, in a notification of 23rd January 1879, under section 34 of the above Act, were declared to be reserved forests, shall from the 1st November next cease to be reserved forests.

District.	Pergunnah or other sub-division.	Name of forest.	BOUNDARIES.
Darjeeling ...	Hill territory	Sukna-Teesta, Sukna range, Sukna block.	<i>North, East, and South.</i> —A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 665 feet from the old 8th mile-post from Siligori (measured along the axis of the Cart Road), and meeting the Road Location boundary further north at a point about 1,782 feet from the same mile-post, and separating the area from the remainder of the Sukna reserved forest. <i>West.</i> —Hill Cart Road Location. These boundaries include an area of about 3 acres 2 roods 28'86 poles.
Ditto ...	Ditto	Sukna block ...	<i>North and East.</i> —Hill Cart Road Location. <i>South and West.</i> —A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 1,718 feet from the old 8th mile-post from Siligori (measured along the axis of the road), and meeting the Road Location boundary further up at a point about 3,393 feet from the same mile-post, and separating the area from the remainder of the reserved forest. These boundaries include an area of about 3 acres 3 roods 39'59 poles.
Ditto ...	Ditto	Sukna block ...	<i>South, West, and North.</i> —A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 3,932 feet from the old 8th mile-post from Siligori (measured along the axis of the Cart Road), and again meeting the Road Location boundary further up at a point about 4,570 feet from the same mile-post, and separating the area from the remainder of the reserved forest. <i>East.</i> —The Road Location. These boundaries include an area of about 2 roods 18'75 poles.
Ditto ...	Ditto	Sukna block ...	<i>North, East, and South.</i> —A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 4,464 feet from the 8th mile-post from Siligori (measured along the axis of the Cart Road), and again meeting the Road Location boundary further up at a point about 4,950 feet from the same mile-post, and separating the area from the remainder of the reserved forest. <i>West.</i> —The Cart Road Location. These boundaries include an area of about 1 acre 1 rood 7'01 poles.
Ditto ...	Ditto	Kuklong block.	<i>North and North-east.</i> —Cart Road Location boundary. <i>South-east, South, and West.</i> —A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 2,660 feet from the 9th mile-post from Siligori (measured along the axis of the Cart Road), and meeting the Road Location boundary further up at a point about 2,850 feet from the same mile-post, and separating this area from the remainder of the reserved forest. These boundaries include an area of about 17'49 poles.
Ditto ...	Ditto	Kuklong block.	<i>North.</i> —The Hill Cart Road Location. <i>East, South and West.</i> —A line, demarcated with pillars, starting from a point on the Road Location boundary at a distance of about 160 feet below the new 10th mile-post and semaphore (measured along the axis of the Cart Road), and meeting the Road Location boundary again at a point about 160 feet above the same mile-post, and separating this area from the remainder of the reserved forest. These boundaries include an area of about 1 rood 6'46 poles.
Ditto ...	Ditto	Kuklong block.	<i>East and North-east.</i> —The Hill Cart Road Location, then the land taken up from the Sepoydhura Tea Estate by the Railway Company.

District.	Pergunnah or other sub-division.	Name of forest.	BOUNDARIES.
Darjeeling ...	Hill territory	Kuklong block.	<i>West and South.</i> —A line, demarcated with pillars, starting from a point at the south-west boundary of that piece of land, and running along a little below the Road Location boundary, and meeting that boundary at a point about 1,100 feet further down the road. The whole lying between the old 10th and 11th mile-posts (from Siligori), and including an area of about 1 acre 6 48 poles.
Ditto ...	Ditto ...	Kuklong block.	<i>North and North-west.</i> —The Sepoydhura Tea Estate, the Hill Cart Road Location, and the Selim Tea Estate. <i>South and South-east.</i> —A line, demarcated with pillars, starting from a point on the boundary between the Kuklong Reserved Forest and the Sepoydhura Tea Estate (about 85 feet from the Road Location), and passing in a south-west, south, and west direction, meeting the point where the north-western boundary of the forest joins the boundary of the Selim Hill Tea Estate at a distance of about 160 feet from the Road Location. The whole lying on the 14th mile (from Siligori), and includes an area of about 2 acres 14 poles.

H. H. RISLEY,

*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 12th October 1885.*—Under the provisions of Rule III of the Rules of the 28th July 1879, made under section 25 (i) of the Indian Forest Act (VII of 1878), the Lieutenant-Governor is pleased to sanction the closing of the reserved forests of the Darjeeling Terai and Lower Hills (Kurseong and Teesta sub-divisions of the Darjeeling Forest Division), as well as those of the district of Julpigoree (Julpigoree and Buxa Forests Divisions) against hunting, shooting, and fishing from the 1st December 1885 to 1st June 1886.

H. H. RISLEY,

*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 12th October 1885.*—With the sanction of His Excellency the Governor-General in Council, and in substitution for Rule 22 of the Rules dated the 16th February 1871, the Lieutenant-Governor proposes to issue the following rules under the provisions of section 41 (i) of the Indian Forest Act, VII of 1878, for the registration of property-marks used by persons transporting timber through the Sundarbans Forests. The proposed rules are hereby published for general information.

I.—All persons transporting timber through any portion of the reserved or protected forests of the Sundarbans shall annually register their property-marks in the office of the Divisional Forest Officer. Such mark shall consist of a device to be approved by the Divisional Forest Officer, and a certificate of registration, showing the device registered, shall be given to each person who registers his property-mark. Copies of the certificates shall be forwarded to the officers in charge of the several revenue stations, as well as to the Conservator of Forests.

II.—The registration fee payable for each property-mark shall be Rs. 2 for a first registration and annas 8 for each subsequent annual renewal ; provided—

- (1) That the lower rate (annas 8) only will be payable under this rule by persons who hold certificates of registration under the Rules of the 16th February 1871, passed under Act VII of 1865, and who renew them within twelve months of the date of their last renewal ;
- (2) That should more than twelve months elapse in any case from the date of first registration under these rules, or from the date of any renewal, the full fee payable on first registration (Rs. 2) shall be levied for the subsequent registration of each property-mark ; and
- (3) That the Divisional Forest Officer may refuse to register more than one property-mark for any one person, should he consider it desirable to do so.

H. H. RISLEY,

*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 12th October 1885.*—The following additions to Rule II of the River Rules for the Chittagong Hill Tracts, framed under section 41 of the Indian Forest Act, which were published by a notification, dated the 17th October 1881, in the *Calcutta Gazette* of the 19th idem, having been approved by His Excellency the Governor-General in Council, are published for general information :—

- (a) All timber and forest produce shall be liable to stoppage by any officer, especially authorized in this behalf by the Conservator of Forests for examination below the revenue stations established under these rules ; and if the forest produce be found to be in excess of, or different in kind from, that specified in the pass granted by the Forest Officer in charge of the revenue station, the examining officer shall seize the same and report the case at once to the divisional forest officer.
- (b) The holder of a pass shall be bound to produce it at any point on the river below the authorized revenue stations, when called upon to do so by any Forest Officer specially authorized in this behalf by the Conservator of Forests, failing which the forest produce will be detained, pending the production of the pass.

*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 9th October 1885.*—It is hereby notified for general information that, in the exercise of the powers conferred on him by section 86 (a) of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Bhuddessur Municipality, in the district of Hooghly, made at a meeting, the Lieutenant-Governor intends to sanction the levy by the Commissioners, under section 181 of the Act, of a tax on carriages, horses, and other animals mentioned in the fifth schedule of the Act at half the rates specified in the said schedule, unless good reasons are shown to the contrary within one month from the date of publication of this notification within the municipality.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 9th October 1885.*—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Baboo Baney Madhub Bose to be a Commissioner of the Berhampore Municipality, vice Dr. S. M. Shircore, resigned.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 9th October 1885.*—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Assistant Surgeon Khirad Ohandra Roy to be a Commissioner of the Madaripore Municipality, in the district of Furreedpore, vice Baboo Gopal Chunder Mookerjee, transferred.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 9th October 1885.*—It is hereby notified for general information that an election will be held, under section 27, Act III (B.O.) of 1884, on the 1st December 1885, in Ward No. III of the Madaripore Municipality, in the district of Furreredpore, for the purpose of filling the vacancy caused by the transfer of Baboo Saroda Kanta Sen, one of the elected Commissioners, from the sub-division.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 10th October 1885.*—In supersession of the notification, dated the 4th September 1885, published at page 17, Part IB of the *Calcutta Gazette* of the 16th idem, it is hereby notified for general information that an election will be held, under section 27, Act III (B.O.) of 1884, on the 28th November next, in Ward No. IV of the Baduria Municipality, in the district of the 24-Pergunnahs, for filling up the vacancy caused by Baboo Trailako Nath Nag Chowdhury ceasing to be a Commissioner.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 12th October 1885.*—The following draft of rules, which the Lieutenant-Governor proposes to make under clause (a) of section 138 of the Bengal Local Self-Government Act, 1885, is published for general information under section 143 of the said Act, and notice is hereby given that they will be taken into consideration on or after the 1st December 1885, when any objections or suggestions which may be made by any person and received before that date will also be considered.

## PART I.

## ELECTION OF MEMBERS OF UNION COMMITTEES.

*Preliminary.*

Throughout this and the following Parts the term "Magistrate of the district" shall have the meaning prescribed by section 5 of the Act.

2. Whenever a Union, constituted under section 38 of the Act, comprises two or more villages, the Magistrate of the district shall decide in what manner such Union shall be divided into electoral wards, and the proportional number of members to be returned for each of such wards. Such arrangement shall remain in force in subsequent elections until altered by similar authority.

*Of the qualification of Voters.*

3. Every male person of the full age of twenty-one years, resident within the area comprised in a Union, who has, during the year immediately preceding the election of the members of the Committee of such Union, paid any road cess, license tax or chowkidari tax, or who is a member of a joint undivided family, which has during such period paid any such cess or taxes, shall be entitled to vote at such election.

*Of the qualification of Candidates.*

4. Any person qualified under the preceding rule, and who in addition can read and write, shall be qualified as a candidate for any ward in the Union.

*Of the manner of holding elections.*

5. The Magistrate of the district shall decide at what place or places within the Union and on what date or dates the election of the members of the Union Committee shall be held.

6. The dates fixed for such elections shall be duly notified in all the villages of the Union, in such manner as may appear suitable to the Magistrate of the district, and at least fourteen days beforehand: any costs incurred in issuing notices under this rule shall be defrayed from the District Fund.

7. Each voter shall vote for the ward in which he ordinarily resides, and for no other. He may vote for as many candidates as there are members to be returned for such ward, but shall not give more than one vote for any single candidate.

8. All persons wishing to vote must be present at the elections. No votes by proxy or in writing shall be received.

9. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district may depute for the purpose, shall preside at the election for each Union or portion of a Union.

10. The elections for the different wards in the Union shall be held in succession; the proceedings in every case being commenced by the presiding officer explaining to the assembled voters the nature and objects of the election and the number of members to be returned.

11. The assembled voters of the ward shall be allowed to consult together and elect the necessary number of members in their own manner. They shall report to the presiding officer the names of the persons they have elected, and if such persons are duly qualified, and no objection is raised to the manner in which the election has been conducted, the presiding officer shall declare that they have been duly elected.

12. If the result of the election held under the preceding rule is called in question, the presiding officer shall proceed to take a poll, recording the number of votes given for each candidate with his own hand. He shall then and there declare such duly qualified candidates as have a majority of votes to be duly elected.

13. If an equal number of votes is recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot, in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

14. If at any election held under these rules the number of voters of any ward shall be less than ten per cent of the total number of house-holders in such ward, the Commissioner may order that the election shall be held again, or may decide that the electors have failed under section 40 of the Act to elect members.

15. Objections regarding the qualifications of candidates and voters shall be summarily decided by the presiding officer, and such decision shall be final.

16. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected.

17. Except as provided by rule 15, no election held under these rules shall be invalidated on any ground whatever.

18. The list of duly returned candidates shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

## PART II.

### ELECTION OF MEMBERS OF LOCAL BOARDS.

#### *Preliminary.*

19. When the number of members of a Local Board has been fixed by a notification issued under section 8, the Commissioner shall decide the number of members who shall be elected for each thana within the area of such Local Board, and shall issue orders accordingly. Such orders shall be published in the *Calcutta Gazette*, at the district and sub-divisional offices, and at the head-quarters of each of the thanas in question; and in such other manner as the Commissioner may prescribe.

20. The first election of any Local Board under these rules shall take place at such time, not being more than three months after the Act comes in force in the districts mentioned in the Third Schedule of the Act, and after the date of a notification establishing Local Boards in any other district, as the Lieutenant-Governor shall direct.

#### *Of the Qualification of Electors.*

21. Every male person of the full age of twenty-one years, resident within the area under the authority of a Local Board, who is qualified in one of the manners following, that is to say—

- (1) Is a member of a Union Committee within such area;
- (2) Has, during the year immediately preceding such election,—
  - (a) paid a sum of not less than one rupee on account of road cess in respect of land situated either wholly or in part within such area;
  - (b) paid license tax in respect of a trade, dealing, or industry carried on within such area; or
  - (c) been possessed of a clear annual income from any source of not less than two hundred and forty rupees.
- (3) Being a member of a joint undivided family, one of the members of which is qualified for election as in this rule hereinbefore provided, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtar,

shall be entitled to vote at an election of members of such Local Board.

#### *Of the Registration of Electors.*

22. In all districts mentioned in the Third Schedule of this Act, or in which a Local Board may hereafter be established, the Magistrate of the district shall cause to be prepared for each thana within the area of a Local Board a register of persons qualified to vote. Such register shall be prepared from assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. Such register shall from time to time be corrected and added to as the Magistrate of the district may direct.

23. At least one month before the date fixed for the election for any thana, a copy of the register showing the persons qualified to vote for such thana shall be published at suitable places within that thana. Copies of all the thana registers shall also be pub-

lished at the sub-divisional office. Provided that all such registers made and published before these rules come into operation shall be held to have been duly made under Rule 4 and duly published under Rule 5.

24. Any person claiming the right to vote may submit to the Magistrate of the district an application in writing for the entry of his name in the register of electors, stating distinctly in what manner he is qualified; and all such applications, if made at least one month before the date fixed for the election, shall be duly enquired into. A notice of the claims thus made shall be published at the thana at least three weeks before the date fixed for the election; and all objections made to them and received at least one week before the date fixed for the elections shall be duly considered.

25. All claims to vote, and the objections thereto, shall be considered by the Magistrate of the district, and his decision shall be final.

26. The thana list as amended, after the hearing and decision of claims and objections, shall be considered to be the final lists of persons entitled to vote at the election, and no person whose name does not appear in the thana list shall be permitted to vote.

*Of the qualification and the nomination of Candidates.*

27. Every male person of the full age of twenty-one years, who is qualified in one of the manners following, that is to say—

- (1) Is a member of a Union Committee within the area under the authority of the Local Board;
- (2) Has during the year immediately preceding the election had his fixed place of abode within the area under the authority of such Local Board, and
  - (a) paid a sum of not less than five rupees on account of road cess in respect of land situated either wholly or in part within the area under the authority of the Local Board;
  - (b) paid a license tax of not less than twenty rupees in respect of a trade, dealing, or industry carried on within the area under the authority of the Local Board; or
  - (c) been possessed of a clear annual income from any source of not less than one thousand rupees.
- (3) Being a member of a joint undivided family, one of the members of which is qualified for election under clause (1), or clause (2) (a) or (b) of this rule, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be qualified for election as a member of the Local Board for any thana under the authority of such Local Board.

28. Any elector may, for the thana in which he is qualified to vote, nominate any qualified person as a candidate.

29. The Magistrate of the district shall, at least six weeks before the date fixed for the thana election, issue notices calling for nominations of candidates. Such notices shall be published at every village within the thana. All nominations shall be submitted within three weeks from the date of the publication of the notices in question. No names of candidates shall be received after the expiration of such period. Provided that all such notices or nominations which may have been issued or made before these rules come into operation shall be held to have been issued or made under these rules.

30. The Magistrate of the district shall ascertain whether all of the nominated candidates are duly qualified to take office: his decision on this point shall be final. He shall also, if possible, ascertain whether they are all willing to take office.

31. A list of the candidates who are duly qualified, and who appear to be willing to take office, shall be published at suitable places in the thana at least one week before the date fixed for the election. No candidate whose name does not appear in such list shall be considered eligible.

*Of the manner of holding Elections.*

32. The election for each thana shall be held on such date as may be fixed by the Lieutenant-Governor and notified in the *Calcutta Gazette*.

33. The election for each thana shall be held at the head-quarters of the thana.

34. The date fixed for the thana election shall be duly notified at the thana, and at such other places as may appear suitable, at least one month beforehand.

Provided that any notice to this effect issued previous to these rules coming into force shall be held to be valid under these rules. A vernacular notice in the following form shall also, at least one week before the date fixed for the election, be despatched by post, or by such other mode as may be found convenient, to every elector whose name appears in the register:—

“You are hereby informed that you are registered as a voter for the thana, and that you will be entitled to vote at the election of \_\_\_\_\_ members of the Local Board to be held at \_\_\_\_\_ on the \_\_\_\_\_ 18 \_\_\_\_.”

35. An elector duly qualified under Rule 4 shall be entitled to vote for the thana in which he ordinarily resides, and for no other. He shall be entitled to vote for as many candidates as there are vacancies for such thana, but shall not give more than one vote for a single candidate.

36. All persons wishing to vote must be present at the election. No votes by proxy or in writing shall be received.

37. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district shall depute for the purpose, shall preside at the election for each thana.

38. The proceedings shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates, and state the number of vacancies.

39. Each candidate shall then be proposed by one qualified voter, and seconded by another. Subject to the control of the presiding officer on points of order, each candidate and his proposer and seconder shall be permitted to address the assembled voters on the subject of his candidature. The names of candidates not duly proposed and seconded shall be removed from the list.

40. In the case of the number of the candidates duly proposed and seconded not being greater than the number of vacancies, the presiding officer, if he is satisfied that not less than ten per cent. of the registered voters for the thana are present, shall at once declare such candidates to be duly elected.

41. If the number of candidates duly proposed and seconded exceeds the number of vacancies, the presiding officer shall proceed to take a poll for each candidate, recording the votes with his own hand.

42. All objections to voters shall, if possible, be summarily decided by the presiding officer after reference to the register. No objections shall be entertained, other than objections arising out of matters subsequent to registration under Rule 8.

43. The presiding officer shall then and there declare such candidates as have a clear majority of votes to be duly elected. Provided that no candidate shall be declared to be duly elected unless at least ten per cent. of the registered voters of the thana have appeared and recorded their votes.

44. If ten per cent. of the registered voters for the thana are not present (Rule 40), or have not appeared and recorded their votes (Rule 43), the presiding officer shall report that the electors have failed under section 10 of the Act to elect the number of members for the Local Board fixed for such thana.

45. In the case of an equal number of votes being recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

46. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

47. In the event of any person being elected for two or more thanas, such person shall be at liberty to choose which thana he will represent, and in every other thana for which the said person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him.

48. After all the thana elections have been held, the list of candidates duly elected for the Local Board shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

#### *Miscellaneous.*

49. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

50. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

51. No person in the employment or pay of the District or Local Board shall directly or indirectly engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

52. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules, shall be payable from the District Fund.

### PART III.

#### ELECTION OF MEMBERS OF DISTRICT BOARDS AND TERM OF OFFICE OF MEMBERS OF BOARDS.

##### *Election of Members of District Boards.*

53. A Local Board shall not elect members for the District Board until (a) the number of members of the District Board to be elected by such Local Board shall have been fixed by notification under section seven of the Act, and (b) the names of the elected and appointed members of the Local Board shall have been published in the *Calcutta Gazette*.

54. Within one month of the publication of the notification referred to in clause (a) of the preceding rule, or if later, the notification referred to in clause (b) of the same, the Local Board shall at a meeting elect the requisite number of members for the District

Board. The names of the candidates shall be submitted at the meeting, and the election shall be made by the majority of votes of the members of a Local Board at such meeting.

55. In the case of the election or appointment of a Chairman, or the election of a Vice-Chairman, of the Local Board, not having taken effect, the meeting referred to in the preceding rule shall be called by the Magistrate of the district.

56. The names of the persons elected to serve on the District Board shall be forwarded without delay to the Magistrate of the district, who shall ascertain if they are duly qualified and are willing to serve.

57. If any elected candidates decline to take office, the unsuccessful candidates, if any, who received the largest number of votes shall be declared to be duly elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

58. In the event of any person being elected for two or more Local Boards, such person shall have liberty to choose which Local Board he will represent, and as regards every other Local Board for which such person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election will be held.

59. The only persons qualified for election as members of the District Board shall be members of the Local Boards in the district.

60. The names of the elected members of the District Board shall, together with the names or official designation of the appointed members, if any, be published in the *Calcutta Gazette*.

#### *Term of Office.*

61. Every member of a Local or District Board, who has been elected or appointed by name, shall vacate his office at the end of three years from the date of his election or appointment as such member.

62. The term of three years mentioned in the preceding rule shall be held to include any period which may elapse between the expiration of the said three years and the date of the next subsequent appointment or election, not being an appointment or election under the next succeeding rule.

63. If any member of a Local or District Board shall be unable to complete his full term of office, the vacancy caused by his resignation, or removal, or death shall be filled by the appointment or election, as the case may be, of another person; and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

64. *A. Local Boards.*—As soon as possible after the expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy among elected members under rule 63, a date for a fresh election shall be fixed by the Lieutenant-Governor, and notified in the *Calcutta Gazette*, and rules 21 to 52 shall apply, as far as may be, to such subsequent elections.

*B. District Boards.*—As soon as possible after expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy amongst elected members under rule 63, the Magistrate of the district shall send a notice to the Local Board which has the right to elect a member to fill the vacancy, and such Board shall, within one month of the receipt of such notice, elect a member in accordance with rules 54 to 59.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

#### DECLARATION.

*The 6th October 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for widening ditch No. 12, in Ward No. 6, it is hereby declared that for the above purpose pieces of land No. 16, Peary Das' Lane and Nos. 5 and 6, Manicktolla Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah 10 chittacks and 22½ square feet only are required.

The boundaries of the plots are as follows:—

*Portion marked A on plan.*—On the north and east by public filled-up drain; on the south by Nos. 15 and 16, Peary Das' Lane; and on the west partly by Peary Das' Lane and partly by No. 16, Peary Das' Lane.

*Portion marked B on plan.*—On the north partly by No. 4, Manicktolla Street and partly by Nos. 5 and 6, Manicktolla Street; on the south by Nundo Lal Mullick's Lane; on the east partly by No. 4, Manicktolla Street, partly by Nos. 5 and 6, Manicktolla Street, and partly by Nundo Lal Mullick's Lane; and on the west by public filled-up drain.

A plan and specification of the plots of land to be acquired are filed in the office of the Municipal Commissioners for the town of Calcutta.

his declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 6th October 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a flushing well near ditch No. 11 in Ward No. 6, it is hereby declared that for the above purpose a piece of land No. 139, Mooktaram Baboo's Street, in the town of Calcutta district 24-Pergunnahs, measuring, more or less, 3 chittacks and 25 square feet only are required.

The boundaries of the land are as follows:—On the north by the public filled-up drain, and on the south, east and west by No. 139, Mooktaram Baboo's Street.

A plan and specification of the land to be acquired are filed in the office of the Municipal Commissioners for the town of Calcutta.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 9th October 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for constructing a bathing platform in Machooa Bazar Bustee, it is hereby declared that for the above purpose a piece of land No. 113, Machooa Bazar Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah only, is required. The boundaries of the land are as follow:—On the north, south, and west by premises No. 113, Machooa Bazar Street, and on the east by a bustee passage.

A plan and specification of the land to be acquired are filed in the office of the Commissioners of the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 9th October 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a bathing platform at No. 29, Giree Baboo's Lane, it is hereby declared that for the above purpose a piece of land No. 29, Giree Baboo's Lane, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah 12 chittacks only is required. The boundaries of the land are as follow:—On the north and west by premises No. 28, Giree Baboo's Lane, and on the south and east by Giree Baboo's Lane.

A plan and specification of the land to be acquired are filed in the office of the Commissioners of the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 9th October 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for constructing a bathing platform at No. 71, Champatola 2nd Lane, it is hereby declared that for the above purpose a piece of land No. 71, Champatola 2nd Lane, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah only is required. The boundaries of the land are as follow:—On the north and west by premises No. 71, Champatola 2nd Lane; on the south by premises No. 70, Champatola 2nd Lane; and on the east by Champatola 2nd Lane.

A plan and specification of the land to be acquired are filed in the office of the Commissioners of the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 9th October 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a bathing platform in Ooriyapara Bustee, it is hereby declared that for the above purpose a piece of land No. 61, Champatola Lane, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah only is required. The

boundaries of the land are as follow:—On the north and west by premises No. 61, Champatola Lane; on the south by Champatola Lane, and on the east by a passage.

A plan and specification of the land to be acquired are filed in the office of the Commissioners of the town of Calcutta for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

#### DECLARATION.

*The 12th October 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for a bathing platform at No. 114, Grey Street, it is hereby declared that for the above purpose a piece of land No. 114, Grey Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 cottah only is required. # The Calcutta Gazette.

WEDNESDAY, OCTOBER 14, 1885.

## PART II.

### Advertisements.

N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

### LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the sub-division of Dinapore, in the district of Patna, will be put up to sale at the office of the Deputy Collector of Dinapore at 12 o'clock noon, on the 26th October 1885, corresponding with 3rd Kartic 1293 Fasal.

The purchasers will be subject to the following conditions of sale—

#### Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertisement as in the case of original sale.

## Notice.

Oudh Forest Department.  
BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

**F**ROM this date the prices of sāl beams and scantlings supplied from this depot will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.	22	"	"	2-12	"
	23	"	"	2-14	"
	24	"	"	3	"

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c. ft.  
Under 12 and over 7, at " 2-4 "  
Under 7 feet at " 2 "

The above prices are for ordinary building purposes. For Planking, Sleepers, &amp;c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge. By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,

Sub-Assistant Conservator of Forests,  
Bahramghat Division.

Bahramghat, the 1st April 1883.

## Government Cinchona Febrifuge.

**T**HIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the following rates:—per four ounce tin, Rs. 4 ans. 8; per eight ounce tin, Rs. 8 ans. 8; per pound tin, Rs. 16 ans. 8. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, at the undernoted rates:—per four ounce tin, Rs. 5 ans. 8; per eight ounce tin, Rs. 10 ans. 8; per pound tin, Rs. 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

## Crystalline Cinchona Febrifuge.

**A** NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

## Notice.

**T**HE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Augrshyan 1292 B.S., and continue up to the 3rd January 1886. Tradesmen dealers, and others may buy and sell there during these six weeks.

F. WYRE, Collector.

## Notice.

## GYA MICA MINES.

**I**T is proposed to give leases to prospect for and extract mica in the Government estates of Dubour and Chatkari in the district of Gya. Offers from persons likely to work the mines in a scientific manner will be received by the Collector of Gya.

D. NORTON, Offg. Collector.

The 1st October 1885.

## Notification.

**I**T is hereby notified that under section 5 of the Indian Treasure Trove Act (IV, 1878) that on the 30th August 1885 article, as detailed below, worth Rs. 24, was discovered under ground while the earth was being dug for sowing crops in village Duba, pergunnah Chowbar, police station Darowli, Sewan sub-division.

All persons claiming the said treasure or any part thereof are hereby required to appear personally or by agent before the Collector of Sarun at his office within (5) five months of this date in order to the matter being enquired into and determined in accordance with the provisions of the Act—

## Detail.

Old silver coins ... .. 24

A. FORBES, Offg. Collector.  
Sarun Collectorate, the October 1885.

## Notice.

" " " £ 5	...	"	"	£ 7	...	...	9d.
" " " £ 7	...	"	"	£ 10	...	...	1s.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 28th September 1885.

## Despatch of samples of wool to Portugal prohibited.

INTIMATION has been received from the Post Office of Portugal that the admission into that country *via* Spain of samples of woollen fabrics or of raw wool of any kind has been temporarily prohibited on account of sanitary measures adopted by the Portuguese Government against the spread of cholera.

2. Until further notice therefore no samples of wool in any form can be forwarded by post from India to Portugal.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 14th September 1885.

## Exchange of Parcels with Gibraltar.

FROM the 1st of October 1885, parcels will be received at any Indian Post Office for transmission to Gibraltar.

2. The limit of weight for such parcels will be 7 pounds.

3. The rate of postage, and the conditions as to size, contents, value, customs declarations, and manner of posting generally will be the same as those prescribed for parcels addressed to the United Kingdom and intended for delivery through the British Post Office.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 1st October 1885.

## Parcel Post with the West Indies.

ON and after the 1st October 1885, parcels will be received at any Post Office in India for transmission to the following places in the West Indies—

Jamaica. | St. Lucia.  
Grenada. | Tobago.  
Trinidad.

2. The rate of postage for parcels addressed to these places will be one rupee for every pound or fraction of a pound weight.

3. The limit of weight for such parcels will be 7lb, and the conditions as to size, contents, limits of value, &c., will be the same as those for parcels addressed to the United Kingdom for delivery through the British Post Office, except that parcels intended for Jamaica may not exceed 2 feet in length and 4 feet in girth.

4. Each parcel must be accompanied by a customs declaration in the prescribed form, as in the case of parcels intended for the United Kingdom.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 28th September 1885.

## Extension of Value-Payable system to Unregistered Book-packets.

FROM and after the 1st October 1885, the value-payable system will be extended to unregistered book-packets, prepaid and unpaid.

2. Value-payable unregistered book-packets must be presented at the window with a memorandum in the prescribed form containing the name and address of sender and the amount to be collected.

3. Booksellers and others, who require a certificate that the book-packet has been duly posted, can also obtain a certificate of posting, if presented ready written in a book or on a separate slip. The certificate should be simply a copy of the address on the book-packet, and should bear a half-anna stamp, which will be defaced and the certificate returned to the messenger.

4. The postage for an unregistered book-packet sent value-payable will be the same as for an ordinary book-packet. The value-payable commission will be deducted from the amount recovered from the addressee.

5. Value-payable unregistered book-packets will be delivered at the door of the addressee, and the money will be collected by the postman. Delivery of value-payable parcels and value-payable registered articles must, however, be made at the Post Office, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 19th September 1885.

## Parcels to be presented with receipts ready filled up.

UNDER the provisions of the Notification of the Government of India in the Department of Finance and Commerce, No. 3120, dated the 18th September 1885, the public are informed that from the 1st October 1885 all parcels, when presented at the window for despatch, should be accompanied by a simple receipt, ready filled up in the prescribed form. This will be given gratis by the Post Office, which will only grant receipts for parcels in future, when the above conditions are complied with.

2. As at present, value-payable and insured articles need only be accompanied by the prescribed V.P. memoranda or insured declarations.

3. Firms that post many ordinary parcels or value-payable articles will be given books of receipts or V.P. memoranda on application.

4. Ordinary parcels presented without the prescribed receipts ready filled up will be forwarded, but no receipt will be given for them.

5. An acknowledgment from the addressee that the parcel has been duly received can be obtained on payment of one anna extra, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 19th September 1885.

JOHN ELIOT, M.A., Meteorological Reporter to the Govt. of Bengal.

CALCUTTA, the 26th August 1875.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

### The Indian Law Reports,

*Published under Authority.*

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

Without postage. With postage.

For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
" each of the Madras, Bombay, and Allahabad Series ...	" 6 0	" 7 0
" a part of the Calcutta Series purchased separately (inclusive of postage in India) .....	"	2 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India) ... ..	"	1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

" Thacker & Co., Bombay.

" Higginbotham & Co., Madras.

The Government Central Book Depot, Bombay.

" Curator of Government Books, North-Western Provinces and Oudh.

" Superintendent of Government Printing Bengal.

Orders and subscriptions for 1885 should be at once remitted.

### Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e. from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,

Meteorological Reporter to the Govt. of Bengal. Meteorological Office, Bengal, the 3rd July 1883.

A Manual of Reference to the Examinations in Oriental languages, with the latest orders of Government, and specimen papers of the various standards. By Lieutenant-Colonel H. S. JARRETT. New Edition Rs. 4. Apply to the Librarian, 17, Elysium Row.

## PART V.

### Acts of the Governor General's Council assented to by the Governor General

#### GOVERNMENT OF INDIA.

#### LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 2nd October, 1885, and is hereby promulgated for general information :—

#### ACT No. XV OF 1885.

*An Act to amend the Local Authorities Loan Act, 1879.*

XI of 1879.

WHEREAS it is expedient to amend the Local Authorities Loan Act, 1879; It is hereby enacted as follows :—

Addition to section 8, Act XI of 1879.

1. After clause (b) of the proviso to section 8 of the said Act the following shall be added :—

“or

“(c) to affect the power conferred on any local authority by any such enactment to charge its funds by guaranteeing the payment of interest on money to be applied to any purpose to which the funds of the local authority can legally be applied.”

D. FITZPATRICK,

*Secy. to the Govt. of India.*

#### LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend the Local Authorities Loan Act, 1879, was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 23rd September, 1885 :—

WE, the undersigned, Members of the Select Committee to which the Bill to amend the Local Authorities Loan Act, 1879, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

- From Secretary to Chief Commissioner, British Burma, No. 303—241., dated 13th June, 1885 [Paper No. 1].
- From Secretary to Chief Commissioner, Assam, No. 972, dated 18th June, 1885 [Paper No. 2].
- From Chief Commissioner, Ajmer-Merwara, No. 722, dated 3rd July, 1885 [Paper No. 3].
- From Secretary to Government, North-Western Provinces and Oudh, No. 3051—X-518, dated 10th July, 1885 [Paper No. 4].
- From Officiating Secretary to Government, Punjab, No. 7318., dated 17th July, 1885, and enclosures [Papers No. 5].
- From Secretary for Berar to Resident, Hyderabad, No. 271G., dated 13th July, 1885 [Paper No. 6].
- From Secretary to Chief Commissioner, Coorg, No. 688—89, dated 14th July, 1885 [Paper No. 7].
- From Chief Secretary to Government, Madras, No. 1800, dated 10th July, 1885, and enclosures [Papers No. 8].
- From Under Secretary to Government, Bombay, No. 2054, dated 18th July, 1885, and enclosures [Papers No. 9].
- From Officiating Secretary to Government, Bengal, No. 1370, dated 20th July, 1885, and enclosures [Papers No. 10].
- From Assistant Secretary to Chief Commissioner, Central Provinces, No. 3052—147, dated 11th August, 1885 [Paper No. 11].

2. It has been suggested that the term “raised” should be altered so as to include money devoted to any particular purpose by a person who may not have occasion to raise it, and we have accordingly substituted the words “applied to” for “raised for”.

3. The only other alteration we have made in the Bill is a purely verbal one.

4. The publication ordered by the Council has been made as follows :—

<i>Gazette.</i>	<i>In English.</i>	<i>Date.</i>
<i>Gazette of India</i> ...	...	16th, 23rd and 30th May, 1885.
<i>Port St. George Gazette</i> ...	...	2nd June, 1885.
<i>Bombay Government Gazette</i> ...	...	28th May, and 4th and 11th June, 1885.
<i>Calcutta Gazette</i> ...	...	27th May, and 3rd and 10th June, 1885.
<i>North-Western Provinces and Oudh Government Gazette</i> ...	...	23rd and 30th May, and 6th June, 1885.
<i>Punjab Government Gazette</i> ...	...	21st and 28th May, and 4th June, 1885.
<i>Central Provinces Gazette</i> ...	...	23rd and 30th May, and 6th June, 1885.
<i>British Burma Gazette</i> ...	...	6th, 13th and 20th June, 1885.
<i>Assam Gazette</i> ...	...	6th and 13th June, 1885.
<i>Coorg District Gazette</i> ...	...	1st July, 1885.

<i>Province.</i>	<i>In the Vernaculars.</i>	<i>Date.</i>
<i>Bombay</i> ...	<i>Language.</i>	
	Maráthí	} 25th June, 1885.
	Gujaráthí	
	Kanarese	
	Sindhí	
<i>Bengal</i> ...	Bengálí	} 30th June, 1885.
	Hindí	
<i>North-Western Provinces and Oudh</i>	Uriya	9th July, 1885.
<i>Punjab</i> ...	Urdu	4th, 11th and 18th July, 1885.
<i>Central Provinces</i> ...	Urdu	15th, 22nd and 29th June, 1885.
<i>Coorg</i> ...	Maráthí	11th, 18th and 25th July, 1885.
	Kanarese	1st July, 1885.

We do not think that the measure has been so altered as to require re-publication, and we recommend that it be passed as now amended.

	Dinapur ...	0.37	
	27 Gya, " 10	Nil	Weather—very hot. Rice prospects good, but a shower of rain anxiously awaited everywhere. Health good. Prices stationary.
	28 Shahabad, " 10	0.70	
	Buxar ...	Nil	Weather—days hot, mornings and evenings setting cool. Harvesting of <i>bhadoi</i> over. Preparations for <i>rubbee</i> sowings in full swing. Prospects of winter rice fair, but a fall of rain would be beneficial. Fever reported from all subdivisions, cholera from Bhadrach and Sasaram, and cattle-disease from the latter only.
	Sasaram ...	Nil	
	Bhadrach ...	Nil	
	29 Durbhanga, " 10	Nil	Weather—seasonable. Prospects of paddy continue favourable. Transplanting of tobacco plants progressing. Fields for <i>rubbee</i> sowings are being prepared in places. Prices have slightly fallen. Cases of cholera still reported from the interior.
	30 Mozufferpore, " 10	Nil	
	Hajipur ...	0.61	Weather—fair, occasionally cloudy. <i>Bhadoi</i> crops harvested; paddy crop doing well. Deaths from cholera still reported from Sitamarhi; in other parts of the district public health good.
	Sitamarhi ...	0.24	
<b>BRABUTTA DIV.</b>	31 Sarun, " 10	1.39	Weather—fine and clear with hot sun. Prospects of paddy, especially in the <i>churs</i> , excellent. <i>Chowmas</i> lands are being prepared for <i>rubbee</i> sowings. Sporadic cases of cholera and fever still reported, but on the whole general health good.
	Sewan ...	Nil	
	Gopalgunge ...	Nil	Weather—seasonable. <i>Bhadoi</i> crops being harvested. <i>Aghani</i> crops promise well. Prices have fallen slightly. Fever and cholera still reported from the interior.
	32 Chumpanun, " 10	.....	
<b>BRABUTTA DIV.</b>	33 Monghyr, Oct. 10 '85	Nil	Weather—fine with passing clouds; no rain. Prospects of <i>aghani</i> continue good, but more rain now looked for. <i>Rubbee</i> lands being prepared. Prices steady. Public health good.
	Begusarai ...	0.65	
	Janui ...	Nil	
	34 Bhagnipore, " 10	Nil	Weather—seasonable. Yield of <i>janera</i> 10 annas in Banka. Prospects of winter crops very good. Some rain required for rice on high lands, and for <i>rubbee</i> sowings. People getting work everywhere. Cholera still prevalent.
	Banka ...	0.20	
	Muddehpoorah ...	Nil	
	Soopole ...	0.23	Weather—fine. State and prospects of crops good. <i>Kurthee</i> and <i>kalai</i> coming up well. Fever as usual, and a little cholera.
	35 Purseah, " 10	Nil	
	Kiasengunge ...	Nil	
	Arrareah ...	0.37	Weather—seasonable; mornings and evenings cool. <i>Kalai</i> has been fully sown. State and prospects of winter rice very good. A few cases of cholera reported from Khurba. Common rice selling at 14 seers, and new rice at 17 seers per rupee at Englishbazar.
	36 Maldah, " 10	Nil	
	37 Sonthal Pergah, " 10	0.65	
	Deoghur ...	0.09	Fine clear weather till yesterday, the 9th, when there was a good fall of rain. Prospects of crops splendid everywhere. A bumper rice harvest expected. Rain of 9th will be of immense value to the <i>rubbee</i> sowings. General health good.
	Godda ...	0.32	
	Lakour ...	0.18	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>ORISSA.</b>			
ORISSA DIV.	38 Cuttack Oct. 9 '85	0.52	Weather—clear and hot. <i>Beali</i> rice has yielded a fair outturn everywhere except in tracts damaged by sea-wave. <i>Sarad</i> growing well, but requires rain. Common rice selling at 11½ seers per rupee in town. Public health generally good. Arrangements being made for relief of distressed people on the coast.
	39 Pooree, Khoorda „ 8 „	0.2 0.11	Weather—hot with occasional clouds. Second weeding of late <i>sarad</i> paddy going on. Early <i>sarad</i> ripening. Miscellaneous crops doing well. Relief works have begun in the tracts bordering the Chilka owing to the failure of the crops in those tracts from drought. Rain urgently required in some parts of the district. Common rice selling at an average of Calcutta seers 17 seers 15 chittacks per rupee in the Sudder sub-division, and 17 seers 11 chittacks in the Khoorda sub-division. Public health fair.
	40 Balasore, „ 9 „	Nil	Weather—clear and warm. <i>Beali</i> ripening and is being cut in places. Prospects of <i>sarad</i> favourable except in parts of Basudebpur and Chandbally where the crop, which met with the sea-waves of the 22nd ultimo, will be partially destroyed. Public health generally good.
<b>CHOTA NAGPORE.</b>			
<i>South-West Frontier Agency.</i>			
41	Hasaribagh, Oct. 9 '85	Nil	Weather—seasonable; cloudy since 8th. <i>Bhadai</i> crops being still harvested in certain places. Prospects of rice continue good. A shower of rain will be greatly beneficial to the crops, most of which are in ears. Cholera still lingering in certain thanas. General health good.
42	Lohardogga, „ 10 „	0.12	Weather—cloudy without rain. Slight rain wanted. Prospects of winter rice very favourable. Prices steady. Public health generally good.
43	Singbhoom, „ 9 „	0.01	Weather—seasonable. A thunder-storm accompanied by heavy rain passed over Chyebassa last night (8th). Prospects of crops continue excellent. Prices easy. Two fatal cases of cholera occurred in the dispensary on the 2nd, no other cases have since been reported. General health good. A few cases of cattle-disease reported from the interior.
44	Manbhoom, „ 10 „	0.64	Weather—fine with a few showers. Prospects of winter crops continue good, and weather during the week has been favourable to them. A bumper <i>amun</i> crop expected. Price of common rice fallen to 20 seers. Public health good.

Published for general information.

The mean pressure of the seven days ...

The average pressure of the corresponding period for 24 years, S. G.'s Office ...

The total number of hours of bright sunshine ...

The maximum possible number of hours of sunshine ...

The mean temperature of the seven days ...

The average temperature of the corresponding period for 24 years, S. G.'s Office ...

The extreme variation of temperature ...

The maximum temperature ...

The highest velocity of the wind in one hour ...

The highest pressure of wind on one square foot ...

The mean relative humidity ...

The average relative humidity of the corresponding period for 24 years, S. G.'s Office ...

The total fall of rain from 4th to 10th October 1885 ...

The average fall of the corresponding period for 24 years, S. G.'s Office ...

The total fall from 1st January to 10th October 1885 ...

The average fall of the corresponding period for 24 years, S. G.'s Office ...

The mean pressure, temperature, &amp;c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 45 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Δ dew.

N.B.—In the weekly report from 27th September to 3rd October 1885, in the column of mean pressure read 29.872 inches as the mean pressure of the 30th September instead of 29.72 inches.

ALEXANDER PEDLER,

METEOROLOGICAL OFFICE, INDIA;  
Calcutta, the 12th October 1885.

For Meteorological Reporter to the Government of India.

## METEOROLOGICAL AND RAINFALL SUMMARY OF THE PROVINCE OF BENGAL FOR THE MONTH OF SEPTEMBER 1885.

THE normal meteorological conditions in Bengal during the earlier parts of September resemble those of July and August to a very great extent. The month is, as a rule, one of steady monsoon rains, brought certainly during the earlier parts of the month by both branches of the monsoon current; but towards its close, as the Bombay current very rapidly falls off in strength, the rainfall is then to a great extent, if not almost, entirely brought up by the Bay of Bengal current. This latter current also falls off in strength during almost the whole of September, and towards its close the diminution of the wind velocity becomes very marked. The rainfall for the month is therefore very decidedly lighter and rather more irregular than in the two preceding months, and though during the prevalence of the Bombay branch of the current the distribution of the rainfall will be very similar to that in July and August, with the cessation of the Bombay current the distribution of the rainfall alters somewhat, the rainfall being then due to the action of the Bengal current alone, and at this time usually the increased precipitation in the western districts, due to the interaction of the currents to a great extent, ceases. The normal distribution of the rainfall during September is therefore a little more complex than in July and August, as will be seen subsequently.

With the diminution in the velocity of the monsoon current, breaks in the rains during September are much more frequent than in July and August, and their duration is also longer. It is during these breaks or intervals that small cyclonic storms are formed, and it will be seen that the period during which they are being formed being longer, they will have a better opportunity of intensifying, and thus the cyclonic storms formed over the Bay during September may be far more intense than those usually formed during the earlier monsoon months. As these cyclonic storms bring large amounts of rain to the districts which come within their influence, and as the line of country through which they may pass may vary very considerably, they are prominent causes in modifying the rainfall of particular years.

*Normal distribution of rainfall.*—The actual amount of rainfall in September in Bengal will, however, depend mainly on the strength and the depth or volume of the Bay of Bengal current, and thus in the normal distribution of the rainfall, the areas of heaviest rainfall are the districts in the neighbourhood of the hills of North and East Bengal, and the coast districts of Bengal and Orissa. The average rainfall exceeds 20 inches at the base of the Himalayas in North Bengal. To the north of a line running east and west through Bagdogra the average rainfall exceeds 15 inches, while there is another small area in East Bengal, including Fenny and Noakholly, with an average fall rather more than 15 inches. Between these areas and a curved line including the Northern and Central districts of South-West Bengal, the whole of Behar, except the most northern portions, the Sonthal Pergunnahs, Chutia Nagpur and the southern and western districts of Orissa, and defined by the stations of Bettiah, Durbhanga, Bhagulpore, Godda, Berhampore, Goalundo, Manickgunge, Bagirhat, Diamond Harbour, Balasore, Kendrapara, and Pooree, the average rainfall varies from 15 to 10 inches, diminishing towards the interior of the country. The greater part of South-West Bengal and Chutia Nagpur fall inside this line and receive amounts varying from 10 to 8 inches, and finally the northern parts of Chutia Nagpur and the greater part of South Behar receive amounts less than 8 inches. The minimum rainfall for the month over the whole Province is to be found in certain parts of South Behar and Chutia Nagpur, and in an area in South-West Bengal including such stations as Magoorah, Bongong, Ranaghat, Kishnaghur and Culna, where at the last-named station the fall is actually smallest, and only amounts to a little more than 6 inches. The explanation of this second curious patch of deficient rainfall appears to be that it is this district which is least under the influence of the normal monsoon current, and that it is not influenced by any of the well-known causes which induce increased precipitation or rainfall.

*Meteorology of the month.*—At the close of the month of August a small and feeble barometric depression which had formed over South Bengal had moved in a northerly direction into South Behar, and though the depression had become very feeble, there was still a distinct tendency to cyclonic circulation of winds round the central parts of the Province. On the 2nd of September there was a rather rapid fall of pressure in South-West and East Bengal and Orissa, and this having continued on the following day, a distinct area of low pressure was formed over South Bengal. The falling pressure having continued, the two areas of low pressure or feeble barometric depressions became more clearly marked, one having its centre to the east of Calcutta, and the second to the south-west of Bhagulpore, and on the 4th and 5th the southern depression advanced in a northerly direction, and it became absorbed in the low pressure area which existed near Bhagulpore. There was also on the 5th a distinct and rather broad band of low pressure stretching in a north-westerly direction across the Province, the southern limit of the band being at Burrisal, while the northern limit included the station of Purneah. Pressure on this day was largely below the normal, particularly in the districts affected by the low pressure, and at Bhagulpore the defect from the normal was 0.15". The wind system of the Province was of course materially influenced by these conditions, and round the area of low pressure winds circulated cyclonically, the wind directions at almost all the stations in the Province being

affected in this way. Wind velocities were generally light, though with the advance of the depression on the 4th and 5th rather strong winds set in at the southern and western stations. These conditions of course brought moderate to heavy rain to almost all parts of the Province. The area of low pressure which thus occupied almost the whole of North Bengal and surrounding districts continued practically unaltered for the next four days, on some days slightly intensifying, and on others slightly decreasing in intensity, and with its continued existence the wind circulation was unaltered, and thus conditions remained favourable for the production of heavy rainfall over the central, eastern and northern parts of the Province, while at the western stations, and particularly in Orissa and Chutia Nagpur, the rainfall gradually commenced to decrease and became light and local. On the 10th and on the 11th pressure commenced to rise rapidly over the whole Province, the rise being particularly rapid at the northern and eastern stations, and thus the area of low pressure in North Bengal was filled up, and the lowest pressure in the Province was transferred to the western and northern parts of Behar. With the disappearance of the depression the cyclonic circulation of winds also ceased, and the monsoon winds became light and feeble, and were to a certain extent driven back by a westerly current which brought with it fine weather to almost all districts. The weather conditions at this period showed every indication that a well-defined break in the rains had set in over the greater part of the Province, and on the 12th and 13th these conditions remained practically unaltered. On the 14th, however, the wind directions, which had previously become somewhat irregular, showed at the coast stations in the north-west angle of the Bay decided indraught towards the sea area, and these conditions developed on the following day into a distinct, but very feeble, cyclonic storm at the head of the Bay, the centre being probably only a short distance to the south-east of Saugor Island. Around the small depression winds circulated cyclonically as usual, but wind velocities were very light. On the morning of the 16th the storm had moved in a north-westerly direction, and its centre was between Calcutta and Burdwan, and on the 17th it had passed away in a westerly direction and was apparently in Chutia Nagpur, though it had become extremely feeble and could scarcely be detected. During the whole period of its existence the wind circulation accompanying it was feeble, but with its inland advance rather stronger monsoon winds set in over the eastern and southern districts of the Province, bringing up light though fairly general rainfall.

It was at this period that the principal feature in the meteorology of the month occurred, which was the formation of a small but decidedly very severe cyclonic storm in the Bay, and its subsequent passage inland through Orissa and Chutia Nagpur into North Behar and into the south-east portion of the North-East Provinces. The following is the description of the formation of the storm so far as can at present be given from the information which has been received. The description is to a great extent the same as that given in the weekly meteorological report for the 25th instant.

The period from the 11th to the 18th instant had been characterised by comparatively light rainfall over the greater part of the Province, and very light and somewhat irregular winds were blowing during that time over the land area. At the same time, however, strong monsoon winds were blowing in the south of the Bay, the average wind velocity at Galle having been for some days 10 miles an hour and upwards, which indicated a fairly strong monsoon current advancing up the Bay. In the centre of the Bay also at the close of the week winds were comparatively light and of fairly normal direction, except at the Arakan stations, where winds were irregular and in some cases easterly; but on Saturday, the 19th, winds at Akyab and Diamond Island became north-easterly, and wind velocity at the latter station commenced to increase, and at 10 A.M. on this morning a velocity of 22 miles an hour was reported. Pressure also commenced to fall rather rapidly at Diamond Island and Negapatam, and it is probable that on this day the cyclone had commenced to form, the centre, so far as can at present be judged, being probably to the west of the Andaman Islands. On the 20th the indications that stormy weather or a small cyclone had formed in the Bay were more marked, pressure fell moderately at Madras and along the Arakan coast, while wind became south-easterly at Diamond Island and strengthened considerably, the hourly wind velocity for the 24 hours becoming 25 miles, with a velocity at 10 A.M. of 28 miles. Winds also commenced to strengthen at Galle. On this day probably the storm had distinctly formed, and its centre was to the west or perhaps south-west of Diamond Island and towards the centre of the Bay. On the morning of the 21st the indications showed that the storm was advancing in a north-westerly direction, for pressure was rising rapidly at Diamond Island and wind velocity was moderating, while at Akyab wind had become south-easterly. Wind directions along the west coast also altered on this day, and from the light south-easterly winds which were previously blowing, they became north-westerly and northerly at all stations from Dacca down to Coconada. Pressure fell rather rapidly at Masulipatam and less rapidly at False Point, and the indications at this time were by no means clear as to which part of the coast the storm would reach. The 4 P.M. observations of the stations at the head of the Bay and along the west coast, which were called for, and some of which were not received until midnight, showed clearly that the storm was approaching the west coast, to the south of False Point, and orders were issued shortly after midnight to hoist the storm signals at the stations in the river, warning the shipping that a cyclonic storm would cross the coast to the south of a line joining Chittagong and False Point. The exact position of the centre of the storm at 10 A.M. of the 21st is a little doubtful, but it was probably in about latitude  $17^{\circ}$  or  $18^{\circ}$ N and longitude  $87^{\circ}$  or  $88^{\circ}$ E, and it must have been advancing with very

great rapidity in a north-westerly direction; for on the morning of the 22nd, so far as can be judged from the observations which have been received at present, its centre passed immediately over False Point, at about 7-30 A.M., after which it moved in a north-westerly direction, the centre passing to the east of Cuttack and thence through Chutia Nagpur, and on the morning of the 23rd the centre of the storm was apparently not very far from Dchree in South Behar, and probably a little to the south of that station. This represents a movement of about 350 miles in the 24 hours from 10 A.M. on the 22nd to 10 A.M. on the 23rd. On the morning of the 24th the storm had again moved in a northerly direction, and it was probably to the west or south-west of Motihari in North Behar. It was on this day, however, comparatively feeble, and though winds were still cyclonic in direction, the barometric depression had to a great extent filled up. With the advance of the storm to the north of False Point, a second signal was hoisted at the stations in the river, showing that the storm was passing to the north of False Point; and on the morning of the 23rd, as the storm had advanced well inland, the storm signals were lowered.

The barometric depression accompanying the advance of the small cyclone was excessive and most unusual in character. The pressure which has since been reported by the observer at the False Point Observatory was only 27·23 inches at the time when the centre of the storm was over that station, and it would appear that even this pressure has still to be corrected for temperature which will bring it to about 27·1 inches. Such a pressure as this has never hitherto been recorded in one of the cyclonic storms which occur during the rains, and indeed even in the record of such large cyclones as the Backergunge cyclone of 1876, no such low pressure as this has been registered. The cyclone was also accompanied by a storm-wave which caused much destruction to life and property near False Point, and the storm itself has of course caused much damage in some parts of Orissa.

The winds accompanying the small cyclone were undoubtedly very fierce, and the last telegram received from False Point at 10 P.M. on the 21st shewed that the wind velocity was 38 miles per hour. The observations, too, which were taken at Saugor Island on the 22nd, shewed that at 4 P.M. on that day wind velocity was 68 miles per hour, and at 10 P.M. the velocity was 58 miles per hour, while the velocity for the 24 hours from the 21st to the 22nd averaged 30 miles per hour. Saugor Island, too, it will be seen, was at a very considerable distance from the centre of the storm, in all probability the centre of the storm never being nearer than from 120 to 150 miles from that station.

The rainfall which accompanied the small cyclone near its centre, though undoubtedly very heavy, does not appear to have been quite as heavy as is usually the case with such a violent storm. The heaviest rainfalls in the actual path of the storm, of which reports have been received, are on the 22nd instant in the Cuttack district—Dharmasalla 9·20 inches, Jagatsingapore 6·11 inches, Kendrapara 5·50 inches, Jajpore 5 inches (about), and Cuttack 4·67 inches; and in the Balasore district—Bhuddruck 5·40 inches and Balasore 4·15 inches, but of course with the advance of the storm a strong inrush of moist southerly winds set in over the whole Province, bringing rather heavy rainfall to all stations, and from the 22nd or 23rd up to the 25th or 26th, moderate to heavy rain fell in all districts, and in North Bengal and North Behar in particular the rainfall became exceedingly heavy.

After the disappearance of the cyclonic storm pressure increased rapidly, and it became rather largely above the normal. Pressure over the Province also became very uniform, and light and unsteady winds therefore prevailed in all districts, and except in North Bengal, the only rainfall which took place during the last four or five days of the month consisted generally of light local showers.

The main meteorological features then of September have been the formation of three very feeble barometric depressions during the first 18 days of the month, all of which brought up general rain to the greater part of the Province, and particularly to the northern and central districts. These were followed by a few days of comparatively light winds and light rainfall, and then by the sudden rush of the extremely violent cyclonic storm through the western districts as previously described. This was followed by powerful southerly moist winds, and these by a gradual increase of pressure and falling off of wind velocity, which caused a very rapid diminution in the area and amount of rainfall.

The variations of pressure from the normal during the month have of course been large, and in particular with the advance of the small and fierce cyclone the variations became excessive. During the earlier part of the month pressure was almost uniformly below the normal, but at the latter end of the month, and particularly after the disappearance of the storm, pressure became somewhat largely above the normal, so that the average pressure for the month over the whole Province has been an excess above the normal of 0·033". The excess pressure has also been fairly evenly distributed.

Temperature has on the whole been distinctly lower than usual, this being due probably to the heavy rain which has fallen over the whole Province, and also to the fact that cloud proportion has generally been somewhat higher than usual. The variations of the average temperatures of the various meteorological districts from the normal are not as a rule very large, but all districts, except Orissa, show a temperature below the normal. The largest variation from the normal is in North Behar, where temperature was in defect by 1·6°, while in Orissa the excess was 0·8°. The mean variation from normal temperature over the whole Province is a defect of about 0·6°.

The causes which have led to the heavy rainfall over the whole of the Province have already been discussed in the meteorological summary. The time distribution during the month has also been briefly described, and it will be seen that, except during the

last four or five days of the month, and for the period of two or three days previous to the occurrence of the small cyclone which passed into Orissa, there have been no general or decided breaks in the rains, and thus all districts have received general and rather heavy rainfall for the greater part of the month. The distribution has, however, been somewhat irregular, and, speaking generally, the northern and eastern districts show the largest excess, while the western and southern districts have received falls not so largely in excess. The distribution is too irregular to describe the actual fall over the Province in detail, but it may be said that the usual areas of maximum rainfall in the neighbourhood of the hills and along the coast line are clearly perceptible, and that, starting from the districts at the foot of the hills where the rainfall has been from 20 to 30 inches, the rainfall gradually decreases towards the west and south of the Province till over the south-western parts of South-West Bengal, and over a large part of Orissa and Chutia Nagpur, the average rainfall has only been between 5 and 10 inches. Compared with the normal fall, about four-fifths of the Province shows a fall very decidedly in excess, and it is practically only the south-western districts of the Province which are included in the defective area. Thus the only part in which the rainfall has been in defect in North Bengal, is a part of the Cooch Behar district; and in South-West Bengal, practically the whole of the 24 Pergunnahs and the Hooghly districts, and parts of the Howrah and Burdwan districts, show a defective fall. The southern part of Chutia Nagpur, and particularly the Singbhoom and Maubhoom districts, and the greater part of Orissa, has received a fall also decidedly in defect. Only three stations have reported defects of more than 5 inches, and these are Contai, Cox's Bazar and Dinhatra; the following stations report defects between 4 and 5 inches:—Baraset and Noakholly; and the following defects between 3 and 4 inches:—Pooree, Diamond Harbour, Calcutta, Bussirhat, Howrah, Serampore, and Cooch Behar. On the other hand about half the Province has received a fall of more than five inches in excess, and this area is included to the north of a line starting from Chumparun, and running in a south-westerly direction to the south of the Sonthal Pergunnahs, where it rises into Rajshahye, and then stretches in a south-westerly direction to Chittagong. Certain districts in the Province have even received falls more than 10 inches in excess of the normal. There is one such district in North Behar represented by the stations Durbhunga, Tajpore and Sitamarhi; another in East Bengal, represented by Kishcugunge and Netrokona; while there are also isolated stations with a similar excess, such as Bhagulpore, Darjeeling, Panchbibi, and Bishenpore. The largest excess rainfall at any station is 17.04 inches at Sitamarhi.

Taking up the meteorological divisions, South Behar has received the largest excess rainfall, and the excess here equals 76 per cent. of the normal, next to this stands North Behar, which has received an excess of 72 per cent., North Bengal has received an excess fall of 35 per cent. and East Bengal an excess of 25 per cent. The excess in South-West Bengal generally has been equal to 21 per cent. of the normal, and in Chutia Nagpur it has been 7 per cent., while in Orissa there has been a defective fall averaging 8 per cent. Taking these meteorological divisions as being of equivalent value, the excess over the whole Province has been equal to about 33 per cent. of the normal.

The number of rainy days has also been as a rule decidedly in excess of the normal, and all districts, except Chutia Nagpur and Orissa, show this excess. In North Bengal and North Behar the number of rainy days has been from 3 to 4 in excess of the normal, while on the other hand, in Orissa, the number has been 3 days in defect. Over the whole Province the average number of rainy days has been about fifteen instead of the normal number of fourteen, or about one in excess.

The following table gives full data for the comparison of the actual and the normal rainfall of the month of September in all districts of the Province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third column in a slightly different form. It states as a percentage how much the district rainfall of the month varied in excess or defect from the normal rainfall, and is hence the difference between the numbers in the third column and 100.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, the 12th October 1885.

## SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 9TH OF OCTOBER 1885.

In the report for the week ending the 2nd of October, it was noticed that at the end of that week all the meteorological conditions which were present were those of the transition period which generally marks the gradual closing of the south-west monsoon or rainy season, and which is preliminary to the commencement of the north-east monsoon. This transition period may be generally said to occupy some three weeks or a month, and during this time winds are light and rather variable in direction, pressure gradually increases, the day temperatures also remain rather high, while the night temperatures fall, and rainfall rapidly diminishes in quantity, and also in the area over which it falls, and only light and local showers are generally reported. The conditions during the present week have fully borne out the suggestion made in last week's report, and the week has been typical of the transition period above alluded to. Winds over the whole Province for the week have been particularly light, and for the earlier part of the week, except in North Bengal, the province was practically rainless. For a considerable part of the week the winds were also decidedly irregular in direction, though there has been a tendency of the winds to become more strongly westerly, and in some cases north-westerly at the western stations. At the eastern and some of the northern stations, however, winds continued southerly, easterly, and in some cases south-easterly, and towards the close of the week these wind systems set up a faint tendency to a cyclonic circulation, and this slightly disturbed atmospheric condition caused rain showers to be a little more numerous at the close of the week than at the commencement. Throughout the week, however, winds have been exceedingly feeble in force, and on the whole winds have been more westerly and northerly than during the previous week.

Pressure during the previous week was above the normal by an average of about a tenth of an inch, and the distribution of the excess was very fairly regular. During the present week the changes of pressure have on the whole been decidedly regular and of the usual oscillatory character, and though of course there have been a few local irregularities, it may be said that the pressure over the Province generally decreased on the Saturday, increased on the Sunday, and again decreased on the Monday. There was then a rise of pressure lasting for two days, which was followed by an almost corresponding fall for the same period. The actual average pressure for the week has therefore not varied much from the pressure during the previous week, but as the normal movement of the barometer at this time of the year is to increase, the effect of the movements of the barometer this week has been to decrease the abnormal excess pressure which was noticed in the last report, and thus the excess pressure has been reduced to 0.075". The distribution of the excess pressure is not so regular as in the previous week, and while at Durbhanga the excess has been 0.093", at Gya it has only been 0.05".

Temperature, with the almost complete absence of rainfall, and with the lightly clouded skies which have mainly obtained during the present week, has been uniformly high and is in all districts, except East Bengal, decidedly above the normal. Thus in Orissa temperature has on the average been about 25° above the normal; in Chutia Nagpur and South Behar it has been about 2° above the normal, while in South West Bengal and North Behar it has been about 1° above the normal. In East Bengal, on the other hand, temperature has been about 1° below the normal. The day temperatures during the week have ranged decidedly high, and at Cuttack a maximum temperature of 100° was reported on the 4th, but this may perhaps be an inaccurate reading, as it is extremely high for October. At Patna on the 4th also a maximum temperature of 95.5° was recorded, and in all districts except Chutia Nagpur, temperatures above 90° have been recorded on several days in the week at several stations. Minimum or night temperatures are, however, decreasing, and some fairly low temperatures have been recorded; thus at Ranchice on the 16th a temperature of 66.4° was registered at Nya Doomka and Julpigoree a temperature of 70° was reported, while in South-West Bengal and East Bengal the lowest minimum reported is about 78°.

Humidity has generally been steadily, but slowly, decreasing throughout the week, and at its close the air was dry at the western stations generally, though in other cases the humidity was still fairly high. The amount of cloud too has rapidly diminished, and the average cloud proportion for the week shows that the sky has been only lightly clouded in all districts.

Rain, as before stated, has been practically absent for the greater part of the week over the whole Province, and the only day on which anything like light general rain fell over any large area was on the 9th. The rainfall, as may be expected, has been rather more frequent, though still in most cases very light, in the hill districts of North Bengal; but the extremely scanty nature of the rainfall over the Province generally may be best seen from the fact that the average number of rainy days at all the stations over the Province for the week has been equal to 0.6, while the average amount of rain which has been received is equal to less than a quarter of an inch. Even in Chutia Nagpur, which has received the largest rainfall, the average amount received has only been 0.42 inch; in North Bengal it has been 0.37 inch, while in South-West Bengal, East Bengal and South Behar the average amount received has been about two-tenths of an inch, and in North Behar it has been little more than a tenth of an inch. Finally in Orissa rainfall has been practically absent.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 9th of October 1885 :—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.							RAINFALL.									
	Highest observed during week.	Lowest observed during week.	Average for week.			Average mean of week above or below normal mean of week.		Of week.			Rainy days.			Since 1st of month.		Since 1st of May 1885.

METEOROLOGICAL OFFICE, BENGAL;

The 12th October 1885.

ALEXANDER PEDLER,

Offg. Meteorological Reporter to the Govt. of Bengal.

MEMORANDA.

DURING the week ending 26th September 1885, the returns from the principal Municipalities in Bengal furnished the following results:—

1. That births and deaths were registered in the proportions, respectively, of 27·8 and 42·6 per 1,000 of population, against 26·4 and 37·4 per 1,000, respectively, during the preceding week ending 19th September, indicating an advance in the registration of both events, particularly of deaths.

2. That these events were returned in the highest proportions from the following Municipalities:—

Births.				Deaths.			
			Ratio per mille.				Ratio per mille.
Bhagulpore	...	...	55·2	Bhagulpore	...	...	97·7
Beaulah	...	...	44·6	Gya	...	...	75·1
Gya	...	...	41·7	Patna	...	...	66·9
Chittagong	...	...	37·6	Jessore	...	...	61·2
Naraingunge	...	...	37·3	Serampore	...	...	59·0
Arrah	...	...	37·1	Arrah	...	...	58·6
Chupra	...	...	35·2	Monghyr	...	...	44·3
Patna	...	...	34·7	Suburbs of Calcutta	...	...	42·4
Durbhanga	...	...	34·6	Beaulah	...	...	39·4
Serampore	...	...	33·4	Puri	...	...	37·8
				Chupra	...	...	34·2
				Darjiling	...	...	32·6
				Midnapore	...	...	31·0
				Hughli	...	...	30·9
				Durbhanga	...	...	30·7
				Burdwan	...	...	30·6

3. That the rates at which the several death-causes proved fatal, in comparison with the rates of the preceding week, were—

				Ratio per mille during the weeks ending—	
				26th September 1885.	19th September 1885.
Cholera	...	...	...	3·0	2·0
Small-pox	...	...	...	·03	·2
Fever	...	...	...	20·2	17·9
Bowel-complaints	...	...	...	6·4	6·8
Injury	...	...	...	·8	·4
Other causes	...	...	...	12·1	10·1

The above figures denote chiefly that there was a considerable increase of mortality from cholera, fever, and the diseases grouped under the head of "Other causes," prominently from fever.

4. That referring to the death-causes above indicated, while the casualties from small-pox and injury were not large anywhere, the rest of them proved conspicuously fatal to life in the following Municipalities:—

Cholera.		Fever.		Bowel-complaints.		Other causes.	
	Ratio per mille.		Ratio per mille.		Ratio per mille.		Ratio per mille.
Arrah	21·5	Jessore	55·1	Serampore	19·6	Puri	23·1
Gya	10·9	Bhagulpore	50·7	Bhagulpore	13·6	Bhagulpore	22·6
Bhagulpore	8·1	Beaulah	36·8	Patna	10·7	Midnapore	20·1
Patna	3·9	Gya	35·5			Darjiling	19·6
		Patna	34·4			Gya	17·1
		Serampore	27·5			Chupra	16·6
		Arrah	23·9			Patna	16·5
		Monghyr	21·7			Suburbs of Calcutta	14·9
						Serampore	11·8
						Dacca	11·0

5. That the death-rates in relation to Sex, Class and Age were returned at the rates indicated below:—

According to Sex.			According to Class.			According to Age.		
	Ratio per mille.			Ratio per mille.			Ratio per mille.	
Males	43·3	Christians	...	34·8	Under 1 year	...	394·4	
Females	41·9	Hindus	...	45·7	1 and under 5 years	...	75·4	
Ratio of male deaths to every 100 female deaths	117	Mahomedans	...	35·8	5 " 10 "	...	31·0	
		Other classes	...	36·4	10 " 15 "	...	19·5	
					15 " 20 "	...	25·1	
					20 " 30 "	...	23·0	
					30 " 40 "	...	22·3	
					40 " 50 "	...	26·6	
					50 " 60 "	...	47·0	
					60 years and upwards	...	90·4	

The 12th October 1885.

R. LIDDERDALE, M.D., Deputy Surgeon-General,  
Sanitary Commissioner for Bengal.

\* A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this section of the community taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives was as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratio under which have been omitted, inasmuch as the census of the Europeans above alluded to, cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

*General Remarks on the fluctuation of principal staples carried over the East Indian Railway during 5 weeks ended 29th August 1885.*

INCREASES.

*Piece-goods.*—The increase under this head was due to active demand at Cawnpore, Delhi, and other long distance stations.

*Wheat.*—This increase was due to good demand for export.

*Gram and Pulses.*—The increase in these commodities is attributable to partial failure of the rice crop in Bengal. Despatches were principally made from Cawnpore and other stations on the North-Western Provinces to Howrah, Ranegunge, and Barakar.

*Other grains.*—This increase was due to considerable despatches having been made this year from Cawnpore and stations *vid* Cawnpore to Bombay; also from other North-Western Provinces stations to Dinapore and neighbourhood.

*Railway Material, Foreign*—As in July 1885, the increase under this head was principally due to despatches for the Cawnpore-Kalpi, Bilaspore-Katni, and the Oudh and Rohileund Railways.

*Salt.*—This increase was chiefly due to despatches from Howrah to Patna, Jounpur city, and to the Bengal and North-West Railways.

*Seeds.*—There was an increase in weight in the despatch of seeds of all kinds, and a decrease in the earnings; the former was due to strong demand for linseed for export, and the latter to short distance traffic.

*Sugar (refined and unrefined).*—The increase in this commodity was chiefly due to despatches of date sugar from Howrah to the North-Western Provinces stations and Punjab.

DECREASES.

*Coal and Coke.*—There was an increase in the upwards and a decrease in the downwards coal and coke traffic: the former was due to increased demand from Foreign Railways, and the latter, in a great measure, to interruption of work in the collieries by heavy rain.

*Cotton.*—Due to want of demand for export.

*Rice (husked and unhusked)*—The decrease in these staples was due to partial failure of the crops and scarcity in Bengal.

*Salt-petre.*—The slight decrease in this staple was due to a decline in prices at the commencement of the period.

ALLEN MEARES, *Deputy Traffic Manager.*

TRAFFIC MANAGER'S OFFICE, JAMALPUR, the 9th October 1885

## Weekly Return of Traffic Receipts on Indian Railways.

*Quarantine : Imposition of*—at Aden and Perim against vessels arriving from Singapore.

No. 3845.

#### GENERAL DEPARTMENT.

Bombay Castle, 9th October 1885.

Telegram from the Government of India, Home Department, Simla, dated 8th October 1885 :—

“Imposition quarantine at Aden and Perim against arrivals from Singapore sanctioned.”

**RESOLUTION.**—The Political Resident, Aden, should be informed by telegraph that the Government of India have sanctioned the imposition of quarantine at Aden and Perim

against arrivals from Singapore. A notification should be published in a *Bombay Government Gazette Extraordinary* bringing B Quarantine Rules into operation at Aden and Perim against arrivals from Singapore. A copy of the notification should be forwarded to the officers and departments concerned for information with reference to Government Resolution No. 3793, dated 6th instant, and to the Government of India.

2. The Governments of Bengal, Madras and Ceylon, the Chief Commissioner British Burmah, and the Commissioner in Sindh should be informed by telegraph that the Government of India have sanctioned the enforcement of B Quarantine Rules at Aden and Perim against arrivals from Singapore, and copy of this Resolution and the notification should be forwarded to them by post.

J. MONTEATH,  
Under-Secy. to Government.

#### NOTIFICATION.

#### GENERAL DEPARTMENT.

*Bombay Castle, 9th October 1885.*

No. 3845.—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against cholera have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they will take effect from the 5th instant in the Port of Aden and at Perim as a temporary measure:—

I.—The Commander of every vessel, including buggalows or other native craft, arriving from Singapore shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on any such arrival being signalled, the Health Officer of the port shall go alongside the vessel, and, if communication with the shore is desired, shall direct the Commander to take the vessel to the quarantine anchorage, duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival in the harbour, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects and susceptible goods. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore, or other vessels and boats in the harbour. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year, and no communication shall be allowed with the pilot boat, otherwise than orally, or with the shore.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	...	...	Six days of quarantine.
Do. nine do.	...	...	Five do.
Do. ten do.	...	...	Four do.
Do. eleven do.	...	...	Three do.
Do. twelve do.	...	...	Two do.
Do. thirteen do.	and upwards	...	Twenty-four hours of quarantine.

V.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden and Perim which may have communicated with vessels coming from Singapur shall be subjected to the same quarantine as vessels arriving at Aden and Perim from that port.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills of health

By order of His Excellency the Right Hon'ble the Governor in Council,

J. NUGENT,

Secretary to Government.

A. N. BHATTACHARJEE, *Personal Assistant, for Commr.*

COMM'R'S. OFFICE, PRESIDENCY DIVISION, Calcutta, the 8th October 1885.

### NOTIFICATION OF THE BOARD OF REVENUE.

No. 969B.

NOTICE is hereby given that the Eleventh Sale of Opium, the Provision of 1883-84, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Tuesday, the 3rd November 1885, at 11 A.M., and will comprise 4,166 chests, viz.—

	Chests.
Opium manufactured at the Patna Factory consisting of ...	2,000
Ditto at the Ghazepore Factory consisting of ...	2,166
(of which 490 chests are of 72° consistence).	
Total ...	4,166

2nd. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1884, and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd. The latest dates for deposit and clearance will be the 9th and 18th November 1885, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Monday, the 9th November 1885, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Wednesday, the 18th November 1885.

4th. In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazepore Factories will be brought to sale in the present year about the date specified below. The Board of Revenue, however, reserve to themselves the right of altering this date should circumstances render it expedient to do so:

DATES.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazepore Factory, about chests.	Total, about chests.
On or about Thursday, 3rd December 1885 ...	2,000	2,166	4,166

By order of the Board of Revenue, L. P.,

C. A. SAMUELS, *Offg. Secretary.*

### Orders and Notifications by the Government of India, &c.

[Reprinted from the Gazette of India.]

#### MILITARY SECRETARY'S OFFICE.

##### NOTIFICATION.

*Simla, the 16th October 1885.*

##### PROGRAMME OF HIS EXCELLENCY THE VICEROY'S ARRIVAL IN CALCUTTA.

His Excellency the Viceroy and Governor-General will arrive in Calcutta by a special train on Saturday, the 12th December 1885, at 5 P.M., Calcutta time.

His Excellency will be received at the Howrah Railway Station by the Chairman of the Corporation and Commissioner of Police for the Town of Calcutta and the Magistrate of Howrah, and at Government House by the Lieutenant-Governor of Bengal, Members of His Excellency's Council, the principal Civil and Military Officers, and other gentlemen who are desirous of attending.

A Guard-of-Honor of the East Indian Railway Volunteers will be drawn up on the platform of the Howrah Railway Station, and a Guard-of-Honor of Native troops, with band, outside the station.

The route taken will be by the Hooghly Bridge, Strand Road, and Esplanade Row.

The Body Guard will form the escort.

Guards-of-Honor of British Infantry and of the Administrative Battalion, Presidency Volunteers, with band, will be drawn up in front of the Grand Staircase of Government House.

A Viceregal Salute will be fired from the ramparts of Fort William as His Excellency passes the Hooghly Bridge.

Full dress will be worn by Officers entitled to wear uniform. Gentlemen not entitled to wear uniform will appear in morning dress.

By Command,

G. FERGUS GRAHAM, Colonel,

for Military Secretary to the Viceroy.

The following orders, issued by the Government of India in the Department of Finance and Commerce, are republished for general information.

F. B. PEACOCK,

Chief Secy. to the Govt. of Bengal.

*On the West.*—The east bank of Tolly's Nullah.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## NOTIFICATION.

*The 15th October 1885.*—It is hereby notified for general information that an election will be held, under section 27, Act III (B.C.) of 1884, on the 30th November 1885, in Ward No. IV of the Mozufferpore Municipality, for filling the place of Bahoe Sham Narain Singh, who has ceased to be a Commissioner under the operation of section 20 of the Act.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

## DECLARATION.

*The 12th October 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Colgong Municipality for a public purpose, viz. for the site of a building for the office of the municipality, in the village of Kasha Colgong, pergunnah Colgong, district Bhagalpur, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bigahs 1 cottah 5 dhoors of standard measurement, is required. The land is bounded on the north and east by the Railway Station compound; on the south by the jote of Kali Sahu; and on the west by the public road.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

[Second Publication.]

## NOTIFICATION.

*The 12th October 1885.*—The following draft of rules, which the Lieutenant-Governor proposes to make under clause (a) of section 138 of the Bengal Local Self-Government Act, 1885, is published for general information under section 143 of the said Act, and notice is hereby given that they will be taken into consideration on or after the 1st December 1885, when any objections or suggestions which may be made by any person and received before that date will also be considered.

## PART I.

## ELECTION OF MEMBERS OF UNION COMMITTEES.

*Preliminary.*

Throughout this and the following Parts the term "Magistrate of the district" shall have the meaning prescribed by section 5 of the Act.

2. Whenever a Union, constituted under section 38 of the Act, comprises two or more villages, the Magistrate of the district shall decide in what manner such Union shall be divided into electoral wards, and the proportional number of members to be returned for each of such wards. Such arrangement shall remain in force in subsequent elections until altered by similar authority.

*Of the qualification of Voters.*

3. Every male person of the full age of twenty-one years, resident within the area comprised in a Union, who has, during the year immediately preceding the election of the members of the Committee of such Union, paid any road cess, license tax or chowkidari tax, or who is a member of a joint undivided family, which has during such period paid any such cess or taxes, shall be entitled to vote at such election.

*Of the qualification of Candidates.*

4. Any person qualified under the preceding rule, and who in addition can read and write, shall be qualified as a candidate for any ward in the Union.

*Of the manner of holding elections.*

5. The Magistrate of the district shall decide at what place or places within the Union and on what date or dates the election of the members of the Union Committee shall be held.

6. The dates fixed for such elections shall be duly notified in all the villages of the Union, in such manner as may appear suitable to the Magistrate of the district, and at least fourteen days beforehand: any costs incurred in issuing notices under this rule shall be defrayed from the District Fund.

7. Each voter shall vote for the ward in which he ordinarily resides, and for no other. He may vote for as many candidates as there are members to be returned for such ward, but shall not give more than one vote for any single candidate.

8. All persons wishing to vote must be present at the elections. No votes by proxy or in writing shall be received.

9. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district may depute for the purpose, shall preside at the election for each Union or portion of a Union.

10. The elections for the different wards in the Union shall be held in succession; the proceedings in every case being commenced by the presiding officer explaining to the assembled voters the nature and objects of the election and the number of members to be returned.

11. The assembled voters of the ward shall be allowed to consult together and elect the necessary number of members in their own manner. They shall report to the presiding officer the names of the persons they have elected, and if such persons are duly qualified, and no objection is raised to the manner in which the election has been conducted, the presiding officer shall declare that they have been duly elected.

12. If the result of the election held under the preceding rule is called in question, the presiding officer shall proceed to take a poll, recording the number of votes given for each candidate with his own hand. He shall then and there declare such duly qualified candidates as have a majority of votes to be duly elected.

13. If an equal number of votes is recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot, in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

14. If at any election held under these rules the number of voters of any ward shall be less than ten per cent of the total number of house-holders in such ward, the Commissioner may order that the election shall be held again, or may decide that the electors have failed under section 40 of the Act to elect members.

15. Objections regarding the qualifications of candidates and voters shall be summarily decided by the presiding officer, and such decision shall be final.

16. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected.

17. Except as provided by rule 15, no election held under these rules shall be invalidated on any ground whatever.

18. The list of duly returned candidates shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

## PART II.

### ELECTION OF MEMBERS OF LOCAL BOARDS.

#### *Preliminary.*

19. When the number of members of a Local Board has been fixed by a notification issued under section 8, the Commissioner shall decide the number of members who shall be elected for each thana within the area of such Local Board, and shall issue orders accordingly. Such orders shall be published in the *Calcutta Gazette*, at the district and sub-divisional offices, and at the head-quarters of each of the thanas in question; and in such other manner as the Commissioner may prescribe.

20. The first election of any Local Board under these rules shall take place at such time, not being more than three months after the Act comes in force in the districts mentioned in the Third Schedule of the Act, and after the date of a notification establishing Local Boards in any other district, as the Lieutenant-Governor shall direct.

#### *Of the Qualification of Electors.*

21. Every male person of the full age of twenty-one years, resident within the area under the authority of a Local Board, who is qualified in one of the manners following, that is to say—

- (1) Is a member of a Union Committee within such area;
- (2) Has, during the year immediately preceding such election,—
  - (a) paid a sum of not less than one rupee on account of road cess in respect of land situated either wholly or in part within such area;
  - (b) paid license tax in respect of a trade, dealing, or industry carried on within such area; or
  - (c) been possessed of a clear annual income from any source of not less than two hundred and forty rupees.
- (3) Being a member of a joint undivided family, one of the members of which is qualified for election as in this rule hereinbefore provided, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be entitled to vote at an election of members of such Local Board.

#### *Of the Registration of Electors.*

22. In all districts mentioned in the Third Schedule of this Act, or in which a Local Board may hereafter be established, the Magistrate of the district shall cause to be prepared for each thana within the area of a Local Board a register of persons qualified to vote. Such register shall be prepared from assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. Such register shall from time to time be corrected and added to as the Magistrate of the district may direct.

23. At least one month before the date fixed for the election for any thana, a copy of the register showing the persons qualified to vote for such thana shall be published at suitable places within that thana. Copies of all the thana registers shall also be pub-

lished at the sub-divisional office. Provided that all such registers made and published before these rules come into operation shall be held to have been duly made under Rule 4 and duly published under Rule 5

24. Any person claiming the right to vote may submit to the Magistrate of the district an application in writing for the entry of his name in the register of electors, stating distinctly in what manner he is qualified; and all such applications, if made at least one month before the date fixed for the election, shall be duly enquired into. A notice of the claims thus made shall be published at the thana at least three weeks before the date fixed for the election; and all objections made to them and received at least one week before the date fixed for the elections shall be duly considered.

25. All claims to vote, and the objections thereto, shall be considered by the Magistrate of the district, and his decision shall be final.

26. The thana list as amended, after the hearing and decision of claims and objections, shall be considered to be the final lists of persons entitled to vote at the election, and no person whose name does not appear in the thana list shall be permitted to vote.

*Of the qualification and the nomination of Candidates.*

27. Every male person of the full age of twenty-one years, who is qualified in one of the manners following, that is to say—

- (1) Is a member of a Union Committee within the area under the authority of the Local Board;
- (2) Has during the year immediately preceding the election had his fixed place of abode within the area under the authority of such Local Board; and
  - (a) paid a sum of not less than five rupees on account of road cess in respect of land situated either wholly or in part within the area under the authority of the Local Board;
  - (b) paid a license tax of not less than twenty rupees in respect of a trade, dealing, or industry carried on within the area under the authority of the Local Board; or
  - (c) been possessed of a clear annual income from any source of not less than one thousand rupees.
- (3) Being a member of a joint undivided family, one of the members of which is qualified for election under clause (1), or clause (2) (a) or (b) of this rule, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be qualified for election as a member of the Local Board for any thana under the authority of such Local Board.

28. Any elector may, for the thana in which he is qualified to vote, nominate any qualified person as a candidate.

29. The Magistrate of the district shall, at least six weeks before the date fixed for the thana election, issue notices calling for nominations of candidates. Such notices shall be published at every village within the thana. All nominations shall be submitted within three weeks from the date of the publication of the notices in question. No names of candidates shall be received after the expiration of such period. Provided that all such notices or nominations which may have been issued or made before these rules come into operation shall be held to have been issued or made under these rules.

30. The Magistrate of the district shall ascertain whether all of the nominated candidates are duly qualified to take office: his decision on this point shall be final. He shall also, if possible, ascertain whether they are all willing to take office.

31. A list of the candidates who are duly qualified, and who appear to be willing to take office, shall be published at suitable places in the thana at least one week before the date fixed for the election. No candidate whose name does not appear in such list shall be considered eligible.

*Of the manner of holding Elections.*

32. The election for each thana shall be held on such date as may be fixed by the Lieutenant-Governor and notified in the *Calcutta Gazette*.

33. The election for each thana shall be held at the head-quarters of the thana.

34. The date fixed for the thana election shall be duly notified at the thana, and at such other places as may appear suitable, at least one month beforehand.

Provided that any notice to this effect issued previous to these rules coming into force shall be held to be valid under these rules. A vernacular notice in the following form shall also, at least one week before the date fixed for the election, be despatched by post, or by such other mode as may be found convenient, to every elector whose name appears in the register:—

“ You are hereby informed that you are registered as a voter for the thana, and that you will be entitled to vote at the election of \_\_\_\_\_ members of the Local Board to be held at \_\_\_\_\_ on the 18 .”

35. An elector duly qualified under Rule 4 shall be entitled to vote for the thana in which he ordinarily resides, and for no other. He shall be entitled to vote for as many candidates as there are vacancies for such thana, but shall not give more than one vote for a single candidate.

36. All persons wishing to vote must be present at the election. No votes by proxy or in writing shall be received.

37. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district shall depute for the purpose, shall preside at the election for each thana.

38. The proceedings shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates, and state the number of vacancies.

39. Each candidate shall then be proposed by one qualified voter, and seconded by another. Subject to the control of the presiding officer on points of order, each candidate and his proposer and seconder shall be permitted to address the assembled voters on the subject of his candidature. The names of candidates not duly proposed and seconded shall be removed from the list.

40. In the case of the number of the candidates duly proposed and seconded not being greater than the number of vacancies, the presiding officer, if he is satisfied that not less than ten per cent. of the registered voters for the thana are present, shall at once declare such candidates to be duly elected.

41. If the number of candidates duly proposed and seconded exceeds the number of vacancies, the presiding officer shall proceed to take a poll for each candidate, recording the votes with his own hand.

42. All objections to voters shall, if possible, be summarily decided by the presiding officer after reference to the register. No objections shall be entertained, other than objections arising out of matters subsequent to registration under Rule 8.

43. The presiding officer shall then and there declare such candidates as have a clear majority of votes to be duly elected. Provided that no candidate shall be declared to be duly elected unless at least ten per cent. of the registered voters of the thana have appeared and recorded their votes.

44. If ten per cent. of the registered voters for the thana are not present (Rule 40), or have not appeared and recorded their votes (Rule 43), the presiding officer shall report that the electors have failed under section 10 of the Act to elect the number of members for the Local Board fixed for such thana.

45. In the case of an equal number of votes being recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

46. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

47. In the event of any person being elected for two or more thanas, such person shall be at liberty to choose which thana he will represent, and in every other thana for which the said person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him.

48. After all the thana elections have been held, the list of candidates duly elected for the Local Board shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

#### *Miscellaneous.*

49. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

50. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

51. No person in the employment or pay of the District or Local Board shall directly or indirectly engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

52. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules, shall be payable from the District Fund.

### PART III.

#### ELECTION OF MEMBERS OF DISTRICT BOARDS AND TERM OF OFFICE OF MEMBERS OF BOARDS.

##### *Election of Members of District Boards.*

53. A Local Board shall not elect members for the District Board until (a) the number of members of the District Board to be elected by such Local Board shall have been fixed by notification under section seven of the Act, and (b) the names of the elected and appointed members of the Local Board shall have been published in the *Calcutta Gazette*.

54. Within one month of the publication of the notification referred to in clause (a) of the preceding rule, or if later, the notification referred to in clause (b) of the same, the Local Board shall at a meeting elect the requisite number of members for the District

Board. The names of the candidates shall be submitted at the meeting, and the election shall be made by the majority of votes of the members of a Local Board at such meeting.

55. In the case of the election or appointment of a Chairman, or the election of a Vice-Chairman, of the Local Board, not having taken effect, the meeting referred to in the preceding rule shall be called by the Magistrate of the district.

56. The names of the persons elected to serve on the District Board shall be forwarded without delay to the Magistrate of the district, who shall ascertain if they are duly qualified and are willing to serve.

57. If any elected candidates decline to take office, the unsuccessful candidates, if any, who received the largest number of votes shall be declared to be duly elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

58. In the event of any person being elected for two or more Local Boards, such person shall have liberty to choose which Local Board he will represent, and as regards every other Local Board for which such person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election will be held.

59. The only persons qualified for election as members of the District Board shall be members of the Local Boards in the district.

60. The names of the elected members of the District Board shall, together with the names or official designation of the appointed members, if any, be published in the *Calcutta Gazette*.

#### *Term of Office.*

61. Every member of a Local or District Board, who has been elected or appointed by name, shall vacate his office at the end of three years from the date of his election or appointment as such member.

62. The term of three years mentioned in the preceding rule shall be held to include any period which may elapse between the expiration of the said three years and the date of the next subsequent appointment or election, not being an appointment or election under the next succeeding rule.

63. If any member of a Local or District Board shall be unable to complete his full term of office, the vacancy caused by his resignation, or removal, or death shall be filled by the appointment or election, as the case may be, of another person; and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

64. *A. Local Boards.*—As soon as possible after the expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy among elected members under rule 63, a date for a fresh election shall be fixed by the Lieutenant-Governor, and notified in the *Calcutta Gazette*, and rules 21 to 52 shall apply, as far as may be, to such subsequent elections.

*B. District Boards.*—As soon as possible after expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy amongst elected members under rule 63, the Magistrate of the district shall send a notice to the Local Board which has the right to elect a member to fill the vacancy, and such Board shall, within one month of the receipt of such notice, elect a member in accordance with rules 54 to 59.

J. WARE EDOAR,  
*Offg. Secy. to the Govt. of Bengal.*

## PART II.

### Advertisements.

N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

### LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the sub-division of Dinapore, in the district of Patna, will be put up to sale at the office of the Deputy Collector of Dinapore at 12 o'clock noon, on the 20th October 1885, corresponding with 3rd Kartic 1293 Fushli.

The purchasers will be subject to the following conditions of sale—

#### Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after the issue of advertiser cut as in the case of original sale.

### Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the following rates:—per four ounce tin, Rs. 4 ans. 8; per eight ounce tin, Rs. 8 ans. 8; per pound tin, Rs. 16 ans. 8. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, at the undernoted rates:—per four ounce tin, Rs. 5 ans. 8; per eight ounce tin, Rs. 10 ans. 8; per pound tin, Rs. 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

### Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from *Red Cinchona Bark*. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

### Notice.

THE Public are hereby informed that the well-known Kartick Baruni Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Anurghyan 1292 B.S., and continue up to the 3rd January 1886. Tradesmen dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

### Notice.

#### GYA MICA MINES.

IT is proposed to give leases to prospect for and extract mica in the Government estates of Dubour and Chatkari in the district of Gya. Offers from persons likely to work the mines in a scientific manner will be received by the Collector of Gya.

D. NORTON, Offg. Collector.

The 1st October 1885.

IN pursuance of section 42, Act XXVIII of 1866, notice is hereby given that all persons having claims against the estate of James Hamilton Nolan, late of the Halmirah tea estate, near Golaghat, Assam, tea planter, who died at Melbourne, Australia, on the 3rd day of April 1885, should send in their claims to the undersigned on or before the 11th day of January 1886, after which date no claims will be admitted, and the assets of the estate will be distributed.

SANDERSON & Co., Attorneys for the administrator.  
Calcutta, the 11th October 1885. (673—2)

## Extension of Value-Payable system to Unregistered Book-packets.

FROM and after the 1st October 1885, the value-payable system will be extended to unregistered book-packets, prepaid and unpaid.

2. Value-payable unregistered book-packets must be presented at the window with a memorandum in the prescribed form containing the name and address of sender and the amount to be collected.

3. Booksellers and others, who require a certificate that the book-packet has been duly posted, can also obtain a certificate of posting, if presented ready written in a book or on a separate slip. The certificate should be simply a copy of the address on the book-packet, and should bear a half-anna stamp, which will be defaced and the certificate returned to the messenger.

4. The postage for an unregistered book-packet sent value-payable will be the same as for an ordinary book-packet. The value-payable commission will be deducted from the amount recovered from the addressee.

5. Value-payable unregistered book-packets will be delivered at the door of the addressee, and the money will be collected by the postman. Delivery of value-payable *parcels* and value-payable *registered* articles must, however, be made at the Post Office, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 19th September 1885.

### Parcels to be presented with receipts ready filled up.

UNDER the provisions of the Notification of the Government of India in the Department of Finance and Commerce, No. 3120, dated the 18th September 1885, the public are informed that from the 1st October 1885 all parcels, when presented at the window for despatch, should be accompanied by a simple receipt, ready filled up in the *prescribed form*. This will be signed and returned to the messenger. Forms will be given gratis by the Post Office, which will only grant receipts for parcels in future, when the above conditions are complied with.

2. As at present, value-payable and insured articles need only be accompanied by the prescribed V.P. memoranda or insured declarations.

3. Firms that post many ordinary parcels or value-payable articles will be given books of receipts or V.P. memoranda on application.

4. Ordinary parcels presented without the prescribed receipts ready filled up will be forwarded, but no receipt will be given for them.

5. An acknowledgment from the addressee that the parcel has been duly received can be obtained on payment of one anna extra, as heretofore.

H. E. M. JAMES,

Offg. Director-General of the Post Office of India.  
Simla, the 19th September 1885.

JOHN ELIOT, M.A., *Meteorological Reporter*

*to the Govt. of Bengal.*

CALCUTTA, the 26th August 1875.

## Notes on Forestry,

By C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

**T**HIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

## The Indian Law Reports,

Published under Authority.

**T**HE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

Without postage. With postage.

For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
" each of the Madras, Bombay, and Allahabad Series ...	6 0	7 0
" a part of the Calcutta Series purchased separately (inclusive of postage in India) .....		2 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India) ...		1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

  " Thacker & Co., Bombay.

  " Higginbotham & Co., Madras.

The Government Central Book Depôt, Bombay.

  " Curator of Government Books, North-Western Provinces and Oudh.

  " Superintendent of Government Printing Bengal.

*Orders and subscriptions for 1885 should be at once remitted.*

## Notice.

**T**HE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

**1st.**—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

**2nd.**—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e. from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

**3rd.**—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,

Meteorological Reporter to the Govt. of Bengal.  
Meteorological Office, Bengal, the 3rd July 1883.

**A Manual of Reference to the Examinations** in Oriental Languages, with the latest orders of Government, and specimen papers of the various standards. By Lieutenant-Colonel H. S. JARRITT. New Edition Rs. 4. Apply to the Librarian, 17, Elysium Row.

## PART V.

### Acts of the Governor General's Council assented to by the Governor General

#### GOVERNMENT OF INDIA.

#### LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 2nd October, 1885, and is hereby promulgated for general information :—

#### ACT No. XV OF 1885.

*An Act to amend the Local Authorities Loan Act, 1879.*

WHEREAS it is expedient to amend the Local Authorities Loan Act, 1879; It is hereby enacted as follows :—

Addition to section 8, Act XI of 1879.

1. After clause (b) of the proviso to section 8 of the said Act the following shall be added :—

“or

“(c) to affect the power conferred on any local authority by any such enactment to charge its funds by guaranteeing the payment of interest on money to be applied to any purpose to which the funds of the local authority can legally be applied.”

D. FITZPATRICK,  
Secy. to the Govt. of India.

#### LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill to amend the Local Authorities Loan Act, 1879, was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 23rd September, 1885 :—

WE, the undersigned, Members of the Select Committee to which the Bill to amend

- From Secretary to Chief Commissioner, British Burma, No. 303—244, dated 13th June, 1885 [Paper No. 1].
- From Secretary to Chief Commissioner, Assam, No. 972, dated 18th June, 1885 [Paper No. 2].
- From Chief Commissioner, Ajmer-Merwara, No. 722, dated 3rd July, 1885 [Paper No. 3].
- From Secretary to Government, North-Western Provinces and Oudh, No. 3051—A-518, dated 10th July, 1885 [Paper No. 4].
- From Officiating Secretary to Government, Punjab, No. 7318, dated 17th July, 1885, and enclosures [Papers No. 5].
- From Secretary for Berar to Resident, Hyderabad, No. 2740, dated 13th July, 1885 [Paper No. 6].
- From Secretary to Chief Commissioner, Coorg, No. 688—89, dated 14th July, 1885 [Paper No. 7].
- From Chief Secretary to Government, Madras, No. 1800, dated 10th July, 1885, and enclosures [Papers No. 8].
- From Under Secretary to Government, Bombay, No. 2054, dated 18th July, 1885, and enclosures [Papers No. 9].
- From Officiating Secretary to Government, Bengal, No. 1370, dated 20th July, 1885, and enclosures [Papers No. 10].
- From Assistant Secretary to Chief Commissioner, Central Provinces, No. 3052—117, dated 11th August, 1885 [Paper No. 11].

the Local Authorities Loan Act, 1879, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

2. It has been suggested that the term “raised” should be altered so as to include money devoted to any particular purpose by a person who may not have occasion to raise it, and we have accordingly substituted the words “applied to” for “raised for”.

3. The only other alteration we have made in the Bill is a purely verbal one.

## 4. The publication ordered by the Council has been made as follows :—

<i>Gazette.</i>	<i>In English.</i>		<i>Date.</i>
<i>Gazette of India</i> ...	...	...	16th, 23rd and 30th May, 1885.
<i>Port St. George Gazette</i> ...	...	...	2nd June, 1885.

Kishoregunge ...	1.52		
Attia ...	0.43		
Netrokona ...	2.21		
Cold weather set in. Rivers falling rapidly. Prospects of growing crops good. Ground being prepared for mustard and other winter crops.			

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.— <i>conold.</i>			
<i>Eastern District—contd.</i>			
CHITTAGONG DIV.	23 Chittagong Oct. 20 '85	1.58	Weather—somewhat hot. Prospects generally fair. Standing crops damaged in some places by grubs. Prices steady. Public health good.
	23 Noakholly, " 16 "	7.38	Heavy rain on the 13th and 14th. Sky clear again. Rain has done much good to <i>aman</i> crop. The sub-divisional officer reports "damaging of the crops by insects called <i>ledha</i> is somewhat less than last week." Public health good.
	24 Fenny " 15 "	0.80	Weather—hot and close. Prospects of crops good. Ploughing for cold-weather crops progressing actively, and sowings in some places commenced. Some cases of fever, public health otherwise good.
	24 Tipperah " 15 "	1.42	Weather—cloudy, especially on 12th and 13th, otherwise sunny. Days very hot. Fogs in the morning. <i>Joom</i> crops newly reaped. Prospects of cotton and sugarcane good. Mustard lands under preparation, as well as lands for winter crops, viz. tobacco and other vegetables.
	25 Brahmanbariah " 13 "	1.98	Weather—cloudy. <i>Amun</i> paddy doing well Prospects of <i>til</i> and sugarcane fair. Public health good.
	Chandpore " 13 "	0.40	
	25 Chittagong Hill Tracts. " 13 "	0.07	
	Hill Tipperah, " 14 "	0.98	
BEHAR.			
PATNA DIV.	26 Patna, Oct. 17 '85	Nil	Weather—clear. Prospect of paddy crop where sown good; fields being prepared for sowing <i>rubbee</i> crops. Fever prevalent all over the district.
	27 Gya, " 17 "	Nil	No rain anywhere during the week. Some showers much needed for <i>kharref</i> and <i>rubbee</i> sowings; otherwise prospects good. Health fair. Prices almost stationary.
	28 Shahabad, " 17 "	Nil	Weather—days hot; mornings and evenings getting cool. <i>Rubbee</i> sowings proceeding. Prospects of winter rice promising, but rain is wanted. Fever reported from the Buxar and Sasseram sub-divisions, and cholera also from the latter.
	28 Buxar " 17 "	0.02	
	28 Bhabhua " 17 "	Nil	
	29 Sasseram " 17 "	Nil	
	29 Durbhanga, " 17 "	Nil	Fine clear weather. Paddy crop in excellent condition except in tracts where damage has been done to it by the late floods. On high lands it stands in need of more water. Fields for <i>rubbee</i> sowings are being prepared. Prices stationary. Cholera still continues in the Madhubani sub-division.
	30 Mozufferpore, " 17 "	Nil	Weather—warm; seasonable. Prospects of rice promising. Harvesting of <i>bhadoi</i> almost completed, and land is under preparation for <i>rubbee</i> sowings. Mortality from cholera still reported from the Sitamarhi sub-division; public health in other parts of district good.
	30 Sitamarhi " 17 "	Nil	
	30 Hajipur " 17 "	Nil	
	31 Sarun, " 17 "	Nil	Weather—seasonable. Standing crops looking well. Fields being prepared for <i>rubbee</i> sowings. Sporadic cases of cholera and fever reported, but on the whole general health good.
	31 Sewan " 17 "	Nil	
	32 Chumnaun " 17 "	Nil	Weather—seasonable. Harvesting of <i>bhadoi</i> crops nearly completed. Prospects of <i>aghawi</i> crops continue good. Prices of food-grains have fallen slightly. Public health generally good.
BAGULPUR DIV.	33 Monghyr, Oct. 17 '85	Nil	Weather—fine with passing clouds. Prospects continue good, but rain is much wanted; the high land rice is said to be drying up for want of it in the Janui sub-division. Prices steady. Public health good.
	33 Begusrai " 17 "	Nil	
	33 Janui " 17 "	Nil	
	34 Bhugniore, " 17 "	Nil	Weather—fine; warm; rather cloudy. Crops on the ground doing well, but rain wanted for <i>dhan</i> on high land. Much cholera still about.
	34 Banka " 17 "	0.38	
	35 Purneah " 17 "	Nil	Weather—fair and cool. Prospects of crops good. Cold-weather crops promising well. Some fever and a little cholera in a few places; public health otherwise good.
	35 Kishengungo " 17 "	0.05	
	35 Arrareah " 17 "	Nil	
	36 Maldah " 17 "	0.35	Weather—fine and hot. Prospects of winter rice and <i>kalai</i> continue good, but would be better for some more rain. A few cases of cholera reported from Khurba and Katua thanas. Coarse rice selling at from 12 to 18 seers per rupee.
	37 Sonthal Pergas, " 17 "	Nil	Weather—variable in the early part of the week, but now setting fair. Prospects of <i>dhan</i> excellent everywhere. <i>Rubbee</i> sowings progressing most favourably. Prices falling. General health fairly good, but fever prevalent.
	37 Deoghur " 17 "	Nil	
	37 Godda " 17 "	Nil	
	37 Rajnehal " 17 "	Nil	
	37 Jamtara " 17 "	Nil	
	37 Pakour " 17 "	1.67	
ORISSA.			
ORISSA DIV.	38 Cuttack Oct. 16 '85	0.39	Weather—hot and cloudy. Reaping of <i>beali</i> completed. Early <i>sarad</i> in ear; late <i>sarad</i> doing well, but requires rain. Common rice sells at 11 seers per rupee in town and 15 seers in average in the interior. Public health generally good.
	39 Pooree, " 15 "	1.02	Weather—hot with occasional showers. Second weeding of late <i>sarad</i> paddy still going on. Early <i>sarad</i> ripening. Miscellaneous crops doing well. Prices stationary. Public health good.
	39 Khoorda " 15 "	0.20	
	40 Balasore, " 16 "	Nil	Weather—clear and warm. <i>Beali</i> crops are advancing towards ripeness, and have been reaped in some places. Prospects of rice crop good except in places visited by sea-waves. Public health generally good.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.			
<i>South-West Frontier Agency.</i>			
41	Hazaribagh. Oct. 16 '85	Nil	Weather—bright and clear; unusually warm. Rain much wanted in parts of the district, elsewhere prospects of rice and other crops continue good. Cholera abating; fever reported; general health otherwise good.
42	Lohardugga, „ 17 „	Nil	Weather—hot and cloudy. Prospects of winter crops continue favourable. Prices steady. Slight rain much wanted for rice crop on high land. <i>Bhadoi</i> crops reaped and harvested; outturn estimated at 14 annas in the head-quarters sub-division, and in Palamow 10 to 12 annas. Public health generally good. Sporadic cases of cholera and fever reported from Palamow.
43	Singbhoom, „ 16 „	1.32	Weather—getting cooler daily. Prospects of crops excellent everywhere. Prices easy. General health good.
44	Manbhoom, „ 17 „	0.11	Weather—seasonable. A shower of rain would do good to crops on high lands in Govindpore. On the whole, however, prospects are excellent, and a sixteen-anna <i>amun</i> crop is expected. Common rice sells at 20 seers per rupee.

Published for general information.

\* Means for six days.

**Explanation.—Summary.**—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same period. The humidity of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 100. The normal means of rainfall are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisions of the district (i.e., the total rainfall at the sub-divisional stations in the district sending in returns divided by the number of stations. A rainy

for the week ending Friday, the 16th of October 1885.

ied for the past ten years. The variations are negative when the mean for the week is less than the corresponding normal mean, and positive when greater. 10. The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District" observations for the period in question during the past 12 years. The means of the "district" are the numerical averages of the rainfall returns received in one on which at least hundredth of an inch fell.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding space in the total rainfall columns are left blank.

CALCUTTA, the 19th October 1885.

## SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 16TH OF OCTOBER 1885.

The past week has again been one of comparatively little importance from a meteorological point of view. The characters of the meteorological elements have been almost entirely those of the transition period which marks the close of the south-west monsoon, and ushers in the north-east or cold-weather monsoon. The week has therefore mainly been one of light winds, comparatively high day temperatures, slowly reducing night temperatures, reducing humidity and cloud proportion, together with occasional light rain showers in the southern, south-western and eastern districts.

The only abnormal feature, if it may be called such, for it is one which frequently occurs in October, has been the occurrence of a small cyclonic storm in the Bay, which affected the weather in Orissa, South-West and East Bengal for two or three days in the middle of the week. The small storm can be traced back probably as far as Saturday the 10th, when pressure was falling somewhat rapidly off Madras, and the wind directions along this coast apparently showed a tendency to cyclonic circulation. The small depression was probably forming on this day, and its existence was shown by a fairly strong indraught at the entrance of the Bay, but at this time, and throughout the whole of its existence, the storm remained comparatively feeble. The disturbed conditions continued almost unaltered off Madras on the 11th, and then the storm apparently moved in a northerly direction almost parallel to the coast line, and on the 12th the centre was off Vizagapatam. The depression on this day had distinctly deepened, but the winds at the coast stations continued comparatively feeble. On Tuesday, the 13th, the small storm was apparently advancing along the coast nearly opposite to Gopalpore, and on this day it slightly intensified, and by the following morning (the 14th) it was to the east of False Point, and was still advancing in a north-easterly direction. As the storm was thus advancing near the Sandheads, at daylight on the 14th orders were issued to the stations in the river to hoist storm signal No. 7, indicating the probable passage of a small cyclonic storm in a northerly direction to the east of Saugor Island and to the west of Chittagong. From reports subsequently received, it would appear that very bad weather prevailed at the Sandheads on this day, but the wind velocities at the coast stations continued comparatively small. The small storm continued its north-easterly advance, but pressure commenced to rise rapidly, and in its approach towards the land the depression commenced to fill up, and by the 15th it had become a shallow depression only, attended with light wind, and it was passing over the land area between Saugor Island and Chittagong. On this day, therefore, at about midday, the storm signals were lowered.

Winds, however, still continued to circulate cyclonically round the head of the Bay, even after the barometric depression over the land had disappeared. A peculiar feature of this storm was the extreme slowness of its movement, and the comparative lightness of the winds at the coast stations. Over the sea area, however, probably winds were strong, and, judging from the movements of the upper strata of the atmosphere, the indraught towards the centre of the storm was rather intense. Another point in connection with the storm was the comparative absence of heavy rain, and it would appear from theory that this is precisely what might be expected in a storm like that above described. On Friday, the 16th instant, these disturbed conditions had almost entirely passed away, and weather was fine all over Bengal and also apparently over the whole Bay.

During the continuance of the above conditions and the advance of the storm, round which there was of course the usual cyclonic circulation of winds, weather in Orissa, South-West and East Bengal also became disturbed, and light rain showers became comparatively frequent in these districts; but in Chutia Nagpur, North and South Behar and North Bengal, which were practically not under the influence of these disturbed conditions, weather has been fine almost throughout the week, and, with the exception of a few insignificant showers, rain has been absent for the whole of this period.

The variations of pressure for the week have been of little importance. At the commencement of the week it was distinctly, but slightly, above the normal in all districts, but on the Saturday pressure fell slowly at most stations. On the Sunday there was a somewhat rapid rise over the greater part of the Province, and on Monday, the 12th, pressure generally fell, the fall being largest at the Orissa stations. From this day up till Friday the variations of pressure were to a great extent dependent on the movement of the storm above described, and thus pressure generally fell slowly, though of course at the inland stations, which were beyond the influence of the storm, the variations were only of the usual oscillatory character. For the week, over the whole Province, pressure has therefore been not far removed from the normal, the average pressure only showing the slight excess of 0.01". The variations at the particular stations also show clearly the effect of the passage of the small storm, and thus, while at Saugor Island and at Cuttack the average pressure of the week has been almost absolutely normal, at Dacca it has been 0.03" above it.

Temperature has continued rather high throughout the week, and this has been again particularly noticeable in the maximum or day temperatures. Very many stations have reported almost daily temperatures above 90°, and at Gya, on the 12th, a maximum temperature of no less than 94.3° was registered. The minimum or night temperatures have not fallen

much during the week, and thus the mean daily temperature for the week has been at almost all stations distinctly above the normal. The average excess temperature in Orissa, Chutia Nagpur and North and South Behar has been nearly  $2^{\circ}$ ; in South-West Bengal the excess has been about  $1^{\circ}$ , while in East Bengal the slight average defect of  $0.4^{\circ}$  is reported.

Except in the three districts—East Bengal Orissa and South-West Bengal—as previously described, rainfall has been practically absent throughout the week. Thus in North Behar absolutely no rain was reported from any station; in South Behar the average fall over the whole Province is only two hundredths of an inch, though in fact the slight rainfall was entirely confined to the Sonthal Pergunnahs district, and in Chutia Nagpur the average fall in all stations was only eight hundredths of an inch. North Bengal has received rather a larger amount and averages  $0.31$  inch over the whole Province. South-West Bengal has registered an average fall of  $0.75$  inch, which fell on an average number of  $1.8$  days. Orissa has received  $0.83$  inch on an average number of  $1.7$  rainy days. In both these districts the normal fall for this week is practically two inches, so that they have received decidedly less than half the normal fall; while on the other hand East Bengal has received an average fall of  $1.68$  inches on  $2.1$  rainy days, the normal fall for the period being  $1.99$  inches. This district then alone of the whole Province has received a fall which is approximately normal.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 16th of October 1885:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.						RAINFALL.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month.		Since 15th May 1885.

The average relative humidity of the corresponding period for 24 years, S. G.'s Office ...

The total fall of rain from 11th to 17th October 1885 ...

The average fall of the corresponding period for 24 years, S. G.'s Office ...

The total fall from 1st January to 17th October 1885 ...

The average fall of the corresponding period for 24 years, S. G.'s Office ...

The mean pressure, temperature, &amp;c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, p passing temporary showers, t thunder, d dew, lr. lightning reflection, < lightning, g gloomy, = fog, d drizzling rain.

## PART I.

### Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

#### ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 3283A.

**GENERAL.**—*The 15th October 1885.*—Baboo Raghu Nath Sahai, Temporary Deputy Magistrate and Deputy Collector, Sarun, is appointed to perform the functions of a Collector under section 4 of Act VII (B.C.) of 1880 in that district.

*The 20th October 1885.*—Mr. A. W. R. Cadell, Assistant Magistrate and Collector, Barh, Patna, is allowed leave for twelve days, under section 72, chapter V of the Civil Leave Code, in extension of the leave granted to him under the order of the 8th September last.

*The 23rd October 1885.*—Mr. A. W. Mackie is appointed to act, until further orders, in the first grade of Joint-Magistrates and Deputy Collectors in the district of Lohardugga, with effect from the date on which he was relieved of his acting appointment as Deputy Commissioner of that district.

*The 26th October 1885.*—Baboo Mohiny Mohun Chuckerbutty, Deputy Magistrate and Deputy Collector, Tumlook, Midnapore, is transferred to Furreedpore, and is appointed to have charge of the Madaripore sub-division of that district.

Baboo Juggobundhoo Bhattacharjee, Deputy Magistrate and Deputy Collector, Midnapore, is appointed to have charge of the Tumlook sub-division of that district.

Baboo Peary Mohun Banerjee, Deputy Magistrate and Deputy Collector, on leave, is transferred to Tipperah, and is appointed to have charge of the Brahmunberiah sub-division of that district.

This cancels the order of the 1st instant, transferring Baboo Peary Mohun Banerjee to Jehanabad in the district of Hooghly.

Mr. B. M. Tower, District and Sessions Judge, Moorshedabad, will continue to act as District and Sessions Judge of Midnapore until further orders.

**POLICE.**—*The 26th October 1885.*—Mr. O. A. Fisher, District Superintendent of Police, Khoolna, on furlough, is appointed to be District Superintendent of Police, Tipperah.

Mr. R. W. Keown, Assistant Superintendent of Police, Serajgunge, Pubna, is posted to the Chittagong Hill Tracts, but will continue to act as District Superintendent of Police, Howrah, until relieved.

Mr. C. S. Murray, Assistant Superintendent of Police, 24-Pergunnahs, is posted to the Chittagong Hill Tracts, but will continue to act as District Superintendent of Police, Tipperah, until relieved.

Mr. R. L. Ward, Assistant Superintendent of Police, Gya, is posted to Serajgunge, in the District of Pubna, but will continue to act as District Superintendent of Police, Rajshahye, until relieved.

**MEDICAL.**—*The 24th October 1885.*—Surgeon-Major W. A. Gilligan, Officiating Civil Surgeon, Chittagong, is appointed to be Civil Surgeon of Durbhunga.

Surgeon-Major J. Wilson, Officiating Civil Surgeon, Lohardugga, is appointed to act as Civil Surgeon of Chittagong, during the absence, on deputation, of Surgeon-Major R. D. Murray, or until further orders.

Surgeon W. Beatson, Officiating Civil Surgeon, Patna, is appointed to act as Civil Surgeon of Monghyr, during the absence, on deputation, of Surgeon-Major E. Bovill, or until further orders.

Surgeon-Major H. Whitwell, Officiating Civil Surgeon, Monghyr, is appointed to act, until further orders, as Principal Assistant to the Opium Agent, Behar.

Surgeon-Major H. B. Purves, Civil Surgeon, 24-Pergunnahs, is appointed to be Civil Surgeon of Patna and Superintendent of the Temple Medical School, Bankipore.

This cancels the order of the 21st September 1885, appointing Surgeon-Major Purves to act as Civil Surgeon of Patna.

Surgeon-Major C. H. Joubert, Officiating Professor of Midwifery, Medical College, Calcutta, is appointed to be Civil Surgeon of Rungpore.

Surgeon-Major Joubert will act as Civil Surgeon of the 24-Pergunnahs, during the absence, on deputation, of Surgeon-Major J. F. McConnell, or until further orders.

Surgeon-Major J. F. McConnell, Officiating Professor of Materia Medica and Clinical Medicine, Medical College, Calcutta, is appointed to be Civil Surgeon of the 24-Pergunnahs, but will continue to act in his present appointment until relieved by Surgeon-Major R. C. Chandra, or until further orders.

Dr. R. A. Barker, Civil Medical Officer, Serampore, Hooghly, is appointed to have medical charge of the civil station of Beerbhoom as a temporary arrangement.

*The 26th October 1885.*—Surgeon-Major E. G. Russell, Civil Surgeon of Nuddca, is allowed leave for fourteen days, under section 72, chapter V of the Civil Leave Code, with effect from the date on which he may avail himself of it.

**OPIUM.**—*The 19th October 1885.*—Mr. H. F. Campbell, Sub-Deputy Opium Agent, Benares Agency, is allowed furlough for five weeks, in extension of the furlough granted to him under the order of the 27th January 1885.

F. B. PEACOCK,  
Chief Secy. to the Govt. of Bengal.

#### NOTIFICATION.

*The 23rd October 1885.*—In accordance with the provisions of section 47 of Act XII of 1875, the following statement of receipts and expenditure of the Balasore Port Fund for the year 1884-85 is published for general information.

J. WARE EDGAR,

## NOTIFICATION.

*The 26th October 1885:*—The following papers regarding the imposition of B. Quarantine at Aden and Perim against vessels arriving from Shanghai are republished for general information.

J. WARE EDGAR,  
Offg. Secy. to the Govt. of Bengal.

*Quarantine, imposition of—at Aden and Perim against vessels arriving from Shanghai.*

No. 3991.

GENERAL DEPARTMENT.

Bombay Castle, 20th October 1885.

Telegram from the Government of India, Home Department, Simla, dated 19th October 1885:—

"Your telegram 16th. Imposition quarantine at Aden and Perim against Shanghai sanctioned."

**RESOLUTION.**—A notification should be published in a *Bombay Government Gazette Extraordinary* bringing the B. Quarantine Rules into operation at Aden and Perim against arrivals from Shanghai.

2. Copies of the notification should be forwarded to the Political Resident, Aden, and the other officers and departments concerned for information, with reference to Government Resolution No. 3933, dated 15th instant. Copies should also be forwarded to the Governments of India, Bengal, Madras and Ceylon, and the Chief Commissioner, British Burmah.

J. MONTEATH,  
Under-Secy. to the Govt. of Bombay.

## NOTIFICATION.

## GENERAL DEPARTMENT.

*Bombay Castle, 20th October 1885.*

No. 3991.—In exercise of the power conferred by Act I of 1870, the following rules for quarantine against cholera have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they will take effect from the 14th instant in the Port of Aden and at Perim as a temporary measure:—

I.—The Commander of every vessel, including buggalows or other native craft, arriving from Shanghai shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on any such arrival being signalled, the Health Officer of the port shall go alongside the vessel, and, if communication with the shore is desired, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival in the harbour, or for the shorter period prescribed in rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects and susceptible goods. The Health Officer shall also direct the Commander to prohibit, during the period for which the vessel remains at the quarantine anchorage as aforesaid, all communication, except such as is hereinafter provided for, between such vessel and the shore, or other vessels and boats in the harbour. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year, and no communication shall be allowed with the pilot boat, otherwise than orally, or with the shore.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	...	...	Six days of quarantine.
Do. nine ditto	...	...	Five ditto.
Do. ten ditto	...	...	Four ditto.
Do. eleven ditto	...	...	Three ditto.
Do. twelve ditto	...	...	Two ditto.
Do. thirteen ditto	and upwards	...	Twenty-four hours of quarantine.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to

remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden and Perim which may have communicated with vessels coming from Shanghai shall be subjected to the same quarantine as vessels arriving at Aden and Perim from that port.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills of health.

By order of His Excellency the Right Hon'ble the Governor in Council,

J. NUGENT,  
*Secretary to the Govt. of Bombay.*

[Third Publication.]

NOTIFICATION.

The 13th October 1885.—The following Notice to Mariners is published for general information.

J. WARE EDGAR,  
*Offg. Secy. to the Govt. of Bengal.*

GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS—(No. 59.)

INDIA—WEST COAST.

## PART IB.

### ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

#### MUNICIPAL AND LOCAL.

##### NOTIFICATION.

*The 19th October 1885.*—It is hereby notified for general information that an election will be held, under section 27, Act III (B.C.) of 1884, on the 16th December next, in the Sahabgunge Municipality, in the district of the Southal Pergunnahs, for the purpose of filling up the vacancies in the place of the following gentlemen, who have ceased to be Commissioners under section 20 of the Act:—

Baboo Jadu Nath Ghatak.

Baboo Sital Sing.

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

##### NOTIFICATION.

*The 19th October 1885.*—It is hereby notified for general information that, under the powers vested in the Local Government by section 30, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to exclude from the operation of the Bengal Municipal Act, III (B.C.) of 1884, that portion of the road from Khoorna to Jessore which lies within the limits of the Khoorna Municipality, and to authorize its transfer to the charge of the Road Cess Committee of the district of Khoorna.

This notification does not apply to the side drains of the said road.

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

##### NOTIFICATION.

*The 19th October 1885.*—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221, Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Busseerhat Municipality, in the district of the 24-Pergunnahs, made at a meeting, to extend the provisions of sections 233, 234, 235, 249, 250 and 251 of Part VI of the said Act to the above municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the municipality.

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

##### DECLARATION.

*The 19th October 1885.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Baidyabat Municipality for a public purpose, viz. for widening the Mukhurjipara Lane, in the village of Chatra, pergunnah Boroe, zillah Hooghly, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1½ chittacks of standard measurement is required. It is bounded on the north and east by the Mukhurjipara Lane in Chatra; on the west by Khetter Nath Bhattacharji's lakhraj land; and on the south by Nando Lal Goswami's khas khamar land.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,

*Offg. Secy. to the Govt. of Bengal.*

## [Third Publication.]

## NOTIFICATION.

*The 12th October 1885.*—The following draft of rules, which the Lieutenant-Governor proposes to make under clause (a) of section 138 of the Bengal Local Self-Government Act, 1885, is published for general information under section 143 of the said Act, and notice is hereby given that they will be taken into consideration on or after the 1st December 1885, when any objections or suggestions which may be made by any person and received before that date will also be considered.

## PART I.

## ELECTION OF MEMBERS OF UNION COMMITTEES.

*Preliminary.*

Throughout this and the following Parts the term "Magistrate of the district" shall have the meaning prescribed by section 5 of the Act.

2. Whenever a Union, constituted under section 38 of the Act, comprises two or more villages, the Magistrate of the district shall decide in what manner such Union shall be divided into electoral wards, and the proportional number of members to be returned for each of such wards. Such arrangement shall remain in force in subsequent elections until altered by similar authority.

*Of the qualification of Voters.*

3. Every male person of the full age of twenty-one years, resident within the area comprised in a Union, who has, during the year immediately preceding the election of the members of the Committee of such Union, paid any road cess, license tax or chowkidari tax, or who is a member of a joint undivided family, which has during such period paid any such cess or taxes, shall be entitled to vote at such election.

*Of the qualification of Candidates.*

4. Any person qualified under the preceding rule, and who in addition can read and write, shall be qualified as a candidate for any ward in the Union.

*Of the manner of holding elections.*

5. The Magistrate of the district shall decide at what place or places within the Union and on what date or dates the election of the members of the Union Committee shall be held.

6. The dates fixed for such elections shall be duly notified in all the villages of the Union, in such manner as may appear suitable to the Magistrate of the district, and at least fourteen days beforehand: any costs incurred in issuing notices under this rule shall be defrayed from the District Fund.

7. Each voter shall vote for the ward in which he ordinarily resides, and for no other. He may vote for as many candidates as there are members to be returned for such ward, but shall not give more than one vote for any single candidate.

8. All persons wishing to vote must be present at the elections. No votes by proxy or in writing shall be received.

9. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district may depute for the purpose, shall preside at the election for each Union or portion of a Union.

10. The elections for the different wards in the Union shall be held in succession; the proceedings in every case being commenced by the presiding officer explaining to the assembled voters the nature and objects of the election and the number of members to be returned.

11. The assembled voters of the ward shall be allowed to consult together and elect the necessary number of members in their own manner. They shall report to the presiding officer the names of the persons they have elected, and if such persons are duly qualified, and no objection is raised to the manner in which the election has been conducted, the presiding officer shall declare that they have been duly elected.

12. If the result of the election held under the preceding rule is called in question, the presiding officer shall proceed to take a poll, recording the number of votes given for each candidate with his own hand. He shall then and there declare such duly qualified candidates as have a majority of votes to be duly elected.

13. If an equal number of votes is recorded in favour of two or more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot, in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

14. If at any election held under these rules the number of voters of any ward shall be less than ten per cent of the total number of house-holders in such ward, the Commissioner may order that the election shall be held again, or may decide that the electors have failed under section 40 of the Act to elect members.

15. Objections regarding the qualifications of candidates and voters shall be summarily decided by the presiding officer, and such decision shall be final.

16. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected.

17. Except as provided by rule 15, no election held under these rules shall be invalidated on any ground whatever.

18. The list of duly returned candidates shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

## PART II.

### ELECTION OF MEMBERS OF LOCAL BOARDS.

#### *Preliminary.*

19. When the number of members of a Local Board has been fixed by a notification issued under section 8, the Commissioner shall decide the number of members who shall be elected for each thana within the area of such Local Board, and shall issue orders accordingly. Such orders shall be published in the *Calcutta Gazette*, at the district and sub-divisional offices, and at the head-quarters of each of the thanas in question; and in such other manner as the Commissioner may prescribe.

20. The first election of any Local Board under these rules shall take place at such time, not being more than three months after the Act comes in force in the districts mentioned in the Third Schedule of the Act, and after the date of a notification establishing Local Boards in any other district, as the Lieutenant-Governor shall direct.

#### *Of the Qualification of Electors.*

21. Every male person of the full age of twenty-one years, resident within the area under the authority of a Local Board, who is qualified in one of the manners following, that is to say—

- (1) Is a member of a Union Committee within such area;
- (2) Has, during the year immediately preceding such election,—
  - (a) paid a sum of not less than one rupee on account of road cess in respect of land situated either wholly or in part within such area;
  - (b) paid license tax in respect of a trade, dealing, or industry carried on within such area; or
  - (c) been possessed of a clear annual income from any source of not less than two hundred and forty rupees.
- (3) Being a member of a joint undivided family, one of the members of which is qualified for election as in this rule hereinbefore provided, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtar,

shall be entitled to vote at an election of members of such Local Board.

#### *Of the Registration of Electors.*

22. In all districts mentioned in the Third Schedule of this Act, or in which a Local Board may hereafter be established, the Magistrate of the district shall cause to be prepared for each thana within the area of a Local Board a register of persons qualified to vote. Such register shall be prepared from assessment lists, from enquiries made by persons specially deputed for the purpose, and in such other manner as may appear expedient. Such register shall from time to time be corrected and added to as the Magistrate of the district may direct.

23. At least one month before the date fixed for the election for any thana, a copy of the register showing the persons qualified to vote for such thana shall be published at suitable places within that thana. Copies of all the thana registers shall also be published at the sub-divisional office. Provided that all such registers made and published before these rules come into operation shall be held to have been duly made under Rule 4 and duly published under Rule 5.

24. Any person claiming the right to vote may submit to the Magistrate of the district an application in writing for the entry of his name in the register of electors, stating distinctly in what manner he is qualified; and all such applications, if made at least one month before the date fixed for the election, shall be duly enquired into. A notice of the claims thus made shall be published at the thana at least three weeks before the date fixed for the election; and all objections made to them and received at least one week before the date fixed for the elections shall be duly considered.

25. All claims to vote, and the objections thereto, shall be considered by the Magistrate of the district, and his decision shall be final.

26. The thana list as amended, after the hearing and decision of claims and objections, shall be considered to be the final lists of persons entitled to vote at the election, and no person whose name does not appear in the thana list shall be permitted to vote.

#### *Of the qualification and the nomination of Candidates.*

27. Every male person of the full age of twenty-one years, who is qualified in one of the manners following, that is to say—

- (1) Is a member of a Union Committee within the area under the authority of the Local Board;
- (2) Has during the year immediately preceding the election had his fixed place of abode within the area under the authority of such Local Board; and

- (a) paid a sum of not less than five rupees on account of road cess in respect of land situated either wholly or in part within the area under the authority of the Local Board ;
  - (b) paid a license tax of not less than twenty rupees in respect of a trade, dealing, or industry carried on within the area under the authority of the Local Board ; or
  - (c) been possessed of a clear annual income from any source of not less than one thousand rupees.
- (3) Being a member of a joint undivided family, one of the members of which is qualified for election under clause (1), or clause (2) (a) or (b) of this rule, is a graduate or licentiate of any University, or holds a certificate as a pleader or mookhtear,

shall be qualified for election as a member of the Local Board for any thana under the authority of such Local Board.

28. Any elector may, for the thana in which he is qualified to vote, nominate any qualified person as a candidate.

29. The Magistrate of the district shall, at least six weeks before the date fixed for the thana election, issue notices calling for nominations of candidates. Such notices shall be published at every village within the thana. All nominations shall be submitted within three weeks from the date of the publication of the notices in question. No names of candidates shall be received after the expiration of such period. Provided that all such notices or nominations which may have been issued or made before these rules come into operation shall be held to have been issued or made under these rules.

30. The Magistrate of the district shall ascertain whether all of the nominated candidates are duly qualified to take office : his decision on this point shall be final. He shall also, if possible, ascertain whether they are all willing to take office.

31. A list of the candidates who are duly qualified, and who appear to be willing to take office, shall be published at suitable places in the thana at least one week before the date fixed for the election. No candidate whose name does not appear in such list shall be considered eligible.

#### *Of the manner of holding Elections.*

32. The election for each thana shall be held on such date as may be fixed by the Lieutenant-Governor and notified in the *Calcutta Gazette*.

33. The election for each thana shall be held at the head-quarters of the thana.

34. The date fixed for the thana election shall be duly notified at the thana, and at such other places as may appear suitable, at least one month beforehand.

Provided that any notice to this effect issued previous to these rules coming into force shall be held to be valid under these rules. A vernacular notice in the following form shall also, at least one week before the date fixed for the election, be despatched by post, or by such other mode as may be found convenient, to every elector whose name appears in the register :—

“ You are hereby informed that you are registered as a voter for the thana, and that you will be entitled to vote at the election of \_\_\_\_\_ members of the Local Board to be held at \_\_\_\_\_ on the \_\_\_\_\_ 18 \_\_\_\_.”

35. An elector duly qualified under Rule 4 shall be entitled to vote for the thana in which he ordinarily resides, and for no other. He shall be entitled to vote for as many candidates as there are vacancies for such thana, but shall not give more than one vote for a single candidate.

36. All persons wishing to vote must be present at the election. No votes by proxy or in writing shall be received.

37. The Magistrate of the district, or such other gazetted officer as the Magistrate of the district shall depute for the purpose, shall preside at the election for each thana.

38. The proceedings shall commence by the presiding officer explaining the nature and objects of the meeting to the assembled voters. He shall then read out the list of candidates, and state the number of vacancies.

39. Each candidate shall then be proposed by one qualified voter, and seconded by another. Subject to the control of the presiding officer on points of order, each candidate and his proposer and seconder shall be permitted to address the assembled voters on the subject of his candidature. The names of candidates not duly proposed and seconded shall be removed from the list.

40. In the case of the number of the candidates duly proposed and seconded not being greater than the number of vacancies, the presiding officer, if he is satisfied that not less than ten per cent. of the registered voters for the thana are present, shall at once declare such candidates to be duly elected.

41. If the number of candidates duly proposed and seconded exceeds the number of vacancies, the presiding officer shall proceed to take a poll for each candidate, recording the votes with his own hand.

42. All objections to voters shall, if possible, be summarily decided by the presiding officer after reference to the register. No objections shall be entertained, other than objections arising out of matters subsequent to registration under Rule 8.

43. The presiding officer shall then and there declare such candidates as have a clear majority of votes to be duly elected. Provided that no candidate shall be declared to be duly elected unless at least ten per cent. of the registered voters of the thana have appeared and recorded their votes.

44. If ten per cent. of the registered voters for the thana are not present (Rule 40), or have not appeared and recorded their votes (Rule 43), the presiding officer shall report that the electors have failed under section 10 of the Act to elect the number or members for the Local Board fixed for such thana.

45. In the case of an equal number of votes being recorded in favour of two of more candidates, all of whom cannot be returned, selection shall be made from such candidates by lot in such manner as the presiding officer shall deem fit, and thereupon a candidate thus selected shall be declared to be duly returned.

46. If any candidate, duly elected under the preceding rules, declines to take office, the unsuccessful candidate, if any, who received the largest number of votes shall be held to have been elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

47. In the event of any person being elected for two or more thanas, such person shall be at liberty to choose which thana he will represent, and in every other thana for which the said person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him.

48. After all the thana elections have been held, the list of candidates duly elected for the Local Board shall be forwarded to the Commissioner of the division for publication in the *Calcutta Gazette*.

#### *Miscellaneous.*

49. No election shall be invalidated on a point of form, provided that these rules have been substantially obeyed.

50. No election shall be invalidated on account of any irregularity whatever, unless it appears that the irregularity was such as materially to affect the results of the election.

51. No person in the employment or pay of the District or Local Board shall directly or indirectly engage in canvassing for votes, or otherwise assist in the election of any candidate, otherwise than by giving his own vote. Any breach of this rule will render him liable to dismissal.

52. All costs incurred in the preparation of the register of voters, the publication of notices, the holding of elections, or taking any other necessary action under these rules, shall be payable from the District Fund.

### PART III.

#### ELECTION OF MEMBERS OF DISTRICT BOARDS AND TERM OF OFFICE OF MEMBERS OF BOARDS.

##### *Election of Members of District Boards.*

53. A Local Board shall not elect members for the District Board until (a) the number of members of the District Board to be elected by such Local Board shall have been fixed by notification under section seven of the Act, and (b) the names of the elected and appointed members of the Local Board shall have been published in the *Calcutta Gazette*.

54. Within one month of the publication of the notification referred to in clause (a) of the preceding rule, or if later, the notification referred to in clause (b) of the same, the Local Board shall at a meeting elect the requisite number of members for the District Board. The names of the candidates shall be submitted at the meeting, and the election shall be made by the majority of votes of the members of a Local Board at such meeting.

55. In the case of the election or appointment of a Chairman, or the election of a Vice-Chairman, of the Local Board, not having taken effect, the meeting referred to in the preceding rule shall be called by the Magistrate of the district.

56. The names of the persons elected to serve on the District Board shall be forwarded without delay to the Magistrate of the district, who shall ascertain if they are duly qualified and are willing to serve.

57. If any elected candidates decline to take office, the unsuccessful candidates, if any, who received the largest number of votes shall be declared to be duly elected. If there is no unsuccessful candidate, a fresh election shall be held to fill the vacancy thus created.

58. In the event of any person being elected for two or more Local Boards, such person shall have liberty to choose which Local Board he will represent, and as regards every other Local Board for which such person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and if necessary a fresh election will be held.

59. The only persons qualified for election as members of the District Board shall be members of the Local Boards in the district.

60. The names of the elected members of the District Board shall, together with the names or official designation of the appointed members, if any, be published in the *Calcutta Gazette*.

*Term of Office.*

61. Every member of a Local or District Board, who has been elected or appointed by name, shall vacate his office at the end of three years from the date of his election or appointment as such member.

62. The term of three years mentioned in the preceding rule shall be held to include any period which may elapse between the expiration of the said three years and the date of the next subsequent appointment or election, not being an appointment or election under the next succeeding rule.

63. If any member of a Local or District Board shall be unable to complete his full term of office, the vacancy caused by his resignation, or removal, or death shall be filled by the appointment or election, as the case may be, of another person; and the person so appointed or elected shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

64. *A. Local Boards.*—As soon as possible after the expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy among elected members under rule 63, a date for a fresh election shall be fixed by the Lieutenant-Governor, and notified in the *Calcutta Gazette*, and rules 21 to 52 shall apply, as far as may be, to such subsequent elections.

*B. District Boards.*—As soon as possible after expiry of the term of office of an elected member, mentioned in rules 61 and 62, or after the occurrence of a vacancy amongst elected members under rule 63, the Magistrate of the district shall send a notice to the Local Board which has the right to elect a member to fill the vacancy, and such Board shall, within one month of the receipt of such notice, elect a member in accordance with rules 54 to 59.

J. WARE EDGAR,

## NOTIFICATION.

*The 23rd October 1885.*—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers vested in him by section 180 of Act IX (B.C.) of 1880, to confirm the following bye-laws, which have been framed by the District Road Committee of Lohardugga at a meeting, unless good reasons are shown to the contrary within one month from the date of the publication of this notification.

## BYE-LAWS.

1. No person shall cultivate or prepare for cultivation any road under the charge of the Committee.
2. No person shall tether any cattle or permit any cattle to stray upon any such road.
3. No person shall, without having obtained leave in writing from the Chairman or Vice-Chairman of the District Road or of a Branch Committee, cut any road in charge of the Committee.

---

4. No person shall remove, injure, or destroy any tree, post, or fence on any such road.

5. No person shall damage, obstruct, or encroach upon any such road by erecting any building, wall, fence, or other thing thereon, or by allowing any tree, plant, or hedge to overhang the same.

6. No person shall leave any cart or other vehicle or any cattle unattended on any such road.

7. No person in charge of an elephant shall permit it to remain upon any such road when a horse is approaching, but shall remove such elephant to a reasonable distance from such road.

8. No person in charge of an elephant shall allow such elephant to pass any barrier erected on any such road for preventing the passage of elephants.

Every person who shall offend against any of the foregoing bye-laws shall on conviction before a Magistrate be liable, under section 180, Act IX of 1880 (B.C.), for every such offence to a penalty of Rs. 10, and in the case of a continuing offence to a penalty of Rs. 2 for every day during which such offence is continued.

J. WARE EDGAR,

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,

Sub-Assistant Conservator of Forests,  
Bahramghat Division.

Bahramghat, the 1st April 1883.

## Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

## Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the following rates:—per four ounce tin, Rs. 4 annas 8; per eight ounce tin, Rs. 8 annas 8; per pound tin, Rs. 16 annas 8. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, at the undernoted rates:—per four ounce tin, Rs. 5 annas 8; per eight ounce tin, Rs. 10 annas 8; per pound tin, Rs. 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

## Notice.

THE Public are hereby informed that the well-known Kartick Barani Mela, which is held every year on the banks of the Dhaleshwari, near Munshigunge, in the district of Dacca, will commence on the 21st November 1885 A.D., corresponding to the 7th Agraahyan 1292 B.S., and continue up to the 3rd January 1886. Tradesmen, dealers, and others may buy and sell there during these six weeks.

F. WYER, Collector.

## Notice.

## GYA MICA MINES.

IT is proposed to give leases to prospect for and extract mica in the Government estates of Dubour and Chatkari in the district of Gya. Offers from persons likely to work the mines in a scientific manner will be received by the Collector of Gya.

D. NORTON, Offg. Collector.

The 1st October 1885.

## Wanted

A TEMPORARY Sub-Overseer for Hates under the Road Cess Committee of Noakholly on a salary of Rs. 40 per month and Rs. 15 per mensem horse allowance. None need apply who has not thorough knowledge of surveying levelling, and bridge making. All applications, with copies of testimonials, are to be submitted to the Chairman, Road Cess Committee, Noakholly, before the 1st November 1885.

A. BOROAU, Chairman, Road Cess Committee.

(669-3)

to the Govt. of Bengal.

CALCUTTA, the 26th August 1875.

## Notes on Forestry,

By C. F. AMERY,

*Deputy Conservator, Forests, N.-W. Provinces.*

**T**HIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London: Price five shillings.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

## The Indian Law Reports,

*Published under Authority.*

**T**HE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

*Terms of subscription payable annually in advance.*

For the complete series, including postage, Rs. 22-8.

	Without postage.	With postage.
For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
„ each of the Madras, Bombay, and Allahabad Series ...	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (inclusive of postage in India) .....	.....	„ 2 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (inclusive of postage in India) ...	.....	„ 1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink &amp; Co., Calcutta.

„ Thacker &amp; Co., Bombay.

„ Higginbotham &amp; Co., Madras.

The Government Central Book Depot, Bombay.

„ Curator of Government Books, North-Western Provinces and Oudh.

Superintendent of Government Printing Bengal.

Orders and subscriptions for 1885 should be at once remitted.

## Notice.

**T**HE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e. from May 15th, to November 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,

Meteorological Reporter to the Govt. of Bengal.
